The Reverend Benjamin Conley will be the new advisor for the Montclair Protestant Foundation for the coming year. He will succeed Mr. O.C. Dean. Conley has traveled widely, performing mission work in fourteen countries. He attended a study conference in Australia.

Dr. Gilbert O. Hourtoule, Liaison Officer for the Danforth Foundation, announced that fellowships worth up to $12,000 are available for teaching careers in college. The fellowships, offered by the Danforth Foundation of St. Louis, Missouri, are awarded to U.S. citizens, and are also given to foreign-born college teachers who have completed their doctorates in Science, Mathematics, Business, or Law.

Conley Heads Protestant

As a student, Reverend Conley served as class president and national president of the Methodist Student Conference. Reverend Conley is attempting to accertain the relevancy of current methods in the field of Religion and Psychiatry. He is completing his doctorate in Religion and Higher Education. Conley will be eligible for the Presidential Scholarship for the next five years.

The former Tennessee pastor and World War II veteran, received his B.A. degree from Allegheny College and his M.A. degree from the Union Theological Seminary.

Conley was admitted to the M.B.C. in college, state, and national levels of the Methodist Student Conference. He is also a delegate to the National Student Conference. Reverend Conley is attempting to ascertain the relevancy of current methods in the field of Religion and Psychiatry. He is completing his doctorate in Religion and Higher Education. Conley will be eligible for the Presidential Scholarship for the next five years.

"Welcome"

Although freshenrs have already been welcomed and introduced to Montclair State, the MONTCLARION, the voice of the student body, feels that, assisted, it returns to the MSC campus, one person will be missed. Carol (cygnus) sophomore science major, was suddenly called to her eternal residence August 30, 1963 in an automobile accident while on her way to a pre-scheduled presentation.

She will be missed by all those who knew her at MSC, but especially by the students of the science department, where she and her group mates formed strong enough to know Carol better than the rest of us.

"Warning!"

"Unauthorized persons must not enter the construction area of buildings still under construction. Not only do visitors interfere with the progress of the buildings, but they also assume considerable risk of bodily injury. It is also dangerous to explore the areas that are being excavated. Loose rocks may fall at any time and cause serious injury."

E.D. Partridge

Letters to the Editor

To: All Class A and B Organizations
From: The Student Government Association

All Class A and B Organizations are requested to attend an organizational meeting held by the Student Government Association on October 9, 1963 at 7:30 p.m. in the cafeteria to discuss the financial set-up of the SGA and other rules and regulations concerning student organizations on campus.

The SGA prefers that the organizations' representatives be the president and the treasurer. Also, failure in representation will result in that organization's suspension from activities during the fall semester.

Sincerely,
Geoffrey Schmid, President, SGA

New Faculty

Continued From Page 17

from New York University Arts and Sciences. Dr. H. D. Zim- mer, assistant professor, who was graduated with a B.S. degree from Cortland State College and an M.A. from New York University.

Additional members of the Indus­ trial Arts Department include: Marshall A. Butler, as­ sistant professor, who holds a B.S. degree from Nebraska State Teachers College, and George B. S. Feller, assistant professor, who graduated from Hiram College and an M.Ed. from Northeastern University.

To the Mathematics Department, we add Jack M. Otto, as­ sistant professor, who was received a B.S. from Marion Col­ lege and an M.A. from Ball State Teachers College; and Walter R. Westphal, assistant professor, who was granted a B.S. degree from State University College of Education in New York, N.Y. and an M.A. from Teachers College, Columbia University.

New members of the Science Department include: Richard N. Hood, assistant professor II, who received his B.S. from Tren­ ton State College, and an M.A. from Mont­ clair State College, and M.A.T. from Brown University; and Henry M. Muschio, as­ sistant professor, who graduated with a B.S. from State Uni­ versity and an M.S. from Ford­ ham University.

Newly added members in­ clude: Louis J. Gullit, assist­ ant professor II in home eco­ nomics, who received her B.S. from West Virginia University and her M.S. from Purdue Uni­ versity; Roger D. Born, assist­ ant professor II in music, who was awarded his B.A. from City College of New York, and his M.A. from Teachers College, Co­ lumbia University; and Joyce I. Lepeschkin, assistant professor II in physical education, who accepted her M.S. and M.S. degrees from University of Utah.

Also included are: Gertrude T. Greenberg, assistant professor of human development and professional standards.

From the President's Desk

The all-college convocation on Tuesday, September 25, was an event which no student of the college should have missed. This convocation actually came into being as a result of student requests several years ago. A group of students met with the president of the college and pointed out that until they gradu­ ate and participated in com­ mencement exercises they had no real opportunity to see the entire faculty or to experience the pro­ minence that is customary in colleges and universities for events of this kind. As a result of these students' requests, the faculty committee prepared recom­ mendations with regard to a college convocation.

Civil Defense

ment of the State Department of Education.

Taking the course were: Dr. Irwin Gawley, Dr. Gert L. Dan­ ile, Dr. Samuel McDowell, Ro­ bert R. Bayne, and Stephen Kos­ wiunkt from the Science Department.

The course which has been taught to several hundred people in the New Jersey schools is finally going to be taught to all teachers.

Further information regarding class scheduling will be available after the Administrations determine final organization.

Wapalanne

(Continued From Page 1)

The program for this year includes the Director, Cliff D'Ambrosio, and the other specialists. They include Mr. James Gifford, in charge of the camping program; Mr. Richard Gallien, director of the public school program; and Mr. Robert Paul­ skey, recreation director. The college faculty will work closely with the above specialists in developing the program for Mont­ clair students. In addition to the permanent staff at the camp, a number of resource personnel from the New Jersey Department of Conservation and Economic Development cooperate in the program.

SEAM To Hold October Meeting
On Wednesday, September 19, at 3:00 p.m., the Student Education Association held its annual "Freshman Open House.

The 180 attending members were featured by Dean Lawton W. Bilton, comment on the rising sense of professionalism among college students. The Dean also reviewed the existing services of the personnel office and invited the students to contact the office regarding both this service and others offered here. Concluding his humorous and informative talk, Dean Bilton spoke of the advantages of membership in SEAM and noted that professionalism on the campus seems to be rising rapidly.

The meeting also brought the announcement of Anthony R. Kohn, as successor to Miss Marie France, in the capacity of SEAM advisor for the 1962-63 academic year.

Before refreshments were served, the members were invited to sign up for the activities of the year.

Meade Takes Survey

Worldwide Schools
Dr. Edward J. Meade, Jr., a 1954 graduate of Montclair State, and currently with the Ford Foundation, has been appointed by the Secretary of Defense to membership on a committee of distinguished educators who are conducting a worldwide study of overseas elementary and secondary schools for dependent children of military personnel.

The team will leave the United States shortly after mid-September to launch a study of schools in England, France, Germany, Italy and Spain. Later, in mid-October, the group will go to the Pacific to study schools in Japan, Korea, China, and the Philippines. Upon completion of the survey in November, the team will make a report including commendations to the Department of Defense concerning the improvement of educational programs in these schools.

Dr. Meade received both an A.B. and an M.A. from SEC and later received an Ed.D degree from Harvard University. A former teacher and administrator in Parsippany-Troy Hills, he now serves as chairman of the Center for Field Studies at Harvard.

At present, Dr. Meade is a member of the staff of the Ford Foundation and the Fund for the Advancement of Education which has offices in New York City.

Events Calendars

Distributed
Calendars featuring the outstanding events of the school year were distributed last week to each student.

Compiled at the suggestion of Dr. George Soto, director of the Student Success Center, these calendars contain pictures of the Montclair campus, as well as spaces for students to write in individual engagements. The calendars are distributed free and may be either inserted in notebooks or tacked on walls.

The calendars were distributed to the campus, thereby making it free for each student.

Students who have not yet received their calendars may pick them up in the SGA office.

The makers of Montclair will bring you this unencumbered, free-style column 24 times throughout the school year. During this period it is not unlikely that Old Max will step on some toes—principally ours—but we think it’s all in fun and we hope you will too.

Miss Wolf

Three Foreign Girls Matriculate At MSC

Three Foreign Girls Matriculate At MSC

Miss Wolf and Miss Miranda:

Once again Montclair welcomes to its campus students from foreign countries. This year representatives from Australia, India and Japan are matriculating at Montclair, with all three expected to help stretch the boundaries of the Greats Overseas Neighbors, Margarita, Wolf will be given the opportunity to supplement her studies of law at Gratzas a dorm resident in Russ Hall.

Miss Mohini Miranda, from Bombay, India, is already a teacher in India and is doing graduate work in science at MSC, and may stay on to matriculate for reseeding in Paterson with Miss Miranda.

Miss Miranda's undergraduate school is located at Montclair.

Board Chairs

Professor Allan Morehead, chairman of the Education Department at Montclair State College, was granted a special increment in recognition of his outstanding service to the college and to education in general. This special increment, announced by Dr. E. DeAlton Part, board chair on March 17, 1962, was instigated by the Commission on Education, Dr. Frederick M. Rabiner, to help the students of the State Colleges recognize and retain some of the excellent faculty members who have had long service and who have performed outstanding service.

Miss Wolf graduated from Montclair State College in 1948, received her Master's degree from Montclair in 1941 and his doctorate in education at Columbia University in 1947. He was a local high school teacher and a teacher assistant principal in Ridgewood. He joined the Montclair faculty in 1947, and currently with the Ford Foundation, is now involved in the war. Dr. Morehead is a graduate of Massachusetts Institute of Technology and lives at 50 Chamberlain Avenue, Paterson, New Jersey.
TV Personality

Dorothy Gioseffi Manages One Women Television Show

Above is pictured Montclair's Dorothy Gioseffi, Dorothy Jeffers, as seen interviewing the Chief of the Eastern Greek Nation on her TV show, "Women's World.

Student Forum

DO YOU THINK THE PARKING FEE SHOULD HAVE BEEN RAISED for the interested student to talk with a professor over a cup of coffee, who did not know, "Are you tired, Dot?"

Jane Irwin, junior, physical education: "I do not want to see why it should have been raised when there are not enough parking spaces available.

Lit. Belk, junior, science: "I do not drive to school, but I feel it was unfair to raise the parking fee."

Jew Rubinowitz, sophomore, Spanish: "Raising the fee is terrible, especially with the parking situation the way it is, and then allowing the freshmen to park anywhere. Well, if you have to, pay it yourself."

Jane Brooks, sophomore, physical education: "I think it's ridiculous to raise the fee to $10, and then take away three parking spots.

Thomas Thiesem, sophomore, science: "For $10 they should cut a pathway from the parking area to Finley Hall."

Mary Tromm, senior, home economics: "Even though I was reading the notices stating the change, I don't understand why the extra money is needed or how it will be used."

Pete Carparelli, sophomore, science: "They should restrict the freshmen to a special parking area. What are the chances of adding cable cars?"

At any rate, if there are any students who have at one time or another wanted to talk to a professor over a cup of coffee, a start could be made towards the institution of a periodically scheduled coffee hour on Montclair State.

Please contact Frank Rega if you'd like to help get the ball rolling on such a program.

Players To Show Slides Of Summer Uso Tour

Dr. Howard Fox, chairman of the Speech Department at Montclair State College, is inviting the public to a meeting of the college Players on Wednesday, October 5, at 8:00 p.m. in room J-2, which is rented to Memorial Auditorium at Montclair State College.

Dr. Fox and members of the cast of "Light Up The Sky!" are going to tell about their experiences on their USO trip to the Arctic, to entertain servicemen under the Northeast command. Greenfield, Ireland, and Newfoundland.

Slides of their trip will be shown after the business meeting at 7:15 p.m.

Successful Book Store Receives Outside Bid

Tucked away between the second and third floors of the SGA and the Montclarion is the one-room Usted Book Store, run by Warren Farrell and Joyce Siaski.

This service was established last year by Farrell to help defray the costs of buying new books. After receiving administrative and Co-op approval, the operation opened for business the second semester last year.

Students bring in books they no longer need or want, and receive the price minus a service charge of 80 to 82.5 percent if the book is sold. Unsold books are collected by the owners for possible resale later.

Last semester over 400 books or two thirds of the total placed on sale were sold. Farrell anticipated that probably will be the same two-thirds margin this year with over 500 books entered for sale.

The first attempt put the Used Bookstore in the "red" as many books were stolen and students had to be reimbursed for the loss.

This year the Co-op is supporting the Used Bookstore in every way except if a loss is encountered.

The Citizens Committee of the Faculty-Student Co-op has arranged with a New York book store to buy any left over books if the student requests that his book be sold. Requests for the selling of books may be made to the Co-op after Farrell via the bulletin board in lower center of student lounge.

An offer was made from another company to take charge of the Used Bookstore and pay students a stipulated salary. However, the offer was rejected in that the students could get more for the price of the book when bought from the student and the resale price.

Who's Whose

There's Something Due Any Day...

The Deep South Broadcasting Company also controls WAPE radio, in Birmingham, Alabama and WBAM in Montgomery, Alabama.

Did students feel that the decision to raise the parking fee was appropriate to a group of intellectually curious students and faculty members? Is there a different opinion among the students who feel it was unfair to raise the parking fee? How was the decision made and who was involved in the decision-making process?

The Montclarion masthead includes the names of Dorothy Gioseffi, Dorothy Jeffers, and Mary Jennus, senior, Home Economics. What is their role in the Montclarion, and how might their experiences or perspectives have influenced the content or tone of the newspaper?

Who's Whose

Highwaymen To Appear At Montclair State College

Continuing its program of presenting well-known artists on the Montclair Campus, the SGA has scheduled the HIGHWAYMEN to sing at Montclair State College on October 24 at 8 p.m.

The HIGHWAYMEN, a group of young men whose styling of folk music is making them internationally famous, hold the distinction of hitting the show business charts with their very first recording, "Michael," a reworking of the traditional folk song. This recording has sold over 1,000,000 records, a rather dramatic indication of the group's potential.

What began as a college fraternity stunt has become one of the most sought-after folk singing ensembles in the entertainment business. After some preliminary knocking around at Hot Tuna's (folk-singing soirees) throughout the East Coast college belt, the group's talent came to the attention of Ken Greengrass. He was convinced that the boys possessed the qualifications of stardom in the highly specialized field of folk-singing and signed them to his roster of talent. What followed was "Michael" and all of their subsequent successes not only in the folk field, but also in the so-called "market."

The HIGHWAYMEN, honor graduates of Connecticut's Wesleyan University in June of 1962, followed their initial recording with two highly successful albums: "The Highwaymen" and "Standing Room Only." Their third offering "Encores" has continued to keep their album sales on an upward trend.

The appearance of the HIGHWAYMEN are on sale this week, during lunch hours, outside the cafeteria.

The Highwaymen

Activities calendar provided

During the summer vacation, an event calendar was set up by the SGA. This calendar includes all social and academic events. It also will provide space to mark in future events not listed at the time of printing. Included in the calendar is the schedule of social events, academic procedures, pictures of MESC's campus and a map of the campus. The calendar will be distributed free by the SGA. Upon the suggestion of Dean Henry, George Schmidt set up the calendar. At the first meeting of the SGA, President Schmidt presented the idea to the board. The appropriation was made for the calendar to be printed.

Poet's Corner

MOTHER'S SOLILOQUY

Stay here, child, with me.—
It is better here;
Out there it is cold and violent.
But, already you are troubled—
you kick, you cry;
You are bursting the walls that bind.
Tearing loose—in a torrent—the waters of protection.
Oh, stay, stay, my child—
The world is not the same.
It hurts—Oh God—don't go my sweet!
(But then, you must).
And so, the mother weeps, and cries, and screams—
While the rebel works his way down—
With the constant looking forward.
We begin it upside-down, with a rap on the rump, and a shriek of pain—
And, as we know there is no returning
And so, the mother weeps, but quietly now.
There was so much more love in the womb, my babe—
There was the real love.

Marie Frazee

While Frazee Absent Anthony R. Kootl Present

Miss Marie M. Frazee, Academic Counselor at Montclair State College, has been granted an eight-month leave of absence beginning October 1 of this year, in order to pursue graduate studies at Teachers College, Columbia University. Miss Frazee will remain at Columbia until May 31, 1963.

Replacing her as Academic Counselor will be Mr. Anthony R. Kootl, Rutgers University in New Brunswick.

While at Columbia, Miss Frazee will undertake graduate study in Student Personnel Administration in Higher Education, leading to the degree of Doctor of Education. The Faculty Development Fund has awarded her a partial grant providing financial assistance for her stay at Columbia.

Because of a residency requirement at the University for graduate work in her field, she would not have been able to pursue her studies without the eight months leave of absence from her position at Montclair State.

Since the beginning of this semester, Mr. Kootl and Miss Frazee have been working together in order to provide a smooth transfer of duties at the time of Miss Frazee's departure.

While at Rutgers University Mr. Kootl was head varsity basketball coach and also coached freshman soccer and varsity tennis. He is presently nearing completion of his studies for a Doctorate of Education with an area of teacher education and higher education administration.

With the return of Miss Frazee next June, the two will again work together in order to acquaint her with procedures in effect at that time. Concurrently, the system of overlapping the work of the two counselors in September and in June, Miss Frazee said she was very happy about the whole arrangement and the added that "Mr. Kootl is off to a very good start, and I am happy and impressed with the success of the period of cooperation."

The duties of Academic Counselor range from schedule-making to planning academic advisory sessions, and include organizing programs of transfer students, processing change of major requests, registration adjustments, and adviser to SEAM.

SNJEA News

The Student-New Jersey Educa tion Association represents every future teacher in New Jersey. It has 5,000 members, which include high school, or ETA (Future Teachers of America) chapters and college, or SNA (Student Education Association) chapters. Montclair State is the only college chapter which adds another title to the family, making it SEAM.

This year the S-NJEA is sponsoring a Speaker's Bureau, which will include interested and qualified Montclair State student speakers. The Bureau will train these speakers on the relationship between college chapters and high school chapters of the Education Association; they will inform high school teachers of education progress, such as in reference to student teaching.

The speaker will learn how to engage in helping high schools begin where they haven't already begun, and in offering new ideas where they haven't already begun. These Bureau's will be an educational experience in planning and those learning. If any Montclair students are interested they should contact Warren Farrell.

Your next holiday is the NJEA Convention at Atlantic City, Nov. 9, 10, 11, at which time all S-NJEA members, which has automatically become if you join SEAM, are invited to meeting of the S-NJEA at the Ambassador Hotel. This year, for the first time, it will be required for all non-teachers to be able to prove their membership to the SEA before they may attend the convention. Even without this incentive, in past years, SEA has remained the largest organization on campus, other than the SGA, and its 404 members of last year have made it the second largest chapter in New Jersey.

Palisades State College is host this year to the All-College Conference on October 6, 7, 8, Montclair State will send a substantial number of representatives.

A new leadership conference, for all members of the executive committee of all SEAs in the state, will show hopes of being an excellent opportunity for the group. It is planned to proceed the annual Spring Convention at Atlantic City, Apr. 27, 29, at which time the compact year of events will terminate and new officers will take the helm.
Unleashing a dazzling new cast of characters, Montclair's high school football team, the Delaware Valley College of Science and Agriculture, prepare for the season as fierce competitors. Their opening contest against a formidable foe, the Deacons, is about as daunting as facing the braves this season, but nothing could be far from the truth.

Montclair has been able to gain the upper hand in scoring, but a more consistent effort is essential to the successful defense against the nagging tendency of the galloping losses. The offensive total of the Aggies was not expected, however, and it could be expected to go to the feathered winners.

The defensive strategy requires the support of the entire team. Bob Purcell, Charlie Kane, Lyle Peterson--21:15. Charlie has almost scored one goal, but in the last minute he scored a penalty nipped that effort. Charlie has been a fitting substitute to corral the Washington defense.

The scoring margin of the gallopping losses is the lack of a strong supporting cast. The scoring tendency is the lack of a strong supporting cast. The scoring tendency is usually the result of a lack of teamwork and coordination among the players. The Montclair eleven for a 15-yard goal.

Never giving up hope, the Invaders from Delaware Valley will surely make a comeback. The Deacons marched goalward on quick passes and sweeps engineered by Deo, Ron Cherkin, and Roger Purcell.

The WRA executive committee is looking forward to a bigger and better year, and with you, the WRA, cooperation and interest, this will be possible.

Ken Villani

**Co-Court Cross-Country Team Hopeful In '62**

Dr. Willing Seeks Faster Freshmen

Ken Villani

Montclair's soccer team just squeaked out a victory last Wednesday as Tim Turner booted the penalty goal in the final seconds to give the home team a 2-1 victory over Bloomfield College. In the history-fought contest, Turner and freshman David Flock were the heroes along with Jim Ballard who bootied the other Indian goal.

Montclair's soccer team just squeaked out a victory last Wednesday as Tim Turner booted the penalty goal in the final seconds to give the home team a 2-1 victory over Bloomfield College. In the history-fought contest, Turner and freshman David Flock were the heroes along with Jim Ballard who bootied the other Indian goal.

The scoring margin of the galloping losses is the lack of a strong supporting cast. The scoring tendency is the lack of a strong supporting cast. The scoring tendency is usually the result of a lack of teamwork and coordination among the players. The Montclair eleven for a 15-yard goal.

Never giving up hope, the Invaders from Delaware Valley will surely make a comeback. The Deacons marched goalward on quick passes and sweeps engineered by Deo, Ron Cherkin, and Roger Purcell.

The WRA executive committee is looking forward to a bigger and better year, and with you, the WRA, cooperation and interest, this will be possible.
