# 2014 VALE LIBRARIES TECHNICAL SERVICES FUNCTIONS SURVEY RESULTS

Mei Ling Chow • Montclair State University ▪ Melissa De Fino • Rutgers University ▪ Jian Wang • Richard Stockton College

## INTRODUCTION

## Digitization Rising Rapidly

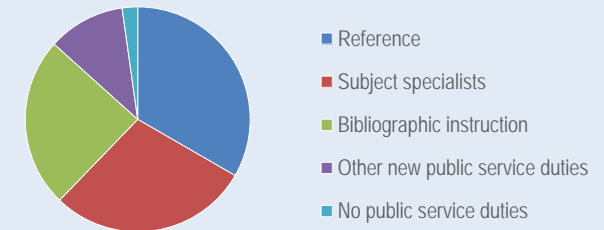

As would be expected, our digital collections are growing.

## Challenges

- Short of staff; broader job duties; higher skilled work with technical focus
- E-book purchasing models
- New cataloging rules; digitization and metadata standards; weeding; backlogs from large gift donations
- Keeping up with public-access technologies
- Collaborating on statewide projects

## New Public Services Duties

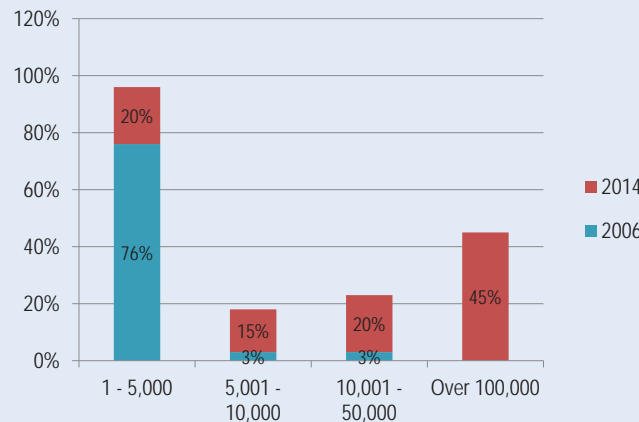

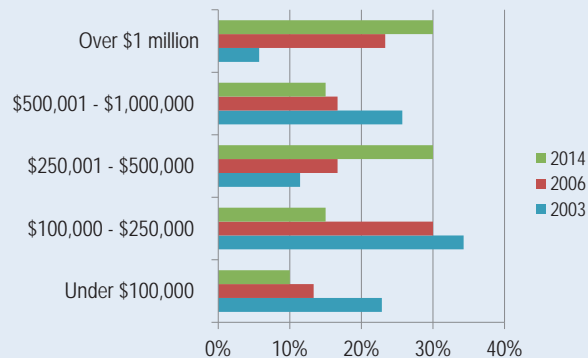

## Increasing Cost of Acquisitions

## Huge Expansion in E-Book Collections

In 2006, 76% held 5000 or fewer e-books. In 2014 45% have over 100,000.

In 2003, only 5.7% of respondents had acquisitions budgets over \$1 million. By 2014, 30% of us reached that number.

## Authority Control

Authority control is improving! In 2003 11% respondents still did not implement authority control. This year every institution has authority control!
