Mr. Fernández first explained how Fidel Castro came to power, Edel spoke of the previous Batista ruler and how the dissatisfied people turned to Castro for leadership. Giving first hand reports of the Impoverished satisfaction people turned to Cas­

Dear Editor:

In the February 14th issue of this publication, it was shocked to see a so-called "The Lover's Poem." I would also like to point out that the "The Lover's Poem" was not the work by T. S. Eliot. The poem was written by Edgar Allan Poe.

John O'Brien

Dear Editor:

Can there be any explanation for a one-page article in this age of automation and electronic computers we, as students, are compelled to endure such a long period of time without a break? The Students' Senate is acting as if it were a totally foreign environment. Since some courses require prerequisites, how is a student to select courses for the ensuing semester when the grades are not known?

Other state colleges can and do distribute grades within one week after the completion of final examinations. No logical explanation presents itself as to why such an efficient system cannot be instituted at Montclair State College.

It seems as if money has been foolishly spent to provide up-date methods of calculating, recording, and distributing grades, while the time required to do this has constantly increased.

Ralph D. Edelbach

Dear Editor:

I am one of the 557 members of the Student Education Association at Montclair (SEA). Last week you printed an article about our officer's election and our plans for the coming year. However, each of these plans was merely touched upon, and all seven plans together did not total a sentence long list. I imagined whether we had been given the information given to the MONTCLAIRON, and found that it was only a paragraph in it; it was not the information of which I was responsible for having short-spaced the item. Students at Montclair have given me a standard common-goal to teach. There is only one goal: to provide a wholesome atmosphere which is representative of our college and our college's best interest. Now that it has finally become active it should continue to maintain full attention of the student body. I understand that the MONTCLAIRON is going to give more space to SEA and the paper. I hope that, in doing so, you will also give a job to some of our members. In the reply to the Editorial from the "Herald News," I feel that the argument seems theoretical; we are solely students, need and want this type of professional organization. If the MONTCLAIRON continues to uphold this fine tradition the students will not be denied these essentials.
