The youthful Edel told how he was contacted to volunteer for his country's freedom. He was sent to Guatemala where training was conducted by ex-army officers who "never told us where they were from." The cold, rainy, snake-infested jungle 3500 feet above sea level was very similar to Cuban conditions. He and his fellow outfits were taken to planes, des­ tination unknown, and flown to their respective positions, which they held without resistance for 3 days. The invaders, 6 bat­ sions (1000 men) finally ran out of ammunition, 2 of their 5 ships, 17 pilots and 9 planes. The total casualties were 300 Castro fighters and only 150 invaders.

Edel was then captured trying to obtain water, having gone 6 days without food and three with­ out drink. The Russians loaded him in a truck with the other prisoners and took them to cold castle to be executed. Ten days later, along with the others, Edel was killed.

"The majority of MSC students yearns for a woman. After marriage, a man yearns for his country's freedom. He was contacted to volunteer to fight for his country's freedom. Edel went on to talk about a question and answer period at which time he spoke to Castro, "I also think that it's a little bit out of his mind," and referring to a possible second invasion, "It has to happen—there's no other way."

Edel Fernandez majored in English and Animal Husbandry respectively at the University of Miami and the University of Flor­ ids. He is now temporarily out of work and wants to continue his education possibly at Rut­ ger's or elsewhere. He asked if he would locate to support his new wife and realized, "I don't expect money for telling the truth."

Demonstrations will be per­ formed, almost entirely by the men and women physical educa­ tion majors in the freshmen, sophomores, and junior classes. A few seniors, who are physically teaching, will return to take part.
Dear Editor:

In the February 14th issue of the MONTC LARION, I was shocked to see a so-called "poem" entitled "The Poet's Corner."

First of all, "The Love Song of J. Alfred Freedick" by T. S. Eliot is a very beautiful poem, but I was quite shocked when I read the imitated and ridiculed Eliot's poem as I do not think it is a meaning of the poem in the last issue was just last paragraph. I would also like to point out that the students do not think the Poet's Corner presented poems because they do not want to lose the opportunity to read original, literary contributions. The Snack Bar did not fulfill the purpose of "The Poet's Corner."

I realize that the writing of poetry is a personal task, but it is not true to say that poetry is not an art which can be created by anyone. Therefore, perhaps, I am in line to position to criticize. However, I would much rather miss this feature of the MONTC LARION for one issue than be subjected to some pretense of poetry.

Author's Comment:

In reply to the above letter from an interested student, I would like to criticize the shallowness of the latter's form to stress his emotion. As Eliot's "Poet's Corner" presented poems because they do not want to lose the opportunity to read original, literary contributions. The Snack Bar did not fulfill the purpose of "The Poet's Corner."

Dear Editor:

Can there be any explanation or reason for the following in this age of automation and electronic computers where we, as students, continue to expend such a limited amount of time taking notes in our grades? Since some courses require prerequisites, how is a student to select courses for the ensuing semester when the grades that he has taken are not known?

Other state colleges can and do distribute grades within one week after the completion of final examinations. No logical explanation presents itself as to why such an efficient system cannot be instituted at Montclair State College.

It seems as if money has been foolishly spent to provide up-to-date methods of calculating, recording, and distributing grades, while the time required to do this has constantly increased.
