New Cause Supported

It is a good thing when students can rally to a new cause with support of almost one hundred percent. The new cause is the leadership position of the Student Government Association which will be held in the spring before senior year.

Approval of plans, the Conference Committee received affirmative answers from forty-three of the fifty invited organizations. Conferences included the group sensitivity, and dynamics is necessary when one is leading an organization. It implies Montclair student have need and are willing to spend time and money to help themselves become more aware of their own and others' leading groups.

It is hoped that this first September conference will be so well received it will be an annual affair which will eventually extend to more organizations and possible even to students who are not members of an organization executive board.

Thiefs—A Moral Issue

Since September a series of thefts have occurred on this campus perhaps unobserved to the majority of students. While some thefts have been petty, there has been outright stealing accompanied by people at MGC.

The Student Government Association has had an adding machine and a typewriter stolen from the office. Despite requests to return the borrowed adding machine, it still remains in foreign hands.

Students themselves find valued possessions missing. One male student returned to his car to find his trunk unlocked and a set of drums costing approximately $1,000 stealably removed.

One of the other thefts was that of a Polaroid camera from the MONTCLAIR. The bookstores state that many books have been stolen from their shelves. If these students are taking gym, books are carelessly removed from the check-in locked locker rooms. Even the room cost area outside the cafeteria is subject to book thievary.

The pettiest theft of the stolen list is a Polaroid camera from the MONTCLAIR.

Just what is to be done about this wave of thefts and petty pinings that is so commonly misfigured yet prominent on our campus? There are doubtless many more incidents of similar nature that have been "hushed-up" because involved parties concede sufficient caution was not exercised or lax security measures accounted.

Stealing is a criminal act no matter how large or small the item. Is MGC harboring criminals in the persons of the ivy or campus? There are doubtless many more incidents of similar nature that have been "hushed-up" because involved parties concede sufficient caution was not exercised or lax security measures accounted for.

The theory at Montclair State is that students have a right to develop and enjoy their own social life just as far as responsibility can be carried. Social activities including clubs, fraternities and sororities are governed directly through the Student Government Association. The Student Government Association is responsible for chartering organizations and for the administration of the charter. Responsibility is shared between the students and the college. The charter of the college is the State Board of Education. It is probably true to say that there are fewer such controls on the campus of Montclair State than most other colleges. This is because in the past group, there has been a good-sized number of eligible, of regard for other persons, of respect for community and the like. They obviously have no respect for themselves or they would have more chance of being arrested for a crime. Yet thinking is probably too straining on their ever so limited mental and nervous systems.

This matter of theft is no rare occurrence. It is too frequent and costly; it must stop. It is our duty as students to discourage petty acts and thus prevent major acts. It is our duty to all other students. Are they the Insecure, attention-seeking immature who do not care what we think? Are they the Insecures, attention-seeking immature who do not care what we think? Are they the Insecures, attention-seeking immature who do not care what we think? Are they the Insecures, attention-seeking immature who do not care what we think? Are they the Insecures, attention-seeking immature who do not care what we think? Some organizations have demonstrated their quality by the kind of activities they organize and carry through with. The Campus Queen dance, the Greek Sing are examples of what we've done where a group works hard enough to carry out a responsibility. There is no reason why this cannot be done by other organizations.

MIRIAM MAKEBA's Songs of Africa

It seems unbelievable that less than four years ago a few Americans had never heard of Miriam Makeba. Yet when she made her American debut on the Steve Allen Show in 1959, she was a virtual unknown. This makes her rise to stardom all the more significant.

Born in 1932 in Johannesberg, South Africa, Miss Makeba was the youngest of three children. Her schooling was limited by her lack of funds; her musical education was nonexistent. Yet she sang with amateur groups and was invited to tour Africa with an established vocal group, which she did for two and a half years. In 1957 Miss Makeba branched out and decided to join a touring African repertory. The same year she appeared in Lionel Rogosin's counter-cultural and most respected film "Come Back, Africa!"

For 16 months the troupe toured in the Venus and stopped off at the Mark Hotel and the Edison in New York City, and at the Celebrity Room in Chicago. Harry Belafonte's concert tour.

Answer Your Questions?

Q.—Can snowflakes be preserved?

Since then she has appeared at The Blue Angel and the Waldorf's Empire Room, has received considerable standing ovations at the Evansville Film Festival and was welcomed at the Century Theatre. Harry Belafonte's concert show.

Answer Your Questions?

Q.—How many men's brains are there for food. This compares with 40 percent in Japan and 60 percent in India.

Q.—What is the literacy rate in the United States today?

A.—As of 1960, the national rate for the 14 years and over was 12.9 percent. In 1850 it was 7.6 percent; and the highest was in Louisiana, 6.3 percent. Although there were approximately 3 million illiterates throughout the country, this suggests an increase of 1 million "functional illiterates." This term refers to persons who completed fewer than five years of school.

Gym Demonstration Success

Joan Kahle, Gymnasts Outstanding

With regard to the Gymnastics Team, there is a second aspect besides the fine job of the participants. That second aspect is a very distinguishable factor, for there are motions that will germinate, the forcast of things to come. By the talents of several of the members of the boys' team, the potential of the gymnastic team that will be one of the best in the country, can be wondered. While the sport is still young here, it is definitely growing and the making for a good team is here now.

Those present at the PANZER Demonstration, once again had the pleasure of viewing one of the finest gymnasts to come from Montclair, Tony Napier. Tony, who has graduated from Montclair and is now the gymnastic coach, was substituting for Ken Allen, Tony has been an outstanding gymnast for quite some time and the observers were once again thrilled by his performance.

Mr. Napier, who has won high school championships, appeared professionally on television, and toured the world for the United States Army as a gymnastics performer. At Dickinson High School in Jersey City, Tony won numerous individual championships. In 1953 and 1954 he was selected as the All-Around Champion. This award included participation in tumbling, rings, parallel bars, long horse and calisthenic events.

Professionally he has appeared in tumbling exhibitions in Madison Square Garden and on the Ed Sullivan television show as a member of "The Four Horsemen," a trampoline act. During his army service, he was a member of the touring soldier show called "Rollying Along." At the present time, Tony is now training. He is currently working out on the six foot beam.
