PROTECTION DISCUSSED

Representatives of all factions involved directly in the lighting and protection problems at Montclair State were present to voice their complaint. It is generally agreed that the system of protection is not adequate and that certain areas on campus should be considered for additional surveillance.

POLICE PROTECTION

The discussion was started by the representative of the Student Protection Committee. He expressed the need for more police officers on campus and suggested that the police department should be more visible to students.

Mr. McGinty then commented on the unique one-man presentation of Twain's humor. He pointed out the importance of understanding Twain's humor in order to appreciate his works.

To Ann Yurchuk and Kim Reid

Firehouse on April 16, outside the cafe

Perhaps the key to the attraction success is to be found in the transformation of Holbrook's uncanny portrayal of Twain's humor. His every word and gesture, his every nuance of Twain's voice and manner bring him to life at any moment.

Montclair State College Considers Trimester Foreses Year Round Classes

This article was taken in part from the December 15, 1962 issue of the Montclair Sun. It enumerates the methods of utilizing the full capacity of the space in colleges for the purposes of continuing classes all year round. Montclair State is seriously considering expanding facilities to provide for a summer semester.

Edward B. Litchfield, Chancellor, University of Pittsburgh, contributed an article "The Trimester System" which maintains that the same amount of work can be covered in each trimester as was covered in the previous two semester system. The year is divided into three fifteen-week terms of "trimester." Each trimester is the equivalent of a semester under the traditional two-term system.

To accommodate the three trimesters without reducing the number of class days in each term, the second year is lengthened from the usual eight or nine months to ten months. The summer and holiday periods are likewise reduced.

The full trimester at Pitt begins the first week of September and ends at the Christmas holidays. The winter trimester begins shortly after the first of January and extends into mid-April. The spring term starts in April and concludes in early August. There is at least a one-week break between each term and the next, and a month-long vacation between the spring and fall terms.

"Attendance at all three terms each year is optional for the student at Pitt. He may elect to go to school for eleven months in some years and not in others, or he may choose to complete his undergraduate work in the usual two-terms-a-year fashion. And if he decides to take a term off, he need not do so in the summer; he can choose any trimester for a vacation period.

"We are convinced that the student who really works during the summer will benefit. Some classes and laboratory experiences would be better off in the long run to attend school year-round.

"The curriculum will be divided into five groups. The groups will be divided into five groups. The groups will help to form the future curriculum and will be the basis for a final report to the State Curriculum Commission.

Complaints seem to order the day, so here we go again. When someone makes it known that he desires a correction, he usually does his utmost to stand by that position until such a condition is remedied. In the case of the students at MSC, many have complained and few have seen the light.

Many students who expressed discontent about the fire last fall, at night classes, or about the parking program, seemed to ignore the fact that the SGA meeting was held to discuss the lighting problem, and not the parking. All students interested in parking should peruse the minutes of the SGA meeting, find out the facts, and discover the functions of a college newspaper. Students are content to sit and yell, but the mud is getting higher and the din is lower. We can stop getting the letters of mild concern. All we have obtained in the past were facts about articles on the activities. Unless something is said by the students, about the permanent fixtures on this campus, no programs will be arranged for, because of the incompliances we face. A variety of programs adds to the appeal of the college, but who will come a second time to find out if parking space is unavailable, lights are turned out so that visibility is lost and fees are unseemly from the parking areas. How void of awareness are you?

GEORGE SCHMIDT, President

The aforementioned announcement places before you, the student body, the vital question of who will lead you through the student body, the vital question of who will lead you through the student body, the vital question of who will lead you through the student body, the vital question of who will lead you through the student body, the vital question of who will lead you through the student body, the vital question of who will lead you through the student body. In less tumultuous times, our campus elections were marked by an almost crippling apathy. This year cannot be the case. As responsible members of the Student Government Association, it is your duty to consider carefully the implications of these elections. If you are qualified for an office, be a candidate for that office. If you are not qualified for an office, file a complaint, and campaign for someone who is. Be fair to yourself and be of service to your college by electing the best qualified students to the SGA Executive Offices.

On April 14, at 7:00 the SGC will hear Mr. Anderson talk on "Teaching on Guam, our Pacific Outpost." Mr. Anderson will describe his teaching experiences in Guam and parts of other parts of the world.

Social Committee: Students are urged to get their tickets for the Spring Dance, held tonight, by 4:30 or well in advance since people tend to sell their tickets.

A motion was made by Bob Vega and seconded by Fred Terry that the Board approve the Spring Dance motion. The motion was passed.

The minutes of the twenty-first regular meeting were read and approved as correct.

The Ring Committee will meet next Tuesday or after March 19 with Mr. Thomas of Hardt-Jones.

The treasurer reported that the total expenditure for the Chal Mitchell Trio concert was $228.25. The vote taken by the Board of Trustees was $350.00. A motion was made by Bob Vega and seconded by Fred Terry that the Board disapprove the Chal Mitchell Trio motion. The motion was passed.

The above is a summary of the meeting, and the students are encouraged to attend the next meeting.

The meetin was adjourned at 7:30 p.m.
Sittings for senior portraits for La Campana Yearbook will take place beginning the week of Monday, April 22 and continuing through Friday, May 3 at the Ed Kamper Studies, Upper Montclair.

In order that scheduling times may be established, the staff of La Campana must have a list of your free periods. If you did not hand one in yet, please put it on the desk in the La Campana office. Appointments will be assigned outside of the cafeteria during the week of April 15-18. All seniors are requested to pick up their appointments at the allotted time.

Senate and the Garden State Players will present the musical "Pajama Game" on Saturday, April 20 in Memorial Auditorium.

The Garden State Players, an amateur theatre group from the Clifton-Passaic area, have presented three times previously to R.R.O., audiences this hilarious musical comedy, James Miller, who recently returned from a winter tour in Florida with "Passaic," is cast in the lead role and Vincent Bittolli's flute 20 piece orchestra helps support. The production is a well worth the price of a ticket. $1.50 1.50, $2.00 orchestra, reserve seats only. You may purchase a ticket from any member of Senate.

DIRECT COMMISSIONS SENIOR FEMALEs:

Female college seniors can apply now for commissions in the Women's Army Corps. which will provide them with executive and personal management experience, plus world-wide travel. A statement from the dean that you will graduate in June and qualifying mental and physical exams, will put commission bars on your shoulders.

COLLEGE JUNIORS:
The Women's Army Corps College Junior Program is now accepting enlistments of young ladies desirous of becoming commissioned officers after completion of their college training may be enlisted now and until May 15 for the four week summer training program at no obligation if she decided not to further participate. All expenses paid plus $375.00 for the four weeks. Call Sgt. Betty Eberstein, MID-200 Ext. 445 for all details.

MALE SENIORS:

Male seniors may apply now for the Direct Officer Candidate School Program which will lead to a commission upon successful completion. All commission programs male and female are for two years. Apply Montclair Post Office, 396 Bloomfield Ave. Montclair. Sgt. Marshall your army counselor.

On Tuesday, April 16, the College Players will present the recital of the program of its last concert, which was presented on Sunday evening, December 8. The original concert ran into very bad weather in the form of a rather serious-looking snowstorm and this depreciated the potential audience, Dr. Partridge declared. It was not a failure of the program itself but it might be a good idea to repeat a portion of the program at an assembly.

The program will include the Paul Buesay Suite of William B. Berg. The Mozart Third Horn Concerto with Edwin Black as soloist, the Trumpet Voluntary of Henry Purcell and the Overture to Figlitta in Aulis, of Gluck.

Dean's Honor Tea

LOST:

3 months envelopes on campus during graduate registration. Contents included transcripts, certificates and military discharge papers etc. If found, return to the Graduate Office for William Chownes, Valen­
te Road, Sparkill, New York.

Reward, $10.

Of more than 4,000 species of snakes encountered in Europe, only 60 to 60 possess a agreeable perfume.

the kind of environment you want

Fire Hazards at Mac Discussed

The fire hazards on campus were discussed at the meeting in Dean Blanton's office, Friday, March 29.

There have been numerous complaints to Dean Blanton about the safety measures in Russ and Chapin Halls, which led the Dean to investigate possible protective measures.

Mr. Siegel, Business Manager of MSC, stated that there was a fire protection project started in 1958 and completed a short while ago. After examining the build­ings, the State Fire Marshall said that the best protection for the buildings on campus would be smoke screen doors and fire proof stairwells. These facili­ties have now been installed as well as a temporary fire alarm system.

Mr. Siegel stated, however, the most serious fire hazard is smoking in bed. Because stu­dents are permitted to smoke in their rooms, the students must be very sure there is no smoking in bed. Mr. McGinty also stated that there is very little chance for wire fires because the dorms have been rewired to no over­flowing.

There are actually more pyramids in Mexico than there are in Egypt.

Petitions for the forthcoming SGA elections will be available on Friday, April 5, 1963, in Dr. Henry's office.

One hundred student signatures on a petition are necessary to qualify as a candidate. Candidates must also have a 2.5 average. Candidate for the offices of recording secre­tary, treasurer, and president must be current members of the sophomore class. Candidates for corresponding secretary and as­istant treasurer must be fresh­men, candidates for vice-pres­ident must be current juniors. Petitions must be returned on April 19, after which campaigning will begin on April 18.

All commuters will please check commuter mail box in the mezzanine office in College Hall (Ad Building).

There are actually more pyramids in Mexico than there are in Egypt.
Cambodian Runner Visits MSC
Keo Thon Enjoys American Jazz

by Carol Brea and Carol Capp

*Sound shy smile glint in the eye of those courageous men taking President Kennedy's physical fitness program to heart!* If you haven't, it's now time for you to meet the Cambodian Keo.

Unhappened are the implications of Koen from Cambodia. Under the auspices of the State Department, Keo, age 29, arrived on our campus three weeks ago to study and observe the techniques of track training. Not only is he an expert in the field of track, but he is also an outstanding percussionist jumper in the Cambodian Army.

He has been able to make himself at home in every country he has visited and that is to say nowhere a mean's a Pakistan, Istanbul, Greece, France, Italy, and the United States. Keo studied with the Cambodian missions which have welcomed this haven. It is now time for you to share the experience of Keo through the eyes of the Cambodian Runner.

According to Keo, he comes from an average size family of four brothers and one sister. This is no unusual number in Cambodia, where families number up to twelve or more. His brothers, in particular, have entered into research in the various fields of enforcement, medicine, and teaching.

In Keo's opinion, life in America is nearly the same as in Cambodia. He is impressed with the various media -- motion pictures, radio, television. It is interesting to note that the television stations in Cambodia have built and is operated by the Government. New fields of industry are now open to Cambodians to develop and invest.

Keo has also commented that card games which are popular in America are almost unknown in Cambodia. The reason for this is due to the lack of gambling and not legal. Most foreign exchange students have experienced humorous situations in learning a new language and Keo is by no means an exception. While a Frenchman major was quizzing Keo on the parts of the body, a mispronunciation led to a comical situation.

The Montclarion will provide further information on the various courses that have appeared to attract students. A student body poll is being taken after the articles concerning the college center program, aiming at making free college, cultivating enduring respect and recognition for those who have contributed to the college, and providing further Information on the college center program. A student body poll is being taken after the articles concerning the college center program, aiming at making free college, cultivating enduring respect and recognition for those who have contributed to the college, and providing further Information on the college center program.

Life Hall Complex: Unifying Force of MSC

by George Schreiber

The bulletin board in the above picture is part of an exhibit sponsored by the SGA to acquaint the student body with some of the services that a "college union" or a campus center could provide. The SGA has been making a thorough investigation of this type of organization and its possible value on our campus. Should the SGA Board of Trustees decide to set up a campus center it would mean a more social, cultural, and recreational activities that would enrich our lives as students.

The role of the college center would be to make the Life Hall Complex the social center of all our campus, for all members of the college, faculty, and staff. It also would include facilities for recreation, entertainment, administration, alumni and guests. Life Hall Complex would include the Dormitory, Swimming Pool, and the Proposed Faculty-Alumni Center. Where facilities should no longer be thought of as a group of separate buildings, but rather as an organization and a place for all community groups to meet and consider a well-planned center for the student life of the college.

As the "center" of the college, the Life Hall Complex provides the services, conveniences, and amenities that members and guests of the college need in their daily life on the campus, and is effective in promoting informal associations outside the classroom. The Life Hall Complex is a part of the educational program of the college. As the center of college community life, it serves as a laboratory of citizenship, training students in social responsibility and leadership in our democracy. Through its organization and staff it provides a cultural, social, and recreational program aiming at making free time activity a cooperative factor with study in education. In all its programs it encourages self-directed activity, giving maximum opportunity for self-examination and decision. Besides of the development of persons and group effectiveness. Its goal is the development of persons and group effectiveness. Its goal is the development of persons and group effectiveness.

The first elephant seen in Christian Rome was owned by the 16th century Pope, Leo x.

NOW YOU CAN BE YOUNGER THAN SHE IS

It is a scientific fact that girls reach emotional maturity earlier than boys. For this reason freshman girls are reluctant to make romantic advances to freshman boys, but instead choose men from the upper classes.

Thus the freshman boys are left dateless, and many is the freshman girl who spends the entire freshman dorm sobbing itself to sleep. An equally soft solution is reached by the freshman boys. For this reason freshman boys are reluctant to make advances to freshman girls. It is a scientific fact that boys reach emotional maturity earlier than girls. For this reason freshman boys are reluctant to make advances to freshman girls.

University, was walking across the campus one day, weeping softly in his loneliness. Blinded by tears, he stumbled upon a freshman girl and said to her, "Why don't the two of us make each other's company?"

"Well, neither can I. So why don't we date each other?" she asked.

"But that doesn't mean we can't find lots of fun things to do together. How about going down to the pond and catching some frogs?"

"Like what?" she asked.

"Well," said Albert Payson, "we could build a Snowman." "Rubbish!" said Albert Payson, "we could build a statue." "No," said Albert Payson, "we could go down to the pond and catch some frogs." "How about some Run-Rip-Room?" asked Albert Payson. "Oh, I'm no fun," said Albert Payson, "we could go down to the pond and catch some frogs." "You're a fine one," said Albert Payson, "we could go down to the pond and catch some frogs." "I will thank you to remove your underaged presence from my sight."

"Sighing, Albert Payson lighted a cigarette and started away. "What else?" said Albert Payson. "I will," he said, and did, and today they are married and have children."
