MSC Campus Carnival May 10, 11
"Grin 'n' Bear It" Cartoon Theme

May 10 and 11 will see MSC's campus turn into a Carnival grounds that will surely rival all the previous Carnivals. This year's Carnival will have as its theme, "Grin 'n' Bear It." Using this theme, the organizations participating have chosen their various booths titles, and have decided on their locations. Titled of booths include the sophomore class' "Peanuts," the freshman class' "Donald Duck Farm," Theta Chi Rho's "Little King's Onion Rings," Sigma's "Flash Gordon" and Phi Lambda Pi's "Catwoman Alley," Alpha Phi Sigma Epitome's "Cats in and the Kernel" and Delta Theta Phi's "Flintstones" Funhouse.

The Carnival will run from 6 p.m. until midnight on Friday May 10, and from 2 p.m. until 12 midnight on Saturday May 11. During this time, there will probably be in the vicinity of 10,000 people on campus, both taking part, and spending money. There will be no direct exchange of money between the patrons and each booth. As in past years, chits will be bought for 10 cents a piece or 12 for one dollar.

At the awards assembly, to be held in late May, Marlon Włodarczyk and John Lord, this year's Co-Chairmen will present the awards as chosen by them and a committee consisting of President and Mrs. Partridge, Dr. Henry, and Mr. Stover. There will be ten awards presented. They will be in the following categories: first, second and third prizes for best money-making; first, second and third prizes for originality; and first prize each for food, game, souvenir and entertainment.

At the present time there has been no definite decision as to the manner in which the proceeds from Carnival 1963 will be used, but this will be announced in the near future.

S.G.A. Results

In the annual Student Government Association election held April 24, 1963 from 8:30 a.m. to 4:00 p.m. the only contested office, that of the vice president of SGA, was won by Richard Catullo, by a vote of 361 to 160. Catullo defeated opponent Chuck Mainieri, who received only 246 votes.

Bud Meyers received 475 votes for SGA president, twenty-four more than the required 451 votes. There were 648 votes for corresponding secretary and Mary Jane Clark drew 460 votes for treasurer.

The referendum which concerned new class election procedures was passed by a vote of 319 to 84. It is interesting to note that last year the students approved the referendum only 97 votes over.

SEAM Sponsors Russian Talks

The Student Education Association at Montclair (SEAM) is starting a new type of program to create a wider interest in education. Two Russians are coming to campus to start this program on Tuesday, May 7. The meeting is being held in the marginal room. At 3:30 4:10 and 7:30 the two Russians will answer students' questions on any facet of Soviet society, from education to politics and government. They have requested that the talks be informal so that they will not be officially held to any statements they make and can therefore give us a deeper and more understanding look of Russian life.

These men are among the best qualified to talk on areas as Soviet education. Mr. Oleshkevitch spent four years as a teacher in Russia's Polytechnical Institute in Puchlovo...and was then promoted to the head of foreign languages in the same university. Five years later he became a Russian-English translator in the U.S. Mr. Sobolev, a graduate of Moscow University, worked as a historian managing foreign relations for the Department of the Foreign Office. He is presently a Russian-English translator for the U.S. Secretariat.

These talks are free and refreshments will be served.

Off Florida the Gulf Stream seems to have a pulse which makes the water flow in repeated thuds like blood in an artery.

MSC Receives Award

The Freedom Foundation presented the Freedom Foundation award to Montclair State College, on April 16, in recognition of the Leadership Training Program conducted through the Center for Economic Education.

The Passing of William "Count" Basie

The Montclair Music Department presented the Freedom Foundation award to Montclair State College, on April 16, in recognition of the Leadership Training Program conducted through the Center for Economic Education.

Leslie J. Anderson, receiving the 1963 Freedom Foundation Award.
"State" Citizenship

On May 14, the elections for the S.C.A. executive officers were held. The six students elected will form the head of the governing body for the 1963-64 school year. Did you take your part in electing these leaders?

The Student Government Association of Montclair State serves us in three major forms, each of which is vitally important to every individual enrolled at M.S.C. This body governs us by formulating, organizing and executing moves to better student life. It represents us to those outside our school in various capacities. The executives officers of this body, and leaders of the organization, play a dominant role. One would think that such an important task might involve a great deal of student interest. This is not the case! In fact, the lack of interest was apparent in the day's preceding election. Petitions for these offices were made out on April 5 and had to be returned on April 11. As a result of the petitioning, there was one person signing for each of five offices and two people for only one of the offices. Was this a real election? But where does the fault lie? It is with the student body. Our student body makes up this student body only seven people felt called upon to run for office. The scarcity of candidates was not the only reason for this not being a real election. The general lack of interest in the entire happening had much to do with it. Last year it was estimated that only approximately 32% of the student body voted in the elections. This year only twenty-four percent of the student body voted. The elections were held in an accessible place and one could vote at his convenience. There is no reason why every student could not cast his vote.

As a United States citizen you say you in your nation, state and local government elections. With the responsibility that comes with the right to vote for the representatives of these governing bodies. Your interest in the government of your school is directly related to your effectiveness in the elections. If you are to become a leader and a responsible adult citizen be sure to vote. There is no reason why the students of the MONTCLARION the trimester system was reviewed. The officials of Montclair State are considering adopting the tri-system of education. This system will be the likeliest to combine the advantages of every system. There are advantages to each system. Two obvious advantages are offered by the trimester system. One advantage is that the students may choose the type of college they wish to attend and therefore have every advantage for the administration, but now unseasoned advantages will still choose to go for the trimester system.

Two obvious advantages are offered by the trimester system. One advantage is that the students may choose the type of college they wish to attend and therefore have every advantage for the administration, but now unseasoned advantages will still choose to go for the trimester system.

The M.O.C. has attempted, with the help of many government officials to keep our campus a clean and pleasant place. If we compare our campus to the rest of the world, it is not as bad as we think. The officials of Montclair State have attempted to keep our campus clean. If we compare our campus to the rest of the world, it is not as bad as we think.
Dr. Bruce E. Meserve, chairman of the mathematics department at Montclair State College, has been elected the first president-elect of the National Council of Teachers of Mathematics. He will automatically assume the presidency for two years after serving for one year in the newly-created post.

Balloting was done by mail, with Dr. Meserve receiving a 1,946-vote majority over his opponent, the office. Dr. Meserve is retiring president of the Association of Mathematics Teachers of New Jersey and immediate past president of the MSC Faculty Association.

A graduate of Bates College, where he was elected to Phi Beta Kappa, he holds both a master's and a doctorate degree from Duke University. Before joining the Montclair State faculty in 1954, he taught for eight years at the University of Illinois.

Dr. Meserve is advisory editor in mathematics for the Encyclopedia Americana and has edited numerous mathematics scripts for educational television. He has lectured frequently at professional meetings, institutes and workshops.

He now assumes the presidency of the only international organization of its type that has had a major influence on the teaching of mathematics.

The title, as its stated in its charter, is "to assist in promoting the interests of mathematics in America, especially in the elementary and secondary fields...to establish and coordinate the work of local organizations of teachers of mathematics."

The most outstanding persons in mathematics education have been leaders and participants in the Council's program. It has served as an agency for both the coordination and stimulation of major efforts to improve the teaching of mathematics.

The membership of the Council has grown continuously and rapidly. The total number of members has quadrupled within only eight years. The latest census reveals that there are 50,000 members in the Council, coming from many scattered countries throughout the world.

LOST: 3 months envelopes on campus during graduate registration. Contents included transcript, identification, and military discharge papers etc. If found, return to the Graduate Office, Mrs. Jean Rindlaub, V.P. Student Affairs, Montclair State College, Montclair, N.J. The plays will be presented by student and faculty groups at Bergenfield High School, Bloomingdale High School, Phillips Exeter Academy, Chatham H.S., Columbia H.S., Public High School, Mountain Lakes H.S., H.S., H.S., and Madison H.S. Rehearsal dates are May 6, 7, 8, 9, 10.

The music Department of Montclair State College is playing host to the 38th National Student Music Conference of the Association of Church Services in Tuesday, May 6-7. The group, under Miss Kerr’s direction, will appear in Carnegie Hall and the Montclair State College auditorium.

Dr. Meserve will attend a retirement dinner at the 1963 Laurel Blossom Festival, held at the former Mountain June 6th through 10th. Sponsored by the Pomocoro Montclair Vacation Bureau, the 34 year old event heralds the opening of another summer vacation season in the Poconos.

Miss McCall, daughter of Mr. and Mrs. Bruce E. McCall of Oakland, N.J., has been selected to represent Montclair State College at the 1963 Laurel Blossom Festival, held at the former Mountain June 6th through 10th. Sponsored by the Pomocoro Montclair Vacation Bureau, the 34 year old event heralds the opening of another summer vacation season in the Poconos.

Miss McCall is one of 27 contestants representing 18 universi ties throughout the Northeast who will compete for the title of Laurel Blossom Queen. Popu lar with early summer visitors to the Poconos, the weekend includes a tennis tournament, concerts, film, stage events, a Pomocoro musical revue, A Midnight Serenade, a beauty pageant, a princess ball, and the galas Coronation Ball, a Poor Richard Ball, and an outdoor setting at Bear Hill Falls, complete with colorful blooming laurel.
New Ready "Rex": Cast Polishes Lines

By Pat O'Brien

On Sunday April 29, the crews and actors in Student Panic were laboring vigorously. This was the final dress rehearsal of the production of "Long Day's Journey Into Night." The work was now at the point of completion and the last performances were being held.

The cast was well rehearsed and the actors were quite proficient. The set was elaborate and the costumes were colorful. The lighting was effective and the sound was clear.

The play is a tragedy written by Eugene O'Neill and depicts the life of a family. The family is portrayed as being in a state of decline and the members are all struggling with their personal demons.

The production was directed by Mr. Holbrook and the crew was supervised by Mr. Davis. The set designer was Mr. Green and the costume designer was Miss Smith. The lighting designer was Mr. Brown and the sound designer was Mr. Johnson.

The rehearsal was going well and the actors were preparing for the final performance. The audience was excited and eager to see the show.

Just From States!

by Ann Dreyberg

Married: Claire Bruce, KRE'65 to Barry Root Glaser, Honed.

Engaged: Holy Berger, Theta Chi '62 to Jerry Rosenthal, Phi Lambda Phi, University of North Carolina, Phi Delta Theta '62 to Don Sample, Phi Delta Theta '64 to William Orders, Phi Alpha Delta '65 to John Colaco, Phi Sigma Sigma '64 to John D'Agostino, Phi Eta Sigma '65 to John Davis, Phi Delta Theta '65 to Robert Smith, Delta Kappa Epsilon '66 to Gary Cohn, Delta Upsilon '67 to William Finn.

Promoted: Priscilla Proff '66 to Honey Owens, Lambda Delta '64 to Gussie Gross, Delta Theta '64 to John Davis, Crown and Lance, Hofstra University, '63 to Eleanor Fischer, Delta Omicron '64 to John D'Agostino, Phi Lambda Theta '65 to John Davis, Phi Delta Theta '65 to Robert Smith, Delta Kappa Epsilon '66 to Gary Cohn, Delta Upsilon '67 to William Finn.

Iki Studies for Masters Finds MSC Friendly

(First of all there was a language problem. Although English is considered the world level and is up in Japan, English is not necessarily very popular or literate in the same way it is in the U.S. Preparations for this included some preparation and study of English literature, English grammar, and other important factors for communication.

Fancy fares on the horizon for Horuko, as the same type of formal tea time that we enjoy is not held in Japan. In the morning, only on very formal occasions is the kimono worn by the young girls.

Horuko types East Asian culture very much. She probably knows how to cook our food so quickly and with so little preparation. In Japan the rescuing and pressure to which we are so accustomed is already very prevalent. Therefore more time is taken in preparing meals and carrying out other tasks. When asked if she was impressed with America, Horuko's answer was: "Ah yes, more so than I expected."

Our social customs are very different from Japan's and Horuko was surprised how early dating and marriage were expected in our country. In Japan group dating is carried out so that the most part until late in college. College students are very rarely engaged until their senior year. Those who do not go to college often wait up to four years after high school in order that they might save enough money for their wedding.

The state or government universities in Japan are usually a better standard than private ones. High school study and preparation for the difficult entrance exams is great, but once in, the necessity of studying is very slight. The government universities are quite lenient, but students must keep part-time jobs on the side. The most popular 'arbit', as the Japanese call it, is to work in the city.

Horuko will leave next January and return to her native land to teach English.
The NFL: A Vote for Clean Living

by JOHN R. ACKERMAN

The recent rumblings concerning gambling and fixing across the National Football League came to a head last week with the suspension of three Chicago Bears players for betting on NFL games by Robert Kleffner, Larry Moore, and Alex Karras. Along with these severe penalties, Longhorn defensive end Lee Roy Jordan was fined $500 and other Lions $2,000 each and slapped with a two-game suspension.

This action is sure to have repercussions. Hornung, a four-time bettor on NFL games since 1959 and a Detroit Lion defensive ace, has already been beaten.

Other players failed to do the same. They still didn’t report their betting activities to the proper authorities. They deserve to be punished, Pete Roselle has taken a strong stand to class up sports. Others pro administrators should heed his courageous action. Pro football will be much better because of it.

The Montclair State Indians ran their winning streak to five games by sweeping a doubleheader against Underwood's 9-0 on Sprague Field Saturday. The double win knocked the Bobcats out of the league lead and boosted the Indians into first place in the Independents. Of course, there were setbacks for the Montclair Indians.

The team is lead by number one man Bob Cannon, who is considered the biggest threat by many, Bob's partner in crime Paul Esch, and undisputed lead in the New Jersey State Conference. Their team has already beaten Seton Hall, Franklin College, and Bloomfield, and loom as the only unbeaten squad in the state.
