May 10 and 11 will see MSC's campus turn into a Carnival grounds that will surely rival all the previous Carnivals. This year's Carnival will have as its theme, "Grin 'n' Bear It." Using this theme, the organizations participating have chosen their various booths titles, and have decided on their locations. Titles of booths include the sophomore class' "Peanuts", the freshman class' "Donald Duck Farm!", Theta Chi Phi's "Little King's Cats' Online Wing", Sigma's "Flash Gordon" and Phi Lambda Pi's "Gusline Alley!" Also Phi Sigma Epsilon's "Ca'tin and the Kernel!" and Delta Theta Phi's "Flinstones" Pumphouse! The Carnival will run from 6 p.m. until midnight on Friday May 10, and from 2 p.m. until 12 midnight on Saturday May 11. During this time, there will probably be in the vicinity of 10,000 people on campus, both taking part, and spending money. There will be no direct exchange of money between the patrons and each booth. As in past years, chits will be bought for 10 cents a piece or 12 for one dollar.

At the awards assembly, to be held in late May, Martin Wroczewski and John Lord, this year's Co-Chairmen will present the awards as chosen by them and a committee consisting of President and Mrs. Partridge, Dr. Henry, and Mr. Stover. There will be ten awards presented. They will be in the following categories: first, second and third prizes for best money-making; first, second and third prizes for originality; and first prize each for food, game, souvenir and entertainment.

At the present time there has been no definitive decision as to the manner in which the proceeds from Carnival 1965 will be used, but this will be announced in the near future.

S.G.A. Results
In the annual Student Government Association election held April 24, 1965 from 8:30 a.m. to 4:00 p.m. the only contested office, that of the vice president of S.G.A., was won by Richard Catullo with a vote of 361 to 160. Bob Meyers received 475 votes for SGA president, while Gribenacker 477 votes for recording secretary, and Catullo drew 367 votes from a possible 3,360 students.

Ballot details:
- 475 votes for Bob Meyers for SGA president.
- 477 votes for Gribenacker for recording secretary.
- 367 votes for Catullo for treasurer.

The referendum which concerned new class elections was passed by a vote of 316 to 35. It is interesting to note that last year the students voted in an increased enrollment only 697 votes verwalled.

SEAM Sponsors Russian Talks
The Student Education Association at Montclair (SEAM) is starting a new type of program to create a wider interest in education. Two Russians are coming to campus to start this program on May 7. The meeting is being held at the Center for Economic Education. Mr. Sobolev, a graduate of Moscow University, worked as a historian managing foreign relations for the Department of the Foreign Office. He is presently a Russian-English translator for the U.S. Secretariat. Admission is free and refreshments will be served.

These men are among the best qualified to talk on areas as Soviet education. Mr. Oleshkevitch spent four years as a teacher in Russia's Polytechnic Institute in Pukhlebue, and was then promoted to the head of foreign languages in the same university. Five years later he became a Russian-English translator for the U.S. Secretariat. Mr. Sobolev.

Off Florida the Gulf Stream seems to have a pulse which makes the water flow in repeated bursts like blood in an artery. Water Low Spirit High
On April 30, 1963 school officials closed the college because of a drop in the pressure of the school's water system.

Although Russ and Chapin Halls retained water pressure, the upper end of the campus suffered from lack of water. Due to sanitary and safety conditions, classes were canceled. This sudden development led to a mass exodus by commuters.

Interruptions in the flow of traffic> as students departed for either the V.I. or home.
"State" Citizenship

On Wednesday, April 14, the elections for the SGA executive officers were held. The six students elected will soon be the head of your governing body for the 1963-64 school year. Did you take part in electing these leaders?

The Student Government Association of Montclair State serves us in three major forms, each of which is vitally important to every individual enrolled at Montclair. This body governs us by formulating, organizing and executing moves to benefit students. It represents us to those outside our school in various capacities. The executives of this body, as leaders of the organization, play a dominant role. One would think that in electing such leaders, you would show a great deal of student interest.

This isn't the case! In fact, the lack of interest was apparent in the days preceding the election. Petitions for these offices were submitted on April 5 and had to be returned on April 17. As a result of the petitioning, there was one person running for each of five offices and two people for only one of the offices. Was this a real election? But where does the fault lie? It seems to have its student body. Did you turn out to vote? If so, you made up this student body only seven people called upon to run for office.

The scarcity of candidates was not the only reason for this not being a real election. The general lack of interest in the entire happening had much to do with it. Last year it was estimated that only approximately 32% of the student body voted in the elections. This year only twenty-four percent of the student body was voted. The elections were held in an accessible place and could vote at his convenience.

There is no reason why every student could not cast his vote. As a United States citizen you want a say in your national, state, or local government, and you want a chance to vote for the representatives of these governing bodies. Your interest in the government of your school is directly related to your interest in national, state, or local government. If you are to become a leader and responsible adult citizen in our democratic society, you must not neglect to vote. How can you take an active interest in what it does, your options and vote in NEXT year's elections.

Change for the best

Colleges are continually attempting to make their systems more efficient and productive. In the April issue of the SATYR, ALFRED weinberger mentioned that when a student body decreases, one of the major advantages of this change is the amount of time and money that can be saved. The decrease in student body also allows the school to have more money to spend on the education of those students that remain. The decrease also allows the school to have more money to spend on the education of those students that remain.

Two obvious advantages are offered by the trimester system. One advantage is that the students may choose the trimester during which they wish to attend school. By the end of each trimester, they will be entitled to take the third part of their courses. The second advantage is that the three courses taken each term are reduced. In any case, such a change from a semester system to a trimester system will reduce the time of a student's day. In order to make a change, such a change would offer many advantages to the student body. Not only will such a change offer many advantages to the student body, but it will also be the money saved. These funds can be used to purchase more books, etc. The savings of these funds can amount to a large sum of money, which can be used to purchase more books, etc.

Thought seriously about the proposed plans. When the student body is taken in this matter, you will have a chance to discuss the possibilities with them.

Approach To Solving Apathy Problem

The problem of apathy is one that is faced by every high school. In our school, the problem is particularly serious. The lack of interest in the government of the school is evident in the way that students vote in the elections. The lack of interest is also evident in the way that students attend school.

To The Editor:

As you might have seen on various occasions a certain member of the faculty has been seen lurking about the main lobby awaiting the opportunity to make an unimpressive effort such as putting his signature on something or cutting back a chair with his eyes closed. In the world of infallible police tactics should at least be accompanied with a bit of the school spirit. The scarcity of candidates was not the only reason for this not being a real election. We are students in an accessible place and one could vote at his convenience.

The lack of interest in the government of your school is directly related to your interest in national, state, or local government. If you are to become a leader and responsible adult citizen in our democratic society, you must not neglect to vote. How can you take an active interest in what it does, your options and vote in NEXT year's elections.
Campus Queen
To Compete For Laurel Title

Miss Mary Jane McCalh, daughter of Mr. Francis Xavier McCalh of Oakland, N.J., has been selected to represent Montclair State College at the first annual car rally to be held on the campus May 6-10. She is a junior majoring in Psychology.

Miss McCalh was chosen as the Laurel Blossom Queen by the Student Council. The purpose of the rally is to promote school spirit and to provide a unique treat for the campus community.

The rally will feature a variety of activities including dances, concerts, and a special guest appearance by the world-renowned musical group, The Crystals.

The rally is expected to attract a large audience, and Montclair State College is looking forward to a successful event.

NOTEWORTHY NEWS...

Dr. Bruce E. Meserve, chairman of the mathematics department, has been elected the first president-elect of the National Council of Teachers of Mathematics. He will automatically assume the presidency after two years, after serving for one year in the newly-instituted post.

Balloting was done by mail, with Dr. Meserve receiving a 1,640 vote majority over his opponent for the office. Dr. Meserve is retiring president of the Association of Mathematics Teachers of New Jersey and Immediate past president of the MSC Faculty Association.

A graduate of Bates College, where he was elected to Phi Beta Kappa, he holds both a master's and a doctorate degree from Duke University. Before joining the Montclair State faculty in 1954, he taught for eight years at the University of Illinois.

Dr. Meserve is advisory editor in mathematics for the Encyclopedia Americana and has written over 40 articles and reviews for professional journals. He is author of "Fundamental Concepts of Geometry," "Fundamental Concepts of Algebra," and "Algebra," and is co-author of a number of other texts. He has lectured frequently at professional meetings, institutes and workshops.

He now assumes the presidency of the only international organization of its type that has had a major influence on the teaching of mathematics.

Its purpose, as stated in its charter, is "to assist in promoting the interests of mathematics in America, especially in the elementary and secondary schools, and to function as the voice of local organizations of teachers of mathematics.

The most outstanding persons in mathematics education have been leaders and participants in the Council's program. It serves as an agency for the coordination and stimulation of major efforts to improve the teaching of mathematics.

The membership of the Council has grown continuously and rapidly. The total number of members has quadrupled within only eight years. The latest count reveals that there are 50,000 members in the Council, coming from many scattered countries throughout the world.

LOST: 3 month envelopes on campus during graduate registration. Contents included transcript, certifications and military discharge papers etc. If found, please return to the window. The envelope is a keepsake for many.

Dr. Muss, the President, and Dr. Marks, the Associate President, have been joined in the activities of the council.

CINEMA: THE ACADEMY AWARDS

By G. T. Goodman

During the recent vacation, Hollywood presented itself with the ancient rites of the dedication of "Oscar" or the annual Academy Awards. These yearly attempts at self-praise usually turn out to be one long blunder that leaves all the stars and the moviegoers high. This year, however, there were more of interest than ever.

The latest presentation of the Motion Picture Academy of Arts and Sciences proved to be dull, unglamorous, and uninteresting.

The role of Bob Hope as emcee was inadvisable. He introduced one of the presenters, F. Sinatra, a charming song singer, and the audience was not advanced. The best effect that that movie has been to gain a start and to make you have a feeling that you are getting somewhere. Mr. Holbrook's interpretation of "Grandson of Flubber's" was not surprising. "It is much better to keep a Hollywood "Image" than he used to be. Another point of interpretation may be lost in the reaction of the parade of drugs and immunizations. Mr. Holbrook's deadpan reactions to this event were worthy of applauding. He 's talking a lot of trash and he's not particularly outstanding, but it's 'sputtering and we'll have to work when he desires, and won't have a set time to go to school. If we needed money, we could take time out to work when the market isn't glutted with people looking for jobs."

Peter O'Brien, '63: "I wouldn't go all year. To come relief to last year's assembly may be a well-needed halt to assembly now."

Laura Hargrove, President, Fine Arts, '66: "I think it makes better use of the facilities. It's something that will have to evolve. Why?

Question: "As you are favor of the plan, do you think of the consideration at Montclair?"

Mr. Holbrook: "I don't think it's fair to everybody in the country, but there is a greater element of the Greek peer."

It was not difficult to get a few words from the members of the cast. Gisela Chapman, upon hearing there was a reporter present, announced, "I'm Jocasta." When asked if she had any problems in her interpretation, she said, "Yes, it's hard trying to act so plummy for Bill Evans, playing the shepherd, says, "the play is self-ex- plicating, because you can listen to the chorus."

HOW TO SEE EUROPE 
FOR ONLY $300 A DAY: NO. 1

Summer vacation is just around the corner, and naturally all of you are going to Europe. Perhaps I run a handy tip or two. (I must confess that I have never been to Europe, but I do have a French poodle and a German shepherd, so I must claim to be somewhat qualified.)

First let me say that no trip to Europe is complete without a visit to England, Scotland, Wales, Ireland, France, Germany, Spain, Portugal, Italy, Switzerland, Holland, Belgium, Luxembourg, Switzerland, Denmark, Sweden, Norway, Finland, Poland, Czechoslovakia, Latvia, Lithuania, Estonia, Russia, Czecho-Slovakia, Austria, Greece, Sarawak, Syriac, Hinday, Hungary, Rumania, Bulgaria, Lapland, and Andorra.

Let us take up these countries in order. First, England.

The capital of England is London—or Liverpool, as it is sometimes called. There are many interesting things to see in London. Even the London guards, the guards who change the guards, are changed daily. The old ones are thrown away.

"Come" in London is a visit to the palace of the Duke of Marlborough. Marlborough is spelt Marlborough, but pronounced as in "shark." English spelling is very quaint, but pronounced. Let us take up these countries in order. First, England.

The guards at the Tower of London are called Beefeaters, and are a part of the Royal Guard. The Beefeaters are a part of the Royal Guard. The Beefeaters are dressed in red uniforms and have white hats.

"How is that?" said the friend.

"What does "gosh darn it" spell, sir?"

"The old ones are thrown away."

"Oh, as in enough, as in women, as in my mind. Put them all together, you get after."

That was very clever of Shaw when you consider that he was a vegetable. And a good thing he was. As Dionne once remarked to Guy Fawkes, "If Shaw were not a vegetarian, no lump could in London would be safe."

But I digress. We were speaking of the palace of the Duke of Marlborough, or Marlborough, as it is called in the United States. It is called Marlborough by every smoker who enjoys a fine, rich breed of tobacco, who appreciates a pure white filter, who likes a soft puff that is really soft, a ruffle-type that is really ruffled. Be sure you are well supplied with Marlborough when you make your trip abroad. After a long, tiring day of sightseeing there is nothing so welcome as a good flavorful Marlboro and a foot-long sandwich.

The guards can be obtained in England at Esmond Downs. Kensington sausages can be obtained at Kensington Gardens. Albert sausages can be obtained at Albert Hall, Hyde Park sausages can be obtained at Hyde Park, and the crown jewels can be obtained at the Tower of London.

The guard is the Tower of London is called Beefeaters because they are always beefing about what they get to eat. This is also known as "cricket" or "petrol."

Well, I guess that's about covers England. In next week's column we will visit the Land of the Midnite Sun—France.
The recent rumblings concerning gambling and fixing across the country reached Montclair last week with reports on Green Bay star Paul Hornung and Detroit Lion defensive ace Alex Karras. Along with these severe penalties, Longhorn's Karras was fined $5,000 by Five Lions, $2,000 each and slapped with indefinite suspension for gambling出现问题。Karras, 2-time Super Bowl defensive tackle was the hub of the Lions defense last year. A capable substitute may be difficult to find. This is sure to have an effect on the games on NFL since 1959 and the Detroit as well as quality, as both have army and navy players on the roster.

The Montclair State Indians ran by way of 8-5 over Bloomfield and 9-0 over Sprague Field Saturday. The Indians established a 1-0 lead in the game and their teammates had scored 9 runs against Bloomfield in the opener. The Indians routed St. Peter's 11-2, then suffered an 8-5 loss to the Huskies in the finale.

The team is led by number one man Bob Cannon, who is considered one of the top players for many, Bob's partner in crime Pat Plegarl, All-Conference basketball squad, is third with a personal best mile of 4:24.3, and leading the way in long jumps, 23.5. The sprint trio of Grant Erback, Wolfe, Kane, Meyer and Schmidt has high hopes for his team to win the conference.

M.S.C.'s track team sports a record of 2-0 in recent meets and shows no sign of stopping.

The opener against East Orange was a 98-48 romp for the Indians. For gambling and Jeopardizing the game and their teammates, they shaved points or won by an insignificant margin. They deserve to be punished, Pete Rozelle has taken a strong stand to clean up sports. Other pro administrators should heed his courageous action. For football will be much better because of it.

M.S.C.'s track team sports a record of 2-0 in recent meets and shows no sign of stopping.

The opener against East Orange was a 98-48 romp for the Indians. For gambling and Jeopardizing the game and their teammates, they shaved points or won by an insignificant margin. They deserve to be punished, Pete Rozelle has taken a strong stand to clean up sports. Other pro administrators should heed his courageous action. For football will be much better because of it.

The Montclair State Indians ran by way of 8-5 over Bloomfield and 9-0 over Sprague Field Saturday. The Indians established a 1-0 lead in the game and their teammates had scored 9 runs against Bloomfield in the opener. The Indians routed St. Peter's 11-2, then suffered an 8-5 loss to the Huskies in the finale.

The team is led by number one man Bob Cannon, who is considered one of the top players for many, Bob's partner in crime Pat Plegarl, All-Conference basketball squad, is third with a personal best mile of 4:24.3, and leading the way in long jumps, 23.5. The sprint trio of Grant Erback, Wolfe, Kane, Meyer and Schmidt has high hopes for his team to win the conference.
