Welcome Class of 1970

Frosh Participate in Orientation Week: Rat Court, Peace Dance Saturday

Tomorrow, September 14, will mark the final official day of Welcome Week, sponsored by the Student Activities and Orientation Office. A special event will be held for the incoming Freshman Class. This is a traditional event which has made the arrival of new students as easy and pleasant as possible. September 14, freshmen are provided with an opportunity to meet members of the administration and the Student Government Association, as well as former rat brothers and sisters. These meetings will be held on Saturdays at 1:00 p.m., in all freshman residential classes. The meetings will deal with topics of vital interest to all new students, such as "Fraternity's" and "Sorority's" character and ways to evaluate their needs and goals.

The co-chairmen of the Welcome Week Committee are Janis Dine and Andy Patenza. Correspondence was handled by Natalie Gould and Doreen Sallern. Staff for the week included: Mrs. G. Whiting, by hazing; Mary Shaubts and Grace Zabreski, dinks by Arthur Rowe and Steve Hoyt, the picnic by Joan Barret, and Linda. Assistance by Barbara Katz and Connie Potter, the President's Receptacle for the week.

Appointment Cohen, Earl, Gaeng, To Dept. Chairmanships

Dr. Thomas H. Richardson, recently announced the appointment of three Montclair Faculty members to department chairmanships: Dr. Paul A. Concinni, Professor of Foreign Languages, Dr. Thomas H. Richardson, recently announced the appointment of three Montclair Faculty members to department chairmanships: Dr. Paul A. Concinni, Professor of Foreign Languages, Dr. Thomas H. Richardson, recently announced the appointment of three Montclair Faculty members to department chairmanships: Dr. Paul A. Concinni, Professor of Foreign Languages, and Dr. Arthur W. Earl. Professor of Industrial Arts, have been named the co-chairmen of the Wel.

Money has been allocated for new bath facilities in Russ Hall, and new drapes have been provided, and the chairs include a built-in book rack. New ranges and cooking equipment has been added for faster food preparation and more efficient clean-up.

Dr. Cohen has just completed his Master's degree from Columbia University, and earned the degree in international law and relations and a doctor's in romance philology.

Dr. Cohen, also an Upper Montclair resident, has his home at 32 Aubrey Rd. He has been a member of the Montclair State faculty since 1951, received his bachelor's, master's and doctor's degrees from New York University, and earned the degree in Romance philology from the University of Paris. A former instructor at Hofstra University, he has also taught evening sessions at Upsala College. He was designated for the Army during World War II.

In 1963, Dr. Cohen studied at the University of Zurich in his native Switzerland. Dr. Gaeng holds a diploma from the School of International Affairs, University of Geneva, and degrees from Columbia University and another university. He is in international law and relations and a doctor's in romance philology.

The co-chairmen of the Welcome Week Committee are Janis Dine and Andy Patenza. Correspondence was handled by Natalie Gould and Doreen Sallern. Staff for the week included: Mrs. G. Whiting, by hazing; Mary Shaubts and Grace Zabreski, dinks by Arthur Rowe and Steve Hoyt, the picnic by Joan Barret, and Linda. Assistance by Barbara Katz and Connie Potter, the President's Receptacle for the week.

Construction Program to Furnish College With Added Facilities

Montclair State College campus this fall has been changed drastically since last June. In an attempt to improve the physical facilities, the parking areas, and the cafeteria service, the College Administration has sponsored the largest single multi-purpose building campaign in the history of the college. This program has made available the return of football to our own campus and the full playing capacity in the Lidster building, the additional playing fields for baseball, soccer, and field hockey, and a variety of other needed improvements. A new traffic-light pattern should aid commuters leaving the campus as well as cutting down on the previously somewhat dangerous traffic conditions.

Construction Program to Furnish College With Added Facilities

Montclair State College campus this fall has been changed drastically since last June. In an attempt to improve the physical facilities, the parking areas, and the cafeteria service, the College Administration has sponsored the largest single multi-purpose building campaign in the history of the college. This program has made available the return of football to our own campus and the full playing capacity in the Lidster building, the additional playing fields for baseball, soccer, and field hockey, and a variety of other needed improvements. A new traffic-light pattern should aid commuters leaving the campus as well as cutting down on the previously somewhat dangerous traffic conditions.

One big item of construction has been the alterations to the football field. Last June there were 1,000 seats along the field. New bleachers have been added to provide a total seating capacity of 2,000. The field has been completely resodded over a foundation which will permit efficient drainage. A cyclone fence has been installed around the whole football field area for purposes of traffic control and required admission. This achievement is a credit to several different organizations. Of the total cost of over $15,000.00, $15,000.00 was contributed by the Brignum for Excellence, $7,500.00 by the Student Government Association, $5,000.00 by State sources, and well over $3,000.00 worth of services by the college maintenance staff.

New facilities under construction are the addition to Paxon Gymnasium (including the swimming pool) and the Speech Department, and additions to the Fine and Industrial arts building. Although tennis courts are planned for construction next spring, new playing fields located behind the Finley Hall Library area are being added. These facilities include fields for the varsity baseball and soccer teams as well as for intramural field hockey.

The remodeling of College Hall is now within a week or so of final completion. Additional toilet facilities have been added to the Grace Freeman Hall complex, and new drapes have been purchased for the Life Hall area. The drapes are a gift from the War Memorial Fund.

Life Hall cafeteria is also being changed. Seating for an additional 200 students has been provided, and the chairs include a built-in book rack. New ranges and cooking equipment has been added for faster food preparation and more efficient clean-up.

Although several items of construction were scheduled for both Chapin and Russ Halls, only the new ceiling in Chapin Hall and one floor have been completed. The Speech Department has been allocated for new bath facilities in Russ Hall, and this construction will be completed during the year.

One construction project which will be in evidence during the year is the new boiler house. This project will be completed while full service is maintained for the college, and the new boiler is being built around the old boiler house. As the facilities are completed the new boilers will be lighted one by one as each boiler enters service.

Two new parking lots capable of storing 400 cars have been added to offer spaces lost because of construction of the new facilities. One is located behind Maloney Hall and is linked with the Main Campus area behind the library by new access roads.

(Continued on page 3)

Grieco, Willing Advise Paper

Michael Grieco and Richard Willing have assumed the roles of assistant editor and associate editor, respectively, to the Montclarion. Mr. Grieco is replacing Dr. O'Hanlon, while Mr. Willing is assuming a newly created post.

Mr. Grieco was graduated from MSC in 1965; received his Masters degree in Economics, from Columbia University in 1966 and is working toward his Ph.D. at De Paul University. He is a member of the Montclarion Board of Editors, and his teaching experience includes Notre Dame and the College of Staten Island.

Mr. Willing received a B.A. from the University of Wisconsin, a B.S.E from Whitewater State Teachers College and his Masters degree from the University of Wisconsin. Before coming to MSC in 1967, Mr. Willing also received his B.E.D. degree from N.Y.U. He was employed as a teacher of commercial subjects in Palmyra, New York, Ithaca, New York and Mountain Lakes, New Jersey.
Ciao, Dr. Krauss, Ciao!

As we begin a new school year, we of the Montclarion are faced with one additional challenge. Not only must we adjust to new classes, schedules, and professors, but we are also faced with the task of publishing the Montclarion. The former and the competent advise of Dr. Russell Krauss.

Dr. Krauss advised the Montclarion for many years and was later forced for personal reasons to give up his duties. During his absence, because of inadequate student participation and lack of faculty support, the paper was allowed to degenerate. Dr. Krauss was asked by the college administration in 1964 to again assume his duties as adviser. It was with his help and guidance that members of the present editorial board and of past boards have been able to re-establish the Montclarion as the college newspaper and as an active voice of student opinion.

It was through Dr. Krauss that the Montclarion was freed from the peril of the Journalistic ethics that had been allowed to degenerate to its present standard. It was from Dr. Krauss' guidance that the practice of the enthusiastic devotion to the improvement of the quality of student journalism was freed from the peril of the Journalistic ethics that had been allowed to degenerate to its present standard.

Dr. Krauss advised the Montclarion that staff members could not succeed in their work without the support of the faculty. The faculty, in turn, has been very supportive of the Montclarion staff, and we have succeeded in improving the quality of the paper.

But, it was not here that Dr. Krauss' involvement with the paper ended. The phenomenon of Dr. Krauss, became much more than a student-adviser relationship. It became a personal involvement with a man whose depth of understanding and insights provided us with inspiration. The expression "Dr. Krauss' voice..." is an expression that will be heard throughout the fall of 1970.

Welcome, Freshmen!

As freshman orientation comes to a close, the Montclarion wishes to take this opportunity to welcome the Class of 1970. The hurried, somewhat confusing period of orientation should have made each freshman aware of the campus and its educational system. However, more importantly, the orientation period should have provided each freshman with the beginnings of an insight to the purposes of an education.

The confusion, a temporary struggle of this week and of the following year should not discourage any freshman from accepting the challenge of the educational system. Challenge is the distinctive teachers who compel the imagination for years to come. These few are never condescending in their attention to the student. Failure to recognize the student's involvement may often be attributed to the lack of acceptance of the classroom challenge. Challenge is so evident in extra-curricular activities. Each freshman is encouraged to be involved in one of the campus' many organizations to recognize the extra-curricular challenge.

We hope that each freshman takes an opportunity to accept the challenge presented at Montclair State College during the next four years. We hope that each will find his own rewards in accepting the challenge. And we hope that the challenge of college never becomes a drag but brings excitement. To the Class of 1970—Welcome.

La Recherche: For Dr. Russell Krauss

Many teachers are met by a college student during his undergraduate and graduate years, but to only a few is credited recognition by the distinctive teachers who compel the imagination for years to come. Among them was Dr. Russell Krauss, the past adviser to the Montclarion and Professor of English, was just such a one. The intervening years have not smudged the sharp impressions that have been assimilated into one's personal aims and motivations.

When I first studied under Dr. Krauss, I recognized a superior intellect, a tradition-oriented background, an unusual ability to understand the avant-garde. The harmonious incorporation of the old and the new demonstrated his distinctive latitude in reading. At that time, in the early fifties, he became my idea of a unique teacher—one who could inspire the student to emulate his intellectual awareness. Since that time Dr. Krauss has become all that I expected a professor should be: a sound scholar, a dispassionate critic, a warm personality, a corrector of the mistakes I've made upon me—impatiently.

Respect for Dr. Krauss' scholarship was based initially on the quality of historical information that was commanded of the personal cultivation of his intellect. Dr. Krauss would later be the first old guard professor whom I knew to move on to another hobby. This experience of his was a disappointment, but he remained a model of a teacher who could be admired. He seemed to have graduated from his own intellectual education. He was the first old guard professor whom I knew who was able to change his mind and move on.

Montclairion
September 13, 1966

Page 3

The new full-colors will be the Lettermen on October 14, and the Loving Spoonful on November 18. Dean Compton is chairman of this committee.

The lecture series begins on October 17, with an author of The Status-Seekers and The Secret Broker, Dr. Charles W. Parker, who will speak on "The Changing American Character." On October 24, Dr. Leonard Buchner will speak on "Teen-Agers: Their Behavior Patterns and Problems." Dr. Buchner is chairman of this committee.

The Cinema Committee, under the leadership of Bob Trenchard, Dave Watert, will present the following movies: "Fall-Safe" on September 22, "High Noon" on September 29, "The Cards" on October 6, "The Trial" on November 22. Homecoming '66 will take place in Montclair's Memorial Auditorium on October 20. This year's theme will be "Carousels." The co-chairmen of the committee are Edward Breckenridge and Leonard Elefant.

Alley Club will continue every Friday night with its free fonts, free entertainment, and free atmosphere in the lower lounge of Life Hall.

The Montclairian will continue to help you, posted on "CLUB" events.

NASSA Photos Slated For Exhibit at MSC

"Photography: Five Years Of Space," an exhibit on loan from the National Aeronautics-and-Space Administration, will be on view from September 17, 1966 to October 1, 1966 in the Lobby of Memorial Auditorium.

The 40 photographs in the exhibit, most of them in color, were chosen from the best made by members of the Camera Club, National Geographic, the New York Times, and NASA Staff. They run the whole exciting gamut of the Space-Age — manned flight, scientific probes and satellites, and weather and communications satellites in orbit, space vehicles, and advanced research and technology.

In general, the general public can see the astronauts, scientists, and engineers at their exotic work and get a clearer understanding of what the United States is accomplishing in space.

Photographers will see superb examples of the professional cameraman's technique.

The exhibit, to which NASA noms all those photographers made since the original five-year span, has been estimated to be seen by over 400,000 people in museums and public libraries.

MSC Hosts 53 HS Students In Upward Bound Program

Fifty-three Jersey City high school students spent six weeks on the Montclair campus in a United States Office of Economic Opportunity program entitled Upward Bound.

The students, who were mostly from families in the low-income bracket, were admitted to Montclair State College, Montclair State University, and St. Peter's College. A consortium arrangement on the part of these institutions for $9,000.00 was allocated for the project.

The students, who were recruited on the basis of poverty guidelines and underserved areas, were selected in June. The morning hours were devoted to academic pursuits, and the afternoon activities included physical education, chauffeur driving, arts and industry, and typography. Cultural electives, such as music, piano instruction, and fine arts, were scheduled each day. Faculty members who assisted in the Upward Bound program were Fr. Frank Cordes, Thomas Millard, Dr. Lawrence Kenyon, and Dr. Lawrence Bellahmey.

A follow-up program is being planned at St. Peter's and Jersey City State College during the school year for returning students. Montclair halls were reserved for the group and the dormitory living experience in a real academic setting. The information, discussed among the resident staff, was regularly heard.

Montclair faculty members who cooperated in the projects were: Dr. John Redd, Project Director; Assistant Dean Robert Fodell, Resident Advisor; Dr. David Watkins, Director of Physical Education; Arlen Saunders, Director of Industrial Arts; Mrs. Emily Waver, Group Piano Leader; Dr. Harry Duncan and Donald Gregow, Staff Training.

Many undergraduates who worked on the summer staff included Diane Mueller, Typing; Jeffrey Weeke, Chris to Washington; Knapp, Guitar; Shirley Bower, and a variety of Art, Music, and Drama students.

A La Recherche

(Continued from page 1)

I was assigned to poetry class with Dr. Kraus. His reputation preceded him, and I could sense definite improvement in my own use of word patterns, imagery and form, as compared with the effortlessness demonstrated by the faculty members. They made it all look much easier. After a while of this going on, I began to feel that every word had to be chosen, that every sentence was like a word puzzle, and I was never sure if I was using the proper word or if it would go together with the rest of the line. This is the way it was supposed to be.

From then on, I began to take interest, or should I say, to become interested in the act of writing. I began to work on my own time, reading more books, and I began to understand the importance of the individual. He came and left his mark on me in a special way. From the pictures, the general public can see the astronauts, the United States Office of Economic Opportunity, and the sacrifice. He gave me permission to write, to picture the particular form of expression most worthy of the sacrifice. He gave me the "Alley Club," which provideds a very special greeting for the members of the new Freshman Class.

Administration always worry about the first few weeks—the adjustment period of any school year. With a record enrollment and many new constructions projects underway on campus, the first half of the 1966-67 college year will be no exception.

Much has been done in the problems of parking, campus traffic, student lounges and reading areas. You find a report from the Business Office in this cost of the Montclairian.

Note the many improvements which have occurred on the campus during the summer months. These have been accomplished in spite of a most intensive summer program—intensive in quantity and variety of programs and students.

This should be a good college year. We should find that we have more building, more funds, and better community support than ever before. To be realistic, we have to expect that some problems will be encountered during this adjustment period. What roles of parking, community cooperation will be needed. Such matters will be handled through regular faculty, administrative, and student government meetings.

WELCOME FRESHMEN!

By Jack Pykeh

Freshmen! Welcome! We welcome the Class of 1970 to join and be a part of this exciting year, to participate in the many student activities and opportunities that will be offered to you through the Student Government Association. There are many organizations at Montclair that you can become involved in. Why wait until next semester to join? Begin to enjoy your college life this year, and make it yours.

The S.G.A. activity fee that you pay at registration will be distributed among many organizations. The "College Life Union Board" will use its share to provide a series of "alternate flow of traffic" systems, such as the let-in of the Student Union, Library. Drivers may turn right onto the mall to follow the right turn lane, the "Alley Club" turn lane, the "Crab" turn lane, or they may continue on the right turn lane. The Avenue is free for parking, but only a short time. Only a left turn onto Normal Avenue, to go left or right on Mountain Avenue, is allowed. Parking is also limited on the side of the main drive to the college and yourself by becoming involved with the Campus Club. Perhaps you've noticed. The morning hours were spent on the move in the hallways, in the same area, in the same way, with the same people, during the school year.

Construction Program

(Continued from Page 1)

The roofs on this parking lot are being replaced and the old dirt parking lot in the same area. This process will result in a decrease in the amount of cars over last year, and a larger parking lot in the same area. These areas should take advantage of this change in the amount of cars over last year, and a larger parking lot. The SGA activity fee that you pay at registration will be distributed among many organizations. The "College Life Union Board" will use its share to provide a series of "alternate flow of traffic" systems, such as the let-in of the Student Union, Library. Drivers may turn right onto the mall to follow the right turn lane, the "Alley Club" turn lane, or they may continue on the right turn lane. The Avenue is free for parking, but only a short time. IT'S YOUR SGA

I am pleased to have this opportunity to welcome the class of 1970.

The next four years of your life will be spent here at Montclair. You must decide now whether or not you will be a benefit or a strain to the college and yourself by becoming involved with the Campus Club. Perhaps you've noticed. The morning hours were spent on the move in the hallways, in the same area, in the same way, with the same people, during the school year.

Montclair Sponsors Education Workshop

A week-long workshop, sponsored by The Adult Education Resource Center of Montclair State College, developed specific recommendations for better ways of communicating with disadvantaged groups. The participants created a proposal, with representatives from the Paterson schools and community agencies for utilization of resources in Paterson for the training of teachers for urban disadvantaged areas. Other action proposals dealt with better ways of reaching out to the disadvantaged.

Ray Ast, Director of the Adult Education Resource Center and workshop co-ordinator, stated, "We plan a series of series of workshops and training sessions, based on the proposals of this meeting, aimed at improving services to the disadvantaged in the areas of health, housing, education, and employment. From these workshops, concrete methods of serving the disadvantaged more effectively will be developed.

Among the twenty-five professional workshop participants were representatives of state, health, housing, migrant, and employment programs, representatives from Community Action Programs, social agencies, public health services, adult education, and the Paterson public schools. Montclair State College faculty worked closely with the participants.

HIGH INCOME JOBS ON CAMPUS

Get a high paying job in sales, distribution or marketing right on your own campus.
