COUN531  Title  Counseling Across the Life Span.
Prerequisites  Matriculation in graduate counseling program.
Number and type of credits  3 hours lecture.
Course Description  This course focuses on the study of human development across the life span. Normal or typical developmental tasks are reviewed, as well as principles related to developmental psychopathology. Theoretical models of development including biological/physical, social, psychological, and spiritual development are discussed within the framework of developmental counseling. The course provides students with an understanding of developmental theory across the life span as it relates to client assessment, counseling, and treatment.

COUN539  Title  Orientation to the Profession: Addictions Counseling.
