Cooperative Education (COED)

Montclair State University
to provide opportunities to conduct on-site facility evaluation, test teaching
equipment, discuss training programs with faculty at other facilities, and
review financial management and business procedures used in the variety of
centers.

**CNFS621**

**Title**
Field Laboratory Experience in Environmental Education.

**Corequisites**
CNFS 601.

**Course Description**
The field experiences in this one credit course are designed to support and
supplement the theoretical foundations communicated in the course "Advanced
Environmental Education Seminar" (CNFS 601).

**COED201**

**Title**
Community-Based Learning.

**Special Fee**
Special fee.

**Course Description**
The course is offered to students engaging in community-based learning. It
provides the opportunity for students to participate, observe, reflect, and
synthesize the experience. It will advance civic and professional development
of students through practical experience in the local and business community.

**COED401**

**Title**
Cooperative Education Experience I.

**Prerequisites**
Determined by individual academic departments.

**Special Fee**
Special fee.

**Course Description**
Cooperative Education is an internship program that integrates academic study
and classroom theory with on-the-job experiences. It involves an educational
partnership among Montclair State, business and non-profit organizations for
the professional development of students. Academic faculty assess the learning
and award credits and a supervisor/employer evaluates progress. Students may
not exceed 16 credits through enrollment in multiple co-op courses.

**COED402**

**Title**
Cooperative Education Experience II.

**Prerequisites**
Determined by individual academic departments.

**Special Fee**
Special fee.

<td>Counseling Across the Life Span.</td>
<td>Matriculation in graduate counseling program.</td>
<td>3 hours lecture.</td>
<td>This course focuses on the study of human development across the life span. Normal or typical developmental tasks are reviewed, as well as principles related to developmental psychopathology. Theoretical models of development including biological/physical, social, psychological, and spiritual development are discussed within the framework of developmental counseling. The course provides students with an understanding of developmental theory across the live span as it relates to client assessment, counseling, and treatment.</td>
