Nadine Udahl Crowned 'Miss Montclair State'

JILL ST. AMBROGIO 'MISS CONGENIALITY'

Nadine Sue Udahl was crowned Miss Montclair State at Phi Lambda Pi's Annual Miss Montclair State Pageant on Friday, Feb. 10. Jill Ambrogio was named first runner-up and Miss Congeniality. The Pageant, the second that Phi Lambda Pi has produced, is an official preliminary of the Miss America Pageant.

There were seventeen participants who participated in the competition which consisted of gown, talent and swimsuit competition. They were Jill St. Ambrogio, Judy Ann Davis, Valerie Myer, Nadine Sue Udahl, Laura Triano, Rosemarie Petrolo, Michelle Salma Wolfe, Maureen Linda Ramcharan, Marie Farace, Carol Ann Bednarek.

Nadine, a member of Sigma Delta Pi, is a sixteen year old Speech major from Morris Plains in her sophomore year. She has received training in dancing, acting, and oral interpretation. She is also co-chairman of Homecoming Activities for 1967-68.

RUNNERS-UP

A twenty-year-old sophomore music major from Bloomfield, Jill received training on the violin, piano, and in voice and is a recipient of the Music Scholastic Scholarship. She has also won various modeling wards and is a member of Sigma Alpha Iota.

The second runner-up was Judy Ann Davis, a sophomore, of Delta Theta Psi and chairman of the Grace Freeman House Council, a member of Kappa Rho Upsilon, and is also a winner of Miss Plainfield. She is a nineteen-year-old freshman who is also a recipient of the Music Scholarship. She has received training in dancing, acting, and oral interpretation.

Laura Triano, a twenty-year-old sophomore piano major from Pompton Lakes. She is a member of Kappa Rho Upsilon, Players, and the College Choir, and a recipient of the Lincoln Center Music Award and the Pompton Lakes Music Scholarship.

Bruce Greenwood, a nineteen-year-old sophomore, of Glen Ridge, is a teacher of the violin, piano, and organ; Laura Rose Greenwood, a junior, is a cellmistress. Laura was first prize for Jazz Accordion Playing at the World's Fair and in 1966, won third prize in the State Classical Accordion Contest.

MOC TO PRESENT GERARD SOUZAY, NOTED BARITONE

Gerard Souzay, internationally renowned baritone from France, will be heard in concert Thursday, Feb. 19, at 8:30 P.M. in Montclair State College's Memorial Auditorium. He will be presented by the college's Music Organizations Commission.

Since his debut in this country in 1960, Souzay has returned for part of each season to fill heavily booked schedule of recitals and orchestral engagements. He has appeared with practically every major orchestra in the United States.

In Europe, the popular singer's concert tours, are usually sold out several seasons in advence. Other tours have taken him to South America, Australia, New Zealand, and Africa. He is in particular demand at leading international music festivals.

Best known as a recitalist, Souzay also has had wide operatic experience. He made his Metropolitan Opera debut as Count Almaviva in Mozart's "The Marriage of Figaro," and last season again starred Paris as Don Giovanni. A part he has sung at the Paris Opera more than a dozen times in the last two years.

His recordings of opera, German lieder, and French art songs have won wide acclaim, and many of them have been issued toward their summer expenses. This group of students includes: Jeffrey Ballon, Austria; Therese Bowman, Switzerland; Loretta Campello, Italy; Kathy Bruno, Sweden; Marie Buenoan, Holland; Eugene Domingo, Germany; Jacqueline Cuts, Canada; Elizabeth Best, Donald Bowers, Bruce Greenwood, Kai Kangur, Vladimir Samohutin.

Elizabeth Best, a junior social studies major from Audubon, will travel to India. At MSC she is a member of the International Relations Club. Betty is currently enrolled in the University's "seven sera" program.

Donald Bowers will visit Sweden. Don is a junior social studies major from Plainfield. Among Don's activities are Junior Class President, College Life Union Board vice-chairman and Tau Sigma Delta fraternity. Don was also co-chairman of Carnival last spring.

Donna D'Amato will visit Tanzania this summer. Donna is a junior English major from Paterson.

Bruce Greenwood, vice-president from Pompton Lakes Music Association, is a junior social studies major. In 1964, Bruce is active in Senate, and was co-chairman of Sound for Carnival. Bruce will visit Switzerland.

Kai Kangur was born in Russia, Vladimir is a junior English major who comes from Pateron. He is a member of the senate and is also a wing counselor in Stone Hall.

Joseph Klaus, a junior biology major, who is currently Student Government Association President, will visit Russia and land. Joe, who is also a member of the Senate, is a member of Pi Kappa Alpha. He has been selected as President of the Class of 1969. It is also a member of the Senate, the Faculty Student Cooperative, the College Development Fund, and the War Memorial Board. Joe has received a Russ Scholarship.

Twenty Receive $107

There is a group of twenty Montclair students who have been accepted by the Experiment. Each of these students will receive a stipend of $107 toward their summer expenses. This group of students includes: Jeffrey Ballon, Austria; Therese Bowman, Switzerland; Loretta Campello, Italy; Kathy Bruno, Sweden; Marie Buenoan, Holland; Eugene Domingo, Germany; Jacqueline Cuts, Canada; Elizabeth Best, Donald Bowers, Bruce Greenwood, Kai Kangur, Vladimir Samohutin.

Experiment in International Living Nominates 46 Students for 1967

The Experiment in International Living has nominated 46 students from Montclair State College to take part in its summer program this year. Six of these 46 utomn students will receive seventy-five percent of their expenses from the Student government through the International Relations Club. These six students are Elizabeth Best, Donald Bowers, Donna DeMarco, Bruce Greenwood, Kai Kangur, Vladimir Samohutin.

MSC Students Selected by Experiment

SGA LAUNCHES PLANS FOR 27 HR. MARATHON

A precedent is about to be set at Montclair State—a 27-hour marathon. It will be held from 8:30 P.M. Friday, April 14th until 11:00 P.M. Saturday, April 15th.

M.S.C. is sorely in need of more and better buildings, particularly a new Student Life building. However, due to financial incapacity the College can not meet the demands of its rising population.

The main objective of the marathon is to attract the attention of the State and State Legislators and thus to secure more funds for the College Development Fund. "Much Ado About Something," the title of the 27-hour marathon, indicates that students do not intend to be strung by funds. Instead of standing still and doing nothing, they are doing "something." The Marathon Committee has been working since Fall semester, planning the program. Let- ers have been sent to entertainers, businesses and politicians in the hope of soliciting support for the event.

Radio, television and newspaper coverage will be handled by the Voice of Montclair working in conjunction with College and independent stations. Publicity will be given in newspapers throughout the state.

Program Plans

"Much Ado About Something" will encompass twenty-seven hours of entertainment—panel discussions, lectures and novelty acts. Many individuals and groups on the campus have volunteered their support of the program.

Sororities, fraternities and campus organizations have expressed interest in working for the marathon. Many people have volunteered as eccent, singers and comedians; campus rock and roll bands also offered sup- port.

A stereo hi-fi donated by the Record Rack of Upper Montclair will be given to the winner of the "Stay-Awake" Contest. CLUBS have been selected by the "Stay-Awake" Contest. CLUBS have been selected by the "Stay-Awake" Contest. CLUBS have been selected by the "Stay-Awake" Contest.

"Much Ado About Something" will be the scene of the marathon. Curfews will be extended to accommodate the dorm students.

Tickets will be sold at $1.50 (Continued on page 5)
Six MSC Students Depart For Semester’s Study In Denmark

On the evening of January 29, 1967, six Montclair State students departed from Kennedy International Airport to spend their spring semester at the University of Copenhagen in Denmark.

The “Europe-bound” students were George Brunelle, sophomore major; Helen Kuchta, senior fine arts major; Ellen Van Vliet, junior mathematics major; Nancy Bittman, junior English major; Vivian Noson, senior English major; and Lillian Nistico, senior fine arts major.

A total of thirty-four students from the six New Jersey State Colleges are participating in this program which is coordinated by a joint committee from these schools. At the University of Copenhagen each student will take twelve or fifteen credit hours of classes which will be accepted toward graduation so that students can complete degree requirements in four years. The courses of study include Contemporary European History, European Opera and Ballet, European Culture and Civilization, European Art, Education in Denmark, Scandinavian Literature and Drama, and Major Political Systems in Europe. All classes will be conducted in English by the faculty of the university.

Teacher Placement Viewed As An Increasing Problem

During the first week in March the Student Teaching and Placement Office will begin sending out requests for student teaching assignments for the 1967-68 school year. The students have listed several cities at which they would like to teach, and in these requests they have added the following: Scandinavian Literature, Systems in Europe, and Drama. The Montclair State College is required by law to place them, and those not selected by the Foreign Student Placement Office will be offered other choices.

Students have listed their preferences for placement in the order of their choices. The faculty of the university has been notified of these choices and will make the final placements.

The total cost for each student was $1359, which included round trip transportation by air from New York to Copenhagen, travel insurance, room and board, field trips, medical insurance, and tickets to cultural and civic events. During their stay the students will live with Danish families in Copenhagen.

The six MSC participants were selected by the Foreign Student Exchange Committee. To qualify each student was required to have a satisfactory academic average of approximately 3.9 and the ability to profit from a semester of study in Europe. Although Montclair State was limited to six students this year, the program may soon be expanded to enable other students to study for a semester in England.

Further information concerning this program can be obtained from Dr. Norman Lange, Director of Student Teaching and Placement.

Players Present Reader’s Theatre

A discussion and demonstration of Reader’s Theatre, a form of oral interpretation, will be presented at the Players’ meeting on Wed., Feb. 22, at 7:30 P.M. in College High Auditorium.

The program will be conducted by Players president, Charles Croce, and vice-president, Paul Hart.

Orders to take out
MONTCLARION has announced the receipt of a $12,000 grant from the National Institute for Advanced Study in Teaching Disadvantaged Youth.

The money will help the college implement a newly inaugurated special program for urban teachers, known as SPURT. This program, scheduled to start next semester, will include field work in Paterson, arranged through the cooperation of that city's Superintendent of Schools, Dr. Michael Gioia, its Board of Education, and various community agencies. About 30 sophomores are enrolled in the initial course.

The National Institute is a project of the American Association of Colleges for Teacher Education and is funded through NDEA (National Defense Education Act). Montclair State is one of about 25 institutions or groups of institutions receiving grants for work in preparing teachers for disadvantaged areas. The primary purpose of the grants is to stimulate faculty involvement in new approaches to the problem, Dr. Richardson said.

According to Dr. Lawrence B. Kenyon, an associate professor of education who has headed the planning committee, Montclair State will use a portion of its grant to finance a group dynamics workshop for students, faculty, and community representatives involved in SPURT. Tentatively set for Feb. 3-5, the workshop will be directed by Drs. Alfred Gorman and Donald Gregg, both of the education faculty.

Arny Named Co-Adviser

The Class of 1968 is proud to announce that Mrs. M. Arny of the science department has accepted the position of class adviser. She holds the post jointly with Mr. Saunders of the language department. We would also like to congratulate Mrs. Arny on her election to Who's Who in The Science World.

This past Christmas, the Class of 1968 again sponsored a Christmas toy drive for a local orphanage. The drive, under the direction of Frank Abate, was highly successful. The class would like to extend a "Thank You" to all who participated by giving gifts. A special word of "Thanks" goes to Gamma Delta Chi, Delta Omicron Pi, Delta Phi, Lambda Chi Delta, Theta Beta Chi and Theta Chi Rho.

McDowell Gives Lecture at NCE

Dr. Samson McDowell, a professor of biology at Montclair State College, gave a lecture on "Water and Waste Management" before the New Jersey Section of the American Society of Mechanical Engineers Thursday evening, Feb. 9, at Newark College of Engineering.

In his lecture, Dr. McDowell considered the role of biological agents and their management in water quality control and stressed the need for the biologist to work with the engineers on any attempt to improve the quality of water supplies. He is of the opinion that efficient pollution control requires the combined action of engineers, sanitarians, and biologists.

Dr. McDowell has had wide experience in environmental biological surveys both here and abroad, working as a limnologist and biological oceanographer with particular interest in phytoplankton and zooplankton.

"Miss Montclair State"

(Continued from Page 1)

After the girls appeared in their gowns, Miss Middlesex County, Lorraine Williams—a junior music major from Passaic, Township was introduced. Susan McDonald performed a medley of tunes from West Side Story on the piano.

VARIETY OF TALENT

The second phase of the competition was the talent competition. Nadine recited from Edwin St. Vincent Millay's "In the Garden," and Jill performed a violin and vocal solo of "Pil Me to the Moon." A dramatization of Eugene Field's poem, "Seeing Things," was Judy Davis's selection. Carol Ann Bednarek sang "As Long As He Needs Me"; Laura Triano performed the Hungarian folksong, "Kadashon," on the accordion.

After the swimsuit competition, the judges selected the five finalists who were each asked a question, determining the ultimate selection of Miss Montclair State College.

Among the awards which Miss Montclair State 1967 will receive are a $200 scholarship and all-expense paid trip to the Miss New Jersey Finals in Cherry Hill. She will also represent MSC as its Homecoming Queen. The first runner-up receives a $50 scholarship.

The pageant was directed by Tony Di Netta and produced by Louis Calderone, President of the fraternity. The Master of Ceremonies was Phil Lambis P'67's own Bert Parks, Alfonso Jennings. Miss Linda Weir, a pageant finalist in the 1966 pageant, was Mistress of Ceremonies. She helped with the gown description and introduced the girls.

As her last act as Miss Montclair State 1968, Miss Marie Manzo thanked everyone who made her reign so enjoyable. She wished all the girls the best of luck and good wishes.

Harambee Spirit

Are you qualified to teach in Kenya, Africa? How does the normal school education in Kenya compare with the teacher preparatory program in the United States? In answer, Kappar Delta Pi presents 'The Harambee Spirit' by Virginia Toms on March 8 at 7:00 p.m. in Chapin Hall Lounge.

Miss Toms, a mathematics teacher at Ramapo Regional High School in Franklin Lakes, spent the 1966-67 school year teaching at a normal school in Kenya.
Is The Grass Greener?

It is evident that self-esteem can be either an asset or a detriment to one's character and that justifiable criticism of oneself and of one's surroundings (often called self-awareness) tends to be constructive when indicative of a need for reform. But unwarranted degradation of an individual or an institution is destructive and does little or nothing at all to accomplish the desired results.

This attitude of self-degradation, we of the Montclarion staff feel, is quite prevalent on the part of the students of Montclair State College. Our campus has often been given the misnomer "a glorified high school" by its own students who refuse to use their time or talent to prove M.S.C. otherwise. Students scathingly pass off the remark "It is a Montclair Way of thinking. Communication of everything from a muddy parking lot to a men's crowded cafeteria table. Granted, many of the existent problems are a cause of discomfort and annoyance to students and demand solution. But we wonder if the administration staff also feel that a lot of anxiety can be alleviated if we students do it ourselves. Those students who really care will care enough to complain to the right people. Gripping among friends at the snack bar will not do little to remedy an annoying situation. Neither will knocking the college to those outside the student body. Look around you: Whatever your year, you are bound to see changes rapidly taking place for your benefit.

The addition of paperbacks in the book-stall, the opening of the new parking lot behind Finley Hall, the availability of recreation facilities in the lower lounge of Life Hall on Sundays—these and other opportunities for a college community atmosphere are continually increasing. The administration is not latent; we are inclined to believe the problem lies to a great extent on external conditions. There are those who really care who will care enough to make a difference. If there is some need for this clarification. We are willing to devote the space to an extensive coverage of this issue, if the response warrants it. We sincerely hope that members of the college family grasp this opportunity.

Academic Freedom - A Burning Issue

The words academic freedom recently have become an integral part of our language. All too often, however, this phrase loses its meaning completely to those who use it. There is sometimes a lack of understanding of the term which is responsible for this misuse. One can see the reason for such confusion; the term's meaning constantly changes as more and more people use it.

There are very few people who can be truly aware of all the implications of academic freedom.

We of the Montclarion have noticed confusion and much misunderstanding on this campus in relation to Academic Freedom. There are a lot of people who have definite opinions on this issue. Many of these people, including administration, faculty and students, should be heard. We strongly feel that they should be given the opportunity to be heard. Although there is a great deal to be said about this, one is due now.

The International Relations Club might be able to fit this type of program into their already full schedule. Because of the importance to this issue to education, SEAM might sponsor such a program.

The Montclarion would be proud to carry a dialogue on the issues of academic freedom. We invite members of the administration, faculty and student body to write articles and letters for publication in a forthcoming issue of the Montclarion. We feel strongly about the need for this clarification. We are willing to devote the space to an extensive coverage of this issue, if the response warrants it. We sincerely hope that members of the college family grasp this opportunity.

Positions are now open to all students who are interested in working on the MONTCLAIRION staff as reporters, editorial assistants, and typists.

Those people interested in make-up, proof reading, and business are particularly needed. If you are interested, please fill out the form below. Send to the office of Outdoor Conservation Education.

A Little Late For Students With an 8:00 Class, Mayre?

MONTCLAIR STATE CLOSED DUE TO SNOW...

The Montclair State College has been chosen as the site for the construction of another 500 bed dormitory. We are very fortunate in this decision and the college will benefit much from the expansion of its dormitory population.

The choice of the location for the new building has not been made (comments in a local newspaper notwithstanding) and the decision poses interesting problems. The larger question of future development of our institution should concern the whole college family. How large should the college become? What portion of our student body should live in dormitories? What portion should commute?

As we move into many curriculums in addition to professional education, where should the emphasis be placed? As you know, we have already started an undergraduate liberal arts program and this has now been supplemented by a graduate program in pure mathematics.

Masters degree programs for the preparation of school psychologists, student personnel workers and school social workers have now been approved by the State Board of Education. Our college has also been given permission to develop a minor degree in Outdoor Conservation Education. The Federal government has given Montclair the money to award ten full-time graduate fellowships in the area of Outdoor Conservation Education and this program will be especially interesting since it will be a joint venture with two other colleges.

Things are moving rapidly in our college both in the academic and in respect to buildings and facilities. Our primary concern is for quality education, however, and care will be taken to avoid growth at the expense of those things which through the years have given us a fine program. Even when the program, however, it is the student body and the faculty which determine what a college is and I hope that we open all of the channels of communication as which are necessary in order to make certain that new programs and new facilities really reflect the aspirations and capacities of people who are Montclair State College.

Thomas H. Richardson

EDITORIAL BOARD MEETING FOR ALL EDITORS AND STAFF WEDNESDAY, FEBRUARY 15, 4:00 p.m. Any one wishing to be a reporter should attend this meeting

Deadline for next issue: February 20
To and all those students whom I’ve heard say, “I’ve given up!” “I wish we could do something else!” or “Why spend two dollars for nothing?” To you I say, “You are more in favor of spending $1.50 than any other organization—if you become active.”

Just this week, on Saturday, there will be the SNJEA All College Conference, with标签, State College, with excellent speakers and discussion groups but there are not enough students to make the point. I suggest that you call your friends and neighbors and make sure you get a great deal out of it—only YOU can make it active.

Robert Grace
President, SEAM

IT’S YOUR SGA

Beginning next semester I would like to propose that the women living in either Russ or Chapin exchange places of residence for one of the men. My theory is that when the women can get along with the situation on this campus has been one of separation for reasons not clearly outlined.

Many of the students living on campus are familiar with this uncomfortable state of circumstances, particularly on weekends and after supper. This dilemma seems to be the only major gathering place for them, after the football ends of campus. It may be, women and men could be placed in the same vicinity of campus if each end of campus. I believe it will do a great deal to improve social relations among the dorm students. I invite the dorm students to meet and talk about their feelings on this subject to either myself or an S.G.A. representative. A complete lack of open opinion on this subject, will be the only factor in deciding which policy we should pursue.

Concerning the proposed 506 student dormitory, there are at present 400 women and 200 men living on campus. With the new dormitory there will be 900 women and 200 men. Considering that the fact that enrollment at M.S.C. is climbing and will continue to do so I do not think this gives true protection of the female to male ratio. A better arrangement would be to construct two 250 bed dorms. One for men and one for women.

Dean Morehead once told me that perhaps the most important factor at any institute of higher learning is a dormitory—the place where students work, live, talk, and learn from each other. A student on campus can derive much more from the experience than a student at a commuter because of his inconvenient situation.

MONTCLARON

Ribicoff Proposes Tax Exemption Bill
To Aid Parents Of College Students

Senator Abraham Ribicoff (D-Conn) on Feb. 4, 1967 introduced his bill to give tax relief to parents and students who pay the costs of a college education. The proposal provides an income tax credit of up to $225 on the first $1,500 of tuition, fees, books, and supplies. It would go to anyone who pays these expenses for a student at an institution of higher education.

The measure this year has picked up strong support; it is co-sponsored by 46 Senators from both political parties and from all sections of the country.

It is the same as that Ribicoff has introduced in previous Congresses with one exception: An amendment would include coverage for students in accredited post-secondary business, trade, technical, and other vocational schools.

Senator Ribicoff pointed out that under his proposal, two-thirds of the benefits would go to families earning less than $10,000 a year.

In a statement on the Senate floor, Senator Ribicoff said:

"Now we must decide if, as a nation, we are to treat education costs as we do the interest on a home mortgage, or flood damage, or health expenses. This proposal is for the average family in America. It is for the people who constitute the backbone of America — the blue collar workers, the white collar workers, the wage earners and salaried persons of the lower and middle income group who are struggling to pay their bills, buy their homes, and educate their children. They work hard for their wages or salary — and it is all taxable."

Such tax relief is needed and will be needed, he explained, because the costs of going to college continue to increase.

"Ben Franklin could experiment with a kite and key, but today's universities require atomic accelerators, mass spectrometers, and other sophisticated equipment."

"Study year abroad in Sweden, France, or Spain. College prep., junior year abroad and graduate programs. $1,500 guarantees: round trip flight to Stockholm, Paris or Madrid, dormitories or apartments. Two meals daily, tuition paid. Write: SCANSA, 50 Rue Proper Legoute, Antony-Paris, France."

Carol Fette, Queen of Hearts

Carol Fette, a sophomore fine arts major, was chosen Queen of Hearts at the Queen of Hearts contest sponsored by the men of Agora Fraternity. The first runner-up for the title was Bonnie Olsen, a sophomore fine arts major, who was chosen Queen of Hearts at the Queen of Hearts contest sponsored by the men of Agora Fraternity.
The Trenton State Lions (13-5) clawed the proud Montclair Indian (14-3) 87 to 60 before a standing room only crowd of 1800 at Trenton’s Hillwood Lobes campus. For the first time this season coach Dave Watkins cagers find themselves in second place in the New Jersey State College Conference first-half game behind front runner TSG.

The Lions got off to an early lead on two field goals by Don Fowler a 6’2” freshman from Hamilton High and steadily increased their lead on the dominating outside shooting of sophomore guard Tom Wiccerick who ended up as the game’s high scorer with 25 points. Montclair managed to overcome a 10 point deficit with Keith Neilson at the half but failed to score a field goal in three attempts including two by Dave Conroy and Mike Oakes who ended up as the game’s high scorer.

Don Fowler a 6’2” freshman recovered and put the game out of reach for the Indians as he scored 11 points in the second half to lead Montclair to a 30 point margin at half time.

Montclair despite its inability to rebound effectively managed to overcome the rebounding of senior center Bob Gleason and junior Mike Oakes who ended up as the game’s high scorer with 25 points. Montclair fouled heavily at the end of the game and that enabled the Indians to win by the 17 point margin. The 30 point margin was the largest margin of victory for Montclair at Hamilton this year.

Montclair’s margin of victory was aided by the rebounding of senior center Frank Deaver who recovered and put the game out of reach for the Indians as he scored 11 points in the second half.

(Continued from page 7)

Bowling Intramurals

The intramural bowling program will start on Tuesday, Feb. 14, 1967 at 4:15 P.M. at the Bowling located at the junction of road 3 and route 48. Entry blanks may be picked up at the office of the Director of Athletics in Panzer Gymnasium. All entries must be returned to the office of the Director of Athletics by Thurs. Feb. 16, 1967.

The rules governing the men’s intramural bowling are as follows: A squad shall consist of six (6) members with three (3) bowlers constituting a team. A blind score will be 100. Only six (6) members with three (3) bowlers constituting a team. A blind score will be 100.

Bye Announces Two Tours: Central America and Canada

Edgar C. Bye, director of the Bureau of Field Studies at Montclair State College, announces that registrations are now being accepted for two upcoming, college-sponsored tours. The first will be an air trip to Yucatan, Guatemala, and Mexico City during Easter holidays, March 26-April 12; the second, a motor tour of Montreal, and New England.

The Easter tour will give participants an excellent opportunity to study and contrast ancient and modern civilizations. Mr. Bye said. Among its high points will be visits to the Guadaloupe Shrine, Tutto Pyramids, and Chichen Itza, center of Mayan culture. There will be stopovers in Antigua, Paln, and Chichicastenango, and a boat ride across Lake Atitlan to the native village of Santiago.

The cost of this tour is $755, including airfare, sightseeing, hotels, tips, and all meals except in Mexico City and Guatemala City.

The Summer tour will be made by chartered bus over the Montclair Trail. A visit will be made to Cape Breton Island, with visits to the Cabot Trail around Port Royal Habitation, Digby Fortress, and Keltic Inn at Ingonish Beach. The group will also have the good fortune to be in the village of Santiago.

The Summer tour will be a visit to Mexico City and Guaymas, Mexico; Norma Shamey, Argentina; Magda Tiszaeker, Austria; Linda Thomas, Great Britain; Suzanne Welsh, Denmark.

The Experiment makes its nominations on the basis of the adaptability of the applicant to a variety of situations. The Admissions Committee of the Experiment is interested in those who show initiative curiosity, leadership, and a faculty for getting along well with others.

Neither the SGA or the IRC processes the applications. These organizations collect applications and sponsor the first six persons selected by the Experiment.

GRANTS

(Continued from page 3)

from income and assets must be less than $25.

2. The difference between the college budget and the total family contribution (parents' contribution from income and assets plus contribution from student savings and summer employment) must be more than $1,000.

3. The student must receive assistance from other eligible sources of at least $200.

Grants will range from a minimum of $200 to a maximum of $900 a year, and can be no more than one-half of the total financial assistance given the student. As an academic incentive to students, an additional award of $300 may be given to those students who were in the upper-half of their college class during the preceding academic year. Grants are renewable each year for the original amount granted. 1966-67 Summer - Guaranteed Bank Loans.
Seniors Spark Matmen
Look To 11 Win Season

This year Montclair's Varsity Wrestling team is being sparked by its three seniors: Co-captains Carl Bateman, Tom Stark and Jeff Rosen. These three wrestlers have a combined dual-meet record of 16-3 including 6 pins. Carl has the added honor of never being defeated in his dual meet collegiate record. His was the only win against East Strousberg, which is ranked seventh nationally. Tom, better known as "Rubber-Legs," has shown determination and skill throughout the season. Jeff, a defending Metropolitan Champ at 191, came in third in the C.W. Post Christmas Tournament and has a total of 6 pins this year which puts him within 3 pins of tying the school record set by Lany Schiaccatano of 20.

The team has an overall record of 5-1-1 and looks forward to another eleven win season. The chances are good that Montclair will regain the Metropolitan Championship which is being held at Hofstra on Feb. 24 and 25.

Foul Shooting Contest Planned

Men's intramural foul shooting championship preliminary round will be held in Pasquer Gymnasium on Tues., Feb. 14, 1967 from 6:30 to 8:30 P.M. or at another time the gym is free on Feb. 16th or 17th. The championships, which will include the ten finalists of the preliminary round, will be held during the half of the Newark State College basketball game scheduled to begin at 8:30 P.M. on Feb. 24, 1967 in Pasquer Gymnasium.

Contestants for the Championship must sign up in the office of the Director of Athletics in Panzer Gymnasium by Feb. 16, 1967. The starting times for the contestants will be posted outside of the Men's Physical Education office and on the Sports Bulletin Board in Life Hall on Monday, Feb. 13, 1967. Each contestant will be allowed a maximum of five warm-up throws. Twenty-five throws will constitute the championship contest.

Bowling Intramurals

(Continued from page 7)

One blind score per game will be allowed. Each bowler will be required to furnish his own bowling shoes. Scores may be recorded at the Bowlero. A series shall consist of three games. A squad may receive four points by winning all three games and having a high total pins for the three games. Standings will be based on total points scored. No one is eligible to bowl who has been bowling for money which would classify him as a professional bowler.

President Richardson presents plaques to the MSC's nine 1,000 point scorers, among them Bob Gleason and Paul Steen, Connie Ferry, Al Gifford, Nick Petrii, Clem Tenaro and Ed Weber.

Trenton State

(Continued from page 7)

Bowl and Oaks but held B.o.b. Lester out side and he didn't do his usual job. A couple of other factors may be cited namely the refereeing, the weak lay-off caused by the snow and several missed lay-ups and 3-point shots.

The bright spot for the Big Reds was the fine overall play of Bobby Lester, our fine sophomore forward who scored 16 points and hauled in 12 rebounds.

Should the Indians and Trenton State win the remainder of their games this season, then a playoff game will be held on a neutral court sight for the New Jersey College Conference crown and the right to play in the NAIA District 31 Championships with the winner going on to Kansas City for the National Championships. Last season Trenton State and Newark State locked horns in a playoff game and Newark was victorious.

However the Squirers lost in the District 31 playoffs and Montmouth went on to win and represent our area in Kansas City. Monmouth last hit to 90 in the first round of the tournament which was eventually won by Oklahoma Baptist College.

This year the Squirers can play a spoilers roll as they meet Trenton at their Union campus and visit Panzer Gymnasium.

Notes: Last night State played Pratt in Brooklyn, the Indians played home Saturday night against the Profs from Glassboro and play Newark College of Engineering on Friday on the road. Their are four games next week Monday a makeup game with Paterson State at Patner, Wed. a trip to New Britain to tangle with the dangerous Central Connecticut team. Friday the Newark State gym at 8:00 and likewise on Saturday with Steve Sehka's Newark Rutgers team.

The season's finale is scheduled for Tuesday Feb. 28 at home, against Jersey City State, led by Dennis Richardson (B.o.b. Gleason's old teammate from St. Al's in J.C.) Playoffs then! We hope!
