Clean-up Campaign
Set For Life Hall

A cafeteria clean-up campaign will go into effect Mon., March 13, 1967. The campaign is aimed at cleaning up the Life Hall cafeteria and snack bar. The cafeteria is used by the commuting students during the day and the dormitory students in the evening. Both groups of students use the snack bar at all times.

Signs reading “Think clean,” and “Hey, Hey, Throw It Away,” will be placed on all tables and walls of the cafeteria. The committee has called and the Inter-Fraternity and Inter-Sorority councils. A sincere effort and a change of student attitudes and behaviors is necessary for a successful completion of the campaign. Announcements will be made in the cafeteria by SGA president Jim Doy and Dean Lawton Illston. These announcements will aim at awakening the students to the need for concentrated effort in cleaning up the cafeteria.

URGE STUDENT COOPERATION

In a letter to the Inter-Fraternity Council, Gary Leo and Robert Foley asked that each student cooperate in the campaign by placing his coat and books in the storage racks located on the walls of the cafeteria and by cleaning the tables of debris when he leaves. They went on to say: “As you can see from the cooperation that we are asking for, it is reasonable and should not cause a great inconvenience to any student.”

It is felt that a clean cafeteria will better accommodate the large number and at the same time it will serve to provide the student body with more pleasant surroundings.” The letter also stated that “at the present time these facilities are inadequate to comfortably handle the large number of students that use this cafeteria.”

The other members of the committee, aside from Mr. Leo and Mr. Foley, are Charles Barraga-to, Bruce Greenwood, Ellen Kator, Tom Parciak, and Tom Parciak.

Foley Receives Appointment
As New Associate Registrar

President Thomas H. Richardson has announced the appointment of Robert Foley as new associate registrar.

Mr. Foley graduated from Newark State College with a Bachelor of Arts degree in 1960 and received his master's degree from the University of Maryland in 1965, where he held a full scholarship and membership in the Inter-Fraternity Council. In addition to being director of men's off-campus housing, Mr. Foley has supervised freshman orientation and worked with the Human Relations Laboratory. He is also the faculty advisor of the sophomore class and the Inter-Fraternity Council.

The new position was created because of the overload of work produced by the increased enrollment at Montclair. Mr. Foley's office will now handle the business of actual registration, while the Registrar's office will continue to be concerned with evaluation of student records and statistical research.

Mr. Foley believes that the majority of students at Montclair do not want a fully computerized registration system and that at some other state colleges, where the student must often fill out the schedule set up by the computer. For this reason, the registrar's office has undertaken a study to determine what measures should be taken to speed up the present method of registration.

IRC to Present 5 Day Seminar on Communism

Under a forceful and vibrant leadership and membership, the International Relations Club has presented a revolutionary approach to disseminating information to the students and faculty on campus. In an interview with the St. Cloud, vice-president of the organization and director of program planning, Sharron stated that the club was entering a new era of awareness, not only in a practical sense of reaching more of the campus population, but also in scope and style of programs.

The main purpose of IRC is to promote more students and information to the campus. The program also features two main speakers: Mr. Frank Barnett, Director of the American Strategy Center and Mr. Timothy Wheeler, who hope to represent the viewpoints and extremities of these two philosophies. FREE PROGRAMS. Other programs for the semester will include a Seminar on Communism in the American Society, a regional conference on the Third World, and a series of films to which will be cooperated with other campus organizations. A unique service begun by IRC is its open library which consists of articles and publications from varying political groups.

Tom Stepanowski and Lois Niek, co-chairmen of the 1967 Carnival, discuss plans for the coming event.

CHAIRMEN AND THEME CHOSEN FOR CARNIVAL

Sophomores Lois Niek and Tom Stepanowski have been appointed Chairman and Co-chairmen of this year's Fall Carnival. Mr. Foley is a business major, active in the SGA and a member of Delta Omicron Pi, Tom, a chemistry major, is a wing-counselor and a member of the Carnival Committee for the new Student Union Building.

The Carnival will be held on March 13, 1967 and activities will be designed around the four sections of Ad- ventuereum, Fantasia, Frontierland, and Tomorrowland. The title, Walt Disney's, A Man and His Worlds, was chosen to pay tribute to the man who created Disneyland.

Carnival will take place on May 5 and 6 in the area between Annex 2 and College High.

The committees and their respective chairmen are: tickets, Maria DeOliveira, Ron McCor-

mick; program, Shelia Basilo, Gordon Benjamin, Maria Rega Otriniczak, Linda Ripe-

lighting, Robert Braun; construction, Bruce Berringer, Bob Hurley; location, Maureen Basile; photography, Howard Eck- stein; equipment, John Cole, Mario Coleman, William Wolfram; audio-visual, Dave Pegg, Bill Martin; decorations, Connie Bry- ata, Linda Ross; traffic, Joe Magrini; security, Mike Leavy, Bill Ryan; fund distribution, Terry McCarty, Ted McCarty, standing, Joan Bacenas, Helen Faring, Tom Ackers, Andy Pa- lmer, Reggie Williard, Tom Stemling, Lou Seiden; publicity, Laure- nce Williamson, Paul Loy.

ISC Plans Open House

The Inter-Sorority Council will sponsor an Open House for all interested girls on Sun., March 12 from 7:30 to 9:30 p.m. in Life Hall. President Bonnie Cook and her co-chairmen will first conduct a general assembly in the Memorial Auditorium. All thirteen sororities will la- ter be represented in different designated areas of Life Hall in the hope of enabling all girls to become acquainted with each one since the freshmen girls will be eligible to pledge this semester, it would be wise for them as well as the sophomores and juniors to attend the Open House. By doing so, they will become familiar with the sisters of each sorority who have united according to their individual personalities and preference. Each girl in a sorority must have a 2.25 average.

Many of the activities on campus are due to the cooperation and coherence within each of the sororities. The Inter-Soror- ity Council is the governing body.
Dr. Thomas Richardson, president of Montclair State College, was formally welcomed as a guest at a reception held at The Montclair Golf and Country Club in West Orange. The reception was organized by Mr. John Almoquist's committee composed of faculty and students. Attended by 289 faculty, 130 staff and students the guests heard speeches by Dr. E. DeArtegicha, former president of M.C.C.; Dr. Wilkins, president of Newark State College; Dr. Gilbert (now President) of Providence State College; Mr. Jack Slater of the New Jersey State Board of Education; and Dr. Harold Burrough, a former president of M.C.C. The evening began with Dr. and Mrs. Richardson receiving all the guests. This was followed by informal conversations. During the reception of the guests, music was supplied by seven members of Lambda Mu Chapter of Pi Beta Phi Alpha Sigma. Later in the evening, the guests danced to the music of the Danny Benson Trio.

President Richardson said that the evening was most pleasant and that the sentiment was just wonderful. Dean Blanton has found to have numbed the feelings of the guests when the hour was near and the evening was just marvelous.

The main park of the country club served as the reception room. The tables were set with lawn chairs and refreshments and other assorted flowers. Punch and cookies were served.

During World War II, President Richardson served as a lieutenant in the United States Army Air Corps. Following the war, Richardson took a leave of absence and then returned to the Montclair Golf and Country Club in West Orange. The main park of the country club served as the reception room. The tables were set with lawn chairs and refreshments and other assorted flowers. Punch and cookies were served.

MONTCLAIR STATE RECEIVES OUTDOOR EDUCATION GRANT

A co-operative program involving Montclair State College, Glassboro State College, Trenton State College, and the New Jersey State School of Conservation, has been awarded a $192,000 grant by the United States Office of Education to prepare specialists in Outdoor Education and Conservation. The grant, under the Experienced Teacher Fellowship Program, will cover the total costs for an expected 25 full-time graduate fellows who will receive the Master of Arts Degree in Outdoor Education and Conservation upon completion of the full year program.

The major purpose of the Experienced Teacher Fellowship Program (Title V of the Higher Education Act of 1965) is to improve the qualifications of experienced elementary and secondary school personnel who demonstrate leadership potential. Therefore, it is required that all applications for this program come through the recommendation of the local school superintendent, who not only supports the candidate's potential but who also insures his or her return to that district upon completion of the program.

The program is primarily aimed to assist New Jersey school systems, though qualified candidates from neighboring states will also be accepted as space permits.

Each of the selected fellows will receive a basic stipend of $2,000, plus a $100 per month housing allowance. In addition, some special experiences will be provided. Some spiritual directors have already signed up. Among them are: President Rich- ardson, Dean Blanton, Miss Francis Moore, Mr. DeLash, Mr. Kessler, Dr. Sobolik, Mr. Minur, and S.G.A. president, Kiera A.P.O. and the Montclair chapter of the Red Cross are sponsoring this drive.

Further information and release forms for students under 21 are available in the Last and Found office operated by A.P.O. in front of Memorial Auditorium. The cooperation of everyone is needed to obtain the required number of donations, so please sign up as soon as possible.

Dr. Hanns Buebker will speak on simultaneous translation at a meeting of Overseas Neighbors of Montclair Wed., March 15, at 8 p.m. in the Guild Room of Central Presbyterian Church. Dr. Buebker is a visiting professor at George-town University, Washington, D.C. on leave from the University of Vienna. His wife, the former Gertrude Greiner spent a year at Montclair State as an exchange student from Austria. Students and faculty are cordially invited to attend the meeting.
Human Relations Lab Scheduled For April

A Human Relations Laboratory will be held at Camp Bern in Washington, New Jersey, from April 20-23. The purpose of the conference is to enable students and faculty members to participate in an experience in social psychology and "group dynamics."

The heart of the program involves the behavior of the teacher in the classroom laboratory director. The objective of human-relations or "group dynamics" is to see yourself as others see you. Participants study group interaction. They evaluate the effect they have on people's behavior and develop skills for communicating ideas.

At the conferences, students are divided into groups or training groups in which they experience the behavior of others. Lectures on the theory behind group dynamics follow. It is felt that if experience precedes the lecture, the information retained will be more meaningful. "In other words, you can have hours of aviation ground training, but you really cannot fly a plane until you go into the sky," stated Dr. Gorman.

Experience Desired

In many classroom situations experience should precede lectures since purely verbal communication is often not enough to get ideas across to students and to affect their behavior.

The Human Relations Laboratory is also involved in the Special Program for Urban Teachers, "SPURT." In February a human relations weekend was conducted at Camp Wapalanne for the 32 students and 10 faculty members in this program.

Group dynamics may be the coming "wave" in the field of education. Although in the past much of the research in the field of social psychology has been ignored, many educators now believe that training in human-relations can help students become more effective teachers.

The Human Relations Laboratory began at Montclair State College in the fall of 1963. The purpose of this faculty-student group was to influence campus culture. Leadership workshops were conducted for officers of various campus organizations in order to help them become more democratic leaders.

SGA Passes Dress Code

A bill recommending guidelines for a new Dress Code was passed by SGA Legislature on Feb. 28, 1967.

The revised Dress Code is as follows:

- Casual Dress: neat, clean, presentable sport clothes
- Formal Dress: dress or skirt and blouse for women; jacket and tie for men
- Formal Dress can be worn in the following places:
  1. Classes (final decision is left to the faculty member)
  2. Grounds of the campus (dormitories or buildings)
  3. Lounges or Snack Bar
  4. Lunches and breakfasts.

Deviations from the previous Dress Code are:

1. The recommended new Dress Code suggests that sport clothes (sneakers, Bermuda shorts) may be worn to class.
2. Women should wear a dress or skirt to MOC Concerts and lectures; men should wear a jacket and tie to the same events.

The recommended new Dress Code follows: I

1. Music Concerts.
2. Plays.
3. Lectures.
4. Any formal program at the college (conventions and conferences).

IRC to Participate in Mock General Assembly

For a four day period, March 9-12, seven Montclair State College students, sponsored by IRC, will serve as delegates to the National Model General Assembly, held at the Statler-Hilton Hotel and the United Nations. As representatives of Morocco, each student will act as a delegate to a specific UN committee and to the General Assembly; each will hear and discuss vital up-to-date issues facing the United Nations.

BRIEFINGS. Several briefings will encourage each delegate to think and act as though he were an official representative of his country. Frank Crippe, Mary Ann Del Negro, Carol Di rossi, John Finegan, Sharon Koval, William Lang and Richard Langenheim will have the opportunity to participate in the vital issues of the simulated UN sessions. They will also be able to canvas the feelings of their fellow delegates, some fourteen hundred and fifty college students representing thirty-seven states and numerous colleges and universities.

OBJECTIVES. Each delegate is required to keep in mind the policies and interests of the member state he represents, including its past positions both in and out of the UN. The real interest of the NMGA is in creating resolutions and arguments within the broad guidelines provided by the real-life member's policies. In working with colleagues and committees in such a way that majorities can accept a delegate's argument such a way that majorities can without violating the "representation" ground rules.

**CLASS OF '70 PROFILED**

During Freshman Orientation Week in September, one of the leading high schools facing the class of 1970 was a four-page questionnaire entitled, "National Norms for Entering College," issued by the American Association of University Professors. Both two- and four-year schools were included.

The purpose of the survey was "to compare the attitude and behavior of students when they enter college with the way they have in the future." During the next few weeks, follow-up questionnaires will be administered to the class of 1970 as part of a high school demonstration by marching or carrying a sign.

**Academic Rates High**

In contrast, 70.7 percent had voted in student elections; 51.4 percent had been quite familiar with campaigns and club activities; 37.3 percent had participated in plays; 29.4 percent had participated in a speech team and 25.6 had written for the school paper. Of the total, 69 percent had taken at least one or more advanced courses. Nearly four out of ten often admitted they had gambled with cash or dice during their senior year; three out of four had driven a car at some time or another; and about half had lived in a hotel or motel.

When asked if they drank beer, wine, or hard liquor, 44.4 percent admitted they did so. Of the students, 44.4 percent had responded positively. Of the question of drinking hard liquor, 44.4 percent admitted they had drunk it. Only one in 20 is Negro; 90.7 percent are white.

**Money — No Problem**

In the money category, the results were revealing. Fifty-four percent said they had never had any difficulty earning the money needed to pay for college and fifty of five said they could earn the money to pay for college. The results were revealing. Seventy-one percent of the students questioned answered that they had no experience of unemployment.
MONTCLARION

MSC campus is the fast approaching 27-hour Marathon. The event, entitled "Much Ado About Something," will be held in Memorial Auditorium from 8 p.m. Fri., April 14, until 11 p.m. Sat., April 15 ("Mr. Dieingly Sad").

The purpose of the Marathon is to attract the attention of the state and state legislature and thus secure funds for Montclair campus buildings, places of amusement and that of quiet.

The 27-Hour Marathon trek is the prime challenge. Also, registrants, faculty, fraternity, sorority and university organizations are working together in true academic and social cooperation in Montclair in action. This is Montclair in action.

Tickets will be sold at $1 and $5. Support your schoolboy's ticket to educational progress and to make this endeavor an actuality.

The Newark Jaycees will handle registration in advance for $1.50. Support your schoolboy's ticket to educational progress and to make this endeavor an actuality.

TWO RECEIVE FELLOWSHIPS

Prize fellowships in the field of the arts have been awarded commencing July 1, 1967, have been awarded. Fourteen graduate students, Dr. E. Szabo of the music department and Bob Oliphant, a senior major of the class of 1967, Sid Pedis, 27 hours of entertainment for more campus buildings. This event will take place at 2:30 p.m.

One of the purposes of the prize fellowship program is to provide the funds which will make it possible for students to take part in the special projects and to allow them to join the ten of the most prominent singing groups and drama organizations in the nation.

They have been chosen from among a group of outstanding students nominated by colleges and universities offering programs of preparation for teaching at secondary school teachers.

Students granted these prize fellowships in the past have demonstrated a competence of very high level. Last year, for example, the highest ranking student of 480 fellows, a masters' degree, was among those who received degrees at the Harvard Graduate School of Education.

Prize fellows will be admitted to the Master of Arts in Teaching Program. In general, three quarters of the work will be courses in science offered by the Faculty of Arts and Sciences. Work at the master's level is considered to be the first step in a program of training leading to positions of special responsibility in teaching, supervision, or research. It is hoped that most award winners will wish to continue their education at the doctoral level, either immediately or after two or three years of teaching. For such students, work in the Master of Arts in Teaching Program will constitute the first year of a doctoral program.

BY EILEEN SLOCHE

On the eve of its 186th anniversary as a confederation, Canada is "singing to nationalism" with unprecedented preparations to celebrate the '67 Fair, which has been replaced by the world's largest nickel mine and the famous Great Western Smelter. Half of the mines, north to the coal and gypsum country, farther to the north, has been replaced by the world's largest nickel mine. The Finger Lakes Resources Company, operated by the finger lakes, was built by the Peace River country. The construction has been on the ground, the finger lakes, which has been completed.

Some plans are being made to beautify the grounds. We hope that these plans do not remain in the "thought" stage. Perhaps Paul Bunyan Day once again might be a good start in solving these problems. In any event, everyone in the college must begin to work toward making the campus more beautiful.

Spring will visit us once more in two or three weeks. Let's start planning and working so that her visit will be more pleasant and longer than last Friday's.

Quarterly—
The Arts On Campus

A considerably warm reception for poet James Dickey, large turnouts for English department films, an increase in requests for creative writing courses, response to student interest in drama by providing a course in play-writing, exciting work displayed by Montclair State art students, the polish of Players' performances, the gift of poetry by A.M. Sullivan to Sprague Library, vibrant presentations by music students and the gift of poetry by Robert Penn Warren to the campus. "Think Clean"—it won't hurt!

The Ugly Campus

Spring paid our campus an unexpected but pleasant visit last Friday. Unfortunately, she was greeted by little more than a campus up to its knees in mud. She was also greeted by drying shrubs and littered grounds. She quickly left. We can't blame her.

We have noticed that the campus lacks a great deal of beauty. If one stands in front of College High and looks towards the farthest end of campus, one can see few trees and nothing more but electric towers growing from the top of Webster Hall. Where there isn't grass, there's litter.

The field, which is no longer used for football games, could be sodded and planted. Perhaps the addition of a few benches would make this more pleasant spot on campus for studying and socializing. We wonder that this area will someday be the center of campus. Certainly the center of campus should be more than a collecting point for janitors. We should learn to do more than merely create parking lots.

Students can quickly alleviate the problem of litter on campus. The clean-up attitude prevalent in Life Hall could easily spread throughout the college. "Think Clean"—it won't hurt!

The happy, successful teacher is the one who can look at, and be able to define the characteristics of the problem.

Finally, at the All High School Conference last Saturday, there was a speaker well-known to every home here at MSC. He was Dr. Abraham George. His speech was short, but he defined the concept of the teacher. He said that if you love history or math so much, become a historian or mathematician, or Spanish or English alone, become a translator or a writer — but don't become a teacher, because the future will be history in the making. But if you love children, if you enjoy getting someone to learn something he didn't want to learn, be a teacher. The happy, successful teacher is the one who can look at even one or two of his students, and feel satisfied. I say, "I am proud of my students; he's better than I am!"

Sincerely,

New Dress Code in Effect

France had its Maginot Line, the SGA's has its Dress Code. It is on the paper, both are official. There are no sanctions for breaking the code. It serves merely as a guideline which can be ignored by anyone who wishes to do so. A student dress code has been on the book for quite awhile and ignored for the same amount of time. A revision seems outdated. A student who is forbidden by the faculty are far from shocking or show-

MSC TO WELCOME ADMINISTRATORS

It is a custom at Montclair State to bring students back to school with a "new" week of their student teaching period. Each teacher must be prepared to do as much as possible in leading the class. Lenny Ellis stated that the people who worked for CLUB should receive some reward for their efforts on behalf of the student body. Murray Weiner asked if the Used Book Store be investigated, and other interviewers were interested in the teaching student in the school. The program has mushroomed since the first series of the year, with a new group of instructors sent representatives.

Six years ago this program was called "Montclair's sixth man." The program is being represented by over 250 administrators, who have already scheduled over 300 interviews over the two-period day Mar. 9-10.

March 10, 1967

ON T4NTCLARION
Quarterly Expands Through Workshops

Recent announcements by Paul Larson, Editor-in-Chief of Quarterly, and his staff mark an expansion in the operation and scope of the campus literary magazine.

Beginning on March 8, a series of Writing Workshops will be sponsored by Quarterly in which faculty and students may have the opportunity to read their own work and discuss it. Those who may not be writers themselves, but who are interested in writing, will be able to attend.

On Montclair's campus, the faculty is encouraged to appear on an equal footing as the writers and to encourage students to participate. This will help build a bridge of communication between author and reader.

The workshops will be held in the Faculty Lounge in Life Hall from 7:10 to 9:10 p.m. on March 22, April 5, 19, May 3, 17. In addition, a large-scale reading will be held in the Student Union on April 10.

Advances are free.

Innovations have taken place, also, in the magazine's policy for evaluating submissions. After the end of the submission period, there will be an additional calendar to guide decision-making. This will enable the staff to give more attention to each piece.

Because of the large quantity of material that has been submitted this year, many good pieces of writing have not been included in the Quarterly simply because of a lack of space. These holders will be evaluated, in turn, in the Quarterly, and will be given top-priority when material for future issues is considered.

A Quarterly bulletin board is presently in the Publications Office on the second floor of Life Hall, serving as a central point for all communications for the staff.
Conant Reveals Faults in Educational Program

The "chaotic state" of school financing deprives many students of an adequate education. So charges Dr. James Bryant Conant, who commanded the nation's most influential analyst of public education, the New York Times recently reported. His detailed study of public education in America is the basis for a new book, The Comprehensive High School: A Second Report to the President on Education, which presents a new look at an old problem is much better, with advance-

(Continued from Page 1)

the thirteen sororities. It is composed of one representative from each sorority, as well as their presidents who are responsible for bringing any problems or suggested ideas to the council.

Most sisters agree that, by joining a sorority, a girl finds herself meeting all types of people in close contact. This enables her to share her creativity and compete with others in various events throughout the year. In addition, a girl may be chosen to assist in social work or usher at school activities. Not only does belonging to a sorority enlighten her social life, but it may also provide incentive for studying since an academic plaque is awarded each year to a sister with a high cumulative average.

Approximately a week after the Open House, individual sororities will sponsor teas for which they will send out invitations to girls who express an interest in wanting to become a part of their sorority. The teas will begin at the end of March and extend through April. On May 2 all sororities will have meetings in which the voting will take place. Girls will then be notified of their acceptance on or about May 5.

Mr. Henry Schmidt, Director of Athletics, announced March 6 that men's intramural volleyball ball program will start April 19, 1967 at 7:30 p.m. in Panzer Gym.

Team captains should pick up valley ball application forms in the office of the Director of Athletics.

All applications must be submitted by March 23, 1967 at Mr. Schmidt's office.

One drive in an SS 396 and you'll find your self committed to a new way of changing the scene. Chevrolet took its superb SS 396 Cowlindal and teamed it with a special 3-speed full-synch transmission, put it all in a Sport Coupe—acomes in convertible version, too.

There's a 350-horsepower version available for that extra kick and, as you'll quickly discover, the Turbo Hydra-Matic advanced transmission Chevrolet has ever offered. Shift it yourself, or put it on "D" and forget it.

SS 396. Wastes very little time getting you where you'd rather be.
PANZER SCHOOL TO PRESENT ANNUAL DEMONSTRATION

Golf Team Prepares For Spring Season

If one were to venture into Panzer Gym during the week, he would be greeted by the crisp sound of wood and iron meeting, as golf team prepares to start another hopefully successful season in defense of their championship.

The De Rosa boys have had a virtual monopoly on New Jersey State College Conference titles as they have amassed the crown in four out of the last five years with only Glassboro State spoiling a perfect record.

Last year the team was defeated in its initial tussle with May 2-Newark State; 4-New Jersey State; 6-Glassboro State; 10-Bloomfield College, the finest record ever achieved in Montclair's history.

This year's team has a strong nucleus in co-captains Gerry McConaghy and John Vrenacak. McConaghy, a senior from Wayne, was selected for the 1966 NJSCC all Star Golf Team and is also the circuit's defending singles champion.

Join Vrenacak also a senior, is no slouch himself having been selected for honorable mention All Star his sophomore year and then joining McCona­ghy on the first team last sea­son.

Other team members vying for starting berths are Richard Grant, Joseph Peterman, Santo Bussi, Robert Redak, Mark Kne­hin, Joe Grillo, George Chwast­ky, and Larry Krewer.

The De Rosa boys will defend their crown under a new standard scoring system for all matches. That is each member of the six man squad will be competing both as an individual and as a team player.

This system is beneficial in that if a player has a bad in­dividual round he can still help win points if he and his partner can defeat their opposing team players.

Each man on the six man squad can win three points, one for the best score on the front and back nines and one point for the best score over the entire eighteen holes.

The confidence you get from this system is beneficial in that if a player has a bad in­dividual round he can still help win points if he and his partner can defeat their opposing team players.

Each man on the six man squad can win three points, one for the best score on the front and back nines and one point for the best score over the entire eighteen holes.

The six men will also be divided into teams of two with one point going to the best scor­ing twosome. Thus the total num­ber of points in a match is twenty-one.

The 1967 schedule includes:
April 3-Fairleigh Dickinson
5-Newark Rutgers; 11-East Stroudsburg; 15- Upsala College;
17-Paterson State; 20-Mon­mouth College; 24-Glassboro and Trenton State; 26-Bloom­field College.
May 5-Newark State; 6-New Paltz State; 9-MJSAC; 15-St. Peter's College.

Each man on the six man squad can win three points, one for the best score on the front and back nines and one point for the best score over the entire eighteen holes.

The six men will also be divided into teams of two with one point going to the best scor­ing twosome. Thus the total num­ber of points in a match is twenty-one.

The 1967 schedule includes:
April 3-Fairleigh Dickinson
5-Newark Rutgers; 11-East Stroudsburg; 15- Upsala College;
17-Paterson State; 20-Mon­mouth College; 24-Glassboro and Trenton State; 26-Bloom­field College.
May 5-Newark State; 6-New Paltz State; 9-MJSAC; 15-St. Peter's College.

Residence Hall Applications for the 1967-1968 school year are available now in the Stu­dent Personnel Office. Women's Applications are due on March 11 and the Men's on March 31.

Another crucial moment in the Trenton State game. The team scores again.

Trenton Defeats Indians Before Capacity Crowd

The varsity basketball team stayed in the ball game all the way but just didn’t have that little extra that was needed and lost the New Jersey College Conference crown to an aggressive Trenton State College team 43 to 76 before 3000 cheering fans at the Monmouth College field house in West Long Branch. The game also decided who would play in the NAIA District II finals against Monmouth College, who won their game against Southeastern College, 108-76.

In this writer’s opinion it was a case of a superior team losing. One of the players summed up the reasons for the loss. The Indians just didn’t sell. Our shooting was off and we failed to help our defense. He went on to elaborate that Trenton dominated the offensive and defensive boards. We didn’t display our usual aggressive play.

Our attack was spearheaded by Bobby Lester’s fine play. It seemed that Bob was the only player who came close to play­ ing up to par, scoring 18 points and laying in 18 rebounds. Luther Bowen was somewhat effective from the outside with 11 points. Dave Conroy made his presence felt with 12 points. As Trenton started it all Paul Fraters and Jackie Bell, Braver, a 6’ 3” senior, dominated the offensive and defensive boards and scoring 22 points.

One MSC player commented that Trenton should erect a statue of Bell as a result of his fine play in the championship game. The Indian cager was so right. Bell’s presence at guard was unequaled.

The loss left the Indians with a 21 and 5 record, which is perhaps one of the finest norms turned in by a varsity quintet. In addition to devasting conference foes, Watkins cagers defeated such outstanding teams as Southern Connecticut, East Stroudsburg State and Newark College of Engineering twice. The Indians turned in by a varsity quintet.

Individual rebounding of Trenton should erect a statue of Bell this season against Pratt. The Indians are expected to report. The big freshman Frank Baker, an All-Indians player who came close to playing our usual aggressive play. Heidemann, Marry Cohn and Luther Bowen was somewhat effective from the outside with 11 points. Dave Conroy made his presence felt with 12 points. As Trenton started it all Paul Fraters and Jackie Bell, Braver, a 6’ 3” senior, dominated the offensive and defensive boards and scoring 22 points.

Judo Club Advances as Membership Gains

The Montclair State Judo Club, one of Montclair’s newest clubs, is rapidly growing in experience, achievement, and membership. The club’s purpose is to foster and promote the sport of judo at Montclair State College and to encourage and further the spirit of sportsmanship in athletic competition.

The Judo Club originated the previous year. The club includes 25 members and its advisor is Dr. Horn of the physical education department. The officers of the club are: Steve Hamelburg, president; Roy Bal linger, vice-president; Leroy Sheets, secretary, and Joe Switras, treasurer.

The instructor of the Judo Club is Steve Hamelburg, a junior at Montclair State College. He holds a brown belt in judo and a brown belt in karate. He has been studying judo for about 7 years. Steve is also the judo instructor at Cedar Grove High School and one of the instructors of the Asbury Park Judo Club.

The Judo Club, in its initial year, walked off with the “Best Entertainment” trophy of the 1966 Carnival event of Montclair State College. The club presented five judo demonstrations, covering most of the aspects of sport judo.

Another accomplishment of the Judo Club is the obtaining of rank by several of its members. Under Steve Hamelburg, these members were taught the various requirements necessary for advancement in judo. Roy Ballinger, Gary Hellwig, Joe Switras and Tom Becker received their yellow belts through competition and a comprehensive examination last year. Three of these men started initially at the college club and gained enough experience to earn their belt.

The Judo Club last year held its first annual inter-club competition in the Panzer Gymnasium. First place was awarded to Gary Hellwig, second place to Joe Switras, and third place to Leroy Sheets. The instructor refereed the matches. This is a competition in which the members of the club compete amongst each other to find who is the best in the club.

Future plans of the Judo Club include participating in the National Collegiate Judo Tournament at West Point, March, 1967; competitions with Rutgers University and NCE; grading for new ranks; participating in the 27-hour Marathon and Carnival 1967. One of the club’s major goals is to obtain varsity status from Montclair State College.

The Judo Club meets every Tuesday in Panzer Gymnasium number 4, 6:30 p.m. for the beginning students, and 7:45 p.m. for the advanced students. Visitors are welcome to observe the judo classes. Anyone wishing to apply for membership to the Judo Club should see anyone mentioned in this article.

Freshmen View First Season

The amazing Montclair State College freshman basketball team directed by Connors Paul Serm just completed its season with an unblemished 15 and 0 mark.

In addition to terrorizing conference foes, the Fresh defeated each highly regarded quintette St. Peters and Wagner.

The main reason for the success of the team is its fine coach Paul Serm. In his two years of coaching at Montclair, Serm has turned in 16 victories with but three reversals. Serm stressed aggressive team play, hustle and the technical aspects of the game on route to MSC’s first undefeated basketball campaign.

Fine Play Enjoyed

Making Serm’s job easier this season was the fine play of Bob Blankiewicz. At 6‘4”, Bob was the strongest player on the team. In addition to grabbing his share of rebounds, he averaged close to 25 points per game. The team has two other fine big men: Dick McGuire who moves very well for a big man (6‘6”) and possesses a good outside shot, and Fred Kimef (6‘7”) who, although only substitute, averaged 10 points per game and was high in the rebounding statistics.

The two starting backcourt performers, John Grynba, and Frank Roski, handled the ball very well and did an effective job of rebounding.

The fifth starter was Frank (Continued on page 11)

Gymnasts Complete Successful Season

Little known or appreciated by the student body is the men’s gymnastics squad. Coach Savering, has guided the boys to the best season that they have ever had. The squad has won four and dropped three meets.

Ten to fifteen men are selected for each team. For six days a week, from September to June and during all holidays these enthusiastic try to develop their bodies and powers of concentration, both necessary to a successful gymnast.

According to Coach Savering, Rich Schwartz, a biology major, Joe Miller, a physics major, and Dave Green, a freshman distributive education major are the men to watch in the near future.

Coach Savering is trying to recruit the best high school gymnasts in the state for his future teams. Savering recently commented, “I know every gymnast in the state, his name, rank and serial number.”

On Sat., Feb. 25 at 2:00 p.m., our team met West Chester College’s team at home. On March 8 at 7:30 p.m., Montclair engages in its last gymnastic meet of the season against Long Island University on their home ground.

Harlem

(Continued from Page 9)

In short, MEND is the realization of the provisions of the Office of Economic Opportunity Act of 1964.

Because of the humanitarian ideals of the teaching profession it is no wonder that teachers, especially the newly graduated, are taking an active part in work in the ghetto schools. It is almost ludicrous to believe that the school can possibly be divorced from the community in which it exists, if it is to be an effective means of education.

"A school which is not community-oriented is a junior school," states Dr. Confer, "if this is so for the middle class suburban school, it is even more so for the urban school which is the heir of the myriad complexes of a rapidly deteriorating central city..."

Students Enthusiastic

The favorable response of the student visitors to the East Harlem trip was overwhelming. Most of the visitors felt that there was a great difference between reading about the disadvantaged community and in visiting one, and that their interest in teaching in such a community was greatly heightened by the visit.
