English Stars, Chad and Jeremy
To Be Featured at CLUB Concert

The refreshing sounds of Chad and Jeremy will be heard on the MSC campus in the Panzer gymnasium. The concert committee of the College Life and Planning Board will present this concert on Sat., April 22, 1967, at 8:00 p.m. in Panzer gymnasium.

Chad and Jeremy first met at a drama school in London, England, where Chad Stuart, an ex-art student, hungry for fame and luck in the professional theatre, called themselves the Chad and Jeremy, the lead singer—no glasses—were recognized throughout the world by all audiences for their fresh, new sound. Their appealing music has made them one of the most popular groups today.

After the actual emergence of Chad and Jeremy, they formed Moll, Brower Speak at SGA
Dr. Daniel Brower and Mr. Karl Moll addressed the Student Government Association on April 3, 1967 at the request of SGA President Janice Diner. Dr. Daniel Brower of the education department spoke on the clarification of the student's role while Mr. Moll spoke on the subject of the president's faculty advisory committee.

The traditional relationship of adult to child is quickly changing, stated Dr. Brower. College should do more than give us a degree; it should teach us to be critical. What is bad in education is the confusion of the method with practice. Dr. Brower went on to define the purposes of each of the campus groups: administration, faculty, students and alumni.

Aspects of Campus Life
There are four aspects of campus life in which the student must get involved, continued Dr. Brower. The first area is that of admission and staying college.

Richardson Responds To Students at Forum

Students of MSC met Memorial Auditorium Tuesday afternoon, April 11, at 4:00 p.m. At least fifty students and student representatives attended the President's Forum, which purposed to discuss three issues: parking, student participation in decision-making, and illegal parking also colors this situation. Each day twenty to thirty cars are found on campus in the fine arts and library in the amphitheater area.

Universal Appeal
Top radio stations across the nation enthusiastically played their hits. Not only rock and roll, but also "easy listening stations" were anxious to play their refreshing sounds. They appealed to all audiences, adult and teen alike.

A stained glass window including "Yesterday's Gone." "A Summer Song." "Willow Weep for Me." soon led to hit albums, international tours, and television and radio appearances.

Today, Chad and Jeremy are recognized as America's number one vocal group of today. Their fresh, new sound is heard on the MSC campus in the third, CLUB sponsored concert.

There are four aspects of campus life. Dr. Richardson introduced discussing the above problems. "employee relations among students, faculty and administration, the student leaders to discuss prominent issues, made it clear that students' initiative is of vast importance in the college. In relations among students, faculty and administration, he said, "Mutual respect is primary."

After these three points were clarified, Dr. Richardson answered the students' questions concerning:

PROFESSOR WILLIAM DELL'S FIRST BOOK IS PUBLISHED

A Benediction and Other Poems, the first edition of poetry by William C. Dell, has recently been published by Bobbs-Merrill in California, one of the most distinguished publishers of small literature. Mr. Dell, a Montclair teacher, is explicit in his appreciation of his first book: "In the four years that I have known Bill well, I have been impressed by his attitude toward poetry. Although I was not one to criticize, he has consistently shied away from pushing into print. After appearing, however, in several different publications, he now appears in volume—small, modest, but of quality. There is a chasteness in his form and expression like carving of intaglio, the images are clear and refreshing. This is the poetry of a man who holds the function of poet high. I like the longest poem, "A Benediction" because it has, for me, in the center of the area and are objects of study in themselves: Eighth Street B. -v. -r. -phore, Phoenix Bookstore, Tompkins Square Bookstore and the Gotham Book Market, which distributed Poind's little magazine, The Ex., in 1927 and is the center of the New York area.

Robert Edwin (Steinfort) will appear in Town Hall on New York City on Sun., May 7, at 8:00 p.m., in a concert entitled Jazz for the Masses. This concert will feature, along with Ed Farmer, Joe Newman, Howard McGhee and Eddie Bonemere.

The purpose of the concert is to show the masses the relevance and importance of the jazz performance to a contemporary religious scene. It hopes to demonstrate the fact that jazz, or any other musical idiom, is not profane and does not go against church teachings.

The program consists of Bob performing contemporary songs be he has done in recent concerts, worship services and recordings, Howard McGhee's Blue You, the big band service performed last summer's Newport Jazz Festival; Joe Newman's O. Sing to the Lord: Art Farmer's Baroque-jazz interpretations and Eddie Bonemere's Missa Hodierne. The much discussed, exciting Catholic jazz idiom in today's contemporary jazz will be released short­ly.

Robert Edwin recently appeared with his combo for the first time in a concert entitled Praise the Lord in Many Voices. The entire concert was also recorded and is available on the Avant Garde label, and on both 45 and 78 RPM albums. Bob's contribution was so vast in Mass for the Secu­lar Center that it was also featured on another album opposite Father Martinis, Community Mass, called By Request Robert Edwin Sings. His personal album, Keep the Rum­ors Going, will be released shortly. Records may be ordered by calling 69'-5982.

Ticket information for the Town Hall concert may be obtained by calling 222-4619. Tickets are $4.50 and $3.50—bal­cony and orchestra.

Many Student Problems Discussed by Blanton

"The reason why there are not more people working in the cafeteria is that there is not enough money to hire them," said Dr. Stephen Kowalski, Dean of Students at Montclair State College, in a recent interview concerning the many problems facing men and women at the college.

"The Dean, in reference to the cafeteria, maintains that there is a program underway to urge students to keep the cafeteria clean. He also told me that it is very hard to get individuals to work at the hours that the students are dat­ing. "As for the food, it could be worse," he said, relating a story of one student who let the blood drive funded by the College and transferred to the Uni­versity of Michigan. The food, to his dismay, was worse and he decided after one semester to return to Montclair State.

Further Problems

Another problem that is thrown in the side of students is the long time that forms near the registrar's office for schedul­ing. According to Dean Blanton, there are two reasons for the tie-up. First of all, there are not enough people to help in arrang­ing the schedules resulting in the use of inexperienced helpers.

"The only solution to such a situation is to reorganize the use of the program aid, which is presented inside incon­tion is to somehow gain recog­nition from students; that is, acquit the students with the function of the organization. He added that "many of the Student Peace Union are honest, intelligent people who just cannot support the war in Southeast Asia as it now stands."

Quite unlike the S.B.P.U., but of equal concern, is the reason why dorm students are not allowed to have liquor on campus. The Dean says that, among other reasons, "the college is located in an urban area and therefore the laws of intoxicating drinks is prohibited."

As for the upcoming summer break, students on campus are under 21 and a state law forbids the sale of liquor to minors, and he intends to support the law. The perplexing or troublesome matters that face us are not in­soluble; nor are they peculiar to MSC alone. What is important to note, however, is that Dean Blanton, more than anyone else, is interested in the welfare of the students here at Montclair State.

A Chess Club will finally come to Montclair's campus. On Wed., April 19, a meet­ing will be held in V-258 for the purposes of registering members for the club and fixing the amount of dues. Also at this meeting regis­tration will be held for the simultaneous exhibition to be held here on campus by a United States Chess Federa­tion rated expert, Steve Boyko. Steve, a sophomore math major will play anyone who registers for the exhibition, all at the same time.

He is the New Jersey State Junior Chess Champion. The meeting will be held on April 19 at 7:00 p.m.

The Players production of Moliere's witty seventeenth-century comedy, Tartuffe, will be presented on April 27.

Tartuffe is the story of the unmasking of a religious hypocrite. Tartuffe, the "pious" man, worms his way into the household of Orgon, a religious hypocrite. Tartuffe, the most famous of Moliere's characters, is the title character of his satire on religious hypocrisy. In the history of the theatre. Before his works appeared, comedy was confined to vulgar farces with stock situations and contrived, artificial plots. It was Moliere who set new standards by which comedy and comic acting have been judged ever since. Comedies should be a commentary on life. Moliere said. The comic playwright's objective should be to delight his audience by laughing at his own characters. He must show the gap, discrepancy between what people are and what they think they themselves to be. Although his characters are vain, gullible, pretentious, insincere, any hypocritical, Moliere is always understanding toward them.

In addition to the performances on campus, the Players production of Tartuffe will be part of the Festival of the Arts in Newton, New Jersey. On May 4 a matinee and evening performance will be given at the Newton High School Auditorium.

Susan Banks who portrays Elmire is directed by Dr. Clyde McElroy in hiding Orgon, played by Charles Croce. By Dr. Clyde McElroy in hiding Orgon, played by Charles Croce.

Carolyn Grasso, assistant director; Kathy Ramsden, and Lynn Gehring who plays Mariane relay instructions from the light control booth during rehearsal of "Tartuffe."
SGA Elections—Time to Think

Student Government Association elections are tomorrow. Look around you. Take a good look around you. Who are you going to vote for? Well, that’s rather obvious. Vote for the person who sits next to you in English class. He’s definitely “groovy.” The ability to fit into a groove, so to speak, is a good characteristic for an SGA officer. Don’t think. You will do yourself a favor. It is the most important aspect of voting for an SGA officer. Above all, don’t think! Vote for your fraternity brother or your sorority sister or your best friend. Vote for them because you know “they can do the job.” After all, didn’t they hammer the most nails into the homecoming float. Vote for someone you know couldn’t spell SGA much less pass an SGA meeting on time. Remember, in the case of SGA elections, do not vote.

Don’t think next year when nothing is happening in the SGA. Don’t think as you have to sit in classes taught by mediocre teachers. Don’t think when hints float your way that your buddy is a fink and doesn’t think. That’s another important aspect of voting for an SGA officer. Above all, don’t think! Vote for your fraternity brother or your sorority sister or your best friend. Vote for them because you know “they can do the job.” After all, didn’t they hammer the most nails into the homecoming float. Vote for someone you know couldn’t spell SGA much less pass an SGA meeting on time. Remember, in the case of SGA elections, do not vote.

The time to think is tomorrow before you vote. If you haven’t thought about your student government by then, forget it, you’ve lost!

The Marathon—A Success!

“Much Ado About Something.” That something is our college. Yes, your college. The college you chose to be yours. What did you expect when you chose to be yours? What did you expect? We of the Montclarion realize not everyone was able to attend the Forum due to classes and other obligations. But we also realize that more than 60 students have inquiries into the problems of MSC. Many complain that there are no parking spaces, yet few have ever initiated a plan to really find out what is being done about it.

Apathy on the part of the students shows thoughtlessness and inconsideration for others who actually want something to be done.

No one can force people to attend meetings and support the administration. Everyone has to go into such a project. Were you interested in working on the MONTCLARION? If so, you can do something about it other than complain.

Each class has SGA representatives, class officers and a class counsel. These people are representatives of your classes. They can only represent you if you inform them of what you think should be looked into.

For those who desire to express their opinions, this is the way. Already over 3900 of you passed up one good opportunity to find out about your school. Don’t complain unless you are ready to discuss what you feel should be discussed.

Remember—this is your college and you can make it what you want it to be—but you have to do it yourself.

Stash the Trash

Due to the inconsideration of the students that frequent the Life Hall cafeteria during the day, the Clean Up Committee has failed. We of the Montclarion assumed the students of MSC had the maturity to behave themselves properly in a cafeteria. To throw away a coffee container, dirty paper napkin, or paper plate in the proper receptacle does not take much effort on the part of the student. Students want clean facilities, yet they make no effort to keep them clean.

By not showing respect for cafeteria facilities, the student is showing the lack of respect he has for himself and his college. In the future, we implore the students to use the waste pails and throw away their garbage. The cafeteria can be kept clean but only through student assistance.

Cooperate today to make the Life Hall cafeteria a clean one.

Positions are now open to all students who are interested in working on the MONTCLARION staff as reporters, editorial assistants, and typists.

Those people interested in make-up, proof reading, and business are particularly needed.

Why do you want to be President of the Student Government Association for the 1967-68 academic year?

I feel that this is an important position as far as the students are concerned. Because of its importance I have considered this position for many months and have done careful research about this position. I feel that I know what is expected of the position and that I can fill it.

Comments:

1. Chairman of the Concert Committee, College Life Union Board.
2. Member of the JV basketball basketball team.
3. Lived as a dorm student and now live off campus.
4. Delegate to Association of College Unions.
5. Member of the newly formed government club.
6. Attended all SGA legislative meetings of the second semester of this year.

Why do you want to be President of the Student Government Association for the 1967-68 academic year?

I stated in my letter to the Montclarion, "Conscience makes it impossible for me not to run for the office of SGA President." If a person considers himself a member of a community in the affairs of that community, in the Montclair State community I see two forces, each having good ideas that are necessary for the complete development of our community; but because of fundamental differences, lack of understanding, and lack of tolerance, we have allowed those valuable ideas to be lost.

There is a need for growth! We must grow out of the idea that all our problems can be reduced to black or white, liberal or conservative, right or wrong.

I wish to develop an atmosphere where these positive forces might get together and unite our community.

Why do you want to be Vice-President of the Student Government Association for the 1967-68 academic year?  

As an interested student of Montclair State, I feel that I can offer my time, services, and energy in the capacity of vice-president, for the betterment of our college. Having participated in numerous activities and organizations on campus, I have gained much insight into the problems of our rapidly changing and expanding school. I have definite constructive ideas and concepts, which, with the approval of the student body, I would like to implement.

**Comments:**

As a commuter, I am entirely familiar with the problems that face this part of our student body. I have discussed the traffic problems with the proper authorities and have given consideration to several plans of action...

Why do you want to be Secretary of the Student Government Association for the 1967-68 academic year?  

The SGA is an integral part of Montclair State and its Central government as well. Having served in the SGA Legislature the past year, I have gained valuable experience and knowledge of student government policy.  

I sincerely wish to continue in the service of the school and to help preserve the principles of student government established in the past.

**Comments:**

As well as we know, the SGA is the student governing body of the college. Its aims are outlined in the SGA constitution — to promote the general needs of the students and to serve as a springboard for new innovations, academic and social.  

I am willing and ready to become part of this organization and hereby am asking for your acceptance as your candidate.

Why do you want to be Treasurer of the Student Government Association for the 1967-68 academic year?  

Because of my past experience in the office and in working through and for such organizations as the Student Government, I have developed a deep understanding and intimate knowledge of our own SGA's function.

During the past few months, while working as an SGA legislator, I have been made aware of how extremely vital the office of treasurer actually is. Hundreds of thousands of dollars are handled by the SGA each year, spending back and forth between class I organizations, loans check, the state, and school necessities. The treasurer is responsible for every cent of the money, which is an enormous responsibility in itself. Other than this, however, he is also responsible for constructing and submitting guide lines which is the necessary allotment of funds to each campus organization.

The expected proportion of liberal arts to teacher education majors will be equal.

**Psychology Minor** — This is possible, even for next September.

**College's Opinion of Student Evaluation of Teachers** — This is already happening in many MSC classrooms through questionnaires.

**Future Expansion of MSC** — There will be a new study room in the library building, but before that, we must utilize the empty space in the present building, as it is planned to connect the room. The new building will be in the rear of the courtyard area. A new building will be constructed for the Student Union.

**MOLL, BROWER**

(Continued from Page 1)

The student must take an interest in the criteria for admission. Curriculum is the major area of campus life. It is important to note that "tailor-made" curriculums are not possible. Many professional training institutions are becoming more and more liberal arts without losing their professionalism.  

Teaching quality, class size and types of classes are also an aspect in which the students must begin to take an interest. Non-academic matters are the fourth and perhaps one of the major aspects where student interest must be evident, stated Dr. Brower. He ended his talk by stating that most of the things which students grip about they can do something about.

Mr. Moll, chairman of the president's faculty advisory council, spoke in response to a faculty-student group's request for a voice on this committee. It was established in spring 1965 at the request of President Richardson. Faculty-student council meetings are exclusive to students. It is an advisory group to the President, alerting the President to concerns of faculty and establishing a basis of discussions of major faculty problems.

Mr. Moll stated that the groups are moving from an advisory to a decision-making body. Members of the committee, however, do not feel that students would be part of the council because of its function at this time. However, they have offered their services in exploring the possibility of creating this role for students. It is important to note that some student problems have been brought to attention of the members of this committee. A question period followed before the conclusion of the meeting.

Many students and faculty members have little knowledge of the tract of land presently being purchased by Montclair. It is located on Hemlock Drive, Lake Valhalla. The tract of land is Valhalla Glen. It is located north of Montclair. It is situated on Hemlock Drive, Lake Valhalla. There are very few such acres remaining in the metropolitan area which consist of such valuable beauty. For the past 13 years Montclair State has been conducting a fund-raising campaign to enable the college to purchase 30 acres of this beautiful land area. A debt of $16,000 was levied upon which a debt of $16,000 presently remains to be paid within one year. Dr. Marie Kuhn-er, chairman of the Valhalla Glen campaign, has been active in the practice teaching period, the curriculum lab did not have any students working with Dr. Joseph Schnitzer, members of the Student Personnel Center in the Cosla Room of the college. Both of these areas are working jointly to obtain this land.

It is interesting to note some of the historical background of the land, Valhalla Glen. Actually, Valhalla Glen takes its name from the "god's" to the ancient Norsemen which may reflect the connotation to the lake by acquiring it for strictly educational use. There are many different types of trees. Just a few are hemlock, sugar maple, dogwood, chestnut, red and black oak, shagbark hickory, white ash, and American beech. Besides, there are many different types of animals present at Valhalla Glen which contain the characteristic trees of the deciduous forest. They have seen many topics for investigation through this tract of land and are eager to support the study of sciences. This is one reason why Montclair State hopes to own and utilize this valuable area.

To Whom it May Concern: For the benefit of the future development Fund, MSC. Your help is urgently needed to preserve this tract of land and help with the project also.

Four straight rainouts did little more than temporarily delay the start of another successful baseball campaign at Montclair. Coach Bill DiGugliemo's Indians took right off where they left off last year and combined timely hitting with excellent pitching to past victories in their initial two outings of the season.

In the Indians' first game against Jersey City State, senior first baseman Frank Roos provided the only hit and a single run batted in, as he followed Dick Shute's walk with a long drive over the center field wall giving Montclair State a 5-4 victory. Jim Downing, Jim has thrown out several runners. The mound staff consists of Dick Shute, Ralph Vennachia and the only undefeated team in the East were considered for the Year. The mound staff consists of John Gardi, Wayne Mazurek, and John Grzymko. These men saw action in the first two games.

Putting the wood to the ball, will be hard hitting outfielder Tony Picaro, who already has bagged four hits; Lee Tuccillo, the man who highlighted the Drew University 9-0 in their opening game and then went on to scalp Adelphi 13-1, giving just two hits in each contest.

With a large group of five hitters and a trio of equally competent hurlers they will be hard to beat this year. Watkins, a Penn State grad, led the Indians to a 21-5 record during the past season. The 21 victories represented the greatest number of wins MSC has ever achieved in 32 years of intercollegiate history.

In New Jersey State College Conference play Penn State posted a record of 9-1 and tied for the league championship with Trenton State. The Indians and the Lions both finished the season with a post season round of 1-1, tying for the league championship.
