CLUB To Present The Four Seasons

The Four Seasons will be presented tonight in the final CLUB sponsored concert for this school year. The concert, scheduled for 8 p.m., will be held in Panzer gymnasium.

The Four Seasons began with Frankie Valli, first tenor, Bob Gaudio, second tenor, Nicki Massi, bass, and Tommy De Vito, first baritone. They represented a blending of talent from two other groups. Frankie, Nick and Tommy, with the latter's brother, had recorded under the name The Four Lovers, and Bob originally sang with the popular Royal Teens. Bob wrote "Short Shorts," which became an overnight success and gave the group its first hit.

By 1960 all four young men were looking for new directions for their careers. The Four Lovers were thinking of disbanding, and Bob had quit the Royal Teens to concentrate on writing. The future Four Season quite naturally got together in New Jersey where they were practically neighbors. Bob was prevailed upon to resume performing and join the others in forming a new group. He was also encouraged to continue writing with the idea that he might provide the group with fresh recording material. . . an idea that has proved to be very successful.

The new group began performing in small clubs, and subsequently came to the attention of Bob Crewe, an independent record producer. He first used them to provide vocal back­ground for other recording artists, until 1962 when Bob Gaudios came up with a song that seemed a perfect vehicle for the Four Seasons' debut. It was recorded and released on the Ve Day Bel in August 1962. Within one month it became a "hit."

The song was "Sherry" and it sold over a million copies and earned the group its first gold record. After that one hit followed another, most of these written by Bob. A listing of these include "Big Girls Don't Cry" (Continued on Page 3)

Quarterly Publications Chapbooks

by James Bussing

Quarterly, your literary magazine, is the "little" magazine in the United States, and after winning first prize in the national contest at New Jersey as the best college literary magazine will now start the work of one writer press. The Chapbooks annual has been assigned by James St. Bussing to be the editor of the Chapbooks. The Chapbooks will be published the first of December, and will make a habit of publishing a complete edition of the collections of the four years. The chapbook edition of the Chapbooks are H. W. Hutchinson III, Diane Wald, and Al Hall. These books will be available soon at the shop.

Possibly, the Chapbooks can even be used as a teaching aid in the classroom, especially in the instruction of writers in writing, forms of literature, and contemporary poetry. Quarterly is presently using the Chapbooks to work hand in hand with its Writers' Workshops.

Writers who have recently completed workshops in the publication of the Chapbooks are Roberta Rizzo, Vladimir Samuelski, Karen Thiele, Ken Vogel, Barbara Rizzoni, and Diane Zervopoulos.

Alternate Resident Assistants include: Daniel Brought, Joyce Forseman, Nancy Haverstick, Elizabeth Harrington, Joseph Krencky, Rose Marshall, Cynthia Mercurio, Christine Paige, and Allen Surpless.

The Resident Assistant is an undergraduate student appointed to work with individuals and the administration of the campus. The student holding the position is immediately responsible to the Resident Program Director, the Assistant Dean of Students, and the Dormitory Directors in the conduct of the college community.

Barbara Rizzo, Vladimir Samuelski, Karen Thiele, Ken Vogel, Barbara Rizzoni, and Diane Zervopoulos.

In this column of the last Montclarion for the school year 1966-67, I would like to express my appreciation to the seniors and the students who contributed to this column in various ways during the year. The students who contributed include many of the students who have already graduated, and I hope that they will continue to contribute in the future.

I will not dwell on those qualities of goodness and leadership which Miss Freeman displayed in abundance, and about which many complimentary statements have been made. The thing that impressed me most about Miss Grace Freeman was her individuality. In our age of rubber-stamp, cartoon-Copy people, this lady was startlingly an individual. One could never anticipate exactly what Grace Freeman would or would not say. She was a colorful person. I do not remember attending a single meeting in which she participated which turned out to be a dull meeting.

Miss Grace Freeman's educational success, personal, political, and community leadership all will be remembered. I wish I could remember her as a unique person full of Sark and wit and wisdom.

Many boards and groups which meet here at Montclair State College will continue to have interesting meetings and activities, although we will sorely miss her. Miss Grace Freeman will long be remembered with a smile and with a sense of humor.

THEIR SQA

Before I become a "has been" president of the Student Government, I would like to take this opportunity to comment on a few of my observations concerning some varied aspects of college life at Montclair.

First I would like to congratulate Tom Stepienowski and Lois Nash for a fantastic job as chairman and co-chairman. As much of you know, carnival was "washed out" on Saturday.

The decision was made to move carnival into life. The rain seemed absurd at the time, yet it turned out to be an overwhelming success. I personally think that one of the greatest things ever accomplished at the college. Despite the disappointment and the manifested unhappiness of making a carnival indoors, the students of MCS came through again.

Concerning the "college town" (which, I hope, will continue to be the goal of Montclair campus)...! The majority of the people in Upper Montclair didn't care whether the campus was called "Montclair" or "Campus". All they wanted was a good quality of life that was not affected by the activities of the students.

On May 24, meantime the final Peace Vigil of the school year will be held. Let us at least understand, if not agree, with what these people are doing.

The Right Direction

The year is quickly drawing to a close. We can look upon this year's accomplishments with a great deal of pride. Unfortunately, however, we cannot take credit for all these accomplishments as our SGA President and I in his column in the last issue of the Montclarion.

As fine as this year might have been, however, there is one predominant attitude which does annoy us greatly. This entire attitude is summed up in one phrase and I give the students what they want. Unfortunately, nobody has ever asked the students what they really want. Even few in just have ever asked what the students really need.

The entire result has been an anti-intellectual approach to the social and academic life of the college. We can't even mention an attitude at all, merely discuss the problem. We are fortunate that the student body passed the increased activity fee in the referendum. Many organizations will have more money with which to work. However, better programs are not achieved with money alone; a proper attitude must exist among the planning groups. The Library, the Soup Sales and Four Tops intentionally think about their forthcoming summer living, it would be wise to remember that learning does not stop with the termination of college courses. During the summer there is an entire summer ahead of us.

The Peace Vigils

The Peace Vigils at Montclair State College do not evoke a favorable reaction, even though there have been no "incidents." There seem to be two major camps of opposition: those who feel that the demonstrations are "Reds," "beatniks" or "intellectuals" who are causing more harm than good, and those who feel that the presence of the demonstrators who are present has no value in the demonstrations. This writer has spent enough time here to contend only with the latter group.

What are the purposes of the Peace Vigils at MCS?

First, they exist for those who wish to express their refusal to become a part of a system which some consider to be a "war machine." Without drawing fallacious comparisons of situation, it is ironic to note that we are bringing to trial those who killed millions of people under form of Hitler on the basis that responsibility to one's personal beliefs is more important than the fulfillment of what one feels to be a moral evil perpetuated by the State. Let us not in this situation minimize the importance of personal belief and its expression.

Thirdly, they exist to effect change in the American military and foreign policy. The demonstrators have held signs saying "Stop the drive to your College Campus and end the war in Vietnam now." To say that pressure groups, which are a vital element of American political life, and others of similar leanings are among, have no effect on governmental policy by making certain that to know and understand the working of the American political system. In actuality, the power of such pressure groups in this country is largely dependent on the activity of the interested groups.

On May 24, meantime the final Peace Vigil of the school year will be held. Let us at least understand, if not agree, with what these people are doing.
Dear Editor:

I am writing this request for this notice of my article appearing in the May 19 edition of The Montclarion. I wonder how many people in Montclair have read it. I think that a re-evaluation of the Culman Report as empirical data from the educational sector itself, stated Dr. Frank Cordasco, president of Fairleigh Dickinson University, on May 6 to explore the educational aspects. Two well known experts feel that the outcome will finally be decided in the November election.

The Child Plays in His Room

And imagines he's the man who brought terror and destruction to South Vietnam. The child, as it did in 1960 and that would give the Democrats 51 in this area and the Republicans 40.

We will never try to pick the electorate's vote outcome of the 1968 election. That will be left to Mr. Gallup and such magazines as The U. S. News and World Report, but we can give a chance for six out of ten electors popular vote percentages if the election were being held Tuesday.

The picture in the West is also bleak for the Democrats. Out of the 13 Mountain and Pacific states, Kennedy-Johnson would also could win 3. It appears that the Republicans could win the same number of states that they did in 1960. This would give them an extra 9 votes (repeatability).

The Midwest looks about the

al aspects. Prof. Browne, who worked for five years as an economist for the U. S. Economic Aid Program in Cambodia and Vietnam, and was a guest lecturer in 1963 at the Van Hans University in Hanoi, will respond to its economic and political aspects. Two well known folk singers will sing for us as well.

We have set up this evening not as a lecture, but a dialogue between you and the speakers. They will start things going by raising the main questions and giving background facts. Then we hope you will ask plenty of questions.

In view of the dangerous escalation of this war and the vital need for a better understanding of the issues involved, do respond to our invitation and come on May 23. It should be a rewarding experience for all of us.

Sincerely yours,

Letters To The Editor

Dear Friends:

We are all concerned about the rapidly escalating Vietnam war. On every side we hear: "Is victory possible in Vietnam?"

We pull out now, will South-Asia fall?

Will it be our turn? Will we be left with an immoral or just war?

What really will bring this war to an end?

Watkins to Accept Post At Dickinson

Dave Watkins, who led Montclair State College to the best record in its basketball history last season with a 21-5 mark, has resigned in order to accept the head coaching position at prestigious Dickinson College in Carlisle, Pennsylvania.

Regarded as one of the fastest rising young basketball mentors on the East coast, Watkins' departure came as a surprise to MSC officials. Watkins became the Indians head basketball coach three years ago when Henry Schmidt, the Indians' director of athletics, stepped down after a ten year career.

Hardworking and extremely personable, Watkins did a masterful recruiting job in the three years. While building the fine 1966-1967 team, Montclair State prospered under the watchful eye of Watkins and produced a record of 21 wins, 14 defeats, a 19-0 mark.

Not only will Dave Watkins be remembered as a good basketball coach but he was one of the finest and most popular professors at Montclair. He was no only a great contributor to sports but an even more important contribution to education. His successor will have a tough time replacing him both at court side and in the classroom.

He will leave the foundation for a very fine team. The first six players from this year's team will be back, along with the Indian freshman team which posted a undefeated 19-0 mark.

In addition, Watkins has recruited another top-flight group of New Jersey high school players this year which figures to give MSC a solid team for the next two or three seasons. In addition to his success with the varsity basketball team Watkins also coached the junior varsity to a 13-15 record in three years as coach.

The varsity soccer team also prospered under the watchful eye of Watkins and produced a record of 21 wins, 14 defeats and 3 ties.

No successor has yet been named to replace Watkins. The sports staff of the Montclairian hopes that Mr. Paul Szem, the former Indian cage star and personable, Watkins did a masterful job in the three seasons of 11-13 and 12-14, before hitting the jackpot this year.
