Chancellor Dungan Meets Student Press at Trenton

by Ernest Jaeger

Arthur Schlesinger, Jr., pulitzer prize winning author who lectures on campus on Nov. 29.

Arthur Schlesinger, the noted author, historian and lecturer, will speak at MSC in the lecture series sponsored by the Lucky Life Union Board. The lectures will begin at 6:30 P.M. on Wed. Nov. 29 and will be held in Memorial Auditorium.

Mr. Schlesinger was graduated summa cum laude from Harvard in 1938. The following year, his honors essay was published under the title of Orates A. Brownson: A Pilgrim's Progress. It received high praise from critics and was a selection of the Catholic Book Club.

During World War II, Mr. Schlesinger served in the Office of War Information in Washington, the Office of Strategic Services in London, Paris, and Germany, and the United States Army. During this time, he completed work on The Age of Jackson, which won him the Pulitzer Prize; at 28, he was the youngest historian to receive this award.

Mr. Schlesinger returned to Harvard as professor of history in 1941. In 1961, he went to Washington, where he served as special assistant to President Kennedy and, after his death, to President Johnson.

Mr. Schlesinger is the Albert Schweitzer Professor of Humanities at the City University of New York, graduate division.

MSC Holiday Whirl To Begin at Ball

The comedy performance of Gentlemen Prefered Blonds will highlight the Christmas Ball, to be held at the Meadowbrook Diner Theatre. The annual event, sponsored by the College Life Union Board, is scheduled for Fri., Dec. 8.

Arrival time to the theatre is 4:30 PM. The dinner will include roast pot of beef; decorative pins will be provided for the ladies.

Tickets may be purchased at the Fishbowl after Nov. 20. The price of $10 per couple includes the dinner and show. Reservations will not be accepted without payment.

Chairmen for the event is Pat Compan, assisted by Charlie.

(Continued on Page 8)
Cordasco Testifies Before Sub-Committee on Education

During the summer of 1967, Dr. Frank M. Cordasco, professor of education at Montclair State College, gave testimony before the General Education Sub-Committee of the U.S. House of Representatives on a bill to amend the Elementary and Secondary Education Act of 1965 in order to bring about a bilingual education program.

This testimony was designed to provide instruction in Spanish for those students, both Mexican-American and Puerto Rican, who are generally handicapped in seeking an education in this country. These students, confronted with teachers who speak only English, become frustrated and dissatisfied when faced by this needless language barrier. The problem is compounded by the fact that in our society the principal key to upward social mobility has always been, and still is, education.

The rise of American society reflects this development. The Irish of the 1840’s and the Italians of the 1890’s discovered that education would give them the knowledge and skills they would need to realize their objectives and bring them a portion of the “good life” that they felt was so essential to their physical and spiritual well-being. Today, we see these two nationalities in the forefront of American life.

Dr. Cordasco has also testified before the Special Subcommittee on Bilingual Education of the Committee on Labor and Public Welfare, U.S. Senate, and gave testimony before the Senate on the necessity for some type of bill that would alleviate the pressing educational problems of these two minority groups. The Senate made narrow educational achievement and its inevitable consequences.

Several bills are now before the Congress in an effort to confront the basic problems of the non-English-speaking child in our society. One such bill would be to promote closer home-school cooperation, and provide bilingual education for our nation’s children of non-English-speaking homes.

The entire question of the problem of bilingual education was summed up by Dr. Cordasco in his testimony before the Senate: “It is not really the primacy of language in the instructional process, but rather how a child is to be moved into an area of effective educational growth, with the goal of achieving academic competence in our society.”

At a time when newspapers, magazines, television and radio focus constantly on the problems of racial discrimination and conflict, it is hardly surprising that the particular proposal represents a new and different approach to the question of how to integrate the Spanish-speaking person into our society so that he can be brought about.

Newman Will Hold Retreat

The word “retreat,” as applied to the unique spiritual experience of introspection and religious renewal, connotes the austere and ascetic aspects of the ascetic life. However, the annual three day weekend retreat offered by the Newman Apostolate is far from austere and ascetic. The purpose of this retreat, as Newman has described it, is to offer a chance of escape from the busy rat race of term papers, cramming, and meetings so common in the life of the involved student. To become “involved” in this spiritual happening, according to Newman, is not a privilege, but an obligation this year to all interested persons, whether Catholic or non-Catholic student or non-student, the weekend of Jan. 5, 6, and 7, Lectures, group discussions, folk Masses, individual conferences — these are just a few of the many activities planning to instill a sense of fraternity and Christian love among all retreatants. In addition to the spiritual advantages, of retreat also offers a change of pace from the busy rat race of term papers, cramming, and meetings so common in the life of the involved student.

To become “involved” in this spiritual happening, step 1 should be made as soon as possible. Contact C. Alward, a senior and member of Delta Sigma Chi, or any member of the retreat committee, or by sending a deposit of $1.00 to the following address (to be due Dec. 1):

1) at the Newman House, 894 Valley Road, Upper Montclair.

Players Workshop Will Be ‘Evening of Comedy’

To inaugurate the new Studio Theatre (K-200), Players will present An Evening of Comedy on Dec. 1 and 2 at 8:30 P.M. and on Dec. 3 at 2:30 P.M.

Produced by Paul Hart, the workshop production will be the second Players’ presentation of the season. The first, Machaela, played to a total audience of 1500 high school students. (The total audience for the three major productions during the 1966-67 season was 10,000.)

An Evening of Comedy will consist of three plays, each representing a different theatrical period and style. During the evening both proscenium and central staging will be used to demonstrate the flexibility of the new theater.

Grammer Gurton’s Needle, the second oldest English comedy, will open the evening. This coarse farce was first performed in Cambridge, England, in 1666. It deals with a housewife, Grammer Gurton, who loses her needle as she is mending the breeches of her servant, Hodges. Madeleine Brannick will direct the cast which includes Sharon Wanch (Grammer), Jackie Tricketle (Lady Chat); Bob Brewer, (Deacon); Tony Giromi (Hodges); Monte Guarda, (Tib); and Ed Musto, (Dr. Rat).

The second play on the bill will be Lady Windermere’s Fan by Oscar Wilde. A sophisticated comedy of manners, this late 19th century play concerns the idealistic and respectable Lady Windermere, who decides to leave her unhappily married husband, Directly by Carolyn Grasso, the cast consists of Suzette Sides (Lady Windermere); John K. Showers, (Duchess of Berwick); Lou Homyak, (Lord Darlington); and Debra Browwater, (Lady Chatterley). The Evening of Comedy will conclude with Eugene Ionesco’s, Bald Sopranos. Representing the “Theater of the Absurd,” this 1948 tragi-comedy demonstrates the meaninglessness of human existence in the modern world. The stuffy, middle-class English slum-dwellers (Mr. and Mrs. Smith) are incapable of communication or love. Their banal, conventional conversations consist merely of cliches from a foreign language phrase book.

The cast, directed by Robert Lowy, includes Michael San Giannini, (Mr. Smith); Lorraine Lowy, (Mrs. Smith); Fred Mergner, (Mrs. Smith); Fred Kukowski, (Mr. Martin); Cathy Ramirez, (Mrs. Martin); Sandy Kruelwitz, (Mary, the maid); and Scott Watson, (The fire chief).

Newman-Protestant Groups To Begin Dialogue Series

Two members of the Newman Community, sophomore Maryann Shavink, and freshmen Maurice Moran, and two from the Protestant Student Council, junior Bruce Delinger and sophomore Winnie Tamarian, have met together to plan the upcoming series, "Living Room Dialogues." For the past two weeks, they have been using the book, Living Room Dialogues, edited by B. J. van den Akker and Karen Gillespie of New York University as a guideline. Each of the seven topics in the book is preceded by and ended with a short prayer service. The job of the four previously mention ed leaders is to determine what part of the books will be used, when the first meetings will be, and whether or not it will be repeated.

All those interested will register, and the total number will be divided into twelve teams of two interfaith members and six Protestants. Then the four members of the steering committee, Dr. Joseph C. Hecht, Dr. Donald C. Bruce, and co-leader of opposite faiths for each group, After the first general meeting, the leaders in each group can plan where and when and during what sessions the leaders will meet with assistants. Protestant chaplain, Rev. Ray Bynum, members on the planning board to the week before each of the monthly dialogues to discuss problems and different ideas. A minister and Catholic clergyman will address them on the upcoming topic, and the leaders will discuss it among themselves.

Changes will be made, as the program is adapted from the book, which was originally written for a program sponsored by the United Nations to college students. Chaplains Rev. John Harms and Father Tom Davis will be available for resource material. It is hoped by the chaplains that an economic service can be held after the series ends. Further plans will be posted in the next Montclarion.

On the evenings of Nov. 15 and 16, Catholic and Protestant students met for discussion after the showing of two films, "Bisexuality," and "White Rabbit and Somebody to Love." Discussion of the film about the scene for the party given by the women of Chapin Hall. Held on Nov. 5, in the Chapin Hall lounge, the party was open to all Montclair State students. "The Descendants of Love," a five piece band from Edison Township provided entertainment. Dr. Evelyn Night, a member of the groups, sang several popular songs, including the campfire song, "How to Love a Bushman in the White Rabbit and Somebody to Love.

SPURT Preparing Students To Teach in Urban Areas

SPURT, Special Program to Urban Teachers, is a dynamic program which attempts to prepare prospective teachers for work in city schools. This program is a coordinated effort on the part of administration, faculty and students for the SPURT classes. The obvious, urgent needs expressed in the recent civil strife in the metropolitan areas of this country.

Plans for the program were facilitated by faculty members in the spring of 1966. The first class of SPURT students began in the spring of 1967 with 24 students participating in a three-week seminar at Camp Walapane over seniors break. This RHL not only helped the group to become cohesive before classes started, but also made it possible for the students to become acquainted with the facility planning committee for SPURT. When classes began, the students took courses in adolescent psychology and sociology, and were simultaneously introduced to team-teaching methodology. Urban adolescent problems in teaching, and social problems were stressed in the courses.

In addition to these special courses, students spent six hours per week participating in the activities conducted in social agencies in the city of Paterson. These social agencies ranged from Board of Health, to Youth Opportunity, to Head Start, to hospitals and welfare agencies.

In the classes an attempt was made to teach students with new methods of learning. The classes were open with students and faculty with new, innovative procedures such as team-teaching, student teaching, and frequent discussions with outsiders on urban problems.

This semester, the students are working six hours per week in one of the two Paterson high schools to enable the SPURT students to become acquainted with the type of students, teachers, and administrators found in city schools.

All sophomores that are interested in teaching for Urban Teaching, is a dynamic program which attempts to prepare prospective teachers for work in city schools. This program is a coordinated effort on the part of administration, faculty and students. The obvious, urgent needs expressed in the recent civil strife in the metropolitan areas of this country.

Consultant Rank For Vernacchia

Ralph A. Vernacchia, a member of the Montclair State College fine arts department, has been named a consultant to the Hunter Manufacturing Company of Philadelphia. He is chairman of the Hunter board of supervisors in the field of graphics, assisting in the development of new graphics and printing supplies. A graduate of San Diego State College with a master's from Columbia, Mr. Vernacchia has had wide experience in the art of printing. Last spring in cooperation with Hendy Frankenfield, nationally known expert in this field, he organized and conducted five printing workshops for senior art majors at the college that gained wide recognition in art circles.

Chapin Holds Dance Party

Psychedelic lights, loud music, and mellow mood filled the atrium for the scene for the party given by the women of Chapin Hall. Held on Nov. 5, in the Chapin Hall lounge, the party was open to all Montclair State students. "The Descendants of Love," a five piece band from Edison Township provided entertainment. Dr. Evelyn Night, a member of the groups, sang several popular songs, including the campfire song, "How to Love a Bushman in the White Rabbit and Somebody to Love."

Decoration consisted of large signs, crepe paper streamers and flashing lights. Refreshments were provided by the dance committee under the direction of chairman, Wendy Ditto.

EXCLUSIVE! Free removable carrying case! Provides hygiene, convenient care for your lenses!

PERMALIGN LENS CARE CASE

One solution for complete lens care

Lensine's special properties assure a smoother, non-irritating lens surface when inserting your contact lenses. Just a few drops and your lenses will do it. When used for cleaning, a unique Lensine formula helps retard buildup of contaminants and foreign deposits on the lenses. It's self-sterilizing and antiseptic, ideal for wet storage or "soaking" of lenses. Lensine reduces harmful bacteria contamination. ★★★

FREE CARRYING CASE! Exclusive removable carrying case with every bottle of Lensine. The scientific— and convenient—way to protect your contacts.

LENSINE from The Murine Company, Inc. Rush your order for 79c each.
TRY SCHEDULES SPEAKING TOURS

by Maureen Hunter

This week the Talent Research for Youth program will go into action with a Parent’s Day meeting at Ferris High School in Jersey City.

TRY is a program of public relations to inform parents and students in disadvantaged areas of financial assistance and opportunities available to college bound students in need. The program is sponsored by a grant under the Higher Education Act of 1965 and is supervised by David Brown, an assistant in the Admissions Office.

The objectives of the program will be achieved through many standard channels of communication. Among these are school assembly programs, printed brochures, radio, television, a film and a short skit to be performed by TRY’s student volunteers.

TRY will also work with other community action groups such as Upward Bound, SPUIST, and Ceen.

The school assembly program will present a short skit illustrating the differences between life with and without a college education followed by a film to be produced by TRY showing the opportunities available to college graduates.

After the film, interested students will discuss financial aids with student advisers, probably on a one-to-one basis. Student advisers have been briefed beforehand on financial aids such as NDEA loans, federal grants, state and other scholarships, as well as work-study programs. It is believed that such programs would inspire in the students a sense of self-reliance.

Contacts have already been made with WNJR and WWRL radio stations to promote TRY. Robert Edwin, formerly a MSC student, currently a professional singer and ASCAP composer, has written a song for TRY. The song, a rocking gospel-type tune, will probably be sung by Bob on different promotions for TRY.

The program schedule is as follows: Dec. 1, TRY’s first assembly program will be held at Ferris High School in Jersey City. The following week the program will continue at Ferris High School. TRY will be there contacting students throughout the school day. On Dec. 11, the program will start at Lincoln High in Jersey City. Snyder High in Jersey City will also be added to the program in early January and Newark schools in January and February.

In February, 1965, Freedom High School will have the program, completing it in Jersey City.

PASS-FAIL SYSTEM OPINIONS

Can It Work at Montclair?

by David M. Levine

On college campuses throughout America, grading students always presents problems for the instructor. To the present unfair grades, many educators are looking for new standards to grade their classes.

Some schools mark each student against theoretical standards, while others compare each student against others. Other schools compare each student against the top scholars in the subject.

In this system, an A student in a slow class has the opportunity to obtain an A; it would, however, be virtually impossible for this same student to obtain an A in a faster class. Educators and students are realizing that the marking systems employed by various colleges are incoherent, and even “unfair.” With this realization comes the idea for a grading system in which each student would either pass or fail a subject with a numeric mark involved.

The Yale Alpha System

Currently there are only handful of universities that have adopted pass-fail. Colleges such as Bennington and Sarah Lawrence have operated without the need for any numeric grades for several years. Under a recent plan at Columbia College, students may select one course per semester in which his grade will be “pass” or “fail.”

One of the recent converts to pass-fail is Yale University. “It is impossible,” said Dr. Derek Shearer, head of the Yale Student Advisory Board, “to put a numeric value on students.” He added that pass-fail would “. . . move away from the pseudo-scientific claims of the numbers system.”

The system at Yale is one of pass-fail, but it is necessary to “scale up the requirements for a passing grade to avoid goofing off by students.” Professor Differing with Dr. Kwoski is psychology professor Garland. She stated that Yale’s pass-fail has been tried in several colleges and “been tossed out.” Professor Garland added that pass-fail would encourage students to take courses “they would usually avoid because they may be too hard.”

On the whole, the need for a better grading system is evident. As Barbara Leong pointed out in a recent letter to the editor of the MONTCLAIR, “Our current grading system encourages students to work for grades rather than learning in general.” Is this the value of education?

GIRLS—EASILY EARN $200 BY CHRISTMAS THROUGH SPARE-TIME SEWING AT HOME

Even without a Sewing Machine

Easy-to-sew products (both with and without a sewing machine) can earn you extra money just in time for Christmas (and in the following months, too!). You can accomplish this in a few hours a week, even while you’re busy sitting. There is no personal needlework need and your clothes are deviated for you by radicat students. Get the dynamic machine at your campus store now.

Daniel Fader

Daniel Fader Will Lecture MSC Pupils

The term "culturally deprived" is an absurdity; the attitude which engenders such a category results in the belief that one or two of peoples are better than another. How can any person be learned without a culture? Such thinking has led to the disenfranchisement and alienation of the poor and the "lower" classes from American society.

The term "disadvantaged" is more acceptable; for it is relatively free of stigma. However, whenever one calls this vast number of students in our schools, the fact to be considered is that as Daniel Fader puts it — they are "unreached."

Dr. Daniel Fader is assistant professor of English at the University of Michigan and author of Hooked on Books. He will speak to the senior English majors on Friday, Dec. 1, at noon in room C-304. The entire college is invited to this third lecture sponsored by the Prospective Teacher Fellowship Program. Because of his experiences as project director of the English program at the W.T. Manasco Vocational School (Whitmore Lake, Michigan) and at High (Washington, D.C.) as well as that of consultant in establishing a program in reading and writing for Job Corps trainees, Dr. Fader should give new insights into "reaching the unreached."

Without going into all the reasons for the gap between the school and the disadvantaged child, we can say that Fader bridges that gap simply because he is where the kids are. His understanding that the "live-for-today" attitude is an effect of the disadvantaged determines how they will react. His relationship to them in the classroom is a key to his approach to learning based on letting the student read what he wants to read.

Fader's approach to learning is based on two concepts: saturation and diffusion. The "influence of the child's total environment" upon any attempt to give him functional literacy and the responsibility of every teacher to offset this literacy. The practical consequence of these concepts is that the student is given materials to read which are about as his everyday reality. These materials are in the form of magazines, newspapers, and paperback books.
Pass Fail At Yale
Can It Work Here?

Last week the undergraduate college of Yale voted to drop its present 40 to 100 numerical grading system. Professors would now give one of four possible scores: fail, pass, high pass, or honors. This would make it possible for many colleges to allow students to take a course on a pass or fail basis. However, Yale is the nation’s first major university to abandon specific grading for undergraduate courses.

We of the Montclarion strongly agree with the new system which will be in effect at Yale. It would seem that Yale’s actions reflect a nationwide dissatisfaction with efforts to attach numbers, pluses, and minuses to a student’s performance. Grades usually do not reflect performance, knowledge, or ability.

We have seen much discontent with grading at Montclair State. Earlier this year the Montclarion received a letter pointing out the inequities in the current grading system. This issue contains a student letter supporting efforts on behalf of change in this area. The Montclair poll earlier this year showed student enthusiasm for a pass/fail system.

We of the Montclarion would also like to add our support to those efforts being made to replace the present grading system, which Yale’s new system is most efficient; which is the most widely accepted; and which is the most likely to gain recognition of superior academic achievement. A system of evaluation as used by Yale is one of several different versions of the Phil Ochs incident which will be in effect at Yale. It would seem that Yale’s actions reflect a nationwide dissatisfaction with efforts to attach numbers, pluses, and minuses to a student’s performance. Grades usually do not reflect performance, knowledge, or ability.

In the Montclair poll earlier this year Montclair students don’t have to worry about becoming stuck in the mud—it’s frozen.

Winter has come, Montclair students. The cold weather is the perfect excuse to stay inside and enjoy the comfort of your own home. With the recent snowfall, the campus is covered in a blanket of white and everything looks so peaceful. However, the cold weather can also be a bit of a nuisance, especially if you’re trying to study or work.

Thanksgiving—What Are Our Blessings?

It is once again the time for turkeys, trimmings, and treats. Football games are being played, gatherings and friendly greetings, thoughts,fulness and thanksgiving. Thanksgiving. How many of us even take the time and the effort needed to reflect upon the blessings for which we should give thanks. Perhaps many of us just give a simple sigh of thanks and relief for the m.......

A friendly face in a crowded room, a warm handshake, a kind word, an understanding heart, a sunny day, a cool drink, a brilliant sunset, a cozy fireplace, a dimly lit cafe, a rejuvenating snowball fight, the laughter of little children, the glow of their cheeks as they watch the carving of the turkey—these are but a fragment of the countless blessings and seldom appreciated joys of everyday living. Make a list for yourself today; don’t delay another minute. When you have thought for at least an hour of just those blessings which you will find in making your day complete, you are bound to feel 100 percent better, knowing there are many things for which you can be thankful.

Positions are now open to all students who are interested in working on the MONTCLAIRON staff as reporters, editorial assistants, and typists.

Those people interested in making up, proof reading, and business are particularly needed.

ASSISTANT EDITORS: John Snowden, news; Larry Mann, sports; Janet Smith, research; Ann Wong, make-up; Michael Moran, assistant business and advertising manager.

It's Your SGA

Congratulations to The Who’s who award winners. Just a small token of appreciation for your dedication.

One of the hardest things for me to understand is how for people who are supposed to be young adults, we sit idly by and let our cafeteria become a dwelling fit only for swine. For people who are supposed to be young adults, we sit idly by and let our cafeteria become a dwelling fit only for swine.

We're more than just.jpg

For many, this week is a time of thanks. May we all have a great Thanksgiving and let us not forget its purpose.
Singing not-stop for two hours would ruin any performer’s voice. While not everyone, her voice filled the hall with and without the cheering crowd.

Judy Garland was in rare form — slipping a drink she smiled and said “Got to keep up my image, you know.” Wonder how many people saw Miss Garland cross her fingers behind her back as she attempted to reach the final notes of “Swanee.”

(D-X-I-Even know!) She made Ms. Gardner’s performance into a few outstretched hands. Acclimating the audience to more gifts she nodded.

Arid few hundred people poured into the concert hall, she began Over The Rainbow.” Toward the middle of the song, when combined with the excited crowd, one could hear her whispering to herself, “I’m not God!”... A STAR IS BORN ...

In determining family income available for educational pur-
poses, consideration is given to unusual home problems, such as,
ilness, debts to prior employ-
te, etc. After preference for students from families with low incomes has been observed by the school, the academic qualifica-
tional need can be considered for the College Work-Study Pro-
gram.

Students may work up to 15 hours weekly while attending classes full time. During the summer vacation period when they do not have classes, students may work full time, up to (30-40 hours per week) under this program. In general, the basic pay rate is $1.80 an hour. Students are paid for hours worked up to 15 each week.

To work under this program, a student must be enrolled and be in good standing, or he be accept-
ed for enrollment as a full-time student, at a college which par-
ticipates in the Project. Any student’s eligibility depends upon his need for employment to de-
crease the economic burden which is imposed on gross family income.

Candidates in “academic difficulty” may apply only if they have received notice from the class-
mate eligible to continue to at-
tend the college in which they are enrolled.

Please feel free to see Mr. U. Burcham, or the College Employment Department, if you wish to be considered for employment un-
der the Work-Study Program.

BILL TELL SPARKS MSC SOCCER TEAM

With Montclair State College’s varsity soccer team headed towards its first winning season since 1964, a good deal of the credit for the Indians’ success this year can be traced to center halfback, Wilhelm (Bill) Tell.

Tell, co-captain of the team, is carrying more than the average burden as a leader. Coach Leonard Lucenko is starting six freshmen this season and has needed the steady play and direction of a mature soccer player like Tell.

A native of Stuttgart, Germany, Tell came to the United States when he was nine years old. While he had played a good deal of soccer in Germany as a youngster, he took part in little of the world’s most popular sport here in the United States. When he entered East Rutherford High School he went out for football and played three varsity years as a halfback.

As he got older, he played a little more soccer but strictly for fun with the_PASSAIC SPORTSFRIENDS_ on Sundays and after the football season.

When he entered Newark College of Engineering as a freshman, he returned to soccer and made the Engineer’s starting team.

Transferring to Montclair State after his freshman season, Tell was forced to sit out a season before playing varsity ball. While he played extremely well last season as a junior, the Indians did not do well and finished the season 4-7-3.

Lucenko, who turned in a brilliant recruiting job in his second season, has put together a team that figures to be one of the best in the East in two years. Tell has been outstanding all season long according to Lucenko in counseling his young teammates.

“Wilhelm has been a very fine leader for us this season. He has provided the example and drive that our young team needs so badly in developing team play and skills,” the Montclair State coach said.

A math major, Tell hopes to coach and teach following graduation this coming June. He has maintained a fine 2.7 grade ratio throughout his college days.

Now a resident of Wallington, Tell’s fine play has not only been noticed by Montclair State roosters in the_Poughkeepsie_ (N.Y.) tournament held in late September, but he was also named the tournament’s most valuable player from 80 players taking part in the playoff.

Tell has but one regret as far as Montclair State soccer is concerned. “I would love to be here next season when our team will come of age and start to climb up the ladder of college soccer,” the Indians co-captain said.

Wilhelm Tell may not be there in person in 1968, but the vital leadership he has provided this season to the Indians soccer players will have already helped to develop a winning team.

Montclair Defeats Glassboro, 14-0

On a cold wind-swept November day Montclair State’s young defensive crew finally matured and led the Indians to a 14-0 victory over Glassboro State College.

The Indian defense has more than held its own this season but this game saw the unit come of age.

Glassboro was held to three first downs (two on penalties), 14 yards rushing, and only 51 yards gained via the airwaves.

Impressive as they are, these statistics fail to tell the whole story as they don’t include the nine times the Indian offense handed the ball over to Glassboro, often in Indian territory, on three fumbles and six intercceptions.

The defense went on to halt every Glassboro uprising; the highlight being a fourth and one foot stop on a crushing tackle by Charlie Plohoock a 6-1, 235 pound bundle of fun.

Montclair’s final tally was set up when Joe Kostecki blocked a Glassboro punt and Tony Valpone covered the ball for the Indians on the Glassboro 18.

It took Walt Lamping seven plays to sneak over from the two with the insurance touchdown. Dan Rodgers again converted running his consecutive extra point streak to 26.

The win left Montclair State with a 3-5 record with only DeLavure State left to be entertain.
Graduate Opportunities Many for MSC Seniors

In recent weeks many Montclair seniors have come to the Graduate Office requesting information about graduate study at Montclair. At the present time, the Graduate Division offers master's degrees in 22 different programs: business education, distributive education, administration and supervision, student personnel services, master of arts (teaching), English, speech arts, speech therapy, reading, fine arts, industrial education and technology, home economics, music, foreign languages (French and Spanish), mathematics, pure and applied mathematics, music, business education, physical education, science, computer sciences, and outdoor education and psychology.

The graduate program in administration and supervision requires two years of teaching experience, and the student personnel services guidance programs require one year of teaching experience, before matriculation.

The programs in pure and applied mathematics and psychology are liberal arts programs and are open to all qualified students, whether teachers or not.

In general most of the programs which do not offer advanced certification follow a 6-6-20 semester hour pattern, i.e., six semester hours of professional education, six semester hours of liberal arts electives, and twenty semester hours of content courses in the major area. Following the tradition of Montclair's undergraduate programs, most of the course work is of a substantive nature. These programs are among the finest offered by any institutions in the metropolitan area. They are extremely well adapted to the needs of the student pursuing the advanced degree on a part-time basis.

With the increased interest in the graduate programs expressed by the upperclassmen of Montclair, a procedure has been designed to allow qualified undergraduate students to start working toward the graduate degree during their senior year.

Montclair State College seniors, currently enrolled in the college, who have a cumulative average of 2.67 or better and who are within sixteen semester hours of graduation are permitted to take a maximum of eight semester hours of senior graduate coursework (400-499) concurrently with any remaining semester hours needed to meet the requirements for the bachelor's degree.

Special permission must be obtained to take graduate courses. Most graduate schools, including Montclair, will not accept course work in the undergraduate program for credit toward an advanced degree even though they may be in excess of the number required for the bachelor's degree. In addition, any course required in an undergraduate program cannot be counted toward graduate credit. Only courses in excess of those required by the graduate program can be counted toward a graduate degree. The student must register through the Evening Division according to the procedures below.

In order for the student to take the courses for graduate credit, he must first obtain the "Application to Begin Graduate Work" in the Evening Division Office located in College Hall. The student then registers for this special work in the Evening Division Office. Registration fees and a cost of $16.50 per semester hour of credit must be paid by the student. This is not included in his undergraduate tuition. The student taking courses toward a graduate degree should check very carefully that the work he is taking will count for credit in the program in which he wishes to receive his graduate degree.

Once the senior receives his fall semester grades, he can begin the matriculation procedure. An application form is obtained in the Graduate Office in College Hall. This is filled out and returned to the Graduate Office with a statement of Objectives and a five dollar non-refundable fee. The application is then processed. If the student fulfills the requirements (2.67 cumulative average, completion of 112 semester hours of credit and possession of an undergraduate major or in the area in which he wishes to do his graduate work) he will receive a pre-matriculation letter and a request to make an appointment with his graduate adviser during the spring semester. At this meeting with the graduate adviser, a work program of studies will be made out and placed in the student's folder in the Graduate Office. After undergraduate degrees are awarded in June, a check is made to see if the 2.67 cumulative average has been maintained. If it has been maintained, the student will receive a letter indicating that he is a fully matriculated graduate student, and an official work program.

If the student does not maintain a 2.67 cumulative average he will be required to take the Graduate Record Examination and obtain minimum scores as required by the graduate study requirements.

The Graduate Division is anxious to encourage qualified Montclair seniors to take advantage of this opportunity. If the student has any questions with regard to graduate work at Montclair, he should come to the Graduate Office and consult with the Associate Dean/Graduate, in College Hall.

Get your bumblebee degree

Dodge Charger R/T

Enroll in one of three exciting classes. Charger R/T, Coronet R/T, or Dart GT Sport. Each has its own distinctive sporty style, but all three have a lot in common. Like automatic transmissions, wide-tread redline tires, special handling packages, and a long list of other standard and optional features.

Dodge Dart GTS

All three members of the Scat Pack offer distinctive markings at no extra cost. Bold bumblebee stripes wrapped around the rear. Or Rallye stripes along the side. Or if you prefer a little more modest, no stripes at all. It's your choice. Ready for class? With the Scat Pack, you've got it. Why not sign up at your nearby Dodge Dealer's and get your Bumblebee Degree, today?
SAVERING HAS HIGH HOPES AS GYMNASTS START SEASON

Varisty gymnastics coach, Bill Savering, now in his third year as coach at Montclair, feels that this year's team will be the best ever.

Last year Savering coached the team to a 5-4 record which was the best seasonal norm turned in by an Indian gymnastics squad.

Rich Schwartz, Dave Green and Joe Miller head the list of seven returning lettermen.

The trio broke the existing team point record last year. Other returning lettermen are Jon Gunther, Ron Polling, Ralph Coscia and Bob Day. Three sophomores and five freshmen who did not participate last season are being counted on heavily; they are Miles Jensen, Bill Ryan and Joe Macnabso. Roger Brown and Tom Florentine head a corps of five freshmen gymnasts which will include Russ Spencer, John Mutter and Joe Garreffa.

Roger Brown who led the gymnastic team at Lincoln High School in Jersey City will be participating in floor exercises, the side horse and the long horse. Junior Ralph Coscia will be concentrating on the still rings this season along with John Perucchi, Bill Ryan and Tom Florentine. Dave Green and Rich Schwartz will be involved in all events this year.

Ron Polling will be participating in the trampoline, still rings and parallel bar events. Joe Miller, a three-year member, will be performing on the side horse, long horse, parallel bars and in the floor exercises. Freshman John Mutter from Paulsboro High School will be mainly a trampoline performer. Joe Macnabso's event goes on the side horse and the long horse. Jensen's air turn of the high bar and the trampoline. Jon Gunther will be on the still rings, horizontal bar and long bar and Joe Garreffa, a freshman from Lake Hopatcong and former City Champion prior to his Navy days, will work the side horse, as will Bob Day.

This year Cortland State College, Lehigh and City College of New York have been added to the schedule and the team will head up to Springfield College in March to participate in the NCAA National College Division meet.

HARRIS

Coach Ollie Gelston looks on as Bill Dioguardi completes arrangements for Kiwanis Classic.

Indians Join Competition in Defense of Kiwanis Crown

Montclair State, pre-season favorite to capture the New Jersey State College Conference Championship, has accepted an invitation to take part in the second annual Northern New Jersey Kiwanis Basketball Classic, it was announced today by Dick Stahlberger, executive director.

The Indians, defending Classic Champions, posted a record of 21 wins and 5 losses last season and will have nine veterans returning for the 1967-68 campaign.

Veterans returning to Ollie Gelston, who has taken over the direction of the Indians from Dave Watkins, are Luther Bowden, Bob Gleason, Mike Oakes, Mike Conroy, Bob Lester, Keith Neigel, Bruce Brisco, Randy Heidemann and Al Fusige.

Gelston also figures to get help from the Montclair State College freshmen team of last year that went unbeaten in 19 games. Key performers from that team who are now fighting for varsity positions are Bob Siemekiewicz, Dick McGreire, Frank Roman, Fred Kriemel and Jack Grymkio.

Stahlberger, in making the announcement of Montclair State's participation said, "We are extremely happy to have Ollie Gelston and his fine team back in our playoff. The Indians will be one of the top small college fives in the East this year and will bring topflight play to the Classic."

The Northern New Jersey Kiwanis Classic will be played at Montclair State College's Panther gym between Dec. 27 and 30.

The tournament will open on Wed., evening, Dec. 27, with a doubleheader while tripleheaders will be played on Thurs., Dec. 28, and Fri., Dec. 29.

The consolation and championship rounds will take place on Sat., Dec. 30.

The Northern New Jersey Kiwanis Classic is under the joint direction of Don Johnston and Dr. Paul Elkin.

WANTED: Students with car wishing to make some extra spending money by delivering Montclairites to printer in Clifton. For further information, contact Publications Office, upper level, Life Hall, or Call 765-8050.
Jim Harris Gains Track Recognition

The scouting reports that reached Montclair State College on Jim Harris, captain of the cross-country team of Newark, N. J., as a high school cross-country and middle distance runner in track stated, "a late developer who should come into his own in college.

Jim Harris is one of nine children, six sisters and two brothers. Harris went out for cross-country at South Side High School in Newark as a freshman and middle distance runner in track stated, "a late developer who should come into his own in college.

A graduate of St. Francis Prep in Brooklyn, New York, Sullivan starred in football and basketball during his high school days. In his senior year at St. Francis, he captained the Terriers and was named to the All-New York City football team.

At Cortland State, N. Y., Sullivan lettered in football, wrestling and lacrosse. In his senior year, he captained both the football and lacrosse teams.

Jim Harris, captain of the cross country team.

Indians Defeat Trenton, 38-7
Gain Win in Eastern Conference

by John Danton

The Montclair State Indians made turn-about fair play as they put the ax to Trenton State's Homecoming by a 38-7 score. The victory, the first for the Indians in the Eastern Football Conference, was also Montclair's initial road win.

The Indians dominated play from the opening period as halfback Jerry Waller scored on a one yard dive through the Trenton line. Montclair State then exploded for three quick touchdowns in the second quarter, as the offense showed signs of coming to life for the first time since the Curry College game.

Senior halfback Jack Landried started the barrage by taking John Gardi's pass and going 57 yards for a 14-0 lead. On the next series it was Landried again who took the ball over, carrying it four yards for another score. The final score of the quarter came on a 32 yard return by Bill Kulkowski after he had pulled down Trenton State pass giving Montclair a 25-0 halftime lead.

The second half saw the Indian defense add to the lead as Fred Henry fell on a blocked kick in the Trenton end zone, upping the margin to 35-0.

Dan Rodgers later added a 44 yard field goal in the last quarter to close Montclair's second highest scoring day of the season.

The offense felt the shunt when Mike Yurko intercepted an Indian pass and returned it 73 yards for Trenton's lone score.
