Students will be provided an opportunity to have an exposure to one or two off-campus on-job-trainings in various aspects of quantitative methods of one or more businesses. Full-time students may alternate between school and business whereas part-time students may take course in parallel with school.

FINC530  Title  Managerial Finance.
Special Fee
Number and type of credits 3 hours lecture.
Course Description
This is an introductory course to provide students with a set of fundamental skills in managerial finance. Students will be exposed to basic accounting issues including a discussion of cash flows and tools to analyze financial statements. They will learn the time-value-of-money and employ these computational techniques to value bonds and stocks. Once these essential concepts are mastered, students will learn the basics of both how and why corporations make specific capital budgeting and working capital decisions. They will also understand how the essential elements of the risk-return trade-off and portfolio theory.

FINC555  Title  Financial Structure Analysis.
Prerequisites  FINC 553.
Special Fee
Number and type of credits 3 hours lecture.
Course Description
This is an advanced course in finance which deals with the long-term financing decisions and strategies of the corporations. The theory of capital structure and costs of capital is presented. Emphasis is on integration of the investment and financing decisions of the firm.

FINC560  Title  Corporate Financial Decision Making.
Prerequisites  FINC 561.
Special Fee
Number and type of credits 1.5 hours lecture.
Course Description
In this course students will undertake a detailed analysis of the methods used to make capital budgeting decisions. They learn how to estimate relevant cash flows and cost-of-capital, with special emphasis on assessing the appropriate risks for capital projects. They will also study the functioning
of primary markets where firms raise capital. Case studies may be used to reinforce the central concepts.

FINC561
Title
Investments for Managers.

FINC561
Prerequisites
FINC 530.

Special Fee
Special fee.

Number and type of credits
1.5 hours lecture.

Course Description
In this course students will review fundamental time-value-of-money valuation techniques as applied to security valuation. They will study Portfolio Theory and the Capital Asset Pricing model. They will also be introduced to the variety of financial products used in markets, and gain an understanding of securities trading on secondary markets. Case studies or a term project may be used to reinforce the central concepts.

FINC571
Title
Currency Fundamentals and Currency Hedging.

Prerequisites
FINC 561; MBA degree students only.

Special Fee
Special fee.

Number and type of credits
1.5 hours lecture.

Course Description
This course will focus on corporate decision making in an international context. The implications of the existence of multiple currencies, varying rates of inflation, interest rates and political environments for the multinational will be studied. After an introduction to currency fundamentals and currency derivative products, the topic will center on currency hedging decisions of the multinational firm.

FINC573
Title
Cross Borders Investing and Financing.

Prerequisites
FINC 571; MBA degree students only.

Special Fee
Special fee.

Number and type of credits
1.5 hours lecture.

Course Description
This course will focus on cross border investing and financing decisions faced by general and financial managers of multinational firms. It will emphasize how the internal capital markets of a multinational can create advantages for multinationals over local firms. The interactions of managerial motivations of organizational goals and financial opportunities generated by global operations will be examined.
