The eminent composer, Aaron Copland, will visit Montclair State College April 3 in connection with the music department's Fourth Annual Composer's Symposium. Mr. Copland will meet with classes in the morning, and lecture to the music students at 11 A.M. on the topic "On American Music." He will take part in an open rehearsal at 1 P.M. and an informal public lecture at 4 P.M. in Memorial Auditorium.

The informal lecture will be followed by a question and answer session which will be open to the entire student body. The discussion and lecture will be on topic "Music from the Composer's Standpoint." The student body should respond to this famous celebrity by participating in the scheduled activities. Mr. Copland will conclude the day's activities by conducting one of his own compositions at the Symposium Concert that evening at 8:30 P.M.

On April 2, the guest conductor will be Emil Kahn, a retired faculty member, who has been commissioned to write a composition especially for the occasion. That evening he will conduct the Montclair Chamber Orchestra in a premier performance of the composition. A panel discussion on "The Orchestra as an Educational Medium." Mr. Copland has led an active life in contemporary music as pianist, conductor, and lecturer, as well as composer. The Brooklyn-born musician studied in France as a young man, returning to this country in 1924. The following year he became the first composer to win a Guggenheim Fellowship. Subsequent honors include: a $5,000 award from RCA Victor for his "Dance Symphony"; Gold Medal for Music from the American Academy of Arts and Letters; Creative Arts Medal from Brandeis University; Edward MacDowell Medal; Henry Hudson.

Copland Concert To Climax
MSC Composer’s Symposium

Annex 3 Renovations, Complete
As T.U.B. Opens for Student Use

This building (nicknamed T.U.B.) is the result of a complete renovation of Annex 3. On April 1 at 10 A.M., the official opening of TUB, the students of MSC are invited to witness the co-ordinated efforts of many students and college personnel. TUB was conceived as a means of complementing the snack bar facilities and alleviating the recreational facilities of the Student Life Building. It is hoped that TUB will accommodate the needs of commuting, dormitory, and off-campus students.

Designed by Ron Szabo, senior industrial arts major, the building is equipped with a recreation area, lounge, snack bar, director's office, and control room. The recreational area will include billiard, pool, ping pong, and card tables. The lounge will have a color TV. The snack bar, thanks to the efforts of Mr. Joseph Hartmann, will include a varied menu with hot and cold meals (including breakfast) offered to the students.

The schedule for TUB will be as follows: Monday-Friday, 10 A.M.-10 P.M.; Saturday, 10 A.M.-12 midnight; Sunday, 12 P.M.-10 P.M.

Funds for TUB have been provided by the Faculty Student Co-op, the SGA, and the War Memorial Board. President Richardson is to be praised for his help in raising the necessary funds.

Mr. Joseph McIntyre and the Maintenance Department have been extremely cooperative in working with the students of TUB. TUB co-chairmen Lenny Ellowitz and Alan Da Cunzo have worked tirelessly to make TUB a reality. Mr. Edward V. Yezzo will supervise TUB activities. All students are encouraged to use the facilities and make TUB a success.
Texas to Host "Mini" International Fair

By DAVID M. LEVINE

Deep in the heart of San Antonio, a world's fair is shaping up to greet visitors from around the world. It is known as "Hemis-Fair '68" and will open for a 184-day run starting on April 6. Sanctioned by the Bureau of International Expositions in Paris, "Hemis-Fair '68" coincides with the 250th anniversary of San Antonio, one of Texas' largest cities. Nearly 40 governments have agreed to participate in the exposition, as well as two states (Arkansas and Texas) and 19 private corporations.

"MINI-EXPOSITION"

Compared to the two other recent world's fairs, "Hemis-Fair" may turn out to be a "mini-exposition." The Texas fair is situated on 92 acres compared with 1,000 acres for Montreal's Expo '67 and 645 acres for the New York fair. Officials in Texas expect that as many as 7.2 million people will visit the fair during its stay. During last year's presentation, Expo '67 had nearly 51 million visitors and the 1964-65 New York Fair had 9.6 million visitors.

"Hemis-Fair" will be dominated by the 622-foot Tower of the Americas, the model of Hemis Fair 1968 which is being constructed in downtown San Antonio, one of Texas' largest cities. As well as two states (Arkansas and Texas) and 19 private corporations.

"MINI-EXPOSITION"

APRIL 25, 26, 27 - MAY 2, 3, 4

SUMMER JOBS

Over 30,000 actual job openings listed by employers in the 1968 Summer Employment Guide. Gives salary, job description, number of openings, dates of employment, and name of person to write. Resorts, dude ranches, summer theatres, United Nations, national parks, etc. Also career oriented jobs: banking, publishing, engineering, data processing, electronics, accounting, many more. Covers all 48 states. Price only $3, money back if not satisfied. Our fifth year!

'Certification'

(Continued from page 1)

That famous Greek, Socrates, has been quoted frequently for the wisdom of his philosophy of self-knowledge. At MSC, there are those who also adhere to this doctrine and practice techniques of self-revelation in an intensive weekend program of interaction and communication with others.

This program, known as the HRL, will be sponsored once again on April 18-21 by the College Life Union Board. The weekend conference is to enable students to obtain experience in group dynamics and communication skills.

Students will be broken up into "T-Groups" of 12 to 15 people. In these groups the participants will learn by experience how their behavior affects others and how they are in turn affected by the actions of other participants. The individual learns by actual experience. Participants are exposed to goal setting, group problem solving, group task, and group maintenance functions. Theory sessions will follow some of the meetings and deal with what has transpired in the groups.

The theory sessions are held after the group meetings because it is felt that if the experience precedes the lecture, the information will be more meaningful. This "T-Group" idea is gaining acceptance in educational circles.

Persons interested in group dynamics should register for the weekend. Registration will take place in the Fishbowl on April 1, 2 and 3. Interested students must bring their SGA card. The cost of the weekend will be $10. This will cover transportation, meals, and housing. The site of the conference will be Camp Bernie, Port Washington, N.J.

The Human Relations Laboratory began at Montclair State College in 1963. At that time the purpose of this faculty-student group was to influence campus culture. Leadership workshops were conducted for officers of various campus organizations in order to help them become more democratic in their leadership. The HRL emphasis has now shifted to the high school. The release of communication skills through group interaction.

Due to limitations caused by the budget for HRL, only about 100 students can be accommodated. Persons interested in understanding group dynamics should try to register early as selection is based on first come, first served.
Chairmen Reveal Carnival Plans

"If the weather stays with us, this should be the most successful Carnival ever held on Montclair State College." These are the words of Co-Chairman Bob Martinez as he and fellow chairman, Barbara Sternenberger, watch the plans for this year's Carnival get underway.

Bob and Barbara both attended Morris Catholic High School in Denville where they worked together on various projects, including talent shows. Barbara is Government projects, and their sophomore seminar was for which they served.

The theme of Carnival '68 is "Cruisades of America: Freeway to Greatness." The date is May 10-11, the time is from 6 P.M. to 12 midnight on Friday, and from 12 A.M. to 12 midnight on Saturday. The place is the parking lot behind Mallory Hall (where new fog lights have been installed for our first year alumni, inviting them to Carnival. Chairmen Bob and Barbara are working hard, along with their committees to produce a fun-filled, first-rate Carnival. As John Clark, publicity chairman, puts it, "Bob and I want this Carnival to be great and it will be!"

'Summer' Project Planned
For Community Action

With the prospects of a long, hot summer in store for many of our urban ghettoes, many people feel that simple community action can help to prevent any strife. Monsignor Robert Fox of the Institute for Human Development will attempt to channel such community action into constructive work through his one-day program "Summer in the City."

The main purpose of this program will be to improve the physical appearance of the Harlem neighborhood. On April 30, it is expected that 5,000 people will join the residents of Harlem and help them "celebrate their neighborhood."

The area entered by the participants in the "Summer in the City" project will cover 50 blocks.

"Viva La Calle," a similar program held last September, was very successful.

On April 6, an orientation meeting will be held at a yet to be designated spot in New York. At that time, different jobs will be assigned. All interested MSC students are invited to join the program.

Further information may be obtained from the Newman House. The meeting on April 6 will be posted around the campus.

THE MIRACLE OF LANGUAGE by Clayton Laird, and LANGUAGE IN THOUGHT AND ACTION by \( \text{Saikawa Linguistics} \) and semantics as a basis for studying English are fast becoming popular at the high school level, and the reaction of this class to these studies is a good example why. The students feel that they are getting an invaluable background for more advanced topics. Also currently being studied is Marshall. McLuhan's controv.versial UNDERSTANDING MEDIA.

In connection with this, a future project of the class is to produce several black and white movies. So far, they have been taught the mechanics of movie cameras and discussed possible subjects and plots.

Credit for all of this goes to Mr. Morton Rich, a MSC faculty member. This is his second year of teaching at College High and his students are unanimous in their praise.
THE ALPHABET GAME

At this time in the political year, it is anybody's guess as to who will win the 1968 presidential and vice-presidential nominations for the Democratic and Republican parties. The "Alphabet Game," as we choose to call it, is once again causing much speculation and consternation on the part of all involved, from legislators on down to voters.

Anyone can play the "Alphabet Game": little previous experience is necessary. All that is needed is a little interest, good guessing ability, and the potential to read the numerous newspaper accounts which attempt to sway readers to one side or the other.

This question of who will be the victor of the "Alphabet Game" should be of special interest to Montclair students, especially to those who will be voting for the first time in what seems to be one of the most crucial and controversial elections in U.S. history. The issues and platforms of each of the candidates must be weighed carefully before an intelligent choice can be made.

Each candidate has his special platform promises, but that is all they are. One promise looming especially large in this campaign is that of peace.

However, not one of the candidates can be underestimated, even though some have a smaller list of impressive credentials than others. Rather, it is the apparently common banner of "Dump Johnson," we advocate that all potential voters open their eyes before they open their mouths.

R.F.K. or L.B.J. or E.McC. or H.H.H. or R.N. or N.R. who will it be? This all-important choice is up to YOU.

A Hidden Treasure

Students of Montclair are aware that your college is the recipient of a valuable collection of 46 Renaissance paintings.

Are you aware that, according to a catalogue concerning these works, there are three Rubens, three Van Dykes, a Titoreto, as well as 39 other masterpieces on campus?

Are you also aware that this magnificent collection was given to this college with the intention that it would be shared with the entire college community?

Are you aware that this exhibit is located in the basement of Sprague Library and that the only way a student may see this collection is by making an appointment through the fine arts department to have a fine arts major take him through the special collections room?

Not many students are aware of this or can they successfully answer the above questions. However, every student should be able to know about this collection of paintings The Cosla Collection.

Montclair State College should be the proud owner of this valuable collection of art. But, locked in the basement of Sprague Library, viewed only by an occasional visitor, is not the treatment this collection deserves.

Why isn’t this collection opened up to all members of this campus as well as members of the community? Don’t hide such an important aspect of campus cultural life behind locked doors.

This collection was given to the college. As students we are part of this college. Now let us see what partially belongs to us!

As students we are part of this college. Now let us see what partially belongs to us!

THE OBSERVER

March 29, 2000

BY DAVID M. LEVINE

Where will you be thirty-two years from today?

Our college campus is not too bad. It hasn’t knocked us out or your mother-in-law hasn’t driven you to the mad house. It should turn out to be March 29, 2000.

The year 2000 sounds a bit mystical and even frightening to some of us with nervous stomachs, but Herman Kahn and Anthony J. Wiener find the subject fascinating, to say the least. They’re authors of a book recently published by The Macmillan Company appropriately titled "The Year 2000: A Framework for Speculation on the Next Thirty-Three Years."

With the aid of current economic trends, population expansion, history and political science, plus numerous statistics, the authors have come up with some amazing projections or "surprise-free" predictions (as they like to call them) on what our world will be like in the next century.

"Computerized Data"

The authors of this unique book point out that the life of any individual citizen, from birth to death will be recorded in a computerized national computer bank owned by the government. This type of computerized data would contain all personal facts about him: his employment history, family history, education and even personal traits. And through genetic control, parents would have the opportunity to select the sex and characteristics of their children.

In the future, homes would be built underground and computers would take care of all the chores. Meanwhile, moon and her robot would do their shopping in fully automated grocery stores where "brainwashing" and propaganda techniques as well as more emphasis on practical experience.

PUBLICLY, outer space becomes the focal point for a world united by power blocs. THE YEAR 2000 points out that the potential giant of world affairs would become a united Atlantic-Pacific Bloc which would include Great Britain, U.S.A., Canada, Australia, and Japan (a potential giant in its own right). And, of course, colonies throughout space would be common.

So if you plan to spend two weeks on sunny Mars next winter or rent a computer to do your term paper for history, make sure you’re around in THE YEAR 2000.

DAVID M. LEVINE

NOTICE

Mrs. Mary McKnight, director of public relations, is asking for contributions for the STUDENT BULLETIN BOARD, located opposite the Office of Registration.

Mrs. McKnight would like articles from hometown newspapers concerning Montclair students.

Don’t Play With Fire

In last week’s "Letters to the Editor" column, can be found a topic which the editors have been meaning to discuss for quite a while, but which due to limit of space and relevance of other subjects, has been neglected until now. We are alluding to the ridiculous occurrences which take place everyday in a fire drill. It is pronounced.

The alarm sounds and nothing happens, the alarm sounds and nothing happens, the alarm sounds and nothing happens, the alarm sounds and nothing happens. This question of who will be the victor of the "Alphabet Game" should be of special interest to Montclair students, especially to those who will be voting for the first time in what seems to be one of the most crucial and controversial elections in U.S. history. The issues and platforms of each of the candidates must be weighed carefully before an intelligent choice can be made. Each candidate has his special platform promises, but that is all they are. One promise looming especially large in this campaign is that of peace.

However, not one of the candidates can be underestimated, even though some have a smaller list of impressive credentials than others. Rather, it is the apparently common banner of "Dump Johnson," we advocate that all potential voters open their eyes before they open their mouths.

R.F.K. or L.B.J. or E.McC. or H.H.H. or R.N. or N.R. who will it be? This all-important choice is up to YOU.
The many campus projects which are planned at present cannot improve the atmosphere at this college while three few obnoxious children are permitted to exercise their lack of manners at our expense. If they are to continue to use the facilities of a college campus, they must be compelled to act accordingly.

Sincerely,

ROSANNE BOSTONIAN

THE ACTORS

Dear Editor:

On March 15, 1968, I had the opportunity to attend the annual event known as Pi's Follies. The evening proved to be an enjoyable one mainly through the efforts, originality, and wit of the Greek letter organizations in competing for performance prizes. My enjoyment was short-lived when a portrayal of a "nigger" by Omega Phi Delta fraternity. The presentation to which I refer was a part of the group of professional car thieves because of the pattern of the thefts. Cooperative measures by students may help to avoid car thefts. Students are advised to: park in a lighter area, keep all valuable items in the trunk of the car or on the floor; lock all car doors and do not leave keys in the car.

Students owning the types of cars which have been stolen are to take extra precautions. Any thefts or information concerning the thefts should be reported immediately. Reports can be directed to these phone numbers: 746-9500, extension 244 (before 4 P.M.) or extension 321 (after 4 P.M.)

The committee suspects a group of professional car thieves because of the pattern of the thefts. Cooperative measures by students may help to avoid car thefts. Students are advised to: park in a lighter area, keep all valuable items in the trunk of the car or on the floor; lock all car doors and do not leave keys in the car.

My point.

J. DER KINDEREN

SNACK BAR MANNERS

Dear Editor:

I fully realize the fact that College High School is on campus as a convenience for our many students who observe its classes. This experience hopefully contributes to the knowledge and depth of prospective teachers graduating from Montclair State.

This benefit, however, is not sufficient to justify the behavior of some of the younger high school students who attack the snack bar with the abandonment of Sherman's march to the sea.

If you've ever played a 33 1/2 rpm record on 78 rpm, you know what happens. The voice speed is more than doubled, but the result is a high-pitched, squeaky babbble. Bell Telephone Laboratories has studied the pitch, the squeak, and the babbble. They have developed an electronic device (the harmonic compressor) which permits the recording of the human voice at twice its normal speed without any distortion whatsoever. This process is actually a hearing equivalent for speed-reading. And that means everyone, but most especially the blind, will one day have a meaningful substitute for speed-reading. The uses for compressed speech, as it is called, are numerous.

STATEMENT
A COLUMN OF COMMENT

By JORDAN DENNER

In a recent "Letter to the Editor," I gave some reasons why the Camp Wapalanne program should be kept as an integral part of the M.S.C. curriculum. To expand further I leave these comments to those interested.

The proposal to discontinue the Wapalanne program at the end of the academic year, it seems apparent, stems from the Administrative Council, composed of faculty members and department chairs, has once again deemed a course of action for the "betterment of the Montclair student," without having sounded the student for their support or opinions concerning the matter.

The gravity of the situation can be better realized when we take into consideration that by the year 1976, over 76 percent of the nation's youth will be born to families. Unless effective means are used to stop this trend, the realization of our countryside is imminent and inevitable.

One way in which we all can help divert this tragedy is to judge the Wapalanne program for its future worth, to let it serve as a bastion of knowledge for years to come as well as the recreational and social needs it fulfills now.

The need for Outdoor Education is summed up on page two of the Wapalanne Student Handbook, given to all students who participate in the program. It states, "Increasing numbers of school systems both on the secondary and elementary levels have incorporated outdoor educational programs in resident as well as in day time settings; therefore, the professional preparation of any teacher...would be incomplete without some exposure to a phase of education which is gaining increased recognition and importance.

Wapalanne does not offer an answer to all of man's problems. However, it does offer a setting that transcends the classroom and provides an informal basis for better communication between student and faculty.

Essentially the objectives of Wapalanne are as follows:

1. To provide a worthwhile educational experience for the development of a better understanding and deeper appreciation of the outdoor education process.
2. To develop a positive attitude toward conservation and the intelligent use of our natural resources.
3. To provide a group living experience that incorporates opportunities for the development of sound social values and desirable student-faculty relations.
4. To offer a wide variety of recreational activities which will be personally satisfying to the student during his outdoor experiences.
5. To offer specific post-camp opportunities for students to continue the development of these interests and competencies in outdoor education.

Since the inception of the program in 1948, the facilities have been wintereized and all state colleges use the camp throughout the year. The question then arises: "If the program was as successful as it seems, then why is it being suspended?" A recent poll of students that have participated in the program has shown that over 90 percent of the students hoped that the program would be continued for other classes to enjoy.

Other colleges have also recognized the importance of this activity. Rutgers-The State University is only too willing to take over the entire camp site if the present program is suspended. The United States government considers these programs important and provides fellowships on the graduate level for work in outdoor education and conservation. Why must we wait until we are graduates if we can enjoy the activity now?

I would like to remind the student body that they have been paying for the upkeep of the camp through their service fees. There is now at least $40,000 on hand for the camp experience whether we use it or not. You can be sure that it won't be returned to your pockets, so why not let it be used up. It was intended to "enjoy a week at Wapalanne?"

I can only hope that the administration reviews the situation and does not take the Camp Wapalanne program away from the students who deserve the opportunity to enjoy this worthwhile experience.

John Davis Lodge, former governor of Connecticut, will deliver the main address at the National Student Convention to be held at Princeton University on April 6.

Sponsored by Young Republican Clubs at Smith College, Princeton, Bryn Mawr and Trinity College and Princeton's Amnesty Whig-Chicagnfian Society, the convention will include political education seminars, a mock convention and social events for some 400 delegates from schools from New Hampshire to Virginia.

The convention will adopt an abbreviated platform, hear nominations for the major candidates and vote by state for President and Vice-President.

Representative William Widnall of New Jersey will welcome the students in the opening session. He will also lead a seminar on the current fiscal and monetary problems, including the gold crisis. Widnall is the ranking Republican on the House Banking and Currency Committee.

Those wishing to attend or wanting more information on the convention should contact their local Young Republican Club or write directly to the National Student Convention, Whig Hall, Princeton, New Jersey.

PLAYERS SELECT CAST FOR O.T.I.S.

"Of Thee I Sing," first staged in the 1930's, was the first musical production to win the Pulitzer Prize. A joint effort of the Montclair State Players and the physical education and music departments will revive the musical comedy in Memorial Auditorium on April 25, 26, 27, and May 2, 3, and 4.

The comedy, with the book by George Kaufman, satirical politics, beauty contests, and the average rank file. The humor is typical of that found in the '30's, but the songs are "catchy" tunes for any era.

In selecting the cast, it was necessary to coordinate singing, dancing, and acting abilities. The actors, under the direction of Dr. L. Howard Fox, chairman of the speech department, include Tony Guarino as Lippman; Greg Studerers, Giliberti; Betty Pastoffone: Reid: Bruce Gandy, Fulton: Jim Musacchio, Lyons: Greg Doutette, Jones, Scott Watson, Throttlebottom: Walter Kotrba, Wintergreen: Tom Ratzen, Jenkins: Bette Glenn, Diana: Lynn Gehring and Joanne Johnson alternating as Mary. Veronica Hofmeister and Carol Powell alternating as Benson: Paul Shepherd, Chief Justice: Linda Eve, Sav-tibwoman, Kathryn McAteer, Guide: William Hibbitt, French Ambassador: Frank Staciak, Clerk; and Russell Layne, Plunket.

Mrs. Jimmylee SWope, musical education, has coordinated the routines for the dancers: Evelyn Adamski, Gern DiMayo, Midge Guerra, John Homer, Kou Hornayk, Alice Kapchenok, Joe Kenepsky, Joe Macaluso, Sue Mathews, Pat Reeves, Dennis Rjghtetti, Ann Shoemaker, Linda Silverman, Lynn Stanley, Linda Stevens, and Cindy Silverman.

The chorus, under the direction of Dr. Edward J. Srabo, music, includes Pam Behnke, Dianne Brott, Kathy Dryer, Sharron Freeman, Laurie Held, Joyce James, Carolyn Kolbak, Sandy Kudravitz, Kathy Laidere, Shirley Lott, Marcia Mehm, Terry Momco, Barbara Popek, Arlene Pounson, Paul Shepherd, Frank Staciak, Jacqueline Stomhaug, Mary Wells, and Diana Zeropolous.

An attempt at musical comedy is the "First" for the Players, but promises to be an extremely entertaining evening.

WITH THE GREEKS

P.S.I. CHI
The men of Psi Chi are proud to have the following pledges for the spring semester: Bruce Donsi, '70, Bob Harley, '70, Neil Jemsen, '70, Ken Zurich, '71, Joe Hibbs, '71, and Ken Traynor, '71. The men of Psi Chi attended the theatre recently to see THE GOOD, THE BAD, THE UGLY. We would like to thank Ed Pugh and Ken Warren for all their work on our production for Psi's Follies. Also we want to thank the brothers who participated and our 220 pound Saint Bernard for behaving herself during the performance.

Tom Stepnowski and Bill Ryan have been chosen chairmen for our Carnival committee. Other brothers on committees for Carnival are: Tom Stepnowski, student advisor; Bruce Berringer, Dick Finn, lighting and equipment; Bill Ryan locations; Dale Rogers, equipment; Mike Leavy, construction; George Malanga, tickets; Ed Berk, standing committee.

Congratulations to Tom Ackers.

ZETA EPSILON Tau
Congratulations are in order to the founding fathers of Zeta Epsilon Tau and especially to our first and very able officers, Walter Krawiec, president; George Bohonyi, vice-president; Robert Pepe, secretary; Peter Savage, treasurer. Congratulations to Craig Bertelli, the winner of our first raffle. He received $25 worth of his favorite record albums.

We wish to extend our thanks and gratitude to all of you who helped to make our first endeavor a complete success.

Pete Savage last week received his final discharge papers from the United States Air Force, where he spent three years active duty and obtained the rank of Sergeant.

Engaged

David Keuler, '69, to Judith Breslow.
Carlos Almodovar, '69, to Leida Rodriguez.

OMEGA CHI
The brothers of Omega Chi wish to congratulate the winners of the recent elections for the new officers of the fraternity for the coming year: President Paul Perna; vice-president Lou DeCangelis; recording secretary-Don Baker; corresponding secretary-Ray Mooney; treasurer-Pete Capezio.

We would also like to mention that Chi Kappa Xi and we have become sister sorority and brother fraternity.

LET YOUR CONCEPTS WORK FOR YOU

If you're tired of using two or more separate solutions to take care of your contact lenses, we have the solution. It's Lensine, the all-purpose lens solution for complete contact lens care-preparing, cleaning, and storing. Just a drop or two of Lensine before you insert your contacts coats and lubricates the lens face making it smoother and non-irritating. Cleaning your contacts with Lensine retards the buildup of foreign deposits on the lenses. Lensine is sterile, self-sterilizing, and antiseptic making it ideal for long term storage of your lenses between wearing periods. And you get a removable storage case on the bottom of every bottle, a

Newark March
In concern for the conditions existing in Newark and other urban areas throughout the country, a walk through last summer's riot area in Newark has been planned for Palm Sunday, April 7. Participants will assemble at the Newark Courthouse between 1:00 and 1:30 P.M. to facilitate stepping off at 2:00 P.M. The march will march about 1 1/2 to 2 miles. The purpose of the march is to display an outward commitment which, of necessity, must be followed by further actions. Further details may be found in the next issue of the MONTCLAIRON.

Indians’ Baseball Team Faces Rebuilding Year

“This is a rebuilding.” These words, spoken by Bill Dioguardi, Montclair State baseball coach, do not abound in optimism toward the upcoming season.

“The team was definitely hurt by graduation,” Dioguardi continued, “as we lost nine starters, one pitcher and three utilitymen.”

The three returning Indian starters, Bob McCormick, Jim Downing, and Frank Rossi are all of top caliber.

McCormick, a sophomore from Bloomfield, leads the Indians in batting while holding down the second base position. Senior centerfielder Downing (a starting end on the football team) was the team’s number two hitter, while Rossi was the Indian’s top slugger (hitting a record three home runs in one game last season) and a strong armed catcher on defense.

Pitching, an Indian strong point last season, should be at least adequate with Pete Jerauld, Fred Keimel, and Ralph Miller forming the nucleus. It could be top notch depending on how fast newcomers Ken Inglis (a high school all stater last season) and John Grymko (up from the junior varsity) adjust to varsity ball.

Montclair also received an assist in obtaining two junior college transfers in Ken Meek and John Grymko (up from the junior varsity) to adjust to varsity ball.

John, already in serious training for the Olympic trials, has already been forced to postpone pledging Tau Lambda Beta until after his Olympic obligations are concluded.

“Many of these young men,” states John, “where every move is spontaneous. He can sneeze and I’ll do the same. It’s like second nature.” Carey also stresses the team nature of kayak racing. It is a sport in which a well co-ordinated team will win every time over a superior individual with an average partner.

“Tempting goodness of a Brazier TASTE MATES at this low price! See! "y our favorite flavor in a Dairy Queen tasty shake — to match the tempting goodness of a Brazier Deluxe! 99¢ SALE”

The two are of similar builds and weights (very important in assuring proper boat balance) and have now been paddling together for three years.

John works as the sternman and as such his job is to keep time and push while Paul’s function as stroke has to set the stroke and steer and push the boat. The cohesiveness between the two is amazing. “Paul and I are trained to the point”, states John, “where every move is spontaneous. He can sneeze and I’ll do the same. It’s like second nature.” Carey also stresses the team nature of kayak racing. It is a sport in which a well co-ordinated team will win every time over a superior individual with an average partner.
