The eminent composer, Aaron Copland, will visit Montclair State College April 3 in connection with the music department’s Fourth Annual Composer’s Symposium. Mr. Copland will meet with classes in the morning, and lecture to the music students at 11 A.M. on the topic “On American Music.” He will take part in an open rehearsal at 1 P.M. for the informal public lecture at 4 P.M. in Memorial Auditorium.

The informal lecture will be followed by a question and answer session which will be open to the entire student body. The discussion and lecture will be on topic “Music from the Composer’s Standpoint.” The student body should respond to this famous celebrity by participating in the scheduled activities. Mr. Copland will conclude the day’s activities by conducting one of his own compositions at the Symposium Concert that evening at 8:30 P.M.

On April 2, the guest conductor will be Emil Kahn, a retired faculty member, who has been commissioned to write a composition especially for the occasion. That evening he will conduct the Montclair Chamber Orchestra in a premier performance of the composition. A panel discussion on “The Orchestra as an Educational Medium.”

Mr. Copland has led an active life in contemporary music as pianist, conductor, and lecturer, as well as composer. The Brooklyn-born musician studied in France as a young man, returning to this country in 1924. The following year he became the first composer to win a Guggenheim Fellowship. Subsequent honors include: a $5,000 award from RCA Victor for his “Dance Symphony”; Gold Medal for Music from the American Academy of Arts and Letters; Creative Arts Medal from Brandeis University; Edward MacDowell Medal; Henry Hudson

Texas to Host “Mini” International Fair

By DAVID M. LEVINE

Deep in the heart of San Antonio, a world's fair is shaping up to greet visitors from around the world. It is known as “Hemis-Fair 1968” and will open for a 184-day run starting on April 6. Sanctioned by the Bureau of International Expositions in Paris, “Hemis-Fair '68” coincides with the 250th anniversary of San Antonio, one of Texas' largest cities. Nearly 40 governments have agreed to participate in the exposition, as well as two states (Arkansas and Texas) and 19 private corporations.

“MINI-EXPOSITION” Compared to the two other recent world's fairs, “Hemis-Fair” may turn out to be a “mini-exposition.” The Texas fair is situated on 92.6 acres compared with 1,000 acres for Montreal's Expo '67 and 645 acres for the New York fair. Officials in Texas expect that as many as 7.2 million people will visit the fair during its stay. At the Toronto fair, tickets and all current information on “Hemis-Fair” may be obtained by writing c/o Box 19608, San Antonio. In order to help tourists obtain lodging, “Hemis-Fair” has set up an efficient accommodation service called Write to Visitor Services, P.O. Drawer H.

Deep in the heart of San Antonio, a world's fair is shaping up to greet visitors.

SUPERIMPOSED over the 92 acres it will occupy in downtown San Antonio, a model of Hemis Fair 1968 is dominated by the 622-foot Tower of the Americas, the tallest building in the southwestern United States. In addition, the fair will include governmental exhibit pavilions, amusements, lagoons and rest areas.

APRIL 25, 26, 27 — MAY 2, 3, 4

SUMMER JOBS

Over 30,000 actual job openings listed by employers in the 1968 Summer Employment Guide. Gives salary, job description, number of openings, dates of employment, and name of person to write. Resorts, dude ranches, summer theatres, United Nations, national parks, etc. Also career oriented jobs: banking, publishing, engineering, data processing, electronics, accounting, many more. Covers all 48 states. Price only $3, money back if not satisfied. Our fifth year!

PLAZAS DEL MUNDO—A segment of an architect's model of Hemis Fair 1968 shows clusters of foreign government exhibits along side of the site waterway. Several historically significant buildings in the area are being renovated and will also be utilized with the newer forms of construction at the Texas World's Fair.

Speech Department Holds Reunion Today

The second speech family reunion is being held today to bring together undergraduates, alumni, faculty members and former teachers of MSC.

The schedule to be followed includes: tea and registration, 1:30-2:30 P.M.; afternoon program, 2:30-5:30 P.M., and a buffet and entertainment, 6-9 P.M.

The afternoon program will be highlighted by Dr. James Andrews, class of '58, and the dedication of the Galawonkski Memorial Speech Library. Tours will be conducted through the speech clinic and studio theater. Video-tape and stage craft demonstrations will also be presented.

In addition to this activity will be four panel discussion groups composed of faculty and alumni and focusing on the following topics: 1. professional and graduate opportunities in speech, 2. practice in educational and affiliated off-campus situations, 3. the basic speech course in high school, 4. theater in the high school: creative and traditional.

The speech family reunion is held every four years. This year's committee was headed by Miss E. Kaufman, Mr. K. Moll and Mr. G. Caraciolo.

HRL Schedules Dynamic Weekend

That famous Greek, Socrates, has been quoted frequently for the wisdom of his philosophy of self-knowledge. At MSC, there are those who also adhere to this doctrine and practice techniques of self-revelation in an intensive weekend program of interaction and communication with others.

This program, known as the HRL, will be sponsored once again on April 18-21 by the College Life Union Board. The weekend conference is to enable students to obtain experience in group dynamics and communication skills.

Students will be broken up into "T-Groups" of 12 to 15 people. In these groups the participants will learn by experience how their behavior affects others and how they are in turn affected by the actions of other participants. The individual learns by actual experience. Participants are exposed to goal setting, group problem solving, group task, and group maintenance functions. Theory sessions will follow some of the meetings and deal with what has transpired in the groups.

The theory sessions are held after the group meetings because it is felt that if the experience precedes the lecture, the information will be more meaningful. This "T-Group" idea is gaining acceptance in educational circles.

Persons interested in group dynamics should register for the weekend. Registration will take place in the Fishbowl on April 1, 2 and 3. Interested students must bring their SGA card. The cost of the weekend will be $10. This will cover transportation, meals, and housing. The site of the conference will be Camp Bernie, Port Washington, N.J.

The Human Relations Laboratory began at Montclair State College in 1963. At that time the purpose of this faculty-student group was to influence campus culture. Leadership workshops were conducted for officers of various campus organizations in order to help them become more democratic in their leadership. The HRL emphasis has now shifted toward the individual. The T-Group and communication skills through group interaction.

Due to limitations caused by the budget for HRL, only about 100 students can be accommodated. Persons interested in understanding group dynamics should try to register early as selection is based on first come, first served.

Chairmen Reveal Carnival Plans

"If the weather stays with us, this should be the most successful Carnival ever held by Montclair Montclair College." These are the words of Co-Chairman Bob Martinez as he and his fellow chairman, Barbara Sternenberger, watch the plans for this year’s Carnival get underway. Bob and Barbara both attended Morris Catholic High School in Denville where they worked together on various projects, including tracking students. Their contribution to this year’s Carnival is the Student Government’s efforts in organizing one of MSC’s most important events – Carnival.

Carnival ‘66 is “Crossroads of America: Freeway to Greatness.” The date is May 10-11, the time is from 6 P.M. to 12 midnight on Friday, and from 12 A.M. to 12 midnight on Saturday. Carnival will be held on the parking lot behind Mallory Hall, where new fog lights have been installed for our convenience.

Bob and Barbara will be aided in the coordination of Carnival by 15 committees, the chairman of which are: financial, John LaManna and Mary Jean Agnusdahl; standing, John Burke, Ed Berk, Carlens Chastain, and Mary Beth Connolly; secretarial, John Burke and Jane Farmere; photography, Roger Brown; publicity, Carolyn Stewart and Rich Orloff; construction, Rick Warren and Mike Leavy; lighting, Dick Finn and Bruce Berringer; decoration, Bill Ryan and Carol Spicer; tickets, Kathy Mancini and George Mantega; traffic, Pete Fusco; decorations, Eileen Bonten; fund distribution, Bob Munahan and Sue Wexstern; audio-visual, Jim Wynne and Steve Rahn; security, Joel Naughton and Jeff Snyder; clean up, John Herd and Ted Ziembo: equipment, Paul Antonucci, Dale Rogers, and Irine Hulsedka: programs, Donna Stee and John Greynko.

The sororities, fraternities, classes and other organizations on campus will choose from one of four categories in building their booths: games, food, entertainment and souvenirs. The booths will be elaborately decorated as will the cafeteria during the Carnival, to precede the big event.

All will be entered under the main theme of “Crossroads of America,” but each booth will emphasize an area of the country, the North, the South, the East, or the West. Trophies will be given to the most successful booth in the competition. Second prize, enough to make a good book, will be given to each of the four geographical areas of the country, and first, second and third place trophies will be awarded to the most original booths.

Letters are being sent to MSC’s incoming freshman class and to our first year alumni, inviting them to participate. John Burke and Bob Barb anticipate an unprecedented turn-out this year, and are working hard, along with their committees to produce a fun-filled, first-rate Carnival. As Co-Chairman Barb puts it, “Bob and I want this Carnival to be great and it will be!”

The men of Alpha Phi Omega are planning their annual campus blood drive, to be held on May 2. The blood-mobile will be parked directly in front of Russ Hall, and the donation of blood is open to anyone who is in any way connected with MSC students, faculty, and administration. The blood drive will be held in cooperation with the Essex County Red Cross. Those in need of blood should contact this organization. The blood procured by APO’s blood drive is available to all MSC students, graduate and undergraduate, to the faculty and administration, and also to the immediate families of those just mentioned. The minimum age for donating blood is 18, and students under 21 must fill out a form before their donation can be accepted. The forms can be obtained at the fishbowl from April 1 to May 1. John Clark, publicity chairman.

College High Writers Publish Anthology

Keeping up with the latest trends in education and the contemporary scene, the Class of ’70 at College High has been exploring new fields of English this year. The course of study for sophomore English has been enlarged to include not only the more traditional work in composition, grammar, introduction to literary criticism and creative writing, but also linguistics, the psychology of modern communications media, and movie making.

Earlier this year the sophomores each wrote several original epistles after the example of Edgar Lee Masters’ famous SPOON RIVER ANTHOLOGY. Pleased with the results, they decided to combine their efforts and print a book. Copies were finally finished last week under the title PASSAIC RIVER ANTHOLOGY. The class is now reading two books on the origin and significance of language: THE LANGUAGE OF LANGUAGE by J. A. McHale, and LANGUAGE IN THOUGHT AND ACTION by Edward Sapir. The topic for the next class is a study of all the languages. The students feel that they are getting an invaluable background for more advanced topics. Also currently being studied is Marshall McLuhan’s controversial UNDERSTANDING MEDIA.

In connection with this, a future project of the class is to produce several black and white movies. So far, they have been taught the mechanics of movie cameras and discussed possible subjects and plots.

Credit for all of this goes to Mr. Morton Rich, a MSC faculty member. This is his second year of teaching at College High and his students are unanimous in their praise.

Orders to take out
THE OBSERVER
MARCH 29, 2000
BY DAVID M. LEVINE

Where will you be thirty-two years from today? This very basic of the basic questions our generation can ask itself. Your campus hasn’t knocked us out or your mother-in-law hasn’t driven you to the mad house, it should turn out to be March 29, 2000.

The year 2000 sounds a bit mystical and even frightening to some of us with nervous stomachs, but Herman Kahn and Anthony J. Wiener find the subject fascinating, to say the least. They’re authors of a book recently published by The Macmillan Company appropriately titled “The Year 2000: A Framework for Speculation on the Next Thirty-Three Years.”

With the aid of current economic trends, population expansion, history and political science, plus numerous statistics, the authors have come up with some amazing projections or “surprise-free” predictions (as they like to call them) on what our world will be like in the next century.

Computerized Data

The authors of this unique book point out that the life of any individual citizen, from birth to death, will be recorded on a computer bank owned by the government. This type of computerized data would contain all personal facts about him: his employment history, family history, education and even personal traits. And through genetic control, parents would be able to visit their children. In the future, homes would be built underground and computers would take care of all the chores. Meanwhile, moon and her robot would do their shopping in fully automated grocery stores where “brainwashing” and propaganda techniques would be used to brainwash kids. "Dick Tracy" type two-way phones; large scale uses of computers by private individuals (how about doing your term paper with an IBM?).

Don’t Play With Fire

In last week’s “Letters to the Editor” column, can be found a topic which the editors have been meaning to discuss for quite a while, but which due to limit of space and relevance of other subjects, has been neglected until now. We are alluding to the ridiculous occurrences which take place everyday a fire drill is announced.

The alarm sounds and nothing happens, because so-called mature college students are reluctant to leave their revered residences in the snack bar or in the cafeteria. They appear glued to their decks of cards or to their cups of coffee and half-finished cigarettes. It seems as if they would rather burn alive (in case of a real fire) than to leave the hallowed halls and exert the energy and fortitude needed to brave the cold for five minutes. This foolish hardeheartedness must not be much harder in the balance. Knowing how to escape from a burning building as quickly and as efficiently as possible is a necessary and life saving skill. Let’s be more considerate of life, please.

THE Alphabet Game

At this time in the political year, it is anybody’s guess as to who will win the 1968 presidential and vice-presidential nominations for the Democratic and Republican parties. The “Alphabet Game,” as we choose to call it, is, once again causing much speculation and consternation on the part of all involved, from legislators on down to voters.

Anyone can play the “Alphabet Game”: little previous experience is necessary. All that is needed is a little interest, good guessing ability, and the potential to read the numerous newspaper accounts which attempt to sway readers to one side or the other.

This question of who will be the victor of the “Alphabet Game” should be of special interest to Montclair students, especially to those who will be voting for the first time in what seems to be one of the most crucial and controversial elections in U.S. history. The issues and platforms of each of the candidates must be weighed carefully before an intelligent choice can be made. Each candidate has his special platform promises, but that is all they are. One promise looming especially large in this campaign is that of peace.

A Hidden Treasure

Students of Montclair, are you aware that your college is the recipient of a valuable collection of 46 Renaissance paintings? Are you aware that, according to a catalogue concerning these works, there are three Rubens, three Van Dylkes, a Tintoretto, as well as 39 other masterpieces on campus? Are you also aware that this magnificent collection was given to this college with the intention that it would be shared with the entire college community?

You are also aware that this exhibit is located in the basement of Sprague Library and that the only way a student may see this collection is by making an appointment through the fine arts department to have a fine arts major take him through the special collections room?

Not many students are aware of this or can they successfully answer the above questions. However, every student should be able to know about this collection of paintings Theconda Collection.

Montclair State College should be the proud owner of this valuable collection of art. But, locked in the basement of Sprague Library, viewed only by an occasional visitor, is not the treatment this collection deserves. Why isn’t this collection opened up to all members of this campus as well as members of the community? Don’t hide such an important aspect of campus cultural life behind locked doors.

This collection was given to the college. As students we part of this college. Now let us see what partially belongs to us!

R.F.K. or L.B.J., E.McC. or H.H.H., R.N. or N.R. who will it be? This all-important choice is up to Y.O.U.
CANDID COMMENTS ON "FOLLIES"

To the Editor,

The many ways in which the student body, I would like to mention a few candid comments on the recent Pi's Follies. As I understand it, the purpose of the program was meant to be entertainment, either humorous or serious. And indeed, some of the skits were very well done. However, I cannot bring myself to justify some of the trash that was presented Friday night. Not only was it neither humorous nor serious, but it often came to the point of being completely obnoxious. I am certain I need not mention any titles to prove my point.

This type of presentation, especially since it was done by various Greek organizations, greatly concerns me and, I am sure, most of the student body. The Greeks are supposed to be a special part of our community, endowed with a certain prestige and, consequently, a certain responsibility. They represent, in many ways, the student body of Montclair; and whether this representation is complimentary or not is THEIR responsibility.

I am not necessarily advocating conservatism or censorship per se. However, I strongly feel that if these Greeks do not concern themselves with the virtues befitting their status, they should at least be kind enough not to mar Montclair; and whether this representation is complimentary or not is THEIR responsibility.

I am not necessarily advocating conservatism or censorship per se. However, I strongly feel that if these Greeks do not concern themselves with the virtues befitting their status, they should at least be kind enough not to mar.

The many campus projects which are planned at present cannot improve the atmosphere at this college while those few obnoxious children are permitted to exercise their lack of manners at our expense. If they are to continue to use the facilities of a college campus, they must be compelled to act accordingly.

Sincerely,

ROSANNE BOSTONIAN

THE ACTORS

On March 15, 1968, I had the opportunity to attend the annual event known as Pi's Follies. The evening proved to be an enjoyable one mainly through the efforts, originality, and wit of the Greek letter organizations in competing for performance prizes. My enjoyment was short-lived when a display of humor (?) by Omega Phi Delta fraternity. The presentation to which I refer was Omega Phi Delta's prize-worthy contribution of "Amos and Andy" in blackface.

To clarify any doubts as to my natural identity, I am a proud black student comprising a part of the student body. This is not to say that we should put on a false front to impress outsiders, but rather that, as members of the community, each individual and organization should strive its utmost to bring out the finest in Montclair for the sake of knowledge, community, and congeniality. If, perhaps, they should do it, not as a profitable or unprofitable task, it is time they seriously ask themselves what they are doing to serve this end.

J. DER KINDEREN

SNACK BAR MANNERS

Dear Editor:

I fully realize the fact that College High School is on campus as a convenience for our many students who observe its classes. This experience hopefully contributes to the knowledge and depth of prospective teachers graduating from Montclair State.

This benefit, however, is not sufficient to justify the behavior of some of the younger high school students who attack the snack bar with the abandon of Sherman's march to the sea.

The many campus projects which are planned at present cannot improve the atmosphere at this college while those few obnoxious children are permitted to exercise their lack of manners at our expense. If they are to continue to use the facilities of a college campus, they must be compelled to act accordingly.

Sincerely,

ROSANNE BOSTONIAN

ROSANNE BOSTONIAN

THE ACTORS

On March 15, 1968, I had the opportunity to attend the annual event known as Pi's Follies. The evening proved to be an enjoyable one mainly through the efforts, originality, and wit of the Greek letter organizations in competing for performance prizes. My enjoyment was short-lived when a display of humor (?) by Omega Phi Delta fraternity. The presentation to which I refer was Omega Phi Delta's prize-worthy contribution of "Amos and Andy" in blackface.

To clarify any doubts as to my natural identity, I am a proud black student comprising a part of the student body. This is not to say that we should put on a false front to impress outsiders, but rather that, as members of the community, each individual and organization should strive its utmost to bring out the finest in Montclair for the sake of knowledge, community, and congeniality. If, perhaps, they should do it, not as a profitable or unprofitable task, it is time they seriously ask themselves what they are doing to serve this end.

J. DER KINDEREN
STATEMENT
A COLUMN OF COMMENT

By JORDAN DENNER

In a recent "Letter to the Editor," I gave some reasons why the Camp Wapalanne program should be kept as an integral part of the MSC curricula. To expand further I leave these comments to those interested.

By the proposal to discontinue the Wapalanne program at the end of the academic year, it seems apparent that the Administrative Council, composed of faculty members and department chairmen, has once again deemed a course of action for the "betterment of the Montclair student," without having sounded the student for their support or opinions concerning the matter.

One way in which we all can help divert this tragedy is to judge the Wapalanne program for its future worth, to let it serve as a bulwark of knowledge for years to come as well as the recreational and social needs it fulfills now.

The need for Outdoor Education is summed up on page two of the Wapalanne Student Handbook, given to all students who participate in the program. It states, "Increasing numbers of school systems both on the secondary and elementary levels have incorporated outdoor educational programs in resident as well as in day-time settings; therefore, the professional preparation of any teacher...would be incomplete without some exposure to a phase of the subject which is gaining increased recognition and importance."

Wapalanne does not offer an answer to all of man's problems. However, it does offer a setting that transcends the classroom and provides an informal basis for better communication between student and faculty. Essentially the objectives of Wapalanne are as follows:

1. To provide a worthwhile educational experience for the development of a better understanding and deeper appreciation of the outdoor education process.

2. To develop a positive attitude toward conservation and the intelligent use of our natural resources.

3. To provide a group living experience that incorporates opportunities for the development of sound social values and desirable student-faculty relations.

4. To offer a wide variety of recreational experiences which are personally satisfying to the student during his outdoor education.

5. To offer specific post-camp opportunities for students to continue the development of these interests and competencies in outdoor education.

Since the inception of the program in 1948, the facilities have been wintersoned and all state colleges use the camp throughout the year. The question then arises: "If the program was as successful as it seems, then why is it being suspended?"

A recent poll of students that have participated in the program has shown that over 90 per-cent of the students hoped that the program would be continued for other classes to enjoy.

Other colleges have also recognized the importance of this activity. Rutgers-The State University is only too willing to take over the entire camp site if the present program is suspended. The United States government considers these programs important and provides fellowships on the graduate level for work in outdoor education and conservation. Why must we wait until we are graduates if we can enjoy the activity now?

I would like to remind the student body that they have been paying for the upkeep of the camp through their service fees. There is now at least $40,000 on hand for the camp experience, whether we use it or not. You can be sure that it won't be returned to your pockets, so why not let it be used up, as it was intended to enjoy a week at Wapalanne? I can only hope that the administration reviews the situation and does not take the Camp Wapalanne program away from the students who deserve the opportunity to enjoy this worthwhile experience.

John Davis Lodge, former governor of Connecticut, will deliver the main address at the National Student Convention to be held at Princeton University on April 6. The convention will adopt an abbreviated platform, hear nominations for the major candidates and vote by state for President and Vice-President. Representative William Widnall of New Jersey will welcome the students in the opening session. He will also lead a seminar on the current fiscal and monetary problems, including the gold crisis. Widnall is the ranking Republican on the House Banking and Currency Committee.

Those wishing to attend or wanting more information on the convention should contact their local Young Republican Club or write directly to the National Student Convention, Whig Hall. Princeton, New Jersey.

Sharon Freeman, Laurie Held, Joyce James, Carolyn Kolb, Sandy Kriewitz, Kathy Ludtke, Shirley Lott, Marcia Mejilman, Terry Mineo, Barbara Popek, Arlene Pousson, Paul Shepherd, Frank Stactac Jacqueline Stomhaug, Mary Wells, and Diana Zeropolous.

An attempt at musical comedy is a "first" for the Players, but it promises to be an extremely entertaining evening.

PLANKERS SELECT CAST FOR O.T.I.S.

"Of Thee I Sing," first staged in the 1930's, was the first musical production to win the Pulitzer Prize. A joint effort of the Montclair State Players and the physical education and music departments will revive the musical comedy in Memorial Auditorium on April 25, 26, 27, and May 2, 3, and 4.

The comedy, with the book by George Kaufman, satirizes politics, beauty contests, and the average rank and file. The humor is typical of that found in the '30's, but the songs are "catchy" tunes for any era.

In selecting the cast, it was necessary to coordinate singing, dancing, and acting abilities. The actors, under the direction of Dr. L. Howard Fox, chairman of the speech department, include Tony Guarna as Lippman; Greg Studeris, Gilhesby; Betty Passafiume, Maid; Bruce Gandy, Fulton; Jim Mussackho, Lyons, Greg Doncette, Jones, Scott Watson, Throttlebottom; Walter Kotuba, Wintergreen; Tom Ratzen, Jenkins, Bette Glenn, Diana; Lynn Gehring and Joanne Johnson alternating as Mary; Veronica Hofmeister and Carol Powell alternating as Benson; Paul Shepherd, Chief Justice; Linda Cor, Sub-bawman; Kathryn McAfee, Guide; William Hibbie, French Ambassador; Frank Stacac, Clerk; and Russell Layne, Plunket.

Mrs. Jimmylee Swope, physical education, has coordinated the routines for the dancers: Evelyn Adamski, Geri DeMayo, Midge Guerra, John Homer, Kou Honky, Alice Kapchokon, Joe Kenepsky, Joe Macaluso, Sue Mathews, Pat Reaves, Dennis Righetti, Ann Shoemaker, Linda Silverman, Lynn Stanley, Linda Stevens, and Cindy Silverman.

The chorus, under the direction of Dr. Edward J. Srbas, music, includes Pam Behnke, Diane Bott, Kathy Dryer, Gary Kurfist Presents the Only N. J. Appearance

Contrasting opinions: freedom of opinion expresses itself on March 12 in Life Hall when the U. S. Navy and the S.P.U. distribute their literature.
Sports Car Buffs Advocate Rallying

Taking a cue from the Beatles, the Montclair State Sports Car Club normally traffic clogged roads and to find those roads that are the safest, they are most frequently disqualifications.

A route-following challenge run from point to point on public roads at legal speeds, one car at a time. Its purpose is to test the ability of a driver and navigator to follow a set of instructions and answer a set of questions about that route. It is NOT a speed event. At all times during the rally, the driver must obey all traffic regulations. Any violation of the rules will result in disqualifications.

WHERE DO RALLIES GO? All rallies run by the club travel on public roads. In order to make the rallies more interesting and safer, they are most frequently conducted on secondary roads. Attempts are made to avoid the normally traffic clogged roads and to fine those roads that are the most scenic.

Conducted? Each car is given a set of numbered instructions of the fill-in type. The questions are usually keyed to the route that the team will appear on the road if the route is followed correctly. Those answering the most questions are the winners. A time limit is placed on the event. However, some time is allotted to complete the event.

WHY GO ON A RALLY? Most club members go on rallies because the sport of rallying is enjoyable. It allows participants to enjoy driving and gives them a chance to win trophies while doing so.

The rally rules are inexpensive and involve only the cost of gas and the two dollar entry fee. A rally is a unique experience. It provides a change from driving in bumper to bumper traffic.

The rally has been divided into two categories; touring class for the beginner, and rallyist class for the most experienced driver.

This Sunday’s rally will begin with registration in the freshmen parking lot at 11 A.M. The entrance fee is $2. The rally will begin at noon. Involving approximately 70 miles of driving, it is scheduled to end about 5 P.M.

Anyone desiring further information concerning any aspect of the Sports Car Club may leave a note under the MSSCC plaque in Life Hall or contact Bob Ackers, rallymaster at 672-8954.

Psi Chi

The men of Psi Chi are proud to have the following pledges for the spring semester: Bruce Dons, ’70; Bob Harley, ’70; Neil J Jensen, ’70; Ken Zurich, ’71; Joe Hibbs, ’71, and Ken Traynor, ’71.

The men of Psi Chi attended the theatre recently to see THE GOOD, THE BAD, THE UGLY. We would like to thank Ed Pugh and Ken Warren for all their work on our production for Psi Folles. Also we want to thank the brothers who participated and our 220 pound Saint Bernard for behaving herself during the performance.

Tom Stepnowski and Bill Ryan have been chosen chairmen for our Carnival committee. Other brothers on committees for Carnival are: Tom Stepnowski, student adviser; Bruce Berringer, Dick Finn, lighting and equipment; Bill Ryan locations; Dale Rogers, equipment; Mike Leavy, construction; George Malanga, tickets; Ed Berk standing committee.

Congratulations to Tom Ackers.

Zeta Epsilon Tau Congratulations are in order to the founding fathers of Zeta Epsilon Tau and especially to our first and very able officers, Walter Krawiec, president; George Bohonyi, vice-president; Robert Pepe, secretary; Peter Savage, treasurer.

Congratulations to Craig Bertelli, the winner of our first raffle. He received $25 worth of his favorite record albums. We wish to extend our thanks and gratitude to all of you who helped to make our first endeavor a complete success.

Pete Savage last week received his final discharge papers from the United States Air Force, where he spent three years active duty and obtained the rank of sergeant.

Engaged

John Mangelli, ’68, to Beatrice Keenan, Orange Memorial School of Nursing.

Newark March

In concern for the conditions existing in Newark and other urban areas throughout the country, a walk through last summer’s riot area in Newark has been planned for Palm Sunday, April 7. Participants will assemble at the Newark Courthouse between 1:00 and 1:30 P.M. to facilitate stepping off at 2:00 P.M. The march will march about 1½ to 2 miles. The purpose of the march is to display an outward commitment which, of necessity, must be followed by further actions. Further information may be found in the next issue of the MONTCLARION.

WITH THE GREEKS

take care of your contact lenses, we have the solution. It’s Lensine the all-purpose lens solution for complete contact lens care—preparing, cleaning, and soaking. Just a drop or two of Lensine before you insert your contacts coats and lubricates the lens surface making it smoother and non-irritating. Cleaning your contacts with Lensine retards the buildup of foreign deposits on the lenses. Lensine is sterile, self-sanitizing, and antiseptic making it ideal for long storage of your lenses between wearing periods. And you get a removable storage case on the bottom of every bottle, a

are your contact lenses more work than they’re worth?

Bacteria cannot grow in Lensine. Caring for contact lenses can be as convenient as wearing them with Lensine, from the Murine Company, Inc.

JOHN CAREY

SPORTS SPOTLIGHT

by John Dantoni

JOHN CAREY

A Montclair Stater in the Olympics! Don't be surprised, for
if freshman industrial education and technology major John Carey
has his way, the Indians will be represented in October at Mexico
City.

John a 5’11”, 160 pounder from Fort Lee together with Paul
Guyre a senior at St. Joseph's High School in Montville are the
defending national two man kayak champions, winning the
1967 championship over teams from every state in the union last
summer at Columbia, Connecticut.

The two man kayak event is run by lining up all the entered
kayaks and then racing over a course (usually 500 meters in
length, although in the Olympics the team will race over both 500
and 1000 meters) staying within individual lanes marked by buoys and
observing rules of passing and paddling.

Carey got his start in kayak racing in 1966 when he met his
present coach, Clyde Britt, in Fort Lee. Though Britt, John joined
the Wanda Canoe Club team where he began competitive races. He
was an instant success winning over 20 medals when teamed with
Paul Guyre.

The two are of similar builds and weights (very important in
assuring proper boat balance) and have now been paddling together
for three years.

John works as the sternman and as such his job is to keep time
and push while Paul's function as stroke is to set the stroke and
steer and push the boat. The cohesiveness between the two is
amazing. “Paul and I are trained to the point”, states John, “where
every move is spontaneous. He can sneeze and I'll do the same.
It's like second nature.” Carey also stresses the team nature of
kayak racing. It is a sport in which a well co-ordinated team will win
every time over a superior individual with an average partner.

John, already in serious training for the Olympic trials, has
already been forced to postpone pledging Tau Lambda Beta until
after his Olympic obligations are concluded.

Indians’ Baseball Team

Faces Rebuilding Year

"This is a rebuilding." These words, spoken by Bill Dioguardi,
Montclair State baseball coach, do not abound in optimism toward
the upcoming season.

"The team was definitely hurt by graduation," Dioguardi
continued, as we lost nine lettermen. Included in this
number were five starters, one pitcher and three utilitymen."

However the three returning Indian starters, Bob McCormick,
Jim Downing, and Frank Rossi are all of top caliber.

McCormick, a sophomore from Bloomfield, leads the Indians in
batting while holding down the second base position. Senior
centerfielder Downing (a starting end on the football team) was the
team's number two hitter, while Rossi was the Indian’s top slugger
(hitting a record three home runs in one game last season) and a
strong armed catcher on defense.

Pitching, an Indian strong
point last season, should be at
least adequate with Pete Jerauld,
Fred Keimel, and Ralph Miller
forming the nucleus. It could be
top notch depending on how fast
newcomers Ken Inglis (a high
school all stater last season) and
John Grymko (up from the junior
varsity) adjust to varsity ball.

Montclair also received an
assist in obtaining two junior
college transfers in Ken Meek and
John Grymko (up from the junior
varsity) adjust to varsity ball.

Montclair also received an
assistance in obtaining two junior
college transfers in Ken Meek and
Ken Frank who are expected to hold starting berths. Meek, a 6-1,
190 pounder is a shortstop while
Frank is a 6 foot, 190 pound first
baseman. Both men are excellent
hitters.

Other Indian starters are
former all-stater Rich San Filipo
from Belleville at third, and
Howard Behnke and Tony Pecaro
in the outfield. Behnke is a senior
physical education major from
Paramus, while Pecaro moves up
to the varsity with rave notices, as
he was voted last year's top
freshman.

John's present work consists of
three hours of work daily, paddling on the water every clear
time he and Paul’s schedules are compatible and doing special
workouts building up skeletal and
longitudinal muscles. Kayak men,
unlike oarsmen who do heavy
work, are similar to trackmen in doing a lot of running
and building endurance and wind.

Heavy work will commence
next month when John and Paul
will be on the water seven days a
week. During the summer four to
six hours a day will be spent in
the kayak.

The date that John and Paul
are working for is the Labor Day
weekend when the United States
Olympic trials in two man kayak
competition will be held in Long
Branch, California. On that
weekend, a years work will end in

MSC hurler rounds into
shape for coming season.

Good luck John, all of
Montclair State is pulling for you.
