Faculty, Students Plead for Action At Board of Trustees Meeting

Long-range plans for Montclair State's growth, a forum on College High School, a plea for an increased salary guide and reduced tuition, and a forum on admission procedures were among the topics at the college's first meeting of the board of trustees in its 60-year history Monday night in the Studio Theater.

Dr. W. Lincoln Hawkins, board chairman, announced that the board has authorized the retention of three architectural consultants to develop and implement a master plan for the college's construction program. They are Max O. Lithbn of New York and Leo H. Mahoney and John Zvone of Princeton.

Dr. Hawkins also reported on steps being taken to enlarge the college's construction program. The property in the Ramapo area, which is being purchased from the Houdaille Construction Company, owners of a quarry north by the present campus to acquaint them with the campus acreage, which now stands at 90. He said that a meeting had been held with representatives from the Houdaille Construction Company, owners of a quarry north by the present campus to acquaint them with the campus acreage, which now stands at 90. He said that a meeting had been held with representatives from the Houdaille Construction Company, owners of a quarry north by the present campus to acquaint them with the campus acreage, which now stands at 90. He said that a meeting had been held with representatives from the Houdaille Construction Company, owners of a quarry north by the present campus to acquaint them with the "seriousness of intention of the college to acquire the property." Portions of the tract will become available as the quarry is depleted, and it is hoped, according to the chairman, that the college may be in a position to acquire them as this happens. He said that a meeting with the firm's attorneys is being planned to work out an agreement whereby the college would have first refusal.

The pros and cons of continuing the operation of College High School, the campus demonstration school since 1928, were aired by proponents of both sides. Dean Allan Morehead outlined the institution's history; Paul Clifford, chairman of the mathematics department, described how it is used for observation of teaching techniques and for classroom presentations on the part of teacher education students; and Edward Burke of Orange, president of the College High School PTA, and George Parr of Passaic, an alumnus, spoke of its benefits to its own students.

The case for closing the school was presented by William Cuff of the Montclair State education faculty.

Moratorium Today To Climax Strike

In view of the increasing conflict in Vietnam, Montclair State College will hold a moratorium between the hours of 11 A.M. and 2 P.M. today. The event is being held at the request of the Newman Fellowship, the Protestant Foundation, Star of David, the Student Peace Union, and individually concerned students and faculty members. The moratorium has not been called to PROTEST the war in Vietnam or to call for an end to racial prejudice. It is merely intended to provide the student at the height of the work day with a time to contemplate on these vital issues. The organizations above have been granted permission by Dr. Richardson and the rest of the college administration to conduct the moratorium.

Moratoriums have been used continually throughout American history to either bring about change or to make people aware of prevailing circumstances on a given issue. It originally meant a suspension from a monetary obligation, usually to the government. They were usually called for during periods of financial crises, such as during the time of the Depression in the early thirties. Today, it has been closely associated with the Vietnam crisis by calling for periods of contemplation.

Admissions Director Reasserts Policy

There has been some confusion at MSC regarding the 40 T.R.Y. students coming to the college in September. These 40 students did not apply through the normal admission procedures. Rather, they were selected under a special program operated through the admissions office. The funds that finance this program will be supplied by the federal government and other sources outside the college. In short, 40 non-ghetto students will not be displaced by the T.R.Y. students.

According to Dr. George C. King, an important consideration to be examined in the T.R.Y. issue is that even if 40 non-ghetto students were displaced, they would probably receive admission to any other of the state colleges. But the 40 T.R.Y. students would not have that option.

Dr. King and others who are involved in the T.R.Y. program at MSC such as Mr. George Bernstein (Continued on Page 5)

Dean's List Announced

Four hundred and fifty Montclair State College students, approximately 10 per cent of the undergraduate enrollment, have been named to the dean's list for the fall semester, according to an announcement by Dr. Allan Morehead, dean of the college. A reception will be given in their honor on May 1 at 4 P.M. in Chapin Hall.

These students have attained a cumulative average of 3.5 or above for the fall semester of 1967. The names which are starred (*) indicate a 4.0 average.

Quiz Students In "Galumph" Probe

Joe Valenti (left), head of the GALUMPH investigation committee, and Harry Freeman, information concerning opinion of the campus humor magazine.

By CHERYL MEYERS

Joseph Valenti and Steve Costic, representing a committee formed for the purpose of determining the popularity and worth of the college humor magazine, GALUMPH, recently reported their findings to the SGA legislature.

The committee reached 10 per cent of the college by polling ten percent of each department. The results were as follows:

- Of the 422 persons polled, 389 were familiar with the publication: 33 were not.
- Nearly 24 per cent of all polled, claimed to read all of the magazine, nearly 32 per cent read a good part of it, while over 34 per cent read little of the magazine; the other ten per cent either did not read GALUMPH, just looked at the pictures or did not answer the question.

GALUMPH Rated

In the third question of the opinion poll, students were asked to rate the magazine according to one of nine criteria. The committee concluded that the magazine must not be accomplishing its purpose since it received low ratings in all four categories, the most obvious of which was the 52.4 per cent of the students gave a very low rating for the worth of the magazine to the individual. Of the 422 students, 137 offered to help the magazine through constructive criticism and submissions. Two hundred and fifty-two offered no assistance, and 33 did not answer the question.

The GALUMPH committee recommended that (1) next year's legislature form a standing committee to evaluate the magazine on a three year basis; and (2) that the budget for the spring semester be held in abeyance until improvement is shown in the magazine.

Individual Incentive Stressed in 'College Within a College'

Dr. Richardson and the Faculty Council Committee have a concept which would result in an experiment called "College Within a College." The faculty committee has proposed a dynamic approach to higher education which would take place on the MSC campus.

To outline the proposal briefly, the suggestion is that of a college experimental unit be included into the larger college, where a renovated curriculum would be put into operation. The learning atmosphere would be less restricted in the experimental college, stress being placed upon independent study, open seminars and field trips. Formal classes would yield to a free curriculum substituting individual research reports in lieu of tests and exams.

Many sources of information would be utilized in the teaching, including tapes, motion pictures, television and planned community projects. A pass-fail system will prevail over the conventional gradient scale procedure. Whether or not the proposal becomes a reality rests upon the Board of Trustees' decision.

Participation in the program would implement about a maximum of 400 volunteers. The student-teacher ratio would remain about the same as the larger institution. Teachers for the experiment would be absorbed from the present MSC faculty. Dr. Richardson generalized that volunteers should have a sense of maturity and responsibility toward the creative experiment. The earliest possible date the program could go into effect would be late next September.

The experimental approach is different, but not without precedent. Columbia's "New College," Wayne State University, Stanford and Tufts Universities are all examples of colleges which have taken a step toward new innovations in higher education.

Dr. Richardson expressed that the success of the new program depends upon the value it would bring upon revamping the larger institution's instruction procedures.

The suggested program for the four years would be as follows:

- Freshman year would dwell upon "Man the Technologist" and "Man and His Environment."
- Sophomore year would stress "Man the Artist" and "Man the Dreamer."
- Junior and senior years are devoted to the specific subject of the student. At the conclusion of one's studies, a documented research paper and an oral "exam" are undertaken.

Ideally, students should emerge from the new program with "deepened intellectual curiosity and heightened sensitivity."

Richardson Elected To Board Of Montclair Savings Bank

Dr. Thomas H. Richardson, President of Montclair State College, was unanimously elected to the Board of Managers of The Montclair Savings Bank at a regular meeting of the Board last Tuesday evening, according to Paul A. Pearson, president.

Dr. Richardson is vice president of Research for Better Schools, Inc., chairman of the Committee on Federal Programs Association of State Colleges and Universities, vice president of the New Jersey Association of Colleges and Universities, a member of the New Jersey State Board of Examiners, and liaison representative for the State of New Jersey - American Association of Colleges for Teacher Education.

During the recent reorganization of higher education in New Jersey, Dr. Richardson represented the State Colleges on the Board of Higher Education until their boards of trustees were appointed. He is a member of the board of the New Jersey Friends of Library, and, locally, he serves on the recreation committee of the Adult School of Montclair and belongs to Overseas Neighbors and the Montclair Rotary Club.

In the forefront of educators taking positive action in urban education, Dr. Richardson has encouraged several innovations in this field on the campus, among them S.P.U.R.T., the college's own program for urban teaching, and Upward Bound and T.R.Y. (Talent Research for Youth), federally funded programs designed to aid disadvantaged high school students with college potential. He is a member of the Upward Bound Advisory Council of New Jersey.

Among other innovations under his leadership has been the Montclair State College Institute of Sex Education and Research, which was recently established to give assistance to teachers and others concerned with sex education and one of the few of its kind in the country.

He is active in education throughout the State, appearing widely as a speaker, panelist, and workshop leader. Recently he joined Ralph A. Dungan, New Jersey Chancellor of Higher Education, in a discussion of the future of the State Colleges on the Channel 13 program, "New Jersey Speaks for Itself."
King Assasination Shocks
And Inspires MSC Students
By DAVID M. LEVINE
It is indeed a rather difficult task for any writer to put into words the shock experienced by the assassination of Rev. Dr. Martin Luther King, the inspiring force behind the nonviolent approach to civil rights in the United States. King's assassination came during a week that was, needless to say, one of the most eventful in our lifetimes. Yet the approach to civil rights in the cause of nonviolence that he at Montclair State would like to young generation, especially by us cannot be digested by America's citizens of the United States. It is indeed a rather difficult task for any writer to put into words the shock experienced by the assassination of Rev. Dr. Martin Luther King, the inspiring force behind the nonviolent approach to civil rights in the United States. King's assassination came during a week that was, needless to say, one of the most eventful in our lifetimes. Yet the approach to civil rights in the cause of nonviolence that he at Montclair State would like to young generation, especially by us cannot be digested by America's citizens of the United States.

Somehow this type of ruffage cannot be digested by America's citizens of the United States. King's assassination came during a week that was, needless to say, one of the most eventful in our lifetimes. Yet the approach to civil rights in the cause of nonviolence that he at Montclair State would like to young generation, especially by us cannot be digested by America's citizens of the United States.

Special Affection
Somehow this type of ruffage cannot be digested by America's citizens of the United States. King's assassination came during a week that was, needless to say, one of the most eventful in our lifetimes. Yet the approach to civil rights in the cause of nonviolence that he at Montclair State would like to young generation, especially by us cannot be digested by America's citizens of the United States.

Montclair State College, general apathy and indifference capital of the nation, was the scene of a complete proof to the contrary on Fri., April 5, 1968. It was not the beautiful and inspirational music, the moving prayers and speeches but the sudden and efficient organization of the memorial program for Dr. Martin Luther King and the overwhelming response of our apathetic student body, which prompted us to write this editorial.

Students abandoned cramming for all the midterms scheduled for that day; they forgot about socializing, card playing and all other activities our "indifferent" students indulge in to pay tribute to Dr. Martin Luther King.

They filled every seat of Memorial Auditorium, sat on the steps, stood in the aisles and listened attentively. There were tears in many eyes as the final "We shall overcome" was sung.

And there was determination in many previously callous and indifferent hearts that tragic incidents such as this one need not be repeated.

Joined together, black and white, MSC came to a realization that man should not have to die for what he believes in. "We shall overcome," the choir sang out hopefully and desperately. Shall we? The MONTCLARION believes that the response given to the memorial service for Dr. Martin Luther King was a step in the right direction toward changing the attitudes of many previously apathetic individuals.

It is our hope that the feeling of brotherhood which filled Memorial Auditorium will last and will reach and touch not just MSC's auditorium, but the entire nation.

THE EDITORS

Monday to Saturday
7 A.M. to 9 P.M.
613 Valley Road
Upper Montclair
Orders to take out

Allan Morehead, dean of the college, had notices quickly circulated to members of the faculty advising the student body of a special Memorial Assembly at 1 P.M. Students lined up around Memorial Auditorium, sat in the aisles, two in a seat. They sang praises of the slain leader: "Someone's crying, my Lord ... Someone's hungry, my Lord ... Thirsty ... lonely ... loving." Stirring words by President Richardson, Rabbi Jesiaha Schutzer, Rev. John Harms and Rev. Thomas E. Davis rang through the solemn auditorium. Tears came to the eyes of many a student.

"Black and white will see freedom because of him," proclaimed Rev. Harms. And it was the able speaker, David Witcher, who told the shocked audience that the myths of bigotry and color should not go unchallenged. "Dr. King surpassed color. He surpassed nationality. Man's inhumanity to man makes countless thousands mourn!"

—Robert Burns
One Year Later

Last week marked the first anniversary of the 27-Hour Marathon, Montclair State’s plea for funds for a new College Union Building.

With cooperation from almost the entire college campus, the Margin for Excellence planned and devised a constructive way to stress our need for a new Union Building.

One year later, we are still waiting to see a response from Trenton in reference to the “proposed” building.

We students have tried through contributions and donations to aid our own cause. The Margin for Excellence has supplemented student funds by securing additional monies from a foundation.

It is now our turn to ask Trenton when they will decide to “help” our college. Is this such an unreasonable request? Since Trenton has overtaken the construction project let it now follow up its proposals. We are waiting . . .

We Need Blood

MSC’s national service fraternity, Alpha Phi Omega, is now recruiting volunteers for their annual blood bank drive. This is a valuable service to the college and one which all MSC students, faculty, administrators and their immediate families may use if necessary.

Needed blood may be obtained through the APO drive for $4 a pint when the usual cost is $45 a pint. However, in order for this service to be made available, MSC volunteers are desperately needed.

Please volunteer and help Alpha Phi Omega to help you.

What Happened to Work?

During the past few weeks many students employed in various departments through the Work-Scholarship Program have been put out of work. This “lay-off” due to lack of funds and poor apportioning of money in certain areas has created much annoyance and inconvenience to the students as well as to their employing departments.

Many students who are putting themselves through college or who are paying their own expenses are dependent on these jobs. Losing the job places an extra burden on the student for financial aid.

Losing the job places an extra burden on the student for financial aid. Losing the job places an extra burden on the student for financial aid.

Super Play

It’s a man? It’s 4/5 of a misspelled Chinese flower? No, it’s super-play. Players’ exciting new “first” and the last of its stage productions for the 1967-68 season. OF THEE I SING, or O.T.I.S. as it is commonly called, truly promises to be an entertaining evening of musical variety. Employing the talents and efforts of interested people, O.T.I.S. will be another MSC first. Jointly responsible for its production are the speech, music, and physical education departments which will contribute many willing students and hours of work into making this play a success. But successful for whom?

Without the full support of the student body, O.T.I.S. may be a flop.

The people working behind stage know “the play’s the thing.” Now they are asking for your help. Administrators, faculty, students, and friends of O.T.I.S. and the college can and should be treated to a truly enjoyable evening.

You’re guaranteed to come out singing the praises of Hayley Mills and all those dedicated people who worked long and hard to bring to MSC this super-play.

"Lotus"

Ramblings

“Well done, maintenance department, and please don’t stop now.” Returning from a brief spring recess, many MSC students were pleasantly surprised to find lots paved and jobs which had been neglected accomplished. It just goes to show you what a little hard work and determination can do. It can even get you praises from the editor’s pen.

Do you believe it? Here it is only the end of April and already the May-June exam schedule has been posted. We say “already” from past experience when students were not so forewarned, but were given only day or two advance notice as to which would be their first exam. Thank you, administration, for this prompt action.

Spring is once again with us and with it comes pledging, guitar-playing, ice cream, swimming, sunbathing, and litter. That’s right, litter, including empty cigarette packages, crumpled coffee cups, and rotten apple cores-debris from a lunch-in on the spacious lawns-turned-dormitories in front of Life Hall. If we have the privilege of relaxing on the lawns, it must also be our responsibility to clean up and beautify the campus. Paul Bunyan Day will be tomorrow, April 27. We urge students to aid in beautifying the facilities which we all enjoy.

EXPANSION AND GROWTH

In higher education we like to concentrate on more academic and theoretical problems; occasionally it is necessary to come to a discussion of the practical conditions of our campus. There are certain aspects of our college life which require the cooperation of the entire academic community. If you will bear with me I plan to devote this article to some discussion of some of these problems.

THE RETURN OF THE SENIORS

The senior class has now returned from student teaching and new problems of overcrowding always face the college at this time of the year. Seniors habitually bring with their return a larger proportion of automobiles than they had in the first semester. Longer walks from parking lots and longer waits to enter and exit the campus are the natural but annoying results.

I hope that everyone understands this problem and that in understanding it, it becomes less intense. We have more parking spaces now than we have ever had and even with the senior increase, there is a place for everyone. The traffic problem could be reduced if people voluntarily varied their schedules in the morning and afternoon with perhaps a half hour of library work preceding morning classes or evening departure.

COMMUNICATION—AN OLD PROBLEM

The communication difficulties created by the problem of largeness is a much discussed topic but I do want to remind you again of the system which has been set up at the college to facilitate the consideration of all suggestions and complaints. The Faculty Council and the Administrative Council meet almost every week and they discuss topics which impinge on curriculum and instruction. I do not recall an incident where the views of these Committees have been ignored in the developing of college policy. It is therefore in the interest of each faculty member to become acquainted with some of his representatives on these Councils, and to inform these people regularly about his views on topics which are important and pertinent.

Students have an active Student Government organization with executive and legislative officers. Student affairs are run by Student Government, but this government can only be as effective as it is aware of the views of its constituents. You will recall that a Coordinating Committee composed of four representatives from each of the Councils and four representatives from the Student Government was appointed early in the academic year. This group also meets and has already made valuable contributions to the operation of the college.

No administrator at Montclair State College desires to be arbitrary or high-handed, and I have reviewed our system of communication and representation as a reminder that all people in this college community have an instrument for causing their opinions to be considered. If your representatives are not adequately reflecting what you desire, you should change your representatives. If the system of representation is not adequate to cause your opinions to receive sufficient consideration then the structure should be changed.

An institution as large as Montclair State College does require organization and regulations but I hope that no one will find conditions so restricting as to generate either hostility or apathy. The Deans and the President are available to meet with anyone who finds the system itself to be a cause of frustration.

THOMAS H. RICHARDSON,
The investigation of GALUMPH, to some, seemed a chance. Before the was made public, GALUMPH was indifference, then a sense of accommodations, staff-size and as much as their limited working feverishly on improving replaced by determination, doubt by hope.

When deadline arrived for this year's final and crucial issue, the one on which the magazine would stand. The favorable reactions of the staff and editors again reversed itself, this time to one of indifference.

The GALUMPH people, especially the editors, have given us a chance to do the best we can. It is not only their fault that we are not humanly possible, under ceilings, to look at the number of great leaders in the gallery, or to doodle on a piece of paper.

There is a great deal of talk about apathy on college campuses. Is it not refreshing to see the state totally apathetic to the needs of the state? Being so indifferent, we must be made to realize the importance of the fact that we have an administration progressive enough to allow students to handle such a laboratory of learning as this by themselves. Recently, WVMS has come under criticism from some of the SGA legislators, because "it's not good for our college image." If these legislators, I have commented that all we can do is provide the students with enough information for the individual whether or not he wants to turn his own station on. I, along with the rest of the people who work on WVMS, was extremely happy when we learned that T.U.B. was a reality, especially since we knew that the WVMS radio programs were going to be piped directly into the T.U.B. sound system. We thought that this constant exposure (WVMS broadcasts daily except Saturday, from 1 P.M. to 12 midnight) would make WVMS known to all students, and we would no longer be bothered by undeserved criticism.

Historically, the problems that the T.U.B. staff would rather listen to recordings than their own radio station. Not only that, but the discussions are displayed by said staff. WVMS, a child of our SGA president, "For whose benefit is the T.U.B.?" STEVE RAHN '70

Legislators Don't Care, Either TO THE EDITOR: On Tuesday, April 2, 1968, a group of students from Montclair State College met with the state legislators of the state colleges of Trenton, Newark, and Glassboro at the State Capitol in Trenton. The meeting was to address a joint session of the educational committees of the State Assembly and the Senate to bring attention to the crisis in higher education.

The legislators were given a resume of the problems facing higher education in the state of New Jersey and were made aware of the particular situation on the respective campuses. This was done in an extremely orderly fashion and with the respect due their office. The presentation contained honest, factual information directly with the crucial problems facing the state colleges. Unfortunately, it did not seem to be the legislators' troubles to listen to the students. It was more convenient for the majority of the number of little bulbs in the ceiling, to look at the number of people in the gallery, or to doodle on a piece of paper.

You took the office of the resembled Presidents in the history of our country, a charismatic figure of significant legislation, and you were recognized as the from the clutches of the American people. His footsteps were hard to follow, and the state colleges are no longer going to be put on the shelf and pushed by in favor of new roads and school bus routes. They are not the people who work on WVMS, they are the future educators of this state. If our present education is hampered by an inadequate number of professors and overcrowded classrooms, it is their children who will suffer. This type of apathy on their part is not conducive to our strivings for better educational facilities. They may be content to accept the fact that they are not well informed about the state of New Jersey, but we, as students, demand a change—both for their attitude and in their policy.

Sincerely, FRANK D. CRIPPS, '70 JOHN GALLINOT, '69 RUTH GOLDSTEIN, '70 BONNIE MILLER, '71

THE S.Y.C. On The Tip of My Tongue... BY DAVID N. LEVINE

Whose head is on a Lincoln penny? That's right, Ronald Reagan! In all seriousness, it just seems natural that we overlook the little things that could be of great importance to our lives. So to help you sleep better tonight, THE OBSERVER has compiled the following "tip of the tongue" trivia quiz that's designed to make you remember, especially at midnight. Have fun!

1. Whose portrait is on a regular U.S. cent?
2. What magazine separates fact from opinion?
3. What is the name of the famous cow that did great imitations of John F. & Bobby Kennedy?
4. What is a $20 bill? (For those who have never seen one—400 years ago!) What is a $50? Would you believe $20?)
5. Who is the chairman of Rainbow Records, Inc.? (Hint: He was a famous painter on TV's "What's My Line"?)
6. What famous British-born Hollywood actor's real name is John Gielgud?
7. Who wrote the song "I'm Yankee Doodle Dandy"?
8. Where is "Homage to Square?"
9. Who wrote "The Secret Life of Mr. Nobody"?
10. Who played Mr. Miyam in the movie of the same name? (Who's the vice-president of O.K. If you're dying to know the answers, the MONTCLAIRON phone number is 783-9091.)

Letters To The Editor

MAGAZINE STAFF CONFIDENT TO THE EDITOR: The Congress of the United States has determined that every registrant is available for military service. That determination is Called Class I-A. The Local Board has no authority to decide whether a registrant should be subject to the selection of any for military service unless it has current evidence a registrant, an employer, or some other person who is interested in the registrant's status which would justify deferment. Evidence given to the Local Board must be in writing and to result in a deferment it must convince the Local Board that a delay in the entrant's entry into military service would be in the national interest. Consideration for your important pursuits, which the registrant's advantage to see that everything given to his Local Board is available to the registrant's board and is as clear and complete as possible.

One of the greatest problems is that the registrant has the evidence for the responsibility in his file. If his school or employer, or employer do not want to write to his Local Board, they can decline. If the registrant wants the evidence they should give to be in his file, he must see that it is presented. The Local Board is not required to take any action on new evidence. Sending evidence to other places such as Congress, State Legislators, officials merely delays the process. A Local Board has limited official resources of information. It cannot be expected to know a registrant is attending a university, it is employed in an important skill, or has dependents unless it is so informed by someone. The registrant is responsible for this being done.

Not only is it to the registrant's advantage to send all information promptly to his Local Board, but the law requires him to do so within ten days after a change in his status occurs.

It is an overwhelmingly feeling to leave a theater tired, devoid of energy and above all, emotionally exhilarated. The excitement in Gala also annual Antoinette Perry Awards. Among the winners were:...
Stolen Article Center
Instituted by Mr. Leo

Recently there has been an increase in complaints about missing items on the Montclair State Campus. These complaints, which have usually been directed to Dean Blanton or Mr. Leo or in the case of stolen cars, to Mr. McGinty. However, there has been no centralization of reporting articles that have suspiciously disappeared. To rectify this situation, on Dean Blanton's recommendation, Mr. Leo has created a central file in his office in Life Hall.

Any students who are missing articles and have an idea that they can now fill out special forms available in Mr. Leo's office or in the security house. These forms have space for the descriptions of the missing articles, the approximate value, the date and time received, and the statement that it was stolen, as well as any other pertinent information. Working together with Dean Blanton, Mr. Leo will review all information reported to him with regard to the patterns in the thefts. In finding these patterns, preventative procedures will be set up more effectively.

Mr. Leo strongly urges all students who have had items stolen to fill out these forms. Although he admitted that at times it is difficult to recover them, he feels that this new system will definitely add all greater security in that area. Even if a student is not absolutely certain that the article has been stolen, he feels that circumstances are suspicious he should file a report.

Dad Sullivan stressed the fact that all of the new programs and policies are directed for the benefit of the students and that it was stolen, as well as any other pertinent information. Working together with Dan Sullivan, a sophomore math major, Mr. Leo will review all information reported to him with regard to the patterns in the thefts. In finding these patterns, preventative procedures will be set up more effectively.
President

SGA Candidates Announce Platforms;
any other organization at Montclair which advocates increased aid to higher education.

There are my proposals and plans for the future if I am elected. There is so much that the students can accomplish, so much that they can change, if only they realize that they have this power. I would like to see that change take place, and that is why I am running for the office of President of the SGA.

Vice-President

Candidate—Bob Stickel
Office—Vice-President
Commuter—English major

At this time I hereby announce my candidacy for vice-president of the Student Government Association.

It is the role of the vice-president of an organization to assist the president in his duties. I feel I should voice my opinion on certain issues which presently face the students of Montclair State.

First, it is a shame that Montclair State is suffering from a lack of financial support. It is a well-known fact that New Jersey ranks 49th in the nation in per-capita expenditures for higher education. If the state government’s recommendations of expenditures for higher education as stated in the 1968 budget are not agreed upon, New Jersey will rank 50th in the nation in per-capita expenditures for higher education.

Another fact is that the budget allocated only $1,000,000 for capital construction in all six state colleges. Therefore, I fully support the Committee for Aid to Underdeveloped State Education (C.A.U.S.E.) in its endeavors to "educate the voters of New Jersey as to the need of higher education, to acquaint the executive and legislative branches of the government with the problems of higher education, and to bring about an increase in state per-capita funding of state colleges, with primary interest focused on Montclair," as stated by C.A.U.S.E. In this respect I feel that the SGA officers should meet with the leaders of other schools to discuss how the united student governments should meet the problem of financial aid to higher education.

OF THEE I SING!

APRIL 25, 26, 27 — MAY 2, 3, 4
Seven Contend For Political Offices

Candidate—Dawn Sova
Office—Secretary
Commuter—Math major

I hereby announce my candidacy for the office of Secretary of the Student Government Association of Montclair and although I am a member of the freshman class and many will say I have no basis on which to present a platform, I feel I can do the best job for Montclair State College.

Going over my high school record, I was a member of the National Honor Society, senior editor of the yearbook, news editor of the newspaper, secretary and later president of the library council, member of the twirling squad, debating team, and many other organizations which, if named, would only take up valuable space at this time.

Here at MSC, my freshman year has not been idly spent. I was chairman of the class of ’71’s blazer committee, I am secretary of SEAM and chairman of the president’s reception committee for orientation ’68. I’m also a member of the LA CAMPANA staff, WYMS, and have attended the HRL weekend.

If elected, I hope to serve the students of MSC through the Student Government Association in as many capacities as possible.

After attending my first SGA meeting in October, I developed a firm desire to get involved in the SGA. Since then, I have attended many more meetings. I’m familiar with the work and workings of the SGA and wish to continue serving you in the office of Secretary.

I am convinced that my greatest responsibility I have become energetic but durable leadership, perseverance coupled with strong drive and steadfast perseverance coupled with energetic but durable leadership, will win me the proud honor of being your Secretary.

Candidate—Kathie Mancini
Office—Secretary
Dorm—Math major

After a year and a half of residing here at Montclair State and through my participation in class and school activities, I feel well acquainted with the college and its functions. Because participation and work, I feel that I would like to be secretary of the SGA.

I feel that a secretary, as well as any officer, should not only execute her duties, but also go beyond them, and work for the students and what they want. As an officer, I would try to do this.

Candidate—Stan Jakubik
Office—Treasurer
Commuter—Social studies major

Take a moonlight cruise enhanced by music and refreshments a la KRU and Psi Chi. From 8 P.M. until midnight on May 4, couples can enjoy continuous refreshments and live music, provided by The Aztecs, as Circle Line cruise departs from Pier 83 for a boat ride up the Hudson. Mrs. Jack, KRU’s present advisor, and alumni from the class of ’67 will be on board to chaperone the third annual Cruise. To weigh anchor, tickets are six dollars per couple.

I.V.C.F. Explains Multi-Purpose

No, it’s not a football team or a track team or any kind of sport. But it can have as much, if not more, of a challenge and a definite goal--to win. It strives to win the spirits of those who are willing to develop, in a developing a brotherhood, a spiritual renewal and a deep religious interest inspired through the words of Our Lord.

The Inter-Varsity Christian Fellowship's activities are fraternal, inter-denominational organization which has been in existence at Montclair State for many years. It is also an internationally organized group which was established at Cambridge University in England in 1877. Local chapters began to spring up throughout England and in 1928, Inter-Varsity had spread to Canada. In 1940, several organized groups were formed in the United States. Inter-Varsity is now found on college campuses everywhere throughout the United States.

As stated in the Constitution, the purpose of Inter-Varsity is threefold: 1) the main purpose is "to study the Bible and gain the spiritual encouragement therein; 2) "To unite in Fellowship through the bond of unity which exists between us and Jesus Christ"; 3) To mutually encourage one another in living a life before God and our fellow students which will be to the glory and honor of our Lord Jesus Christ."
In order to accommodate the rapidly expanding student body of MSC, the Housing Policy Committee has announced a new policy for 1968-1969. This policy has been formulated by a committee consisting of representatives of the Admissions Office, the student body and the housing officials. The Housing Policy Committee, consisting of administrative and statistical study of both resident housing and off-campus housing.

The total resident population is now 164. This number is a result of the steady increase in the number of student requests for resident housing. Students request housing in residence halls because they realize the conveniences and social benefits that they provide. The Housing Committee has set certain guidelines to give all students with housing problems and other justifiable reasons, an equal chance to have resident positions. The Housing officials are taking special care of transferring students and analyzing individual needs for student admittance into the dormitories. The Committee has reassessed and reconstructed the criteria for acceptance into the residence halls.

Freshmen hold the highest percentage allotment by class in resident housing—45 percent. As a result, distance will be the primary criterion for freshman acceptance, with further consideration given to individual needs. Students from certain countries who are accepted into MSC under the Early Admissions Program will be guaranteed housing. The requirements for upperclass acceptance have undergone a great deal of rearranging. There are five main considerations: individual needs as judged by a housing official; an elected or appointed position of leadership, such as dormitory council, president assistant and desk assistant; special assignments which will interrupt residence; and lack of resident hall experience. Temporary room assignments have been available to students with commuting problems; commuting or distance problems; student-teaching assignments which will interrupt residence; and lack of resident hall experience. Temporary room assignments have been available to students with commuting problems; commuting or distance problems; student-teaching assignments which will interrupt residence; and lack of resident hall experience. Temporary room assignments have been available to students with commuting problems; commuting or distance problems; student-teaching assignments which will interrupt residence; and lack of resident hall experience.

The Housing Committee is anticipating a future increase in out-of-state and transfer students. As a result of an increase in applications from transfer students from South Jersey, transfer students are entitled to the same considerations as non-transfer students. As a general rule the Housing Policy still does not permit residence hall students to have automobiles. However, some exceptions can be made.

The off-campus population is now 866 and the Junior class holds the highest percentage of class allotment. Freshmen may have off-campus and the housing officials are trying to keep available suitable, convenient accommodations for students.

**MSC Symphony Orchestra Performs For Benefit**

The first and fourth movements of Mahler's SYMPHONY NO. 4 will highlight the program to be presented by the Montclair State College Symphony Orchestra May 5 at 8:15 P.M. in Memorial Auditorium in conjunction with Overseas Neighbors' Scholarship Benefit. Arthur Christmann will conduct.

Gustav Mahler was conductor and artistic director of the State Opera in Vienna for 10 years before coming to the United States late in life. For two years before his death in 1911, he conducted the New York Philharmonic and, by coincidence, Dr. Christmann's father, Henry, was clarinetist for the Philharmonic at that time and played under him.

Miss Alice Marie Correll, a senior music major from Hillsdale, will be soloist for the Mahler Symphony and several other Austrian compositions in a concert following dinner at 6:30 in Life Hall Dining Room at the college. A series of May Wine parties is being planned in the homes of Overseas Neighbors members preceding the dinner.

Tickets for the benefit may be obtained from Miss Ruth Hubbell, Life Hall Dining Room. Proceeds support a student from Austria, Graz. Among other selections will be: the ADAGIO STRING QUINTET by Bruckner, transcribed for string orchestra by Dr. Christmann; MORNING, NOON AND NIGHT IN VIENNA, overture by Von Suppe; and three Johann Strauss numbers: TALES FROM THE VIENNA WOODS, THUNDER AND LIGHTNING, POLKA, and PERPETUAL MOTION.

Benefit guests will attend the concert following dinner at 6:30 in Life Hall Dining Room at the college. A series of May Wine parties is being planned in the homes of Overseas Neighbors members preceding the dinner.

Tickets for the benefit may be obtained from Miss Ruth Hubbell, Life Hall Dining Room. Proceeds support a student exchange between Montclair State College and the University of Graz.

The concert is also open to students and others not attending the benefit.

**Faculty Notes**

The Cranford School system has extended an invitation to MSC's speech department, headed by Dr. L. Howard Fox, to conduct a workshop for the benefit of all Cranford personnel. The workshop will take place on April 30, from 1:30 to 4:00 P.M., at Orange Avenue Junior High School. The purpose of the workshop is to assist Cranford's administration in the development of a proper and effective speech program.

The program will open with a general session meeting the teacher of the School at West Orange High School, and Mr. William Kuhner, teacher of speech and drama at Chatham High School. Mr. Kuhner and Mr. Kuhner are MSC graduates, of the classes '53 and '54 respectively. Following a coffee hour, the eleven workshops will be held. MSC students and graduates as well as faculty will participate in the program.

Dr. Fox expresses his feelings and those of his colleagues in this way: "Cranford's invitation to instruct their personnel in effective speech programming is a compliment to our speech department. It is a delight for us to participate in the establishment of the first speech program to be instituted on the primary and secondary level. Perhaps this will start a procedure that other systems will follow."
Food, Fun and Entertainment: Carnival '68 Plans Finalized

By PAT HANRAHAN

With the weekend of May 10 and 11 fast approaching, the final plans for MSC's Carnival are falling into place. In an interview with Bob Martinez and Barbara Sternenberger, this year’s co-chairmen, both spoke enthusiastically of the 60 booths, and attractions that will comprise Carnival '68.

However, it is not a simple situation to get a majority of MSC's diversified organizations to work together on an activity as complicated as Carnival. With its theme of "Crossroads of America—Freeways to Greatness," the motifs of all the booths center upon different areas of our country. Each organization willing to participate in Carnival chooses the kind of booth it wishes to sponsor, with a specific theme for each.

How is the problem solved when a conflict occurs between two organizations wanting to do the same thing? Chairman Bob Martinez explained that when Carnival plans got under way immediately after semester break, tentative plans were submitted by campus groups to the committee. Tradition was kept in mind: all organizations were allowed to do the same thing this year as for Carnival '67 merely change the theme. If a conflict still existed, the parties concerned drew numbered slips of paper. The party with the lowest number got first choice.

Final plans: dimensions, descriptions of decorations, titles of the booths and electric power needed were submitted by all participating groups to Bob and Barbara on April 16. There are four categories: food, souvenirs, games and entertainment. Lambda Chi Delta will have a Bourbon Street Review, Phi Mu Alpha and Sigma Alpha Iota, professional groups on campus will jointly sponsor "Club Go" featuring nightclub entertainment.

Students will be able to buy everything from pizza (Sigma Delta Phi) to french fries (Delta Omicron F) to Mu Sigma's fortune cookies. Dalphac will sponsor a miniature golf course. "Play on Broadway," Omega Phi Delta's "Bowery Penny Pitch" and the class of '71's Civil War jello game (at the class officers) will round out the test of skill for MSC students.

The geographical aspects of the theme will be adhered to even in placement of the activities. Northern, southern, eastern and western booths will be situated on just those positions on the Carnival grounds. Construction is due to start on the Wednesday before the opening. The Carnival construction committee will build all the frames for each organization to a prescribed size. Then the electrical committee will run lines from the carpenter shop. Finally the different organizations will proceed to fill the booths with their wares.

Both Bob and Barbara looked busy as they sorted through forms and file cards, made notes and stopped occasionally to speak with various members of the Carnival committees. When asked if anything exasperating or exciting happened out of the ordinary during Carnival preparation, Barbara quickly laughed and related the sad tale of how at the last minute the location for the big weekend was changed. Everything was set for the parking lot behind Finley Hall—layouts were drawn up and preparations were being finalized.

Then came the news. It was impossible for electrical lines to be run there. In a few days all the plans had to be changed. Bob commented that although things looked bleak for a time, the new location, the faculty parking lot, has proved to be quite suitable with plenty of space.

Carnival '68 is coming to Montclair State on May 10 from 6 P.M. to 12 A.M. and will continue on May 11 at 12 noon to midnight. Bob Martinez and Barbara Sternenberger are looking forward to the completion of all their plans and the ending of all their worries. When asked if they are anxious for it all to be over, Barbara commented, "Well, it's a lot of headaches but worth every one of them."

O.T.I.S. Keeps Flavor of Original Production

By GREG DOUCETTE

If the biology department gave awards for agricultural feats, this semester's prize for corn raising would probably go to Dr. Howard Fox of the speech department. The rare honor would be his as a result of his brilliant direction of OF THEE I SING. Players' first musical is a gay carnival of extravagant production numbers and a light, corny satire. Since the first rehearsal, Fox has insisted that no one do anything to update the show. In a recent interview, the director gave a number of reasons why he considers this so important. He maintains that today's musicals are more commentary than O.T.I.S. and he would like to keep this show as an example of musicals of the past. More important, however, is the nature of the humor. The jokes are so corny that, if updated, they would lose much of their comic appeal.

One of the aspects of O.T.I.S. that has aroused a great deal of curiosity on campus is the double casting of the parts of Miss Bensen and Mary Turner. Fox explained that so many girls with such a great deal of talent auditioned for the play, that he wanted to give as many as possible the opportunity to perform. He summed it up by saying "more people, more experience."

If anyone on campus wants to see Players do a musical and misses O.T.I.S., he’ll have a long wait. Fox cautioned that Players is an educational instrument and, although a musical has a definite place in its program, it strives to present a variety of different kinds of shows. Therefore, anyone who would like to see a show of this genre shouldn’t miss O.T.I.S.

A Medical Answer For MUSCULAR Low Back Pain

Promptly Relieves Pain
So Stiff Muscles Loosen Up and You’re Back Into Action

Doctors who specialize in back troubles report most backaches are due to weak, tense muscles which can go into painful spasms as you suddenly bend, stretch or twist. To relieve such backache doctors recommend the pain-relief compound in Anacin® Analgesic Tablets. And Anacin gives you more of this medication than any other leading tablet.

Anacin is a special fortified formula. It promptly relieves pain, helps reduce swollen tissues, and so relieves pressure on sensitive back nerves. Then notice how stiff muscles loosen up and you move around with greater ease.

Only Anacin has this special fortified formula. It's not found in any other product. See if Anacin's exclusive formula doesn't work better for you.
Textbooks Not Needed, Some Educators Claim

by BARBARA SCHUBEL

Did you know that as a high school student you probably carried around approximately 12 pounds of books during your school day? This remarkable figure doesn't include the weight of gym suits, sneakers, towels, lunches, pocketbooks, etc.

A new solution for this weary weight of book carrying, as advocated by John W. Simmons, principal of Benjamin Franklin Jr. High School, New York, would be to make all textbooks "loose-leaf." Segments could then be removed when needed. These "loose-leaf" textbooks would be the same size and have uniformly punched holes. The pages would be coated with plastic for long life.

Besides the change in textbook weight from pounds to ounces, only the outdated pages of a book would be replaced instead of discarding an entire series of books. The initial cost of "loose-leaf" textbooks would be considerably higher than the traditional school book. However, the continual drain of money for books. The initial cost of only the outdated pages of a book with plastic for long life.

This poor MSC co-ed is learning the burdensome art of balancing the numerous hard cover textbooks required for classroom use. Blank pages should be included in the loose leaf for a student's own lecture notes, giving him a comparative point of view. Chairman of the social science department Dr. Philip Cohen feels that the textbook problem is one of a "technical rather than educational problem" and more applicable to a high school situation.

In the future, a slim two inch "loose-leaf" notebook may accommodate an entire "semester's worth" of knowledge. Who knows?—eventually students might even open their texts.

ALPHA SIGMA MU

The men of Alpha Sigma Mu, in cooperation with the East Orange Veterans Hospital, will sponsor the second hospital benefit show for the patients of the East Orange Veterans Hospital on May 13.

The first benefit show, held at Christmas time, was with great success and these shows will now become an annual event. The show should prove even more entertaining this time. The master of ceremonies for the show will be John Magean of MSC Performers will include: The Sinfonia Stage Band under the direction of Kevin Panipel; the Carlisle Trio; singers Betsy Glenn, Pat La Carruba and Robert Demico.

The proceeds from the show will be provided from "The Mug of the Year" contest, which was won by Dr. Morris McGee in his everlast department, and through booster sales that are in progress now.

Congratulations also to brother Tim Smith on his bonus signing with the Denver Broncos. And congratulations to the brothers of the TOP Intramural basketball team for their league championship victory.

TAU SIGMA ETA

Sigma Eta Sigma, the Science Honor Society, will hold an open meeting on Monday, April 29, at 7:30 in room 207 of Finley Hall. The seniors of the science department, who have recently returned from student teaching will be featured in a spontaneous discussion of their impressions and experiences of teaching. Anyone interested is invited.

Thirty new members have been accepted into Sigma Eta Sigma. To be eligible for membership, a student must have completed at least eight credits of science courses with better than a 3.0 average and a cumulative average of better than 2.5. An induction ceremony was held on April 1. Another initiation will be held on April 29 to complete the induction of new members.

The new members are: Don Bowers to Carol Orloff. Thanks to the men of Beta for our Tenth Anniversary Carnival, our "Psychedeli"... new uniforms... K E P windbreakers... Pledge Dinner—May 20... Senior Dinner—May 29... fund-raising project with Beta.

KAPPA SIGMA RHO

The women of Kappa Sigma Rho hope that all our guests enjoyed our spring coffee hour. Our pledge mistress, Joyce Grybowski, and all the sisters are looking forward to a great pledge class.

Thanks to the men of Beta for the great mixer on March 11, and to Glee club director, Joe Law, for the mixer on March 22.

Some important events coming up: Pledging—May 6... Carnival and our "Psychedeli"... new uniforms... K E P windbreakers... Pledge Dinner—May 20... Senior Dinner—May 29... fund-raising project with Beta.

IOTA GAMMA XI

The sun and fun of spending spring vacation in Daytona Beach, Florida is over, but there are many things that the women of Iota Gamma Xi are looking forward to. There's Carnival, our second annual earring sale, a car wash and our first alumni banquet.

We are anticipating a great spring pledge class and would like to extend best wishes to our pledges.

SENIORS

Senior Class Meeting May 2—Noon—Memorial Auditorium

IMPORTANT

Dr. Richardson will address the class and important graduation information will be distributed.
The Montclair State Indians refused to take baseball coach Bill Dioguardi’s “rebuilding season” claims to heart as they came out early with a 7-1 record and possible shot at the New Jersey State College Conference Championship.

The Indians’ young club got off to a fine start in their initial contest with Fairleigh Dickinson. Jack Grzymko, Tom McCormick, and John Grzymko combined for a nifty five hit shutout as winning pitcher Pete Jerauld (2-1) and it gives the Profs a one game lead in the College Conference. Glassboro took a 2-0 lead in the fourth when, after two singles, the Indians failed to convert two potential inning ending double plays.

The third Prof run came on a wild pitch by Pete Jerauld with the bags filled in the sixth inning. The ball hit in front of the plate and bounced off the top of the backstop and caromed down the first base line just far enough for the runner to tally.

Frank Rossi brought the Indians into the game in the home half of the inning by slugging a low fastball well over the left centerfield fence with Jim Downing aboard. The blast was Rossi’s second of the season.

The Indians rebounded from the Glassboro loss in fine fashion by shutting out Pace College 3-0 behind the four hit pitching of Ken Inglis and John Grzymko. Montclair’s runs were driven in by Ken Meek in the first, Ken Frank in the sixth, and Rich San Fillipo in the eighth.

The biggest game of the season for coach Bill Dioguardi’s Indians comes up tomorrow, April 27, against defending New Jersey State College Conference Champions, Glassboro State. The Prof’s owners of an early season 3-2 squeeker over the Indians at Montclair will be seeking a commanding league lead with a victory.

In order to enable fans to attend the contest and give the Indians their morale booster to help carry them over the top, free bus transportation to the game has been arranged. All interested parties are urged to sign the bus list which will be posted in Mr. Lew’s office. Dorm students attending the trip will be able to obtain a bag lunch from the cafeteria. Buses will leave Life Hall on Sat., April 27 at 10:45 A.M. and return by 5:00 P.M. Any and all fans able to attend are to do so. Give your Indians the support they have earned as contending champs.
Committee Forms Regulations On Men's Open Dormitories

Webster Dorm President Michael Hogan has announced that new dorm regulations will take effect on May 5. The new regulations are as follows:

1. Open visitation an alternating Sunday afternoon: Webster Hall will have visitation the first and third Sundays of each month and Stone Hall will have visitation the second and fourth Sundays of each month. In the event of a fifth Sunday within the same month, there will be no visitation on that day.

2. Hours for visitation in both residence halls will be from 1:30 P.M. to 5:00 P.M.

3. Those requesting visitation privileges must submit his name and room number to the desk on or before 12:00 noon on the day of open house. If the room does not meet the satisfaction of the inspection committee, open house privileges will be suspended to that room.

4. Dorm Council assumes full responsibility for this policy and will have at least one member present during visitation periods. An extra desk will be on duty one hour earlier to police the lobby and recreation room. During open house the council representative and the extra desk will be continuously checking through the halls to see that this policy is being followed.

5. All dorm residents and guests must be properly dressed during visitation hours. The dress code will be the same as it is for appearance in the lobby. (Resident Handbook, p. 6, rule 13.)

6. If a female guest is in your room, your door must be wide open as far as it will go. In clearer terms, 90 angle with the door.

7. All female guests must be registered at the desk upon arrival. This includes the host's name and room number. All guests, male and female, must remain in the registered host's room at all times during the visitation period. E.g. if sign person begins in room A, they are not permitted to visit or enter into any other room. This includes any adjoining rooms. When leaving the room, sign persons are to proceed directly to desk area. NO LOITERING IN THE HALL.

8. All female guests must be registered at the desk upon departure. This must be done by 5:00 P.M. A warning buzzer will be sounded 30-45 P.M. and again at 4:55 P.M.

9. Any ungentlemanship and/or unladylike conduct will not be tolerated in the dorm under penalty of severe college disciplinary action. Also, all residents assume full responsibility for their actions and the actions of their guests. Any deviations from the above regulations subject the resident and/or guest to disciplinary action by the Dorm Council, Dorm Director, Mr. Stover, and the College Administration, as the infraction dictates.

It is the hope of the men that this policy would be initiated during the remaining weeks of the semester on a purely experimental basis. This would enable the respective dorm councils to make any adjustments in this policy to correct or prevent any problems that might arise in the future.

"It is the consensus that the Open Houses previously sponsored were on a too formal basis," stated Michael Hogan. The men residents wanted a more relaxed atmosphere. "We are encouraging participation of everyone involved to see that this program works out. The reputation of students at Montclair is at stake."

Authorization to deliver direct mail to students' dormitory addresses.

TOP Captures Hoop Crown

Tau Omega Phi, after battling on even terms for the first half, parlayed some luck with good board control, shooting and fast breaking into a 52-36 win over the Montclair Lakers, capturing the Intramural Basketball Championship.

TOP's win must be credited to the entire team as no less than nine men broke into the scoring column. However, Frank Rosse, who lead all scorers with 18 points, was an outstanding team leader. Charley Sylester's 12 tallies headed the losing Lakers' scoring.

Talk of Negro Role
In American History Topic For New Club

With the increasing tension among the races in the world today, Montclair State College has taken a positive step toward easing the disorder and bringing about better human relations. Coming soon will be a history club which will have for its purpose the discussion of the role of the black man in American history. This club will be open to all interested students, both black and white. According to Mr. David Witcher, program director of Talent Research for Youth (T.R.Y.) and a man especially active in establishing better communication between the races on campus, “There is a necessity for black unity on our campus. Before the blacks had no sense of identity. It is hoped that this club will be functional in uniting blacks and giving them an important role in campus activities.”

Big. This year even bigger. Some Chevrolet Tri-Levels are longer. Some wider. Some with more cargo room. Size up Impala. Nothing in its field comes closer to giving you what you wouldn't dare try laying a 4 x 8-foot mirror flat in the main cargo level. (Especially if you're superstitious.)

In Impala, no problem. The hidden storage compartment on the lower level also takes more of your gear than any of them. The roof rack you order should take care of the rest. For your comfort, there's extra hip and shoulder room.

We make our Tri-Levels lots more attractive in other ways, too. With such exclusives in Chevrolet's field as an ignition warning system. You'll get a buzz out of it if you ever leave your key in the switch. There are rear-window defoggers that clean themselves with every shower you go through. Inner fenders that protect the outer ones from rust. And hidden windshield wipers on many models. Even with all these advantages, Impala and Chevelle Concours are the lowest maintenance cars in their fields. And if that's what you like to hear, hear this. Unprecedented big savings on power disc brakes is just one surprise in the '68 Savings Explo. See the details below.

Chevrolet Tri-Levels
TRY ONE FOR SIZE AT YOUR DEALERS.

IMPALA STATION WAGON

'68 Savings Explo

It's like no other savings event your Chevrolet dealer's ever held. To you it means extra buying power— on explosion of savings on Chevrolets and Chevelles. Take a look at these bonus savings plans. Then see your Chevrolet dealer.

Bonus Savings Plans.
1. Any Chevrolet or Chevelle with 200-hp Turbo-Fire V8.
2. Any Chevrolet or Chevelle with 250-hp Turbo-Fire V8, Powerglove and whitewalls.
3. Any regular Chevrolet or Chevelle with 250-hp Turbo-Fire V8, Turbo Hydra-Matic and whitewalls.
4. Any regular Chevrolet or Chevelle with 250-hp Turbo-Fire V8, Turbo Hydra-Matic and whitewalls.
5. Buy any Chevrolet or Chevelle V8 2-door or 4-door hardtop model— save on vinyl top, electric clock, wheel covers and appearance guard items.

Therefore our deepest condolences to her family and friends.

Moratorium

(Continued from Page 1)

Recently, Columbia University held an all day moratorium for the purposes as Montclair State's. Among the various activities slated for their day of moratorium were speeches by university students and prominent political and social personalities.

Speakers

Here at Montclair, a similar agenda has been scheduled. Among the various speakers in the afternoon will be Organizer Thomas E. Davis, Catholic chaplain; Rev. John Harms Protestant chaplain; Rabbi Schneir, Jewish chaplain and Dale Minor, chief of WBAI radio news bureau in New York City.

Mr. Minor has recently returned from a trip to Vietnam, including a stay at Khe Sanh.

Other noted speakers from outside the community will possibly participate. The "cut" polls the sale in silence for the moratorium hours.

New York Rally

Tomorrow, a massive rally and march are being sponsored by the Fifth Avenue Peace Committee and the Student Mobilization Committee in New York City. Among the many participants in this rally of an anticipated million is the Student Peace Union in Montclair State which will march in a contingent with the other New Jersey state colleges. Many students and teachers from this college are expected to attend. At 10:30 A.M. the march is scheduled to begin at uptown 110 Street and move in two parade down Central Park West and Fifth Avenue. The terminating point is the Sheep Meadow in Central Park where the paraders will be greeted by Mayor John V. Lindsay and other noted city officials.

Board

(Continued from Page 1)

department. Among the reasons he listed were: size, non-typical student body, limited course selections, lack of courses for non-college bound students, and part-time status of professors, all of whom are drawn from the college faculty. With a maximum capacity of 180 students in 6 grades, College High may well be the smallest public secondary school in the state, one of the speakers observed.

Dr. Irwin H. Gawley, chairman of the science department and the college's representative to the Association of New Jersey State College Faculties, made the plea for salary increases. He presented figures showing that the salaries of teachers in New Jersey State College were far behind those of people with comparable or even less training in industry and other fields in the state.

Miss Pat Pepin, a junior from Toms River, was spokesman for C.A.U.S.E. She outlined the work already done by that organization towards alerting the public, and particularly members of the legislature, towards the needs of the state colleges. Dr. Gawley expressed the interest of the board in the group's activities.

Intramural Bowlers Reigned by Dukes

The Dukes, representing the Independent Intramural Bowling Championships by Crushing the Fraternity League champ, Gamma Delta Chi 253-460 and 570-461 to win the best of three series.

Dan Veglia with games of 204 and 215 paced the winning Dukes while teammates Steve Stoyko had games of 157 and 205 and Bob Rolak 164 and 159. Gamma in losing still managed to win silver medals for second place in the tournament which started with 17 teams.

The Offbeats captured the series for third place by forfeit over Lambda Chi Delta.
