Montclair's 60th Graduation Set For June 5

Weather is the only factor remaining in question as the commencement plans for MSC's graduating class of 1968 are finalized.

The Baccalaureate Service and Senior Convocation will take place Sunday evening, June 2, 1968, at 7 p.m. in the college Amphitheater. The procession—"Trumpet Voluntary" by Henry Purcell—will be performed by the College Symphony Orchestra under Arthur H. Christmann. Following this is "A Time of Reflection," the College Choir under Marden Bate will sing "O Brother Man," a choral selection by Geoffrey Shaw.

The baccalaureate address will be presented by the Rev. Thomas E. Davis of the Newman Community. The program will then be continued in the classroom by the Rev. John Paterno, and Laurence Ridpath from Montclair State; and four Montclair State students was delivered to the Office of the Director of Student Activities.

The commencement program is to be held June 5, 1968, at 6 p.m. in Sprague field. Over 1,000 (Continued on Page 11)

Normal and Valley Light Approved

The Division of Motor Vehicles in Trenton, N. J. was the scene of a conference with State officials and four Montclair State students concerning the installation of a traffic signal at the corner of Valley Road and Normal Ave. Present at the meeting were: Arthur Erickson, Stan Gurski, John Paterno, and Laurence Ridpath from Montclair State; and Mr. George Horner, principal traffic engineer and Mr. Vincent Laura, principal traffic investigator were representing the state.

The results of the meeting, which lasted for approximately two hours were:

1. The State of New Jersey (Division f Motor Vehicles) concedes the necessity of a traffic signal at the intersection, but continues to demand that the County of Essex put in the additional five feet of widening that state requires.

2. The Division of Motor Vehicles is willing to give the County of Essex a temporary two year approval for construction of the signal. This means that the construction must be complete within the required widening or else show the state that it is not needed within the two year period.

3. At this point, the state is awaiting a reply from the county.

At the conclusion of the meeting, a petition with the signatures of 2,198 Montclair State students was delivered to the county to get more details on the project.

MONTCLAIR STATE COLLEGE, UPPER MONTCLAIR, N.J.

May 27, 1968

State College Tuition Rises 133 Per Cent

The news is out: tuition for full-time undergraduate students at Montclair State will be $350 starting with the fall semester. This amount represents an increase of more than twice the current tuition of $130 at the six New Jersey State colleges.

The increase, the first since 1957, will affect 20,000 full-time students. The new fees become effective next fall.

Tuition for part-time students also was raised: $25 per semester credit hour to $25 for graduate students and $20 for undergraduates. This will affect thousands of teachers who seek extra credits to advance on salary scales.

The Board of Higher Education has changed the tuition for full-time graduate students from $512 a year for a maximum course load to flat $440, whether or not a maximum load is carried.

The Board pledged that at least $524,000 of the $4.8 million in revenue from tuition will be added to scholarship aid funds. Another $2.5 million will be used to support student services.

Washington Grants

T.R.Y. Needed Funds

Montclair State College has received a $60,000 grant from the Office of Economic Opportunity for the continuation for another year of Project TRY (Talent Research for Youth), a program for identifying and assisting disadvantaged high school students with college potential.

Announcement of the grant came from Congressman Peter W. Rodino Jr. (D. 10th Dist. N.J.). According to Dr. George G. King, director of admissions at Montclair State, renewal of the project is the direct result of the success of the program, which during its first year of operation has found places for 125 students on college campuses in the State.

Thirty of these will be admitted to Montclair State in the fall under a special program tailored to their needs.

Instituted at the college last September, TRY is currently under the direction of David Witcher, an assistant director of admissions, who has volunteered student help in implementing the program. TRY teams visited Jersey City high schools last fall and this spring are working in Newark, acquainting students with opportunities open to them and interviewing those who are interested. A film, "What's Happening," is an especially for Montclair TRY, is used in recruitment.

Black Identity

Is The Goal Of Montclair B.O.S.S.

The Black Organization for Success in Society (B.O.S.S.) was recently awarded a class II charter by the Student Government Association. Vernon Nelson has been named president of the group, and W. Gardner is the faculty advisor.

Facing an atmosphere of questions and criticism, B.O.S.S. clearly states that its purpose is a positive one.

It is an attempt to unify the student body, and to provide a social and recreational outlet for students of color.
Rain Fails to Stop Carnival Activities

Players ’68 -’69 Season Offers Shaw, Goldsmith

MSC can expect an exciting year as far as theatrical productions are concerned. The 1968-69 schedule for Players was announced at a press conference by Dr. Robert Lowy, at their annual banquet on May 16.

The season will begin with a Restoration comedy, Oliver Goldsmith’s SHE STOOPS TO CONQUER, directed by Dr. Clyde MacElroy. A workshop production will be staged, unless some students wish to perform and improve before social clubs and high schools. This is a necessary extension of the arts at MSC into the surrounding community.

Player’s has announced that over 13,000 people attended their production, including tours, during the 1967-68 season.

"Tuition" (Continued from Page 1)

On Friday night, Bob and I were so happy, we were ecstatic," explained Barbara Siemernberger as she described the opening night reaction of Bob Martinez and herself, Carnival co-chairmen.

Carnival ’68 opened on Friday night, May 10 with shoulder crowds to the delight of everyone concerned. Approximately $2,700 was taken in receipts on Friday alone. But true to the tradition of MSC’s Carnivals, it HAD to rain sometime during the festivities, so at about 1:15 P.M. Saturday, the huge success it was. By 6 P.M. $1300 was taken in on Saturday.

"I think the drizzle began. This continued until about 4:00 P.M. when the rain then began in earnest. At the annual Awards assembly on May 23, the Carnival co-chairmen announced the following organizations to have won prizes in the competition souvenirs, Iota Gamma Xi; game, Alpha Chi Beta; food, Tau Sigma Delta; entertainment, Pa Chi; first place for originity, Tau Sigma Delta; second place for originity, Omega Chi and Delta Omicron Pi; best money-maker, Sigma Delta Phi.

ASK THE ASSOCIATION ABOUT MIKE

They know their microphones are their link with their audience. They want you to keep their voices and the listener’s interest with Miniature Microphones. Ask the better groups.

Shure Brothers, Inc., 222 Harvey Ave., Evanston, Ill. 60204
It has been said that Newark is a city of paradoxes with wealth and poverty to its credit. It's a combination of the old and new, and in the labyrinth it appears that the rich have the new while the poor have the old. Old shoddy buildings that were no-doubt being built when Abe Lincoln was president seem to dominate Newark's central ward. And people still live in them.

A few apartment projects built within the past decade seem to have lost their glory: they blend into the scene quite well with its filth, decadence, and glassless windows.

It was with good intentions that the municipal government started a cooperative housing plan aiming at replacing disgusting-looking houses that were nearly falling apart. Providing cheap, low-cost apartments for the poor was the aim of the city planners for this block near High Street. But as one tenant asserts: "Even though the housing looks good because of its newness, these coops will eventually look like all the others." He cites the fact that the company that operates the housing is extremely slow in making repairs; he points to numerous cracks on the wall and notes a once-white door covered with kids' black fingerprints.

Yet the demands for new housing are recurrent. With nearly every individual we interviewed "we want new houses" seemed to be the primary demand. A woman traffic guard pointed to a vacant lot: "You see that lot," she said, "it used to be St. Barnabas Hospital. They moved to Livingston a while back and that would sure be a good place to build some apartment houses."

She went on to add that in her years of serving as a police guard in front of this school, she has never had any trouble with the kids, except for a few fist fights now and then."

Lack Of Playgrounds

But the lack of recreational facilities appear to generate a lot of controversy with the teenagers of the central ward. "We don't have anywheres (sic) to play basketball," sighs 15-year-old Rodney Jenkins. His basketball team of six young high-schoolers made use of a mesh half-filled garbage can placed near a neon sign - "NO BALL PLAYING HERE." "We tried getting a playground built near us, but we won't get none (sic) anyway," said his friend Calvin Woolidge. He pointed to a playground about three blocks away and said, "that's the only one around here."

Not too far away we saw, however, one small playground ensnared in a wire fence. We saw no kids in the playground, only a frame to hold swings, a sliding board, and other juvenile playthings. We asked a nearby janitor why the swings had no seats or chains and why the playground was "fenced in." He said the company "is slow in putting them up." It's the middle of May.

Meanwhile construction is underway at Howard and Broom Streets for a block-long recreation ground called Addonizio Centre. It's been in the works for more than two years.

"Newark's skyline with its prosperous tall buildings are disgraced by 19th-century shacks..."

"...apartment projects built within the last decade... blend into the scene quite well with its filth, decadence, and glassless windows."

"I’ve seen a lot in my time," said fish market owner Joe Sabella. "I know. I was brought up here."

"I worked hard $10 a week in my day," said Jasper Chatman. "Too many people want too much now."

Gordon's Dry Liquor: The symbol of hope.

"Old shoddy buildings that were being built when Lincoln was president dominate the central ward. And people still live in them."

To Catch a Thief

A quick glance at the story and picture on page 13 may lead some to judge hastily that the MONTCLARION staff has conducted a criminal deed. "Stealing" books from Sprague Library, which is already fairly well depleted, is not recommended for every student at MSC. However, the MONTCLARION, realizing its duty to the public to crusade for needed reforms, believes that, at least in this case, the end justifies the means. We have "swiped" without any difficulty about $100 worth of books. If we were able to perform this feat, why can't others with not as noble motives?

The MONTCLARION intends to return these books as soon as assurance is given us that a guard will be hired. We know such an expenditure is on the budget, but will it become a reality - and when? If we did not intend to return these books, we would not have made a public announcement. Besides, a book which has been taken by a MOSCOW JOURNAL associate could be of little interest or use to the editorial staff.

We urge the administration of Sprague Library to insure the contents of our library by making sure a guard is hired for next semester to check all briefcases and belongings students are carrying out of the library. We are not accusing ALL students, but it only takes about ten students to strip the Library to insure the contents of our library by making sure a guard is hired for next semester to check all briefcases and belongings students are carrying out of the library. We are not accusing ALL students, but it only takes about ten students to strip Sprague Library of its most precious possessions.

We hope that the administration would consider the establishment of the above mentioned departments. The summer is a long time.

Rambles

Whatever happened to the students who felt so upset about the collapse of the Camp Wakaplane program. We urge some group on campus, perhaps MAC or Outdoor Association (MSOA), to solicit faculty and student opinions on the continuance and/or the termination of the program. The MONTCLARION is willing to publish any articles of interest on this subject.

Will Montclair be next? After the recent disturbances at Columbia, there has been much speculation and jesting about the possibility of a similar outburst at MSC. We do not believe so, if all problems continue to be handled effectively by faculty and students and lines of communication remain open at all times between faculty, administration and students.

Congratulations to all newly-elected SGA and class officers who have demonstrated their willingness to aid in the expansion of MSC. These people must be complimented for their "courage" and interest in helping their college and/or class.

The Teachers Assistants program is once again going into effect for juniors and already the complaints are mounting. The MONTCLARION sympathizes with those students who are forced to travel far and wide in order to put in their 24 hours of work at a high school, but we also realize the very obvious benefits of the program to future teachers. Perhaps more of a choice should be given to students whereby only those definitely interested in teaching would volunteer for such an assignment.

Having experienced one semester of drudgery, jubilation, disappointment, and triumph, the MONTCLARION is looking forward to next semester with the possibility of publishing weekly. Thank goodness for the relaxation of summer. So long for now. Have fun.

Letters To The Editor

To the Editor:

I have been trying to borrow a book from the library for the past three weeks, but it seems that no books have been returned. I am finding it very difficult to read books for my class assignments, and I am becoming increasingly frustrated.

Sincerely,

[Name]

To the Editor:

I recently attended a lecture on environmental science and was disturbed by the lack of engagement from the audience. It seems that many people are not aware of the urgent need for action on climate change.

Sincerely,

[Name]
DIVISION STREET: AMERICA by Studs Terkel heads the list of new paperbacks released within the past month. Mr. Terkel, a highly qualified writer/journalist, introduces his readers to 70 uniquely diverse characters including a 16-year-old poe-dope pusher, a street hoodlum with an unusual philosophy of life, and "the world's greatest entertainer today is Janis Joplin of Big Brother & the Holding Company." Among other books, the author has written six other books including THE VIRTUE OF SELFISHNESS.

The days of the old HERALD-TRIBUNE are recalled by that extraordinary New York journalist Jimmy Breslin in THE WORLD OF JIMMY BRESLIN, published recently by Viking Press. Before he went to the Herald, Breslin was the no-doubt one of the most colorful and exciting columnists in the metropolitan newspaper scene. Some fond memories are recalled in this fine book.

Review by JOSEPH A. KRENESKY

"Black Comedy' Illumines Millburn

Imagine the house lights dimming slowly, the audience settling down to a silent wait (followed by blackness). Voices are heard, the play begins with the audience in the dark (pun intended). After a few minutes it becomes apparent that the scene will continue in the dark. Finally, after nearly five minutes of listening to the darkness, a "fire burns out in the apartment" and the apartment blackens into total illumination to the audience. This imaginative switch proves to make Peter Shaffer's BLACK COMEDY a truly interesting evening. The entire play takes place in the apartment of its creator, the famous director. Shaffer is seemingly about to make his "first" dramatic success.

Bill Graham, proprietor of the Fillmore East, presented the play prior to its Broadway try-out this summer. The cast, led by Orson Bean, is well worth a visit. Although the technical aspects, up to the performance of the cast, is mistaken for the art critic. The wider the audience laugh for over 50 years, the more unexpected is the play. Even the coffee is good and the players do not seem to have any trouble. The cast, led by Orson Bean, is well worth a visit. The cast, led by Orson Bean, is well worth a visit.

KAPPA SIGMA RHO

The women of Kappa Sigma Rho are proud to welcome the following girls into our sisterhood: Susan Bay, Kathy Cammarata, Kathy Dreyf, Kathy Ellison, Joan Frankel, Kathy Kyrosides, Carla Loomis, Judi Manzi, Karen Peluso, Carol Powell, Sue Villere, Joan Vogler and Toni Zeeson.

PSI CHI

Congratulations to Dale Rodger who has recently been honored with a membership to the New York Athletic Club. Dale has also been asked to train with the U.S. Olympic Team for the Modern Pentathlon this summer.

We extend a thank-you to all the brothers who worked on Carnival this year and helped to make it a success. We congratulate Carl Dale, co-chairman Barbara Sternberger and Bob Martinez.

Congratulations to Bill Ryan.

On May 14 we held our annual Dalphac-Agora picnic and Restaurant in Totowa. It is with mixed emotions that we bid the seniors farewell, while, at the same time, we are proud that they have achieved this status. Best of luck in the coming year.

A very special thank you, once again, to all those who came to our rescue during Carnival. Be sure to read "an open letter" under Letters to the Editor in another section of this paper. It's a small, yet sincere token of our appreciation.

One of our last sorority activities for the current school year will take place tomorrow when we honor our graduating sisters at the annual Senior Farewell. The very best of luck to these sisters as they leave Montclair. You'll be greatly missed.

A safe and happy summer to all. Hope to see you again in September.

Our warmest wishes for happiness.

Engaged
Grace Carrico to Ken Pampel, '69 Phi Mu Alpha, Sinfonia.

KAPPA RHO UPSILON

On May 14 we held our traditional Senior Farewell. Appropriate gifts were given to each senior sister along with predictions for what they will be doing twenty years from now. Kathy Ackerman and Chris Paul were the hostesses for the evening. Phi Rho KRU will certainly miss all of the seniors next year.

Our new sisters were inducted at a banquet held at the Burns Country Inn. The new sisters are Jean Acket, Shelia Boylan, Linda Cannizzaro, Mary Lou Cioli, Carole Di Camillo, Ellen Fitpatrick, Phyllis Palombi, Portugal Pettis, Gay Peterman, Jo Rizzo, Trudy Sagona, Zilah Smith, and Joanne Stepanic.

Elaine Perosa, '69, to Barry Worman, '69, Phi Sigma Epsilon.

ALPHA SIGMA MU

The brothers of Alpha Sigma Mu held a Veteran's party at the Veterans Hospital in East Orange on May 15. The brothers are grateful to the following participating entertainers: Charlie in Totowa. It is with mixed emotions that we bid the seniors farewell, while, at the same time, we are proud that they have achieved this status. Best of luck in the coming year.

A very special thank you, once again, to all those who came to our rescue during Carnival. Be sure to read "an open letter" under Letters to the Editor in another section of this paper. It's a small, yet sincere token of our appreciation.

Our pledge mistress, Terri Landini, did a fine job hazing our new pledges over spring pledge class of 1968 as the mother-daughter installation banquet, held at the Friar Tuck. Lambda's new sisters are: Geri DeMayo, Jeannie Brown, Laurie Held, Jane Fiedelman, Edith Guarda, Nancy Cardoza, Dorine Taylor, Doreen Sandberg, Angela Ruffinello, Anne Cooper, Barbara Griffiths and Jane Farnam. The class had a busy week of pledging with a pledge party with Alpha Phi Delta of NCE, a pledge dinner for the sisters and a fund raising project.

Robin Applegate, Peggy Helms and Carol Parisi, carnival chairman, worked hard making Lambda's booth a success.

DELTA THETA PSI

Heartfelt thanks to Barbara Katz and Dorik Merkle on their membership to the Inter-Sorority Council. Best wishes to all our new sisters. Congratulations also to Mary Jane De Russo, new president of Sigma Alpha Iota, and Mary Anne Kudrewitz, newly elected president of the Inter-Sorority Council. Best of luck in the coming year.

On Thursday, May 9, the senior banquet, held at the Friar Tuck. The following sisters were the hostesses for the evening.

Pat Leary, Gail McMullen, Debbie Proceedings. Patti Pok, Nancy Schuring, Laurie Snyder, Dwn Sova, Jeannine Spinnelli, Michelle Testa, Karen Walsh, and Janet Wedlick.

Our Civic carnivals, Barbara Mack and Irene Matzger, did a wonderful job in presenting Dalphac's wonderful booth "Play on Broadway."

With a tear in our eye, we said goodbye to our distinguished seniors on May 16 at our annual Senior banquet, which was held at the Bethwood Restaurant in Totowa.

We are looking forward to our annual Dalphac-Agora picnic and our shore weekend to be held on June 7 at Belmar.

The women of Dalphac wish you a healthy and prosperous summer.

DELTA SIGMA CHI

Congratulations and welcome once again to all our new sisters. Congratulations also to Mary Jane De Russo, new president of Sigma Alpha Iota, and Mary Anne Kudrewitz, newly elected president of the Inter-Sorority Council. Best wishes for a successful term of office.

Ex-President Recalls

Original College Days

BY HARRY A. SPRAGUE
President Emeritus
Of Montclair State College

It should be recognized that there have been highly significant developments in the selection and preparation of teachers since the beginning of this century. Eighth grade and then high school graduates were often engaged as teachers. The two-year Normal Schools were becoming the chief source of public school teachers.

Dr. Charles Chapin was the first principal of Montclair Normal School, which was established in 1908, and thus we have the 60th anniversary of Montclair. Dr. Chapin developed and maintained a notably successful program of Normal School education until his death in March 1924.

As a person who had been devoted to the establishment of teaching as a highly-regarded profession, I resigned the Superintendency of City Schools in Summit, New Jersey in order to undertake this assignment.

In 1927, the State Board of Education authorized the establishment of a four-year degree-granting college at Montclair to be devoted to the preparation of junior and senior high school teachers. This authorization might be regarded as a 40th anniversary date in the history of Montclair.

The next anniversary date of special significance would be from 1937 and 1938 when the Montclair State College was offered accreditation as a Liberal Arts College by the Middle States Association of Colleges and Universities. A year later, as a matter of our choice, it became the first State Teachers College to be accredited by the Association. This recognition was based upon the quality and achievements of its students, faculty, and records of outstanding achievements in nation-wide testing programs.

The periods of Depression, wars and reconstruction were exceptionally difficult from the standpoint of availability of funds for buildings, instructional facilities, salaries and promotional efforts. During the late '40s, the State's attention was attracted to the needs and support of Montclair. Those connected with the services and developments of the college rendered exceedingly loyal and highly professional cooperation. It was an extremely challenging and stimulating period marked by significant professional and scholastic developments. These attracted many candidates for admission. Many were necessarily rejected in spite of teacher shortages. It has been noted that professional and scholastic prestige are always attractive features. A most sincere gratitude for complete freedom from lawless upheavals or take-over attempts is appropriately expressed.

The man who was of great assistance in the late '40s, when special efforts were made to gain a State appropriation of at least $15 million, was my Dean, Dr. Ernest De Alton Partridge, a most valuable contributor in the areas of development and fund-raising. Bless his soul! Upon my retirement in 1951, it was fortunate for the college to have Dr. Partridge as my successor.

The money market loosened up somewhat and with Dr. Partridge's qualifications for raising funds and planning developments, a high percentage of the college buildings now stand as a testimonial to his energy and notable contributions.

Dr. Partridge was succeeded by Dr. Thomas H. Richardson who has served as President since 1964. Dr. Richardson's administrative ability and leadership have been appreciated as a vital factor in the development of a college, which now has an enrollment of approximately 4500. With the marked changes in the purposes and programs of the State Colleges of Education that are going on, Dr. Richardson has been highly respected and strongly supported. During the period of disconcerting reorganization, this is an achievement!

In the words of Dr. Bundy: "We are now facing the problems of Education in a confused world." It offers many challenges to our democracy, our civilization and the quality of our next generation." Mrs. Sprague and I look forward to a greater college rendering a greater service to a civilization which needs what master teachers can provide.
Montclair State College

60 Years of Progress
1908 - 1968

Then and Now

BY GRACE LYON CONCILIALD
Class of 1910

On Sept. 15, 1908 the first class of 187 students, largely girls, entered N. J. State Normal School of Montclair, with Dr. Charles S. Chapin as principal. He had a staff of 19 teachers and a librarian. One of our teachers, Miss Mary F. Barrett, still lives in Bloomfield, and another, Miss Ruth Smith, is in New York City.

The basement of the school was not entirely finished and the grounds boasted no landscaping. A boardwalk, very slippery in winter, was laid from Valley Road to the school. Nevertheless, we were a happy group, and started the loyal spirit of Montclair, which I hope will never end.

There was only the one building which contained a 2-story auditorium and gymnasium, as well as the classrooms, the offices and library. The auditorium was filled with our desks, and assembly was there every morning.

In the early days, pupils came by Erie R.R., Valley Road trolley, or walked from their boarding places as I did. Very few teachers drove cars.

At the beginning of our second year, Dr. Chapin decided to have a class graduate in June, 1910. The course had been scheduled for 2 1/2 years, but 30 of us took an accelerated course, and were graduated with the 15 members of the 2 year kindergarten course June, 1910.

Some of the educators had prophesied that Montclair would not succeed, but Dr. Chapin announced that there was standing room only at the end of the second year.

Mr. Edward Russ was greatly interested in starting the new school, so after his death a dormitory bearing his name was built with money he had bequeathed. It was opened for girls in September, 1915. Later, a dormitory called Chapin Hall was built.

The $25,000 for 25 acres invested by the State Legislature in 1904 has paid exceedingly well by so many graduates who have gone far in educational business fields.
Miss Marianne L. Bednarz, a senior at Montclair State College, has been awarded a $750 scholarship by the New Jersey Library Association for graduate study in library science. Miss Bednarz, a French major with a minor in library science, has worked in the Clifton Public Library. She is a graduate of De Paul High School, Wayne, and has been active at Montclair State in various campus organizations, including Alpha Chi Beta, Montclair Club, Student Peace Union, and Index and the library science club.

Nicholas Calamusa, a Montclair State College senior, in one of 30 young people selected to go to France under a summer work plan directed by Princeton University's European Office. Participants will be placed in factories, hospitals, banks, and business firms. In addition to their salaries, many will also receive travel grants. This program and a similar one in Italy for German-speaking countries are financed by cooperating European businessmen and several American foundations.

Calamusa, a French major at Montclair State, will work for a French automobile manufacturer and for a manufacturer of electrical and electronic equipment. A graduate of Pass XII High School, he has been active at the college in the French Club, International Relations Club, Student Peace Union, Newman Club, and Student Education Association.

Charles Croce, a senior English major at Montclair State College, has been selected to go to Italy under a scholarship sponsored by Overseas Neighbors of Montclair for a year's study at the University of Rome. The foreign language organization sponsors a sister-city relationship between the town of Montclair and the city of Rome. Croce has been particularly interested in the theater at Montclair State and will carry on this interest in his studies at Graz. He is president of Players, the student drama group, and is credited with major roles in a number of its productions, including the title role in Shakespeare's "Macbeth." He is also directing "As You Like It" for his English Literature class under the title "A Midsummer Night's Dream," and he is writing a paper on the Elizabethan comedy, "The Taming of the Shrew." During the summer, he plans to leave for Austria soon after his graduation on June 5 to study German before entering the university. After his year in Graz, he hopes to continue

By GARY P. NOVOSILSKI
virtually every American student goes through a period of his adult life, quizzes, tests and examinations. But the student, to a large extent, is personally regarding the purposes and goals of testing in education. The basic indication is that the purpose of a test, and what should it be? How reliable is a test as an indication of the student's knowledge that has been learned from the course? What is the most reliable type of test that an instructor can give? And, for instance, is it possible to pass a course or not be "teaching" some of the necessary work is possessed of a necessary evil and an unnecessary evil. The validity of testing as a basis for a grade was often challenged, and the point made that tests should reflect the goals of the course clearly and honestly.

A recent survey showed that the reliability of college entrance examinations as an indication of future college success was actually less than could be obtained by the drop of a coin. As many students on testing are brought to light by psychologists and educators, it is apparent that statistical methods are being adapted to newer, and more valid methods of grading and evaluation.

In creating this self-awareness and group awareness, B.O.S.S. offers an opportunity for black students to "develop a more meaningful role both on campus and in society." According to the organization, "in light of the political, social and economic situations which directly effect them.

In answer to a common question, B.O.S.S. does not have the idea of segregation in mind. Unlimited membership is open to both black and white students enrolled at MSC. An accepted application and the attendance of three successive meetings, are required for membership. Meetings, both business and social, are to be held biweekly on Mondays beginning at four thirty P.M. The location for the month. In addition to the social aspect of membership, there will be alumni membership and associate membership for those who have B.O.S.S. as their president, vice-president, recording secretary, corresponding secretary, treasurer, historian and alumni secretary. B.O.S.S. will financially support itself through dues--five dollars per member per semester.

In view of the warm response B.O.S.S. has received from the Negro students of MSC, it appears that its need has been acknowledged.

undergraduates will receive a B.A., while 200 graduate students will receive an M.A.

The purpose and program — "March, Opus 45" by Beethoven — will be both performed by the symphonic band under William Shriver, Dr. Davis, and Shorehead will deliver the invocation and introduce President Richardson, who will give the keynote address.

The commencement address will be given by Edward E. Booher, chairman of the state board of higher education. Another choral selection, "All This Night" by Finzi, will be followed by the commencement of honorary degrees. The presentation of the honorary degrees will be made by S. Lincoln Hawkins, chairman of the board of trustees of the college, both at the baccalaureate and graduation services. Following the commencement of degrees in course, again, Mr. Bayard Rustin, Dr. Harry A. Fruit, and T. Bohn will perform his duty as grand marshal for the 39th consecutive year. This time he became director of the organization of the bus boycott. Although the committee members have not been officiated as yet. However, scholarships are still available if needed. Some of the topics to be discussed are: "The New Christian Morality", "The Church in Our Day", and "Love in Marriage". It is hoped that the essence of Catholic leadership will be formed during the academic year. Students who are interested in participating in this program should contact Marynull Kuducue at 744-7047. Thomas Collins, Tom Grogan, and George Connolly, and Richard Newman, have been helping the Newman Community during this past year.

The Newman Community will sponsor a Newman School of Catholic Thought from June 9 through June 13. This week of study, discussion and enjoyment will be held at the College of St. Elizabeth and the cost is $28. However, scholarships are available if needed.

Dr. Davis will provide an opportunity for students attending secular colleges to study current problems of Catholic thought, through the Newman House, 744-2323, and work with fellow Catholics to develop ideas to be promoted. Some of the topics to be discussed are: "The New Christian Morality", "The Church in Our Day", and "Love in Marriage". Classroom, Union Buildings And Dorm Comprise Expansion Plans

BY BARBARA SCHUBEL

Plans are now being made to add three new buildings to the campus of Montclair State College. These buildings will consist of a new student union building, a dormitory and a classroom building.

The new dormitory will accommodate 500 people. This number has not been decided as yet whether the dorm will be for the men or the women students of MSC. The location of this dormitory will be on the hill on Valley Road, north of Stone Hall. The structure will be nestled into the side of the hill in a construction similar to the architecture of the Pueblo Indians. Entering into the dormitory, one is immediately in the center of the building on the third floor. The new dormitory follows the architectural goal which aims at an architecture which fits into the land instead of the land being made to fit the architecture.

Plans for the new dorm show a very interesting, attractive building with a ten story tower. The building has a cafeteria and a lounge which will be able to accommodate more students than living in the dorm. Later, a sister structure will be built adjoining this dormitory. The two dorms will use the cafeteria facilities. It has together. An open mall in the center of the dormitory is also in the blueprint. Students will eat around a circle of light shrubbery and patio terracing.

The new Student Union Building is predicted by President Richardson to be “the most attractive building on campus.” Its very unusual architecture gives the illusion of a floating building on massive pillars. The new student union building will have the usual lounges, cafeterias and book store. However, a bowling alley and a billboard room will also be located in the new building.

A highly functional construction, the new classroom building will have three stories of spacious academic classrooms. The entire fourth story will accommodate faculty offices. Seventy-five or eighty offices will be located on the fourth floor divided into office suites. This building will probably be for three departments. At this time, the English, social science, education and language departments badly need a permanent home. The new classroom building will also have a number of large lecture halls to accommodate the departments with large classes.

These three buildings should be completed to meet with Montclair’s growing pains in the next three to five years. Montclair needs these buildings. As of now, the classroom building is the only construction which has no financial problems surrounding it. In fact, the classroom building is presently out to bidders from the various school construction companies.

FAMILIAR PROBLEMS

However, with both the Student Union Building and the new dormitory, the state of New Jersey is in a hassle as to where to get funds. Right now, the plans for the two buildings are tied up in court.

Are you tired of waiting for the buildings Montclair students so badly need? Are you wondering what possible good it will do YOU if a new building finally gets underway a year or two after you graduate?

Montclair State College is 60 years old this year. The entire college facilities at one time consisted of College Hall. The college has progressed but additional facilities are necessary.

Psych Major Available

To September Frosh

With the creation of a psychology department this year on campus, a psychology major program has been made available. This, however, only applies to incoming freshmen and a few non-committed students who have been recommended by their advisers. President Richardson has absolutely forbidden transfers from other departments for upperclassmen because this would cause too much confusion.

Also, the addition of the psychology major program raises the question of a psychology minor. A formalized program for such has not been set up because students have failed to express interest in it.

The psychology department could accommodate such a program and has added more elective courses to the curriculum. By the fall of 1969 there will be at least double the number of psychology courses already in existence. Students wishing a psychology minor are advised to formulate a petition and send it to Dean Morehead.

Dr. Leonard Bachtler, also of the department, was an instructor in group therapy at a meeting of the American Group Psycho-Therapy Association in Chicago and attended a meeting of the American Orthopsychiatric Association there with Dr. Morton Rich and Dr. Peter Worms.

“This Newark Exposed”

(Continued from Page 3)

Ridden with its filth and decay, the Newark slum is in the midst of transition. Unfortunately, political incompetency coupled with apathetic citizens have no doubt contributed to the existence of the Newark slum. It took a riot, no doubt incited by outsiders to susceptible people, to make a lax administration face the facts. While violence and arrogance by Negro “leaders” may be somewhat instrumental in achieving needed reform, “It actually serves to unite bigotry on both sides,” notes a Newark educator.

A visit to Newark’s Central Ward changes a lot of attitudes.
Dr. Cordasco Promotes Bi-Lingual Education

Montclair State College professor, Dr. Frank Cordasco, has recommended that bilingual elementary schools be established in the major cities of New Jersey. Calling attention to the thousands of Puerto Rican children with less competence in English than monolingual children are reared in their school work because English is the sole medium of instruction, Dr. Cordasco proposed the creation of elementary schools, kindergartened through sixth grade, which would provide for both Spanish and English use for instruction in all areas of the curriculum.

Each of the bilingual elementary schools, according to Dr. Cordasco’s proposal, would be integrated with the students in their own language while developing for them skills in English, and would maintain a board for the Spanish-speaking pupils their language power in Spanish. He noted that the bilingual school would avoid academic retardation in children whose mother-tongue is not English and would further create in Puerto Rican children a positive self image and pride in their ancestral heritage.

In order to assure an involvement of the community in the work of the school, Dr. Cordasco further recommended that the bilingual school include both a community and resource center which would develop community-parental school programs. Absolute necessity of the bilingual school would be a teaching staff that was fluent in both Spanish and English, he said. Noting that all research suggests that the bilingual school would not retard the students of observed that the passage of the bilingual education act (Title VII, Section 111 of PL 94-240) would assure adequate financial support from the federal government to the immediate planning of bilingual elementary schools.

He recommended that the colleges in New Jersey work with the school districts of the major cities begin planning bilingual elementary schools now in order to provide the proposals which would qualify them for federal funds under the Bilingual Education Act.

Dr. Cordasco, who is a professor of education at Montclair State College, is an educational consultant to the Commonwealth of Puerto Rico and has written extensively on the problems of minority children and urban education. One of the major advocates of bilingual education, he has testified before Congressional Committees on federal aid to non-English speaking children, and his work is regarded as one of the major forces which brought about the Bilingual Education Act.

The Washington Square College faculty of New York University last week abolished compulsory attendance taking and midterm grades.

The new policy, which goes into effect next term, will allow individual instructors to take attendance if they feel it is important. Instructors would also be required to make written evaluations of students in academic difficulty instead of midterm grades if requested to do so by WSC officials.

Henry B. Nos, acting dean of WSC, said the motion "went through like a breeze" and that its passage had been expected.

The newsletter also contains a form of punishment was rejected on all sides. Only one in nine suffered it at the hands of his or her parents and only one in 11 would inflict it. More restrictions on dating are in store for the next generation, if the MSC samplings holds true. Thirty-four of the boys replying to the questionnaire report that their parents would refuse to give them curfew if they could first date, but 101 of them would make that decision for them. While the surveyors submitted the same question, the figures for the girls were 170 and 211.

In all categories there was a general agreement that disobedience at home, trouble with authorities, and not keeping curfew constitute punishable offenses, and that failing to meet religious requirements should not be punished. However, the girls disagree with the boys on a couple of counts, according to the MSC findings. It would seem that while future mamas are going to be more much indulgent than future papas when it comes to poor school work and junior’s haircut, or lack of it.
The universal task of education has been designated as the individual for the changing conditions of his environment. Throughout our past a basic premise of American education assumed that this preparation could be accomplished through the education of the young. This premise has lost its validity. The child, the youth, even well educated, today, without benefit of continuous education through adulthood, becomes the obsolete adult of tomorrow.

It is the adult, not the child, who makes the decisions for a self-sustaining society. To cope with the awesome problems that now confront us, we must continually update our minds with the latest facts, the most effective skills and the wisest information. The world of tomorrow may be sustained, nor the world of tomorrow built, upon the obsolete knowledge acquired in yesterday's classrooms.

Montclair State College's Adult Education Center was created in February, 1966, through the cooperative efforts of the College and the Office of Adult Education of the New Jersey Department of Education. The Adult Education Resource Center, at Montclair State, was developed for the primary purpose of serving the continuing education of adults in the communities of New Jersey. The Center is one extension of the services of Montclair State College to these communities and their adult citizenry.

With a staff of seven, the Adult Education Resource Center's activities range from curriculum and instructional material development for community adult basic education programs to professional development "working seminars" for local and state administrators of adult continuing education programs in New Jersey communities. The activities of the Center's staff include working with local and state agencies, ranging from the "ghettos" of Newark, Trenton, and Paterson, to state confinements of hospitals and state correctional institutions. The work of the Center includes that of a pilot project, in cooperation with the Montclair State College Reading Clinic, experimenting with a learning laboratory approach, to assist 45 functionally illiterate adults to learn to read effectively in the shortest possible time.

Through a grant under the Title I of the Higher Education Act, the Adult Education Resource Center carries on a range of activities, assisting community agencies and organizations in seeking solutions to a variety of urban problems.

The professional personnel of the Center include: Ray Ast, Director; Professor Richard Eng, Associate, concentrating attention to Title I, Higher Education Act activities; and Professor Florence Dick, Associate, having the primary responsibility as Director of Education for the Center's Institutions and Agencies Traine education project; Mrs. Joan Fischer, Program Coordinator, adult basic education and high school equivalency learning program at Greybush Park Hospital. Other staff members include: Mrs. Vasti White, Mrs. Doris Spinelli, and Mrs. Lilian Lohmann.

Courses Discussed for Experimental College Project

BY RICH LUPO

Dr. Richardson expressed that the proposed "College Within a College" experiment is yet only a concept, and it is difficult to initiate any definite statements concerning the idea.

No curriculum outline has been described to date. It has been ascertained however, that stress will be placed upon independent study over that of the conventional "course" system.

The actual curriculum set-up will eventually be determined by joint faculty-student conference conducted by Dr. Bellagamba. A tentative illustrative curriculum was proposed by Dr. Fincher a few months ago, but it has no direct bearing on what the final outcome may be.

At a recent faculty meeting pertinent to the experimental college, questions were raised as to whether the absorption of the present faculty members into the new college would burden the main institution with teacher shortage. The reply was a solid "No," since the student teacher ratio would remain same as it is at the present.

Dr. Richardson stated that all full college students are under the principle of "College Within a College," would be chosen upon a strictly voluntary basis. Although no exact quota has been mentioned, it is estimated that 200 to 250 students will be selected to participate in the experiment. Students enrolled in the program will ultimately be chosen from only one class level. Which one has not yet been decided upon.

The experimental "College Within a College" is really too new an idea to be factual about, but it is hoped that theory will turn to reality in the near future.

WHAT'S IN A NAME?

By David M. Levine

What's it like to be stuck with a name like Carolina Rice? From what the papers say, Miss Rice is a cute 19 year-old New England blonde, standing five feet-three inches tall. And in all probability she's no different than some of Montclair State's homegrown beauties. But she sure must take a lot of ribbing, after all, "that could be finer than..."

But we common folk stick with such names as Joe Smith and Harry Freeman feel just a wee bit left out. After all, most of us have not been fortunate enough to have rib-tickling surnames.

Over the years THE OBSERVER has made a collection of "monckers" with the aid of numerous telephone directories and Doyle Klyn, woman's editor of Canada's syndicated WEEKEND MAGAZINE.

Geographically speaking, my catalogue of names include Miss Bonnie Scotland and Miss Merrie England from the British Isles. On the continent, Dr. Eugene Portugal is a dentist in Newark, N.J.; Faye Spain is a former Hollywood actress. And who can forget that infamous Berlin Wolfe? Not to mention, Fanny Israel, Glory Germann, Mrs. Happy London, Sonny Greenland and Mr. Paris France.

To those of you who indige in that famous college weekend sport, let us be grateful to that extraordinary bottled manufacturer from Princeton, New Jersey—Mr. Jacob Booze. Other contributors to the noble art include Mr. Lothar Vodka, Lit Ginn and Felix Wine, cites the telephone directory. And we shouldn't forget the "Three Essentials"—Olive Oaks, Harold Barfea, and Mac Maltz. Jim Mill has a reputation of being an excellent bartender in Toronto.

And to those of us that believe New Jersey is no longer deserving of the title "Garden State," some of our outstanding residents will try to talk you out of it. Namely: Iris Rosebud, But Woods, Olive Sweetland, Pucky Trees, Pleasant Marshland and Rocky Sand.

Turning to the entertainment world, swing and rock seem to dominate the music scene nowadays—Lenny Swing (from Dallas) and Bill Rock (a student at Seton Hall University), that is.

For mention, Accard (Cincinnati), Ken Music (Newark, N.J.), Frank Talk (Chicago) and the famous singing trio—Al Baritone, Jess Alto and Irving Bass.

Wishing you a pleasant summer.

THE OBSERVER

STUDENTS ASSURED CHOICE SEATS AT FOREST HILLS MUSIC FESTIVAL

Top Pop Names Signed for 1969 Season

Students will be assured choice seats at the Forest Hills Music Festival this year by selecting the attractions they want to see and ordering their tickets by mail, now. Leonard Ruskin, producer of the most successful music festivals in the country, announced that the St. Francis Xavier star would attend MSC in September. McDougal is the son of former New York Yankee infielder, Gil McDougal and lives in Tenafly (NJ).
Dick Grant Takes Golf Championship

Dick Grant, captain of Montclair's successful golf team, captured the New Jersey State title for seven matches and has the lowest golfer in his second year on the team. He was unbeaten in his first 78 against Monmouth.

Rolack. All three golfers have been consistent winners this year. Montclair's successful golf team, coveted title.

May 27, 1968

Montclair State Closes Season 14-4; Score 21 Runs in Consecutive Games

Montclair State baseball standout Frank Rossi, only a sophomore, already has major league scouts agog with his swinging powers.

The 6-1, 190-pounder from Gillette finished the season leading the Indians in doubles and runs scored, tied for the lead in triples, as well as in leadership in home runs and runs batted in.

This season Frank clouted eight tape measure shots bringing his two-year Indiana career total to 15. In fact, Rossi's homer pace of one per every eight times at bat gives the redheaded slugger a better home run rate than Willie Mays, Mickey Mantle or Harmon Killebrew.

Montclair State baseball finished the season strongly with wins in four of the last five outings in bringing their season's record to a fine 14-4.

Montclair hitting continued to be the major success formula as the Indians tallied 21 runs in games against Jersey City and Montmouth. However, the spotty pitching and defense continued and prevented the Indians from becoming an outstanding club.

The first game against Newark Rutgers was unique in that pitching, defense and hitting were blemished for an 11-0 rout. Winner, Ralph Miller, who hurled the first seven innings, and reliever John Gryzko combined for a perfect shutout. Highlighting the Indian attack were Jim Downing with a double and a triple and three RBIs.

The next contest saw Pete Jerauld and John Gryzko combine for 18 strikeouts as the Indians shipped Kent State City to a 21-4 tune. Frank Rossi, one of the greatest home run hitters in MCTC history, slugged his sixth and seventh circuit blows of the season in leading the Indian attack. Ken Meek pitched in eighth a double and a triple and three RBIs.

The Indians kept their hitting shoes packed as they once again tallied 21 runs in running Montmouth College, 21-9. Montmouth, in contention for a post-season tourney berth prior to this contest, surprisingly matched the Indians run for run during the early going. However, long ball hitting by Jim Downing (2 homers and 6 RBIs) Frank Rossi (1 and 3 RBIs) and Ken Meek (a double, homer and 3 RBIs) soon sealed the Hawks' fate. Montclair State's brief winning string came to a sudden halt against Trenton State as the Lions scored six sixth-inning runs to down the Indians 10-4 in a conference match. The Indians jumped off to an early 2-0 lead in the first inning on singles by Downing and Rossi, a sacrifice by Ken Meek and a hit by Rich San Filippo. However, the game was soon all Trenton State's as the Indians were dealt their fourth loss of the season, 7-4.

MSC brought their season's conference record to a disappointing 6-4 mark by trouncing Paterson State, 4-2. The win gives Bill Dioguardi the 19th season during his 20-year tenure and gives him a career mark of 286 wins and 137 defeats. Montclair jumped off to a 3-0 lead in the first inning on four walks and a two RBI single by Jim Nunamacker. In the second inning, Randy Heideman walked ad then scored of Jim Downing's double. Paterson tallied a single run in the third and seventh but these merely cut the final margin. Fred Keimel was the winner, gaining his fourth victory without a setback.

A Medical Answer For MUSCULAR

Low Back Pain

Promptly Relieves Pain
So Stiff Muscles Loosen Up and You're Back Into Action

Doctors who specialize in back troubles report most aching backs are due to weak, tense muscles which can go into painful spasm as you suddenly bend, stretch or twist. To relieve such backache doctors recommend the pain-relief compound in Anacin® Analgesic Tablets. And Anacin gives you more of this medication than any other product.

Anacin is a special fortified formula. It promptly relieves pain, helps reduce swollen tissues, and so relieves pressure on sensitive back nerves. Then notice how stiff muscles loosen up and you move around with greater ease.

Only Anacin has this special fortified formula. It's not found in any other product. See if Anacin's exclusive formula doesn't work better for you.

DID YOU KNOW THAT... MONTCLARION editor-in-chief, Janet Caruso, is related to Mike Caruso, former Lehigh University and NCAA wrestling champ?

Judo Club Adds Color

The Montclair judo club returned with five colors after being graded at the Asbury Park Health Club and Judo Academy on May 13. The requirements for the first rank includes knowing at least the eight basic throws, three break-falls, randori, pins (males), self-defense tactics (females), plus various terms and stances. This first rank, gokyu (yellow belt), was presented to seven members of the club: Wally Butler, Joanie Dushanko, Sue Gottlieb, Ken Janney, Bonnie Lortier, Joe Macko and Bob Stickle.

Meanwhile, more advanced and proficient members (Bill Berman, Don Mayer, Pete Pelak and Jeff Snyder) by-passed the gokyu rank and went on to rank of yonkyu (orange belt).

Sashed in their new ranks the club put on five exhibitions during Carnival for the public.

The future looks bright for the Montclair judo club. Next season there are tentative plans for competitions at various tremendous exhibitions with various other colleges. Also many of the members plan on continuing practice on their own during the summer in order to go for another grading around July.

INJUN ARROWS

BY JOHN DANTONI

Montclair State baseball standout Frank Rossi, only a sophomore, already has major league scouts agog with his swinging powers.
Montclair State and Jersey City State College met here May 8th to decide the NSCC Championship. Both the Indians and the Goths were undefeated in the Conference at the time. Jersey City had only lost one other match this year, but the three beaten Indians proved beyond a doubt that they wanted the conference championship by blasting the Goths 7-2 and establishing several milestones.

It was the first time since April 14, 1966 that an MSC tennis team had won all 6 singles matches. Dan Sullivan, playing No. 1 single, beat Pete Podesta of J.C. State, handing his opponent his first conference loss in one this year's best matches. Danny was undefeated in the conference this year and ran his singles record to 9-1. He should be a cinch to be elected most valuable player in the conference by Linda Manz.

In second singles Captain Gary Savercool ripped his opponent 6-0 and 6-4 and has picked up 7 victories so far this season. Savercool, a junior, has an excellent 11-2 conference record for his 3 years competition.

Fred Bittel in No. 3 singles has come on real strong after a year's absence from competition. He's won important matches against Glassboro and Jersey City and is a strong doubles player who will be missed by the team as he graduates this year. Chet Mazula, a sophomore transfer student has added greater depth to the Indians starting 6. A lefty with a big serve, Chet has won 6 out of 10 this year including 3 of 4 conference matches.

In the No. 5 position is Chuck Manzurano who also has a 3-1 conference record. Chuck is a steady player and only a cophornion like Mazula and Sullivan, so he's got two good years still ahead of him. Last, but certainly not least of our 6 singles players is senior Bob Seiber. Busy with student teaching and working, Bob hasn't been able to devote too much time to tennis, but after an opening loss he has run down 7 straight opponents to give him the second best record on the team.

After defeating Jersey City, the Indians defeated New Patz State, a strong N.Y. college, for the first time since 1963. One of the tightest matches this year, the Sullivan-Savercool doubles team came from behind 3 times to win the 5th and deciding point for Montclair. Dan Sullivan, Gary Savercool, Fred Bittel, and Chet Mazula all contributed singles victories to the cause. The Indians record now stands at 7-3 with 2 games left to play.

**Sullivan Leads Tennis Team To Conference Championship**

**TAB Wins Softball**

TAB's Pineapples, building up a 10-1 lead after two innings, held on to defeat Gamma Delta Chi, 10-7, in the Intramural Softball Championship game.

In concluding an unblemished season, TAB sent 19 men to the plate in the first two innings in scoring their ten runs on ten hits. Gamma, held in check for the first six innings, managed to make a game of it in the last inning by scoring four runs and cutting the deficit to 10-7 with only one out. However, Bob Fleischer, the TAB pitcher, settled down and got the final outs on a fly to short center and a pop to first.

Gold medal winners of TAB were: Dave Lives, John Dunstoni, George Ackerman, Bill Spooner, Frank Mento, Bob Fleischer, Bob Cece, Pete Tummillo, Paul Lioy, Bill Smith, Larry Ackerstrom, Lou Alt, Roger Schultz, Dave Muller, Gary Snyder and Ed Nemet.

**Dale Rodgers Picked As Olympics Trainee**

As Olympics Trainee

Dale Rodgers picked as one of the two Montclair girls on the New Jersey Strider's track club. Dr. Schleede has organized a girl's Recreation Association activity with twelve girls participating this year.

In April the team had a meet with the girls' team from Red Bank Catholic High School all eight of them. Despite the odds, the Montclair girls totaled 23 points while Red Bank won with 85 points.

In the 50 yard hurdles Lou Greene placed first with a time of 7.3 and won first place in the long jump - 16 feet 1 1/2 inches. In the 100 yard dash second in the 220 yard dash with a time of 29.6 and took fourth place in the hundred yard dash running 13.6. In the quarter mile Lindasul placed fourth and Gail Chrylinsul placed third in the eighth yard run (half mile) Herma Shoemaker's placed fourth. Pauline Savercool was fourth in the mile run. The winning time for Red Bank was 6:28. The high jump was won by Linda Maul jumping 4 feet 5" and Nancy Mirdalic placed third.

**Women's Track Team Advances**

Following in the footsteps of the two Montclair girls on the New Jersey Strider's track club, Dr. Schleede has organized a girl's college track team. It is a Montclair Women's Recreation Association activity with twelve girls participating this year.

In April the team had a meet with the girls' team from Red Bank Catholic High School all eight of them. Despite the odds, the Montclair girls totaled 23 points while Red Bank won with 85 points.

In the 50 yard hurdles Lou Greene placed first with a time of 7.3 and won first place in the long jump - 16 feet 1 1/2 inches. In the 100 yard dash second in the 220 yard dash with a time of 29.6 and took fourth place in the hundred yard dash running 13.6. In the quarter mile Lindasul placed fourth and Gail Chrylinsul placed third in the eighth yard run (half mile) Herma Shoemaker's placed fourth. Pauline Savercool was fourth in the mile run. The winning time for Red Bank was 6:28. The high jump was won by Linda Maul jumping 4 feet 5" and Nancy Mirdalic placed third.
