Bond Issue Would Give More $$$ To Roads Than To Schools

Immediately after voters of New Jersey flip the lever for their favorite nominee this November, they will be asked to vote on the largest BOND ISSUE in the history of the state—$990 million, spread over three needy areas. It is historical in another sense: it is one of the rare occasions that Governor Hughes and the legislature have worked toward the same

Blanton Questions Need For Free MSC Campus, SDS Formation Rumored

By KARYN BYKOWSKY

"MSC in a political institution responsible to the public of New Jersey," Dean of Students, Lawton Blanton commented. "The State will not be as receptive to our needs if reactionary speakers come in to the campus."

This was the feeling which prompted Dean Blanton to issue a personal memorandum to SGA president Bob Martinez, stating the SGA should remember to reconsider the open campus ruling passed last year.

The Inter-Office memo left Martinez puzzled. "I don't know why Dean Blanton thought it necessary to mention this specific ruling," he observed. "Each new administration always reviews all past policies and makes changes they feel are necessary. We would have done it anyway."

However, Martinez does not anticipate withdrawal of the ruling. "I personally think it is bad to reject any side of an issue without examining it first. It's also good for the image of the college to be open-minded," he said.

"I don't think that there has ever been any change in the feeling of students on maintaining an open campus," he continued. (Continued on Page 3)

Kuhn Hopes To Incite More Campus Political Activity

The "Reeve and Survive Experiment" sponsored by the class of 1969 will be held outside Life Hall on Oct. 17. The senior class president, Harry Kuhn, explains that "this year we intend to elevate and dignify our image as rationally thinking and responsible 'college' students while we call in questions of state aid to higher education, academic respectability and responsibility, and finally the war in Vietnam and the draft."

A long counter in front of the Student Life Building will be constructed so as to avoid congestion and to provide enough surface area on which the student may do his one-act letter. The nature of the letter will determine to which legislator or to which Montclair State administrator it will be sent. After the letters have been mailed to the designated recipients, the senior class president will invite the recipients to come on campus with answers and to present them to the student body in an open forum. Harry Kuhn emphasizes that "we cannot afford to be irresponsible nor irresponsible to the victimizing pressures upon us."

McKnight Forecasts Future Activities

By MARTIN J. FUCIO

Life Hall has a new director and the College Life Union Board (CLUB) has a new advisor in charge of both of these activities is Jon O. McKnight. Mr. McKnight is a 25 year old graduate of the State University of New York at Geneseo. He holds a Bachelor of Science degree in history and a master's degree in student personnel services. In his dual function, which began Aug. 1, Mr. McKnight helps schedule all

Project TRY

Wanted: 06 Undergraduates

The MSC community is currently attempting to show that it "gives a damn" as Project TRY (Talents Reasserted by Youth) begins its first semester on campus. The program is designed to attract as many talented but bright students as possible to gain a college education.

Montclair is working on this project in conjunction with 14 other schools, three of which are out of state, and have poverty programs affiliated with them. A total of 363 students are enrolled in these 15 colleges under the auspices of the state and federal governments, financial backers of the project. At MSC alone there are 106 TRY students, financially needy students who gained admission through the unique program.

According to Mr. Arthur Taylor, Director of Recruitment for Project TRY, the primary selection criteria are talent and motivation. However, the adjustment he referred to was not that of TRY students to the campus as one might expect, but of the campus to the TRY students. He said that the students have "fit in well because of the fact that they are simply glad to be at Montclair," and that the campus has "afforded them. Thus far, stated Mr. Taylor, the students of TRY, from the upper class and off campus, have been quite enthusiastic.

The recruitment of individual tutors for the TRY students is reportedly progressing well so far. At the present, the 200 TRY students have volunteered their services after only the initial two days that the students of the college have been "headquarters" in the Student Life Building. An additional 50 TRY students to be tutored may soon be found in the TUB.

TRY tentatively plans on having LeRoi Jones pay a visit to the campus for the purpose of speaking to a "limited audience" composed of TRY students. Upper Bound students, teachers, working in conjunction with Project TRY, and a number of other interested students. But for the time being, said Mr. Taylor, "This is a "closed" one. A poet by trade, Mr. Jones entered the national field of study for his work as a civil rights activist.

Fourteen Montclair graduate students and presently gaining valuable experience through Project TRY on various campuses within the state. These students, who are taking part in this training program in addition to their regular field of study, participate in a three hour weekly seminar session. Components of the overall program are a "sensitivity training program," involvement in community service projects, and writing, reading, and counseling of, and development of communication with students in urban areas who may be TRY students of the future.

Last semester a small group of students felt there was not a need for additional programs in theatre at MSC. This group met informally during the summer. The result of their meeting was the formation of an experimental theatre group.

Greg Doucette, a member of the group, has stated that its purpose is "to provide a forum where the serious students of the campus who are interested in the serious aspects of theatrical communication, both experimental and traditional." There will be lists provided to undergrads (in the speech lounge) for those who wish to participate in the theatre group as producers, directors, technical directors, lighting designers, make-up and costume directors, business and stage managers, actors and crew members. All students are invited to sign any of these lists. A directory will be published with names of every theatre group member.

Even With Hangups, Orientation Proves Its Worth to MSC Frosh

By JILL SCHNEIDER

Staff Reporter

Orientation

It turns some on; it turns some off; and it tunes some out — this is freshman orientation. One freshman might know, freshman orientation has different effects on different people. So, liquidation of it all hangups, was it all worth it?

Those who felt orientation was useful got to the center of the alleged foolishness, understood the "why," and went along. The student personnel meetings and coffee hours targeted the class of freshmen to shake off the high school concept of aloof teachers and grasp the idea of the college roommates, commuting students said the "down to earth" college teachers.

Being able to talk with the professors personally seemed to erase the fears of professor cooperation. The sophomore meetings helped to create clan and school spirit.

Montclair State's friendly atmosphere helped the freshmen feel like they belonged. According to one of our no-longer-a-teenager students, "Just being on campus helped to take the newness off." A few boys felt all that was needed was "a map of the campus and instructions where to find what." And finding out things by themselves presented a challenge. One freshman said that freshmen and sophomores were the only pre-requisite (for production) is interest," even an aqua show in the Panzer pool would fall under the interests of this experimental theatre group, if it meets the established criteria.

Most people felt that four days was strictly enough. "The idea of orientation should have been drawn out for a week and two days of that is economic," economic major. "Everybody was so busy with classes that nobody worried about avoiding problems of getting settled for incoming students without worrying about avoiding sophomores. Perhaps a hint for improving next year's orientation might be to end before classes begin.

Despite all the trials and tribulations, much enthusiasm for the college was raised. Most freshmen felt that they didn't need the orientation that was for their own good and "a necessary evil."
**Financials**

The New Jersey State Scholarship Program added a new feature when Governor Richard Hughes signed into law Senate Bill 561. This bill will now allow students, who hold State Scholarships, to attend summer school under this program.

The scholarship pay recipients $550 annually on the cost of tuition, whichever is less. With this $550, which had heretofore been left unused, that can be put towards the cost of tuition and books. This fall approximately 14,000 students are receiving State Scholarships.

Applicants for State awards must meet the following qualifications: New Jersey residency for 12 months prior to making application; graduation from high school within a 12 month-period of applying; financial need in obtaining a college degree; good moral character, good attendance and intended enrollment as a full-time student in an approved college, university or hospital school of nursing.

Anyone seeking additional information concerning the State Scholarship Program and its summer school supplement, should see Mr. Neuner in the Personnel office.

**Tuition**

(Continued from Page 1) financial aid to higher education. Mr. Calabrese claims that the outlook for increased state aid is good, even though pressure on the legislature has been dissipated somewhat by the tuition hikes. This year the legislature allotted approximately $6 million for MSC's undergraduate program. A maximum of roughly $1.5 million comes from the state total student fees, leaving the state legislature with a bill of $4.5 million. New Jersey is currently ranked 49th among the several states in the nation in its aid to higher education.

All students of the six state schools saw their tuitions rise an equal amount this year. Students who attend only the evening part of MSC's undergraduate program. A maximum of roughly $1.5 million comes from the state total student fees, leaving the state legislature with a bill of $4.5 million. **Helen L. Ride in the Sky**

By DON PENDLEY

"Are my eyes deceiving me, or is that a helicopter landing on the baseball field?" was the reaction of an MSC faculty member to that sight on Tuesday afternoon.

Well, it was a helicopter, from Romson Helicopters in Trenton, N.J., used to take aerial photographs of MSC's campus. Dave Fogg, editor of *La CAMPANA* and Mr. Thadeus Shert of the Audio-Visual Dept. attempted two ultimately cancelled flights and were successful on Sat., Sept. 28.

The photographs were taken for several reasons, the most important being President Richardson's request for aerial photographs of MSC for use in conjunction with building plans at Montclair State. The pictures will also be used to study traffic control at MSC and as a three-dimensional feature in the 1969 edition of the Montclair State yearbook, *La CAMPANA*.

**Student Senate**

A "Happening" sponsored by the Human Relations Laboratory, was held Monday night, Sept. 30, in Panzer gymnasium. Approximately 80 students participated. Advertised as a "mis-lab," it featured an informal atmosphere where thoughts and feelings were explored within the group.

Jean Birzana, an associate professor of education, led 16 groups, five people in each, through a series of tasks that helped the individual to show how he felt. One task, for example, was for a person in the group to move the others to any position they wanted. The individual then discussed his reasons with the group.

In another task each group picked out one person to whom they felt they would like to give a gift. They then proceeded to lift that person above their heads and lower them slowly in rocking "Changes."
**“OPEN DOOR” POLICY**

The Council on International and National Affairs (CINA) has voted to sponsor an academic “open door” policy whereby representatives from various political groups can come to the MSC campus and expound their views. Information and lively discussions are sure to ensue. Although there might be question in the minds of some as to the advisability of such a policy, the MONTCLARI!~ does not view immediate danger inherent in such a proposal.

Freedom of speech is one of the basic rights upon which this country was founded. If Communists, Fascists, Klux Klux Klanners, Catholics, Jews, Protestants or John Birchers wish to have their voices heard, they have a basic constitutional right to do so. And their listeners have the same right to listen or not to listen. One is never forced to hear and listeners have the same right to listen or not.

In the same vein, this right to express one’s beliefs is also a privilege and, as such, must not be abused. If disorderly outbursts of any kind take place because of the misuse of CINA’s proposed policy, then the MONTCLARIQN would be forced to condemn such future activities.

**DISCOURTESY**

Courtesy is something which can be intrinsic to one’s personality, a result of his upbringing and personal beliefs. However, because it is the type of human virtue which can and should be acquired, it is with this aim in mind that this editorial is written.

Witness to the deficiency in the exercise of this virtue was the recent senior class meeting of Sept. 26. Harry Kuhn, senior class president, called the meeting to explain his project “Survive and Revive,” which is a three-month period of learning and leaving behind the shabby rooms of Annex 2, perhaps then we will regain our optimism about what is happening physically to MSC.

**RAMBLINGS II**

The recent Board of Trustees meeting on Oct. 18 showed the willingness on the part of the administration to discuss student grievances. And once again a few students, including three MONT YEARPOP reportors, attended the meeting. Granted, the meeting was at an inopportune time and was long and drawn out, but students with real and sincere grievances would have made the effort.

New York seems to be a city of strikes these days. With teachers, cabdrivers, garbage collectors, firemen, policemen, longshoremen making more and more demands, it is doubtful whether anyone anywhere is satisfied with anything.

Last spring’s “open door” policy whereby women were permitted into the men’s dormitories on alternate Sunday afternoons has not yet been reimplemented this year. The MONTCLARION feels that this policy has been discontinued after only five months of existence.

**BUILDING WHAT?**

It is always interesting to learn of new college construction developments and of future expansion plans for Montclair State College.

However, when building plans are held up in court, as was the case with the New Jersey state building procedures there is great discouragement on the part of the entire campus. New Jersey is one of those four room, four story classroom building containing no laboratories or specially equipped classrooms, is estimated to be completed in January 1970.

This will be 19 months from the time construction was begun.

If there is apathy, discouragement or lack of faith in what is being told to the student as opposed to what is being done this feeling is well understood.

When we finally enter the Partridge Hall of learning and leave behind the shabby rooms of Annex 2, perhaps then we will regain our optimism about what is happening physically to MSC.

**Change In Graduation Date**

We are considering eliminating the conventional Baccalaureate Service and changing the date of graduation from the evening of Wednesday, June 4th, to the afternoon of Sunday, June 1st.

This would have the following advantages:

1. Setting a time for Commencement which makes delays possible in case of rain (we could move from the afternoon to the evening.)

2. Removing a controversial program to which some students and faculty object and perhaps combining some part of it with Commencement.

3. A weekend Commencement will provide a better travel time for those parents who work and live at a distance from this college.

4. There would be fewer problems of campus traffic and parking on a weekend than on a Wednesday.

The change has already been approved by a representative group of faculty, students and administration. Before the final decision is made by the Board of Trustees, however, I would like to give the entire student body and faculty an opportunity to react.

I have been considering this change in the end-of-year Baccalaureate/Commencement ceremonies, please send a note to my office.

**BOND ISSUE**

I am worried about the fate of the 1968 Bond Issue for Higher Education. Some of my friends insist that there is no reason for anxiety; they point out that there is no organized opposition to the Bond Issue – both political parties are in favor of it. Even the New Jersey Taxpayers Association (a group normally conservative in its approach to expenditures) is backing the drive. The New Jersey Association of Manufacturers, several service clubs, the State Chamber of Commerce and many local Chambers of Commerce are also backing the Bond Issue for Higher Education.

**GRADUATE SCHOOL ASPIRANTS URGED TO PLAN AHEAD**

Anyone preparing himself for admission to graduate school should be sure he has fulfilled all the requirements in advance. Among other things, many graduate schools now require scores from the Graduate Record Examination. The Graduate Record Examinations will be given on October 26 and December 14 in 1968 and on January 18, February 22, April 26, and July 12 in 1969. Individual applicants are urged to take the examination before the deadlines of their intended graduate school or graduate department or fellowship granting agency. Early registration also ensures that the individual can make his college choice and without having to pay the three dollar fee for late registration.

The Graduate Record Examinations in this program include an Aptitude Test of general scholastic ability and Advanced Tests of Achievements in 22 major fields of study. Candidates determine from their major in college which subject area is to be their graduate schools or fellowship committees which of the examinations they should take and when they should be taken.

Full details and forms needed to apply for the GRE are contained in the BULLETIN OF INFORMATION FOR CANDIDATES. If this brochure is not available on campus, you may request one from Educational Testing Service, Box 955, Princeton, New Jersey 08540; 990 Grow Street, Evanston, Illinois 60201 or 1947 Center Street, Berkeley, California 94704.

I remain concerned, however, that we would be foolish to assume that our Bond Issue will glide through to passage without a hitch. New Jersey does not have a commendable record in spending public money. In the past some college bond issues have been defeated. Some political leaders are actively campaigning for the Bond Issue but yet the great mass of politicians are passive in their attitude toward it.

National political trends, as they can be discerned from the polls, may also make one wonder whether this is a good year for passage of a Bond Issue.

General apathy is the greatest source of Blunder. This test is offered in June. In my opinion the man in the street just doesn’t know anything about the higher education predicament in our state and what is more, he doesn’t really care. If the citizens of our state go to the polls ill-informed and unconcerned, I can guarantee that we will not vote for the Bond Issue.

Montclair State College is due to receive 8.4 million dollars for new buildings and campus development if the Bond Issue passes. I appeal to all students to work vigorously for its passage. Our college and higher education in general will be in an emergency state if this Bond Issue fails. If we do not actively campaign for the Bond Issue, our friends and relatives – ring door bells – I predict that the Bond Issue will fail. Not. Please, start working now, we will have no one to blame but ourselves.

**THOMAS H. RICHARDSON**

**STUDENTS MAY TAKE THE BACTERIUM TEST IN THE STUDENT HEALTH CENTER ON OCTOBER 7 OR OCTOBER 8 FROM 1-4 P.M. THE FACULTY ARE TO TAKE THEM ON EITHER OCTOBER 9 OR OCTOBER 10.**

Among other things, many graduate schools now require scores from the Graduate Record Examination. Examinations may be given on either October 9 or October 10. The results will be ready 48 hours after the test date. Examinations will be given on October 8 from 1-4 p.m. The examinations will be administered at the Student Health Center on October 7 or October 8. Students may take them during office hours or at 4 p.m. The faculty are to take them on either October 9 or October 10. The examinations will be given on October 8 from 1-4 p.m. The results will be ready 48 hours after the test date.
Social Seminars
Highlight Newman

The Newman Community of MSC recently began its fall semester program for seminars to "increase a consciousness of current issues in our society," and "to assist students in the change of administrative rulings. It is therefore appropriate that the sex subject of today's youth, which is not only illuminated its role but also states the problems we may face in the future and the ways society may solve these problems.

From a personal viewpoint, this book can be a guide for any college student who fears his problems with the world and with the opposite sex are completely unique. This book is not presented as a panacea for the philosophical concepts of sex in the individual or society. It is a journalistic experience of merit which should be included as a guide to all people in our world.

ABC GLADIEUX FOOD SERVICE is pleased to be on Montclair's Campus and happy to serve the students of this school and other New Jersey state colleges.

The Living Liturgy is celebrated each Sunday at 11 a.m. on campus and at 7:30 p.m. in Life Hall. The Newman Community Against Discrimination in Housing for whose benefit the concert is being given. Reserved tickets at $3; student price is $1.50. For tickets contact the Newman House or Mrs. Joan Vogler, P.O. box 175, Convent Station, N.J. 07961. Tickets will also be available in Life Hall.

Finding an all-male campus is a rarity these days. Even the Ivy League schools are emerging from their timeless, unimpeachable fortresses of masculinity. Why?

It appears that both students and the administration at all-male schools are relinquishing their status in return for something more tangible. The students argue that without WOMEN the college experience is irrelevant to the demands of society. And the administration complains that they aren’t attracting enough good students.

Princeton, for example, has noted that of the 11,000 students admitted, only about 6,500 will matriculate. Ten years ago, when Princeton was co-ed, only about 3,000 women were admitted. And the men of Sigma Delta Phi and the Philistines, noted in his studies that of the alumni of the all-male schools want to retain their individuality and aloofness while the all-girl schools are fighting for their identity. Mr. Arthur Horton, an administrator at Princeton, feels that the very existence of the all-male campus will be squashed by the burden of women.

However, both faculty and students overwhelmingly feel that the move is justified. Some students feel that being well respected by some pretty faces is an aura of mysticism. Mrs. Nina Becherow, a Russian literature lecturer at Princeton, expressed her view that "horses," will compete for the affection of the women of Sigma Delta Phi and the Philistines, noted in his studies that of the alumni of the all-male schools want to retain their individuality and aloofness while the all-girl schools are fighting for their identity. Terry Orlick New Gymnastics Coach

William P. Dioguardi, director of athletics at Montclair State College, has announced the appointment of Terrace (Terry) Orlick as head gymnastics coach at Montclair State College. Orlick will succeed William Swearing, who resigned recently to accept a coaching position with the United States Naval Academy.

A native of New Jersey, Orlick comes from a family long interested in gymnastics. Outstanding as a high school athlete at Weehawken and Henry Hudson Regional High Schools, Orlick lettered in wrestling and captained the Weehawken High team in his junior year. As a senior, he transferred to Henry Hudson lettering in gymnastics and track. He was New Jersey Inter-scholastic Athletic Association champion in floor exercise in 1963.

He received a full scholarship to Syracuse University and worked all around and trampoline, leading the team as captain in his senior year. Throughout his undergraduate years, and while earning his master's degree at William and Mary College, Orlick remained on the Dean's list. While at William and Mary he was assistant gymnastic and diving coach.

Throughout his gymnastic career, Terry Orlick has won a host of gymnastic titles. He met his wife, the former Cathy Payne, through their mutual interest in gymnastics. They now reside in Upper Montclair.

SPORTS VIEWS

By JOHN DANTONI
MONTCLARION Sports Editor

The annual bloodletting affectionately termed intramural football, has once again returned to Montclair State College. This year the program shows several innovations with the field of teams being expanded from 12 to 16, and with the establishment of two leagues (American and National) and two divisions (East and West) of four teams within each league.

With the scrapping of the fraternity and independent league setup of the past, competition should be keener and leagues more evenly matched. Games are played on the baseball field and on the lawn in front of Webster Hall on Mondays at 5:15 and 6:00 p.m. and are well worth watching.

Montclair State's gridiron finally clicked on a TD toss as sophomore quarterback Ken Tecza hit end John McNulty with a 20-yard scoring strike. However, it was too late to prevent a 34-14 drubbing by Delaware State.

On the national front, the World Series will be moving into Detroit by the time this article appears, and the first Gibson-McLain showdown will be in the record books. However, I am still willing to go out on a limb and pick the Cards to tame the Tigers in seven games. Bob Gibson and pick the Cards to tame the

MSC Pool Opened
To Montclair Public

"We must develop the desire of people to use the facilities at MSC," explained Bill Dioguardi, concerning the opening of the MSC pool to Montclair city residents this summer.

Through the efforts of Montclair mayor, Matthew G. Carter and Dr. Thomas Richardson, MSC's pool was made available to Montclair residents for nine days.

This arrangement was made in connection with Montclair's summer program in which five pools throughout the city of Montclair were secured for use by citizens of the community. Of the five pools, MSC's had the highest average attendance and was principally used by families while the other four pools attracted youngsters.

Mr. Dioguardi, director of athletics at MSC, said that the turnout during these days was

COU RAGE

The co-advisors of BOSS are Mr. Michael Cryer and Miss Pat Gabriel. The officers are: Vernon Puryear, historian; Richard Byrd, recording secretary; Gwen Davis, corresponding secretary; Sandi Green, treasurer, Thomas Puryear, historian; Richard Bowen, alumni secretary.

encouraging — over 200 persons per day — and this increased the possibility of extending this program each year.

Mr. Dioguardi also stated that the physical education department is pleased with the reaction of students, faculty, and Montclair residents to the program.

IN A CRISIS, it takes courage to be a leader... courage to speak out... to point the way... to say, "Follow Me!" In a crisis, it takes action to survive... the kind of decisive action that comes from a man of sound instinct, as well as intelligence.

If America is to survive this crisis... if the youth of America are to inherit a sane and even promising world, we must have courageous, constructive leadership. The kind of leadership that only George C. Wallace—of all Presidential candidates—has to offer. That's why young Americans who really think support Wallace.
Sports Staff

Just what kind of man is Howard Doyle? It may be that people in different things. He is a football coach, a mountain climber and a mule driver. Before finding out what kind of person Howard Doyle is, one would have to know who he is. To the dozen or so members of the Montclair State varsity offensive backfield, he is "Coach Doyle," one of the new additions to the coaching staff of head mentor Henry Ferris. Mr. Doyle, who can often be found at the side of Coach Ferris during games and at practice, is a man of many interests and of an impressive football background. He played his high school football at Jersey City's Dickinson High School, where he excelled as a ball carrier. The University of Maryland spotted him and was so impressed that they offered him a scholarship despite the fact that he broke his ankle and had to sit out half the season in his senior year.

He went to the University of Maryland and played three years of varsity ball under Coach Tom Landfried. He had to sit out most of the season in the backfield, toiling the ball from his halfback and fullback positions. Other than football, one of Doyle's major interests is mountain climbing. Perhaps his biggest feat in that field has been his conquest of Mount Blanc, the highest peak in Europe. Mount Blanc is located in the French Alps.

Tome Summer was spent in the far West, climbing peaks in Colorado, California and Oregon and other states. His appointment to Montclair State's staff was not his first job. He spent two years at Westmont Junior College, where his football team went fourteen out of fifteen seasons in two years, losing only once by a single point. His immediate superior at MSC, Coach Hank Ferris, seems quite pleased with the work of Mr. Doyle and describes him as "a tremendous asset to the team."

"He's got a very impressive background," says Ferris. "He's very good with the kids; he is knowledgeable and is a very personable man. I just can't say enough nice things about him." Some of his players hold a somewhat different view, though all seem to agree that he is a very knowledgeable coach.

Greg Burkhardt, sitting on the sideline during a recent practice with an injured ankle wrapped tightly in adhesive tape, described him as hard. Greg, whose torn ankle ligaments are keeping him out of action in the backfield and has also sent Ferris hunting for a new punter, calls Doyle "quiet. He doesn't like to smile much." He seemed to agree with some that he is at times a mule driver.

Looking at this year's Montclair tribe, Doyle really could not elaborate very much, being that this is his first season in this area. He did talk a little bit about the season though.

"Looking at the whole season, there are an awful lot of good players under them. We're looking for the fall, 1968 season:..."
