job security was dismissed by Mr. McCoy, who pointed out that the governing board posed a threat to the education of community children. "It is ironical that schools now-suspended local governing board had requested the transfer of the commuting problems. As a result of student demands for a bugün of the recently appointed Laurence Ridpath, editor-in-chief of the COMMUTER CHRONICLE, has arranged for this to be set on Dec. 12. There was a similar meeting with Mr. Richardson earlier this year, held later in the afternoon. As a result, a new plan was chosen as a more convenient date. Dr. Constance Woller of the student personnel department, who deals with off-campus student problems, has suggested some of the probable topics. Another board meeting was discussed.

McCoy Reacts To Recent NYC Strike Settlement

Speaking of the community reaction to the six-week-old New York City teachers' strike and recent settlement, Rhody McCoy stated that the community has learned much from the action of the Board of Education and the United Federation of Teachers. "They agree to have the teachers return, yet are opposed to losing 'their principals.' They tried to operate under the law, but find laws do not apply to blacks and Puerto Ricans."

"Now more than every Oceanhill-Brownsville wants complete community control for both their schools and their children."

Mr. McCoy, the much-publicized administrator for the Oceanhill-Brownsville local governing board, gave these reactions when he spoke to a large audience at a CLUB-sponsored lecture Nov. 19. The philosophy of the board is built around decentralization and the UFT's strike. He emphasized that the new-suspended local governing board has been primarily concerned with the improved education of community children. "It is ironical that schools complain that ghetto parents do not participate in school affairs, but now complain that parents might be too active in school."

The possibility of the local governing board going on a strike to job security was dismissed by Mr. McCoy, who pointed out that the board had requested the transfer of 19 teachers out of the district, (Continued on Page 6)

English Convention To Discuss Urban Teaching Problems

Is there such a thing as the communications gap? Is there a difference between what is learned in college and what must be taught in an urban, (sometimes) ghetto high school? These and other pertinent questions will be discussed at MSC when the College English Association meets at Montclair State Sat., Nov. 23.

Mr. J. Pettegrove of the English department and a member of the program committee, said that the day-long conference will include a number of different speakers followed by roundtable discussions.

Dr. S.I. Hayakawa of San Francisco State College and author of several works concerning the teaching of English, will speak on the topic of "Mass Media and the Semantic Environment."

The topic "Tell It Like It Is Tradition and Transition" will be discussed by Dr. Charles Ray of North Carolina College.

In the afternoon the program will be held in the studio theater and begins at 9:30 Saturday morning. A conference fee of $1.00 will be charged and a luncheon will be supplied for an additional $2.00. The program ends with an informal gathering at the Robin Hood Inn.

To Discuss Urban Teaching Problems

The program will be held in the studio theater and begins at 9:30 Saturday morning. A conference fee of $1.00 will be charged and a luncheon will be supplied for an additional $2.00. The program ends with an informal gathering at the Robin Hood Inn.

Thieves, Vandals Attack MSC

Players, the drama group on campus, made public the announcement of the theft of about $125, part of the proceeds from their recent production She街道s To Goa. The proceeds were locked in a safe deposit box which was stored in a locked file cabinet. The thieves pried open both the file box and its contents to obtain the money. It was reported that the money was stolen on a day when the Players were on tour and therefore, the office was relatively empty.

Referring to the knowledgeability of the thieves, Mr. Scott MacConnell of the speech department stated, "Somebody must be doing his homework."

The theft is currently under investigation.

The second wave of vandalism in nearly four weeks hit the MSC Campus last weekend when the men's lavatory on the second floor of Life Hall was pillaged and the nearby Student Government office was broken into.

There were no eye-witness accounts reported, but it is believed that the vandals struck late Saturday night, Nov. 16. Damage is estimated at approximately $200.

The lavatory is reported to have suffered extensive damages, including battered doors, broken light fixtures, ripped out towel dispensers, and overturned trash baskets.

Rhody McCoy looks pensively as he reacts to student inquiries at the recent CLUB-sponsored lecture in which the noted administrator was featured.

(Continued on Page 3)
Youth Center Desires MSC

There will be an opportunity to see beautiful flowers, majestic Alps, and San Juan Islands on a week-long trip to "Sea Harvesting," all in vivid color, when Dr. Marie Kuhnen demonstrates a slide series entitled Alaskan Adventure. It will be sponsored by Sigma Eta Sigma, the science honor society. It will be shown on Tues., Dec. 3, at 7:45 p.m. in Mallory Hall, room 155.

Traveling through Alaska last summer, Dr. Kuhnen took countless slides which she will show to those who attend. Her presentation will include "harvesting" of fur seals on St. Paul Island in the Bering Sea as well as to accept a challenge and animal life of our 49th state.

In order to benefit the biology department's Valhalla Glen Project, a small donation of 50 cents will be collected. Valhalla, for those who do not know about it, is a small community area of 30 acres in Montville, New Jersey. This land offers a place for biology students to study a wide variety of trees, plants and animal life in their natural habitat.

Dr. Kuhnen has lectured previously on Canada, Africa and South America. Everyone is invited to attend.

Agora Isolated?
Fraternity Defends Itself Against "Unfair" Criticism

Agora brothers have staunchly defended fraternity after a recent wave of attacks upon their pledging tactics. The criticism has come mainly from students who feel that Agora unjustly involves and annoys disinterested students during their pledging, especially in the fall. Many of the members interviewed felt that the student body as a whole is unhappy against the fraternity in general. When questioned about the alleged off-color songs that pledges have sung in the snack bar, one brother admitted that occasionally there is vulgarity, but in the work of one or two and should be avoided. But Agora’s pledge master said emphatically, "It never happened."

All the brothers stressed that they do not purposely make the pledges bother other students. They feel that they have a right to sing in the snack bar if they wish. "Many students enjoy the singing too. They have laughed with us at the pledging parties."

They are first Agora members, then students of MSC, explained one Agora brother. "We do things by ourselves. We do not engage in, say, a tug-of-war with another fraternity."

Mr. John Mc Knight, director of Life Hall, has received a number of complaints about the pledging. He emphasized that there is nothing he can do because school policy allows pledging in Life Hall.

Cosla Collection Enriches Cultural Life of College

By WENDY MCCAUGHAN

Montclair State is the fortunate possessor of a number of paintings from the collection of Dr. O.K. Cosla and his wife Rose. The paintings portray characters and works by masters of many of the centuries in origin. They represent probably unaware of the existence Cosla Collection Enriches well-publicized in 1962 when Dr. to which paintings he was to collecting by one family. Four previously situated in Harry A. And Andrea DelSarto, and many others are exhibited. The collection Montclair State possesses have been well exhibited, and many of the works are most impressive. Most are portraits and group portraits of biblical figures, and there are two beautiful scenic representations. A list of attributions has also been published for those interested. Such great masters as Anton Van Such a resource in higher education

Refreshments will be served during the intermission. Tickets are available from any Sinfonian. They will also be sold in Life Hall and at the door.

Vandals

Musical America VII” Offers Evening Of American Music

Lambda Mu chapter of Phi Mu Alpha Sinfonia will present “Musical America VII,” an evening of American music. The program by the professional music fraternity will include a variety of choral and instrumental works. It will be presented on Tues., Nov. 26 at 8:30 p.m. in Memorial Auditorium.

The choral and instrumental conductors of both Sinfonias are John Cannizzaro and Dave Shapiro. Among the American composers represented will be Vincent Persichetti, Randall Thompson and William Simon. Mr. Simon is planning to attend the performance.

Also, works by Dr. Arthur Christmann, professor of music at MSC, will be performed. An instrumental composition by Brother John Mueller, a senior music major, is also included in the program.

This year’s performance is dedicated to the late Harry R. Wilson, outstanding music educator and former national president of Phi Mu Alpha Sinfonia.

MONTCLAIRON Page 3
THE MONTCLARION is published weekly by the Department of Publications of the Student Government Association, Inc., Upper Montclair, New Jersey, 783-8091 or 746-9500 (Ext. 353). Subscriptions are available at a rate of $2.50 per semester, $4.00 per year. Manuscripts, illustrations, or reprints are the opinions of the people submitting them and do not necessarily represent the opinions of the Editorial Board. Any correspondence should be addressed to the Editor of The MONTCLARION. The MONTCLARION reserves the right to edit and condense all letters and is not responsible for opinions expressed herein. Articles, columns, and reprints should be submitted to the editor of the section in which they are desired to appear. Articles and reprints will be published on a weekly basis, except during examination periods.

NEEDED: A POLICY FOR PLEDGING

With fraternity pledging completed and sorority pledging soon to begin, many opinions pro and con these Greek initiatives can be heard. A recent "Letter to the Editor" objected to the gross antics of a Montclair fraternity. If persons at this college have been insulted by these group actions, evaluation of the present pledging policies should take place.

We ask the Inter-Fraternity council to clarify its position on pledging. If no regulations have been set up, we ask for some IFC rules to be drawn up and enforced. These rules might take the following into consideration:

1. Pledging is initiation for one specific group, not initiation for the college. Therefore, the entire college should not be subjected to the antics of pledging.

2. Pledging should be off-limits in the snack bar and TUB, since a majority of non-Greks, faculty, visitors, College High students and college personnel use these facilities. Life Hall cafeteria could be the center for pledging activities.

3. Pledging should not take place during class time. No professor should have his class disrupted by any hazing practices.

It is hoped that all readers will not feel that The MONTCLARION is anti-fraternity. However, the Greeks have an obligation to the college to maintain its good name. Actions that insult or offend are only detrimental to the image of the fraternity, the Inter-Fraternity Council and the college.

THE PONY EXPRESS OF MSCP

The United States Post Office Department requires that mail be picked up and started on route the day it is sent. However, the mail service at the college, headed by Mrs. Barker, does not seem to do this. Delayed correspondence, for instance, is a regular post office on campus. Here, students would be able to purchase stamps, post office envelopes and stationery at the established U.S. government rates and would also be able to mail and receive letters and packages without the inconvenience of slow delivery.

RAMBLINGS

The New York teacher strike conflict has finally been resolved. Although the problem remains as to what to do to accommodate those who were hurt in the most recent crisis — the students of the New York school system.

* * *

The first evidence of a more than light snowfall hit the MSC campus on Nov. 12. The maintenance crew is to be commended for its fast removal of what could have been hazardous driving conditions. Special attention should be given, however, to the driveway leading from the lot behind the fine arts building to the freshman lot.

* * *

It is reported that many resident and off-campus students have very negative reactions to the existing food service. The lack of a balanced menu of starchy, fats, vitamins and proteins is the source of much student anxiety — and discomfort.

* * *

A new "open door" alias "necktie" policy is being investigated in the men's dorms in which female students will be allowed into the men's rooms provided that a necktie or some similar object is suspended from the outside door knob. College students are assuming there are enough to take responsibility for their actions.

* * *

The "blinking" traffic light on the corner of Valley Road and Normal Avenue should not be blinking by next week...or so we have been informed by traffic control officers.

ON CAMPUS SOCCER

HERE ARE THE FACTS:

Montclair State College has a winning soccer team that has recently competed in the National Collegiate Athletic Association college division tournament in Springfield, Mass.

Although an MSC team, the soccer players have their "home" matches at Brookdale Park, two miles from the Montclair campus.

Attendance at "home" matches has been reported to be very low (under 25).

HERE ARE THE SUGGESTIONS:

To attract more viewers to the games and to encourage team spirit, let's make the MSC soccer team part of the MSC campus. The baseball field or perhaps the football field are suggested areas for home soccer use.

Let's do all we can to have our team play on our campus.

PRODUCTIVE DAMN-GIVING

BY WILLIAM A. CAMPBELL

"GIVE A DAMN!" shout the placards that pass in the protest parades, and the poor added spectator, having no clear idea what is expected of him, pulls his little blue on white button from his pocket and pins it on his lapel. "We Care," it responds. Dialogue has been achieved. We'll have to do better than that.

So it is reassuring to hear that Montclair State College is setting out systematically to determine what kind of a damn it (a) should and (b) can give.

It has established a 10-member advisory council on urban minority affairs, manned it with agents of the big Negro and Puerto Rican communities on Montclair State's turf and commissioned it to discover what minority youth's problems are and what, if anything, the college can do to help solve them.

Lean, angular Thomas H. Richardson, president of the college, says educators appreciate the enormity of the issues, and he talks lean and angular sense about them. "The [advisory] council wishes to serve all communities, including our communities of color, with the sector largely neglected or not correctly understood until now."

I take him to be saying the college wants very much to care but wants first to understand what it is caring about.

IT IS A delicate subject, and David Reisman dealt with it delicately when he came to Washington one day this week to warn a convention of educators of the American Association of State Colleges and Universities — against which he undertook concern to recruit black students.

"I was at a small New England college last year," said the author of "The Lonely Crowd" and the just published "The Academic Revolution." "In town there were 11 or 12 Negro families. The college wanted black students."

All the colleges do.

SOMEONE asked him whether the current nationwide demand for black students is a fad. He started to say that from one point of view it looks like that, but went back and began again:

"A fad? Not exactly. That's a bad name to give a moral impulsion. They feel they have a moral commitment. They all say they have a responsibility. Yes, but where? I say to these colleges: maybe, given your location, your program, you ought to be working on a tutoring program for fourth-graders."

At one of the state colleges, Patricia the Editor's working on programs for fourth-graders — indeed, for students actually to start their career on campus, in the experimental school, before they're old enough for kindergarten. Some of them though still and all will go to the way through elementary school at the college.

It is in response to information fed into the college faculty by the community itself. But it is a phenomenon rare enough to be considered peculiar among the scholars, and it does not contradict Dr. Reisman's admonishment.

Perhaps instead of inviting the community to come onto the campus and improve its mind at a string quartet recital or a showing of impressionist watercolors the colleges should be going down into the community and showing women on welfare how to feed a family, the way the land grant colleges showed pitiful sufferers how to run a farm at a profit during the decades spanning the turn of the century.

And perhaps for the time being education can give its most efficacious damn by turning away from the black community entirely and concentrating its tutorial skills on the white community which will do something else. Of course there will be compounding the disaster. It is at least as constructive as shouting placards that pass in the protest.
To the Editor:

November 22, 1968

SOCCER RECOGNITION

The idea of a "Democratic Society" is more than majority and minority. The majority does not and indeed should not decide everything in a society. This is because we live in a constant calling for a general vote on the right of a group to organize. This has convinced me of the necessity of clarifying the concept of democracy which I believe common to most people on the left.

Groups such as SDS want the power over the decisions which affect the lives of people given to the people affected. This is balanced at the same time by a strong and constant concern for the rights of the individual. A group of people should have the right to decide how they will live when they are the only people directly affected but no large group of people have the right to force others to live in a manner determined by the majority.

Neither the SGA or the Federal Government of the United States should have the power to decide whether or not a group has a right to exist. They should not have the right to represent the organizations to the extent which they pose a real and direct threat to the constiuency which they represent. An organization representative of the public in general has the right to protect the public but not to repress any minority unless it can prove such action necessary to protect the public.

In protecting the public too often the real purpose is protecting property. The tendency in this country is to place the sanctity of property higher than that of the individual. At CORE the right to assemble and freedom of speech is not an equal right to those wishing to form as ADS chapter is viable. In addition to making the MONTCLARION vile, Mr. Levine has made it low! Where is your honor?

As to Mr. Innes, maybe it is not true in Missoula, but in a large part of this country a man is innocent until proven guilty!

UNEDITED ETHICAL

To the Editor:

I don’t write like writers. But the article of Nov. 8 by Mr. David Levine was such a fine piece of work that even I could not help but notice its fine quality. The MONTCLARION articles this semester, happen to have the 10-1 record. The quality is high and represents the name of Montclair State in the NAIA tournament. And if you or any of your students haven’t noticed it yet, you should.

I would also like to say that students might also be better informed on their soccer team, if we were allowed to have our games ON CAMPUS. Last year, we were allowed to play on campus but it was found out that it interfered with the football team’s practice sessions. This year, we didn’t want to practice on their own field. When this was noticed, we were removed from campus and back down to Brookdale Park.

I feel since the soccer team, at least, has a WINNING record, the students should have the right to watch a winning team without having to travel two or three miles off-campus.

I would like to say one last thing to you, editor of the MONTCLARION for our off-campus dispute, but I would like to say more supporting the students explaining their feelings about our school spirit, or lack of it, and about our athletic representation on our campus.

JOE MCALLISTER

UNDERGROUND NEWSPAPER

To the Editor:

What's new about THE OTHER? Nothing really! Mealy-mouthed, rubber-nosed, grammar school malcontents have been performing such intellectual appraisals for years. You misguided morons certainly chose an appropriate model to emulate. I'm not at all surprised that you didn't sign your name to such a piece of trash either. I wonder how you can say that you want to be respected? You didn't even have the courtesy to sift through to find your stimulating and authoritative statements.

Even though you didn’t list your names some of us already knew who you are. Please, do try to be a little more clever next time you publish your rag.

Yours in capital letters for all to see,

WILLIAM S. EICKHORST

The other day my old friend Laura Martin, sophmore social studies major, revealed that he was the guy that inserted the "Montclair Other" advertisement in last Friday's MONTCLARION.

The advertisement read: "special Soon! 'The Montclair Other.'" And it cost him four-bits to say it.

As it turned out, Mr. Mair wanted to turn this campus "right side up" by printing articles in a campus-circulated underground bulletin aimed at halting apathy in its tracks right here at Montclair State College.

What happened? I asked.

"Well, you see ... it's like this, Dave," Laurin began, "I had six guys that were supposed to write for me. And they all chickened out.

"You mean they became apathetic?" I asked.

"Well, sort of. . . . We have too much work with the underground sheet. . . . And I guess some of my friends went over there."

"What about the rest of them?"

"Oh, who knows?" he sighed.

"And furthermore, I don't really care."

"And by the way. . . are there any positions open on the MONTCLARION for a reporter?"

"Laurin asked.

"Why? Do you know anyone interested in working for us?"

"You . . . me!"

The Valley Road kid recently observed: If Jean Dixon married Jackie Mason, she'd be Mrs. Maso-Sobieski. And if Lucille Ball married British diplomat Sir Hugh Foote, she'd be Mrs. Foote-Ball.

Believe it or not, dear reader, Rich Inley and this reporter are working toward "mutual understanding," we're setting up our own "cultural exchanges."

It lets me read his World Marxist Review and I let him read the Cox Commission Report. By his way, we've both getting an "incite" into each others belief!*

Ask Charlie the Janitor (second floor, Life Hall) how business is, Charlie said: "It's pickin' up."

It has been said that if the Bill of Rights were submitted to a vote, it would be abolished. Sanity administrators, believing voters had not yet given this power yet, the right to assemble and freedom of speech is not an equal right to those wishing to form as ADS chapter is viable. In addition to making the MONTCLARION vile, Mr. Levine has made it low! Where is your honor?

As to Mr. Innes, maybe it is not true in Missoula, but in a large part of this country a man is innocent until proven guilty!

IN APPRECIATION

To the Editor:

I wanted to write and thank you for the efforts your newspaper and the students who write for it have in the past three months in support of the bond issues. This is a happy day for the future of public higher education in this state, and I want you to know how much I appreciate the educational and informational work you and the students have put into us. I am sure they will provide us with a full report on the road towards developing an undergraduate education in this state.

Sincerely,

RALPH A. DUNGAN
Chancellor

State Regency testing in order to be eligible for college entrance. The students have sought entrance into the already overcrowded private schools, but testing and academic facilities are limited.

The seniors have already missed the PSAT's (Preliminary Scholastic Aptitude Test) which in New York is a factor of eligibility for financial aid.

"Why does this have to happen to us?" was raised by one senior at Brooklyn Technical School. The students are not taking part in the strike, but receive the greatest injury. For them, there is only one question, "When will the schools reopen?"
An Underdog Fights for Life

By DON PENDLEY
Staff Reporter

It's a well-known fact that people often favor the underdog — he is just beginning, armed with nothing more than a dream and guts. WFMU-FM at Upsala College is just that. Housed in offices in a two-story private home where cracked walls, bare lightbulbs and doors that do not lock are the rule, the station is a perfect example of the "free-form" concept in radio as of July of this year.

WFMU, which broadcasts at 91.1 FM and originated its "free-form" concept just recently, has already had a large following. A second program, "The Closet," which ended Nov. 12, and a third, "Night Owls," currently exist, wherein an "free-form" concept just recently. "The Closet" included "So...what's the word..." and "The Closet Of..." and "The Closet..." among others. However, the station is still a long way from its goal of expansion.

WFMU has been plagued with financial problems since its recent change in programing. And many have been financial problems. The college, much to the dismay of the staff, has little money to give to the station, and since the "free-form" concept eliminates, by its very nature, anything as limiting as commercials, it must turn to its listeners for contributions.

In an effort to increase funds, WFMU has held two benefits, one during the summer, lasting 129 hours and netting $1,000, and another this month, which ends Nov. 19.

However, the station is still short on funds and for this reason has been limited its broadcasting.

'Queries'

(Continued from Page 1)

concern the new exit from campus, playing spaces and policies, snow removal, the bridge over the railroad tracks and budget cuts. Also problems concerning the future of MSC, the construction of more dorms which would reduce the number of commuters, and the future enrollment plans of the college will be discussed.

Dr. Richardson, as a member of the panel, feels that the meeting is a "splendid" idea. "The students," he said, "are probably more sensitive to the problems existing on campus as they are directly concerned. Thus they will be able to offer closer insights into the matters at hand.

PHI SIGMA EPSILON

Congratulations to the newly elected officers for this year: Jay Huddnut-president, Vic Buocci-vice president, Larry Hug-jt.g.-vice president. Joe Peaspan-record secretary and Wayne Tutuzara-corresponding secretary.

Good luck to this semester's pledge class: Matt Carrera, Jim Cusidly and Keith Woltman.

Welcome back to the station, and since the "free-form" concept is affectionately called by the WFMU staff, broadcast on several AIM and FM stations.

The WFMU staff then switched its programming to the "free-form" concept which currently exists, wherein an announcement will have a shift lasting several hours, during which time he may play any type of music he wants, from classical to "shock rock," as long as it pertains to the basic theme of that show.

WFMU has been plagued with financial problems since its recent change in programing. And many have been financial problems. The college, much to the dismay of the staff, has little money to give to the station, and since the "free-form" concept eliminates, by its very nature, anything as limiting as commercials, it must turn to its listeners for contributions.

**Why Not A Free Cut System To End Regurgitation?**

By RICH KAMENCIK

Why can't the students at MSC enjoy a free and unlimited cut system? It is difficult enough that so many courses are often simple exercises in verbal regurgitation. But if MSC students have the simple common sense to avoid the dull lectures and the arm-aching note-taking, they may be penalized by tradition-chained systems. They are surely eager to maintain an official affiliation with their own group, the SGA along with the names of the elected officials for certification.

**SDS At Montclair**

**Students Write Constitution And Choose Officers**

By THOMAS R. MANNING

The unchartered MSC chapter of Students for a Democratic Society met on Friday evening, Nov. 15, to elect officials and to ratify a constitution.

The president of the SDS chapter is Richard Insley; the vice-president, James Rotonda; the treasurer, Maureen Mills.

The proposed constitution was accepted by the group and will be presented formally to the SGA along with the names of the elected officials for certification.

**Playtex invents the first-day tampon**

(We took the inside out to show you how different it is.)

Outside: it's softer and silky (not cardboardy). Inside: it's extra absorbent...it even protects on your first day. Your worst day! It flowers out...it even protects on the average than the leading regular tampon. Actually 45% more absorbent on the average than the leading regular tampon. Because it's different. Actually adjusts to your body. It flowers out. Fluffs out. Designed to protect every inch of you. So the chance of a mishap is almost zero! Try it fast. Why live in the past?
‘She Stoops To Conquer' Reviewed by BONNIE MARRANCA

One of the curiosities about things man that he learns by his mistakes. This is his redeeming quality. The other night She Stoops To Conquer, subtitled The Mistakes of a Night, was presented by Players in Memorial Auditorium. There were many mistakes that night - overacting, rapid speech, stilted movement, undeveloped characterization. Probably the biggest mistake was the theme of the play. Considered by many to be one of the best Restoration comedies, this Eighteenth century play by Oliver Goldsmith is a full of witty dialogue, farcical situations, screen scenes (here relegated to a terrace scene) and mistaken identities.

The cast simply lacked the understanding and feeling of the Restoration era to bring this comedy to life. The plot is very simple. Marlow and Hastings are on their way to Mr. Hardcastle's home where Marlow is to be introduced to Miss Hardcastle. On the way, Tony Lumpkin, Hardcastle's stepson, who pretends that the Hardcastle chambermaid was excellent on their way to Mr. Hardcastle's home is introduced to Miss Hardcastle. On the way, Tony Lumpkin, Hardcastle's stepson, who pretends that the Hardcastle chambermaid was excellent.

The production was graceless, with change in accents remarkable. Tony Lumpkin as played by Jack Mageean was too much of a coquettish fellow in a full of witty dialogue, farcical situations, screen scenes (here relegated to a terrace scene) and mistaken identities.

William Higbie captured the grumbling spirit of Mr. Hardcastle but his speech was too fast. Lynn Gehring's subtle transition from Miss Hardcastle to the chambermaid was excellent. In a sense as anything I’ve seen, in professional theatre. The stage movement was graceful, and her change in accents remarkable.

New York Scene Of Career Day

College students, both men and women, from 137 campuses in the New York metropolitan area, will attend the National Career Exposition at the New York Coliseum, Dec. 5 thru 8. The Exposition marks a first. Now a substantial number of employers from both private and public sectors will be available at the same time and place to make available information concerning their activities and job/career potentials.

This getting-to-know-you experience will be accomplished through the use of audio visual techniques, graphic displays, descriptive literature, films and career workshops conducted by experts in many fields including health, education, government, finance, commerce and industry. There will be representatives from the various companies and government agencies in attendance to answer any questions that students may have in mind.

She Stoops To Conquer

The organization in charge of the maintenance of certain non-academic facilities at Montclair State, including Tudor and Life Hall lounges, is the War Memorial Board. The board is dedicated to the memory of war dead from World War II to the present. The primary concern of the board at this time is matching the funds students contribute to Margin for Excellence with funds of its own. These monies will go toward the construction of the new student union building. In addition, the board is considering expanding from nine to possibly 12 members. The new members would all be students.

State funds do not usually supply money for the construction of non-academic facilities. Therefore, money for such things as TUB, student and faculty lounges, game rooms, and air conditioning has to come from private contributions. The War Memorial Board defines role

MSC's Future

THOMAS BOLTONOFF

Education Editor

In less than two years, MSC plans to enlarge its enrollment from the current 4300 to 5500 full time undergraduate students.

Additional facilities such as Partridge Hall are already under construction, in addition to the institution of curriculum changes.

The profession-orientation of Montclair State is being phased out.

MSC hopes to expand its curriculum to include Schools of Humanities, Foreign Languages, Behavioral Science, Fine and Performing Arts, Applied Arts and Sciences, Management Theory and Practice, and Mathematics and Science.

Establishment of various departments under these major schools will allow more extensive studies in the various fields of interest of contemporary society.

Alienation of the various fractions of the academic community is, however, becoming an increasing problem. Montclair State has traditionally been men and women of different backgrounds, learning and intellectual interests joined in a deep commitment to the pursuit of learning.

Speculation about the purpose of man and the value of education in his society in the form of seminars and relations laboratories will intertwine the collegiate studies.

Integration of the fields of interest and general background programs will provide effective means to a more liberal and united understanding between scholars.

The MSC of the future will be a multi-purpose institution concerned with wide spread interests and endeavors.

And mass media will encompass the student with the most effective and modern atmosphere of learning. MSC looks to the future with the same pride it reflects to its past.

Indians to feature running attack, defense

"This is one of the quickest teams I have ever had," Montclair State's basketball coach Ollie Gelston related. "We should be able to run and we could be able to play defense. This team has the potential to become an excellent defensive club." It also probably will be the best ball club ever in Montclair's history.

This Indian squad is used to playing together; it is also used to winning. Luther Bowen (captain for the second straight year), Mike Oakes, Bob Lester, Dave Conroy, Bill Fryczynski and Keith Neigel are playing together for the third straight season. Bob Sienkiewicz and Rich McGuire saw a great deal of action last year.

Over the past two seasons these Indians have compiled a 40-13 won/loss record, winning a conference championship, a pair of Northern New Jersey Kiwanis Classic Championships and two straight bids to the District 31 NAIA basketball tournament.

However, a winning season will not come easy. In fact there is no guarantee of even a New Jersey State College Conference flag. Gelston does not rank the Indians as being one of the better shooting ballclubs. "There is no one player," he stated, "that you can depend upon to get you 20 points every night. On the other hand, I don't think that you'll find many nights when all five starters will be off."

The second of Gelston's problems will probably be solved by Harry James. James, who transferred from Northeast Missouri State last season, will be paired with Luther Bowen in the backcourt, reuniting the former East Orange teamsters.

Major stumbling blocks along the way will probably come from teams such as Fairleigh Dickinson, Central Connecticut, East Stroudsburg, Western New England and Bill Boylan's Monmouth Hawks. Trenton State, Jersey City and Glassboro could be tough on a given night in conference action.

Other problems for the Indians are the development of a better shooting game and the finding of a backcourt replacement for all-time MSC career scoring leader Bob Gleason.

Gelston does not rank the Indians as being one of the better shooting ballclubs. "There is no one player," he stated, "that you can depend upon to get you 20 points every night. On the other hand, I don't think that you'll find many nights when all five starters will be off."

The second of Gelston's problems will probably be solved by Harry James. James, who transferred from Northeast Missouri State last season, will be paired with Luther Bowen in the backcourt, reuniting the former East Orange teamsters.

All things considered, though, the height, speed and depth of this year's squad should carry it far.

The bench is especially strong with 6'5" Willie Moss, 6'1" Jeff Boulet, 6'5" Rich McGuire, 6'7" Keith Neigel and 6'7" Bob Mooney in the forecourt, and Rich Bowen and Bill Fryczynski in the backcourt.

All in all it looks like the Chinese calendars may prove wrong; for 1968 may well prove to be the Year of the Indian.
**Bring the MSC soccer team back to campus!**

By CHRIS MACMURRAY

Many articles have appeared in the MONTCLARION attesting to student apathy and lack of school spirit. The students are not always to blame.

Montclair State's varsity soccer team, which has been in existence for 10 years, has played a grand total of two home games on campus. All other home games, as well as practice sessions, have been held at Brookdale Park on Grove Street, 2 miles from campus.

Gus Migliore, the team's center forward, was asked to comment on the advantages of playing home games on campus.

"Last semester we played Jersey City State and NCE on campus. Not only was the field (baseball field) considerably better than that at Brookdale, but also attendance skyrocketed from about 20 to approximately 200. Student support does wonders for the morale of the team, but how can students without cars be expected to travel to Brookdale to see our games? If the games were held on campus, students could walk to them in five minutes."

"The baseball field is now being used predominately for JV and varsity football practice. How can the practice of one sport be rated above the games of another? This seems to be the case at MSC."

One might ask what would be the conflict if football practice should the soccer team play their home games on campus? This question was answered by Frank Arvia, the soccer team's left wing.

"First of all, we play every other game on Saturday afternoon, at which time the baseball field is not in use. Of our week-day games, every other one is away, so conflict would boil down to EVERY OTHER WEEK, which amounts to about four games in an entire season. I personally scouted each freshman, so the football team could afford to practice on the side of the field and in back of the baseball stands for a couple of hours once every other week so that the soccer team could come back on campus."

Frank continued, "Intramural football was recently allowed access to MSC's field for a night game under the lights. It seems that the soccer team also deserves this kind of consideration. We have the best record, 11 wins one loss, in the history of MSC, but we still can't get the attention we deserve."

Arvi Saur, center fullback, discussed the possibility of raising the baseball field so that the soccer team be allowed to use it.

"This is one of the reasons our team has been denied access to the field. But we couldn't possibly hurt the field more than the football players do. Our cleats are made out of rubber whereas football spikes are of metal. Football spikes are also longer than those of soccer."

Arvi also asserted that even though soccer is rapidly becoming a very popular sport in America, MSC's soccer team feels pushed aside.

"We're not asking to practice on campus," continued Arvi, "we just want to play our home games here."

On close examination, the entire situation seems to be one of outright bias. No valid reason can be found to sanction the fact that the best soccer team MSC has ever seen, a soccer team that has received a bid to participate in NCAA competition (National Collegiate Athletic Association), a soccer team that views next semester as an undefeated season, a soccer team that deserves the support and attention of the MSC student body, should be forced to play its home games away from MSC focus.

Gerd Trommer, left fullback, put it this way.

"This season the '68 varsity soccer team broke MSC's win/loss record. Our team has done well off campus with limited support from the students, support that we need and want so badly. So far this has not influenced the proper authorities to bring the soccer team back where it belongs. What will happen to the '69 team?"

**Basketball yearlings face tough year**

Elder names McGuirt, Heck co-captains

By KEN TECZA

The advent of basketball season at Montclair has once again brought together another group of outstanding freshman cagers. They will be playing a 16-game schedule plus participating in the second annual Newark College of Engineering Junior Varsity Tournament.

Coached by Bob Elder, now in his second year as coach, the Indian yearlings will be looking to put together another winning season. Over the last two campaigns the freshmen have posted records of 21-0 and 19-1.

Head Coach Ollie Gelston, who personally scouted each freshman, has high hopes for this year's squad and for their future use on the varsity.

Those players being counted on this season are Bob Heck from Teaneck and Brian McGuirt from Cliffside Park. These two have already been selected co-captains of this year's team. Also being counted on heavily are Clifton's Ken Wallen, who played at Pope Pius XII in Passaic, and Todd McDougall from Xavier High in New York. Other members of the squad include Ralph Smith from Wallington, Clark Allen from Preakness, Glenn Hedden of Verona High, Hackensack and Bruce Davis from Newark.

So far the young Indians have had only a pre-season scrimmage against a strong Fordham frosh team. Coach Elder was satisfied with their performance and is "optimistic" that the team will win as it has in recent years. This year's game against the Army Piebes will have a special meaning in that the only field to beat a Montclair freshman team in the last two years. Overall the two-year frosh record now stands at an amazing 40-1! The future looks bright for this fine crop of freshman and they should contribute to the varsity team which has already established itself as the most consistent winning sports team at Montclair State.

**The 1968 Freshman Basketball Schedule**

**MSC Frosh gridders complete successful inaugural campaign**

By CHRIS MACMURRAY

Montclair State College's first freshmen football team under the direction of Coach Testa began an outstanding success this season posting a record of four wins and one loss.

The young Indians posted wins over Rutgers, East Stroudsburg State (Pa.), Central Connecticut State and W. N. Post. The lone defeat was suffered at the hands of Southern Baptist College of Evangelical Baptist Seminary at MSC.

Bob Brewer, former Westfield High School star, and Ron Gara, standout last season at Somerville High School, were the offensive leaders for Coach Testa.

Brewer, alternating at quarterback with Gara, led the team in scoring with 26 points. The talented signal caller scored one touchdown and eight extra points in as many tries. In addition, he booted four field goals in six attempts.

Larry Adams, all-state tackle last year at Caldwell, and Bob Rusignolotto, former Bloomfield High star, each scored two touchdowns for 12 points.

Doug Salvatoce, defensive end from Passaic Valley High, Glenn Hedden of Verona High and Lee Neger of Caldwell High each scored one touchdown.

Rusignolotto was the Indians top ground gainer with 209 yards on 232 yards for a percentage of 80 carries.

November 22, 1968

MEET THE MSC VARSITY

Luther Bowen — (5-9) — Sr.
Team captain and floor general of the 1968-69 Indians. Luther, starting at guard for the third straight season, is one of the best at his position in the New York area. Led Indians last season in total points (465), average (17.3), field goals, and free throws. Begins season in 7th place on all time MSC scoring list with 1,268 points. Excellent playmaker, passer, and end man on the fast break.

Mike Oakes — (6-5) — Sr.
Will probably man the other forward position. Good height, adds help on the boards. Particularly effective off the offensive boards where he collected many of his points (563 for a 12.9) on so-called "garbage shots" created by being in the right position at the right time. Led Indians in field goal percentage (.595) and a high single game output of 32 points. Received Sportsmanship Trophy for his play in last year's Kiwanis Classic.

Dick McGuire — (6-6) — Jr.
Brings nine years of coaching experience and a lifetime record of 145 wins and only 70 losses into current campaign — his second season as head coach of the Indians. Eight years of coaching including two District +31 NAIA championships at rival Jersey City preceded Gelston to Montclair. Posted 20-4 record last season including the championships of both the Northern N.J. Kiwanis Classic and the N. J. State College Conference, and a second place to NAIA playoffs.

Bill Fryczyniski — (5-10) — Sr.
Good solid performer who is a handy man to have in reserve. Can fill in at either guard or forward. Used in spots last season, Keith tallyied 67 points for a 2.8 norm. Can come off the bench and pick up team with his shooting.

Mike Oakes — (6-5) — Sr.
Will probably man the other forward position. Good height, adds help on the boards. Particularly effective off the offensive boards where he collected many of his points (563 for a 12.9) on so-called "garbage shots" created by being in the right position at the right time. Led Indians in field goal percentage (.595) and a high single game output of 32 points. Received Sportsmanship Trophy for his play in last year's Kiwanis Classic.

Bob Lester — (5-9) — Sr.
Outstanding leader who can and has played all positions for the Indians. Will probably again be used as a swing man between back and fore courts. Just 6-2, Lester is a vital cog in the Indians fast break by quickly pulling down the rebound and either streaking downcourt or snapping a pass. Led team in rebounds with 516 including a game high of 28 caroms against Monmouth College. Excellent defender who excited crowd with blocked shots and unbelievable height on jumps. Can also score when he wants to as his 344 points (12.3 avg.) attest.

Dick McGuire — (6-6) — Jr.
Brings nine years of coaching experience and a lifetime record of 145 wins and only 70 losses into current campaign — his second season as head coach of the Indians. Eight years of coaching including two District +31 NAIA championships at rival Jersey City preceded Gelston to Montclair. Posted 20-4 record last season including the championships of both the Northern N.J. Kiwanis Classic and the N. J. State College Conference, and a second place to NAIA playoffs.

Keith Neigel — (6-3) — Sr.
Aggressive scrappy defender who unfortunately is playing in the shadow of his brother. Will come into his own, only needs time and a little more experience.

Jeff Bossett — (5-1) — Soph.
Bidding for varsity berth after fine season with the freshman team. Excellent leaper who could be used to fill in for Lester.

Bob Mooney — (6-3) — Soph.
Aggressive can be attested to by checking the "Mooney Chart" in Panzer gym listing the injuries inflicted by his hard charging play. Goes to the basket — and don't get in his way when he does. Also on varsity baseball team.
Dan Rodgers nabs first TOP trophy

The men of TOP and the students of MSC extend sincere congratulations to Dan Rodgers for a job well done.

Mahercoachof JV hoosters

UPPER MONTCLAIR

The appointment of Charlie Maher of Bloomfield as junior varsity basketball coach at Montclair State College has been announced by Dan Rodgers, director of athletics.

Mather, a 1966 graduate of Montclair State, will assume his duties at once. He succeeds John Meyer who resigned last month.

He attended Marist High School in Bayonne where he played varsity basketball and baseball. He captained the basketball team in his senior year.

At Montclair State he played two years of varsity basketball and baseball. While a senior at Montclair he was assistant basketball coach at Don Bosco Tech in Paterson (NJ).

During the 1966-67 basketball season he was head basketball coach at Kenesaw High School in Southington, Connecticut. He became head basketball coach at Queen of Peace High School in North Arlington (NJ) in September, 1967 and a post he will continue to hold.

In addition to his basketball coaching at Queen of Peace, he is in charge of the Montclair State wrestling team.

Smith Eyes Record

UPPER MONTCLAIR - While John Smith is not scoring goals anywhere near the balanced attack Montclair State has developed this season, the Smith Line is a well-drilled unit that does not look to any one man for its scoring.

Smith, only a sophomore, is already well on his way toward setting the most significant goal for a goalie - a shutout. The record, set in four seasons, is 39 goals by Jim Ballard.
