Annual Greek Song Fest
To Benefit Heart Fund

By JEANNE SCHNEIDER

“Put on a happy face,” says Dalpach, “and attend our 13th annual Greek Sing tonight.” Dalpach’s song and dance rendition of “Put on a Happy Face” will open the event at 8 p.m. in Memorial Auditorium. In addition to having an evening of entertainment, the audience will be helping the Heart Fund who will receive a portion of tonight’s proceeds.

Seventeen fraternities and sororities will be competing for trophies in tonight’s contest. Awards will be given to the first and second place fraternity and sorority and to the best all around group.

Lack Of Manpower Blamed
Tighter Campus Security Planned,
Lighting System To Be Installed

By LINDA MILLER

The Black-White Committee, an outgrowth of the Student Personnel Committee, is a group of students and faculty organized to investigate and discuss racial problems on the MSC campus as well as in the surrounding communities.

Within the committee are two sub-committees. One will be arranged on a seminar basis with small groups of students and faculty discussing general problems that arise between racial groups. Dr. Leonard Buchner of the psychology department will help this group organize their seminar program and will instruct them in sensitivity training.

The second group is working to find a solution to the housing problem that faces black students. They have met with Mr. Basu, head of the Fair Housing Committee in Montclair, presenting and discussing problems and offering her permanent membership.

Mr. Curt Jackson, chairman of the Black-White Committee, felt sides of the problem should attend the general meetings so that problems and disagreements could be aired, eliminating any misconceptions.

Concerning the Conference

The administration-sponsored decision-making conference recently brought together selected administrators, faculty and students for two days of meetings. The purpose of the gathering was to discuss and amend the Tentative Statement of Policies and Goals concerning the future of Montclair State College.

But before the future goals were discussed, the conference brought out problems basic to the immediate future of the college. These are problems which must be settled before long-range goals can be enacted.

It is felt that by immediate improvement in certain areas, long range improvement will be more easily implemented. Some areas of concern are:

- Communication between faculty and students is needed on the department level for the discussion of curriculum changes.
- Student representatives at these conferences are presently chosen by the administration. The student representation should be a matter of selection by the students themselves.
- The present faculty adviser policy should be improved to provide accurate and timely information for all students.
- Library facilities should be enlarged to further the academic work of the institution.
- Preliminary work in these areas of concern will help settle before long-range goals can be enacted.

What about the list of committees and their members? I thought you might be interested in this item taken from the Nov. 22, 1968, issue of the MONTCLARION ran a Chemical and Engineering News column on the MONTCLARION ran a column “From the President’s Desk.”

The academic community regarded this column “From the President’s Desk” and the president set up just such a voice for the faculty in these various areas of concern and will continue to do so.
Financial Aids

GUARANTEED BANK LOANS

FINANCING OF LOANS

Loans are made by any qualified lending institution in New Jersey which has agreed to participate by having loans made guaranteed by the New Jersey Higher Education Authority.

RATES AND TERMS OF LOANS

A student borrows from a lending institution on promissory notes as needed for each school year. Certain qualified promissory notes as needed for have the full interest paid on their behalf by the federal government while in full-time enrollment. During the repayment period, which must begin no later than nine months following graduation or withdrawal from school, the student pays 7% simple interest. Students are eligible to borrow but not eligible for federal interest subsidy must pay the full interest on these loans starting at the time the loan is received. The maximum rate permitted by law is 7% above prime interest.

When the total loans to any student exceed $2000, repayment of principal and interest may be made by monthly installments over a period of not less than five years (unless sooner repaid) or more than ten years. The minimum payment permitted by authority policy is $30 per month. It is to the student's advantage to repay this obligation as soon as possible.

Maximum loan amounts are: freshman year — $1500; sophomore year — $1250; senior year — $1000; graduate year — $750.

Total undergraduate loans may not exceed $5000. Total loans including graduate work may not exceed $7500.

FILING OF APPLICATION

Normally, applications should cover the needs for the student's entire school year and should be submitted during the two months prior to the start of the academic year for which the loan is intended. They may, however, be made at any time. No application may apply to expenses in more than one academic year. For succeeding years, the student may re-apply for needed college loans.

For further information concerning this program, please see Mr. Neuner, in the Student Personnel Office.

Letters To The Editor

(Continued from Page 1)

approaching fifth year, I look at student activism with a rather dim view of their awareness of anything that goes on at this campus or for that matter, in the world. This ever-present stigma of apathy has been present on this campus for quite some time and something must be done to motivate students to become more involved now than ever before.

I have been very much disturbed by the progress of the SGA this year. I don't know exactly who should be blamed; I guess 1 would place the fault on myself. I was aware of the problems that I was interested in solving but also my mental attitude. As an example of how "mass media are the shapers of our semantic environment," he cited the immense build-up of Black Power by TV camera and news writers. Also, Dr. Neuner examined the Pandora's role-playing of the evil and satanic connected with blackness furthers the subsequent white policeman's fear of black.

Yet despite the present racial tension, Dr. Hayakawa maintained that America was able to reconcile cultural differences in the past, now too, it can resolve these conflicts in a spirit of hope. Dr. S. I. Hayakawa was named President of San Francisco State College by Gov. Ronald Reagan on Nov. 26, 1968. This occurred after Robert R. Smith resigned from his position as President after a brief, six-month stay.

San Francisco State has been, he recently by campus demonstrations and turmoil that have occurred as a result of the demands of minority students and faculty. The campus disruptions have centered around demands for black and international studies from minority groups in the student body and faculty.

representatives act as liaisons between the students, taking stands on vital issues common to them all.

CUE’s dual purpose is to work for the passage of legislation to help meet the needs of higher education in the state and to inform the citizens of “the increasingly serious problems facing our universities of higher learning in the state” and “of the failure of the State in the past to satisfactorily solve such problems.”

**Involve key to minority problems**

By DAVID M. LEVINE
Features Editor

*“You just can’t do things for people, you have to involve them.” That’s the word from Dr. Thomas H. Richardson, Montclair State president and founder of the college’s new Advisory Board on Minority Problems.*

Established early in the semester, the board plans to “provide added insight into the problems of minority youth” and how Montclair State should be involved.

“It’s the key,” asserts President Richardson, and “community involvement is nothing new for our college.”

Ghetto Residents Involved

And with that in mind, the president selected 10 people familiar with ghetto problems, ranging from ghetto residents themselves to civil and business leaders from areas such as Newark, East Orange and Passaic.

“They’re going to look at the campus objectively, examine courses and programs to find out just how all of this relates to the needs of minority children. The board will then make recommendations to me concerning our role,” states Dr. Richardson.

**Hemmel winner in Lambda tournay**

By TOM BENN

Junior fine arts major Bob Hemmel is the winner of the first annual Lambda Chi Delta Tennis Tournament held last month on Montclair’s new tennis courts. Hemmel survived a field of 22 entrees.

Hemmel won his gold medal with an 8-6, 6-2, 6-2 win over wiry freshman Mike Delmarra.

A motor used in our Homecoming float is missing. It is part of a child's toy. If anyone has any information concerning this, kindly contact any sister of Sigma Delta Phi. Thank you.

**Indians crush FDU 100-61, end fifteen year drought**

By JOHN DANTONI

Montclair State College parlayed a pair of ballhawking guards into the formula to end a fifteen year jinx, as the Indians crushed archival Fairleigh Dickinson, 100-61, Saturday night before an overflow crowd at Panzer Gym.

Luther Bowen and Harry James, the Indian guards, worked the Indians pressing defense to perfection as time and again the duo would double-team, rob the ball and pass downcourt to the other for easy scores. Bowen finished with 25 tallies before leaving midway through the second half with a cut eye. James, in his varsity debut, added 18 points.

Besides unveiling their new scoring punch, the Indians’ convincing victory marked many items to the plus side of the Indians ledger.

Meanwhile, the first ever Against the Knights from Rutherford in 15 games dating back to 1951-52. The Indians’ point total of 100 is a new series high-breaking the 88 scored by FDU in 1965-66.

* MSC proved that it can win with its super subs as Keith Neigel, Dave Conroy and Willie Neigel cam off the bench to provide relief for foul-bound regulars Bob Lester and Bob Boikiewicz.

Fairleigh Dickinson started fast by scoring on a layup by Howard Weinstein to open the contest. Then after MSC tied it on Bowen’s layup at 2-2, the Knights moved to a five point bulge at 10-5.

Montclair State moved into the lead for the first time, 13-12, on a jump shot by Ron James with 12:25 remaining.

The score was then tied twice and there were over lead changes before the Indians took command in the last four minutes of the game.

Here MSC mentor Ollie Gelston broke out his full court press and Bowen and James went to work as the Indians scored 18 of the last 20 first half points in 14 minutes to a 46-30 lead at interval.

The Indians, perhaps thinking of the legendary FDU box, refused to let up in the second half as a milestone ending any Knight comeback hopes.

Dick McGuire’s corner jump shot for the 100th Montclair State score was just icing for this long awaited Indian win.

Montclair State’s freshmen made it a clean sweep for the Indians by dumping the FDU yearlings 70-53.

Tod McDougald paced the MSC freshmen with 19 points, while Charlie Swigon had 14.

**Involvement key to minority problems**

Definite Ideas

Meanwhile, members of the board “have some very definite ideas about education and its relationship to ghetto children.”

“We must first get a real insight into the lives of disadvantaged children,” states Mrs. Viola Fudge, East Orange inner-city resident.

“But what concerns me most,” she adds, “are the problems currently being faced by disadvantaged children. Broken homes, poor living conditions and lack of money discourage children, and they soon drop out of school.”

Mrs. Fudge adds that the best way to keep ghetto-kids in school is to “develop meaningful curriculums.”

Ghetto Life Frustrating

But Mrs. Edna R. Thomas, Newark civic leader and inner-city resident, feels that “Montclair State should get its own house in order.”

“Mrs. Thomas believes that MSC’s try and spark programs are good, “as far as it goes.”

“But the college should broaden these ideas and allow more disadvantaged children to become involved.”

“Sure, it’s fine to talk about all of these programs, but I want to see them expanded,” she adds.

Ghetto life, she claims, is “truly frustrating. And Montclair State should do something.”

Meanwhile, the tournament served a duel purpose. It was used to acquaint the student body with the excellent talent on campus and also to uncover possible varsity talent.

It was used to acquaint the student body with the excellent talent on campus and also to uncover possible varsity talent. The exhibition resulted with Essex Catholic’s foil team winning the sausage sweep in turn sweeping the foil event.

Although two freshmen were started, EC’s foil team must be rated better than those fielded by the Indians pressing defense to perfection as time and again the duo would double-team, rob the ball and pass downcourt to the other for easy scores. Bowen finished with 25 tallies before leaving midway through the second half with a cut eye. James, in his varsity debut, added 18 points.
