Social Science Dept.
Prepares for Division

By Jane Conforth
Staff Reporter

The social science department is preparing for a division which will become effective in September.

School of Social and Behavioral Sciences is the working name which has been tagged to the new social science department. With the name comes additional changes in course and major offerings.

Five different majors will be available in the social sciences: history, political science, sociology, economics and transcultural studies. The last named is a disciplinary science which will incorporate history, anthropology and geography, and emphasize studies of Asia and Africa.

Anthropology and geography will have their own departments but will not be offered as majors.

In a recent interview, Dr. Philip Cohen, chairman of the social science department, said of the new program, "I've worked on it and I'm very enthusiastic about it. We want to be as relevant as anybody. We want to meet the needs of those who want to go on to graduate school or government or industry, as well as teaching. If we make a mistake or two, that's to our advantage too, because you can't find out what's right unless you make changes."

One of these is that most freshmen at MSC will probably be liberal arts students. They will have some time to look around and then will choose their major in the sophomore year.

Freshmen will no longer be required to take World Civilization I and II. Instead they will elect six semester hours from a series of courses in the School of Social and Behavioral Sciences. Some of these courses are African Civilization and Contemporary Europe from 1914 to the Present.

agreement that President Richardson was very interested and most cooperative throughout the discussion.”

The visitation committee consists of James Costabile, John Diamant, Bruce Kinter, Russell Layne and Moller.

Glassboro Aids Establishment

Of Sea Lab

GLASSBORO - Plans for a sea lab for the New Jersey state colleges are a step closer to completion. The Glassboro State College Board of Trustees approved a proposal to allow the college to join the Marine Science Consortium.

The consortium, a partnership composed of colleges, industries and state institutions, is seeking to establish a site for research and the study of marine biology.

Glassboro is the second school or officially apply for membership in the consortium. Gloucester County Community College joined in December 1968.

Donald Zalusky, assistant professor of science at Glassboro, explained that Glassboro’s move would encourage other colleges to apply, as Glassboro submitted plans for the consortium.

“Member schools may use the facilities in any way they see fit,” Zalusky stated, “Professors may bring their classes to paint seascapes or to study oceanography.”

A scuba-diving school is the second school or officially apply for membership in the consortium. Gloucester County Community College joined in December 1968.

Miss MSC Finalists: ‘Talent . . . Personality’

By Arlene Petty

Staff Reporter

For the first time, the women of Delta Theta Pi will assist the men of Phi Lambda Pi as they jointly sponsor the Miss Montclair State Pageant, one of the preliminaries for the Miss New Jersey Pageant.

A total of 45 applicants were judged on talent, poise and personality and narrowed down to 10 finalists last week in Memorial Auditorium. The girls will go on to the final competition on March 7, and will be judged by three faculty members, Dr. George Horn, Dr. Slade and Dr. Asteino. The 10 finalists are Jeanne Brown, Ellen Fitzpatrick, Carol Tindle, Doris Lee, Faye Witcher, Linda Kinch, Chris Kinz, Irene Haluska, Karen Tullo and Pat Waage.

The student who wins the title of Miss Montclair State will also receive a $150 scholarship, as well as a trophy. The first runner-up is given a $50 scholarship, and the girl voted Miss Congeniality will be presented with a trophy.

Miss Montclair State will also become the representative to the Miss New Jersey Pageant with all expenses paid. She will have the added honor of being the Homecoming Queen.

The pageant will be held in Memorial Auditorium at 8 p.m. Tickets may be obtained from any member of the sponsoring organizations for $1. Tickets will be available at the door for $1.25.

During intermission at the pageant, entertainment will be provided by the women of Kappa Sigma Rho (winners of the Greek Song), and the Good Life Trio, one female and two male students from MSC.

SHE STOOPS TO CONQUER

QUEEN OF HEARTS: Nancy Maurer, junior speech major and a sister of Chi Kappa Xi sorority, was crowned the 1969 Queen of Hearts at the annual Queen of Hearts dance sponsored by Agora.

All profits from the dance will be donated to the Essex County Heart Fund.

The cast of SHE STOOPS TO CONQUER has been part of the nation-wide American College Theatre Festival. MSC’s Players were chosen as one of 30 semi-finalist from nearly 300 campus drama groups. The Festival is the first of its kind to be held in the United States. Ten outstanding plays have been chosen to be presented at the American College Theatre Festival in Washington D.C. from April 28 through May 12, 1969.

Dr. Clyde W. McElroy, advisor to Players and director of SHE STOOPS TO CONQUER, regrets that the cast has not been chosen to perform at the festival. Nevertheless, he is proud of the cast and the recognition they have received for their production.

American Airlines, The Friends of the Kennedy Center and the Smithsonian Institution have cosponsored the event. The American Educational Theatre Association (AETA) and the American National Theatre and Academy have worked together to arrange productions. These groups are interested in presenting evidence of the progress being made in theatre arts throughout the nation’s universities.

Further aims of AETA are to stimulate young actors and to form a bridge between college theatre and the professional stage. Recognition will be given to the theatre as a part of the nation’s cultural heritage, and visitors from other countries will be made aware of this part of the culture of the United States. It is hoped that, in the future, similar festivals will be held to continue the development of these goals.
Players Excited with New School of Creative Arts

By Ed Musto

The proposed School of the Creative Arts, which would unify the speech arts, fine arts and music departments has stirred a great deal of excitement, particularly among Players. The prospect of added faculty members in the theatre department and new courses dealing with more advanced aspects of the theatre brings with it the possibilities of fresh ideas and innovations that will give the theatre at MSC unlimited potentialities. Perhaps even for the theatre in general.

Consider the facts. The academic theatre does not have the financial obligations and considerations that playhouses have, and at times seem to dominate, the professional theatre. The first purpose, and sometimes the only purpose of the professional theatre is for those involved to make some money. Altrum and theatrical devotion aside, an actor cannot eat a script or pay the landlord with a compliment. Broadway producers are usually men who are fairly well off and they are also men who plan to stay that way. "Art" does not get them a Cadillac; "Hello Dolly" will. A play must look like it will sell if it is to be produced. Few plays of true quality make Broadway, it is hard to sell intellectualism and the true theatrical experience. Since the average Broadway show costs well over $200,000 to produce, it is difficult to put on plays with limited appeal. As a result of this, over the last 10 years there has been a huge movement to what is known as off-Broadway, or anywhere in New York that is not on Broadway. One can put on a good play off-Broadway with 10,000 dollars or less such as The Boys in the Band and the Fantastics. The chances of great financial loss are much less off-Broadway and more risks can be taken. As of this moment, intellectual and experimental theatre are alive and well and living a good deal away from Mr. Cohen.

Prices for sets are skyrocketing, actors want more money, writers will want more royalties and ticket prices will continue to go up. Experimental play will have trouble being produced and many profound attempts may wind up sighted. When this begins to happen the true rise of the university theatre will begin. Authors will choose some college with adequate facilities to debut their plays. The academic theatre will start doing first run shows like never before. The financial security inherent on the campus and the decreased expenses involved in production give the academic theatre freedom. Professional theatrics will be left to musicals. The serious, thoughtfull drama, both classical and contemporary, will remain for the colleges to put on.

Relating these theories to the projects events at MSC, it is obvious how important it will be to support the College of the Arts concept as a vital one for the improvement of an already fine theatre at MSC. Perhaps by the next generation; it will be more meaningful to see theatre at MSC than on that famous street in New York, you know, what's that name, the theatre used to be king but where did a slow and painful death.

World Campus Afloat is a college that does more than broaden horizons. It sails to them and beyond.

Once again, beginning in October of 1969, the World Campus Afloat program of Chapman College and Associated Colleges and Universities will take qualified students, faculty and staff into the world laboratory. The program is relevant to fully-accredited coursework taught aboard ship add the dimension of personal experience to formal learning. Classes last six days a week at sea aboard the s.s. Ryndam which has been equipped with classrooms, laboratories, library, student union, dining rooms and dormitories. Chapman College now is accepting applications for the Fall and Spring semesters of the 1969-70 academic year. Fall semesters depart New York for ports in Western Europe and the Mediterranean, Africa and South America, ending in Los Angeles. Spring semesters circle the world from Los Angeles through the Orient, India and South Africa to New York.

For a catalog and other information, complete and mail the coupon below.

SAFETY INFORMATION: The s.s. Ryndam, registered in The Netherlands, meets International Safety Standards for new ships developed in 1948 and meets 1966 fire safety requirements.

The Price of Education

(MSC's financial assistance has been cut over last year and the interest on guaranteed bank loans has risen from three to seven per cent. With no government subsidy) the dormitory financial assistance is closing to the needy student. The Board is therefore partially responsible for hindering the students outside New Jersey in their desire to receive a college education.

At present the following suggestions have been made by the MSC student committee for a more equitable solution to the jump in the dorm fees:

1. The state should take on greater amortization by taking responsibility of operation and maintenance of the dormitory facilities.

2. Each individual college can determine the best way possible for increased revenue.

The needs of the student are many, and the state is overloading many of them in its unwise decision to do in one year raise the dorm fees from $181 to less than $1000. At Montclair State College the increase would have the dormitory students pay over $1000 for their room and board, however, none of the fee increase would be designated for board. With the rise in dorm room rates, it is conceivable that with the expiration of the present food service contract in 1970, the newly contracted food service might also desire to raise its prices.

And of course the $184 increase does not mean that the present dorm facilities will be improved. Montclair State is scheduled this spring for the construction of a 16-story dormitory. However, the older dormitories will still be in operation. In brief, the extra money will not be used to improve the already dilapidated dorm conditions. Repairs will not come from the increased rates. Although the student is paying more, he is not assured of receiving more for his money.

Presently the Board is reevaluating its poorly planned increase. And although the state is in need of more money to aid higher education, certainly much more feasible and economical solutions can result.
**Letters to the Editor**

_The New Image_ for having the moral integrity to also publish their names. The new SIDS innovation appearing in the last issue was the inclusion of material of a sexual nature. However, there were also the typical half-truths, forged-over vols and enforced cynicism tinged with hypocrisy.

For example: Insley has complained of SIDS being a "left" cliché "participatory democracy," yet he assumes freedom of speech. Insley also mentions preservation of the idea that this country was founded. I believe that freedom of speech was one of those ideals. If Insley and his band have the "right" to listen to Mark Rudd then I maintain the "right" to listen to a recruiter on campus. Perhaps if we also bury our heads in the sand the war will go away.

When there are so many other things that need improvement on campus (and I'm sure there is no list) I see no immediate reason for money being spent on guards.

**EDITORS’ NOTE:** The name managers supervise Life Hall until 10:30 p.m. when the building is then locked. Since no activities were scheduled in Life Hall for that Saturday night the building was not locked after the cafeteria closed.

**Sorority Offers $150 Scholarship**

By Chris MacMurray

Staff Reporter

The women of Sigma Rho are now accepting applications for their annual Diane Schmidt scholarship. The scholarship funds were raised from various money-making activities sponsored by the sorority.

The $150 scholarship is in memory of Diane Schmidt, a sorority sister who was killed in a car accident in August of 1966. Any single sophomore or junior girl currently attending Montclair State College is eligible for the scholarship providing her cumulative average is 2.5 or above. Members of Kappa Sigma who are also eligible.

The scholarship, now in its second year, was originally suggested by Diane's parents. A donation of $150 towards the scholarship was first made by Mrs. Schmidt.

Applications for the award are judged by the sisters of Kappa Sigma who are selected by a committee of financial need, scholarship and participation in extracurricular activities.

It is the sorority's desire to obtain more of a response from the students. Any eligible member of the sorority is encouraged to apply to the Kappa Sigma office.

**Kappa Sigma Rho**

The Women of KEP would like to welcome our three new sisters: Elaine Grossi, Lynn Heiser, Pat Korey, Chris Mac Murray, Linda Moses, Angela Stottin, Janice Tedesco and Edie Witter.

Congratulations are also extended to the newly elected officers: president, Michele Cappetta; vice-president, Jay Menne; treasurer, Linda Kotz; recording secretary, Sue Villere; corresponding secretary, Joan Frank, parliamentarian, Carla Lounsbury.

**Married**

Arlette Murphy, '69, to Michael Engle, U.S.A.F.

**Pinned**

Munsha Saunders, '70, to Ralph Hooker, '69, Sigma Phi Epsilon; Steven, Carla Lounsbury, '71, to Cathy Cote, '72, Phi Eta Sigma.

**TAVU JANMBA GETA**

The men of TAB would like to congratulate their new officers: Bob Ceece, president; Ron Green, vice-president; and Jeff Short, secretary, and Pete Tomullo, treasurer.

This semester's charitable donation of $75 will be presented to the American Cancer Society.

The brothers would also like to thank Freeman Associates for their help in the most successful Basketball Button Sale.

**GAMMA DELTA CHI**

The new administration has officially taken over the duties of their appointed offices. Our congratulations to: Paul Antonucci, president; Louis Broccolietti, vice-president; Bill Molinski, treasurer; Phil Wagner, recording secretary; Jim Masters, parliamentarian; Steve Kros, corresponding secretary; Nick Pizzolo, Terry O'Leary and Rick Bishop, pledgemasters.

Special congratulations to brother Bob Pasternak who has recently become a member of Epsilon Pi Tau. We will argue that his affiliation with the fraternity for Industrial Education and Technology was also to welcome three new brothers to our fraternity: Rich Orloff, Tom Messineo and Nick Pizziulu.

**Kappa Rho UPSILON**

Kru's Mother-Daughter Banquet was held on Jan. 3 at Dowd's Steak House. Diane Popinko and Carole Di Camillo did a great job in organizing the affair. The sisters and their mothers all had an enjoyable time.

Our spring chairs for semester are: Open House: Sara Jane Lynch and Paulette Pennali; Spring Tea: Lu Coletti and Carol Zott; 200 Folies, Phyllis Palomino and Sherry Borden; Carnival, Linda Daichman and Joanne Stefanyczyk; pledge mistresses, Nancy Halmon and Sally Hy; Father-Daughter Banquet. Diane Popinko.

Our congratulations and best wishes to Ellen Fitzpatrick, one of the 10 finalists in the Miss Montclair State Program.

Linda Boyle, '70, to Bill Leppig, '69 West Point.

**SENIOR — PHI ALPHA PSI**

The men of Sigma Rho would like to congratulate our new officers who were recently elected for the 1969-70 school year. They are: president, Mark Rudnick; vice-president, John Burke; treasurer, Ron Dreyer; recording secretary, Keith Haines; corresponding secretary, Jean Keating. In charge of student affairs, John Deisher, historian, Stan Grajewski.

We would also like to congratulate John Burke on his election to the vice-presidency of the IFC.

John Deisher, '70, to Patti Banks.

**Pinned**

Andy Patena, '69, to Joan Ospowski, '70, Sigma Delta Phi.

**NSA Fights CAB Ruling Against Youth Fares**

WASHINGTON, D.C. — The United States National Student Association (NSA) will fight the recommendations of a Civil Aeronautics Board (CAB) examiner calling for the abolition of youth fares as "unjustly discriminatory," and has retained legal counsel to prepare briefs and oral arguments for presentation before the CAB.

The announcement of NSA's action came from Services Division Director, Alan C. Handfield, who noted that at present the Association is the only group representing students who purchase airline youth fare which will make arguments before the Federal courts.

Abolition of youth fares is being sought by a number of bus companies. NSA will argue that young adults, who are experts in air fare matters, should not be canceled.

Written arguments will be presented to the CAB by Feb. 26. Oral arguments will be made at a later date. NSA is being represented by the Washington law firm of Kornet and Burt. who are experts in air fare matters.

Handfield urged that students want the youth fare issue to contact him at USNSA, 2115 S. Street, N.W., Washington, D.C. 20005.
Registration
Confusing or Consoling?
By Martin J. Fusco
Education Editor
"Mr. Foley bent over backwards to accommodate students," declared Andy Paterna, '69, who worked on registration. "Registration is not geared to students' needs," claimed Christa Spitzbarth, '70.

The above statement are examples of the varied opinions students and professors hold about the registration held at the beginning of February.

Last September, the registrar's office instituted computerized registration for the entire school. The computer, rather than the students, would give students what they needed and eliminate long waiting lines for courses. However, registration and course changes remain a confusing process for many people.

Tony Fazio, '72, said that the schedules are so erratic that students, especially commuters, cannot get past time jobs. Judy Wenner, '70, complained that she did not "know the time or the professor" for her courses. "Impossible schedule" was the comment of Mona Smith, '70.

"Mrs. Smith has classes from 8 a.m. to 6:40 p.m. four days a week," said Robert Smith, '70. Observed that the "last people to know (class time and size) were the professors." Smith had a course which kept changing hours until it was finally dropped. Helene Posey, '70, has "seven hours straight" classes. She could not get her schedule changed. John Schneider, '70, refused to go through the "red tape" and did not bother to change his schedule. James Cassidy, '71, suggested that confusion could be avoided if schedule changes were done by mail.

Criticism also came from faculty circles. "Something has to be done" declared James Keenan, sociology professor. Keenan said that elective courses are situated at awkward hours for students, forge overload and imbalance of sections as students try to get better hours.

"Our problem is classroom accommodations," stated Raymond Jump, education. One of Jump's courses meets three times a week in three different places. Maynard Rich, social science, said that there are no class lists, so that a student does not know for sure what course he is in, and a professor does not know how many are in his classes. Rich complained that there is no way to determine class size, the result being that a professor cannot properly plan his courses.

Although criticism of registration was strong, present registration practices have a number of supporters. "Very systematic" was the description of Charles Boyce, '72. "Mr. Foley handled it very well," stated Robert Monda, '69. Barbara Michalki, '71, explained. "For once it was right for me!" Richard Bennet, '70, had no trouble changing five courses. "Everything worked fine for me," he said. Sue Kotulak, '72, who worked on registration, thought it "went smoothly" considering the large number being served. Registration also had faculty support. Dr. Morris McGee, English professor and adviser, stated. "Most of my juniors had very little trouble." Dr. Howard Fox, former chairman of the speech department, feels that advanced registration makes it easier to establish class sections, especially for electives.

The math department, stated chairman Paul Clifford, had advanced schedules out in December. This enabled math majors to iron out their courses ahead of time. However, non-math majors got 5 p.m. classes and were unable to get section changes.

Robert Foley, associate registrar, explained registration problems in a short interview. His office handles 9,000 changes each semester. 8,000 of these "convenience changes," i.e., changes for no other reason than the students' convenience. All of these changes were made with "NO questions asked," Foley claimed that students get what they wanted, and the large number of changes resulted in class lists being held up until two weeks after classes started.

Foley stated that part of the difficulty of registration and course changes was that a "significant" number of students were not careful enough when filling out their pre-registration forms and following directions. Many students did not come for their course changes at the hour and day assigned. Foley claimed that freshmen and seniors came at their assigned times, but sophomores and juniors did not. Resulting in crowding and long lines. There was no waiting for course changes when time schedules were followed.

No major registration changes are planned for next semester. However, work for change is going on. The college is studying the whole registration procedure. Foley is trying to get student choice of course time and professor. An SGA committee is working on the same problem.

"Foley believes that student and faculty time should be spent in learning and teaching. "Registration should not inconvenience the college community as little as possible," he said.

Robert Foley

The research projects presented by the four students will deal with four patterns in today's society, the revolutionary, the social change leader, the activist supporter of the established norm and criminal-definitum.

A good day cleanses the soul

After all is shed and done, your soul may be saved - but your contacts need care. They need Lensine.

Lensine is the one contact lens solution for complete contact care. Cleansing, and soaking. There was a time when you needed help. They need Lensine. Lensine is the one contact lens solution for complete contact care. Made by the Murine Company, Inc. It has been demonstrated the improper storage between wearings permits the growth of bacteria on the lenses. This is a sure cause of eye irritation and in some cases can endanger your vision. Bacteria can not grow in Lensine because its sterile, self-sanitizing and antiseptic. Lensine the solution for complete contact lens care. Made by the Murine Company, Inc.

Dr. Samuel Pratt
Independent study innovator

They select their own text, a dictionary of their course and a library research manual. The Study of Society by Peter Rose, a book of readings, was the text chosen by this semester's students. The chosen text is not assigned but is used as a starting point and reference for research and discussion. The four students taking this Independent Study course will take turns leading discussions on the required study material. A bibliography will be compiled and a term project presented in any way the student feels will be most meaningful.

The research projects presented by the four students will deal with four patterns in today's society, the revolutionary, the social change leader, the activist supporter of the established norm and criminal-definitum.
Dr. George Horn
Feather in his cap for MONTCLARION

HORN OPTIMISTIC FOR SEASON

As Thomas, Drew Star at New London

By Rich Ortoff
Sports Staff

With eyes on the Quasitico and Penn Relays in May, the Montclair State track team, under the leadership of Coach George Horn, seems to be headed for quite a rewarding year. Participating in the U.S. Coast Guard Invitational Meet in New London, Connecticut, the team gave Dr. Horn a preview of things to come. Outstanding performances from sophomore high-jumper Jim Thomas and transfer hurdler Paul Drew led the Indians to a seventh place finish out of ten teams.

Thomas, the defending champion, took a second by leaping 6'6" in the high jump. He holds the current official MSC high jump record of 6'5". Coach Horn asserts that he is "very consistent." Drew also copped a second place in the 60-yard high hurdles, and set a track record in a preliminary heat. This record was surpassed in the final heat.

But the real surprise of the day was the track relay team of Glenn Staunridge, Reaves, Demetrious Morris and Vic Mizzone missed a first place by seven-tenths of a second, their winning heat by 100 yards.

At present, Horn is preparing 11 men for the Collegiate Track Conference Championships, individually and as a team, held at Queens College in March.

The epee squad, although facing the strongest squad of each of the three teams, fared well enough to contribute a total of 11 victories. Mike Dawson, in his first year of fencing, had five victories to his credit and with able assistance from Dan4hrgott, Bruce Kinter and Mark Elhardt.

The qualifying preliminaries for the Mid-Atlantic Fencing Championship were held on Sunday as Rodgers and Bryer qualified in the two-match sabre squad event. They are the defending champions. In addition, they are entered in the individual categories.

Rodgers also qualified in the individuals in epee. A master of all three weapons, he uses this particular one for the fencing aspect of the pentathlon which incorporates running, swimming, shooting, fencing and riding.

Coach proudly said, "It's quite a feather in our cap to be invited to one of these meets against these big-name schools. "What we really need is an outdoor board track and more boys out for the team." He then looked at the calendar and pointed to April, "That's when we had outdoors."

WOMAN GYMNASTS

By Wayne Potente

The Montclair State fencing team flashed to three brilliant victories over the weekend bringing their record to 8-2 for the year. On Friday night, the team travelled by autobus to Rochester, New York and proceeded to whip a highly touted Rochester Institute of Technology by the score of 19-8.

The following day saw the fencers journey to Buffalo where they defeated Buffalo College and then faced the University of Buffalo. Both teams succumbed to the MSC fencing machine by the scores of 15-12 and 16-11, respectively.

As usual, Coach Walter Gaylon's swashbucklers were led by the vaunted sabre squad as captain Dale Rodgers and Dave Bryer won 9 bouts apiece, three in each meet. Jordan Denner chipped in with seven wins, going 3-0 against R.I.T. and Hobart. The team had a superb three-meet record of 25-2.

Todd Boeppe led the foilman with six victories. He also went 3-0 against R.I.T. Ken Zurich, Jim Robertson and Bob Critchley all contributed to a fine foil showing with 13 wins.

The epee squad, although facing the strongest squad of each of the three teams, fared well enough to contribute a total of 11 victories. Mike Dawson, in his first year of fencing, had five victories to his credit and with able assistance from Dan4hrgott, Bruce Kinter and Mark Elhardt.

The Montclair State women's gymnastics team opened the 1969 season with a fabulous victory, defeating East Stroudsburg, 80.55 to 73.05. MSC swept first and second place in the floor exercise, balance beam and uneven bars.

Kathy Hill, a senior, placed first in vaulting, the uneven bars and the balance beam. Linda Mosaco, a freshman, took first place in the floor exercise with a winning score of 8.3.

Other top performers who contributed to the victory were Joann Coleman, Jane Colwell, Lynn Cross, Mary DeFrank, Sharon Hunter, Pauline Scholze and Sharon Toonye. Donna Ezzi and Gail Peterson were unable to perform due to injury.

The next home meet is today at 4 p.m. against Temple University.

Montclair Hoopsters Nab 20th Victory

By Mike Galos
Special to the Montclarion

Led by senior Luther Bowen and Bob Lester, the Montclair State hooperettes rolled to their 20th victory of the season Saturday night with a 94-72 victory over Queens College at Queens College. Luther Bowen led all scorers with 33 points, his high point output of the season. Lester grabbed 25 rebounds and finished behind Bowen with 21 points.

Three Steals

The Indians were cold shooting at the start and trailed 17-12. Three straight baskets by Bowen, two coming on steals, and a basket by Mike Oakes after another Bowen steal put them ahead for good, 20-17. The win marked the third straight season in which the Indians have won 20 games, a feat accomplished only once before in New Jersey college basketball history by Monmouth.

Approaching 1000

Lester’s 21 points gave him a total of 918 for his career and an outside chance for 1000 career points. He already has gone over the 1000 mark in career rebounds. Bowen, Lester and Oakes will all be honored in ceremonies before the final home game tomorrow night against Jersey City State. The three seniors will be playing in their final regular season game for the Indians.

Montclair State gymnastics team traveled to Queens College last Wednesday to score their most decisive victory of the season handing Queens a 131.71 to 41.00 setback. Co-captains Rick Schwarz spearheaded the victory with three first places in floor exercise; horse and a tie with teammate Ron Poling in the parallel bars. Results were: long horse, Rick Schwarz (first), Dave Green (second), Roger Brown (third); side horse, Joe Garrelia (first), still rings, John Guenther (first), Ron Poling (second), Ralph Coscia (third); long horse, Green (second), Guenther (third); parallel bars, Schwarz and Poling (tie-first), Russ Spencer (third); high bar, Green (first), Schwarz (second), Jensen (third). Saturday night saw the gymnasts defeat a strong West Chester State contingent by a 137.43 to 128.85 score. Rick Schwarz again stood out with two first places and two second places. Jon Guenther took another first place in the still rings. Dave Green came through with an outstanding 8.95 in the long horse.

Results were: long horse, Schwarz (first), Green (third); still rings, Jon Guenther (first) and Poling (second), long horse, Green (first) and Schwarz (second); parallel bars, Nels Jensen (first), Schwarz (second), Poling (third), high bar, Schwarz (first), Jensen (second), Green (third).

C. S. Joe Ortiz..........................1-2
Glenn Guarino
Doug Nogaki............2-4-1
Roy Genatt...
Mike Nuzzo...........................9-1-1
Jim Grieco .............................10-1
John Sutton ..............................4-7
Annette Testa, the highly successful freshman coach of last year, will concentrate on line play. Tim Sullivan, the pass offense, will be invaluable in handling the varsity wrestling team at MSC is concentrating on defense. Dick Hapward, a North Carolina product, will move up from Montclair H. S. Dick has left teaching for private business and is available for coaching. Dick will probably handle the freshman team, Frank Tripucka, an All American Quarterback while at Notre Dame and a great pro for 15 years, will also coach. Frank will be invaluable in handling the offensive backs, the pass offense, the punters, and in picking apart opposing defenses. When the freshman team completed some other coaching duties will be specifically pinpointed.

"Recruiting" means the attracting of potential football players who can be admitted to Montclair State. Perhaps as many as 100 transfers from other colleges, disenchanted players and service returnees are inquiring about Montclair. We are screening everyone. We hope some will be satisfactory. The New Jersey High School football coaches have been particularly helpful and cooperative. Hopefully Montclair State College will succeed in obtaining high caliber players.

There are many factors that contribute to the playing of football games. Good ball handling, a wide open pass offense, a stong pass defense, the avoiding of penalties and injuries, and sound strategy are all important factors. However, effective blocking and tackling will still be the keynote to the winning of games. We are hopeful of making our football program extremely interesting so that we can attract young men who want to play good football.
