SGA, Class Officers Chosen on Friday

The election of a new SGA legislature for the 1969-70 school year will be held on Fri., April 11. Offices for next year's junior and sophomore classes will also be filled on that day.

The voting will take place in the lobby of Memorial Auditorium from 9 a.m. to 5 p.m.

Candidates for department representative for the SGA are:
- Biology, Bruce Elftston, Bill Sciarappa; business and distributive education, Michael Mados, Thomas Bentz; English, Mados, Thomas Bentz, Gary Robertiella, Kathleen Monaghan; foreign languages, John Diamant, Alfredo Fanelli.

Other candidates are: music, Jordan Denner; fine arts, Wendy MacPhail, Linda J. Nagy, Greg Steders, Kathy Cummarata, George F. Diewen; physics-earth science, James Wynne, Douglas Voigtlander; psychology, Terry B. Lee, social sciences, Susan Kempson, David Levine, Bonnie Miller, James Cottable, speech, Russell Layton, Jane Farnum.

Candidates running for the class of 1970 are: president, Michael Hogan, Joe Macauro and Chuck Marrancho; vice president, John Rolak, Trudi Scheurer and Rob Brewer; secretary, Patti-Sue Beirne and Michele Capetta; treasurer, Nikki Reto, Michele Reilly and Regina Nicosa; SGA representatives, John Burke, Rudy Goldstein and Sue Wasserman.

Candidates running for the class of 1971 are: president, Maurice Moran, Peter Tumittello and Dennis Poppeon, vice president, Timothy Fanning and Jim Bobbeyne, secretary, Kathy Dreyer; treasurer, Marlene Nania and Mariylnn Cook; SGA representatives, Neil Nicastro, Sharon-Marie Wason and Gary Patton.

CONSTRUCTION CONTINUES: Although the city of Clifton has filed a nuisance charge against the college, construction on the 16-story dormitory will continue as scheduled.

Faculty Council Approves Proposal

For Student Evaluation of Professors

The Faculty Council has unanimously approved a subcommittee proposal effective this spring whereby students will be able to evaluate their faculty members.

Phillip Anderson, chairman of the Council and member of the math department, has said that although the 22-member Council has only recommended that all faculty members be evaluated by all students, faculty response should be favorable toward this proposal.

Edwin Mills, academic counselor and chairman of the ad-hoc student and faculty group set up to study the possibilities of student evaluation of faculty, said that although faculty will be evaluated this spring, the evaluations will be kept for use by the individual professor. "The intent is that evaluations are to be used for the education of the professor," Anderson stated that since the evaluations will be in the hands of the individual professors "hopefully the faculty members will use this to take any steps for self-improvement." Only this semester will the evaluations be kept strictly by the professors.

The Faculty Council proposal also called for a committee to develop a satisfactory evaluation form. Evaluation forms similar to those now available in the academic dean's office will be modified by the ad-hoc committee for use by faculty members.

The ad-hoc committee (committee on student-faculty relationships) chaired by Mills hopes to develop objectives for the faculty evaluation forms for the eventual use in "determining tenure, teacher effectiveness, etc."

Mills noted that both the students and faculty on the committee held a very positive attitude toward faculty evaluations. The proposal was meant to be an "educational process ... to let the professor understand now the student perceives him, the course, the content."

At present, the Faculty Council is communicating with all faculty members as to their recent recommendation. However, Anderson noted that the Council is not a policy-making organization but can only make recommendations that may be the basis for policy. Only through a statement issued by Dr. Richardson can the evaluations be made mandatory for all faculty.
Clark Kerr, speaking on the problems in today's institutions of higher education, will present his views on "The Best of Times, the Worst of Times" at a club-sponsored lecture tomorrow at 8 p.m. in Memorial Auditorium.

The former president of the University of California, Berkeley, Clark Kerr was in office during the riots which resulted from the Free Speech Movement in 1964. Removed from this position by Gov. Ronald Reagan, Kerr now is chairman of the Carnegie Foundation for Higher Education.

"The college now is chairman of the

Morehead Clarifies Contract Renewals

By Ellen Dubcek

Staff Reporter

to clear up misunderstanding, Dean Allan W. Morehead has clarified the distinctions between faculty dismissal and contract renewal.

The club, which implies that a tenured faculty member has been accused of serious misconduct and involves complicated legal proceedings, because of being made &gt; &lt; are further explanation seems unnecessary.

More common are cases involving the decision not to rehire an instructor, which normally is not a faculty dismissal, because it is not pertinent to any situation present on the MSC campus.

The college community may no longer require his particular service. The changing need of students constantly necessitate such steps, he explained.

"If a large number of students suddenly show an interest in a particular subject, the college must conform to these demands. Because it is limited in size at any given time, it must siphon off

The college campus are elementary
demonstration schools on state
specializations in the ninth grade. All of the other campus demonstration schools on state college campuses are elementary schools. Since no course coordination or specialization is involved, these schools will be phased out in one year.
UNION - The creation of an Institute of Child Study at Newark State College under the direction of Prof. Margaret L. LaCrose, is a step designed to provide qualified people in the field of experimental and clinical psychology with the opportunity to learn more about the studies of children.

Creation of the Institute resulted from within the faculty movement in the United States. Many years of discussion have been on the agenda over the past few years, finally leading to the establishment of an experimental and clinical psychology program.

"The Institute is dedicated to providing a training center for students who wish to work in this field," LaCrose said. Simultaneously, serving as a training center for students preparing for work in the field of experimental and clinical psychology, the Institute is to include education and remedial education.

LaCrose added that the Institute is to include education and remedial education. The current emphasis is on special education. Included is a Remedial Education Clinic, which provides special diagnosis and training at an earlier age.

LAWRENCE, Kan. - (F.P.) - Student interest and a faculty interest recently helped create a course on the New Left for the current spring semester at the University of Kansas.

Political Science 98 for juniors and seniors was designed to present criticism of modern American society, and foreign policy from the New Left perspective. "We will examine alternatives of existing middle class culture," he said. It is hoped by the end of the semester that students can define the New Left movement in the United States.

"The course is part of an attempt by interested faculty and students to set up a student-initiated course not regularly offered in an existing department," said the course designer.

College States English AS Second Language Course

Montclair State College in cooperation with the U.S. Office of Education will offer a six-week workshop on English as a second language. Thirty-five students, from the metropolitan area will be selected to participate in the course slated to begin on June 30 and continue thru Aug. 8. Student participants must hold a B.A. degree.

The workshop will be directed by Mrs. Janet Susi and Mrs. Anne Michaud, both assistant English professors at MSC.

For more information, contact Mrs. Susi.

MSC Institute Treats Learning Disorders

By Fred Buchholz
Staff Reporter

Two special classes for the neurologically impaired, remedial clinics for reading, speech and hearing, an educational and instructional resources center and experimental and speech therapy classes. Although the Institute has not set up any of these facets, its main purpose, according to LaCrose, will be "for research, training and service."

After being recommended by a top-class committee, the children are selected by the Institute according to space available in the classes. Facilities are provided to accommodate approximately 1500 children per year. The number of children that attends the Institute is dependent upon what is done with them. It is possible for a child to be referred by another teacher and another to stay as long as six years. Many of the applicants are referred by teachers at school or to special schools designed for the particular handicap of the child.

When asked whether or not this work becomes frustrating because of the slow rate of accomplishment, LaCrose replied: "To the contrary, it is exciting." The frustration occurs when a child is brought to us to pay attention to how "knowing what he could have been given a second chance for life" if only he had been brought for special training at an earlier age.

Preliminaries OK'd for $600 Thousand Overpass

By Sue Dominski
Staff Reporter

"Plans are now underway for constructing the 600 thousand dollar three level parking lot, which is anticipated by the students for the future overpass," said Mr. Vincent B. Calabrese, director of business services.

"The hope that we will have been completed by September," stated Calabrese. "It is hoped that construction will begin before this summer." Calabrese noted that the land needed to construct the bridge has yet to be purchased. This property is presently being purchased from six private owners affecting the future use from the MSC campus.

The cost of $600,000 will include acquisition of the land, construction of the bridge and costs of any parking involved.

Mr. Vincent Calabrese, director of business services at MSC has discussed the bill with the student council, they will be used to discourage students from parking on two streets in the Montclair Heights section of the town.

Mr. Vincent Calabrese, director of business services at MSC has discussed the bill with the student council, they will be used to discourage students from parking on two streets in the Montclair Heights section of the town.

"The parking problem is complicated," he said. "Parking is complicated by two ordinances which recently have been passed. One ordinance, which states that no one can park on Woodlawn avenue between Valley road and Pearl Brook drive, and on Oldham road between Woodlawn avenues at 8 to 11 p.m. Monday through Friday." The firm contracted to construct the road overpass is current planning for a new bridge between the two.

"The ordinances establish alternate side of the street parking on Woodlawn avenue, between Valley road and Pearl Brook drive, and on Oldham road, between Woodlawn avenues at 8 to 11 p.m. Monday through Friday."

"Your entertainment department for this bill to become official campus policy, it has to be approved by the MSC campus, the Faculty Council, and the Coordinating Council. Calabrese has discussed the ordinance with President Richardson. It is now being suggested for the agenda of the Faculty Council."
A Thoroughly Enjoyable Newspaper

The newspaper business, like any other significant enterprise, is a field ridden with a heavy amount of competition and criticism. More often than not, however, a newspaper usually finds itself walking a tightrope—trying to please everyone while following the stringent demands of journalistic style, space and time.

It's easy to criticize a newspaper because mistakes are usually numerous—misspelled names, wrong pictures and occasionally a wrong fact. In all, however, the clear intention of our newspaper always comes through—to report news and information in a manner as interesting and as relevant as possible.

And apparently the MONTCLARION is doing a good job at it. This past week the MONTCLARION was awarded first class ratings by the Associated Collegiate Press.

Focus on the Faculty

However, it must be remembered that the Faculty Council cannot enforce this recommendation for evaluation. Although the proposal was unanimously accepted by the Faculty Council representatives, the Council cannot assure the students and administration that all faculty members will volunteer to be evaluated.

It is hoped that with the Faculty Council recommendation, all faculty members will participate in the evaluations. It must be remembered that the intention of the evaluation is to enlighten the professor as to the effectiveness of his teaching techniques, his course and course content.

Through this anonymous style of communication, the faculty members will certainly become more aware of what actually may be taking place in their classes. It is certainly hoped that constructive, useful comments will be presented, giving the faculty some honest student feedback.

EDITORIAL POLICY

The MONTCLARION welcomes letters on any subject. Because of space demands, it is not possible to publish all letters received. However, letters submitted double-spaced, typed and limited to 250 words receive first preference. Letters may be edited to conform to journalistic style. The views presented in these letters do not necessarily represent the opinions of the MONTCLARION.

A Year of Decision

To the Editor:

This year will be a year of decision for the class of 1970, a year in which all of our lives will be greatly affected as graduation approaches. If elected president of the class of 1970, I would endeavor to enable seniors to have an opportunity to visit with employers of various vocations from all areas of the employment spectrum. At this time I propose to work with the other class officers and the administration in designing a functional interviewing program where representatives from all walks of life would meet with interested seniors on campus.

This could be done much in the same manner as teacher interviews are presently conducted. I feel strongly that if Montclair State is to truly become a liberal arts college, then we need to see that graduating seniors have every opportunity to seek employment in other areas rather than just offering employment in the teaching field.

To conclude, there is much to be done in our class in this next year. If elected your president of the senior class, I can pledge to do my utmost to look forward and to continue to assist the class in its year of decision.

Michael J. Hogan, candidate for senior class president, 1970.

Kowalski Defended

To the Editor:

In reply to the letter written by Mr. Ward B. Nelson (MONTCLARION, March 20), I would ask Mr. Nelson to consider a very few important facts which he seems to have missed over in his attempt to provide an attack on the students. The first and foremost lies in the fact that Dr. Kowalski was not attempting to point out what a wonderful and admirable system now exists, but rather that such a system does exist, and should. I would remind Mr. Nelson that the physics-earth science department has itself only been in existence for less than one semester.

Dr. Kowalski is presently in the process of forming a student advisory council which will meet regularly with him. In regard to Mr. Nelson's reference concerning Dr. Kowalski's dragging his feet in implementation of student representation on the Faculty Council, I would point out that Dr. Kowalski explained to anyone who asked him that it was generally felt that the Faculty Council was not the ideal place for student representation. He does not mean to imply that such representation should not exist.

In conclusion I must say personally that Mr. Nelson used extremely poor taste in his choice of verbiage. It is not for him to say that Dr. Kowalski suffers from a lack of communication with the students of his department, even when it is in the form of an opinion. Further, his reference to Dr. Kowalski as one who is playing political is not only without basis, but insulting. I believe an apology is in order. John Drehr, Physics, Seniors.

**U.S. to Blame for Viet Escalation**

By Ed Sant'Eufemia

**Staff Reporter**

McGovern says our association with the Vietnam policy stems back to the Japanese take-over of the French colony, Indo-China, of which Vietnam is part, in 1940. We became involved in keeping the Japanese out of the area with the aid of Ho Chi Minh, who was then the "American puppet" comparable to the CIA, said the senator. In 1945, after World War II, the French desire to recolonize arose. The Roosevelt Administration impartially proposed to make the Indo-China area a United Nations territory. After Roosevelt's death, the leadership chose to back the French, alienating the Ho Chi Minh forces. So we descended to the modern conflict.

**Forced** by the tremendous defeat of French forces at Dien Bien Fu, the struggling factions adopted the Geneva Accords in 1954, a cease fire which proposed a military withdrawal by both sides to their respective territories, focusing on the 17th parallel, which still divides North and South Vietnam today. The Accords provided for a popular, national election in Vietnam two years following the cease fire of July 20, 1954. The 1956 elections never materialized. Under President Eisenhower a puppet government was established in South Vietnam. McGovern attributed this to Eisenhower's knowledge that, as the senator phrased it, "even in an honest election Ho Chi Minh would win 80 per cent of the popular vote." The unification of Vietnam would never come about as had been agreed. Instead, the imposed South Vietnam government built an economic and political structure which was pro-American and anticommunist.

McGovern pointed out that the land reforms and tax reforms, which would "lift the standard of life" in South Vietnam, were not carried out. The land reforms would have given the government of South Vietnam the popular support that it needed to become an effective representation of the people.

To show us the extent to which the Vietnam situation has grown, the senator said: "In eight years, the military budget has doubled from $40 billion to some $83 billion. As the military demands rise, so do military decisions," reminded the senator. Five years ago, there were 90,000 troops, now there are 550,000 troops.

The senator blames the U.S. for this most current escalation. McGovern urged us to abandon the "action-reaction syndrome," which has become a standard in Vietnamese policies. "We should move in a different direction," he said.

"Up until now we have maximized contact with the enemy where we should be minimizing it." Concerning reports of Vietnam and actions taken by our country, McGovern said, "Don't let anyone fool you."

McGovern suggested a coalition government, consisting of elements from all factions in Vietnam, including the military, the National Liberation Front, the Buddhists, the Catholics and the neutrals. Accompanied by military withdrawal, this move would speed the resolution of the Vietnam problem. McGovern feels that, "The fate of the world will hinge on this most current escalation."

The dangers of his course, McGovern concluded his oration by saying: "My course is free from danger and hazard."

**COMMUNICATION GAP?**

---

Since you asked me...

---

**SINCE YOU ASKED ME...**

---

**FACULTY RESPONSES**

---

James Koenen, social science department: "Yes, it's related to the size of the institution and the fact that most of the students are commuters. There's no formal place where faculty and students come together. If there was a place specifically for them to get together, communication might be improved."

Marcoantonio Lazareta, math: "If there is no communication, it's because many students are afraid to avail themselves of the opportunity to speak to instructors."

Mrs. Robert McCaulley, business department: "In our department, there is a very good communication. Recently a student group was formed, and they met with our faculty and formulated programs with us. At our last faculty meeting we had five students present, and they contributed ideas to our meeting."

---

**Why does a perfect size 7 look perfect only 21 days every month?**

---

It has nothing to do with calories. It's a special female weight gain...caused by temporary water-weight build-up. Oh, you know...that uncomfortable full feeling that sneaks up on you the week before your menstrual period. This fluid retention not only plays havoc with your looks but how you feel as well. (Deprives pressure on delicate nerves and tissues, which can lead to pre-menstrual cramps and headaches, leaves emotions on edge.)

That's why so many women take PAMPRIN®. It gently relieves water-weight gain to help prevent pre-menstrual puffiness, tension, and pressure-caused cramps. PAMPRIN makes sure a perfect size 7 looks less than perfect, not less than perfect, either.
Butler, Rodgers Spark Psi Chi
To IM Swimming Championship

By John Anesati
Sports Editor
The first annual Intramural Swimming Meet, sponsored by Phi Sigma Epilon, was held on Thurs., March 27, in Panzer Gym. Only three fraternities, Psi Chi, Zeta Epsilon Tau and Phi Sig, made good showings with fine turnouts and enthusiastic competitors. Psi Chi, led by Jerry Butler and Dale Rodgers, walked off with first team honors. Their team total was 19 points as Phi Sig took second with eight and ZET placed third with three.

Hank Maged, swimming unattached, was the outstanding individual as he won the 25-yard freestyle in 26 seconds. Houston Webber, also unattached, gave a fine performance as he finished second to Maged twice with times of 11.9 and 26.5. The 25-yard freestyle was a real battle as third-place finisher Rich Davidson, unattached, finished in 12.0 seconds.

Butler took a second in the breast stroke (16.6) and a fourth in the 25-yard freestyle (28.0). Rodgers took a second in the butterfly (15.6) and led Psi Chi to victory in the 100-yard freestyle relay.

Davidson won the 25-yard breast stroke competition and also led the winning team in the 100-yard medley relay. Pat Quiroz, independent, looked very impressive, winning the butterfly, while Greg Nicholson, swimming for Tau Lambda Beta, took the breast stroke.

Claydon Leads
To 6-1 Victory

The freshman baseball team, under coach Alex "Sanduch" Tornillo, started off on a winning note, defeating Fordham U., 6-1, yesterday. Rich Claydon pitched the first five innings giving up the one run in the first. Claydon displayed blazing speed with nine K's. Paul Parker mopped up the last four innings with shutdown ball and seven K's.

Bob Brewer led the hitting support with three hits and two RBIs. Tom Rothenaker chipped in with two hits.

Bryer Finishes 2nd, Rodgers 5th
As Swashbucklers Take 4th

Led by Dave Bryer and Dale Rodgers, Montclair State College's varsity fencing team experienced another successful season during the past winter posting a dual match record of eight wins and four defeats.

Coach Walter Gaylor's team set a new record for most wins in a single season with eight victories. The overall mark of 8-4 was the second best record in the school's five-year history since the sport was reintroduced on a varsity basis.

Bryer, a sophomore from Fairfield, led the highly successful sabre team with a record of 34 wins and only 1 defeat. The Indians won 32 dual match victories in a row this season before dropping his only bout in the final match of the season against Army.

Bryer, now a sophomore and undefeated as a freshman in varsity competition, ran his consecutive dual match winning streak to 56 straight bouts over the last two seasons.

Rodgers, a junior from Franklin Lakes, posted a dual match record of 34-2 and won his last 18 bouts in a row. A three-year veteran, Rodgers now has a varsity record in sabre of 91-17. The Indians in 1968-69 posted an amazing mark of 91-17.

Todd Boeppe, a sophomore from West Caldwell, turned in the top mark in foil with a 23-13 mark, while Jim Robertson, a junior from Lanoka Harbor, was second with a 15-13 mark.

Bruce Kinter, a sophomore from Trenton, posted the best mark in epee winning 17 of 34 bouts.

The foil team for the season was 57-51 while the young epee team managed 45 wins losing 63 bouts.

During the 1968-69 season, Montclair State posted wins over Paterson State, Pace, Jersey City State, Fairleigh Dickinson, St. Peter's, Rochester Institute of Technology, Hobart and the University of Buffalo.

The Indians losses were to Newark College of Engineering, Newark Rutgers, St. John's and Army.

Buonomo Impresses at Hot Corner for Sanduch

by Rich Gticff
Sports Staff

When his brother, Bucky (Wayne), taught him how to play baseball 11 years ago, Rich Buonomo could hardly toss a ball 30 feet. Now as an MSC freshman, the graduate of Bogota High is zinging bullets across the infield from third base, hitting the hot corner for a starting berth on coach Leo Janendo’s blue and white squad.

Buonomo, an all-county and all-leauge selection in his senior year, played his high school ball at the hot corner for coach Jack Speary at Bogota. He earned two varsity awards, hitting .400 and belting three home runs last year, and captained the team last year.

In addition to baseball, Buonomo played football here at MSC as the starting fullback for the frosh eleven. At Bogota, under Speary, Buonomo played three years of varsity in the backfield and captured the team last year. He also wrestled in his freshman year under Leo Janendo and made the varsity.

Buonomo, who keeps in shape by weightlifting, points to Peter Alteri and Speary, two of his high school coaches and both graduates of MSC, as being very influential regarding his athletic endeavors and his coming to Montclair.

Schwarz and Green Stand Out Against Nation’s Best in California

Sunny California was the site for the National Collegiate Athletic Association division gymnastics championships last Friday. Coach Terry Orlick, Rich Schwarz and Dave Green, representing MSC, made the long trip cross-country to San Fernando Valley State College.

There were 40 to 50 of the top small college gymnasts entered in each event. Schwarz gave a fine performance finishing ninth on the long horse and 12th on the parallel bars. Green also excelled as he finished 12th on the high bar.

Both were disappointed that they did not finish in the final field, composed of the top six. But Orlick felt they did a real good job and was pleased with their performances.

In addition, he stated that MSC was not a “known” school at the tourney and that this had a definite effect on the scoring.

Jerauld Hurls MSC Over FDU;
Inglis Twirls Nifty 1-Hitter

Petey Jerauld opened the 1969 baseball season, which is coach Bill Dioguardi’s 21st and last at MSC, with a fine performance last Tuesday at FDU. Going a strong six innings, the ace Indian pitcher gave up only two hits as the two runs scored against him came in on a wind blown fly ball.

His teammates provided him with plenty of support. Center fielder Dave Clark and catcher Frank Roni hit opening inning doubles to produce a run. In the fifth, Steve Samson, playing at the hot corner, rapped a single to start things off. Jerauld helped his own cause by belting a double.

Tom McCormick, the keystoner who is trying to make a comeback after the sophomore jinx hit him last year, knocked them both in with another single.

Shortstop Rich San Fillipo crushed a homer in the sixth to up the count to 7-2. The final score was 9-6.

Against Newark State, Ken Inglis pitched a masterpiece to shutout the previously undefeated Glassboro, 3-0. Inglis struck out 17 and the leadoff single in the first was the only hit he gave up.

Fourth inning hits by Samson, Carmen DiSmona a double, and Clark produced the only run needed.

Dioguardi gave his appraisal of the team from what has been exhibited in Florida and in the first two games. "Pitching has been the strong point — a big surprise. Injuries to Fred Keimel and Pete Jerauld prior to the season were expected to hurt our chances for a good start. There has been some fine defensive play by both the infield and outfield. The hitting is good in spots but needs improvement to take up the slack for the pitching."
