The election of a new SGA leadership for the 1969-70 school year will be held on Fri., April 11. Offices for next year’s senior, junior and sophomore classes will also be filled on that day.

The voting will take place in the lobby of Memorial Auditorium from 9 a.m. to 5 p.m.

Candidates for department representative for the SGA are: biology, Bruce Elfsrom; Bill Sciarappa; business and distributive education, Michael Siklosi, Ward Nelson; English, James Coletta, Julius Wargacki, Dreyer, Stan Grejewski; economics, Suzanne Cassidy, Ronald Green, Judi Manzi, Alfredo Fanelli.

Also running are: foreign languages, John Diamant; Ronald Grein, Judi Manni; Alfonso Fanelli.

Other candidates are music, Jordan Denner, Faye Witchen, David Mende; physical education, Ronald Cece, Ronald Green; fine arts, Wendy MacPhail, Linda Nagy, Greg Steders, Kathy Cummarra, George F. Diewen; languages, John Diamant; Ronald Grein, Judi Manni; Alfonso Fanelli.

For Student Evaluation of Professors

In reference to the nuisance charge against the college, construction on the 16-story dormitory will continue as scheduled. Calabrese remarks that charges knew of MSC’s master plans. He said if anyone were to discuss the master plans with the college, it would be himself since he holds the position of city engineer as well as city manager.

In reference to the nuisance charge, Holster said that the construction plans include the renovation of a hillside where construction is now taking place. Clifton residents are also opposed to the 28-story high rise apartment planned for the Garnet Mountain Ridge located off Valley road.

Although not opposed to high rise projects, Holster was more annoyed by the failure of the state to ask for local approval prior to the start of construction. “The state is running roughshod over us again, and I don’t stand for it,” he said. He called upon the city’s legal staff to file a suit in Superior Court seeking an injunction to stop construction.

Holster had also claimed that the college did not notify the city of its plans to build the dormitory. Vincent Calabrese, director of business services here, said that Clifton’s city administration has shown the future plans for the college and that construction plans have been publicized throughout the newspapers at least four times in recent weeks. Holster took exception to this, saying that the city will do its best to stop flooding, he said, “It will improve the area, not hurt it.”

Failing to comply with the request to halt construction, the college was served with a nuisance charge by the Board of Health of Clifton. Since the college is situated on state property it is not subject to municipal regulations. Presently the matter is in the hands of Arthur J. Sills, attorney general for the state of New Jersey. Dormitory construction is continuing as scheduled.

Faculty Council Approves Proposal

The Faculty Council has unanimously approved a subcommittee proposal effective this spring whereby students will be able to evaluate their faculty members.

Philip Anderson, chairman of the Council and member of the math department, has said that although the 22-member Council has only recommended that all faculty members be evaluated by all students, faculty response should be favorable toward this proposal.

Edwin Mills, academic counselor and chairman of the ad-hoc student and faculty group set up to study the possibilities of student evaluation of faculty, said that although faculty will be evaluated this spring, the evaluations will be kept for use by the individual professor. “The intent is that evaluations are to be used for the education of the professor,” Anderson stated that since the evaluations will be in the hands of the individual professors “hopefully the faculty members will use this to take any steps for self-improvement.” Only this semester will the evaluations be kept strictly by the professors.

The Faculty Council proposal also called for a committee to develop a satisfactory evaluation form. Evaluation forms similar to those now available in the academic dean’s office will be modified by the ad-hoc committee for use by faculty members.

The ad-hoc committee (committee on student-faculty relationships) chaired by Mills hopes to develop objectives for the faculty evaluation forms for the eventual use in “determining tenure, teacher ineffectiveness, etc.”

Mills noted that both the students and faculty on the committee held a very positive attitude toward the faculty evaluations. The proposal was meant to be an “educational process . . . to let the professor understand how the student perceives him, the course, the content.”

At present, the Faculty Council is communicating with all faculty members as to its recent recommendation. However, Anderson noted that the Council is not a policy-making organization but can only make recommendations that may be the basis for policy. Only through a statement issued by Dr. Richardson can the evaluations be made mandatory for all faculty.
Clark Kerr, speaking on the problems in today's institutions of higher education, will present his views on "The Best of Times, the Worst of Times" in a Club sponsored lecture tomorrow at 8 p.m. in Memorial Auditorium. Those interested may also attend a question and answer period at 9:30 p.m. in the Studio Theatre. Kerr now is chairman of the

**Morehead Clarifies Contract Renewals**

By Ellen Dubcek

Staff Reporter

To clear up misunderstanding, Dean Allan W. Morehead has clarified the distinctions between faculty dismissal and the decision not to renew a contract.

"The college, which implies that a tenured faculty member has been accused of serious misconduct and involves complicated legal proceedings, because it is being made is rare, according to Morehead. Since it is not pertinent to any situation present on the MSC campus, no further explanation seems unnecessary.

More common are cases involving the decision not to renew a contract, which impacts which impact on the teaching staff. Proceedings are simpler because there is no breach of contract, he explained.

"The college purchases a block of time from the faculty at a rate. After this service is rendered and he explained.

"Because it is limited in size at any particular subject, the college has been accused of serious misconduct and involves complicated legal proceedings, but this idea is as yet unnecessary. Kerr now is chairman of the

**Morehead Clarifies Distinctions between Teachers from Other Areas.**

Economic factors and space limitations force curbs in other fields, he added.

Decisions are made by the department Faculty Personnel Advisory committee. Student committee members will also be consulted now, according to Dean Morehead. After reaching his office, recommendations travel to President Richardson and then to the Board of Trustees.

As a rule, each departmental committee is composed of five tenured faculty members. Two represent the upper level ranks (professors and associate professors) and two, the lower level ranks (associate professors and instructors). The chairman is elected from the department faculty at large. The department chairman is an ex-officio member and does not vote. However, if his personal recommendations differ from that of the committee, both are reviewed by Dean Morehead.

**CLUB's Kerr Lecture on 'Best, Worst of Times' Scheduled for Tomorrow**

By Jeanne Schneider

Staff Reporter

"Mrs. Gaeng and I are doing everything in our power to make the transition as easy as possible for students," said Dr. Anne Causts referring to the four-year phase out of College High School. Dr. Causts, a member of college High, Mrs. Joan Gaeng, guidance counselor and President Richardson are working with College High students and their parents to make the phase out as smooth one.

College High School will be phased out over the next 11 years, according to the college administration. All classes "from the present grade eight through the present grade 11 will be continued through graduation at the conclusion of grade 12," the college said.

The last graduating class from College High School will be the class of June 1973, according to the college administration.

UNION — The creation of an Institute of Child Study at Newark State College under the direction of Dr. Arthur Jonas and L. LaCrose, is a step designed to provide qualified people in the field of child study education and to serve as an educational research center.

Creation of the Institute resulted from within the faculty movement in the United States. More emphasis has been placed on the idea over the past five years, finally finding fruition when Chancellor of Higher Education Ralph Duncan ordered the phasing out of the Campus School, which is a demonstration elementary school similar to NSCC's High School.

Dr. Arthur Jonas, principal of the Campus School said that even though the school is to be phased out, classes will continue with emphasis inclined towards the research aspects of education. The present enrollment in the school consists of 220 children of which 45 are handicapped.

Known until recently as the Child Study Center, the Institute of Child Study is an expanded center of a diagnostic and remedial facility for children with learning disabilities. Simultaneously serving as a training center for students preparing for work in special education. Also included is an Evaluation Clinic, which provides various diagnostic services to students.

In order to phase out the Campus School, an Institute of Child Study was created. The school consisted of 220 children of which 45 are handicapped. Simultaneously serving as a training center for students preparing for work in special education. Also included is an Evaluation Clinic, which provides various diagnostic services to students.

The draft statement was submitted to Richardson for approval and a further recommendation for the formation of a standing committee on campus student employment. A committee consisting of faculty, students and administration, was approved.

"We hope to institute actual policy change as of the next college, fiscal year July 17," asserted Mr. Michael Lowenthal, member of the subcommittee which formulated the draft statement.

Policy change is expected to be determined by mid-May.

Committee To Investigate MSC Employment

By Chris MacMurray Staff Reporter

In response to a request by the MSC Board of Trustees, a campus subcommittee was established by Dr. Thomas Richardson to research the present campus employment program. A draft statement prepared by the committee has investigated various campus work problems and possible solutions for them.

As stated in the draft, "The subcommittee on campus student employment was charged with the responsibility of locating and categorizing the various areas of student employment on campus. The committee recognizes that existing disparity with regard to wage scales, hours, responsibilities, experience, need and sources of revenue have led to or would lead to low student morale, negative attitudes and general unrest among the campus working students. While the committee recognizes its primary function as a fact-finding committee, it does take the liberty of making certain recommendations which appear as part of this last portion of the statement."

The draft statement was submitted to Richardson for approval and an additional recommendation for the formation of a standing committee on campus student employment. A committee consisting of faculty, students and administration, was approved.

"We hope to institute actual policy change as of the next college fiscal year July 17," asserted Mr. Michael Lowenthal, member of the subcommittee which formulated the draft statement.

Policy change is expected to be determined by mid-May.

New Left Is Topic of Kansas University Course

LAWRENCE, Kan. — (IP) — Student interest and faculty response recently helped create a course on the New Left for the current spring semester at the University of Kansas.

Political Science 98 for juniors and seniors in Political Science for freshmen and sophomore will meet once a week for two hours in the evening. Students will meet for two hours before the course begins.

"Juniors and seniors will exchange views on lower division teaching in separate meetings where they can develop a common core for the program," Ketel said.

He explained the course was designed for critical discussions of student movements and the formation in the New Left.

He said upperclassmen will act as discussion leaders for seven freshmen and sophomore sections, each of which will include 12 students. Discussion groups will meet once a week for two hours in the evening. Students will meet for two hours before the course begins.

College States English As Second Language Course

Montclair State College in cooperation with the U.S. Office of Education will offer a six-week workshop on English as a second language. Thirty-five students from the metropolitan area will be selected to participate in the course slated to begin on June 30 and continue thru Aug. 8. Participants must hold a B.A. degree.

The workshop will be directed by Mrs. Janet Susi and Mrs. Anne Mickelson, both assistant English professors at MSC.

For more information, contact Mrs. Susi.

COPPS

The Montclarion, the weekly newspaper at Montclair State, received two separate journalistic awards this week. The Columbia Scholastic Press Association and the University of Minnesota's Associated Collegiate Press both awarded the Montclarion first class ratings as part of their annual critical evaluations of collegiate publications.

The Montclarion is a "thoroughly informative, entertaining and provocative weekly which has been printed on a weekly basis since September 1968.
Focus on the Faculty

A major step toward university status has been taken through the recommendation of the Faculty Council to support in principle the evaluation of all faculty by all students, to begin as early as this spring.

The committee on student-faculty relations, which drew up the proposal approving the faculty evaluations, has no formal objectives regarding the use of the evaluation forms this spring. However, it plans to develop ways in which the forms can be used by the administration.

Although this semester's evaluations will be handled by the professors with the forms to be retained by them for their self-education, the committee hopes future faculty evaluation forms will be used in determining tenure assignments and teacher effectiveness. (The student-faculty committee is continuing its work to develop a modified form similar to the evaluation form now available in Dean Morehead's office.)

However, it must be remembered that the Faculty Council cannot enforce this recommendation for evaluation. Although the proposal was unanimously accepted by the Faculty Council representatives, the Council cannot assure the students and administration that all faculty members will volunteer to be evaluated.

It is hoped that with the Faculty Council recommendation, all faculty members will participate in the evaluations. It must be remembered that the intention of the evaluation is to enlighten the professor as to the effectiveness of his teaching techniques, his course and course content.

Through this anonymous style of communication, the faculty members will certainly become more aware of what actually may be taking place in their classes. It is certainly hoped that constructive, useful comments will be presented, giving the faculty some honest student feedback and the Columbia School of Journalism's Scholastic Press Association.

These are indeed impressive awards that the many reporters and editors of our college newspaper can look to as a source of inspiration. The MONTCLARION is a "thoroughly informative, entertaining and provocative newspaper," commented the judge from the Columbia Scholastic Press Association.

In recent weeks, however, this newspaper has been subjected to unfounded criticism based on the whims of some SGA legislators. Their comments have little merit in view of their lack of journalistic insight.

We can only hope that these student leaders, eager to weigh the feelings of the student body against the MONTCLARION, handle their position with some degree of responsibility and intelligence.

Until recently America's underground press has largely been in the hands of the nation's idealistic youths who believe their philosophies and proposals can only be best conveyed thru the brightly colored pages of an underground tabloid.

With the increasingly large circulations of these papers, a new underground is emerging seemingly disinterested with the usual diet of rock music and drugs. One of these new underground newspapers which, in most cases, do not carry the name of a publisher or editorial staff names.

UNDERGROUND HITS FT. DIX

Perhaps the most recent, astonishing example of underground penetration is the distribution of tabloid-sized (a tabloid newspaper is the same size as the MONTCLARION) newspapers at the Fort Dix military base.

Army officials recently reported that a newspaper calling itself "Shakedown" is being distributed on the base. The officials would like to halt the distribution of this publication at Ft. Dix, but they cannot find the source circulating the underground GI paper.

"This paper is written and published by a group of Fort Dix GIs who in doing so have freed their minds from the involuntary servitude of the military machine." That's the motto Shakedown.

CURRENT INVESTIGATION

Currently under investigation is Pfc. Dennis Davis, alleged editor of Last Harass, Davis, who has 20 days to serve in the Army, was brought in front of a Ft. Gordon, Ga. board of officers for setting out "to subvert the Army and everything that it stands for," according to Maj. Joe B. Brown, Last Harass printed news critical of the armed forces and the President.

Davis contends that the Army is discriminating against him because he's a member of the Progressive Labor Party. Davis, 26, was a graduate student at Columbia University before being drafted. He refused to sign a loyalty oath at the time of induction.

Davis will know by the end of this week whether he'll receive a dishonorable discharge from the Army or remain at Ft. Gordon for his last 20 days.

GETTING BIGGER

Although not a new concept, America's underground press is beginning to receive wide attention. The underground presses of the past have been criticized to criticize the administration in power, then die off. Penetration of society is the ambition of today's underground.
A MATTER OF OPINION

LETTERS TO THE EDITOR

A Tribute, A Defense and A Platform
Are Discussed by Readers This Week

A Tribute to an

MSC Benefactor

To the Editor:

One of the intriguing aspects of a college is the memories it gathers over the years, testifying how the college’s development means much more than.

Recently, a benefactor of Montclair, Katherine Blossom Webster, died at the age of 94. She was the widow of the first chairman of the department of English, Edward H. Webster, for whom Webster Hall is named. When Webster was deposed in 1963, Mrs. Webster responded to Dr. Portington’s dedication message ably and graciously, and so great was her interest in the College on a foundation of the physics-earth science department has itself only been in existence for less than one semester.

Dr. Webster is presently in the process of forming a student advisory council which will meet regularly with him. In regard to Mr. Nelson’s reference concerning Dr. Kowalski’s dragging his feet in implementation of student representation on the Faculty Council, I would point out that Dr. Kowalski explained to anyone who asked him that it was generally felt that the Faculty Council was not the ideal place for student representation. He does not mean to imply that such representation should not exist.

In conclusion I must say personally that Mr. Nelson seems to be looking forward and to continue to assist the class in its year. If elected, I would pledge to bring to a close the Webster year in which all of our lives will be greatly affected as graduation approaches.

Michael J. Hogan,
candidate for senior class president, 1970.

Kowalski Defended

To the Editor:

Dr. Kowalski is presently in the process of forming a student advisory council which will meet regularly with him. In regard to Mr. Nelson’s reference concerning Dr. Kowalski’s dragging his feet in implementation of student representation on the Faculty Council, I would point out that Dr. Kowalski explained to anyone who asked him that it was generally felt that the Faculty Council was not the ideal place for student representation. He does not mean to imply that such representation should not exist.

In conclusion I must say personally that Mr. Nelson seems to be looking forward and to continue to assist the class in its year. If elected, I would pledge to bring to a close the Webster year in which all of our lives will be greatly affected as graduation approaches.

Michael J. Hogan,
candidate for senior class president, 1970.

EDITORIAL POLICY

The MONTCLARION welcomes letters on any subject. Because of space demands, it is not possible to publish all letters received. However, letters submitted double-spaced, typed and limited to 250 words receive first preference. Letters may be edited to conform to journalistic style. The views presented in these letters do not necessarily represent the opinions of the MONTCLARION.

A Year of Decision

To the Editor:

This year will be a year of decision for the class of 1970 - a year in which all of our lives will be greatly affected as graduation approaches. If elected president of the class of 1970, I would endeavor to enable seniors to have an opportunity to visit with employers of various vocations from all areas of the employment spectrum. At this time I propose to work with the other class officers and the administration in designing a functional interviewing program where representatives from all walks of life would meet with interested seniors on campus.

This could be done much in the same manner as teacher interviews are presently conducted. I feel strongly that if Montclair State is to truly become a liberal arts college, then we need to see that graduating seniors have every opportunity to seek employment in other areas rather than just offering employment in the teaching field.

To conclude, there is much to be done in our class in the next year. If elected your president of the senior class, I can pledge to continue looking forward and to continue to assist the class in its year of decision.

Michael J. Hogan,
candidate for senior class president, 1970.

Reportage: Disruptions Shouldn’t Be Tolerated

By Fred Buchholz

Staff Reporter

Recent student demonstrations by small groups of discontented students and non-students, which caused the closing of classes or the closing of the entire school, is a situation which should not be ignored by Dr. Kowalski, director of student affairs. The administration must admit to the lack of finances for this plan. Nor do they intend to change the curriculum to better suit the qualifications of these students.

Without a change in the curriculum, the educationally disadvantaged student will have a very tough time to maintain his grades. It is very possible that the students will fail their first year.

The demands of the few, in this case, were met; to what advantage remains to be seen, and fish. Complete disregard for the majority of the student body in takeovers should not get unnoticed. Student demands under that type of situation should be completely ignored. By using force to possess the buildings, the students are disregarding their willingness to make the issue a physical one as well as an ideological one. If buildings are taken by force, they should be, if necessary, retained in the same manner and punishment meted out to the individuals responsible for the illegal seizure of property.

ADMINISTRATION MUST LISTEN

College administrators must unveil themselves to listen and consider the desires of the students in these fast changing times, but they must also remain in charge of their respective institutions. Their first responsibility is to the entire school, not to the few radicals demanding concessions.

Most are disheartened and educated men in authoritative positions are more than willing to listen to reason. A greater number of constractive results can be achieved by means of reason and arbitration. The use of demonstrative methods should be considered as last resource.

## Jersey Student Loans

Jersey Student Loans
Reach All-Time High

TRENTON—"The number of students receiving assistance under the State Guaranteed Loan Program has reached an all time high, more than tripling in the past two years," said Chancellor Ralph A. Dungan.

"One out of every six New Jersey residents attending college in out of state is now receiving some assistance under the loan program," Dungan said.

Over $2.6 million in interest was paid on loans in 1970.

"One out of every six New Jersey residents attending college in out of state is now receiving some assistance under the loan program," Dungan said.

The program is administered by the State Guaranteed Loan Program, which guarantees to banks the amount of loans made to students who have been approved by the state.

Montclair classified ads are easy to use . . . and they bring results. The cost is only 50 cents a line, $1 for three lines.

## Duncan, Gross Quiz Set

Duncan Gross Quiz Set

Herald-News Trenton Bureau

TRENTON — The State Guaranteed Loan Program has reached an all time high, more than tripling in the past two years," said Chancellor Ralph A. Dungan.

"One out of every six New Jersey residents attending college in out of state is now receiving some assistance under the loan program," Dungan said.

Over 32,000 loans were made in the first half of this fiscal year, a 55 per cent increase over the same period last year.

Since its inception in 1960, the State Loan Program has guaranteed more than 76,000 loans totaling nearly $74,000,000.

The loan, to help pay college costs, are, at the rate of seven percent simple interest a year. The Federal Government pays the interest while the student is in college, provided the borrower’s adjusted family income is under $15,000 at the time the loan is made.

The amount of the average loan increased slightly to $1,042.40. More than 92 per cent of the borrowers are undergraduate students.

The loan, to help pay college costs, are, at the rate of seven percent simple interest a year. The Federal Government pays the interest while the student is in college, provided the borrower’s adjusted family income is under $15,000 at the time the loan is made.

The State Loan Program has guaranteed more than 76,000 loans totaling nearly $74,000,000.

The program, under the state, will be held on April 23 at 3 p.m. in the Assembly Chamber.
**U.S. to Blame for Viet Escalation**

By Jane Conforth

**SINCE YOU ASKED ME...**

Our association with the Vietnam policy stems back to the Japanese take-over of the French colony, Indo-China, of which Vietnam is part, in 1940. We became involved in keeping the Japanese out of the area with the aid of Ho Chi Minh, who was the American payroll comparable to the CIA, said the senator. In 1945, after World War II, the French desire to reconquest arose. The Roosevelt Administration impartially proposed to make the Indo-China area a United Nations territory. After Roosevelt's death, the leadership chose to back the French desire, alienating the Ho Chi Minh forces. So we descend to the modern conflict.

Forced by the tremendous drain of French forces at Dien Bien Fu, the struggling factions adopted the Geneva Accords in 1954, a cease fire which proposed a military withdrawal by both sides to their respective territories, focusing on the 17th parallel, which still divides North and South Vietnam today. The Accords provided for a popular election in Vietnam two years following the cease fire of July 20, 1954. The 1956 elections never materialized. Under President Eisenhower a puppet government was established in South Vietnam. McGovern attributed this to Eisenhower's knowledge that, as the senator phrased it, "even in an honest election Ho Chi Minh would win 80 per cent of the popular vote." The unification of Vietnam would never come about as had been agreed. Instead, the imposed South Vietnam government built an economic and political structure which was pro-American and anticommunist. McGovern pointed out that the land reforms and tax reforms, which would "lift the standard of life" in South Vietnam, were not carried out. The land reforms would have given the government of South Vietnam the popular support that it needed to become an effective representation of the people.

To show us the extent to which the Vietnam situation has grown, the senator said: "In eight years, the military budget has doubled from $40 billion to some $83 billion. As the military demands rise, so do military decisions," reminded the senator. Five years ago, there were 90,000 troops, now there are 550,000 troops.

The senator blames the U.S. for this most current escalation. McGovern urged us to abandon the "action-reaction syndrome," which has become a standard in Vietnamese policies. "We should move in a different direction," he said.

"Up until now we have maximized contact with the enemy where we should be minimizing it." Concerning reports of Vietnam and actions taken by our country, McGovern said, "Don't let anyone fool you."

McGovern suggested a coalition government, consisting of elements from all factions in Vietnam, including the military, the National Liberation Front, the Buddhists, the Catholics and the neutrals. Accompanied by military withdrawal, this move would speed the resolution of the Vietnam problem. McGovern feels that, "The fate of the world will not be resolved in Saigon." Realizing the dangers of his course, McGovern concluded his oration by saying: "My course is free from danger and hazard."

**Why does a perfect size 7 look perfect only 21 days every month?**

It has nothing to do with calories. It's a special female weight gain...caused by temporary water-weight build-up. Oh, you know...that uncomfortable full feeling that sneaks up on you the week before your menstrual period. This fluid retention not only plays havoc with your looks but how you feel as well. (It puts pressure on delicate nerves and tissues, which can lead to pre-menstrual cramps and headaches, leaves emotions on edge.)

That's why so many women take PAMPRIK! It gently relieves water-weight gain to help prevent pre-menstrual puffiness, tension, and pressure-caused cramps. PAMPRIK makes sure a perfect size 7 never looks less than perfect. Nor feels less than perfect, either.

Buonomo Impresses at Hot Corner for Sanduch

by Rich Gicff

Sports Staff

When his brother, Bucky (Wayne), taught him how to play baseball 11 years ago, Rich Buonomo could hardly toss a ball 30 feet. Now as an MSC freshman, the graduate of Bogota High is zinging bullets across the infield from third base, hitting the ball with authority and fighting hard for a starting berth on coach Al Tornillo’s frosh diamond squad. Of all the candidates, Buonomo has looked the most impressive.

Buonomo, an all-county and all-league selection in his senior year, played his high school ball at the hot corner for coach Jack Speary at Bogota. He earned two varsity awards, hitting .400 and belting three home runs last year, played his high school ball at Bogota. He was one of 18 young men from the metropolitan area asked to try out.

"That was really exciting," Buonomo noted. "I’d really love a chance to play pro ball. If I can’t though, teaching and coaching would make me, as a physical education major, very happy.

In addition to baseball, Buonomo played football here at MSC as the starting fullback for the frosh eleven. At Bogota, under Speary, Buonomo played three years of varsity in the backfield and captured the team last year. He also wrestled in his freshman year under Leo Janendo and made the varsity. He also wrestled in his freshman year under Leo Janendo and made the varsity.

Buonomo, who keeps in shape by weightlifting, points to Peter Alteri and Speary, two of his high school coaches and both graduates of MSC, as being very influential regarding his athletic endeavors and his coming to Montclair.

Sunny California was the site for the National Collegiate Athletic Association college division gymnastics championships last Friday. Coach Terry Orlick, Rich Schwarz and Dave Green, representing MSC, made the long trip cross-country to San Fernando Valley State College.

The threeplace finishers were San Fernando Valley State, Southern Connecticut State and Springfield College respectively.

In addition, he stated that MSC was not a known school at the tourney and that this had a definite effect on the scoring. "That was really exciting," Buonomo noted. "I’d really love a chance to play pro ball. If I can’t though, teaching and coaching would make me, as a physical education major, very happy.
