REFERENDUM VOTING BEGINS TODAY

30% Voter Turnout Needed

By Pat Hanrahan
News Editor

Polls opened at 10 a.m. this morning for voting on the student union fee referendum. The vote will continue through Friday with the polls open from 10 a.m. to 4 p.m. each day. A 30 per cent student vote is necessary for the results to be binding.

The referendum will determine if a $10 fee will be paid by all students for the construction of the proposed new student union building. The fee would become effective this coming semester. A campus wide advertising campaign in support of the referendum has made information available to the students on the $3.75 million building. The advertising, centered upon the slogan "Close the Union Gap," is stressing that the referendum must be passed for the building to be constructed. The building will be entirely student funded without state aid.

FROM THE STUDENT UNION PLANNING COMMITTEE

comes the notice to the student body that the referendum voting to approve the proposed $10 per semester student union fee will begin today and continue until Friday. At least 30 per cent of the student body is needed for the referendum to become effective.

There has been some student opposition voiced concerning the $10 fee. This has come primarily from students who assert that they cannot afford the cost and from upperclassmen who will graduate before the building is completed.

Mr. Jon O. McKnight, director of student activities, in an interview last week, expressed hopes that all students would vote in the referendum. "I would like to encourage every student to vote, whether for it or against, because it is a student building," he stated.

TRENTON - Chancellor Ralph A. Dungan strongly urged the General Assembly to pass a bill granting the New Jersey state colleges a greater degree of self-government and management flexibility.

Bill S-256, which passed the state Senate by a 32-1 vote on April 28, basically provides for a decentralization of authority and decision making to the Boards of Trustees and administrators of the state colleges in the key areas of budget execution, personnel, contracting and purchasing.

"The Board of Higher Education and I strongly support the passage of S-256," said Dungan.

"This bill has been thoroughly considered by the state college presidents and trustees and by appropriate members of the executive branch, including the divisions of budget and purchasing within the treasury department. In its present form, it enjoys the support of the college authorities and the executive agencies concerned.

"In short," said the chancellor, "S-256 as amended is a sound bill which provides desirable flexibility at the college level and at the same time fully protects the public interest."

Autonomy Passage Urged by Dungan

Campus Unrest Will Be Topic of Richardson's Legislature Speech

By Arlene Dusel
Staff Reporter

President Thomas H. Richardson will speak before the SGA legislature on the topic of student unrest. The meeting was prompted by legislators and students in view of militant action on major college campuses throughout the country.

Daniel Sullivan, SGA vice-president, said that although nothing serious has happened yet "we don't want to wait for an incident at Montclair." A major area that Richardson will cover is the extent of authority and the limit of power afforded the SGA legislature through the proposed SGA bill, No. 68108, "Resolution Concerning Student Unrest at Montclair State College." Although the SGA could only recommend action to be taken against student demonstrators, the final decision concerning punishment would be left to the President of the college.

The informal meeting will be held on Tues., May 20 at 4 p.m. in room 15 of the Music Building. Questions concerning student unrest will be answered at this time.

No headway has been reported yet on the construction strike presently crippling the building of Partridge Hall.

The strike, called by Passaic County construction workers on May 1, affects carpenters, masons and laborers. Mr. Joseph McGinty, director of maintenance, has stated that 80 per cent of construction is impeded by the strike.

The workers unions are currently negotiating with the contractors. Association for settlement of the strike. Among the construction workers' demands is a $3 an hour raise in bricklayers' salaries.
Meeting Announced for Math, Science School

By Roberta Kuehl
Asst. News Editor

“IT is important that students participate in the formation of the school,” according to Mr. Dean Hamdan, deputy chairman of the physics-earth science department. His statement refers to the student-faculty meeting for the proposed School of Mathematics and Science to be held Thurs., May 15 from 1-3 p.m. in Memorial Auditorium.

This school will include the following departments: physics, earth science, chemistry, biology and mathematics. At the meeting participating students will be requested to sign cards for the formation of committees which will make recommendations on 27 issues. However, instead of creating 27 committees, five committees will be set up concerning students, faculty, committees will be set up concerning students, faculty, curriculum, government and external affairs.

Positive System Replaces Traditional Frosh Hazing

Prepared by Mr. Dean Hamdan

Dr. Samuel Pratt, resident planner at MSC, is supervising the development of this school. That “students and faculty have equal voting power” in the establishment of the new school is an idea that both Pratt and Hamdan wish to stress.

Dr. Thomas H. Richardson, President of MSC, is scheduled to address Thursday’s meeting on the objectives of the school. Hamdan also emphasizes that “all suggestions made will be given full consideration by President Richardson.”

The target date for the opening of the School of Mathematics and Science is September 1970. Plans are presently being drawn for the construction of a new science and math complex as an extension of Maloney Hall. The establishment of this additional building will probably take place within a two-year period.

Dr. John J. Kamerick, President of North Texas State University, gave the main address. He stated that colleges and universities are “not sufficiently conscious of society’s long range needs.” In conclusion, he praised Olsen and stressed his certainty that Olsen would succeed as president.

Olsen spoke after the installation and said there will be no present or future “without the tradition of free inquiry (to which) Paterson State College is so dedicated.” He concluded by declaring, “I accept the charge and seek the help of all.”

Neuner: Cuts in Federal Aids Necessitates State Assistance

Prepared by Mr. Ulrich Neuner
State Aid Needed

“Cutback at present in our programs,” declared Neuner, “will make recommendations on 27 needs.” In conclusion, he praised Olsen and stressed his certainty that Olsen would succeed as president.

Olsen spoke after the installation and said there will be no present or future “without the tradition of free inquiry (to which) Paterson State College is so dedicated.” He concluded by declaring, “I accept the charge and seek the help of all.”

Mr. Ulrich Neuner
State Aid Needed

That National Defense Loans be given to those students who received loans in the past and are in dire need of financial help.” Neuner added that the government suggests a base income of $4350 for a family of four in placing students on the Work Study program.

Incoming freshmen must receive 80 per cent of initial grant money, and students who received previous grants will be eligible for a renewal. No grants will be available to seniors.
Blood, Sweat and Tears Highlight Spring Weekend

This weekend Montclair State will officially celebrate the arrival of spring. Entitled “Good Grief, It’s Spring!” Spring Weekend will begin Thurs. night, May 15, with the showing of the award-winning film, “A Man and a Woman,” in Memorial Auditorium at 8 p.m.

Friday evening Alley Club will begin its celebration in the lower lounge of Life Hall. From 11 p.m. Friday until 7 a.m. Saturday, movies of the Marx Brothers, W. C. Fields and the Three Stooges will be shown in Memorial Auditorium, Road Runner cartoons and a “Spook Spectacular” are also scheduled. Following the movies a pancake breakfast will be held in Life Hall cafeteria.

At noon on Saturday “Bullitt” will be shown in Memorial Auditorium.

Saturday afternoon Charlie Brown’s all-stars will play exhibition baseball prior to the MSA Indians’ game with Central Connecticut College.

The highlight of the weekend occurs with the Blood, Sweat and Tears concert on Saturday night along with folk singer Tim Hardin, who composed “If I were a Carpenter,” beginning at 8 p.m. in Panzer Gymnasium. Tickets are $2 and will be on sale all this week.

Blood, Sweat and Tears, a nine-man combination of rock, blues and jazz, was organized last fall by Al Kooper, then the lead singer. Steve Katz, lead guitar, played with the Blues Project and the Electric Flag before joining Blood, Sweat and Tears. Bob Colomby, a veteran in his field, is jazz drummer for the group.

In March of this year, David Clayton-Thomas replaced Al Kooper as lead singer. It was then that the group made its first hit, “You Make Me So Very Happy,” taken from their second album entitled Blood, Sweat and Tears. The group’s latest single from that album is “Spinning Wheel.”

On Sunday afternoon, Sprague Field will be the scene of MSC’s own Greek Games. Fraternities, sororities and other campus organizations will compete in a number of track and field events.

Steve McQueen As Bullitt.

Mr. Robert Foley, associate registrar, is very much aware of the problems concerning registration, having made numerous changes for students when mistakes were made. Foley feels that some confusion could be averted if students were familiar with the new curriculum requirements.

Mr. Robert Foley, associate registrar, feels that some confusion could be averted if students were informed of changes well in advance of preregistration period. Familiarity with the new curriculum might cut down on the confusion.

The English department supplied a list of courses, changes and requirements for its majors. Dr. Harold Bohn, chairman of the department, worked with his faculty to ensure clarity in the list of offerings. However, some English majors were confused by the contradictions in the listings and by the counseling of advisors. Bohn feels that the confusion would not have occurred if students had taken the time to read the listings carefully.

The math department, with approximately 400 majors, had little confusion. Mr. Paul Clifford, the department chairman, had instructors review requirements for majors and point out changes. Feeling that descriptions in the catalog were inadequate, Clifford also had instructors describe courses to their classes. Majors were then asked to turn in cards with the courses listing chosen; these forms were then used to determine the number of track and field events.

Mr. Robert Foley, associate registrar, is very much aware of the problems concerning registration, having made numerous changes for students when mistakes were made. Foley feels that some confusion could be averted if students were informed of changes well in advance of preregistration period. Familiarity with the new curriculum might cut down on the confusion.

Closing the Union Gap

Beginning today the MSC student body will have three days to decide whether a $10 per semester student union fee should be instituted in September. The student's vote in this urgent matter will have serious implications for all future classes at Montclair State College.

Not a building to be constructed through state funds, any student union building or dormitory built on any state college campus must be self-amortizing, that is, the construction costs of the building must be paid through student fees. Since a student union building must be financed primarily through student fees and MSC's fund raising efforts, a committee called the Margin for Excellence was organized in 1964, primarily to secure donations for the future building. Through the efforts of this group, over $300,000 has been put away toward the furnishing of the building. Yet with the ever-rising construction costs, these efforts will have to be supplemented. And although the MSC student has already been hit with a $200 dormitory fee increase for September 1969, the Student Union Planning Committee has found the $10 per semester student union fee to be the only answer to offset the increased construction costs.

Unless the construction is begun within the next few months, the rising costs will price the building right out of the range of MSC's budget.

However, voting for or against the fee will be left in the hands of the students. At least 30 per cent of the student body is needed for the proposal to become effective. It should be noted that at the referendum the $10 fee is defeated, the consequences may result in the scrapping of the plans for the new student union building.

We are aware of the numerous reasons given by the Student Union Planning Committee for the student subsidy of the building. However, an additional $20 per year from each student's pocket is not warranted when other financial resources are probably available to provide the necessary money to finance the building without further burdens upon the student.

A Question of Placement

As organizational meetings for the new school setup within Montclair State College are preparing the college for its future university status, some discrepancy has arisen among students as to where various departments have been placed. Presently there are separate departments for business education and distribution education but these two departments will fall into a school of Applied Arts and Sciences rather than a school of business administration.

Although five business student representatives voted against the entrance of the business departments into the School of Applied Arts and Sciences, which combines the physical education, industrial arts, speech therapy and home economic departments, no action has been taken to change the status of the business studies.

But neglect has not been the reason for the delegation of business studies as an "applied art." It is the ever-present lack of funds that has prohibited a formation of a business administration school at this time.

Student opinion is necessary in the structural formation of the new school and it is understood why frustration and annoyance have resulted from this misplacement. However, the opportunity to plan for future curriculum expansion into an eventual school of business administration should not be confused with the temporary status of the business department.

The Student's Choice

For NSC School

UNION - Newark State College's Campus School, operating for nursery through grade five plus special classes for the pre- and deaf, deaf-blind and those with communication disorders will continue to function in September under a new program.

Trenton - Dr. Howard Haas, professor of business education at MSC, has been elected second vice-president of the Association of New Jersey State College Faculties (ANJSCF). Dr. Donald Dudols of the Paterson State College English department has been elected president of the Association. The ANJSCF is composed of about 2000 faculty members from New Jersey's six state colleges.
Racial Sentiment

To the Editor:

Your coverage of the editorials in your April 30 edition was a most contradictory and unfortunate one. In addition to what you lamented the fact that there seems to be criticism of racism hurled at everything that is done and said, and that racism receives the blame for many of the problems in our society. There is no doubt about it, that in these extremely trying times, the word “racism” will be used many, many times as an unfair accusation, whereas many times it will be the right accusation.

In reading your editorials, it appears to me that you have expressed racist sentiment unawares. In your second editorial entitled “Impractical Admissions,” you state in the concluding sentence, “As long as we are going to overcome our problems, we are going to understand our people. All her students, I am afraid that if adequate education facilities for the average academic-economic student.” On the other hand, in your editorial “A Matter of Animalism Revisited,” you write, “Jerry Butler’s maxim — ‘Only the Strong Survive’ — in his song of that title may be justifiable as social commentary, especially in the face of the difficulties that minority groups have in maintaining existences within society, but his comment is a pessimistic one. I would like to believe that MORE than the strong survive.”

Forty thousand years ago, man made it his business to take care of those members of his community who were unable to support themselves. Archeologists tell us that some of the most striking evidences of Neanderthal man are aged, crippled skeletons. If it were true that “only the strong survive,” the sickly, the weak, would have died off long before they reached old age. Man, consistent with his responsibility to his fellow man, even then, and if his social security plan was not more than provision of an extra shank of meat or two for those who couldn’t get their own, his commitment, his concern still was a lot for his civilization and for his own today.

We can’t yet say that EVERYONE survives, that everyone makes it in our society. There are hundreds of kids in dumps and ghettos all over the world who are doing it literally before they are born by damning circumstances.

But man is now willing to try to beat the odds. As long as he tries, I’m willing to say: No, Mr. Butler, MORE than the strong survive!

Surviving Strong

To the Editor:

Jerry Butler’s maxim — “Only the Strong Survive” — in his song of that title may be justifiable as social commentary, especially in the face of the difficulties that minority groups have in maintaining existences within society, but his comment is a pessimistic one. I would like to believe that MORE than the strong survive.

Forty thousand years ago, man made it his business to take care of those members of his community who were unable to support themselves. Archeologists tell us that some of the most striking evidences of Neanderthal man are aged, crippled skeletons. If it were true that “only the strong survive,” the sickly, the weak, would have died off long before they reached old age. Man, consistent with his responsibility to his fellow man, even then, and if his social security plan was not more than provision of an extra shank of meat or two for those who couldn’t get their own, his commitment, his concern still was a lot for his civilization and for his own today.

We can’t yet say that EVERYONE survives, that everyone makes it in our society. There are hundreds of kids in dumps and ghettos all over the world who are doing it literally before they are born by damning circumstances.

But man is now willing to try to beat the odds. As long as he tries, I’m willing to say: No, Mr. Butler, MORE than the strong survive!

Animalism Revisited

To the Editor:

In response to a letter entitled “Animalism Maxim” (May 7), I believe the author’s views are slanted. He referred to an episode that took place on Fri., April 18, where fraternity and sorority people ‘made fools of themselves’ by making the distribution of sorority bids.

Rather than “animalism” I would call it “enthusiasm” and rather than calling them “fools” I would call them “jesters.” Receiving a bid is a big event in a girl’s life and with the help of these people to enhance the event, it becomes even bigger. Also, if you noticed, these “so-called students” as the writer so politely called them, cleaned up all of the “mess” they caused.

Enthusiasm like this is rare and exciting. It has a unifying force that dictates our feeling of “belongingness.”

My only regret is that I will not be around to see the day when organized and nonorganizational people can sit together and enjoy such an event.

Sorry you did not enjoy your lunch.

Robert Manahan, ’70

LETTERS TO THE EDITOR

European Study and Travel ‘Immeasurable’

Editor’s Note: Bonnie Marranca is former drama and arts editor of the MONTCLARION, currently studying and travelling in Europe.

By Bonnie Marranca

Special to the MONTCLARION

COPENHAGEN — The experience of studying and travelling in Europe is immeasurable by words, post cards, train tickets and Kodak prints (each has its use). It is more a feeling that gradually develops internally and remains there for a lifetime, no matter what language or where one lives it is always a learning process. But, it is quite different when in another country, especially in a foreign country, among foreign people.

Since I arrived in Europe on Feb. 4, I have been fortunate to visit many wonderful and exciting places in London, Denmark, Sweden, Germany, Yugoslavia, Italy, Greece and Austria. Each country has its own look, its own customs and manners. And, for the traveller’s bewilderment, its own monetary system.

Many sights from my travels I will never forget — the quant, cobbled stone streets of Denmark...the bouzouki music in Athens...the Sistine Chapel ceilings...the poverty of Yugoslavia...the majesty of the Austria Alps at night...the war memorials of Hamburg. Each sight too memorable to forget, too encompassing to photograph.

Language is not a great barrier, particularly if one speaks French or German. There is always someone nearby who speaks English. Besides, it’s great fun, especially in Rome, to bargain with a congressman in broken English and broken Italian. There is a treat awaiting those who can’t speak the language of the foreign country — one quickly becomes a master of mime and caricature.

One greater feeling awaits the traveler. Sooner or later in Europe one must admit, “He, I’m not ....... I’m an American.”

And it is a great feeling to ask out of his Messgeräume, some references, religious denominations... Out of his Messgeräume, some references, religious denominations...

Odd Bodkins

ABOUT 2000 YEARS AGO, THEY ASKED THIS GUY WHAT HE FELT WAS HIS MOST IMPORTANT MESSAGE.

... AND THEY ALL HATE EACH OTHER!

They said, “ Love one another.”

Europe is so beautiful, so picturesque. Gardens, castles, churches and lakes are everywhere. So are monuments and buildings... the Roman Colosseum... the fountains of Tivoli...the Acropolis... the Appian Way...the Berlin Wall. People everywhere are friendly, for the most part, selfless. It’s great feeling to ask directions and have someone walk a block with you, pointing out the street you are looking for. And to walk the streets at night without fear, something I have never done in New York City.

There are so many things that I wish I could express, special joys and funny incidents I’ve encountered as a foreigner in Europe. I really should stop calling myself a foreigner because it is my world. More than ever I realize the interrelation between America and Europe, the likeness among all the people or the world.

NEW LIFE

A new life awaits those who will have the opportunity to travel to other lands. It is difficult to describe my inner feelings because it is special to me. For each person, the experience will be different. Undoubtedly, it will be rewarding for all.

The best advice I can give is to pass on the word to your students. Willread Peterson (The Art of Living) says, “Travel expectantly. Every place you visit is like a surprise package to be opened. Travel with the spirit of a world citizen... be an ambassador of good will to all people.”
MSC Ranked with Harvard, Princeton

By Martin J. Fucio
Education Editor

Montclair State College ranks, at least one respect, with Harvard, Princeton and Yale. Three years ago MSC moved into the "highly competitive" category, an area previously dominated by New England colleges. A "highly competitive" college is one which requires A averages and high scores on Scholastic Aptitude Tests (SATs) for admission. On a nationwide scale, the "highly competitive" schools are in the New Jersey-New York-New England area. In other parts of the country, a C average or high school diploma is all that's required.

MSC's present freshmen averaged in the top fifth of their high school graduating classes and scored approximately 540 on their verbal and math SATs.

There is admissions competition as soon as you have one more than you can accommodate," stated Alan Buechler, MSC's acting director of admissions. This year, 4000 high school seniors applied to MSC. 1500 were accepted, and 900 will enter in September. In 1968, admissions hit its peak year with 5800 applications. By way of contrast, applications for 1961 totaled only 3000.

According to Buechler, 1964 was the year competition became tight. There were 3200 applicants in 1963, 4700 in 1964. MSC made the "highly competitive" category in 1966 with 5000 applicants. 79 per cent of those people were in the top fifth of their class.

What caused the sudden flood? a

Buechler speculates that it was due to the post-World War II "baby boom." Subsequently, statistically, one would expect a larger number of students to enter high school. "It is not unusual for the admission process to go through a "horseshoe type" seating situation in a more "informal" atmosphere. According to Buechler, the Studio Theatre will be used only for frequent use of the theatre. Therefore, Tracy plans to make this meeting an open forum with much publicity beforehand to increase student interest.

Mrs. Beverly McHugh, Lane's assistant, stated that MSC has been highly regarded since its inception. "Our reputation is considered to be high because of the strong tradition of a liberal arts background," stated Mrs. McHugh. Lane added that MSC is "the only state college that has had academic majors." Until three or four years ago, MSC was the only state college which graduated secondary school teachers.

According to Mrs. McHugh, 80 per cent of MSC's graduates go into teaching. Another 10 per cent go on to such fields as the Peace Corps or VISTA. Many MSC-graduated teachers become principals, vice-principals, superintendents and other administrators. "We've staffed an awful lot of high schools," stated Mrs. McHugh.

Traynor Plans New Legislative Setup; 'Dissatisfied with Rigid Structure'

By Roberta Kuehl
Asth, News Editor

To many, "good communication between legislators" and to encourage "more involvement of spectators" are Ken Traynor's reasons for obtaining permission to use Studio Theatre for the next four Student Government Association (SGA) meetings.

The recently elected president of SGA, is "dissatisfied with the present rigid structure" of SGA meetings. He hopes to abolish the formal seating arrangement (lecture style) to have "less parliamentary procedure" and to establish a "horseshoe type" seating situation in a more "informal" atmosphere. According to Traynor, the Studio Theatre will be used only once a month since it was impossible for him to attain permission from the speech department faculty for such frequent use of the theatre. Therefore, Traynor plans to make this meeting an open forum with much publicity beforehand to increase student interest.

New Jersey Bell

By George Gavitt

Congratulations to our new brothers: Frank Bartok, Bob Carly, El Klnsptom, Tom Kopre, George Mancini, John Newdeck, Gary Ox, Felix Palilonis, Ed Pio and Mariano Vega.

Congratulations to our softball team, also the Figlianos, who are seeded for another championship season. Our raffles and dance went over with great success. Our biggest event of the year, the senior banquet, will be held at Figliano Park on May 17.

PSI CHI

The men of Phi Chi are proud to welcome their new brothers: John Aneson, Tom Benitz, Bob Brewer, Joe LaPella, Frank Ridone, John Scallon and Ray Simmons.

THETA CHI PHI

 Theta would like to congratulate and thank its sisters for winning first place in Chi Kappa Xi's bowling tournament. Welcome to our new pledges: Marianne Bigos, Jose Kelly, Pat O'Donnell, Carol Suscrea and Carol Verlangieri.

THETA XI RHO

 Theta would like to congratulate and thank its sisters for winning first place in Chi Kappa Xi's bowling tournament. Welcome to our new pledges: Marianne Bigos, Jose Kelly, Pat O'Donnell, Carol Suscrea and Carol Verlangieri.

DELTA OMICRON PI

The women of Pi proudly welcome their new sisters from the Spring pledge class: Debbie Abraham, Doris Bittle, Bev Brice, Lynn Cross, Sue Dillon, Kathy Dougherty, Jeanne Fernandez, Lorraine Flynn, Diane Gates, Jill Gusther, Barbara Fraser, Greg Kalney, Connie Kowalski, Kathy Larkin, Bonnie Lozier, Lynn Lukowiak, Carol Neitz, Becky Owen, Kathy Pounds, Lisa Richardson, Dorie Spies, Gale Sterling, Ann Turinsky, Mike Verste, Jan Ziegendor. Initiation took place last night.
Some 3000 visitors are expected on the MSC campus on Sun., May 18, for freshman parents' day.

The program will open with a general meeting for prospective freshman at 1:45 p.m. in the Amphitheatre at which students and their parents will be welcomed by President Thomas H. Richardson; Dr. Allan Morehead, dean of the college; Lawton Blanton, dean of the college; and Alan Buechler, acting director of admissions.

At 2:45, the visitors will divide into groups to discuss special concerns of resident students, off-campus students and commuters. At 3:40 students and parents will be briefed on academic programs. Those who have decided upon their major will meet with department chairman; others will meet with representatives of the students personnel department.

The class of 1973 will number approximately 900 students.

SPORTS QUIZ

1. Name the pitcher that stopped Joe DiMaggio's consecutive hit streak of 56 games in 1941.
2. What NBA team originally drafted Bill Russell?
3. Name the defensive front four for the 1958 NFL Champion Baltimore Colts.
4. This left-handed passer threw seven TD's in an NFL game.
5. Match the name with the nickname: Kenneth Stabler... “Snake” Jim Hunter... “Cannon Ball” Bill Butler... “Earthquake”
6. Name the 1965 Montclair State little All-American football player and his position.
7. Between 1950 and 1964 the Yankees lost the pennant twice - '54 and '59 - to the same manager.
8. Name the 1968 National League all star catcher.
9. Who is Wellington Mara?
10. Who are Gene Upshaw and Jim Harvey?

Answers on Page 8.
**Wood and Greene Take Three First Titles In Women's Nationals**

SAN MARCOS, TEXAS – Montclair State College’s Lou Frances Greene and Denise Wood captured three first place titles each in the Women’s National Intercollegiate Track and Field Championships held at South West Texas State College on Saturday.

A total of 60 points in the Indians’ entry good for third consecutive team standings. Miss Greene, a junior physical education major from Montclair, captured the 100-meter low hurdles in 15.2 seconds and the 200-meter low hurdles in 13.5 seconds. She completed her triple team standings made the place. The girls were named with a long jump leap of 17-1.1.

Miss Wood, a freshman physical education major from Paterson, won the shot-put with a toss of 43-7/4 and the discuss with a toss of 134-11. Her winning mark in the javelin throw was 127-8.

**Linksmen Beat St. Peter's**

The golfing team registered their third victory of their campaign by blasting St. Peter’s N.Y., last Thursday. Their third victory of their campaign by blasting St. Peter’s N.Y., last Thursday.

Once again Bernie Schultz came through with another win to bring his record to 7-4, falling down for him the Most Valuable Golfer Award. Lou Tuccillo (3-2-3), Allan Gallo (5-4-6) and John Alberti (1-4-6) also were victorious, while Joe Peterson tied with his opponent to bring his record to 2-8-1. Dick Gerber sustained a tough loss in his match against Jim Dunn, St. Peter’s top player. The team’s record is now 3-8.

Jim Dunn (SP) defeated Dick Gerber (MSC) 6+4. Lou Tuccillo (MSC) defeated John Duler (SP) 2-1. Best Ball: Gerber and Tuccillo tied Dunn and Duler. Joe Peterson (MSC) tied Rich McLaughlin (SP). Bernie Schultz (MSC) defeated Mike Harris (SP) 6+5. Best Ball Peterson and Schultz 4+3. Allan Gallo (MSC) defeated Walt Wilk (SP) 9+7. John Alberti (MSC) won by default over Joe Smith (SP). Best Ball: Alberti and Gallo.

**Keime1, Inglis Combine For 12th Baseball Win Over East Stroudsburg**

By Mike Galos

Special to the Montclarion

Behind the combined two-hit pitching of left handers Fred Keime1 and Ken Inglis, the Indians of Montclair State won their 12th baseball game of the season Monday in a 3-1 shading of East Stroudsburg.

Keime1 went the first five innings to pick up his fourth win against a lone setback. He only gave up two hits but was forced to retire when his arm tightened up after a 20 minute delay because of rain.

Sophomore Inglis mopped up, allowing only two more safeties over the final four innings, while striking out four and walking only one.

The Indians jumped to a quick 2-0 lead in the first when first baseman Ken Frank powered his first home run of the season over the left field fence after Rich Sanfillipo had singled. East Stroudsburg came right back with a run in the top of the second when Marty Raby walked, moved to second on another walk to Pete Starnadorz and scored when MSC second baseman Bob Lyon threw wild to first on an attempted double play.

MSC picked up another tally in the fifth when Frank Cipot, pinch hitting for Dave Clark, singled to lead left off the inning. Keime1’s sacrifice bunt moved Cipot to second, and he continued to third when Lyon beat out a bunt for a hit. Sanfillipo grounded to the shortstop deep in the hole and beat the throw to first, allowing Cipot to score. After that both teams went scoreless.

The win upped the MSC record to 12-4. Their next game is this afternoon, a home NSCAC tilt with Paterson State. Paterson ripped the Indians 1-0 in 11 innings earlier this season.

East Stroudsburg’s record dropped to 8-5-1. The loss was the first for their starting pitcher, John Harner, after four straight wins.

The MSC win was a perfect gift for Keime1, who celebrated his 21st birthday, by winning his fourth game of the season.

MSC’s star left handed star hitter, Pete Jeraldi, started in left field for the first time in his career and collected two hits to up his average to .400. He had home runs in his last two starts as a pitcher, and his hot bat was needed in the lineup.

The Indian’s coach, Bill Dioguardi, needs two more wins this season to reach the coveted 300 victory plateau for his career. He has three more chances before he turns over the coaching reins to Gary Anderson next year.

**Thomas Sets Meet Record**

By John Annun

Sports Editor

The Collegiate Track Conference, made up of representatives from the metropolitan area, held its annual track and field championships last Saturday at Brookville, N.Y. Fairleigh Dickinson took the team title, while C.W. Post placed second and Adelphi took third.

The meet was highlighted by the outstanding performances of Jim Thomas. The soph sensation vaulted a remarkable 6-6½ to take first place and set a meet record. All season long Thomas has had to contend with the poor track facilities at MSC. But the facilities at Brookville well suited the cockatian’s taste.

Another fabulous performance was turned in by the other co-captain of the team, Paul Drew. With a good start and a fine kick, the ex-Manhattan College speedster outran all other competitors to take first place in the 120yard high hurdles in 15 seconds flat.

The discus event had one of the strongest fields ever in the conference. MSC’s own Rich D’Andrea made his best throw of the year, 154-4, good for third place.
