McKnight Declares Vote 'A Mandate'

By Pat Hanrahan
News Editor

In a four to one vote, the student union fee referendum was passed last Friday. The 30 per cent voter turnout needed was exceeded when 38.9 per cent of the students cast ballots in Memorial Auditorium lobby. The large voter turnout, together with the results, prompted Mr. Jon O. McKnight, director of student activities, to declare the vote "a clear mandate for the building."

With the passage of the referendum, students will pay a $10 union fee every semester for the construction of the new union building slated to begin this fall. Construction will take 24 to 30 months.

The fee was put to a referendum vote because the administration felt that policies for a student building should be determined by the students. McKnight had stated that without the fee, the Educational Facilities Association (EFA) would not sell the bonds needed to raise the funds and construction could not occur as planned.

The vote was counted by SGA members and Mr. Ulrich Neuner in the SGA office immediately after the polls closed at 4 p.m. A knot of interested students waited in the hall for the final tally, which took about one hour to complete.

When the results were announced, the small group cheered. Commented Bill Finnerty, past vice-chairman of CLUB: "May faith in the student body of Montclair has been reaffirmed."

Stan Jakubik, treasurer of SGA smilingly added, "I'm very happy, even though it will cost me $40 next year." Both Jakubik and his fiancee attend MSC.

The final tally was: 1662 votes cast, 1348 in favor, 314 against.

COUNTING UP

Lone Student Union Planning Committee member totals final ballots in last week's three-day referendum. The final count stood at 1348 votes in favor, 314 against. The union fee will become effective in September.

State Board May Prevent Dorm Fee Rise

JESSE YOUNG
is the Montclair State College representative to the State College Coalition, the statewide group protesting the recent dorm rise.

By Pat Hanrahan
News Editor

The State Board of Higher Education will attempt to appropriate funds in order to offset the $182 rise in dormitory fees slated for MSC and Trenton State. It was also agreed to delay any decision on a raise in dorm fees at the other state colleges until this time next year.

These two decisions were reached at an open meeting of the Board attended by approximately 500 students from Montclair, Trenton, Glassboro and Jersey City States in Trenton last Friday.

The rise in dorm fees to $1000 a year at Trenton State and MSC had been approved by the Board weeks ago. Students at the Friday meeting asked if this action could be reversed. It was revealed by the Board that trustees at both of the colleges had already signed agreements with the Educational Facilities Authority (EFA) to sell bonds for the new dormitories to be built on each campus.

The EFA agreed to float the bonds with the understanding that extra money would be coming in through the rise in fees. Without either increased fees or the appropriation of monies by the State for this purpose, the authority will not sell the bonds and all construction would be halted.

Jesse Young, resident assistant of Webster Hall, who attended Friday's meeting, felt that many of the Board members were sympathetic to the wishes of Trenton and Montclair State students. According to Young, many of the Board members felt that the students should not be assessed.

With the new dorms already underway, the only way that the increased fees at the two colleges could be avoided would be through the reapportioning of funds. None of these present on the Board on Friday were able to determine exactly if, when and from where the funds could be appropriated.

Students who were readmitted into the dormitories at MSC for the 1969-70 school year received a first semester bill of $500. This bill includes the cost of the increased dormitory fees.

Benn Chairs Committee Revising Constitution

By Roberta Kuehl
Asst. News Reporter

The Constitutional Committee of the Student Government Association (SGA) has been revising and updating the SGA Constitution under the direction of Jerry Benn, SGA representative of the class of 1971. Tom Stepnowski was formerly in charge of this committee, but his workload as SGA attorney general prevented him from continuing.

There are many changes which will be effected by committees or open forums before the new constitution is formally presented in September. An assistant treasurer may be added to help the present treasurer's overloaded job. Another new position may be executive director to run a better organized publicity programs and to assume the duties of enforcing laws, charters, statutes and procedure now held by the attorney general.

Reapportionment of representation in the SGA legislature may also occur. Since freshmen will enter without declaring a major, the need for department representatives will soon cease to exist. The number of representatives will then be based proportionately on the number of students in each class.

Many major issues remain to be evaluated and questioned. The present stipulation that representatives have a 2.25 cumulative average and SGA officers have a 2.5 average will be examined, as will the requirement that liberal arts students in their senior year cannot run for SGA offices.

Besides Benn, the committee includes Frank Cripps, social science representative; Rick Warren, industrial arts representative; Jordan Denner, music representative; and Bob Stickel, English representative.

JERRY BENN
is the chairman of the Student Government Association committee to revise the SGA constitution.

STONE HALL residents as well as those living in Webster, Russ, Chapin and Freeman will feel a $182 rise in the 1969-1970 dormitory fee.

Outmoded System Is Protested by City's Students

By David M. Lewine
Managing Editor

Newark — The value of education is currently being evaluated and reexamined by students and educators in Newark's largest city to determine ways of making high school-level courses more relevant to the needs of students.

City teachers privately confess that Newark's educational system is in the midst of strife and turmoil. Publicly, however, school officials are inclined to deny the presence of any serious problems, sticking instead to the old lines of making courses relevant to the new grade included in their cumulative averages.

The aim of these changes (the proliferation of knowledge and the impossibility of covering it all) — commented Dean Margery S. Foster.

The aim of these changes (the "mini-cum" proposal), according to Foster, is to reduce academic pressures and competitiveness for a high cumulative average.

"The faculty felt that often freshman grades indicated more about the quality of a student-teacher relationship than about his high school preparation than about her real college achievement. We hope that omitting these first grades will ease the transition from high school to college."
The MONTCLARION sees a greater future — not only for Montclair State College but for all the state and county colleges.

But while under these present financial limitations imposed by the state on Montclair State College, there is doubt as to the complete validity of the oft-repeated plans of rapid expansion and improvement.

The MONTCLARION sees a greater share of financial burden being placed upon the shoulders of the state college student.

A $182 rise in dormitory fees will become effective in September yet no improvement of the present dormitory facilities will be undertaken. The only justifications for the rise is the schedule to be completed at some future-date 16-story dormitory.

A $10 per semester union fee will become effective in the fall, yet a tentative starting construction date for the long-awaited union building has been set. And between the complications of striking workers and weather conditions Partridge Hall has been further delayed. Local administrative positions have been called for, yet there is a local shortage of faculty.

And as far as optimism for next year is concerned, we must recognize that although our administration has been most open and welcome to student participation in administrative decision, the higher authorities seem to be delinquent in accepting the opinions of the MST administration.

The absurd financial limitations have forced us to become doubtful as to the differences between the theoretical and actual purposes of Montclair State College.

GUEST EDITORIAL

Just a Discussion

On May 8, 1969 at 2:30, I attended Dr. Bertha Quintana's anthropology class. The subject of discussion this day was concerned with race and the problems people encounter when the issue is race.

The discussion, at first, was intelligent. However, due to lack of consideration and bad taste on the part of the instructor, Mr. William White (a black visitor) and I felt compelled to leave the class.

In my opinion, anyone having the slightest knowledge concerning the race issue today would have had the sense to exercise more tact.

During the past few months, the Montclair State community has been actively planning their new organizational setup. Some people claim it’s to become a university, some claim it’s to become a better college. Many, like myself, feel that it’s really not doing too much.

True, MSC is in need of an administrative and academic reorganization to be relieved of the departmental situation now found mainly in poor colleges and high schools. But - is MSC really leaving its “high-school” setup? I don’t think so. To begin:

Perhaps the most shocking mistake made by the various departments in deciding what “MSC” would join was made by the department history. Several weeks ago, they chose to keep their present organization intact and rename the special science department as the School of Social and Behavioral Sciences. Same departments, same faculties, same “social science” major, useful primarily for teaching and only in high schools. Industries and colleges are looking for specialists, and a major in “social science” has little practical usage.

BIGGEST ERROR

However, the biggest error in connection with the history department was their decision not to enter the School of Humanities. The term “humanities” has little value without a historical basis. Any historical background to be required of humanities students (that is, English, foreign language and philosophy students) has been eliminated along with the ending of the world civ courses. Maybe there are plans to include history programs in the School of Humanities - or to combine subjects - or something. However, if the history department is not to be included, both schools may be below in educating students.

Also interesting are the 27-or-so committees established by the “Central Planning Committee” that students of the various departments (such as “dissenting views” and “continuing revolution”) are easily combined. The math science school is the group only to have done this; they are to be applauded. For I have found that when numerous committee exist, the red tape and death rate go up accordingly.

Maybe the powers-that-be have plans to make the committees in each school of parallel construction. If they do, I humbly suggest that they immediately draw up plans to coordinate the work of each individual committee in relation to similar committees in each school.

It seems to be a shame to destroy a college that has great respect in the education field merely to tack “university” onto the end of its name (figuratively or literally). If a master plan (such as the “tentative Statement of Policies and Goals”), though only an uncertain plan, is introduced, or some semblance of an educationally advanced system is to emerge, then the students and faculties involved should take into consideration the overall views and needs rather than their individual interests.

Barbara Fischer: Opinion Left

Preparing for a Decision

Last weekend I was stranded in New York, and finally stayed the night with a friend on St. Marks place. There were about 12 member of City College’s radicals there planning action for this week at City. Four were playing monopoly as if they were real estate speculators and the remaining members were in a philosophical discussion on the relationship of the white radical to the black radical. More specifically, should they aid the blacks in their plans for seizing a building? It was decided that they would join only if the police were called in.

NOT AT MSC

These activities and decisions have never faced any student at Montclair. But will this continue to be true? There are many students on this campus who philosophically agree with the students at City and other disturbed campuses. But I have seen few radicals who are willing to put their bodies on the line for principle.

However, the future students of Montclair may be different. One faction which will become more active is I’m sure will be the blacks. Montclair may yet see action, perhaps next year. To my black brothers, I urge you to prepare for a decision which you may be forced to make in the future.

Where will you stand if radical action begins? What will be your position and regards to your relationship with your black brothers?

I would hope that these decisions could be avoided, but I am not certain this will be possible. Each person must make the decision of just how radical he is willing to be. I have already taken action on my decision.

What of you brother radical?
Jeff Beck is a British guitarist who was the lead guitarist for the Yardbirds and later had a successful solo career. He is known for his innovative and virtuoso playing style, which has influenced many other musicians.

The Yardbirds, which Jeff Beck joined, was a popular rock band in the late 1960s. The band consisted of Jeff Beck on guitar, Roger Daltry on vocals, and organizing drummer in 1967, Nobby Clarke. The group had a string of hits with songs such as “Shapes of Things” and “Beck’s Bolero.”

After leaving the Yardbirds, Jeff Beck formed the Jeff Beck Group with vocalist Rod Stewart and drummer Tony Newman. The group had its own hit with the song “Freebird.”

Jeff Beck continued to release solo albums throughout the 1970s and 1980s, exploring different musical styles such as blues, funk, and hard rock. He collaborated with many notable artists, including Eric Clapton and John Lennon.

In 2009, Jeff Beck was inducted into the Rock and Roll Hall of Fame for his contribution to rock music. He is considered one of the most influential guitarists in rock history.
The world is full of stereotypes. Now, Edwin Gilbert has added to that fullness with Jamey, from Trident Press. Billed as "a novel of a period 1967-68," it is the story of a guitarist, strumming, motorcycling, long-haired radical hippie type who makes it big as a folk singer and transcends into the maturity to reality. Jamey's friend of a draft dodger and to those who lived this past year the controversies so well known to them. Leight Reveals That Few Students Use Pass-Fail

By Jeanne Schneider

Dr. Gilbert Leight of the speech department, who served as faculty representative of the Committee on Examinations and Academic Standards, announced that few students took advantage of the opportunity to voice their opinion about the present pass-fail system.

As the pass-fail policy now stands, students may elect one course per semester to be taken on pass-fail credit beginning with the first semester of their freshman year. Certain courses are considered "ineligible." These are student teaching, professional sequence courses, methods courses and courses in the student's major. Instructors are to keep records of all students for purposes of research and evaluation in the future. Each student who desires pass-fail credit for a course must fill out an application form and have it signed by the professor teaching the course. Applications must be filed in the office of registration. Faculty members are asked to keep a list of those students in the pass-fail program. For the purpose of future research, faculty are asked to give the letter grade the pass-fail student would have earned had the student progressed under the A through F plan.

The pass-fail questionnaire asked students their opinion about such ideas as "A pass-fail system of grading is desirable in principle." Students were asked which courses they felt should be eligible for pass-fail credit. Opinions about pass-fail credit for summer and graduate courses were also taken.

Students who completed the pass-fail survey followed an answer code which ranged from I — strongly disagree, to 5 — strongly agree. Thirteen questions were asked. Space was given for comments the students wished to make. The men of Alpha Phi Omega were in charge of distribution, collection and tabulation of the questionnaires. Results are forthcoming.

Congressman Helstoski, MSC
Graduate, Speaks May 22

By Roberta Kuehl

As a reform mayor of East Rutherford for four terms, he claimed direct personal experience in rooting out corruption at municipal levels. Helstoski was elected to Congress in 1964 and re-elected in 1966. Even though his district was gerrymandered by the N.J. legislature, he was again elected in 1968.

When he announced his candidacy for Governor on March 11, 1969, he stood on the steps of the Newark Public Library to emphasize the important of the crises which are growing in New Jersey and other major cities of America.

Henry Helstoski, Gubernatorial Candidate.

MSC Commencement on June 1; Commissioner of Education Keynotes

By Susan Dominski

Commencement exercises for the class of 1969 will be held on Sprague field at 11 a.m. on June 1. Approximately 900 students will graduate with a B.A. degree, and about 200 will receive an M.A. degree. Dr. Edward Meade, an alumnus of MSC who is currently serving as the special consultant to the Secretary of the Department of Health, Education and Welfare and is the U.S. Commissioner of Education, will be the principal speaker. Meade, who is also program officer in charge of public education for the Ford Foundation's Division of Education and Research, has served with various federal and state bodies for more than a decade.

The graduating students will be seated on the field according to departments, and will receive their degree from their department chairman.

An unlimited number of guests will be permitted to attend commencement if the weather is fair and it is held on Sprague field. In the event of rain, graduation will be postponed for two hours and will then take place in Panzer Field.

Two graduation announcements will be provided for each student, but he may purchase more in the lobby of Life Hall.

Caps and gowns will be distributed to seniors on May 26, 27, 28 from 9:30 a.m. to 2 p.m. in Annex B, room 1.

Harry Kuhn, senior class president, stressed that students will not receive their diplomas unless all fees have been paid, including repayment pledges for National Defense Student Loans, traffic and library fines.

Students not wishing to attend commencement must submit a note to Dean Allan Morebread or risk not receiving their diploma.

Attendance at graduation rehearsal is mandatory for all seniors on May 28 at 2 p.m.

Congressman Henry Helstoski (D-Bergen), an MSC graduate, will begin tomorrow in Memorial Auditorium on current news issues. He is presently a candidate for the Democratic nomination for Governor.

The Council on International and National Affairs (CINA) is sponsoring Helstoski's talk which is scheduled to begin at 8 p.m.

Helstoski has served as teacher and administrator in the New Jersey public school system for 15 years and was appointed as principal of Wallington High School at the age of 36. He also held the position of superintendent of schools in Wallington and previously served as chairman of the English department at Cedar Grove High School.

As a reform mayor of East Rutherford for four terms, he claimed direct personal experience in rooting out corruption at municipal levels. Helstoski was elected to Congress in 1964 and re-elected in 1966. Even though his district was gerrymandered by the N.J. legislature, he was again elected in 1968.

ISP Plans for '69-'70

Marsha Zubanas would like to see fraternities and sororities sponsor events not only concentrating on Greek life but centering on Montclair life in general.

"Fraternities and sororities should initiate more school projects," says the attractive sophomore, a sister of Chi Kappa Xi.

And as the newly elected president of the ISC (Inter-Sorority Council), Miss Zubanas hopes to further unify the sororities and fraternities through social and academic projects.

She and her officers have already met with the Inter-Fraternity Council executive board to plan for the newly chartered organization, the IFC-ISC Executive Council. Beginning in September, the Council, composed of IFC and ISC officers, will have the responsibility of chartering Greek organization. Sororities and fraternities through social and academic projects.

During new student orientation, the cooperating groups will sponsor a dance. The annual presentation of sorority pledges, has also been scheduled for February. Hopefully, Miss Zubanas says, Cotillion will be held at the New York Hilton Hotel. Plans for and ISC spring vacation trip to Bermuda are also underway. This year, Miss Zubanas served as chairman for the ISC Puerto Rico trip.

Full of plans for 1969-'70, Miss Zubanas and Donna Cattai, newly elected vice-president of ISC, will host an inter-sorority display of Greek activities during new student orientation.

Energy and full of enthusiasm, Miss Zubanas hopes that next year will be one of unity for all Greek organizations. She will be aided by her executive board consisting of Donna Cattai, vice-president, Sigma Delta Phi; Karen Peluso, corresponding secretary, Kappa Sigma Rho; Lois Zahrednik, Delta Theta Pi; Phyllis Palmbi, treasurer, Kappa Rho Upsilon; Anne Cooper, historian-parliamentarian, Alpha Sigma Upsilon.

Possibility of Outdoor Board Track Raised

By John Donor
Staff Reporter

Mr. William Dioguardi, director of athletics, announced that MSC may soon have an outdoor board track on Sprague Field. Since plans for the track was established, the cost has increased from $3100 to $3400. Money will be raised through the Richard Wiling Fund.

Dr. George Hom, of the physical education department, sees this as a tremendous asset for recruiting future track team members. Dioguardi asserts it will be an important service to everyone at MSC.

The track will be erected by interested students under the supervision of the school carpenters. It will be erected at the conclusion of the football season at the northern end of Sprague Field and dismantled after the opening of the outdoor track season.

If clearance is not received for this area, then the track board will be set up near the tennis courts.

Donations have already begun to pour in. $1,000 has been donated by the 1968 Carnival committee. The faculty has given a check for $100. There are $250 in promised funds and a check is coming from the AAU (Amateur Athletic Union).

The fund has reached $1,747.30, and Dioguardi expects that the Richard Wiling Fund can accumulate the projected goal of $4,000.

Donations can be made by alumni of MSC or by the general public. They should be sent to Dr. Richard Wiling Fund, MSC, Upper Montclair.

Columbia Sets

NEW YORK - Teachers College, Columbia University, in cooperation with the New York City public school system, will inaugurate a 15-month urban teachers corps program this June leading to the masters degree.

The program's director, Joseph Bongo, stated: "Teachers College has established this partnership with the New York City public school system in an attempt to address the critical problems of developing highly motivated and trained teachers to improve the quality of educational experiences in inner-city schools." The 1969-70 project, supported by the New York State Urban Teacher Corps, will prepare teachers for the elementary grades.

Teacher Corps

June and be accepted at Teachers College where they will be students in the Department of Curriculum and Teaching. They must also be willing to serve at least two years after receiving the degree in the school district where they are trained.

The training program includes course work totaling 34 credits, service as an assistant teacher and intern teacher in a public school and six weeks in a community agency. Each student will receive grants for teaching and the community agency work.

Applicants are being sought. Interested persons may obtain further information and applications by writing to Mr. Bongo at Teachers College, Columbia University, New York, N.Y.

Legislative Bill

With Unruly Students

By Susan Johnson
Staff Reporter

A bill aimed at dealing with unruly high school students was passed two weeks ago in the New Jersey State Assembly. The bill, which received unanimous support from the Assembly, is now brought up before the State Senate, where its passage seems to be assured.

The sponsor of the bill, Assemblyman Thomas H. Kean (R-Essex) comments that the new law will simply restate, in clearer terms, the provisions of the existing bill concerning the problem of student defiance of authority.

The new bill before the legislature states the following: "The offenses of willful and continual disobedience, and/or open defiance of a teacher are subject to the penalty of expulsion or suspension. The inciting of students to actions leading to truancy and to the continual endangerment of the physical safety of other students are two other offenses punishable by suspension or expulsion."

Several other specific offenses which would incur punishment were listed. They included physically assaulting another student, teacher or school employee and willfully causing damage to be done to school property. These more punishable offenses were: participating in an unlawful occupancy of school buildings, failure to leave school property when directed to do so and inciting others to participate in a sit-in on school grounds. Attempting to take money or belongings from other students were among the listed offenses. These and another offense subject to punishment.

The bill, if passed by the state senate, will only affect the public high school students of New Jersey. It will not affect the students on the state college campuses.

Take the best of both worlds: Join the IFC-ISC Executive Council and be part of the Montclair life. For more information, contact the President or Vice-President.

More Executive Positions

Set up as College Expands

Due to the current reorganization of New Jersey State College, three new positions have been created to aid President Richardson in the administration of MSC. The three positions are: executive vice-president and provost, executive vice-president of the division of instruction and division of business and financial services.

The Coordinating Committee, which initiated the establishment of the three vice-presidencies at the Clifton Conference last fall, has been appointed as the Selection Committee to recommend a candidate for each of the three positions. The Selection Committee has decided to recommend the appointment of Dr. Allan Morehead for...
Black Demands Made At Paterson State

By Richard Kamencik

A black studies program, a BSU (Black Student Union) review board of faculty and 30 per cent minority admissions for future freshmen were the chief demands recently made by black students at Paterson State College.

A minor disruption occurred on May 8 when the BSU occupied a Rau-Bing, Hall, building early that morning. Although the building was only occupied for a few hours (the black students left later that morning), classes were cancelled the entire day.

On May 9, the BSU attended an open meeting of the Board of Trustees at 7 p.m. where their demands were discussed. The Trustees acquiesced to the demands, but lack of funds prevented them from granting money for the project.

Then the BSU students and supporters walked out. Informal discussions between the BSU and the Trustees are presently being held.

According to Miss Sue Tallia, news editor of the State Beacon at Paterson State College, the campus is quiet at present. Leon Kendrick, leader of the BSU, refused to comment at this time on the situation at Paterson State.

The Black Studies demand included a request for a major and a minor in the program. The BSU believes demand was made so that the BSU could review and approve those professors who would teach in the Black Studies department.

The 30 per cent minority admissions for future freshmen classes was the demand that raised the issue of lack of immediate funds. Also, minority applications for the class of 1973 at Paterson State did not total 30 per cent.

Further, the BSU wanted the admissions office to give them information concerning the BSA policy regarding admissions of minority students and how their applications were treated.

The campus SDS was not active in the activities of May 8 and 9; however, expressions of solidarity with the black students and their demands remain in office for a full year.

Krauss Retires After 35 Teaching Years

By Richard Kamencik

Dr. Russell Krauss, a well-known Chaucerian authority and former Rhodes Scholar, will retire in June after 35 years as a member of the English department at Montclair State College. He has been designated a full professor emeritus by the Montclair State Board of Trustees.

After finishing Oxford in classics and philosophy at the University of Utah in three years, 1920-23, Krauss spent the next 10 years at Montclair State University of New Jersey, now known as Montclair State College. He received his Ph.D. at New York University in 1953.

"If our preliminary inquiry turn up indications that the school board is not abiding by public trust, we may call for a full-scale investigation," said Richard W. Loewenthal, director of student personnel. H.S., the NJEA's Committee chairman.

The case began in January when School Superintendent Richard B. Ericksen recommended that Mr. Donaldson, a six-grade teacher at the Cape May County Special Education Association, be fired for "rocking the boat" by seeking educational improvements in the school system.

Both the Cape May County Education Association and the Atlantic City Education Association have passed a resolution supporting Mrs. Donaldson, asking a "fair hearing" for her, and related the board to explain the dismissal.

"There are a lot of things a teacher can spend $3,000 on new band uniforms but not for such a thing as a library," Mrs. Donaldson suggested that the library is the saddest-neglected area. I wanted to explain the dismissal.

"There are a lot of things a teacher can spend $3,000 on new band uniforms but not for such a thing as a library," Mrs. Donaldson suggested that the library is the saddest-neglected area. I wanted to explain the dismissal.

"There are a lot of things a teacher can spend $3,000 on new band uniforms but not for such a thing as a library," Mrs. Donaldson suggested that the library is the saddest-neglected area. I wanted to explain the dismissal.

Citizens have circulated petitions requesting the board to give Mrs. Donaldson the job back. But all students hired must have their applications on record in the office of Neuner, Richard.
Paul J. Loys, a physics major from M.S.C., has been awarded an NDEA (National Defense Education Act) Title IV Fellowship in physics at Auburn University, Auburn, Alabama. He will begin graduate study at Auburn University in the Fall of 1969 with a three year stipend. His major field of study will be plasma physics, a rapidly expanding field.

Besides the NDEA fellowship, Loys also offered an assistantship from Duquesne University and a combination assistantship and fellowship from William and Mary.

Two junior home economics majors at M.S.C. have been elected to offices in the College Council of the New Jersey Home Economics Association. Michele Reily is the new president and Mary Huschiey, secretary.

Miss Reily has also been awarded the NJHEA scholarship for the coming year, which she will use to continue her studies at M.S.C. In addition to her state office the junior student was recently named to the nominating committee of the Student Home Economics Association.

The Montclair State College Club held its final meeting of the semester and elected officers for the 1969-70 year. The new executive board is as follows: Robert Ashwell, president; Ed Stovy, vice-president; Dan DeLorenzo, treasurer; Barbara Griffiths, secretary. The club is also planning to display the student response to the new fine arts building. In addition to planning the show, the faculty will also be invited to attend.

Publicity chairman and Rorem Program Scheduled for MSC Concert

The music department of M.S.C. will offer a concert of works by Ned Rorem. The program will consist of a group of songs, a trio and two groups of Madrigals. Originally scheduled for Feb. 9, but postponed because of the blizzard on that date, the program will be held on Sun., May 25 at 3:30 p.m. in the recital hall of the music building.

The New Jersey Federation of Music Clubs is jointly sponsoring the concert with M.S.C.

The madrigals will be sung by Lois Wintern, soprano; Helene Miles, contralto; Phillip Olsen, tenor; and Michael Stewart, bass. The trio will be performed by the Trio of L’Amore, composed of flute, flutes, and Michael Stewart, bass. The trio will be performed by the Trio of L’Amore, composed of flute, flutes, and Michael Stewart, bass. The trio will be performed by the Trio of L’Amore, composed of flute, flutes, and Michael Stewart, bass. The trio will be performed by the Trio of L’Amore, composed of flute, flutes, and Michael Stewart, bass. Players Forecast
Four Productions

By Arlene Dusel
Staff Reporter

The announcement of productions for the coming season highlighted the program of the Players banquet, held last Friday in the Studio Theatre.

Players president, Scott Watson, proudly announced that for the first time Players would put on four major productions. The first play of the season will be "Barrett in the Park," directed by Dr. Robert Lowey. Rehearsals will be open during the new student orientation. Rehearsals will be held two weeks prior to the beginning school.

The second play to be presented will be "Marnie Sado." To be directed by Dr. Jerome Rockwood, the play deals with immature in an insane asylum.

Newly Elected SGA Officers: Ken Traynor (second from left) is sworn into the office of SGA president by outgoing president, Robert Martinez (second from right). Traynor and his executive board will officially take office on July 1. Pictured left to right are: JoAnne Hodde, secretary, Traynor, Greg Doucette, vice-president, Martinez and Don Sova, treasurer.

Sex Education: A Complex Task in Nation's Schools

By Michael Heany
Staff Reporter

"Silence is criminal. We must teach these facts and teach them right, so that knowledge may lead to purity and righteousness. But with the new awakening and discussions of sex matters, the pendulum has swung from silence to publicity that is almost nauseating."

So said E. K. Mofr of the International Sunday School Association. As remarkable as it may sound, this statement was made in 1914! Even then the issue of sex-education was a controversial one; and the "swing of the pendulum" parallels quite amazingly the height to which interest in sex-education has soared today.

The last four years have seen a rapid growth in the number of schools introducing sex-education; and along with it has come some opposition. Groups such as P.A.U.S.E (Parents Against Unconstitutinal Sex-Education) have sprung up, fearing that the matter of sex is getting out of hand.

It is estimated that approximately 70 per cent of the nation's schools have already broadened, thorough sex-education programs. Indeed, progress has been so rapid that it is creating problems: a shortage of qualified teachers and great uncertainty about what form instruction should take.

Most educators agree, however, that whatever form is used it should begin early. In the school system of Washington, D.C., for instance, first- and second-graders study their own anatomy, and third graders study breast-feeding. Not until the fifth and sixth grade does the course take up menstruation and reproduction.

In Anaheim, Calif., where music program is considered one of the best in the country, instruction begins in the seventh grade, covering parent-child and sibling conflicts, physical changes in adolescence and masturbation. The eighth grade takes up more physiological changes and "problem solving techniques," the latter grade discusses going steady and premarital intercourse.

The tenth grade deals with engagement and preparation for marriage. Eleventh grade makes up sexual relationships in marriage and the causes and effects of divorce; the twelfth grade continues with adjustments necessary for children.

The teachers at Anaheim permit classroom use of four letter words in order to strip the word of its forbidden thrill. Once the emotional barriers are lowered, questions arise that are indicative of the uneasy feelings which students have: "My buddy and I are really affectionsate. Does this mean I'm a homosexual?"

"Does masturbation cause impotence?""Does masturbation cause blindness, mental illness and sterility?"

The relief in learning that these things are not harmful is profound. Said one New York student, "When you find out that every other guy in the class does it and it's not all that unhealthy, you don't feel so bad anymore."

Dr. William H. Masters and Mrs. Virginia E. Johnson, co-authors of the much talked about Human Sexual Response, however, prefer to take a view concerning the nature of sex-education.

They feel that it is very crucial to make the distinction between sex and sexuality. "Sex is physiology -- what happens to the body as a result of sexual activity," Sexuality, however, embodies not only the physiological organism but also its distinctive personality. "Sexuality is our maleness or femineness, from infancy onward, that stamps our whole being."

"Sexuality does not suddenly emerge at puberty," they say. "The infant 'learns' it at his mother's breast, from the touch of his father's body, the sound of her voice. He learns it in the different ways in which his father holds him, the different sound of his father's voice."

"He learns it by touching and being touched when he is batted. He learns from the pleasures of sexual stimulation, the pleasures of sounds, smells, of embrace. And it is from this learning, from these beginnings of sexuality, that his capacity for tenderness, for warmth, for love and for sex are nurtured."

This, it would seem is the first and most important thing to establish: Sexuality is there, and it is good. We accept our interest in it and we want to try to understand it. Once parents have acknowledged this to their children only then, it would seem, can they talk effectively about the obligation people have to use this gift of sexuality with intelligence and responsibility.

Obviously then parents cannot bury their heads in the sand and expect the schools to do an effective job. Dr. Mary Calderone, one of the leaders in the field of sex-education, has said that you can't teach sexuality without morality, and if parents are against the teaching of morality in the schools, then who is going to do it?
New Guides for Modern Brides

Organizing a new household today is actually a study in logistics. Today's bride must know the answers to a score of modern homemaking questions that her mother was never really aware of. What colors or design should she choose in towels, shower curtains, bedspreads and blankets? How many pillowcases will she need? How should the pattern of her sheets coordinate with the rest of her linens?

The "linen trousseau" questions most often asked by brides-to-be were recently researched by the makers of the Fieldcrest bed and bath linens, and here are some of the answers, pointers that are important to every new homemaker.

Did you know, for example, that you should stock three pillowcases per pillow? And four of each size towel — bath and hand — plus four washcloths are considered a minimum per person. A half-dozen fingertip towels are basic for guest use. You should plan on having six sheets and two mattress pads per bed. Each bed ought to have a minimum of one bedspread for summer and one for winter.

When decorators finally realized that people spend one-third of their lives in their bedrooms and baths, suddenly these rooms began to reflect the fashion tastes and personalities of the occupants. The bedroom, once a king-sized space, elegance, and

The romantic tradition of the "hope chest" — when the young bride's linens were monotonously the same as her mother's and her grandmother's — is gone forever. Today's smart young bride can select her "linen trousseau" with modern ingenuity to reflect the individuality of her new home.

...so did the bedding. Bath linens have been transformed from the all-white of Grandma's hope chest days to opulent decorator items in bright patterns and accent colors. For the bride-to-be this means that stocking the linen closet also requires a lot more knowledge of color values than before.

For example, we all know that red goes with white, but a third color, like a deep verdian green can create a striking accent that adds a new sophistication. Similarly, you might try combining black and brown shades with either the palest lemon yellow or a desert pink. Another important factor is the cool vs. the warm colors. Get to know them, say the decorating experts, as they can psychologically affect your rooms. Pinks and oranges can create a warm bedroom; blue and green towels can help give a cool look to the bathroom. With the enormous color selection available in bed and bath furnishings today — in both solids and patterns — you can match them up right at the counter to suit your own artistic imagination.

And here's an ingenious suggestion for providing an easy way to recognize the sheet size you need when it's folded in the linen closet. Fieldcrest calls it "color-coding" your linens. If you choose pastels for all "Your First" fitted bottom sheets, floral patterns for all double-size top sheets and a classic stripe for all single top sheets, one glance will tell which sheet belongs where. Today, of course, you can get all these different patterns in coordinated colors that insure decorator-matched sets.

Now here are some tips to the bride on the care of her linens. All deep tone sheets should be laundered separately the first six Times or until all the excess dye has been eliminated. That loss of dye does not mean that your linens are fading. An excess of dye is unavoidable in the dying process. Another pointer: when fabric softeners are used excessively, they tend to make towels incapable of absorption. For best results, use softeners occasionally, but not every time you launder. And terrycloths are made to be fluff-dried, not ironed.

When bleaching, be sure to use as directed. Over-bleaching will weaken the fabric and dull the colors. When you launder permanent press sheets, enzyme pre-soaking can help remove difficult stains. Then just launder, using the wash-and-wear cycle of your automatic washer.

For that elegant and ultra-personal touch, the bride-to-be might like to have her "linen trousseau" monogrammed. To the question, "Which initials shall I use and in what order?" Fieldcrest reports: use the bride's first, middle and maiden-name initials. The married-name initial should be the largest of the three, or should appear in he center of the design. However, if the initials happen to spell a three-letter word, Fieldcrest suggests you choose a monogram design that will rearrange them.

The "linen trousseau" is no longer a "hope chest" when the young bride's linens were monotonously the same as her mother's and her grandmother's — is gone forever. Today's smart young bride can select her "linen trousseau" with modern ingenuity to reflect the individuality of her new home.

Sports Staff

The frosh baseball team has completed its season at MSC with an impressive 15-2 record. Coach Al Tornillo combined the right amount of power with a crackerjack defense and a superlative pitching staff to do the trick. With the season freshly completed, the junior Indians have compiled the best froshman record ever.

The catching position was held down solidly by Larry Berra. Berra is a local product from Montclair and a former All-State selection as a catcher. He was mainly a long ball hitter with two home runs, a triple, and two doubles to his credit. He was a strong catcher with a quick snap.

The hot corner was shared by Bob Cardwell, the “Sea Side Sluggers” as he finished with a .320 average. Cardwell hit both for average (.320) and for distance (led the team in extra base hits with seven.) He has the distinction of hitting the longest ball every hit to right field at Montclair, a 425 footer to the tennis courts.

The right field slot was shared by Greg Sharpe and Bob Heck. Sharpe was an excellent fielder and looked good in the outfield. He appeared to have the job wrapped up until he ran into some hitting problems. Heck then replaced him in the starting lineup. The only words which could be used to describe Heck is hustler. He started out with a hot bat but cooled down at the end of the year. Bob Cardwell, the “Sea Side Slugger,” was in center field. Cardwell hit both for average (led the team in triples with three. He had one homerun to his credit. Parker was a hard throwing righty with a wicked fast ball. He also had the lowest ERA with a 0.45 in allowing only two earned runs in 37 innings. Parker finished up with a 3-1 record.

The pitching staff is the biggest credit. Parker was a hard throwing righty with a wicked fast ball. He also had the lowest ERA with a 0.45 in allowing only two earned runs in 37 innings. Parker finished up with a 3-1 record.

When you think of a track star, the image of a Bob Hayes or a Randy Matson or a Bob Seagren comes into your mind. There are all great athletes in the world of track and field that is.

At Montclair State, there are two track stars who don’t fit that image a bit. They are Lou Greene and Denise Wood, MSC’s National Women’s Champions.

In the recent Women’s National Intercollegiate Track and Field Championships at Southwest Texas State College, San Marcos, Tex., MSC’s team, consisting of Miss Greene and Miss Wood, placed third with a total of 60 points. The girls were named co-winners of the meet’s most valuable athlete award as they each captured three firsts.

Miss Greene, a junior physical education major from Montclair, won the 100 and 200 meter hurdles and the broad jump. Miss Wood, a freshman from Haledon, won the shot put, discus and javelin. Both girls became interested in track while in high school, Miss Greene at Montclair High and Miss Wood at Manchester Regional. They were both helped along by the late Dr. Richard Willing, former track coach at MSC.

Lou Greene is currently the New Jersey AAAU 10-meter hurdle champ and also the New Jersey AAAU senior women’s trapshooting champion.

Denise Wood is presently fourth nationally in the shot put and is reigning New Jersey shot put and discus champ. She also took part in the United States Olympic trials last year in California, but failed to make the team although turning in some outstanding performances.

Women’s track coach at MSC is Dr. Joan Schleede of the Panzer School of Physical Education and Hygiene. With two girls like Lou Greene and Denise Wood, she must have a lot to be proud of and is sure to have a lot of future success from two fine athletes — who really don’t look like athletes.

Thomas and Drew Lead Cindermen

By John Aneson
Sports Editor

Although not indicated by their 6-7 dual-meet record, the track team enjoyed a quite prosperous season. Dr. George Horn’s squad consistently scored heavily in the field events and held their own in the track events, although hurt in the distance races.

High jumper Jim Thomas, who shared the MVP award with hurdler Paul Drew, had a fabulous year as he went undefeated in dual-meet competition. The sophomore captain cupped off the season with a first place in the Collegiate Track Conference Championships, a metropolitan area contest. He set a meet record with a jump of 6-6 1/4 and has done 6-7.

Junior hurdler Paul Drew, the other co-captain, also had quite a year as he took first in the 100-yard dash, the 220, the 120-yard high hurdles and the 440-yard intermediate hurdles throughout the year. His specialty is the 120-yard high hurdles. This year he has been invited to Madison Square Garden more than once to compete against the likes of 1968 Olympic gold medal winner Willie Davert, Leon Coleman and Villanova’s Erv Hall. Drew also took first at the CTC with a clocking of 15 seconds flat.

Rick D’Andrea, a junior, gave stellar performances in both the shot-put and discus this season. He took third in the CTC with a 154-4 throw in the discus.

Sophomores Chuck Evertz, Joe Hibbs, Gerry Nugent and Joe Hibbs performed well in the short distances. The half-mile and two-mile were sore spots due to the absence of junior Dale Rodgers.

Rod Hamilton, a senior, gave capable assistance to Drew in the hurdling events.

The javelin throw was handled by both Jim Thomas and senior Gary Wood.

Mike Galida, a junior, did a fine job in the shot-put and discus to complement D’Andrea.

Bob Ayres, a sophomore, did quite well in the field events as did junior Bill Hecht in the high and long jumps.

Dave Flagg was a big boost in the pole vault. He is also a sophomore, as is John Molter, another vaulter of promise.

Thomas, in the high jump, was sided by sophomore Hank Masak and junior Dave Green, the gymnastic star.

Notable freshmen were Vic Mizzone and Tom Reaves, who shared the best freshman award. Mizzone, out of Totowa, clocked a 4:22 mile against East Stroudsberg last week and looks like a star of the future.

Reaves is an outstanding hurdler from Union and like Mizzone had taken firsts in many freshman meets. He also runs the 100 and high jumps over 6 feet.

Other freshmen of note are Demetresco Morris of Orange, Glenn Staudinger of West Paterson and pole vaulter Frank Ridout of Pleasantville. Bill Rathbun is another fine hurdler.

季节回顾

The 1969 season, the last for Coach Bill Dioguardi at MSC, was quite a successful one. The Indians posted a 14-5 record and won the New Jersey State College Conference Championship with a 8-2 conference record.

Dioguardi selected a spot group when he won his 300 career coaching victory in the second inning. They other run came in the third when Bob Lyon walked, went to second on another walk to Frank Rossi and scored on Carmine DeSimone's single to center. Their other run followed a line drive single by Ripley careened off his leg and caused considerable swelling.

The winner for Central was Russ Petrinich who relieved starter Gary VanEtten in the second inning, the Blue Devils of Montclair added two runs in the fourth. The win gave Petrinich a 3-0 record for the season.

'69 Indian Season Closes with 14-5 Record

The Indians won the Conference Championship by one game over Glassboro State. Their 10-2 victory over the Profs was the first MSC victory over Glassboro since 1966.

Montclair losses for the season came at the hands of Upsala (5-4), Rutgers (5-2), Paterson State (1-0 in 10 innings), St. Peter's (3-1), Glassboro State (7-3) and Central Connecticut State (7-2).

The Indians posted victories over Fairleigh Dickinson, Newark Rutgers, NCE, Bloomfield, Pace, East Stroudsburg, Glassboro State, Paterson State, Trenton State (two) and Jersey City State (two).

Sophomore Frank Cipot led the Indians in batting with six hits in 16 trips to the plate for a .375 average.

The highest regular was Junior second baseman Bob Lyon who collected 19 hits in 52 at bats for a .365 average. He was followed closely by junior catcher Frank Rossi with 26 for 73, a .356 average. Rossi also led the team in number of hits, 26, and doubles, eight.

The team leader in runs batted in was senior first-baseman Ken Frank who drove 18 men across the plate. Sophomore short-stop Rich SanFilippo was the team leader in stolen bases with seven.

In the pitching department senior right hander Pete Jerauld led the mound staff with a 4-0 record and an earned run average of 0.86. He finished his career as the top ten all time MSC mound stars, with a record of 16 wins and only four losses. All four losses came at the hands of Glassboro State over the years. He avenged those losses with a 10-0 pasting of the Profs this year, giving the Indians the conference crown.

Sophomore left hander Ken Inglis was also outstanding finishing with the most victories on the staff, five, and with the most strikeouts, 75. All of Inglis' three losses were heartbreakers. Upsala scored twice in the bottom of the ninth to beat him 5-4, and Paterson State scored in the tenth on a wild pitch for a 1-0 win.

Juniors Fred Keimel (4-2, 2.99 ERA) and John Grzymko (1-0, 2.95 ERA) were also outstanding on the hill.

With only three seniors graduating, Jerauld, Frank and Tom McCormick, Clary Anderson will have the nucleus of a fine team when he takes over from Dioguardi next spring. -M.G.
