MSC GOES UNIVERSITY

Collegewide Meeting
Sets 1970 Plans for University Status.

By Michael Heaney
Staff Reporter

A collegewide meeting to inform students concerning recent developments and future plans affecting the division of Montclair State College into five schools will be held this morning at 9:30 in Panzer gym.

Four speakers will outline changes made in the college structure during the past year. President Thomas H. Richardson will briefly describe the reorganization of the college structure. Kenneth Traynor, SGA president, will describe the planned change from departmental representation to school representation in the SGA legislature.

Dr. Samuel Pratt, resident planner for academic affairs, will give a rundown of the progress being made in each of the new schools: Mr. John Zvosec, master plan architect, will outline the physical development of the college.

Beginning at 1:30 p.m., meetings of the five schools will be held. Students will be excused from classes to attend these meetings. Meeting places of the individual schools will be announced at the morning session.

5 Schools Provide Added Courses, Departments.

By Don Pendley
Editorial Assistant

The most recent developments concerning MSC's changeover from a teacher-preparation/liberal arts college to a multipurpose university status institution will be discussed today. The meetings will be held at 1:30 p.m., the other five for meetings of each of the five schools to be held at 1:30 p.m.

Changes in the MSC structure originally stem from a document released last October by the institutional planning committee and called "The Tentative Statement of Policies and Goals," which categorized each of Montclair State's needs.

These included: "Communication Among Scholars," in developing an institution where people join together in the pursuit of knowledge; "Synthesis of Knowledge," including the reorganization of MSC into several schools; "Recording, Publishing, and Circulating," "Service to Social Institutions" developing programs which would involve MSC with the basic social institutions, presently including Project TRY and Upward Bound; "Comprehensive Personal Growth"; and a "Direct Confrontation of Alternative Ideas" permitting MSC to be constantly reviewing and planning.

New schools, developed in conjunction with the statement are:

- **Applied Arts and Sciences** comprising the departments of social work, home economics, physical education, industrial education and technology, library science and crime professions.
- **Creative Arts** including the departments of speech and theatre, dance, creative writing, music and art.
- **Humanities** in which will be the departments of English, Spanish, French, Italian, Russian, German, Latin, Greek, Swahili and philosophy.
- **Mathematics and Science** including the departments of mathematics, biology, chemistry, and physics-earth science.
- **Social and Behavioral Sciences** composed of the departments of history, anthropology, economics, geography, sociology, psychology and political science.
Traffic Takes a Turn

Life Hall Mall Eliminates Roadway

By Susan Dominski

"We'd like to make this a walking campus," declared Mr. Vincent B. Calabrese, vice-president of business services in reference to the experimental pedestrian mall which is taking shape on the MSC campus.

To create this mall which will consist of the area between Life Hall and the Finley-Mallory complex, the road entering campus from Valley road at the south end of the campus will be blocked off. Through traffic in front of Life, Finley and Mallory halls will also be stopped. All traffic will be rerouted behind Mallory.

Calabrese stated that this plan is an experiment to test the feasibility of a permanently landscaped park area in the heart of the campus.

To enter and leave the parking lot behind Webster Hall it will be necessary to drive through the main parking lot behind the library. This road leading back to Webster Hall will be converted into a two-lane road on which parking will be prohibited.

Calabrese claimed that the idea was formed last June and was studied by students, faculty and administrators over the summer. He added that the majority of the group were enthusiastic about the idea. He called it "an effort to resolve the conflict between the automobile and the human being." He said the number of pedestrians and cars in this area creates a serious safety hazard.

OUT OF SERVICE: This road now leading from the freshman parking lot to the parking areas in front of Partridge Hall will eventually be phased out as new roads will be built as called for in the college's master plan. Future construction calls for a three-story parking garage.

The business director mentioned that one problem which is anticipated will be channeling all traffic entering the campus through the library parking lot. He assured that the snow removal process will be facilitated by this change, but warned that there may be slight parking shortages because the parking lot between the music building and the speech wing will be closed.

Calabrese mentioned that a major parking problem will be eliminated by prohibiting traffic through the mall area. He added; "Now you'll be able to cross the street without looking both ways."

Necessary Repairs Aid Campus Dorms

By Jeanne Schneider

Residence-hall students may find some compensation for the $185 rent increase they are paying this year. Work was done during the summer to make dormitory living more comfortable.

Bathrooms in the north-end of Chapin Hall were renovated. Remodeling of the south end will be completed this fall. Color schemes for showers and walls were chosen by residents last spring. Carpets in the main lounge and television-rooms were cleaned.

Freeman Hall residents have new stoves and ovens in the fifth and seventh floor lounges. Rugs for bathroom shelves will be distributed this week. Installation is expected this semester.

Students returning to Ruus Hall will find that their rooms have been painted the colors they selected last spring. Draperies in that building have been cleaned also. Preliminary work has been done for the renovation of the main lounge. Plans are now in Trenton awaiting approval.

Stone Hall men will also be, living in newly painted rooms this year. Draperies which last year's residents chose are being hung.

Trenton officials approved the installation of "sound barriers" for Webster Hall — rugs, have been placed in the main lounge and hallways to reduce noise. Draperies were replaced where needed. Stairways and kitchen areas were painted. Heating problems in Webster Hall are being investigated for solutions this year.

The campus architects responsible for studying and planning these proposed constructions are Urban-Mahoney and Zvosec, together with Mr. Anton Telesco, a consulting engineer.

BUZZ DAY AT MSC

Col. Edwin E. Aldrin Jr. looks pensive as he enters Life Hall cafeteria with the Mrs. on Sept. 6 — the day MSC and the town joined in welcoming its moonwalking son. During the daylong festivities the astronaut went through numerous speeches, a parade and a dinner at the college. A highlight of the dinner was the college's presentation to Buzz of an honorary doctor of letters degree, the first such degree to be awarded at MSC. Buzz presented the college with a framed picture of himself on the moon's surface inscribed to the faculty and students of Montclair State College.

Club Plans Festive '69-'70

By Mike Andrea
Staff Reporter

The College Life Union Board's social calendar starts off this year with soul singers' Sam and Dave high-lighting the Homecoming weekend Oct. 10-12.

CLUB has again planned numerous concerts, films, lectures and plays. Among the additions this year will be varying Alley Club themes and Late Afternoon Fun Sessions (LAFS).

CLUB's first major event will be a dramatic production by the Negro Ensemble Company on Oct. 7. Following this will be Homecoming, with its float construction and Friday night concert, Saturday's Homecoming parade and game against Central Connecticut; with the Sam and Dave concert concluding this big weekend.

The annual Christmas Ball is set for Dec 18 with a Late Afternoon Fun Session planned on Dec. 19 prior to the Christmas recess.

CLUB's Winter Weekend (Feb. 6-8) will feature winter sports, a current movie and a concert. The performers of the concert have not yet been chosen.

Carnival is planned for May 8 and 9. This year Carnival will run two days instead of the traditional three, probably to aid the massive cleanup which always follows this weekend.

The Spring Weekend (May 15-17) with another popular concert, movie, etc., concludes the CLUB calendar for 1969-70.

Social-Emotional Problems Cause College Drop Outs

By Donald S. Rosser
Special to the Montclarion

Some students leaving this month for college may return sooner than expected. Fifty per cent of all entering freshmen never make it through the four years to graduation.

Because dropouts often pack up and leave without an exit interview, colleges do not know the specific reasons for many departures. However, they can lump most of them into two categories: academic failure and emotional-social troubles.

More students quit college for academic reasons than any other. Attrition is especially high among freshmen, even those who coasted through high school earning top grades.

Social and emotional problems rank a close second as the cause of college quitting. These range from severe mental disorders to such problems as immaturity and non-conformity. In most cases, say the psychologists, the emotional problem does not originate at college. The student brings it to college with him. Often, however, emotional problems intensify when the student is on campus, more or less on his own.

Other reasons students give for quitting college include financial need and marriage — or both.

Dropping out has become such a widespread problem that many colleges are moving to reduce the causes. Most give a week or so of orientation to ease freshmen and transfer students into campus life. Some are expanding their psychological and counseling staffs. Kansas State University has even converted one dormitory into a "halfway house" where emotionally disturbed students get regular psychotherapy as well as bed and board. Other colleges have instituted special academic programs to rehabilitate students with failing grades.

One fear nagging college officials is that the best minds are dropping out — some with complaints about course irrelevance, others just disappearing into the night. Colleges are finally recognizing that they do not fulfill their responsibility to youth by simply dropping them onto the campus to sink or swim.

Reception Set

A reception and tea recognizing students who have qualified for the academic honors list for the spring semester will be held on Oct. 13 from 4 through 5:30 p.m.

Invitations are being mailed to students who have attained an average of 3.5 or better for fulltime work of at least 12 semester hours in the regular undergraduate division. All members of the faculty and the administration are also being invited to attend.

Dr. Samson McDowell, recently appointed acting vice-president for instruction, will be in charge of the event.

QUARTERLY

The Literary Magazine of Montclair State College announces a "Get Acquainted Tea" on Wednesday, Sept. 24, 10-2 p.m. in the Quarterly office, 2nd Floor, Life Hall. QUARTERLY is now accepting submissions year-round.

Prose, Poetry, and Art Work may be submitted to boxes outside Fishbowl, in the Quarterly office, 2nd Floor, Life Hall, and to any Quarterly staff member.
Road Blocking

Probably the most obvious change to the MSC campus this fall is the installation of a road block across the Life Hall-Sprague library area. The new setup prohibits cars to utilize the roads in front of the Life Hall area forcing almost all traffic to wind up behind the library.

The intentions of this traffic reroute are to provide a safer walkway for pedestrians by creating a pedestrian mall. The area will be landscaped and the roadways at this present center of campus activity will eventually be done away with.

Since all traffic coming from or going to the Webster Hall parking lot can’t pass in front of Life Hall, many more drivers will be forced to enterance and exit through the hill leading up from the freshman parking lot. However, the structure of this road does not permit travel flow in both directions due to the curve at the bottom of the hill. This means a traffic delay as cars yield the right of way to each other. And during snow weather, this road is frequently not serviceable at all.

Furthermore, traffic using this road will turn the freshman parking lot into a major thoroughfare for exits and entrances. Although the road block chains off drivers, it also forces the faculty parking lot to provide a safer walkway for pedestrians by creating a pedestrian mall. The area will be landscaped and the roadways at this present center of campus activity will eventually be done away with.

Since all traffic coming from or going to the Webster Hall parking lot can’t pass in front of Life Hall, many more drivers will be forced to enterance and exit through the hill leading up from the freshman parking lot. However, the structure of this road does not permit travel flow in both directions due to the curve at the bottom of the hill. This means a traffic delay as cars yield the right of way to each other. Although the road block chains off drivers, it also forces the faculty parking lot to provide a safer walkway for pedestrians by creating a pedestrian mall. The area will be landscaped and the roadways at this present center of campus activity will eventually be done away with.

Dorm Feed

It’s not easy to justify a $182 rise in dormitory fees, especially to financially overburdened student who bears that the reason for the price rise is that the money will be used for the construction of future dormitories.

Since the increase was initiated by the state, there was nothing that the local administration could do to revoke the fee.

The Great Chain.

Probably the most obvious change to the MSC campus this fall is the installation of a road block across the Life Hall-Sprague library area. The new setup prohibits cars to utilize the roads in front of the Life Hall area forcing almost all traffic to wind up behind the library.

The intentions of this traffic reroute are to provide a safer walkway for pedestrians by creating a pedestrian mall. The area will be landscaped and the roadways at this present center of campus activity will eventually be done away with.

Dorm Feed

However, there was something they could do to make dormitory conditions a little more pleasant – paint the walls, redecorate the lounges and fortunately improvements were made in all five dormitories over the summer.

Hopefully, these improvements will be maintained throughout the year. The $182 fee can’t very well be justified but at least maintainance will make it bearable.

Oddballs Can Be Fun

Nancies are always a fascinating hobby. Years ago I made a list of folks with fascinating monickers that were, to say the least, hilarious. On the list were names like Lothar Vodka, Mac Maltz and Liz Ginn – all nice people that sound like they’re ready to share a drink or two.

The best aid to a collector of monickers is the New York telephone directory. It’s an amazing book with millions of names for the aspiring "monickerologist": (name-collector).

The best source, also, to obtain odd names are journalists. Since most of them have nothing better to do with their time anyway, many columnists keep an eyehole peeled for odd names.

Phil Love, in his "Love on Life" column in The Washington Star, reports that his recent campaign to unearth oddball names has been successful. Some examples: Blunt Carr, Bendula Duty, Gregory Fingers, Fuller Bears, Dianne Bech, Benard Body, Hogan Bogan, Anna Cabbagastek, Dady Cherry, Lt. Col. J. Early Genova, Bill Credit, Harry Cappel, Polly Flask and Marion Dragun.

Edward Sothern Hipp, columnist for the Newark Sunday News, recently returned from a trip to Great Britain. His report:

"Those literal names in Charles Dickens novels were not figments of the writer’s imagination. They abound here.

"You must come to London to find a grocer named Midwinter, another named Spittle and still another, Garland & Co. C. S. Allwork is listed as a "builder, decorator and undertaker," R. J. Honeybun is a barrister and Dr. A. W. Tingle is, appropriately, a dentist."

Advertisement in the Ottawa (Ont.) Citizen: Secretary required for sales office. Peasant telephone manner.

Arguments "Since I took up my new position as a speech-theoretician," said the Valley Road Kid yesterday, "I have been asked if Mars can support life as we know it.

"But," the kid said, "I feel life as we know it is still in doubt here on earth."

Illegal in Argentina!

By Penny Lernoux

Copley News Service

BUENOS AIRES – A rose by any other name may smell as sweet, but in Argentina it could be illegal. The authoritarian military regime is now concerned with nomenclature.

The regime has decreed some odd prohibitions in the past, such as the importation of "innocuous" history books and banning of an established opera because one of the characters is a prostitute.

These measures pale beside a recent decree which establish intricate rules for people’s names. Under the law, your name is illegal if it contains more than words or is foreign sounding.

Spanish Difficulties

Non-Spanish names are acceptable if they can be translated into Spanish or are simple to pronounce. Thus, Brown or Black is acceptable because of easy Spanish translation. But Smith and Jones are not. The Spanish tongue has difficulty pronouncing these names, according to the.
Government by Remote Control

Conservatives come in all shapes and forms, and are far from united. But one basic assumption of conservatism today is that personal freedoms are being eroded away by the “power structure” and the liberals than those in control. But Washington has chosen to suppress many of these powers and has moved in to control most of our lives in areas originally designated to the states or individuals. Big government has been in the past, and is presently, associated with curtailing of personal freedoms — freedoms often called human rights. These freedoms have been eroded away by power-hungry legislators and self-appointed benevolent planners within the power structure.

understand how strong a grip this war has on us, why, at a dinner party: “You can’t have a high powered rifle and my friend’s bow and arrow.” A Chicago policeman: “You either get the root of the problem. All too many people have sat back and analyzed 1968; the unworthiness of Hastings’ book is that he lets the people talk for themselves. A Chicago policeman: “I’m covering the roof with my high powered rifle and my friend’s bow and arrow.” A woman at a dinner party: “You can’t understand how strong a grip this war has on us, you know. Why, Vietnam is like... like a pet charity.” The man in the street who says that he’ll accept “anything to stop these damn riots,” and cast his vote for George Wallace. These are the people who make up America, and these are the people who make up this book.

Max Hastings is young and idealistic. He is very much like the people who make up America, and these are the people who make up this book.

Simon Experience

“Barefoot in the Park” is a comic look at married life, largely based on the experiences of Neil Simon. He expresses the hope that all those who view the play will experience a shock of recognition at the universal events and laugh at ourselves.

Players are already planning for the future. “Marathon ’71” by Parn Weis Auditions will be held Sept. 23, from noon till 3 p.m. and Sept. 24, from 1 to 5 and 7 to 8.

Sologlory

Today’s entertainment has gone from bad to worse...

...the latest of these movies is so awful...

They can’t make a book out of them...

Barefoot in the Park, Players first performance of the 1969-70 season will be presented in Memorial Auditorium this evening, tomorrow and Saturday at 8:30 p.m. Tickets are available at the box office in Life Hall.

Simon’s ‘Barefoot’ bows at MSC

Players, the drama society of MSC, gets off to a racing start tonight with the first performance of “Barefoot in the Park” at 8:30 p.m. in Memorial Auditorium. Written by Neil Simon, whose “Promises, Promises” is presently a Broadway hit, the play concerns the trials and tribulations of a married couple’s first few weeks.

Kathy MacAtee and Greg Dougherty share the leading roles as Mr. and Mrs. Paul Bratter, living out their life in a one-room apartment high atop a six-story building in Manhattan. Tom Lesko plays Vitor Velasco, the “dirty old man” who finally ends up with Corie Bratter’s mother, played by Barbara Shollis. Scott Watson and Frank Stancini wind up the small cast as a telephone repair man and the delivery man, respectively.
