State May Revoke Dorm Rise

Local Autonomy May Give Limited $\$ Power

By Virginia Saunderson
Features Editor

Senate bill 256, a bill granting a degree of local autonomy to the New Jersey state colleges, was passed last May by the state Legislature and will soon reach implementation.

At the present time, provisions for the state colleges are waiting approval by the Council of the State Colleges. These provisions, which will function within the bill, will provide the basic rules of operation for the state colleges.

The council, which is composed of the presidents of New Jersey's six state colleges, will then submit these provisions to Trenton officials for approval.

The bill which finally passed, though altered from the original measure, grants a degree of financial autonomy to the colleges. Included in this autonomy is the decrease in the number of the major accounts, such as salaries and materials and equipment, thus creating more minor accounts. Within these minor accounts, the college has control of purchases up to $2500. Also provided in the bill is greater flexibility in the transfer of funds among these minor accounts.

Until the provisions are put into effect, the colleges are functioning under the traditional system.

CUE Subcommittee Will Recommend Against Fee

JERSEY CITY—Whether to increase dormitory fees for students of Jersey City, Newark, Paterson, and Glassboro state colleges, was postponed by the State Board of Higher Education here last Friday pending a subcommittee report to be made during the first week of October.

Representatives of CUE (Committee on Undergraduate Education) together with several members of the Board of Higher Education have been delegated as a subcommittee to recommend a policy concerning increasing dormitory fees from $818 to $1000 beginning with the spring semester 1970.

Presently, the increase is in effect for only Montclair and Trenton State College as was decided by a Board of Higher Education decision last March. Rent hikes went into effect for TSC and MSC since both schools have dormitories presently under construction.

A spokesman for CUE stated that the student group will favor the elimination of the fee increase. If approved by the rest of the committee, the fees for TSC and MSC will return to $818 beginning second semester. The spokesman went on to say that if the fee is revoked, CUE will ask for all TSC and MSC dormitory residents to receive a credit for the $182 increase they were required to pay for on campus housing this semester.

ACTIVIST'S ACTIVITIES

Civil-rights activist Dick Gregory put in an appearance at MSC last week. "I'm sure glad to be out of jail for a change," was his opening statement. After the laughter died down, he added: "I'm currently being sued by two cops in Chicago because I kicked them and bit them while they were trying to throw me in front of a train." The one-time presidential candidate said that students should get rid of "racist" colleges and labelled the U.S. the most "insane" and "degenerate" nation on earth. "But," he stated, "you (the students) have the power to change it."

NEW SCHOOL ORIENTED

Ken Traynor, SGA president, stressed the role of the student in formation of the new school structure in the collegewide conference held last week. See story on page 2.
Organizational meetings of the five schools presently comprising the 1969-70 university status setup for Montclair State College were held last Thursday to acquaint underclassmen and faculty with the changes taking place as to the division of the departments and school.

Moderators at the settings of the five schools (School of Humanities, School of Creative Arts, School of Applied Arts and Sciences, School of Math and Science and School of Social and Behavioral Sciences) were especially careful to orient new students and faculty to the job that lies ahead for the planning committees and to encourage these people to become involved with their school.

During the all college meeting held during the morning, Dr. Thomas H. Richardson, MSC President, Dr. Samuel Pratt, resident planner, Mr. John Zweizic, master architect and Ken Traynor, SGA president, all stressed the importance of planning from their particular field.

Summaries of each school meeting are listed below:

### Sacher—1 to 1

**Ratio for Senate**

By Celeste Sullivan

The first fall meeting of the School of Creative Arts was actually a review of business which was decided during the spring of 1969. This school is far ahead of the others since much of its structure and governing policies have already been decided.

Dr. Jack Sacher, assistant professor of music, asked for a one-to-one faculty student ratio in order to have effective committee work.

### Rich—Define Humanities

**First**

By Don Pendley

Editorial Assistant

The School of Humanities held its first organizational meeting of the school year and also met in its 28 subcommittees. Mr. Morton D. Rich, assistant professor of English, suggested that the subcommittees first define the term of “humanities” and then begin the work of their individual committees, using the newly-defined term.

The curricula subcommittee consists of 10 areas of the new curriculum including English, journalism, Afro Asian languages, French, Spanish, Italian, Latin, German, Greek and interdisciplinary studies.

Rich stated that currently MSC is an open-door campus and if students need information, they can go to such people as Dr. Samuel Pratt, resident planner, and find the needed information. He stated that students need not restrict themselves to the idea of only five schools (Humanities, Creative Arts, Applied Arts and Sciences, Social and Behavioral Sciences and Mathematics and Science, but to consider dividing or combining schools or to make departmental changes to accomplish the best organizational plans.

### Dorner—Divide School Power To Depts.

By Barbara Bongiovanni

Staff Reporter

The School of Applied Arts and Sciences held its first meeting with Mr. Robert Dorner, assistant professor II of industrial education, speaking to the students and faculty about the goals of the school. He stated that the main goal of the school is to decentralize power into the departments. Through this breakdown, the administrators would be more closely related to the needs of the departments and more easily accessible to the problems of the departments.

### Quintana—Unity To Provide Progress

By Frank Cripps

Staff Reporter

Dr. Bertha Quintana, anthropology professor and member of the school’s Central Planning Committee, opened the meeting by explaining the progress already made in the School of Social and Behavioral Sciences. She concluded her comments with a request for unified effort.

Barbara Fischer class of 1970, and member of the Central Planning Committee, emphasized the fact that the Central Planning Committee would not take on the burden of organizing the school. It would be up to the students and faculty to make the necessary decisions involved.

The group broke up into five smaller groups which encompassed all 27 committees which were mapped out to determine the direction in which the school would develop. These smaller groups broke up after brief meetings, with the intent of meeting again the following week.

The first meeting of the school of Social and Behavioral Sciences completed its intended purpose of beginning the new school with a resolve to accomplish the task of turning paper-work into reality.

### Maletsky—New Math-Science Complex

By Gloria Guida

Staff Reporter

The meeting of the School of Mathematics and Science was held in an effort to lay the groundwork for the organization of the school, and setting up the committees in which organizational work can take place.

Dr. Evan Maletsky, who spoke to the group, stated that it is up to the members of the committees of the school to decide upon the organizational style of the school, and that the school is still committed to its deadline of September 1970 for final establishment of the school.

The organization of the school will be accomplished through committees titled, The Student and His Needs, The Faculty, Curriculum Rationale, Grant and Funding, and External Affairs. Explanation of the five subcommittees was given.

### Space allocation

For the school will be completed in 1972, with the building of a new math-science complex next Mallory Hall.

Interns Initiate Newark Teaching
By Roberta Kuehl
Asst. News Editor

The Teacher Corps Project at Montclair State College is part of a national program designed to strengthen the educational opportunities available to children in areas having concentrations of low-income families and to encourage colleges and universities to broaden their programs of teacher preparation. At present 39 interns, who have completed their junior year, are working in Newark and senior high schools in Newark—Broadway Junior High, West Kinsey Junior High, East Side, South Side, Central, Weequahic, and Barringer high schools. Dr. Thomas Figg, director of secondary education in Newark and coordinator of this project, is a graduate of MSC.

During the summer these interns, 19 of whom are transfer students, participated in pre-service seminars on urban schools, Newark, and human relations. In this two-year program, the interns began working four and a half hours a day as teacher aides under a master teacher, besides joining community activities, attending seminars, educational programs, and taking courses at Montclair State. These courses lead to a bachelor's degree and, possibly, a master's degree.

While gaining experience in teaching, interns earn $75 a week plus $15 per independent. Their commitment to the Teacher Corps continues through next summer in the form of special seminars, regular courses, community activities, or camps. When they return to their college, they assume more control of the classroom and may qualify as provisional teachers.

Dr. Lawrence Kenyon, director of the project at MSC, has pointed out the value of accepting applications from minority groups in the Newark area, since such teachers are greatly needed for the black and Spanish-speaking schools. He also mentioned that, so far as he knew, Montclair State's program is the only one in the region that involves minority groups in the Newark area. Plans for continuing this program next year are already underway. MSC has applied for the next cycle's program, which will start July 1, 1970.
Reduction Decision

New Jersey's state college student committee CUE (Committee on Undergraduate Education) has long since set about on the major task of holding down the dormitory fees at the state colleges.

Although the fees were increased at Trenton and Montclair state colleges last March, the dormitory cost for the remaining four state colleges was held at $318 pending further investigation by the Board of Higher Education.

Now, a half year later, the board has still not taken action on the pending motion. But during last Friday's meeting of the board, held at Jersey City State College, it was decided that a final decision should be handed down in early October.

Here CUE stepped in. With the suggestion of Ralph Dungan, chancellor of higher education, a subcommittee of the board of Higher Education was set up to meet with an equal number of students from the CUE executive board to decide if the $318 rise should become policy for all six state colleges or be revoked for Trenton and Montclair.

As long as the CUE members play an equal and active part on this subcommittee the fee should be revoked.

Through CUE, the subcommittee members of the Board of Higher Education will be made aware of this excessive financial burden that the state college student is forced to pay on the theory that the money is to be used for future dormitory construction. (Since Trenton and Montclair presently have dormitories under construction, their fee was the first to be enacted.)

Nevertheless, if the fee is revoked, Trenton and Montclair students should receive a refund from the state from their fall dormitory expenses. To raise fees without full investigation has turned out to be a worthless experiment based on a justification provided by a state which is not fully supporting its higher education facilities.

Nixon's Commentary

President Richard M. Nixon's statements last week regarding the draft has far-reaching implications.

Basically the President suspended the November and December draft calls — a total of 50,000 men. And the October draft call of 29,000 men would be spread over a period of three months.

The Nixon Administration's decision came as a result of months of high-level deliberation and was timed to dampen any possible antiwar dissent at the beginning of a new college semester.

Nixon's new "get tough" policy with Congress over Selective Service laws is indeed commendable. As far as we understand, the President has the intention of removing the conscription system so that future inductions will be limited to the

The Iron Hand.

COLLEGE ROUNDPUP

CONTEMPORARY PROBLEMS

CARLISLE, Pa. (I.P.) — The Dickinson College faculty has under consideration a five-year plan to provide new major fields of study on contemporary problems.

Associate Dean Merle Allhouse said that the proposed courses would reflect man's changing environment and the social and political problems it has imposed.

The plan would make it possible for students to major in American Studies, Russian and Soviet Studies, South Asian Studies, and International Studies.

BLACK STUDENT AFFAIRS

OXFORD, Ohio (I.P.) — Miami University's Black Student Affairs, to include an educational opportunity program.

Administratively, OBSA will be placed "between the Officers of Student Affairs and Academic Affairs, with the director of the OBSA having responsibility with both offices and responsibility to each in accord with specific policies being implemented at the time," according to Dr. Phillips R. Shriver, Miami president.

ANN ARBOR, Mich. (I.P.) — University of Michigan Regents have authorized a new undergraduate degree in the College of Literature, Science and the Arts. The new degree, Bachelor of General Studies, will give a student broad freedom to plan his own individualized curriculum. The new degree becomes effective immediately for all qualified students now enrolled.

Youth Fare Stays—

But Increase Results

WASHINGTON (CPS)—Airline youth fares will continue, but not at the current half price discount. The Free Man Civil Aeronautics Board (CAB) has set here this month that while the fares, which enable persons 12-22 to fly standby at low cost, are fair they are not discriminatory. As long as the CUE members play an educational opportunity program.

LETTERS TO THE EDITOR

Join the Club

To the Editor:

As the population of Montclair State increases, so does the variety of individual interests. The forming of new organizations relating to these interests, serves to expand the range of knowledge in education. The college is very willing to satisfy this growing need, but only when someone demonstrates their enthusiasm and ambition to undertake the project.

Since I am a freshman, I am expressing my interest in organizing a ski club. The high school I attended had a well organized, active club which originally got me interested in skiing. With the large number of students in Montclair State, I am sure there are more and women whose interest in skiing has been dormant and only needs a spark to get it started.

I hope you can help me accomplish this project. I have acquired a member to be the Life Hall. To assure communications, my box number is 94.

Fran Erfield, '73

Greetings, Frosh!

To the Editor:

Class of 1973 — welcome to Montclair State College. The Student Government Association wishes you the best of luck, and hope that your next four years at Montclair State College will be enjoyable, fulfilling ones, both academically and socially.

Joanne Hodde, secretary, SGA.

To Sex or De-Sex?

The Great Controversy of '69

Birch Society, Liberty Lobby, Christian Crusade, Let Freedom Ring — all admittedly from the extreme political right. They denounced sex education as a "communist conspiracy" to corrupt our youth. School authorities retorted that their concern was to reduce divorce, teen-age pregnancy, AIDS, venereal disease; wipe out persisting sexual myths; and prepare children for contented family life.

Many school officials began receiving middle-of-the-night telephone calls, some insulting, some threatening. Organized audiences shouted down speakers and disrupted meetings.

Printed materials used in states as far off as California appeared in New Jersey. Although they often proved effective in arousing public indignation, the specific allegations they contained did not apply to any New Jersey school.

Since school boards are responsible to the public, some rejected sex-education proposals when irate citizens howled down the idea. Others, however, took the position that the decision should be governed by the will of the majority.

Ken Traynor

With Feet on the Ground

Black versus White

Students are being put on social probation because of evidence found during illegal searches. A new teaching methods and old curricula are being pushed down students' throats. Urban communities in the surrounding area are reaching out for guidance, yet they hear no answer. This can't be Montclair State College.

Montclair State is that little college on the hill. The view is breathtaking. It's so quiet and peaceful. The view from Life Hall is extremely beautiful thanks to the incredible four-story tower the Student Government Association constructed back in 1934.

One would think, with such a clear view, that SGA would see the black student striving for identity and self-determination, or see the infraction of student rights? Many students can feel the pressures of domineering faculty members and complex curricula. Why can't they see them? The students of Montclair State know that the continuing goal of Newark, Jersey City, Bloomfield and Montclair exist. Why can't they hear them?

Ken Traynor

MEETING THE NEEDS

The Action Studies Seminar established by a directive from President Thomas H. Richardson will be our first step. The committee will be composed of members of the Board of Trustees, administrators, faculty members and students. The continuing goal of the college and its curricula and to prepare the university to meet the needs of a technical and complex society.

The S G A must climb down, put its feet on the ground, and take a good look around.
A Positive Direction
Student Aid and Counseling Is the Aim of Former Grad Assistants.

By Faye Witcher
Staff Reporter

Gwendolyn Taylor and James Harris are two hard working administrators serving in the Student Personnel Office. Formerly graduate assistants at MSC during 1965-69, the two young people are now involved in academic counseling and student aid services.

Miss Gwendolyn Taylor was born in Pittsburg, Pa., where she also began her elementary education. After high school, Miss Taylor became interested in psychology and set out to aid urban students in the educational phase of their lives.

In 1964, Miss Taylor entered Morgan State College in Maryland, majoring in urban psychology-social city planning and received her B.S. in 1968. Because her scholastic ability paralleled her interest in this field, she was awarded scholarship to Pittsburgh University. However, Miss Taylor felt that she needed some “on the job training.” Thus, when the director of MSC’s TRY program (a program to provide educational opportunity for potentially promising students) came to Morgan to recruit graduate assistants, Miss Taylor’s advisor prompted her to apply and she was accepted.

When asked what she planned to accomplish this year, Miss Taylor replied, “Realizing that the college is undergoing a total change, I hope to be a part of this in a positive direction so far as helping the faculty, administration, and students accept and utilize their talents for self-improvement. If we all work together and pull everything into the mainstream, the change will come about.”

Mr. James Harris, a native of North Carolina, attended elementary school in that state and then moved to New Jersey where he enrolled in South Side High School, Newark. Here Harris began running track and cross country for which he received the award, “State Championship Track Team Member.”

With little intention of going to college but fortunately some encouragement from his track coach, Jim found a job in the Pocono Mountains paying $200 for the summer. This money and optimism from his parents, enabled Harris to enroll at MSC in 1964.

By graduation in 1966, Harris had won the State Championship in cross-country and had set records which still stand. These accomplishments earned him the “Most Outstanding Athlete” awards from Agora and MSC.

It was during this time that Harris developed an appreciation for the field of education and student problems, and urban programs. He maintained this interest and became one of the primary workers during the institution of the TRY program and was offered a graduate assistantship.

From February-June 1968, he worked in the TRY program while commencing his studies for an M.A. in student personnel services. In the summer of 1969, Harris was offered the position of “Associate Director of Students” with primary responsibilities in counseling and student activities in the Student Personnel Office.

“Through my responsibilities as a liaison between the E.O.S. — TRY and the Student Personnel Office, I hope to promote a greater educational opportunity for all students. I feel that it is time for a relevant institution to change for the students rather than have the students change to fit the mold of the institution. I look forward to working with all the students of MSC and possibly solve many of their problems before they become a crisis.

Students at a college level, without a doubt, should be innovators and in a constant search for a better society where all individuals are respected for what they are.”

‘Alice’s Restaurant’
Is a Marriage
Of Life and Death
Review by Maurice Moran J r. Dramaturg

If you can get anything at all from “Alice’s Restaurant,” a film directed by ‘Bonnie and Clyde’-famed Arthur Penn, it is two hours of frivolity, satire and seriousness.

Based on the bestselling epic monologue by Arlo Guthrie, and starring Arlo Guthrie, it is a fast paced film that is packed with a series-comic view of life in these United States. Picking up soon after Arlo’s 18th birthday and registering for the draft, it follows Arlo’s adventures to a midwest college, where his long hair causes quite a stir. He leaves school rather than face the all-American country man and begins a long trek back to Stockbridge, Mass., where there is a white church owned by Ray and Alice Brock. Remember Alice? She’s the subject of the recording that sold 300,000 copies last year. And from the time Arlo returns, she, and her relationship to her husband, her home and her hippie friends, becomes the focal point of the movie.

A MAJOR FILM
Penn, as he has been known to do in the past, has given the film world a major work on the world of the post mortem hippies. In the sickness of drag addiction, in health of peace and love; for the betterment of Ritchie, Arlo’s best friend or the turn for the worse of Woody Guthrie, the legendary folk singer of the dustbowl era; for the happiness of a second wedding and for the “bitchy” husband who is still a child; and death of a movie critic named Shelley, after rejection by his friends.

It is this death that brings the movie to its first climax. Surrounded by snow, his friends drop flowers on Shelley’s wooden coffin, while a lone folk singer brings Joni Mitchell’s “Songs for Aged Children” to its true meaning.

We have had movies based on plays, based on books, based on short stories and based on other movies. But this film, based on a hit record, takes a place in the movie world as an excellent portrayal of the really beautiful people.
Nine Montclair State College athletes have been selected for inclusion in the 1969 edition of "Outstanding College Athletes of America."

MSC athletes listed are Dan Rodgers of Bayonne, and Jerry Waller of Cliffside Park; Robert Lester of Newark; basketball: Dan Sullivan of Nutley, tennis: Alan Czaya of Harrison; Jim Sullivan of Montclair State; Richard Schwarz of Morris Plains, gymnastics: Jim Grieco of Brick, fencing. These young people carry the mantle of their school, their state and their nation each time they participate in competitive sports.

Outstanding College athletes of America is an annual biographical compilation featuring in sports, campus activities and curriculum. Nominations for this award publication are made by the athletic department of colleges and universities throughout the country. Criteria for selection includes an athlete's sports achievements, leadership ability, athletic recognition and community service.

Luther Bowen and Rick Schwarz have been named co-winners of the men's athletic commission outstanding senior athlete award of Montclair State College. Both are 1969 graduates of MSC.

The MAC Award, presented this year for the 22nd time, is awarded to a graduating senior for outstanding achievement in athletics, leadership and sportsmanship. The award has been presented to co-winners only one other time in the history of the presentations.

Bowen, a business education major from East Orange, was a four-letter winner in basketball. He captained the Indians in his junior and senior years. The former East Orange High School standout finished his MSC career with a total of 1838 points to take second place in all-time scoring. Bowen was a first team selection in the New Jersey State College Conference for three consecutive seasons, as well as a first team pick on the New Jersey All-State team.

Rick Schwarz, a four-letter winner in gymnastics, is a biology major from Morris Plains. He was named most valuable player for three years running in gymnastics.

Schwarz was a winner in three different events in the North Atlantic Gymnastic Meet this past year and placed second in a fourth. He finished in third place in all around competition.

The former Parsippany High School athlete represents Montclair State in the National Collegiate Athletic Association's College Division Gymnastics championships at San Fernando Valley State College in California.

During 1968-69 Schwartz captured 24 events during the dual match season and placed second in 12 events. He also had three third place finishes.

Indians Lose Doubleheader

JAMACIA, NY — Montclair State College dropped both ends of a doubleheader here Sept. 13 losing to St. John’s, 7-1 and 9-0. The doubleheader is the first fall baseball action in MSC history.

St. John’s, playing 34 games this fall, spotted the Indians a run in the second inning of the first game but moved ahead to stay with two tallies in the last of the third.

Coach Jack Kaiser’s team added single runs in the fourth and sixth innings and iced the game with three runs in the fifth. Tom Neal was the winning pitcher for St. John’s while Ken Inglis was charged with the loss.

In the second game, St. John’s got six runs in the first two innings to win going away. Kevin Cooney was charged with the loss for MSC.

The Indians, with only three days of practice, made a total of nine errors in the two games.

Experts say that some of the marks of a good football team are a powerful ground game, timely passing, tough defense and the ability to come back when behind. The Indians of MSC displayed all of these traits Saturday when they dumped a powerful East Stroudsburg State eleven, 21-12 at East Stroudsburg.

For head coach Clary Anderson, the victory was almost routine, since he has never lost an opening game in his 26 year coaching career. For the Montclair State fans, who turned out for the game in large numbers, it was a pleasant change from the previous week’s debuts of MSC’s in the past few years. And most important, for the team itself, it was the satisfaction of beating a team that was a pre-game 35 point favorite.

East Stroudsburg scored first, an early first period 15 yard TD pass from Bill Dukett to half back Augie Grant, capping a 79 yard drive. This, however, was the last moment of glory for the home squad, since the Indians dominated every facet of play for the remainder of the game.

Montclair stormed back following the ensuing kick off, marching 66 yards in seven plays to tie the score on sophomore Glen Morchauser’s 1 yard run with under a minute to go in the first quarter.

The Warriors missed on both PATs giving the Indians a lead they never lost at 7-6.

Touchdowns of one yard each by Morchauser and Bob Lawton followed by Rodgers’ kicks for the points after provided the Indians with a 21-6 bulge until Stroudsburg scored on a 25 yard pass from Dukett to Bill Horvath on the last play of the game. The Warriors missed on both PAT tries.

The strong MSC running backs, led by Morchauser (102 yards in 21 carries), and Tony Valpone (86 yards in 21 tries), piled up a total of 282 yards on the ground and were the key to the victory. Bill Kulikowski and John Gardi, the two Montclair quarterbacks completed 12 of 23 passes between them, all of them coming at key times in the contest.

The defense, especially the defensive secondary, was particularly outstanding in containing Dukett, a Little All-America who passed for 1811 yards last year. Joe Kostekci, Alvin Middleton, and John Brunelli all were spectacular in allowing only 12 completions in 41 attempts. Brunelli grabbed off the only interception of the afternoon, killing a Stroudsburg drive into MSC territory.

So, chapter two in the Clary Anderson coaching story has begun on a high note, the way most of chapter one progressed. Only the future will show how this chapter will end. Possibly the chapter that presented Clary with the game ball for his first college victory will have more victory balls to present before the season is over.

1969 Soccer Season Opens Against East Stroudsburg

A 14 game schedule marking its debut in the Metropolitan Conference has been announced for Montclair State College’s 1969 varsity soccer team.

In addition to the debut in the Metropolitan Soccer Conference, the Indians will appear twice under the lights during the 1969 season. On Oct. 1 Montclair State will meet Jersey City State, a New Jersey State College Conference game, at John F. Kennedy Stadium in Harrison, while on Oct. 14 the Indians will play host to Pennsylvania State, in another NJSCC tilt, at Sprague Field under the lights.

The Indians will meet City College of New York, Pratt Institute, Fairleigh Dickinson University, C. W. Post, Adelphi and Long Island University in Dickinson Metropolitan Conference games. The meetings with Adelphi and Long Island University will be the first for those schools in soccer.

In the New Jersey State College Conference, Montclair State will meet Glassboro State, Jersey City State, Newark State, Paterson State and Trenton State.

Last year the Indians shared the conference crown with Jersey City State.

The 1969 schedule:

- September 27 – East Stroudsburg State (Pa.) (A)
- October 1 – Newark College of Engineering, 4-Glasboum State* (A) 8-Jersey City
- November 1 – 4-Newark College of Engineering, 4-Glasboum State* (A) 8-Jersey City
- November 2 – 4-Glasboum State* (A) 8-Jersey City
- November 3 – 4-Glasboum State* (A) 8-Jersey City
