AID TO HIGHER EDUCATION

Plan 2 New State Colleges

By Richard De Santa
Staff Reporter

In the fall of 1971, two new colleges will begin serving students in New Jersey. They are The State College of North Jersey, a tentative title, and the Richard F. Stockton College. Planning for these colleges began in 1968, when the State's Bond Issue was passed, and the sum of $30 million was allocated for their establishment.

The State College of North Jersey will be located in Bergen County. Although no specific location for the campus has been established, it is almost certain that it will be east of the Paterson-Montclair area. According to George T. Potter, president of North Jersey, the college will open in 1971 with about 800 students, consisting of a freshman class and an equal number of transfer students comprising a junior class. Potter estimates that by 1980, the student body will number about 5000.

The college will offer a liberal arts program, with a general education background being emphasized in the freshman and sophomore years. The upper-level major programs will stress independent study to aid in the early planning and organization of the different departments. In addition to basic lecture procedures, new teaching methods will be explored.

Early steps in the planning of the college include the appointment of an initial planning staff, officers of admission and financial aid, and a librarian. Senior personnel, including a dean and the division chairmen, will be appointed in July and September of 1970. The college will open with a teaching staff of 50.

The Richard F. Stockton College, named after one of New Jersey's signers of the Declaration of Independence, will be located in Galloway Township, which is about 10 miles west of Atlantic City. The campus will be a large one, built on a 1400 acre spread of land. Stockton College's president, Dr. Richard Bjork, has announced that the college will open in 1971 with a student body of about 500, consisting of freshmen and juniors. Bjork feels that the presence of upperclassmen will provide leadership for the freshmen, and that it will attract quality faculty personnel.

The college will be primarily concerned with presenting a liberal arts program, but it will also include professional studies in the fields of hotel, restaurant and resort management. The college is also considering studies in the marine sciences. These degree programs at the college will be strictly on a masters level because of limited resources.

Bjork has appointed his first staff group, consisting of business, academic and campus planning officers, and a librarian.

Bjork feels that the establishment and planning of the college has been made a little easier because of the support and enthusiasm of the people in the South Jersey area who, after eight years of waiting, now have a college in their area.
High Prices Affect Clothing, Book, Car Costs

By Patricia M. Romanchik

Staff Reporter

Rising costs which are terrorizing U. S. dollars in the marketplace, on the job, and in the banks, is also attacking on college campuses all over the country. Inflation has been described by economists as something that is not really understood, but is criticized by most of us and not clearly understood by many of us.

What is inflation? It can be most easily described as a rising of the general level of prices.

For example public transportation, a necessity for most commuters to Montclair State, has risen 7.7% since June 1968, and local bus fares have jumped 8.6%. Auto insurance rates, of interest to the rest of the commuters, have risen a high 8.3%. The prices on men’s world-round suits rose 8.2%; women’s clothing 7.9% and women’s synthetic dresses 9.4%

What does this mean for the student? If you are receiving the same allowance from home as you had last year, or if your job pays the same hourly rate as in 1968, your total check, because of inflation, will not have been spent. Thus, unless you expand your budget this semester to close that inflation gap, you will be going to school by December.

With more and more of your dollars being spent on transportation, clothing, and other items, including books, stationery supplies, and even entertainments, a greater demand of students is finding enough funds to pay the actual tuition. But while the students themselves are hard hit by inflation, their small commitments to educational loans are soon exhausted, and students are turned away.

However, if you are fortunate enough to have received a loan, you will probably profit from the inflation. For example, when you repay a loan in 1973 that was obtained in 1969, the money you repay will probably be worth less than the money you received four years earlier. Thus because of inflation you are loaning your “dear” dollars and repaid with “cheap” dollars.

Nevertheless, inflation does decrease our standard of living by decreasing the purchasing power of the dollar and consumers who are forced to go on government assistance programs have not kept up with recent trends, in that they have not grasping the additional funds needed by the increasing number of students.

Three years ago the tuition at Montclair State College was $150 per year, and room and board costs were $380. In the same year $360 was appropriated for the National Defense Student Loan for MSC. For the 1969-1970 academic year tuition has risen to $350 and living costs are now $1000, yet the government has only allocated $313,000 for student loans.

As a result, students are being driven to take part-time jobs. Pay scales under the Work-Study have been increased from $1.40 to $1.60 per hour. Participants of the Work-Study program can earn from $150 to $2. per hour. However, even this may not be enough.

Most students can earn about $500-$600 during summer vacations. A few years ago this would have taken care of tuition and partial room and board. Large corporations help by donating scholarships, but they design them basically for families of their employees or set up strict requirements for eligibility.

Federal monies are given to each state in proportion to the number of full-time students enrolled in that state. During the 1968-1969 school year 182 federal grants and 854 New Jersey State Scholarships were awarded to MSC students. Yet as the number of needy students increases, available money is still the same every year.

Notice to Commuters

On Fri., Oct. 10, the Freshman parking lot will be closed to accommodate Homecoming float construction. Parking your car will be difficult. It is recommended that you park in the Main Campus lot or walk to classes. Your cooperation is needed to ease the parking situation.
HOMECOMING '69
Pays Tribute to a Decade

Homecoming's "Tribute to a Decade" will include group float construction, a parade through Upper Montclair, the Homecoming football game, a dance and two special concerts this weekend.

This theme was chosen for the '69 Homecoming to commemorate the 1960's which witnessed such a variety of mankind's accomplishments and shortcomings.

Each class, fraternity, sorority and many other organizations will present their "Tribute to a Decade." in the construction of an original float. The first phase of construction will begin on Fri., Oct. 10 at 11 a.m. The second phase will resume after the Classics IV concert on Friday night. Before the parade on Saturday the floats will be completed by workers starting as early as 7 a.m.

Climaxing the float building will be the Homecoming parade through Upper Montclair. Beginning at 2 p.m. it will head south from the campus on Valley road. It will wind its way through Mt. Hebron road, Park street, Wildwood avenue, and then return to MSC.

Organization of the parade was done by John Dreher, Tony Fazio, Ray Mischie, Don Petter, Tom Reaves and Frank Salick.

First, second and third place trophies will be awarded to the most outstanding float created by fraternities and sororities. Another trophy will be presented to the best float in all categories. Carol Force and Toni Zwiebel are in charge of the awards and judges.

After the 6:30 p.m. pre-game show in the freshman parking lot the Montclair State Indians will challenge Central Connecticut State in the Homecoming football game. Considering the big upset of East Stroudsburg on Sept. 21, hopes are high for a Homecoming victory. A dance will be held after the game at 10:30 p.m. in Panzer gym culminating the day's events.

Float clean-up will begin at 8 a.m. on Sunday in the freshman lot and open-house will be held in the women's dormitories beginning at 1:30 p.m.

Two concerts have been organized for Homecoming by Stan Grajewski. The Classics IV will perform on Friday night in Panzer gym, and on Sunday at 3:30 p.m. the Sam and Dave Review will be presented as the conclusion of the weekend. The two general chairman of the '69 Homecoming committee are John Lamanna and Sue Villette. Of the forthcoming week's John said, "Although Homecoming is rather early and the work by the fraternities, sororities and organizations has been somewhat rushed, I'm positive that a fine job will be done on the floats."

Schoenbrun Speaks
Of America—Oct. 13

By Arlene Petty
Staff Reporter

Council for National and International Affairs will present a lecture by news commentator David Schoenbrun, who has received major awards in every medium of communication.

His career includes work in radio, television, newspapers, magazines, books, lectures and classrooms. He has covered most major events of recent history, such as the civil rights movement and the college disorders in the U.S.A. The lecture will be held on Mon., Oct. 13, at 8 p.m. in the Music building auditorium, room 15.

The subject of his lecture will be "Crossroads America." Schoenbrun will talk about the U.S. government and the challenge it is facing from young people, black Americans, frustrated farmers, and frightened city dwellers. Also discussed will be the threats on the American public, such as rising taxes, bombs, pollution, internal divisions and external enemies.

Schoenbrun will report the facts, analyze the problems and point out new directions to take America out of the present crisis.

Schoenbrun began his career as a teacher of Spanish and French. After attaining several honors with the army, he became Paris bureau chief for Columbia Broadcasting System. In 1967 he was appointed chief correspondent and bureau chief in Washington, D.C.

He had a daily program "David Schoenbrun Reporting," a highly-rated radio program. He broadcasts television's "Washington Report" weekly. He is also a contributor to The New York Times, Esquire, Saturday Review, Paris-Match, as well as to National Educational Television and the American Broadcasting Company.

In 1967, Schoenbrun visited Hanoi, and his Vietnam reports appeared in 150 newspapers around the world. Later that year, he was appointed to the Faculty of the International Affairs at the Graduate School of Columbia University to teach a course in the history of Vietnam. His latest is "Vietnam: How we got in. How we can get out."

Bonnie Miller, chairman of CINA and Terry Bazylewicz, program chairman, arranged for the lecture. There will be no admission charge.
You Can

Bet On It

Among the questions on the Nov. 4 ballot is an authorization for a New Jersey state lottery. And according to State Sen. William V. Musto, the revenue that will come from the lottery's profits would go to education and construction of facilities for state institutions.

Musto, who has been supporting the lottery plan for quite some time, recently pointed out that people will gamble, legally or otherwise. The lottery, he says, would provide "a service which they (the people) want and which they can now get only at the price of participating in illegal activities."

We concur with Musto's thoughts. Currently the Hughes administration is in the early stages of a major reorganization involving an emotional and moral issue.

A Logical Approach

Dr. Thomas H. Richardson's statement last week regarding the nationwide student moratorium is indeed a respectable and correct approach. The Montclair State President stated that the official college policy will be "the Princeton plan," which is aimed at taking all viewpoints into consideration.

The President said that students who want to go to class may do so and faculty members will be free to hold classes or not. Richardson indicated that there will be "no prosecution" in either direction.

It is my personal opinion that our college, if actually a true bastion of all academic viewpoints, will maintain its dignity by adhering to the Princeton approach. "This is a moral issue and the individual must set a course of participation," Richardson stated last week. Consequently, it should be up to the conscience of the individual student to participate in the moratorium activities or in the usual daily educational experience.

No individual in any position of authority should dictate standards on such an emotional and moral issue.

— David M. Levine, Managing Editor.

Moratorium Support

When a national emergency arises, the full support of the inhabitants of a nation may help to pull that nation through its crisis. However, when a government decides upon a course of action which is not met with favor by its constituents, that government must recognize that those not in agreement with national policy will do all they can to change that policy.

And after watching our brothers die for a cause that our government has deemed their lives expendable, we must recognize that we have a job before us if we are against this senseless slaughter. At this time of national crisis if we are ever to hope for peace we must show that a minority has turned into a majority.

Those who oppose the war have chosen to participate in the nationwide moratorium on October 15. It is fitting that this day be termed a day of communication to express objection to the Vietnam war.

How to express yourself on that day is an individual decision that has been left up to each of us. For those who wish to express objection to the war, it is urged that you support the October 15 program sponsored by the Student Peace Union. This is a day of dialogue for those of us who oppose the war; we must support it.

— Miriam Taub, Editor-in-Chief.
Massive numbers of customs inspectors—the exact number is a government secret—are posted at 27 U.S. airports in the southwest authorized to receive international flights, and at 31 places along the 2,500-mile Mexican border, where all motor vehicles and pedestrians are now stopped around the clock to undergo two-3-minute searches for contraband.

**Turning On** in Viet

Operation Intercept parallels a similar attack on marijuana being waged in Vietnam, where tens of thousands of U.S. servicemen are understood to have “turned on.” The U.S. Army has been fighting a war of suppression involving federal agents, police dogs, helicopters and television announcers.

Military spokesmen say many soldiers who turned on in Vietnam have been discharged in connection with the use or sale of pot. Over three tons of grass have been confiscated and destroyed already.

The antidrug drives appear to represent but another manifestation of the hard line Nixon has taken, so what he refers to as the “drug abuse problem.”

The administration’s drug bill, proposed by the late Senator Dirksen and currently before the Senate Subcommittee to Investigate Juvenile Delinquency, lumps marijuana, heroin and LSD together, keeping the same penalty structure for a first offense of possessing any of the substances to the maximum of 10 years in prison.

Anyone convicted of a first offense in selling the drugs will face 5-20 years in prison and a $25,000 fine under Nixon’s bill. Anyone convicted of a second selling offense after face 10-40 years incarceration and a $50,000 fine. There would be no opportunity for probation or suspension of the sentences.

In addition, the bill contains a “Kocknek” provision whereby police may enter a home without identifying themselves.

Other difficulties before Congress concern more educational and rehabilitative approaches. Sen. Thomas Dodd (D-Conn.) has proposed legislation that would do away with minimum penalties, leaving them up to judicial discretion, and that broadens the eligibility requirement for treatment under the 1966 Narcotic Addict Rehabilitation Act.

Bills sponsored by Rep. Edward Kied (D-N.Y.), Rep. Lloyd Moss (D-Utah) and Sen. Frank Moss (D-Utah) would create commissions of one sort or another to study drugs more thoroughly before additional laws are enacted. Rep. Claude Pepper (D-Fla.), chairman of the House Select Committee on Crime, has requested the U.S. Surgeon General to prepare and issue a report on the use and effects of marijuana.
Classical and Contemporary At State Symphony Concert

Connections between the classical and contemporary traditions in music will be the focus of the State Symphony Orchestra in its debut in Memorial Auditorium Oct. 9, at 8:30 p.m. Dr. Ward Moore, chairman of the music department and conductor of the group, is planning the program to emphasize the historical links between the two periods.

The orchestra's personnel numbers 42 musicians and is drawn from the artist faculty of the music department and musicians in the area from Local 16 of the American Federation of Musicians. Benjamin Wilkes, a tenor and member of the MSC faculty, and Edwin Black, a French horn player and graduate of MSC, will be soloists in the Oct. 9 performance in Benjamin Britten's Serenade, Opus 31.

The program will also include Symphony No. 94 by Joseph Haydn, Rumanian Folk Dances by Bela Bartok and Chettemham Concerto by George Rochberg. The concert will be the first of four free concerts scheduled by the little symphony for its premiere season. The succeeding dates for the balance of the 1969-70 season are: Nov. 20, Feb. 12 and Mar. 12.

Financed in part by state funds and through the financial resources of the MSC Music Organizations Commission, the orchestra also receives a matching grant from the Musicians Professional Funds of the Recording Industries.

Is Vista for You?

"We're not interested in people who just want to do something nice," states Ray Ormsby, recruiter for the Volunteers in Service to America (VISTA). "VISTA wants volunteers who know the problems of the nation."

VISTA will hold registration for interested students and will distribute free information in the Memorial auditorium lobby this Friday. VISTA volunteers work within the United States, combating such problems as poverty on Indian reservations, unemployment, mental health and aiding the migrant farmer.

Sponsored by the Office for Economic Opportunity, VISTA will distribute materials to all interested students, and will register anyone wishing to volunteer, providing the student is at least 18 years old.

Seniors Manage Life Hall

Students Work As Night Managers

By Arlene Petty

Ed Berk and Rich Orloff are two Montclair State seniors working as night managers of Life Hall. This position is designed to keep Life Hall open and accessible to all MSC students. The idea of night managers began last January, and was carried through to this semester. Berk and Orloff started their new jobs on Sept. 12, 1969.

Their responsibilities consist of answering incoming phone calls, selling tickets of upcoming concerts and touring the building. Problems which may arise with movies being shown in Memorial Auditorium, or meetings scheduled in Life Hall are all involved with the managers' job. They each work three days a week (Life Hall is open Monday-Saturday), from 4:30 p.m. to closing. Anyone needing help from the managers can call 746-9500, extension 312.

Both Berk and Orloff applied last semester and were recommended by the previous managers. Berk is a social science major from Bloomfield. His extra curricular activities include his fraternity, Psi Chi, the position of CLUB treasurer for two years and Carnival. Jackson is the home of Orloff, an English major. He belongs to Gamma Delta Chi, and has also worked as Carnival publicity co-chairman, as well as being a former MONTCLARION reporter.

When asked about his biggest problem on the job so far, Berk's answer was interrupted by a student requesting keys to unlock an office for a meeting. On returning, his reply was that he had assisted many graduate students who needed help finding classrooms in the beginning of the semester.

The job seems to be full of unusual experiences. Orloff reports his most unusual experience was when "I found a girl sleeping on the floor in the lobby one night. She apparently had dozed off and not realized where she was."

Residents Lose Parking Lot

Due to the lack of parking space, male resident hall students will be unable to use the parking lot behind Webster Hall. Primary circumstances leading to the decision according to Mr. Richard Taubald, assistant director of students (men's housing), include the increased number of freshman commuters.

Another consideration was on-campus construction of Partridge Hall and a new dormitory in the vicinity of Webster Hall. However, Taubald stressed that the new regulation can be reversed as soon as conditions are conducive to the use of cars by senior male residents.

Students were officially notified as to the change in policy during meetings at the men's residence halls.

Foreign Languages Split
5 Depts. Now in Operation
By Barbara Jean Minor
Staff Reporter

One of the recent changes at Montclair State College is the division of the foreign language department into five separate departments. The proposal of such a split had been considered by the departments in order to meet the requirements of the increasing number of foreign language students. Immediate action on this proposal was hastened by the lack of a department chairman for the foreign language department as the fall semester was about to begin.

Previously, all of the foreign language courses were grouped in one category, with only one department chairman to administer to the needs and problems of the hundreds of college students enrolled in these courses.

The foreign language department is the largest in the college, with about 750 language majors. In addition, it serves students who are not language majors, but who are enrolled in a language course because it is required of every liberal arts student for graduation. This size factor had for some time, caused the foreign language department to consider a division into several smaller departments, to aid administrative purposes.

Recently, that action was taken on this matter, following the resignation of the former department chairman, Dr. Paul Gareg. The emergency of being without a permanent chairman, with the opening week of school close at hand, promoted immediate action. A committee of the foreign language department voted to decentralize the department, thus forming five departments, with an acting chairman for each.

The French department, whose chairman is Prof. Louise Roederer, and the Spanish-Italian department, headed by Dr. Elsaa Rivera-Rivera, are the largest of the five new foreign language departments.

Serving as acting chairman of the German-Slavic department is Dr. Edith Lenot, while the linguistics department is headed by Prof. Mathilda Knecht.

Dr. Carolyn Bock is acting chairman of the classics department.

Dr. Bock stated that the division seemed to be a feasible step at the time. She added that while they have a common base, mutual interests and mutual problems, the languages represent different areas, and through the creation of smaller departments, there can be closer contact with students, and a unity of purpose among the staff and students.

Commenting about the separation of the departments, Dr. Bock said that they will be "unity in our diversity."

Students enrolled in these courses will receive memorandums pertaining to the decentralization of the foreign language department.

Men's Dorms Begin Open Visitations
By Louise Palmer
Staff Reporter

Women's visitation in the men's dormitories will take effect this weekend in both Stone and Webster halls. Successful during its four week trial period last spring, the initiation of the policy for the 1969-70 year was delayed two weeks to receive feedback on the policy from the men residents, especially the freshmen.

Considering students, personal, practical and financial aspects of the policy, Mr. Richard Taubald, director of men's housing, was found to be in favor of the closed door visitation policy.

"We have men living on this campus, not boys, and they should be treated as men," Taubald remarked. "Forbidding men to close their doors while entertaining female guests shows a lack of trust. We want the residence halls to be not only a place to sleep, but also a place to live, where men learn mutual respect for each other."

Before the four week trial period went into effect last year, Taubald consulted a lawyer, as to the legal implications that could possibly arise from such a situation. However, the state does support the college's stand on the closed door policy.

Tentative hours for closed door visitation are: Friday, 4:30 p.m. to midnight; Saturday, 11 a.m. to midnight; Sunday, 1 to 7 p.m.

NiXX SGA Attendance Proposal
By William C. Flipp
Staff Reporter

A bill calling for a second attendance to be taken at the end of each SGA meeting was rejected by the Legislature last Tuesday. The bill, authored by music dept. representative Jordan Denner stated that members who fail to be present "at this call... will (receive) an unexcused absence."

Three unexcused absences usually result in the dismissal of an SGA representative. One legislator.

The bill was designed to make legislators "more aware of the vital role" members play. One legislator dismissed the bill as "ridiculous and absurd."

STICKEL ELECTED PRESIDENT PRO-TEM
Robert Stickel, a 25-year-old senior English major, was unanimously elected president pro-tem of the SGA Legislature. Stickel, who began his third term as SGA English dept. representative this year, said his new duties would basically be as acting speaker of the house.

**Soccer Sports 3-0 Record**

With Wins Over NCE, GSC

By Paul Kowalczyk

The Montclair State College soccer team, the top team in New Jersey, Delaware, and Pennsylvania, has extended this season’s winning streak to three games by defeating Newark College of Engineering and Glassboro State College last week.

Montclair, whose record is now 3-0, had little trouble with either team.

The standout for the MSC team was sophomore Bill Kazdoba. Kazdoba, who has been referred to as “one of the nation’s top collegiate booters,” scored two of MSC’s goals in their 4-0 win over NCE and he scored four of seven Montana goals in a 7-1 win.

The first period was scoreless, as was the second, but as the half came to an end, there was little doubt that Montclair would dominate the remainder of the game. MSC outshot the visitors 15 to two in the first 44 minutes of the contest.

MSC’s scoring punch didn’t begin until midway into the third period when, at 12:30, Kazdoba put his first goal of the game past the NCE goalie. The shot came in close, after John Smith had taken the initial shot.

At 20:03 of the second period, Bill Kazdoba scored on a well-executed one-on-one situation. The blast by Kazdoba upset the GSC goalie, 50 seconds later Jean Charles took a pass from Kazdoba and put a 6-yard shot into the net.

The second period was once again totally dominated by the MSC team. Tony DeFilippis took a pass from John Smith at 4:30 of the second period and put Montclair ahead three to one. Forty seconds later Kazdoba put in a John Smith pass for his second goal of the game. Kazdoba put two more in the third period, including a goal from an assist by Andre Charles. The drive was middle. Chomko himself nailed the quarterback a half a dozen times which accounted for substantial losses. Deep backs Joe Kostecki and Al Middleton took away any threat of a long pass as they put a blanket over Curry’s wide receivers. Curry was held to just four first downs, two of which came on penalties. The defense also accounted for two points in the third quarter as a strong punt rush forced a safety.

Despite the joy of victory the squad was dealt a sharp blow when kicking specialist Dan Rodgers pulled a thigh muscle on a fourth quarter kickoff. He was replaced by sophomore Bob Brewster who came off the bench to kick two extra points.

**Kuli Passes 3 TDs**

By Bill Ward

Staff Reporter

On a cold autumn night on Sprague field Montclair’s Indians destroyed Curry College by scoring a point for every man on the opposing squad. The final score was Montclair 29 and Curry 6.

Led by a tenacious defense, the running of Tony Valpone, and the passing of Bill Kulikowski, the Indians bowled over Curry. Kulikowski was the workhorse of the backfield as he gained 101 yards in 17 carries and scored one TD. Kulikowski passed for three TDs, including a 1-yard pass to MS’er Bill Kazdoba.

Defensive, however, is Montclair’s game. Going with a 5-1-5 of the way the “Renegades” held Curry to a minus 17 total offense. Tony Testa’s squad had numerous individual stars including the entire left side of the line. Tackle Tom O’Connor and end Fred Chomko took away any outside threat Curry might have had, while guards Charlie Plochock and Jules Giffin clogged up the middle. Chomko himself nailed the quarterback a half a dozen times which accounted for substantial losses. Deep backs Joe Kostecki and Al Middleton took away any threat of a long pass as they put a blanket over Curry’s wide receivers. Curry was held to just four first downs, two of which came on penalties. The defense also accounted for two points in the third quarter as a strong punt rush forced a safety.

Despite the joy of victory the squad was dealt a sharp blow when kicking specialist Dan Rodgers pulled a thigh muscle on a fourth quarter kickoff. He was replaced by sophomore Bob Brewster who came off the bench to kick two extra points.

**Fencers Ready for Season**

JEAN CHARLES (number 1) receives congratulations from his soccer teammates after scoring the third goal in the 4-0 win over NCE last week.

**But Depth Needed Badly**

Behind the likes of Dale Rodgers and Dave Bryan, the fencing team could prove to be one of the big fencing powers in the East.

The starting positions are filled but the team lacks depth. Coach Allan Mack has expressed his need for freshmen with “a desire to put in hard work to learn the art of fencing.”

Mack continued: “With five seniors putting in their last year, there will be openings in the starting lineup for next year.”

The team has been practicing since the beginning of school and it looks like at least three of the positions will be taken by either sophomores or freshmen.

**The Day Panzer Gym Went to the Bunnies**

_Eyes Pop as Score Multiplies_

By Roger Niemeyer  
Staff Reporter

In the past the Panzer gym has doubtlessly been the site of many exciting basketball games. But the one which took place there last Thursday night will long be remembered.

It was the one the Panzer bunny reached high as a challenging faculty member watches hopefully — but the team lost to the vivacious rabbits.

**Our Crown Bid Nears as Indians Trip Glassboro**

By Mike Galos  
Staff Reporter

Sparked by the hot shooting of Bob Bachman and Harry James, Montclair State College wrapped up a share of its third straight State College Conference crown Saturday night. Exploding for 48 second-half points, the Indians clinched visiting Glassboro State, 76-60.

The victory upped MSC's conference record to 7-1, while its eight-point scoring enabled the Redmen to build up an overwhelming 15 point lead which the Barons could not erase.

---

**WRA Drops to Monmouth, 37-33**

WEST LONG BRANCH — Montclair State College's WRA basketball team dropped its first game of the season to Monmouth College here. Last Thursday the Hawks beat the Indians 37-33 by pulling ahead in the last three minutes of the game.

High scorer Karen Bisho, along with Belinda Venancio, led MSC's strong offense. Denise Wood, Gina Hoffman, Ellen Johns and Debbie Schoen also contributed to MSC's attack.

Defensively, Monmouth did a remarkable job fighting the taller Monmouth team. Captain Joan Fisk and Bonnie Ashley held Monmouth's leading scorer, Dottie McCrea, to her lowest score of the season.

MSC's basketball team is now 4-1, beating Queens College, Douglass, St. Peter's and Hunter College earlier this season.

**Valentines Day — A Massacre for Barons**

NEW YORK — A Valentines day crowd appeared at St. John's University last Saturday to see St. John's Redmen defeat Montclair State College's Black Barons, 87-70 in the semifinals of the F. & M. Schaefer Brewing Co. intramural tournament.

It was the first defeat for the Barons since the team was formed in 1969.

Dick Sommers, who scored 19 points, carried the Redmen to victory. Jim Cortese was also instrumental in the victory, scoring 18 points.

The first half of the game both teams played a strong man-to-man defense. In the early minutes of the game both the Barons and the Redmen were off their game, but once again the faculty didn't seem too concerned about scoring points.

The game began to look more like a football game, as the Barons tackled their opponents, ran with the basketball, and did anything else they could in order to score. The faculty managed to add six points to their total in the third quarter, but the final period proved to be quite a bust as they failed to score.
