Plan 2 New State Colleges

By Richard De Santa
Staff Reporter

In the fall of 1971, two new colleges will begin serving students in New Jersey. They are The State College of North Jersey, a tentative title, and the Richard F. Stockton College. Planning for these colleges began in 1968, when the State’s Bond Issue was passed, and the sum of $30 million was allocated for their establishment.

The State College of North Jersey will be located in Bergen County. Although no specific location for the campus has been established, it is almost certain that it will be east of the Paterson-Montclair area.

According to George T. Potter, president of North Jersey, the college will open in 1971 with about 800 students, consisting of a freshman class and an equal number of transfer students comprising a junior class. Potter estimates that by 1980, the student body will number about 5800.

The college will offer a liberal arts program, with a general education background being emphasized in the freshman and sophomore years. The upper-level major programs will stress independent study to aid in the early planning and organization of the different departments. In addition to basic lecture procedures, new teaching methods will be explored.

Early steps in the planning of the college include the appointment of an initial planning staff, officers of admission and financial aid and a librarian. Senior personnel, including a dean and the division chairmen, will be appointed in July and September of 1970. The college will open with a teaching staff of 50.

The Richard F. Stockton College, named after one of New Jersey's signers of the Declaration of Independence, will be located in Galloway Township, which is about 10 miles west of Atlantic City. The campus will be a large one, built on a 1400 acre spread of land.

Bjork, has announced that the college will open in 1971 with a student body of about 500, consisting of freshmen and juniors. Bjork feels that the presence of upperclassmen will provide leadership for the freshmen, and that it will attract quality faculty personnel.

The college will be primarily concerned with presenting a liberal arts program, but it will also include professional studies in the fields of hotel, restaurant and resort management. The college is also considering studies in the marine sciences. These degree programs at the college will be strictly on a masters level because of limited resources.

Bjork has appointed his first staff group, consisting of business, academic and campus planning officers, and a librarian.

Bjork feels that the establishment and planning of the college has been made a little easier because of the support and enthusiasm of the people in the South Jersey area who, after eight years of waiting, now have a college in their area.
INFLATION 

High Prices Affect Clothing, Book, Car Costs 

By Patricia M. Romanish Staff Reporter 

Inflation, the process that is terrorizing U.S. dollars in the marketplace, on the job, and in the banks, is also attacking on college campuses all over the country. Inflation has been described by economists as something that has affected most of us, criticized by most of us and not clearly understood by many of us. 

What is inflation? It can be most easily described as a rising of the general level of prices. 

For example, public transportation, a necessity for most commuters to Montclair State, has risen 7.7% since June 1968, and local transit fares have jumped 8.6%. Auto insurance rates, of interest to the rest of the commuters, have risen a high 8.3%. The prices on men's year-round suits rose 8.2%; women's suits rose 10.7%; and women's synthetic dresses 9.4%. 

What does this mean for the student? If you are receiving the same allowance from home as you did last year, or if your job still pays the same hourly rate as in 1968, your total check, because of inflation, will be worth less than it was then. Unless you expand your budget this semester to close that inflation gap, you will probably be forced to walk to school by December! 

With more and more of your dollars being spent on transportation, clothing, and other items, including books, stationery supplies, and entertainment, a growing number of students is finding enough funds to pay the actual tuition. But the basic cost of tuition must be met by the consumer, who in this case, is the dormitory student. 

Mr. Vincent Calabrese, vice president for business and finance, has said that "the purpose of the price increase is to place dorms on a self-sustaining basis and to advertise the bond issue." The rise is merely a step in enabling the college to depend upon its own funds. 

The rise in dormitory costs at Trenton and Montclair state colleges, from $888 to $1000, per year was enacted last spring. The remaining state colleges were not affected since they have no immediate plans for new dormitory construction. As more students are accepted into the schools and the price will also rise, it follows the economic law of supply and demand. 

Boarding rent is the only item currently affected by the new hike in price. However, in time the dorm will require more food, which can later cause the food bill to rise. More maintenance employees will be needed and their guaranteed wage increase over the years can also affect future dorm prices. 

Dorm fees for the school year of 1969 are considered only a temporary increase and are expected to rise as full scale construction gets under way. 

Tuition Up $200 

By Chris Lohlein 

Staff Reporter 

Rising educational costs of approximately 16% over the past year have made it more difficult for the average student to attend college. Spurring labor costs and a high standard of living have caused a tuition rise proportionate to middle-income class levels. 

The federal government has already established numerous programs to supplement monetary resources. However, the National Defense Student Loan, Work-Study, Work-Scholarship and state scholarship programs are not keeping up with these trends, in that they have not granted the additional funds needed by the increasing number of students. 

Three years ago the tuition at Montclair State College was $150 per year, and room and board cost $360 and $363, respectively. That year $150 was appropriated for the National Defense Student Loan for MSC. For the 1969-1970 academic year, tuition has risen to $350 and living costs are now $1,000, yet the government has only allocated $333,000 for student loans. 

As a result, students are being driven to take summer classes or part-time jobs. Pay scales under the Work-Scholarship have been increased from $4.10 to $4.60 per hour. Participants in the Work-Study program can earn as much as $5.00 per hour. However, even this may not be enough. 

Most students can earn about $1500-$2000 during summer vacations. A few years ago this would have taken care of tuition and partial room and board. Large corporations help by donating scholarships, but they design them basically for families of their employees or set up strict requirements for eligibility. 

Federal monies are given to each state in proportion to the number of full-time students enrolled in that state. During the 1968-1969 school year 182 federal grants and 854 New Jersey State Scholarships were awarded to MSC students. Yet as the number of needy students increases, available money is still the same every year. 

NOTICE TO COMMUTERS 

On Fri., Oct. 10, the freshmen parking lot will be closed to accommodate Homecoming float construction. Parking your car will be difficult. It is requested that you take the bus or walk to classes. Your cooperation is needed to ease the parking situation.
**HOMECOMING '69**

**Pays Tribute to a Decade**

Homecoming's "Tribute to a Decade" will include group float construction, a parade through Upper Montclair, the Homecoming football game, a dance and two special concerts this weekend.

This theme was chosen for the '69 Homecoming to commemorate the 1960's which witnessed such a variety of mankind's accomplishments and shortcomings.

Each class, fraternity, sorority and many other organizations will present their "Tribute to a Decade" in the construction of an original float. The first phase of construction will begin on Fri., Oct. 10 at 11 a.m. The second phase will resume after the Classics IV concert on Friday night. Before the parade on Saturday the floats will be completed by workers starting as early as 7 a.m.

Climaxing the float building will be the Homecoming parade through Upper Montclair. Beginning at 2 p.m. it will head south from the campus on Valley road. It will wind its way through Mt. Hebron road, Park street, Wildwood avenue, and then return to MSC.

Organization of the parade was done by John Dreher, Tony Fazio, Ray Mischke, Don Peter, Tom Reaves and Frank Salick.

First, second and third place trophies will be awarded to the most outstanding float created by fraternities and sororities. Another trophy will be presented to the best float in all categories. Carol Force and Toni Zweibel are in charge of the awards and judges.

After the 6:30 p.m. pre-game show in the freshman parking lot the Montclair State Indians will challenge Central Connecticut State in the Homecoming football game. Considering the big upset of East Stroudsburg on Sept. 21 hopes are high for a Homecoming victory. A dance will be held after the game at 10:30 p.m. in Panzer gym culminating the day's events.

Float clean-up will begin at 8 p.m. on Sunday in the freshman lot and open-house will be held in the women's dormitories beginning at 1:30 p.m.

**Schoenbrun Speaks Of America—Oct. 13**

By Arlene Petty Staff Reporter

Council for National and International Affairs will present a lecture by news commentator David Schoenbrun, who has received major awards in every medium of communication.

His career includes work in radio, television, newspapers, magazines, books, lectures and classrooms. He has covered most major events of recent history, such as the civil rights movement and the college disorders in the U.S.A. The lecture will be held on Mon., Oct. 13, at 8 p.m. in the Music building auditorium, room 15.

The subject of his lecture will be "Crossroads America." Schoenbrun will talk about the U.S. government and the challenge it is facing from young people, black Americans, frustrated farmers, and frightened city dwellers. Also discussed will be the threats on the American public, such as rising taxes, bombs, pollution, internal divisions and external enemies.

Schoenbrun will report the facts, analyze the problems and point out new directions to take America out of the present crisis.

Schoenbrun began his career as a teacher of Spanish and French. After attaining several honors with the army, he became Paris bureau chief for Columbia Broadcasting System. In 1961 he was appointed chief correspondent and bureau chief in Washington, D.C.

He had a daily program "David Schoenbrun Reporting," a highly-rated radio program. He broadcasts television's "Washington Report" weekly. He is also a contributor to The New York Times, Esquire, Saturday Review, Paris-Match, as well as to National Educational Television and the American Broadcasting Company.

In 1967, Schoenbrun visited Hanoi, and his Vietnam reports appeared in 150 newspapers around the world. Later that year, he was appointed to the Faculty of the International Affairs at the Graduate School of Columbia University to teach a course in the history of Vietnam. His latest is "Vietnam: How we got in. How we can get out."

Bonnie Miller, chairman of CINA and Terry Bazylice, program chairman, arranged for the lecture. There will be no admission charge.

You Can Bet On It

Among the questions on the Nov. 4 ballot is an authorization for a New Jersey state lottery. And according to State Sen. William V. Musto, the revenue that will come from the lottery’s profits would go to education and construction of facilities for state institutions.

Musto, who has been supporting the lottery plan for quite some time, recently pointed out that people will gamble, legally or otherwise. The lottery, he says, would provide "a service which they (the people) want and which they can now get only at the price of participating in illegal activities."

We concur with Musto’s thoughts. Currently the Hughes administration is

A Logical Approach

Dr. Thomas H. Richardson’s statement last week regarding the nationwide student moratorium is indeed a respectable and correct approach. The Montclair State President stated that the official college policy will be “the Princeton plan,” which is aimed at taking all viewpoints into consideration.

The President said that students who want to go to class may do so and faculty members will be free to hold classes or not. Richardson indicated that there will be “no prosecution” in either direction.

It is my personal opinion that our college, if actually a true bastion of all academic viewpoints, will maintain its dignity by adhering to the Princeton approach. “This is a moral issue and the individual must set a course of conscience of the individual student to participate in the moratorium activities or in the usual daily educational experience.

No individual in any position of authority should dictate standards on such an emotional and moral issue.

Moratorium Support

When a national emergency arises, the full support of the inhabitants of a nation may help to pull that nation through its crisis. However, when a government decides upon a course of action which is not met with favor by its constituents, that government must recognize that those not in agreement with national policy will do all they can to change that policy.

And after watching our brothers die for a cause that our government has deemed their lives expendable, we must recognize that we have a job before us if we are against this senseless slaughter. At this time of national crisis if we are ever to hope for peace we must show that a minority has turned into a majority.

Those who oppose the war have chosen to participate in the nationwide moratorium on October 15. It is fitting that this day be termed a day of communication to express objection to the Vietnam violence.

How to express yourself on that day is an individual decision that has been left up to each of us. For those who wish to express objection to the war, it is urged that you support the October 15 program sponsored by the Student Peace Union. This is a day of dialog for those of us who oppose the war; we must support it.

— David M. Levine, Managing Editor.

Nelson Begins Petition

By Alan D’Augustine

Mixed feelings among students concerning the recently-established pedestrian mall have resulted in a petition which is being circulated throughout the campus expressing opposition to the mall.

The petition states that those who signed the petition are opposed to the closed roads in front of Life Hall and that these roads should be reopened.

Yard Nelson, senior chemistry major, is the originator of the petition. Nelson asks to have the “roads opened at all times.” In the petition, however, he admits, “if the roads were to remain open only during those hours when a great deal of traffic comes onto campus, most of the problem would be alleviated.”

Nelson also stated that “from daily experience I know that between 7:30 a.m. and 9 a.m., there is a 15-minute delay getting onto the campus.” He blames the delay on the newly-closed roads.

So far, the petition has been signed by nearly 300 faculty and students. Nelson hopes to attain 500 signatures before submitting the petition to the administration.

Nelson’s primary reason for opposing the pedestrian mall is found in his speculation that “under icy road conditions the road connecting the freshman parking lot to the lot in front of Parliment Hall, with its hazardous grade, will be dangerous.” He suggests that “another access will be necessary at that time.”

Cooperation Needed

In 5-School Set Up

Cooperation Needed

In 5-School Set Up

By Mary Jean Strycharz

With the beginning of the ’69-70 school year, there has been much speculation concerning the subsequent rebirth of Montclair State College as a multi-purpose institution.

Reorganization is tackling all facets of campus life, particularly upon the development of the five schools: Applied Arts and Sciences, Creative Arts, Humanities, Math and Science, and Social and Behavioral Sciences. The creation of 14 new departments will provide more independent study and research and a wider range of major fields to choose from.

As with any major undertaking, school reorganization involves much time and effort on the part of all those concerned. Success cannot be attained without total cooperation. This is the main key to success as seen by Dr. Samuel Pratt, MSC resident planner and a member of the central planning committee.

Problems of time and money do exist, particularly of the latter, since more than twice the present budget is needed, in order to provide personnel to cope with the record number of students.

However, as Pratt sees it, “Transition is a way of life,” and

Massive numbers of customs inspectors—the exact number is a government secret—are posted at 27 U.S. airports in the southwest authorized to receive international flights, and at 31 places along the 2,500-mile Mexican border, where all motor vehicles and pedestrians are now stopped around the clock to undergo two-3 minute searches for contraband.

'TURNING ON' IN VIET

Operation Intercep parallels a similar attack on marijuana being waged in Vietnam, where tons of marijuana, heroin and LSD are an integral part of this war of suppression involving federal agents, police dogs, helicopters and television announcements.

Military spokesmen say many soldiers have been discharged in connection with the use of marijuana, heroin and LSD. Some discharged in connection with the drug use have been reprimanded, in rank, and a few dishonorably discharged in connection with the use or sale of pot. Over three tons of grass have been confiscated and destroyed throughout the country.

The antidrug drive appears to represent but another manifestation of the hard line Nixon has taken on what he refers to as the "drug abuse problem."

The administration's drug bill, proposed by the late Sen. Dirksen and currently before the Senate Subcommittee to Investigate Juvenile Delinquency, not only discharges marijuana, heroin and LSD together, keeping the same penalty structure for a first offense of possessing any of the three; a maximum of five years and maximum of 10 years in prison.

Anyone convicted of a first offense in selling drugs will face 5-20 years in prison and a $25,000 fine under Nixon's bill. Anyone convicted of a second selling offense will face 10-40 years incarceration and a $50,000 fine. There would be no second opportunity for conviction or suspension of the sentences.

In addition, the bill contains a "no-knock" provision whereby police may enter a home without identifying themselves.

Other discussion before Congress concerns more educational and rehabilitative approaches. Sen. Thomas Dodd (D-Conn.) has proposed legislation that would do away with minimum penalties, leaving them up to judicial discretion, and broaden the eligibility requirement for treatment under the 1966 Narcotic Addict Rehabilitation Act.

Bills sponsored by Rep. Edward Kid (D-N.Y.), Rep. Lloyd Moss (D-Minn.) and Sen. Frank Moss (D-Utah) would create commissions of one sort or another to study drugs more thoroughly before additional laws are enacted. Rep. Claude Pepper (D-Fla.), chairman of the House Select Committee on Crime, has requested the U.S. Surgeon General to prepare and issue a report on the use and effects of marijuana.

Ken Traynor: SGA Commentary

Without Proper Protection

"Please officer, I have my rights, you can't arrest me," said the student. "I am sorry son, there is nothing written down," said the officer.

"Prof. Structure, you can't fire me because you don't like me" said the student.

"Why not," said the prof. "There just isn't anything written down.

These are just two examples of student's rights that can be abused with impunity. For example, the University of Michigan has been criticized for violation of a "Campus Police Concerning Student Rights and Responsibilities."

Michigan has been criticized for this policy and the "Campus Police Concerning Student Rights and Responsibilities."

There are various rumors and rumors which surround this document. This document has been called anything and everything from "an infringement upon student rights" to a "vital document to assure student rights." But how many students have read it?

JOINT STATEMENT

The document in question was originally written as a joint statement prepared by the most prominent national student, faculty and administrative associations.

Montclair received the document approximately two years ago. It was given to a committee of students, faculty, and administrators who proceeded to adjust the document to suit the needs of Montclair State.

There is one particular statement by President Richardson which is quite prominent in this document, which is considered by some to be inconsistent with the seemingly positive nature of the document.

Anyone convicted of a first offense will face 5-20 years in prison and a $50,000 fine. Anyone convicted of a second selling offense will face 10-40 years incarceration and a $50,000 fine. There would be no second opportunity for conviction or suspension of the sentences.

In addition, the bill contains a "no-knock" provision whereby police may enter a home without identifying themselves.

Barbara Fischer: Opinion Left

Voice of America

Under the auspices of the Student Peace Union, Montclair State will participate in the national student strike against the war to take place Oct. 15. This is expected to be the largest and most effective nationwide strike to this point.

Generally, the actions have been kept low-key in an attempt to alleviate the smallest number of persons as possible. The idea was initiated by students working in the Kentucky area. Many campus in conjunction with the New Mobilization Committee to End the War have also planned the 15th as a day of "stop business as usual.

The fact that both factions of national SDS have refused to support the strike is a verification of its liberal nature. However, many SDS chapters are preparing the action. Another important factor is that American opinion has reached the point that it wishes an end to the war, for whatever reasons.

At Montclair, we have received a large response. Although two weeks behind the time, as usual, MSC may finally be catching up with the rest of American college students in a protest against this war. The school will be open on the 15th. It is not a free day. It is the responsibility of each member of the academic community to strike whatever classes might be held, to participate in the all day program in front of Life Hall, to picket, and to leaflet those classes still in session.

This is a day of protest, mourning, and learning, not sleeping. A day of realizing that these dead will be joined by more. A day to remember that it remains for us the living to make sure that no more die in vain. That we should resolve on this day to reevaluate America's commitments, both foreign and domestic; that we commit ourselves to make America live up to its ideals.

ALL-NIGHT VIGIL

Plans have been made to coordinate activities with Paterson State College and local groups in Montclair. Students at MSC are excited and encouraged to participate in an all-night vigil to be held at 8 p.m. on the 14th at Paterson State College. Women's International League for Peace and Freedom will sponsor a table on the mall area during the day of the 15th, there will be petitions and post cards to sign. WILFP will march from the Unitarian Church of Paterson to the Montclair postoffice to mail the petitions and cards. Montclair State students are urged to participate in this and other actions planned throughout the community.

As a result of the actions in this area and throughout the country will, despite President Nixon's statement, influence American foreign-policy decisions. A nation cannot continue a war when the majority of its people demand an end. It remains that this influence cannot be exerted unless those of us at MSC and throughout the national act upon our beliefs and create such an outcry that the President cannot ignore it. For if we truly believe in democracy, would this not be the voice of America clearly stating its views?
Is Vista for You?

"We're not interested in people who just want to do something nice," states Ray Ormsby, recruiter for the Volunteers in Service to America (VISTA). "VISTA wants volunteers who know the problems of the nation."

VISTA will hold registration for interested students and will distribute free information in the Memorial auditorium lobby this Friday. VISTA volunteers work within the United States, combatting such problems as poverty on Indian reservations, unemployment, mental health and aiding the migrant farmer.

Sponsored by the Office for Economic Opportunity, VISTA will distribute materials to all interested students, and will register anyone wishing to volunteer, providing the student is at least 18 years old.

Residents Lose Parking Lot

Due to the lack of parking space, male resident hall students will be unable to use the parking lot behind Webster Hall. Primary circumstances leading to the decision according to Mr. Richard Taubald, assistant director of students (men's housing), include the increased number of freshman commuters. Another consideration was on-campus construction of Partridge Hall and a new dormitory in the vicinity of Webster Hall. However, Taubald stressed that the new regulation can be reversed as soon as conditions are conducive to the use of cars by senior male residents.

Students were officially notified as to the change in policy during meetings at the men's residence halls.

Their impressions of the job...
By Barbara Jean Minor

Staff Reporter

One of the recent changes at Montclair State College is the division of the foreign language department into five separate departments. The proposal of such a split had been considered by the departments in order to meet the requirements of the increasing number of foreign language students. Immediate action on this proposal was hastened by the lack of a department chairman for the foreign language department as the fall semester was about to begin.

Previously, all of the foreign language courses were grouped in one category, with only one department chairman to administer to the needs and problems of the hundreds of college students enrolled in these courses.

The foreign language department is the largest in the college, with about 750 language majors. In addition, it serves students who are not language majors, but who are enrolled in a language course because it is required of them by a particular major. This size factor had for some time caused the foreign language department to consider a division into several smaller departments, to aid administrative purposes.

Recently, that action was taken on this matter, following the resignation of the former department chairman, Dr. Paul Gaerig. The emergency of being without a permanent chairman, with the opening week of school close at hand, prompted immediate action. A committee of the foreign language department voted to decentralize the department, thus forming five departments, with an acting chairman for each.

The French department, whose chairman is Prof. Louis Roederer, and the Spanish-Italian department, headed by Dr. Elosa Rivera-Rivera, are the largest of the five new foreign language departments. Serving as acting chairman of the Germanic-Slavic department is Dr. Edith Lenol, while the linguistics department is headed by Prof. Mathilda Knecht. Dr. Carolyn Bock is acting chairman of the classics department.

Dr. Bock stated that the division seemed to be a feasible step at the time. She added that while they have a common base, mutual interests and mutual problems, the languages represent different areas, and through the creation of smaller departments, there can be closer contact with students, and a unity of purpose among the staff and students.

Commenting about the separation of the departments, Dr. Bock said that they will be "unity in our diversity."

Students enrolled in these courses will receive memorandums pertaining to the decentralization of the foreign language department.

---

Carolyn Bock in Unity in Diversity.

Women's dormitories will take effect this weekend in both Spoon and Webster halls. Successful during its four week trial period last spring, the institution of the policy for the 1969-70 year was delayed two weeks to receive feedback on the policy from the men residents, especially the freshmen.

Considering students, personal, practical and financial aspects of the policy, Mr. Richard Taubald, director of mens housing, was found to be in favor of the closed door policy.

"We have men living on this campus, not boys, and they should be treated as men," Taubald remarked. "Forbidding men to close their doors while entertaining female guests shows a lack of trust. We want the residence halls to be not only a place to sleep, but also a place to live, where men learn mutual respect for each other."

Before the four week trial period went into effect last year, Taubald consulted a lawyer, as to the legal implications that could possibly arise from such a situation. However, the state does support the college's stand on the closed door policy.

Tentative hours for closed door visitation are: Friday, 4:30 p.m. to midnight; Saturday, 11 a.m. to midnight; Sunday, 1 to 7 p.m.

5 Depts. Now in Operation

By Lou EthierFAH

Each year the interdepartmental Newman House holds seminars on topics pertinent to all people.

Historically, the Newman Club was a national Catholic organization, Cardinal Newman being a Catholic theologian. After opening up its facilities to all people of faith they changed their name to the Newman community, when asked what he hopes his year's seminars will accomplish. "Our seminars are not to teach or preach but rather to discuss and voice our opinions on topics which affect our everyday lives."

War, Racism, Sex, Love At Newman Seminars

By Faye E. Witcher

Women's visitation in the men's dormitories will take effect this weekend in both Spoon and Webster halls. Successful during its four week trial period last spring, the institution of the policy for the 1969-70 year was delayed two weeks to receive feedback on the policy from the men residents, especially the freshmen.

Considering students, personal, practical and financial aspects of the policy, Mr. Richard Taubald, director of mens housing, was found to be in favor of the closed door policy.

"We have men living on this campus, not boys, and they should be treated as men," Taubald remarked. "Forbidding men to close their doors while entertaining female guests shows a lack of trust. We want the residence halls to be not only a place to sleep, but also a place to live, where men learn mutual respect for each other."

Before the four week trial period went into effect last year, Taubald consulted a lawyer, as to the legal implications that could possibly arise from such a situation. However, the state does support the college's stand on the closed door policy.

Tentative hours for closed door visitation are: Friday, 4:30 p.m. to midnight; Saturday, 11 a.m. to midnight; Sunday, 1 to 7 p.m.

On a cold autumn night on Sprague field Montclair’s Indians destroyed Curry College by scoring a point for every man on the opposing squad. The final score was Montclair 29 and Curry six.

Led by a tenacious defense, the running of Tony Valpone, and the passing of Bill Kulikowski, the Indians bowled over Curry. Valpone was the workhorse of the backfield as he gained 101 yards in 17 carries and scored one TD. Kulikowski passed for three TD’s, 73 yards. Her percentage was kept low because the cold weather caused butterfingers on the part of his receivers. Glen Morschauer and Roland Kascher were also standouts on offense as they provided the bulk of the scoring punch by being on the receiving end of Kulikowski’s passes.

The Indians scored once in each quarter. The first TD was a five yard pass from Kuli to Morschauer, which capped off a 45 yard drive. In the second period MSC scored on a two yard smash by Valpone. The longest drive came in third which went 72 yards in 11 plays. This drive was highlighted by an 11 yard TD pass from Kulikowski to Kascher. In the final period the Indians completed the rout with a 16 yard scoring pass to Morschauer by Kulikowski.

Defense, however, is Montclair’s game. Going with a 6-1-0 most of the way the “Renegades” held Curry to a minus 17 total offense. Tony Testa’s squad had numerous individual stars including the entire left side of the line. Tackle Tom D’Onofrio and end Fred Chomko took away any outside threat Curry might have had, while guards Charlie Plochock and Jules Gelfic clogged up the middle. Chomko himself nailed the quarterback a half a dozen times which accounted for substantial losses. Deep backs Joe Kostecki and Al Middleton took away any threat of a long pass as they put a blanket over Curry’s wide receivers. Curry was held to just four first downs, two of which came on penalties. The defense also accounted for two points in the third quarter as a strong punt rush forced a safety.

Despite the joy of victory the squad was dealt a sharp blow when kicking specialist Dan Rodgers pulled a thigh muscle on a second period kickoff. He was replaced by sophomore Bob Brewster who came off the bench to kick two extra points.

Soccer Sports 3-0 Record

With Wins Over NCE, GSC

By Paul Kowalczyk
Staff Reporter

The Montclair State soccer team, the top team in New Jersey, Delaware, and Pennsylvania, has extended this season’s winning streak to three games by defeating Newark College of Engineering and Glassboro State College last week.

Montclair, whose record is now 3-0, had little trouble with either team.

The standout for the MSC team was sophomore Bill Kazdoba. Kazdoba, claimed by many colleges as “one of the nation’s top collegiate booters;” the Montclair player to watch,” scored two of MSC’s goals in their 4-0 win over NCE and he scored four of seven Montclair goals in beating Glassboro 7-1.

The first period was scoreless, as was the second, but as the half came to an end, there was little doubt that Montclair would dominate the remainder of the game; MSC outshot the visitors 15 to two in the first 44 minutes of the contest.

MSC’s scoring punch didn’t begin until midway into the third period when, at 12:30, Kazdoba put his first goal of the game past the NCE goalie. The shot came from in close, after John Smith had taken the initial shot.

At 20:03 of the third period, Jean Charles headed in a ball that came to him from a Bill Kazdoba throw-in.

Tony DeFilippis, Montclair’s promising freshman halfback, scored next at the 4:35 mark of the third period. Kazdoba and Jean Charles again dominated as they hit for 4 and 2 goals, respectively.

Charles has been referred to as the “Pele” of the MSC team. Pele, from Brazil, is the world’s greatest soccer player and the highest paid athlete in the world.

Glassboro State (1-1) drew first blood, scoring on a penalty kick at 4:20 of the first period.

At 7:02 of the first period, Bill Kazdoba scored on a well-executed one-on-one situation. The blast by Kazdoba upset the GSC goalie. 50 seconds later Jean Charles took a pass from Kazdoba and put a 10-yard shot into the nets.

The second period was once again totally dominated by the MSC team. Tony DeFilippis took a pass from John Smith at 4:30 of the second period and put Montclair ahead three to one. Forty seconds later Kazdoba put in a John Smith pass for his second goal of the game. Kazdoba put two more in the goal while Charles added another to win going away.

During the past week the MSC junior varsity soccer team lost to NCE 3-0 and they lost to the U.S. Navy Academy 4-1, with Pavlos Papadopoulos scoring the lone Montclair goal.

The Montclair State College soccer team hosts Jersey City State College tonight at 8 p.m. The game will be played at John F. Kennedy Stadium in Harrison.

Many members of the soccer team have commented to this reporter that they hope that the students of Montclair State College will support their team in their bid for the National Championship. Last year, the soccer team was a finalist in the Eastern division of the National Championships.

Fencers Ready for Season

But Depth Needed Badly

Behind the likes of Dale Rodgers and Dave Bryer, the fencing team could prove to be one of the big fencing powers in the East.

The starting positions are filled but the team lacks depth. Coach Allan Mack has expressed his need for freshmen “with a desire to put in hard work to learn the art of fencing.”

Mack continued: “With five seniors putting in their last year, there will be openings in the starting lineup for next year.”

The team has been practicing since the beginning of school and it looks like at least three of the positions will be taken by either sophomores or freshmen.

The Day Panzer Gym Went to the Bunnies
Eyes Pop as Score Multiplies

By Roger Niemeyer
Staff Reporter

In the past the Panzer gym has doubtlessly been the site of many exciting basketball games. But the one which took place there last Thursday nite will long be remembered.

It was the nite the Playboy Bunnies of New York trounced the M.S.C. faculty all-stars by the score of 37-8.

The game proved to be anything but a normal contest. As might be expected the faculty didn't seem to have their minds on the game, but then almost anyone would find keeping his eyes on the ball almost impossible under those conditions.

Right from the opening tipoff it was obvious that the bunnies would have a little difficulty in winning the contest. The girls proved to be anything but out of shape as they built up a 10-0 lead by the end of the first quarter.

The bunnies continued to increase their lead during the second period, netting most of their points at the foul line. The teacher finally broke into the scoring column with 4:15 remaining in the first half, as Ed Harris scored on a layup to make the score 15-2.

Both teams proved to be quite aggressive during the second period, but once again the faculty didn't seem too concerned about scoring points.

The game began to look more like a football game, as the bunnies tackled their opponents, ran with the basketball, and did anything else they could in order to score. The faculty managed to add six points to their total in the third quarter, but the final period proved to be quite a bust as they failed to score.

The Newark-Rutgers game, scheduled for Thurs., Feb. 19, at Newark has been rescheduled for Fri., Feb. 20 at Montclair.

Change in Basketball Schedule

NEW YORK — A Valentines day crowd appeared at St. John's University last Saturday to see St. John's Redmen defeat Montclair State College's Black Barons, 87-70 in the semifinals of the F. & M. Schaefer Brewing Co. intramural tournament.

It was the first defeat for the Barons since the team was formed in 1969.

Rich Sommer, who scored 19 points, carried the Redmen to victory. Jim Cortese was also instrumental in the victory, scoring 18 points.

The first half of the game both teams played a strong man-to-man defense. In the early minutes of the game the Redmen had built up a substantial 39-33 lead.

During the second half of the game the Barons, confronted with the Redmen's zone defense, were stilted from any outstanding scoring. The defense was reduced greatly when guard Byers committed his fourth foul.

The only other man in double point scoring streak was Baccarella's layup another jumper by Heck, and Willie Most's jump-shot brought M.S.C. to within three, 24-21, with three minutes left.

Following a layup by John Blazich of GSC, M.S.C. scored the final seven points of the half on tallies by Todd McDougal, James and Baccarella, coupled with Most's foul shot. The streak gave the Indians a 28-26 lead at the left.

A six point run to start the second half gave M.S.C. a 34-26 lead which held until Mark Lewis' jumper brought the Profs within two at 44-42.

Over the next six minutes, M.S.C. outscored G.S.C. 13-2 to put the game on ice.

Baccarella tallied 25 points, 1 in the second half, and James 20 after intermission, to pace the Indians.

Bob Bachman scored 20, and Keith James 14 for the Profs. A 6 foot sophomore, Bachman has averaged over 20 points in three starts for G.S.C. The high scoring guard transferred from Rider College and became eligible at the start of the second semester.

THE EYES HAVE IT: Playboy bunny reaches high as a challenging faculty member watches hopefully — but the team lost to the vivacious rabbits.

Our Crown Bid Nears as Indians Trip Glassboro

By Mike Galos
Staff Reporter

Sparked by the hot shooting of Phil Baccarella and Harry James, Montclair State College wrapped up a share of its third straight State College Conference crown Saturday nite. Exploding for 48 second-half points, the Indians outdistanced visiting Glassboro State, 76-60.

The victory upped M.S.C.'s conference record to 7-1, while its overall mark improved to 18-2. G.S.C. dropped to 6-12 overall, 2-7 in the NSJCAC.

In an error-filled first half, the Profs moved to a 24-13 lead midway thru the stanza. A layup by Keith James capped a six point spree that was terminated by Bob Heck's jumper for M.S.C. Up to that point, the quintets had battled thru three ties and a like number of lead changes.

Heck's bucket ignited the spattering Indian offense to an eight point scoring streak.

Baccarella's layup another jumper by Heck, and Willie Most's jump-shot brought M.S.C. to within three, 24-21, with three minutes left.

Taking over next six minutes, M.S.C. outscored G.S.C. 13-2 to put the game on ice.

Baccarella tallied 25 points, 1 in the second half, and James 20 after intermission, to pace the Indians.

Bob Bachman scored 20, and Keith James 14 for the Profs. A 6 foot sophomore, Bachman has averaged over 20 points in three starts for G.S.C. The high scoring guard transferred from Rider College and became eligible at the start of the second semester.
