Student Opinion Will Decide Future of Pedestrian Mall

By Richard De Santo
Staff Reporter

"This is a completely student-oriented decision. If an overwhelming amount of students want the mall opened, then the mall will be opened." So states Mr. Vincent Calabrese, vice-president for business and finance, concerning the pedestrian mall which was closed to vehicular traffic for the first time this past fall. Calabrese, one of the originators and supporters of the pedestrian mall, will meet with a committee from the Student Advisory Council today to discuss the future of the mall.

Calabrese said that the committee feels that the institution of the mall is "premature" and should be reconsidered when traffic difficulties are alleviated during the peak traffic hours of 7 to 9 a.m. and 3 to 6 p.m. According to Calabrese, the mall has nothing to do with any traffic problems affecting MSC commuters. He pointed out that the delay in the morning is caused by the Valley road-Normal avenue congestion, having nothing to do with the campus itself. The back-up which occurs in the evening exists because there are only two exits from the campus. He noted that even if the mall were opened, the traffic would still have to channel into the same exit, creating the same traffic backup. He added that the proposed bridge would be the answer to the traffic congestion problem.

In describing the origin of the pedestrian mall idea, Calabrese said that a series of meetings was held over the summer involving members of the SGA and other campus organizations and members of the faculty. He said that the end result of these meetings was the overwhelming approval of the idea.

However, Calabrese stressed that there is no official or administrative policy concerning the closing of the pedestrian mall and that the matter will be governed by student reaction.
UP AND COMING: Topped by Old Glory, the Pike crane will eventually be replaced by MSC's 16-story dormitory.

FROM DOWN UNDER: New pipes for the enlarged steam lines have to replace the existing ones. This changeover has been underway since last April.

ALMOST BUT NOT QUITE ready for use, Partridge Hall, MSC's first air-conditioned classroom building will be ready for occupancy for the spring semester. The School of Humanities will be housed here.
Ombudsman Depends on Student Needs

Post Centralize Answers
By Kathy Vargha Staff Reporter
Is Montclair State College planning an office of ombudsman to hear student grievances?
This question, asked by a few MSC students in response to the creation of the office at Cornell University and City College of New York, was answered by Lawton W. Blanton, dean of students at MSC. Blanton stated, last week: "Right now there isn't any plan for such an office. However, this doesn't mean the college won't create the office in the future if a majority of students decide to do so."
Seated around a small table in the dean's office, Blanton and Edward C. Martin, assistant director of student personnel, discussed why they feel an ombudsman isn't necessary for Montclair State. "If a student has a gripe, Blanton believes, he can go to a number of school offices instead of just one. For example, he said, "it has always been my job as dean of students to hear any student with a complaint. "Besides myself," he added.

An End to Tie-Ups?
By Mary Jean Strycharz Staff Reporter
To lessen some of MSC's existing traffic problems, construction of a $550,000 overpass bridge and parking lot along the western side of the campus will begin in the spring. According to Mr. Vincent B. Calabrese, vice-president of business and finance, the bridge will extend over the Erie-Lackawanna railroad tracks paralleling the campus on the west side, will connect with Clove road, a municipal road of Little Falls, and with the existing freshman parking lot. It will provide "additional, much needed access and egress to and from the campus, and will eliminate the traffic resulting from the congestion caused by the limited number of access and egress points," stated Calabrese. The back-up traffic which now exists during early morning and late afternoon hours affects not only campus but municipal roads, often causing massive traffic jams. The parking lot, which will be equipped with site lighting for night use, will accommodate approximately 200 cars, and have both an entrance and an exit from Clove road.
Both bridge and parking lot are expected to be completed by September and, therefore, ready for use by students for the 1970 fall semester, Calabrese said. The land on which the building project is to take place costs approximately $50,000 and was previously owned by six different owners. Although there was some delay in acquiring part of the land, which was sold to another buyer before the college, Calabrese stated that MSC had "no problem" in buying the land from the new owners. "Most of the land has already been bought," he added.
The bridge will contain a raised pedestrian walk with vehicle guard rails and a seven foot high continuous fence barrier, as required by the railroad. Railroad standards regarding concrete piers and overhead clearances are incorporated into the design of the bridge.
The campus architects responsible for the construction of the bridge and parking lot are Urbanik, Mahony and Zvonosec of Princeton.

RR Bridge Will Ease Traffic Exit
Continued From Page One
protesters settled down to a mass rally on the grounds of the Washington monument. They listened to speakers and heard Arlo Guthrie sing protest songs. Police estimates of the rally's crowd went as high as 800,000.
The rally was soon disrupted by nearly 150 militants labeling themselves Weatherman, crazies and Yippies. Shouting obscenities, the militants dashed through crowds of spectators and carried banners with the slogan: "He-He-Ho Chi Minh, the NLF (Viet Cong) Is Going to Win."
"We're off to the Department of 'Injustice' to protest the atrocities of Vietnam," one Weatherman said as he began to chant: "Free Bobby Scale, Jail Nixon." He claimed that Scale was a political prisoner, while Nixon "is the real criminal."
After marching along Pennsylvania avenue, curious bystanders joined with the militaments to observe their actions. They marched around the block housing the Justice Department and militaments shouted: "F-- You! F-- You!" to dignitaries who appeared unmovved by the shouts.
Soon after, a few began to gather around the front door of the Justice Department. As the militants began to chant "kick the ass of the middle class!" a few hotred bottles containing red paint were thrown at the building. Police moved in and fired tear-gas into the crowd of an estimated 6000.
By 9 p.m. Saturday, the crowds had diminished except for a few hard core radicals who remained in the area of the Justice Department. Finally police moved in and arrested 135 militants were jailed, according to a spokesman for the Metropolitan Police Department.
One Weatherman who was jailed and later released stated that his group was provoked by the police "by the very fact that they were standing there."
A student from Rutgers-New Brunswick, stated, however, that "all the marches were peaceful" and attempted to influence governmental policy "until looks like the Weathermen stepped in."
The student went on to say: "I don't know what effect this will have on the government, but I'm hoping the press plays down their attacks"
Meanwhile, moratorium leaders are saying that the Washington demonstrations were a "huge success," and a spokesman for the Mobe added: "We're all set for Christmas eve."

250,000 March in War Protest

Montclair State College was quiet during last weekend's Washington demonstrations. According to Mr. Edward Martin, assistant dean, classes at the college were going "fairly well." According to an observer, at least 75 local students participated in the Washington demonstrations.

You're not as mini as usual? It's only temporary, you know. A monthly problem. But who cares when you have that puffy, bloated, "Oh, I'm so fat feeling"? TRENDAR, that's who. TRENDAR'LL help keep you slim as you are all month long. Its modern diuretic (water-reducing) action controls temporary pre-menstral weight gain. (That can be up to 7 pounds!) A Policy Making Organization

Several student government representatives have noted that they cannot make any value-judgments on the campus drug policy since they may not adequately represent campus opinion. Two weeks ago, Dr. Thomas H. Richardson requested an opinion from SGA which he could present to the Faculty Council regarding a recommended student position that the college should follow during the two-day November moratorium. SGA replied: "No Comment."

These two statements by the SGA lead us to question SGA’s position as a policy making organization. As a elected body of student representatives, legislators are responsible for more than doing out student activity fee money. Policy decisions are also a part of student government. Unfortunately, some of our delegates prefer not to commit themselves to a stance.

It is recognized that no group of 40 individuals could express views which would appeal to 4500 people. But those voters who have delegated their support to the SGA legislator expect some opinion to be expressed in their behalf.

We would like to see SGA steer away from this noncommittal course it has been following and take up its responsibility as a student policy making organization.

A Campus Drug Policy

For two years now, students and administrators have been working to compose a suitable campus drug abuse policy. However, one reason for the delay in its completion, is the vagueness of the policy.

Students presently on the committee have questioned the legal procedures regarding penalties for campus drug abuse. We further question the college’s right to impose penalties upon students when in fact there are federal laws to deal with such conduct.

We also question the effectiveness of such a policy when individuals are concerned. We feel each case concerned with drug abuse on this campus cannot be subject to policies and rules and should be handled discreetly through the student personnel, medical and/or psychology departments. Strict rules don’t belong when dealing with individual needs.

A Request for an Ombudsman

Montclair’s cumbersome administration needs an ombudsman to act as liaison between the student and the machinery.

As the college expands we see more and more administration being formed on the department, school and college level. Little does the student know to whom he can turn.

What we’d like to see is an ombudsman who can speak for the student to the administration, and who can direct the often-confused student to his needed source of information.

Right now we’ve been told that almost everyone in the student personnel department acts as an ombudsman in one way or other. Perhaps, but that doesn’t clarify the college’s position on an intermediary meant just for the students.

The college is asking for the student personnel department under Dean Lawton Blanton to take some definite action toward securing one person to act as ombudsman on the Montclair State College campus.

We feel that an ombudsman is a great need of today’s student and can certainly benefit tomorrow’s student.

Black Mayoral Candidate

By Patricia M. Romanish

Staff Reporter

NEWARK — Members of the black and Puerto Rican communities of Newark united to nominate major party council candidates for the May 1970 primary election at the Black and Puerto Rican Political Convention held last weekend.

The convention, according to Mr. Robert Curvin, chairman of the Plane Newark Convention Planning Committee and teacher of political science at Rutgers-Newark, had no political party affiliation. Every precinct and district leader, a representative of every church organization, as well as 75 selected individuals of both the Democratic and the black and Puerto Rican communities were invited as voting delegates to the convention.

At a press conference Curvin said that the leadership of Newark has been educated — from Germany to Jews to Italians — in a city where blacks constitute over 50% of the people. "We are attempting," he said, "to unite people who have power. We, in the city of Newark are faced with an unresponsive, corrupt and inefficient government that many people have no confidence in to deal with problems."

In previous elections many black candidates ran, thus splitting the black vote. As a result, a white candidate was usually elected. The convention will elect one candidate from the black and a Puerto Rican community. "It is time for us to organize and move to our rightful position," he said. "We are really preparing a system that we can take our chance like the other ethnic groups.

However, he added that the convention is not a takeover. "With our fair share we will make some dent. Above all blacks were as partial to their group as the present system."

One observer reported, "most of the candidates were very strong in their areas and no one else ran."

Ramón Aresú was the only Puerto Rican at-large councilman nominated, while Earl Harris, Charles Pinckney and Donald Tucker were the black at-large winners.

'Exam Taking is an Art'

AMES, IOWA (ACP) — Some students have the ability to successfully take examinations and some don’t. Those who do not have the talent find themselves with a real headache, often bordering on near-panic. Marianne McManus, an assistant professor and psychologist in the counseling service at Iowa State University, has been studying this problem for several years. She has found that certain methods can help the student experience anxiety when ‘test time’ rolls around.

She organized, through the counseling service, a small class of students to participate in a seven-week program of what might well be called behavior therapy for the test-anxious student. All test-takers. The class was a good cross-section of the student body, including men and women freshmen to graduate students. These were not

TRIBUTE TO A DECADE

1964...the Expected in Unexpected

By Don Pendley

November 19, 1969 — MONTCLARION — Page 5

The world turned upside down -- or so it seemed. From the Catholics to coups -- from communists to civil rights -- the unexpected became the expected in 1964.

An election in this country pitted the incumbent Lyndon Johnson in 1964 against Arizona Sen. Barry Goldwater. The mud was thrown and the political quicksand caught Goldwater in one of the dirtiest campaigns in history, although others were in the offing (see Cahill vs. Meyner, 1969).

France went into the Red by recognizing Red China: and in another little man with the shoe, Nikita Khrushchev, was deposed. He was replaced by that now-famous song-and-dance team of Brezhnev and Kosygin.

WASHINGTON - The nation's population will continue its shift to the western and southern states and toward metropolitan areas during the 1970s, according to the National Planning Association predictions. The 1970s also will be marked by a slowdown in economic growth and inflation, compared with the 1960s, said Thomas H. J. Albright, executive director. "It cannot come too soon for government economists. The present 1960 level of government reports issued by NPA's center for economic projection. "Projections to 1980 for states and 224 metropolitan areas" look at key economic and demographic indicators. An accompanying report, "The Outlook for the American Economy in the 1970s," forecasts an economy approaching $5 trillion by the 1980s with the nation producing 14% more goods and services than in 1967.

Along with above-average population growth, the projections show a corresponding increase in jobs and income for the Southwest, the Mountain States and the Far West.

Growth is expected to be slowest in the New England mid-Atlantic, Great Lakes and Plains states. Slight population and economic growth are predicted for the central states.

"Building a New Skyscraper for the City of Detroit" by Jean-Paul Sartre managed to catch the attention of the Nobel Prize for literature. The Nobel Peace Prize was given to Rev. Dr. Martin Luther King, climaxing a landmark year in the civil rights cause: the civil rights bill was signed by Johnson on July 2. Contrastingly, one of the most shocking events in the civil rights movement occurred: the bodies of three civil rights workers were discovered in an earthen dam in Philadelphia. Min.

The Catholic Church made headlines when Pope Paul visited the Holy Land and met with Patriarch Athenagoras I, leader of the Greek Orthodox Church. It marked the first meeting of two church leaders in 900 years.

The Westerner making his first trip to Saigon, recognizes the place. "The least fashionable of all rackets is the game for pickpockets of all ages," he finds that nearly all of the vehicles he himself used were stolen. He finds that by a slowdown in economic growth and inflation, the most frequent violators of the law are the truckers, but that the most corrupt of all rackets is the one where the trucker fills his van with goods and never goes to the arresting officer on the streets of Saigon. "Without fuel," he said, "you can't have a fire."

Who's Who Includes 21 MSC Seniors

Montclair State College has selected 21 seniors to be listed in "Who's Who in American Colleges and Universities." The winners were selected from the entire senior class on such attributes as scholarship, leadership, and service to the school.

21 SELECTED

Selected were: John Burke, Carlene Cheatham, Frank Crropp, Jordan Denner, Barbara Fischer, Ruth Goldstein, Ronald Green, John LaManna, Joseph Macaluso, Kathleen Mark Rudnick, SGA representative; Robert Stickel, SGA representative, Mari-Jo Marra, fencing captain; Ronald Green, IFC president; Michael Uottan, Webster Hull president; Stanley Goldstein, CINA chairman.

Advisory Committee Unifies Residents

Problem of loneliness and adjustment to unfamiliar surroundings facing the off-campus student can be frightening and perplexing. Members of the off-campus housing office at MSC are aware of student concerns on this problem, which is the reason this advisory committee was formed five years ago.

Mrs. Lois Rodd, coordinator of women's off-campus housing, stated that the purpose of the committee is to communicate with students, so they may present their viewpoint. The board listens to and discusses complaints of students. She added that the concerns of housemothers are also revealed to students at these informal meetings.

The off-campus advisory committee is composed of 17 girls who meet bimonthly. Besides advising students on personal concerns, they also plan activities and socials for students, faculty, housemothers and parents.

Mrs. Rodd pointed out that an important feature of the advisory committee is that the members are not elected, but rather volunteers to be of service.

The present officers are chairman Sandie Kedves; vice-chairman Beth Michael; secretaries Kathy Lopes and Karen Olsen; and treasurer Linda Closter.

Mrs. Rodd explained that the members of the advisory board act as representatives of students in practically every committee on campus. They are represented on the food and drug committees, campus planning committee, snow-removal committee, parking committee and others. They also sit in on dorm council and club meetings.

Mrs. Rodd said that an annual project of the advisory committee is to make up a booklet to send to all off-campus students and houseparents to guide them in setting curfews and formulating rules. Newsletters are also sent out periodically, she added.

One element that has been missing from the advisory board is the male student who lives off-campus. Joseph McKerr, one of the MSC men residing off-campus, hopes to change this situation. He said that he and Mrs. Richard Taubald, director of men's housing, are trying to initiate a men's off-campus committee. They hope to stimulate interest among the male population similar to the women's advisory board. The purpose of this committee would also be to discuss and search for answers to the problems that face the men who have their living quarters off-campus.

Civil Matter

Question Value of Drug Policy

By Helene Zuckerbrod
Asst. News Editor

Questioning of the value of having a campus drug policy by SGA representatives was discussed at a meeting of the committee on drugs and narcotics last Thursday.

Mr. Jon O. McKnight, director of student activities, and Sharon Wanchos and Dave Mendes, SGA representatives, stated that the few vocal representatives felt that any policy of the college concerning drugs would have little value. They considered the drug problem a civil matter that did not concern the campus authorities. They also said that the proposed policy was vague, especially in the area of penalties.

The students also felt that although they were SGA representatives, they were not representative of the entire student body and therefore could not make any decisions on the merits of the policy.

Currently under discussion, this proposal would set a recommended drug abuse policy for this college. Due to differences among its authors, the policy has been in committee for two years. Dr. Thomas H. Richarbg, MSC president, requested to be included in the final planning stages of the policy. He suggested that the committee, under the chairmanship of Dr. Constance Waller, consider the concerns of students, legal information on drug policy and the number of colleges which include drug policy statements in their catalogs be obtained. It has been suggested that the final drug policy be included in the MSC catalog as well as in other publications.

A subcommittee will investigate suggestions from the Bergen County Narcotics squad on proposed educational programs on drugs.
**Girls Decide Upon Closed Door Policy**

“A step toward independence” is the thought of the girls in Chapin, Freeman and Russ halls on a weekend closed-door policy. According to Mary Jean Agunsday, president of the women’s dorm council, at MSC, a questionnaire distributed to students showed that most of them approved the closed-door policy on weekends.

Miss Agunsday, in her sixth-floor dorm, asserted that a committee is currently studying the girls’ responses and brochures from several colleges which have already adopted closed-door policies.

She continued, saying that approximately 276 respondents to the questionnaires in Freeman hall, only 20 disapproved of men visiting the girls’ rooms. Miss Agunsday said that the main complaint is that the closed-door policy may infringe upon the roommates of girls who have male guests in their rooms.

She added that those who favor the closed-door policy vary in their opinions about dress codes in the dormitories, the faculty’s concern for the health and safety of the students, and that the dormitories should be left to the student living situation. She said that the students are being surveyed about their desires for the future, and that the students who favor the closed-door policy will be approved, the members must be prepared with alternatives.

**Levine Heads Public Relations**

David M. Levine, managing editor of the MONTCLARION, now fills the newly-created office of Student Government Association public relations director. Levine, SGA representative to the social science department, began his duties three weeks ago.

Editor of The International Journal and a native of Newark, N.J., he plans “to establish a newsletter which will circulate to other academic communities, informing them of SGA activities.” By working with SGA public relations director Mrs. Mary McKnight, he hopes to “keep the local press informed of all student activities at MSC.” The aspiring journalist and freelance writer plans to work with a staff. “I am very proud that the SGA has initiated such a progressive step” he asserted. “As the college grows larger, there is a greater need for keeping students and the press in the metropolitan area informed about activities. SGA will be taking progressive stands on issues such as educational reforms in the near future.”

This 20-year-old part-time reporter for United Press International plans to send press releases to high schools and local dailies about balls supporting educational reforms passed by the SGA, and how the student fits into today’s society.

To see a journalism department presenting in concert by the Delta Delta chapter of Sigma Alpha Iota. The women’s professional music fraternity is presented to the public recital tonight at 8 p.m. in the music recital hall.

The 34-year-old resident of Antigua in Medellin, Colombia. Miss Agunsday, in her sixth-floor dorm, stated that the committee is still in the process of compiling information and that it is working out the fine points of developing a suitable policy. She said a resolution must be drawn up and presented to the coordinators of the residence halls and President Thomas H. Richardson for approval. She added that even though the committee is President, the resolution will be approved, the members must be prepared with alternatives.

**COLOMBIAN PIANIST CONCERT TONIGHT**

Harold Martina, Colombian pianist, acclaimed by critics in Europe, Latin America and Washington, D.C. will be presented in concert by the Delta Delta chapter of Sigma Alpha Iota. The women’s professional music fraternity is presented to the public recital tonight at 8 p.m. in the music recital hall.

The 34-year-old resident of Colombia completed his advanced training at the Vienna Music Academy from which he has graduated summa cum laude by unanimous vote. He is currently a professor at the Music Conservatory of the University of Antigua in Medellin, Colombia.

Tickets for the performance — $1.50 for adults — may be obtained from any sister of Sigma Delta Iota in the Music building.

**PI GAMMA MU INDUCTS 21**

Pi Gamma Mu, the national honor society for the social science majors, held its annual installation banquet of the New Jersey chapter on Nov. 18. The following new members were installed: Janet Amatrudi, Mark Asch, Sandra Bailly, Sidney Blanchard, Susan Cote, William Crawford, Phillip De Block, John Eggersford, William Grogan, Marjorie Gerlach. Also inducted: Bonnie Hennessy, Judi Himes, Joann Italiano, Linda Maggio, Richard Rothstein, Robert Rucinsky, Carl Samek, Karyn Savigne, Donna Siege, Allen Waznitz, and Barbara Wesner.
Connecticut State College, New football team will end this year's either one or two points. Glassboro, and C.W. Post by Southern Conn. Bloomingdale with many seasoned veterans. a young team this year, combined by no means an indication that derives therefrom, and to whom athletics engages in athletics for the physical, mental, social and educational benefits he from ECAC Bylaws, article two, section "An amateur student is one who may accept scholarships or educational grants-in-aid from his institution provided such aid is not in conflict with governing legislature of this conference."

He's the best coach I've ever seen," declares Rich Schwarz, MSC's assistant gymnastics coach. To the members of the gymnastics team, Terry Orlick is a coach no one can equal. In his first season, Orlick has coached his team to the North Atlantic Gymnastic Conference title and qualified it for the NCAA College Nationals. Orlick's interest in gymnastics has been hereditary. "It's been handed down by my father who got it from his father." Although his coaching duties keep him from more strenuous activities, he spends sometime running. "I don't feel right unless I do something athletic."

Orlick excels on the trampoline, the highbar and with long horse vaulting. He was captain of Syracuse University's gymnastics team and twice won the Most Outstanding Gymnast Award at Syracuse. In his junior year, Orlick was the Eastern Intercollegiate Gymnastic League and NCAA Regional Gymnastic Champion.

In 1968, Orlick assumed the position of instructor in MSC's men's physical education dept. Prior to his teaching at MSC, he was assistant gymnastic coach at the College of William and Mary in Virginia.

Coach Orlick is well-liked by the members of his team. "He's personable," comments senior Ron Poling, "and we can identify with him."

Another gymnast, Bob Day, states that the team wants "to win for him and not just for ourselves."

MSC Pool Is Regulation Size

Much talk has been circulating the swimming pool at Panzer gym. Rumor has it that the pool is not of regulation size and that no NCAA, AAU or Olympic records can be set at the Montclair State College pool.

William Doogardi, director of athletics, was questioned as to the legitimacy of the rumors and he has supplied the following statement: "I would like to inform all students and faculty that the pool is official, 25 yards, in length, and meets all other NCAA and AAU indoor requirements. Therefore, the pool is fully acceptable for establishing national records.

Many erroneous rumors have circulated around the campus regarding the official length of our pool. I hope this will clarify the rumors."

Amateurism and Ineligibility in Sports

In the next few issues of the MONTCLARION, Sports Commentary will evaluate the rulings on amateurism and ineligibility regarding amateurism, as defined by the Eastern Coast Athletic Conference. Before going into the evaluation of the ineligibility concerning amateurism, we would like to quote from ECAC Bylaws, article two, section one, the "Principle of Amateurism":

"An amateur student is one who engages in athletics for the physical, mental, social and educational benefits he derives therefrom, and to whom athletics is an avocation. Who takes or has taken pay, or has accepted the promise of pay, in any form, for participation in athletics or has directly or indirectly used his athletic skill for pay in any form shall not be eligible for inter-collegiate athletics, it being understood that an undergraduate participating in athletics may accept scholarships or educational grants-in-aid from his institution provided such aid is not in conflict with governing legislature of this conference."

The ECAC has 16 rulings on ineligibility regarding amateurism, and the loss of eligibility. The first two rulings will be evaluated in this week's commentary.

(1) If you permit the use of your name or picture in commercial advertising.

(2) If you receive payment or accept a gift or loan for playing, coaching, officiating, or teaching in any sport.

What is wrong with coaching, playing, officiating, or teaching in any sport? If you have the capability to teach children how to play a sport, or if you have the knowledge to officiate a game, why not get paid for it? Officiating, teaching, playing or teaching, and getting paid for it, should not jeopardize a student's amateur status. These things won't really improve his playing ability tremendously, if it improves it at all.

More points of the ECAC amateur-ineligibility ruling will be discussed next week.
Indians Set for Home Opener Dec. 3

By Mike Galos
Staff Reporter

At a time when the Montclair State College soccer team is playing in the NCAA University division tournament, and the football squad is enjoying its best season in five years, it doesn’t seem that there is much room in anyone’s mind for basketball. But, for those who don’t know it, the opening of the basketball slate is only two weeks away.

The hard court sport has been occupying the thoughts of some individuals, especially head Coach Ollie Gelston and the candidates at work since Oct. 15 preparing for the 1969—70 version of the State College soccer team is anybody’s mind for basketball. But, football squad is enjoying its best

The Indians finished the campaign with a 24-3 mark, including champions of the New Jersey State Athletic Conference, the NCAA East Area College division, and a trip to the National Championships in Evansville. Ind. They were also voted the outstanding team in division II of the Eastern Collegiate Athletic Conference.

Following an act like that won’t be easy, especially with three key players gone through graduation. Departure are the leading scorer Luther Bowen, premier rebounder Bob Lester, and star defensive player Mike Oakes. The three players combined for a total of nearly 4000 points, with Bowen leaving the college as the second highest scorer in MSC history with 1838 points. Lester shared 1271 rebounds in his career, the only player in Montclair history to go over the 1000 mark in rebounds. Forming the nucleus of this year’s team will be two starters from 1968, Bob Sienkiewicz this year’s captain, and Harry James, Sienkiewicz was the fourth leading scorer last season with a 12.2 average, while James, a 6-1 junior, hit for a 12 point average.

Also providing a scoring punch for the basketball team will be Willie Moss, Last year’s sixth man, Jeff Bosslett and Ed Prather, subs on last year’s squad, and sophomores Phil Baccarella, Tod McDougald, Bruce Davis, Ken Waller and Bob Heck.

All of the players on this year’s squad will be very good, and most of them are fighting for a starting berth on the team. Gelston will have a tough job in finding the right combination to replace last year’s stars, but with a little luck, Montclair State College should have another winning quintet.

MSC Faces 3-0 Loss in Playoff

By Carol Sakowitz
Staff Reporter

Yesterday, 1000 fans watched as Montclair State College's highly rated soccer team was defeated 3-0 by the University of Pennsylvania at Franklin field in Philadelphia. The loss eliminates MSC from the 1969 NCAA soccer finals.

The bulk of the U. of P.'s attack was led by forwards Tom Lieberman and Stan Startzell. Lieberman led in game scoring with two goals while Startzell scored one goal. Outstanding players for MSC were halfbacks Joe Sallemi, John Smith, Klaus Nemetz, and full-back John Shumlas, who played his best game of the season.

U. of P.'s first goal was scored by Lieberman at 12:16 in the first period. Lieberman scored when his ground shot, from 17 yards out, went into the lower right of the net. The U. of P.'s lead remained 1-0 until 1:51 in the fourth period when Lieberman again scored.

Assisted this time by Tom Hutchinson, Lieberman's shot from 20 yards out turned the upper right goal. The final goal of the game was made at 9:30 in the fourth period when the score became 3-0 when Startzell scored after two attempts had previously been blocked by MSC's goalies, Roman Hanych.

MSC's soccer team, playing for the first time on astroturf, performed well for the first 15 minutes of the game, using good game strategy while moving the ball.

But after the U. of P.'s initial goal, MSC was unable to regain their former control and failed in their 25 goal shots. The U. of Penn.'s well-balanced team was able to score three times out of the 18 shot goals that they took.

This year is the second that MSC has competed in NCAA playoffs, the first time in 1968. They had moved to the finals after defeating Baltimore but then were defeated by Springield.

MSC's soccer team ends their 1969 season with a 12-1-1 conference record, 12-2-1 overall. The U. of P.'s record of 8-3 has allowed them to participate in NCAA divisional play-offs for the first time. Their defeat of MSC enables them to move up in the play-offs. On Fri., Nov. 21, they will face a tough Philadelphia Textile team. Textile, ranked first in New Jersey, Delaware and Pennsylvania, previously defeated West Chester 2-1 in another play-off game.

MSC Overcomes Glassboro

By Al Shepley
Staff Reporter

After falling behind, 13-0, at the half, the Indians of Montclair State bounced back to a 23-13 victory over Glassboro State last Saturday night on Sprague field. The Indians are now on the top of the New Jersey State College Conference standings with a record of 3-0. By beating Glassboro the Indians also gain sole possession of second place in the Eastern Football Conference and lift their overall record to seven wins and two losses.

In the action of the first half the Indians faced a double trouble, throw interceptions, drop passes and allow a punt to be blocked. Glassboro was ready and eager to take advantage of Montclair's mistakes.

Late in the first quarter, Glassboro defensive back Mike McVoy picked off a Bill Brunelli pass to set up the first of two Mike Castellucci field goals. Castellucci added a second field goal from 20 yards out after a 67 yard drive in the second quarter.

With four minutes left in the first half, Glassboro came up with their six pointer. The Indians were faced with a punting situation and on Montclair's punt, was sent out to boot the ball out of Indian territory. Glassboro tackle Al Harris, however, had other ideas and rushed in to block the punt. Glassboro lineman Vince Kuczynski then picked up the loose ball and scooted 22 yards for the touchdown. As the half ended the Indians found themselves on the short end of a 13-0 score.

When the Indians came back on the field in the second half they played like a completely different team and now it was Glassboro that was learning to make mistakes. With quarterback Kulikowski sidelined due to an injury the task of moving the Indian offense fell in the hands of Ron Gara. The sophomore quarterback wasted no time, moving the ball 43 yards in only two attempts.

In the third quarter the Indians of Montclair played a game that rivaled the 1969 season with a 12-1-1 conference record, 12-2-1 overall. The U. of P.'s record of 8-3 has allowed them to participate in NCAA divisional play-offs for the first time. Their defeat of MSC enables them to move up in the play-offs. On Fri., Nov. 21, they will face a tough Philadelphia Textile team. Textile, ranked first in New Jersey, Delaware and Pennsylvania, previously defeated West Chester 2-1 in another play-off game.

Panzer Coaches Council

Will Aid Communication

By Michael Traylor
Staff Reporter

In his small, cluttered office in the basement of Panzer gym, Tim Sullivan, wrestling coach and assistant football coach, answered questions concerning the newly formed Coaches Council. "Lack of communication among all the coaches and the athletic director," was cited as the reason why the council was formed on Oct. 30. As he spoke in his office last week, a picture of Vince Kuczynski, who played his best game of the season.

Sullivan feels that the athletic director still has the sole responsibility of policy-making and has the authority to change a policy but now he is consulting with the council," Sullivan stated.

Appointed on the advisory board were Dr. George Horn, associate professor of health and physical education; Clary Anderson assistant director of athletics; and Len Lucenzo head soccer coach. Horn was also appointed as a liaison between physical education and athletics.

Sullivan was appointed chairman of the council.

Sullivan feels that the athletic department has a bright future and adds that, "everybody concerned is trying to make this a successful reality." William Douglass, director of athletics, had this to say: "We're going to get more people involved and they're going to get a better understanding of this complex operation. Individual coaches will become more actively engaged in the overall program."
