MSC Shows No Go on Snow

Appeals Board
Will Halt
$5 Fines

By Celeste Fasone
Staff Reporter

Due to an "unjust" procedure in parking fines, the Students Appeals Board of the Student Government Association has declared that all campus parking tickets issued after Dec. 19, 1969 need not be paid. The students involved, stated Greg Doucette, SGA vice-president, need only sign the ticket and turn it into the Student Appeals Board in the SGA office.

The plan, recently approved by Dean of Students, Lawton W. Blanton, was developed as a result of a complaint brought to the appeals board, said Doucette. The complaint pointed out that only fulltime MSC undergraduates are obliged to pay parking fines. This procedure, called unjust by the complaint, exempts faculty, administration, evening students and graduate students from paying parking fines.

"Either everyone or no one has to pay fines for parking violations," commented Doucette.

The move to liquidate all fines was taken when the SGA's Student Relations Board asked the Appeals Board to approve all appeals until such time as the law is equalized, with both undergraduate full-time and all other MSC parking offenders paying equivalent fines.

Any ticket issued after Dec. 19, said Doucette, should be signed and turned into the Appeals Board until such time as a new plan, now being drawn up by the MSC administration, can be implemented. Once the plan is adopted, stressed Doucette, traffic violations will once again be valid, and must be paid.

Elsewhere in the traffic situation on the MSC campus, the first day of classes in 1970 saw massive traffic tieups due to the condition of the parking lots, which often had up to four inches of frozen slush on their surfaces. Delays of up to 30 minutes getting onto campus and 50 minutes leaving campus were reported during the day, with blocked cars in the main parking lots; double-parking on the pedestrian mall, opened due to inclement weather; parking on the road leading behind the library and Mallory Hall; and snowpiles taking parking places as the main obstacles to the normal flow of traffic.
Crimes Is Cahill's Biggest Problem

By David M. Levine
Managing Editor

There will be plenty of Inauguration-day gifts for William T. Cahill when he takes office as governor on Jan. 20 — crime, education problems, tax reform and new federalism.

He will have four years to unwrap them and figure out what to do with them.

The biggest package on the heap is crime, and its influence on the state. The governor-elect has chosen to remain silent about blue-ribbon investigations into alleged corruption in Newark's City Hall, but observers are saying that a thorough state-house cleaning will be in order during the early part of the 1970s.

Up for investigation this time is Hudson county where, according to informed sources, the mob has allegedly infiltrated several local governments. U.S. Atty. Frederick Lacey has indicated that investigations of Jersey corruption will continue "on all fronts" and has pledged renewed attacks on mob leaders and their "front men."

Education will take the biggest strides in New Jersey during the new decade. Student participation in forming college policy will play a key role and student views will be heard alongside that of faculty and administration.

Under the Richardson administration at Montclair State College, students have had opportunities to form decisions that affect the college as a whole including plans to reshape the Montclair campus into a multipurpose university.

Student and faculty senate will rise on the campus, forming an outlet for young and independently produced works not only youthful, but also universal appeal. They may replace theater and opera as entertainment.

Broadway this season has been little more than costly revivals of past successes with an occasional new talent-ed playwright. Worldly works off-Broadway will need financial encouragement in order to freely restructure the current theater scene. Possibly an increase in amateur productions in communities and independent professional theater groups will switch the emphasis from Broadway on.

Art will follow the direction it took in the 60s — a preponderance of fads will flare suddenly and burn quickly. Juxtapositioning of new talent-ed elements with highly artificial media will continue to reflect this aspect of our society.

Music will develop and expand excitingly with rock, folk, classical, jazz, and electronic experimental music forming on from and combining with one another. This mature merging may require the break-up of ridiculous divisions that presently exist among various styles and listeners of music.

Poetry will witness a decline in fiction and rise in non-fiction that will explore problems of living and suggest ways of adjusting to the changes that are affecting every aspect of life. Those in the news will continue to tell us how they made it — as an ex-priest, a black, an Indian, or a young female rebel from Ireland.

The real breakthrough in TV's future may alter with the moon in the 60s, his chances of finding a cure for the common cold in the 70s don't look too optimistic. The reason: the "common" cold is not very common. In fact, over 100 different strains of virus are known to cause the "common" cold. The key to stopping the sniffles may lie in a natural body substance called interferon.

Although man has reached the moon in the 60s, his chances of finding a cure for the common cold in the 70s don't look too optimistic. The reason: the "common" cold is not very common. In fact, over 100 different strains of virus are known to cause the "common" cold. The key to stopping the sniffles may lie in a natural body substance called interferon.

The pill, a major topic of discussion and research during the 1960s, has taken on another aspect of reproduction during the 70s: the detection of genetic defects and organ transplants in saving lives.

Cancer, killer of an estimated 325,000 Americans during the past year, is now considered by many researchers to be not a single disease, but many. As with the common cold, many men of medicine see cancer as being caused by viruses: more than 60 viruses are known to cause cancer in animals.

April '70 Census

Under Criticism

WASHINGTON — The decennial

WOMNMTCLARIOIM — count will soon take

while, commented Alice Gerts,

the government is

feared too much, according to a

Miss Gerts

and is

found in the early histories of

Persia, Babylonia and Rome. The

intention of the Roman survey of

5 B.C. was to determine who

should serve in the army or pay

taxes. It was usually to the

advantage of Romans to give

incorrect information thus

making for inaccurate ancient

censuses.

The April 1 census will go out

by mail to about 60% of the total

U.S. population in three different

forms. About 80% will receive a

short form of 23 questions; 15% will

receive the short form plus

another dozen questions dealing

with the birthplace and education

of the head of household, employment and income data of

everyone in the home over 14

years old; 5% will receive the same

amount of questions as those in the

15% category, but will also be

asked: “Do you have a flush

toilet?” “Do you have an

air-conditioner?” and “Do you

have a television?”

The forms will be delivered on

Sat., March 28. They must be dropped

in the mailbox on or after April 1. Postage will be paid

by Uncle Sam.

PUBLIC COEDS DISCUSS

Visitation Policy

By Barbara Jean Minor

Staff Reporter

“I am almost positive that if it is

not a show of God, it will work on

a trial basis for a while,” commented Alice Gerts,

vice-president of the female dormitory council. Miss Gerts, a

statured, soft-spoken senior, heads the committee that is
currently drafting proposals concerning the adoption of a

closed-door-visitation policy in Chaplin, Freeman and Russ Halls,

the three women’s residence halls

at MSC.

During a recent interview, Miss

Gerts revealed the latest developments concerning the

policy. Miss Gerts stated that she feels the closed-door-visitation policy, if accepted, will be

experimental at first, in order to
determine any specific problems that such a policy might present.

Miss Gerts said that the

committee heads, after studying brochures from several
colleges that have already adopted closed-door policies and

evaluating questionnaires that were filled out by dorm students,

have drawn up a general proposal
concerning a visitation policy. She

stated that although the women

of the residence halls voted several

weeks ago to adopt some type of
visitation policy, there is no
majority vote as to the rules that
would constitute such a policy.

She explained that as a result, the

committee is still discussing rules for

visitation hours, sign-in

procedures, conduct during

visitation and the handling of offenses.

Once “specific rules” are established and incorporated into the

proposal, it must then be

presented to the coordinators of

the residence halls and President

Thomas H. Richardson for
approval. She emphasized the

point that the committee is

drafting a general policy for

all three women’s dorms, but each

dorm will have its own rules.

She said the committee hopes

the policy will take effect next

semester.

Religion has experienced many
tough challenges and changes in the 60s,

but what do the 70s hold in store

for Catholics, Judaism and Protestantism in the United States?

Institutional religion will go through a kind of death,”

commented Father Thomas Davis,

adding that “dying is the means of coming alive again.

During an interview on a rainy

December morning, Davis, the Catholic chaplain for Montclair

State College, expressed his ideas

pertaining to changes in religion for the 70s.

Davis feels he students are not worried about institutional religion.

He stressed that he would like to see

the Church become “more involved in gutsy issues, such as

the problems of race, poverty and peace,” but he does not think this

involvement will materialize within the next 10 years.

The priest said he doubts that

the 70s will bring any tremendous

change in religion. The institutional church will probably be less
effective in the next decade. The 1970s are too close, but in the future, in the 80s or
90s, perhaps, deeply religious people will be concerned and will
eventually become united.

Hopefully, something will come out of this; perhaps this banding

together of concerned people will be the Church coming alive—

continued Davis.

Davis also mentioned the changes in the Mass, which are to

take effect April 3, 1970. These

changes will include an increase in

the number of Scripture readings in the Mass. He added that in the

70s there will probably be “more crossing of lines,” in which

Church leaders will be able to attend the

parish of their choice.

Rabbi Jeshaia Schneiter,

Jewish chaplain at MSC, expressed his

predictions for Judaism in the

1970s during a telephone

interview. He said he feels there will be a “closer relationship”
among the three branches of Judaism: Conservative,

Orthodox and Reform.

Schneiter explained that this relationship will evolve from the “whole

situation in Israel, and the

attachment of the people will be a

binding and a bridge to help

continue a much-needed dialog. The attachment of the people

will be a binding and a bridge to help

continue a much-needed dialog.

“I believe college students in

search for identity will be heard by the establishment. There will be a

great readiness on the part of the

establishment and organized religious leaders to hear their

voices and help them search for a commitment that goes beyond

themselves and a dream,” he

said.

Schneiter continued, saying that he believes the 70s will bring a “gradual, steady change” for the

Jewish religion. He said that in the future there must be much “work

diligence to meet the problems of blacks, peace and social justice, so the cry of hunger and

need will be heard.”

Rev. Robert Castle, Protestant

chaplain for MSC, was not available for an interview, but

in an earlier issue of the Montclair Clarion, Castle stated

that today’s society, which will also be the society of the 70s, is

“perhaps more religious than ever

before, not institutionally

oriented but concerned about real

problems and religious issues of

peace, justice and equality.”

Progress and Harmony”

Chosen Expo ’70 Theme

WASHINGTON — “Progress and

Harmony for Mankind” is the
theme of this century’s fourth

international exhibition set for

March 15 thru Sept. 15 at Osaka,

Japan.

U.S. and Japanese leaders are

confering here about American

participation at the world’s fair.

According to reports, the U.S.
government will spend about $10

million in arranging exhibits and

building a pavilion.

The American pavilion — which was designed by a team of

New York architects — is a

shallow-domed, elliptical structure

topped with an air-supported

roof. The roof covers an area

equal to the size of two football

fields and is made of a

vinyl-coated fiberglass material.

The material acts as a filter which

allows natural light to flow in
during the day and glow with

artificial light by night.

Reportedly, the U.S. structure

will be the lowest pavilion at the
fair, while the Soviet pavilion will be the highest. The Soviet and

U.S. structures will be at opposite ends of the fairgrounds.

The masterplan for the Japanese event was devised by

Kenzo Tange, an internationally-known Japanese architect, who

planned and rebuilt Skopije,

Yugoslavia, after an earthquake
five years ago.

In total, the fair is the largest

of the four other world exhibitions held during this

century — nearly 825 acres with

more than 65 nations participating.

HAVING A BALL: MSC students and dates enjoy the Christmas Ball, the annual CLUB sponsored event, held at the Manor, West Orange. Guests included Dr. and Mrs. Thomas H. Richardson and son Zachery (standing right of caesar.)

Staff photo by Jack McCarthy.
The Time Is Now

Our world is about to enter a new era with a new set of numbers. Now is the time to remake our individual worlds. Now is the time to make our collective worlds sparkle with a sense of purpose to the problems of the past. Now is the time to reform.

A joyous and peaceful new year from the MONTCLARION.

State of the ‘Clarion

It doesn’t seem possible that over a year has passed since Janet Caruso wrote her “State of the Clarion” message and David M. Levine and I wrote our upcoming plans for the 1969 MONTCLARION editorial board.

In 1969, we, the now outgoing editorial board, took it upon ourselves to change the face of the MONTCLARION. And that we did beginning with only two front page stories, one of which dealt with the inauguration which ran counter to the inauguration of Richard M. Nixon.

Further along, College High began its phase out and the dormitory fees were increased by $182 announced by a five-column picture hailing, “Hell No, We Won’t Pay.” The Indian Five journeyed 1500 miles to Evansville, Ind., to bring home a National Collegiate Athletic Association eastern regional championship.

President Thomas H. Richardson announced approval of a joint statement on campus rights and responsibilities. Webster and Stone halls opened their doors on weekends only to females and while Camp Wapalanne shut its doors to MSC students as the camp experience was permanently discontinued. Groundbreaking for MSC’s 16 story dormitory began and students as the camp experience was permanently discontinued.

I am very satisfied that we met out weekly publication date with three twice-a-week publications during the spring semester. The day for a twice-a-week publication is at hand and students should demand such a publication.

Right now our college is in a changing atmosphere which means its students are also changing. And it is only fair to admit that there has been some opposition to some of the things that this editorial board has been trying to do.

It is often hard for a number of students to understand why we have abolished traditional Montclarions. How does one justify to the students and sometimes the faculty and administration, a decision made by one person. It is not easy. But we aren’t irrational people who give no thought to what makes page one. We are people who become aware of something and want everyone else to be aware of it, too. We recognize that not everyone will agree with our editorial point of view; we don’t want everyone to. But we are asking for an awareness of what we are trying to do.

I know this has been a very fulfilling year for me. I know the 1970 editorial board will be safe in the capable hands of David M. Levine, editor-elect. I accept the fact that there will always be opposition to face no matter what we as human beings want to change. But if our desire for change is strong enough I believe we can overcome any opposition.
1969: A Year in History

PEACE FOR ALL — Amid protest and pomp, Richard M. Nixon is sworn in as the 37th President of the United States.

MOUSE THAT ROARED — West Indian island of Anguilla raised a fuss over its colonial status when the U.S. government was accused of trying to restore the traditional calm.

IKE DIES — International personality of the past the plain GI coffin in tribute to Dwight David Eisenhower, 34th U.S. President and famed World War II leader.

GOBYDE, CHARLIE — French President Charles DeGaulle calls it quits after voters give his plans a “Non.”

SAINTS GROW MARLIN’ — 200 Catholic Saints exit because the existence of some of them.

OCT. 15 — The antiwar moratorium makes headlines in the London Times, while.

NOV. 15 saw thousands march on Washington in protest of the Vietnamese war.

MOON MAN COMES HOME — Man’s native son returns to his hometown and the MONTCLAIRON releases a special color edition.

SPIRO SPEAKS — Mr. Veap has a few choice words for the “fat and irresponsible press.”

DUMPS HAYNSWORTH — The Senate dumps Clement Haynsworth as Nixon’s choice to fill vacant seat on Supreme Court.

DE GAULLE QARTS

Thousands Mass to Protest War

Karyn Sauvigne: Opinion Right

Out of Hiding

Spiro Agnew has been called everything — “one of the greatest political leaders of our time” to “a substitute for George Wallace,” but he is definitely no longer an unknown quantity about Washington.

After his recent remarks about tv commentators, his mail was running 40-1 in his favor, and his more recent addition of the media-bias issue.

He has opened a dialogue in this country that has been all too long in the coming, and the networks and the press are certainly very defensive on the issue. While the accusing the media of dispersing a highly selected and often biased version of the news, he added that they fail to distinguish between news and commentary or editorial.

OPPOSES CENSORSHIP

Rebuffing the networks on Nov. 13 and the press on Nov. 20 does not amount to a threat of censorship, he added.

Perhaps the mass media were to become aware of the way people feel and to sense the discomfiting power that the people could exert, they would adjust their policy.

SAUVIGNE

b) the industry should be more concerned with informing the public than with brainwashing it;

c) news, as factual information, does not require interpretation before it can be consumed by the public.

CGER OF "GET"

Let it be made clear that bias on the part of right-learning coverage is ill-advised and is only acceptable now as a welcome change of pace. If reporting were to become less slanted this should affect all the disseminators of news.

Not that any of these changes are to come to pass — for the media are still and must remain privately owned and operated — but it is encouraging to know that objections have been voiced and dialogues initiated.

Perhaps if the mass media were to become aware of the way people feel and to sense the discomfiting power that the people could exert, they would adjust their policy.

Standard IQ Tests May Bow Out

Claim Test Lingo Is ‘Alien’ to Ghetto Kids

WASHINGTON (CPS) — Standardized tests will go the way of school segregation if some of the educators have their way.

IQ tests now given in schools, they argue, are designed for white, middleclass children, and represent an alien world to kids who grow up in the ghetto.

Questions asked on the standardized IQ tests, for instance, assume that all children have fathers, know what a tree is, and live in middle-class educational backgrounds while learning opportunities vary greatly between middle class and ghetto children, he says.

Robert Coles, a Harvard psychiatrist, feels standardized IQ tests are a mockery when used with ghetto children. "My children would flunk their IQ test" if one were devised on the experiences and the "rich and vibrant" language of ghetto, he declares.

Coles goes further and charges that intelligence testing in general is a "naive" and "simple-minded" way of looking at human beings" of all colors and races.

The mounting controversy over IQ tests has spilled over into the entire field of testing. There is a growing body of educators who feel all, or at least most, tests should be discarded. It is argued that tests stifle the joy of learning and the drive to find out the "why" of things — particularly among ghetto children who find white, middle-class-oriented tests to be all but insurmountable obstacles.
When Richard M. Nixon was inaugurated as the 37th U.S. President on Jan. 20, 1969, he brought the silent majority with him to the White House. On the continent, Charles DeGaulle resigned his French presidency. Great Britain's Prince Charles was invested as Prince of Wales. Montclair's own Edwin E. Aldrin Jr. became the second man to walk on the moon. Buzz came home on Sept. 6 for a Montclair welcome celebration.

The nine year old Mets brought a world series pennant to New York. The world said farewell to Dwight Eisenhower, Everett Dirksen, Judy Garland and Walt Disney. They were almost ready to say farewell to Beatle Paul McCartney. New York City Mayor John Lindsay reelected and Newark Mayor Addonizio indicted. The world found out who Spiro T. Agnew is. The Fantasticks enters its 10th year. The Vietnam death toll marks its 40,000 man. The war goes on...

"DO YOUR OWN THING, baby": the rocking Apocalypse get confused over identical twins at the Papermill till Jan. 11

Black search for new America

Books on the recent history of the world, or the United States or the government of said country are fairly easy to come by. No good writer worth his publisher has overlooked delving into the implications of recent events. Julius Lester, author of "Look Out, Whitey, Black Power's Gon' Get Your Mama!" is the newest addition to that list. Julius Lester is also the most successful.

The book is entitled "Search For A New Land," published by Dial Press. It is billed as the subjective history of the United States since 1945 - the dropping of the bomb on Hiroshima, to be exact. It is the tracing of events since that infamous day in three parts: the actual historic occurrences; his own autobiography, with comment on the times; and what he calls "found poetry," newspaper items in poetic form.

There is no doubt that this is the most important historical document of black thought to appear in a rock group - Violin as "Charley" and Sebastian as "Sebastian. And all goes well until Charley finds herself (himself?) in love with the group's manager and Sebastian is mad about the lady discotheque manager, who is being courted by the rock group's manager.

There is something familiar about mistaken identities. I believe it is perhaps the most used plot since 1500, when old William first depicted it on a piece of tree bark (or something of that nature) But that did not harm the hilarious laughter available in this production.

While the production starts a little slow, by the time the rock group appears at the discotheque, it is well on the way to a great production. The only other complaint is in a slight datedness in the use of language and people appearing (there is a constant appearance of the late Everett Dirkson, talking about the sociological implications of confusion between the sexes.

Otherwise the show is fantastic, featuring the quotes of John Wayne, Humphrey Bogart, Pope Paul, Buddha and Jesus Christ (hey boy! When you gonna get a haircut?"

The songs, though a far cry from the "rock" it claims to be (with the exception of perhaps do wina dance crazes), are enjoyable to say the least, with the favorites of this reviewer being "She Never Told Her Love" and "Don't Leave Me."

With less than a week to go in the limited performances (the show closes Jan. 11), it might be difficult to see this Millburn Rock Festival. But you'd be doing yourself a favor if you do.

It's Philly for 'Marat'

Montclair State's production of "Marat/Sade" has not been persecuted. It has been rated as the top production of the east coast this Fall in the American College Theater Festival and as such will be performed in Philadelphia as a regional finalist on Jan. 17.

In order to raise money for transportation costs, Players will hold an open dress rehearsal in preparation for the contest, at which time students will be able to give a donation toward the trip to Philadelphia.

The actual performance for judging will take place Saturday evening before the audience of the Philadelphia Convention. Members of the panel of judges are actors and critics, including Harold Hughes of the Saturday Review.

The play "Marat/Sade" was hailed by the MONTCLARION as an outstanding production and a sure winner.

The 70s are upon us

Review By Don Pendley
Features Editor

"I write because I like to. Sometimes it even makes me happy."

This is Shirley Kaufman, perhaps the best-known of the 35 "unrecognized poets" of the last half of the 1960s included in "Quickly Aging Here," an anthology edited by Geoff Hewitt and published by Doubleday-Anchor.

While the works are involved in the anthropology, according to Hewitt in his introduction, "a representation of some of the best poetry that was being written by unrecognized poets during the last half of the sixties."

Fortunately, the works included did not fall into what Hewitt calls the "crave it, think it, have a method of writing, just do my thing" school of poetry in which one can categorize much of what is being written on college campuses. A friend of mine once called it "masturbating on a sheet of white."

The "Quickly Aging" poets avoid this pitfall.

What is found within the works is a great concern with the earthly, not the ethereal. The poets of the 70s are involved with the man off the marketplace - the natural, not the supernatural.

"HEART" an earthen sound:
60 seconds later
the two all-clear whistle notes
"BRAIN" a flashlight
looking through the empty limbs
(from "Body Poems" by Coleman Barks).

The writing styles of the "Quickly Aging" group shows the disregard (perhaps disdain) of the contemporary writers for the strict, fast rules of grammar and punctuation. The forte is content. States Hewitt, "One poem" that hides no argument... fails to draw me into a second reading. As beautiful as their sentiments might be, the Rod McKuen school of poets strike me as belonging within this wide class.

The poets of the 70s are involved with something larger than themselves (or is it, really)... in a bolder manner than did Spender, and perhaps Auden, earlier in the century... they are involved in the world around them, and so are their works. Hewitt says that changing the world might be a function of poetry. At the least, these poems are a reflection of the world which caused the writing of the poems.

However, what seems to evolve from this involvement is a new image of the artist. Now, the artist is not one who takes feathered pen in hand and writes on parchment, but instead is one who writes of the normal life - that in which we all live - that which is the raison d'etre of the artists of the 70s.

I had gone to see a fortune teller
She was an old woman and she held my hand
for several minutes... . . .
She said
"You're afraid, very afraid"
"You don't know who you are"
"You'll be with us a long time"

(Craig Sterry).
Calabrese Smiles and says the News will slowly be depleted.

Levine, a junior history major, has been editors of the MONTCLARION for two years and serves as a writer for The Herald-News.

The news-features department will be headed by former Zuckebrod, a school correspondent for The Asbury Park Press and Freehold Transcript. Miriam Taub, present editor-in-chief of the MONTCLARION, Mike Taylor, Sophomore English major, and Susan Dominiki, a reporter with the MONTCLARION for the past two years.

Drum and arts editor is Roberta Kuehl, Sophomore English major. Miss Kuehl has served as a reporter and news editor for the MONTCLARION during the past two years.

The Montclarion Magazine will be under the direction of Mrs. Patricia Lust, a graduate of Katherine Gibbs secretarial school. Picture editor of the MONTCLARION is Morey Anteli, a freelance photographer.

**Suggest Student Drug Course**

By Linda Monaco  
Staff Reporter

Formation of a drug policy and an educational course on drugs to be offered to students, faculty and administration were two ideas discussed in a recent meeting of the drug committee and the psychology department.

The proposal under discussion for a drug policy states that "Montclair State College disapproves of the illegal possession and or professionally supervised use of drugs by any member of the College community." According to the proposed drug policy, each individual case of drug use on MSC's campus will be dealt with according to the circumstances of each specific case. The proposal also provides an opportunity for general counseling for any persons who have taken or are taking drugs illegally.

Dr. Doris Kramer, assistant professor of psychology, suggested that a rationale on why drugs are damaging and why the college is taking action on this particular illegality be included in the final policy.

Plans for an educational course on drugs was brought up by Sharon Wancho, chairman of the educational proposal subcommittee and SGA representative. She suggested that the proposed course be run by students with help from faculty and informed people outside the campus. She felt that by having the course run in such a manner, more students would be open to information on drugs.

Miss Wancho also suggested that it be an evening course running approximately 11 weeks, and that those students participating in the course be given three credits on a credit/no credit setup similar to that of the action studies seminars.

Mr. Jon O. McKnight, director of student activities, supported the proposed educational course on drugs. He reminded all that as it is now, MSC is predominantly a teacher education college and that such a course on drugs would provide valuable information to students who will be future teachers and who will be dealing with drug use among their students.

Dr. Constance Waller, associate director of students, said it is important that the final drug policy state MSC's stand on drugs since the policy will be included in the MSC catalog.

**WVMS Builds Control Board Worth $10,000**

By David Kerr  
Staff Reporter

How do you turn $2000 into $10,000? WVMS has done just that by building a new control board over the summer at a cost of $2000 that is now worth $10,000.

With funds provided by SGA, WVMS set to work last spring buying components for the board which is customized to the specific needs of a campus radio station.

Despite the absence of engineering students at Montclair, the station still decided to build one instead of buying one. George Steinmetz, WVMS consulting engineer, was in charge of the building procedures. Steinmetz, a graduate of MSC's industrial education and technology program, is currently a teacher at River Dell High School.

"It is very much like a lot of control boards, but is also unique in many ways," said Steinmetz. It is fashioned like many commercial control boards, utilizing the best features of all of them.

The board is complete with two channels which provide a complete back-up system in the event of a failure of its power supply. Most of the components in the control board are plug-in units that can be changed in a matter of seconds in the event of such a failure.

"The control board, when compared to commercial models now available on the open market, is worth about $10,000," stated Steinmetz.

"The board has 10 inputs. This leaves us room for four cartridge machines, two tape recorders, two turntables, three microphones, and separate remote channel for basketball games and the like," explained Steinmetz.

Because WVMS builds a control board this summer, they also increased their power from 35 to 80 watts through the purchase of three new 20-watt transmitters. Also, the organization obtained a new cartridge machine and another tape recorder. "We also painted our studio," he added.

**Bus Lines Resume Local Service With State Aid**

By Edward Pye  
Special to the Montclarion

EAST ORANGE -- Two local bus lines have been re-established by order of the State Transportation Department, and officials are working out finances.

A county-state subsidy had been granted to the Trackless Transit Company of East Orange to operate bus routes 64 and 76. The total subsidy of nearly $50,000 has come from the state with contributions from the towns of Montclair and East Orange.

July 1 has been set as the cut-off date for these subsidies in the hope that the bus lines will become self-supporting, according to a state transportation spokesman.

Service was suspended on both lines last March by order of the Public Utility Commission. The commission reported that the buses were functioning with poor equipment and did not meet its regular schedules.

Pressure to restore the bus lines came from East Orange residents who worked in Montclair, including students from Montclair State College headed by TRY Director Delford Jones.

Route 64 restored service on Nov. 3 and runs from Central avenue in East Orange to Montclair via Bloomfield avenue, through West Orange and back to Orange over High street into Lackawanna plaza.

Route 76, which resumed service three weeks ago, follows the same route as the 64, but passes Montclair's Mountainside hospital and on to the college at Normal avenue.

Special Offer to girls who aren't coming back to campus next semester:  
The World.

You want a job, we're offering the world.  
As a TWA hostess.

And unlike most of the other airlines, when we offer the world, we offer the world.

And when you see the world you way, you not only see it, you get paid for it. And you get enough time off to enjoy yourself. There's just one thing. A lot of girls are taking us up on our offer. And while there's still plenty of world to go around, it's not going to last forever.

So what you better do is call (212) 421-3700. Right now.

The world waits for no woman.

Be a TWA Hostess.

It's like no job on earth.
Gymnasts Prep for Home Opener

Lose Season Start
Against Southern

The Montclair State College gymnastic team will face its opening home meet against a tough United States Coast Guard Academy, on Sat., Jan. 10 at 2 p.m. in Panzer gym.

The Indians are looking forward to this meet after having dropped their season opener against national powerhouse, Southern Connecticut. Last year, SCSC was rated second in the nation and this year has an excellent chance of taking the NCAA college national title.

Despite the opening loss, Terry Orlick, gymnastic coach, feels his team did a good job as it came within one point of qualifying the team for the college national team championships.

The MSC gymnasts have just gone through the National Gymnastic Clinic which was held in Sarasota, Fla. The chance to work out over the Christmas break has given the team preparation for Saturday’s upcoming meet. “I think we are ready and having our home court here will make us that much more ready,” said Orlick.

Orlick expects good performances from all of his men. So far Nels Jensen and Ron Poling have been the team’s individual standouts. In the Southern Connecticut meet, Jensen scored an 8.05 on the high bar and 8.35 on parallel bars. In a practice meet against Army’s varsity, Poling took first place on rings with an 8.35 and first place on parallel bars with an 8.15.

Dave Garreffa, Bill Balogh, both all around performers, are now performing up to par after being slowed down by minor injuries. Balogh’s best events are floor exercise and rings. By the conference championship meet he will be a strong contender for the all around title. Orlick noted that Balogh “has great potential and is a very hard worker. He is also strongest on side horse which is the strongest event for all around men.”

Senior Dave Green excels on floor exercise, long horse and high bar. Green placed second in the all-around in the conference championship meet last year.

Russ Spencer shows promise this year and Orlick attributes it to the fact that “this year he wants it and he’ll get it; 90% of this sport is in the mind. You have to develop confidence and is self-assurance.”

Roger Brown should be a standout on floor exercise. Joe Garreffa, ace side horse performer, should be the stabilizing force on the side horse.

Senior side horse specialist Bob Day was sidelined for the first meet. He should be ready for the home meet against the U.S. Merchant Marine Academy.

Tom Dillon will be a great addition to the ring team this year. Orlick noted that “each week Tom gets better and better. He is very strong and has all the ingredients which make up a top ring performer.”

Ed Kuhn who competes in four different events, has been working extremely hard to make up the three weeks of practice he missed due to illness. Kuhn is a very self-assurance.”

HIGHLY RATED SPECIALIST: Dave Green on the high bar. Important member of the team in terms of balancing out the squad. According to Orlick, Kuhn “has great ability and is a very classy performer.”

Rich Kroom is a strong performer in both floor exercise and long horse vaulting. John Molter will be representing MSC in floor exercise and Mark Rudnick will be working rings.

Right now the gymnastic team’s strongest even is parallel bars, led by Jensen, Poling and Spencer. Any competitor will have a tough time beating MSC’s parallel bar gymnasts. Orlick attributes this to the fact that “our gymnasts do more routines on this in practice than on any other piece of apparatus.”

Name Lucenko Coach of the Year

Soccer Coach Len Lucenko has been named the Coach of the Year by the N. J. State College Conference for the second time. Lucenko has been soccer coach at Montclair State College since 1966.

Lucenko’s interest in soccer began in the Ukraine where “everybody plays soccer.” He was captain of Temple University’s soccer team prior to playing for the Newark, New York and Philadelphia Ukrainian soccer teams. He had been assistant coach for Pratt Institute’s soccer team before becoming head coach at MSC. Since 1967 he has directed the all-American soccer camp in the Catskill Mountains and in 1969, Lucenko shared honors with the U.S. Naval Academy Coach Glenn Warner at the soccer clinic at Lenox, Mass.

The 1968 All-American, Arvi Saar has been named to the team for the fourth consecutive time. Teammates John Smith, Roman Hanych, George Chapell, Bill Kardoba, and Jean Charles have all been named to the team for the third time.

Receiving honorable mentions were John Shumais and Joe Sallemi.

MSC Regains Kiwanis Crown

By Mike Galos
Staff Reporter

Led by the fine all-around performances of junior Harry James and sophomores Phil Baccarella and Tod McDougald, the Montclair State College basketball team captured its third New Jersey Kiwanis Classic crown by dumping arch-rival Monmouth College, 75-65.

The Indians won the initial tournament by beating Fairleigh Dickinson-Madison in 1966, and nabbed the first place trophy in 1967 by edging Monmouth, 78-72 in overtime. The Hawks, led by Ron Korneget, got revenge last year, winning 77-64 in the final game.

A 6-1 East Orange native, James scored 46 points in the three contests and was voted the most valuable player of the tourney by a group of sports writers and officials. He was the key to both the Indians’ fast break offense and pressure defense and brought the crowd to its feet time and again with his spectacular passing, long jumpers from the outside, and unbelievable body control on driving lay-ups.

Only the great performance by James kept Baccarella from gaining MVP honors. Starting in place of injured Captain Bob Sienkiewicz, Baccarella scored 78 points in the three contests, a 26 per-game average. He also recorded the high single total when he poured in 33 points against Southampton in the opening game.

Although not scoring at the pace of the others, McDougald’s true value was on defense. He scored 28 in the first two games and only two in the finals, but was voted the most valuable player of the tourney by a group of sports writers and officials. He was the key to both the Indians’ fast break offense and pressure defense and brought the crowd to its feet time and again with his spectacular passing, long jumpers from the outside, and unbelievable body control on driving lay-ups.

The second half of the Monmouth contest to hold off a late rally by the Hawks. Mooney scored 10 against PMC, and Waller 11, to provide a spark when the starters needed a breather, and Moss was at his best in the finals, scoring 10.

Baccarella and James headed the tournament all-star five. They were joined by Monmouth’s Ed Hallick, Willie Prall of Upsala, and Wally Rice of PMC. All, except James, are sophomores.

Monmouth’s Barone, was voted the tournaments sportsmanship award. The senior guard set a national foul shooting record in the finals, scoring 10.

The Hawks superior height was the key to both the Indians’ fast break offense and pressure defense and brought the crowd to its feet time and again with his spectacular passing, long jumpers from the outside, and unbelievable body control on driving lay-ups.

Overshadowed by the above trio, were the performances of Bob Heck, Bob Mooney, Willie Mooney and Ken Waller. Heck, a 6-0 soph, hit for 15 points in the first half of the Monmouth contest to hold off a late rally by the Hawks. Mooney scored 10 against PMC, and Waller 11, to provide a spark when the starters needed a breather, and Moss was at his best in the finals, scoring 10.

The Hawks disposed of second-seeded Drops, 93-59. New Haven’s All-America Ron Riorden, brother of Mike Riorden of the New York Knicks, scored 19 points even though hobbled by a pulled muscle, but little guard Bill Battle was the favorite of the crowd as he seemed to leap six feet in the air and hang there forever on his jump shots, eight of which ripped the chords as he led a second half comeback.

He’s Most Valuable: Mr. Joseph Franklin of the F. and M. Schaefer Brewing Co. (left) presents Montclair State’s Harry James with the most valuable player trophy for his all-around performance during the New Jersey Kiwanis Classic. Queen of the Classic, Sherie Nyman of Upsala College stands, right.

Hitting the Hawks: Bob Heck jumps for a corner shot. He added 15 points to the Indian score in the second half of the Monmouth contest.

Montclair State broke open a close contest by scoring 55 points in the second half to drub Southampton, 94-68. In the semi-finals, the Indians played almost a flawless game and dropped first-seeded PMC, 93-59. The Chester Pa., team was the pretourney favorite because of its 10-1 record and great height, with 6-8 Cedric Geter, 6-7 Mike Studzinski, and 6-5 Rice leading the way. But the Indians used hot shooting and tough defense to come back from a six-point first half deficit. James, Heck and Bruce Davis stole numerous passes and converted them into buckets and lead the Indians into their annual confrontation with Monmouth. The Hawks and Indians have met in the last three Kiwanis Classic finals.

The torn ligaments suffered by Sienkiewicz in his right ankle should be healed by the start of second semester, by which time he may be in for quite a fight to regain his starting berth. It was thought before tournament time that his injury could hurt the MSC chances in the tourney, but the hot-shooting Baccarella did more than an adequate job.

Now 10-0, the Indians tonight play host to a Jersey City State quintet in a New Jersey State College Clash, then take to the road for a NJSCA tilt with Glassboro on Friday, and to meet a tough University of Delaware five on Saturday. In sight is the all time MSC streak of 16 straight victories, set in 1954.
