**PARKING EDITORIAL**

**All But Two Think Something's Wrong**

Of the 299 students responding to the MONTCLARION parking and security petition through Wednesday, two felt that there was nothing wrong with the current parking situation. One of the two commented that “I am of the silent minority.” The other remarked that “My opinion is not valid. I am a Montclair reject.”

The MONTCLARION published an editorial last week calling for student reaction to the current parking and security situation. Students were asked to return a coupon identical to the one elsewhere on this page. Of the 299 returned coupons, 252 thought that the “mudflats” between Finley Hall and the fine arts building remain open at least, until the end of the semester. Paving the gravel lots was advocated by 29 MSCers.

Improvement of the road between Webster Hall and the music building was checked by 263 students. A more regular patrolling of the campus by security guards was called for by 247 responding. Adequate lighting in the Webster Hall lot and the quarry was requested by 262 students, and pothole-filling around campus was endorsed by 286.

Actually, the response might have been much larger — but one of the boxes in which students placed their coupons was missing when the boxes were collected Wednesday morning.

Various suggestions were voiced by those responding. Elimination of faculty spaces was recommended by 78 students. Improvement of security, improved snow removal, transportation to the quarry and elimination of parking tickets also received moderate support. And, of course, the humorous — but potentially serious — responses came in. One student suggested “throw Benitz in the quarry.” SGA President Thomas Benitz — a dorm student — is one of three regular student members of the all-college parking committee.

One student wrote to us that he was lost in a pothole. Another suggested auction of parking spaces to the highest bidder. Still another merely pleaded: “Do something!”

When we feel that the MONTCLARION has received sufficient answers to the petition, we’ll attempt to meet the parking committee and get some of your problems solved.

Once more, you can help. If you didn’t fill out the form last week, it’s published again, here on the front page. Check off what you think is right or wrong and drop it in one of the boxes marked “MONTCLARION petition” scattered around campus.

**THR: 'Grad School Cut Is Alice in Wonderland'?**

By M. J. Smith

Master Plan Correspondent

“It may seem like Alice in Wonderland but our graduate school may be terminated in six months” Dr. Thomas H. Richardson, faculty member of MSC, said to a faculty meeting held Tuesday.

Discussion of Phase Two of the state board of Higher Education’s Master Plan was the major topic at the meeting. Phase Two proposes, among other items, that all existing state college graduate programs be eliminated and a Graduate University of New Jersey be formed. It also suggests a 7500-student maximum enrollment at each state college.

The Master Plan’s Phase Two has received strong criticism from New Jersey educators. In order to involve the faculty, a panel of Montclair State VIP’s who have researched into the background of the plan presented their statements at the meeting.

Dr. Walter Heilbronner, MSC Vice-President for Instruction, deplored the idea that state college faculties were asked to develop concrete suggestions on the Master Plan in four weeks, when the Board of Higher Education has had three years.”

“There is no rational explanation — indeed, no explanation at all — for the 7500 enrollment ceiling,” he added. Also, Heilbronner pointed out that the data used in the report was compiled in 1968, although more recent figures were available.

Commenting on what is seen by many as an arbitrary maximum enrollment figure, Heilbronner said, “It takes $3161 to create space for a new student at an existing college, and $7500 at a new college. Perhaps they just dropped the dollar sign and made that the enrollment goal. Anything is possible.”

Furthermore, he stated that the document was drawn up by the board’s planning committee, which is staffed only by one professional educator, who had little experience in planning.

Also, Heilbronner said that the only study of an existing cooperative university (similar to the proposed Graduate University) made by the board was a 1½-hour interview with the president of City College of New York.

The plan was conceived in a spirit of contempt for everything the state colleges stand for,” stated James Pettegrove, English professor and representative for the faculty. “It is ingeniously contrived to stamp out individualism.”

---

**MONTCLARION Editor-in-chief**, represented student opinion on the panel. The junior English major said that, since the plan called for a high level of specialization in only several fields in each state college courses in non-specialized fields will be limited in number and faculty quality. This would gravely affect the general education and liberal arts aspects of student course selection,” Pendley said.

Dr. Houston G. Elam, Dean of the School of Applied Arts and Sciences, went on to explain the deficiencies in the plan.

“There is one footnote which modifies the enrollment ceiling — Jersey City may not get that large,” Elam pointed out that there are no guides, sources, no bibliography and no appendix in the 118-page paper.

In conclusion, Elam commented, “However, if we don’t do something, we’re going to end up with GUNJ. You know, Graduate University of New Jersey – GUNJ.”

College Leaders Knock Phase Two at Open Meet

By M.J. Smith
Master Plan Correspondent

NEWARK – Creation of a state-wide Graduate University of New Jersey came under fire at the second public hearing of Phase Two of the New Jersey Master Plan for Higher Education.

The proposed Graduate University would eliminate existing graduate programs at all state colleges and all campuses of Rutgers University except New Brunswick. Instead, certain graduate programs would be offered at certain colleges, and faculty members concerned would teach part time at a state undergraduate college and part time at the graduate university.

The hearings were held at the Montclair college. Hazel Neuberger, state Higher Education board member and hearing chairman. Mrs. Neuberger had heard of the latest attack, in front of Mount Hebron cemetery on the night of March 13. An unidentified young man grabbed her and tried to drag her into the cemetery. A passing car frightened the assailant away before he could harm her. Despite the girl’s screams, several people waited at a bus stop across the street made no move to help her.

The girl reported the incident to Joe Kloza, international and off-campus learning center director. He notified Daly, who in turn alerted the Montclair police. Kloza said he was angered and deeply upset by the incident. "The girl came here because she had been told this was a land of freedom and opportunity," he said. According to Kloza, the girl was almost more upset by the apathy of those at the bus stop than by the attack itself.

"SHE WANTED to see how great America is," Kloza explained. "Now she realizes that this is the American way. People don’t care – they don’t want to get involved. It is pointed out that the car which frightened the attacker hadn’t to actually stop, it had just slowed down, probably out of curiosity. "The girl could have been killed, for all anybody cared," he said.

The coed described her attacker as between 5’4”-5’6”, wearing a hooded brown parka and looking unshaven. She was unable to see his face clearly.

The sketchiness of her description makes it difficult for the police to apprehend the attacker. Even if they did, Kloza feels, it would do little good. "The suspect would probably be acquitted for lack of evidence," he said. "It would just be her word against his.

SINCE THE attack occurred off-campus, there is little the college can do about it, according to Daly. He said the Montclair police are "aware there is a problem" and are increasing patrols in the campus area. He explained there have been sporadic attacks on women in the town, but the problem had only recently reached this area.

He emphasized that campus security is doing everything in its power to provide protection for students. According to Daly, the 24-man force of 18 police officers, three shifts, 24 hours a day, seven days a week. Because Daly believes there is "surprise," the patrols are not on a set schedule.

He said that the new student patrol will be a valuable asset to the force, which he admits is "vulnerable." He said that Daly and the director of campus security are under the direction of fellow students Richard Huckel and James Keenly, who will patrol from 10 a.m. to 5 p.m. "The only way to keep during that time is to keep students informed and reporting to Daly and issuing summonses. The force will be in operation in about two weeks.

Form Group
Graduate students
Defy Extinction

Despite a threat of extinction due to Phase Two of the Higher Education Master Plan, approximately 50 Montclair State graduate students passed a constitutition forming the Graduate Student Organization at a March 9 meeting.

The GSO constitution was drafted by an interim committee organized last May. According to the constitution, the GSO is designed to act as a representative body for MSC’s approximately 4500 graduate students. It will also handle social and cultural activities and promote programs for the benefit of the graduate student and the college.

THE IMMEDIATE concern of the GSO in Phase Two of the Master Plan, which would consolidate all graduate programs existing at individual state colleges and develop a Graduate University of New Jersey. Under this setup, MSC’s facilities and faculty would be utilized, but the college itself would have no control over the program.

Dr. Howard Fox, GSO adviser, termed the proposed graduate university a "paper organization." MSC President Thomas H. Richardson called the proposal "unacceptable, unbelievable and indefensible." He said that if the plan were a from the college at large, it, in its graduate school and concentrate exclusively on the under the direction of all the county college at large. It, in its graduate school and concentrate exclusively on the under the direction of all the county college at large.

The next scheduled GSO meeting is April 28, for the ratification of the Constitution.

SST Fight Comes to Campus
Conservation Club Says Aircraft Is A Hazard to Environment

By Cecelia Feicho
Staff Writer

Continuing protests on the part of conservationists against the proposed Supersonic Transport (SST) aircraft have been questioned whether an agency should be permitted to complete a project if it is potentially dangerous to humanity. And the anti-SST fight has a Montclair State battleground.

According to Frank S. Kelland, adviser to the Montclair State Conservation Club, the SST, designed to provide for faster-than-sound transport, will have "a tragic effect upon our environment.

A spokesman for the Sierra Club, a nationwide conservation organization, claims that "a fleet of 500 of these aircraft would consume the nation’s petroleum supplies within 20 years."

KELLAND ADDED that the SST "will not contribute to the economic balance within the earth’s hemispheres, and the increased air pollution it would cause would result in drastic changes in many areas."

Mrs. Vera Brenton, Conservation Club secretary, expressed concern over the effect the SST would have on marine life, in view of the fact that it would handle extensive ocean transportation.

Kelland considers the SST to be a "poor investment" for the taxpayer. He believes the existing commercial aircraft in the United States is not being utilized to the fullest extent, and money for the SST would be better spent on surfact transportation improvement throughout the country.

"WHETHER OR not the SST will be completed depends largely upon a House-Senate committee formed to investigate the project. The committee had agreed governmental spending on the aircraft should not exceed $120 million. This estimate has risen, however, and the final cost could reach the $3 billion mark, Kelland said.
Spring Has Sprung...

MONTCLAIR, March 2 - The lazy, hazy days of spring seem closer than ever today when barefoot gossoon and contessa can take to the heather of campus and field. March bleated in like a lamb this week instead of the roar of the traditional lion...BULLETIN: BLIZZARD WARNINGS HAVE BEEN ISSUED FOR THE GREATER METROPOLITAN AREA...

The Grass Is Riz...

"STUDYING BIOLOGY-FIRSTHAND": A young coed decides to take a break between classes when spring seemed to arrive early on campus as temperatures nearly reached 60.

"LOOK OUT, CHARLIE": Lacrosse fans suffer from spring fever.

"VISIBILITY ZERO": MSC coed is blinded by sudden storm.

"WOULD YOU BELIEVE ICELAND?": The ice and snow transforms Sprague Library and the pedestrian mall into an Arctic wasteland two days after students celebrated an early spring.
Roselle Catholic Boys Regional High School was only five years old when I entered in 1963. There was an old orphanage on the ground which was used as a Library. We had to change for gym in a classroom. The "charm" of our school was that it was all-boys (at our age, who liked girls?) and nearly 75% of its graduates had gone to college (there had only been one senior class).

By the time the orphanage was gone, we changed into a locker room and nearly 90% of the graduating classes had gone to college. We had seen three principals in four years and it seemed as if 50% of the faculty disappeared each year.

Today, nearly four years later, the scene is much different. There are many obvious, superficial changes ... such as the constraining WRFM music gently lifting as you sway thru the halls and offices. There is a jukebox in the cafeteria offering the latest in hits, replacing the "muzak" offerings of my days. The concrete walls of the offices are hidden now by walnut paneling. Many of the Marist brothers (the religious order in charge of the school) no longer traipse the halls in gown-like cassocks, the "external symphony of Christian com­mitment," and memorable collar design.

The student as "necessary evil," an attitude that pervades many academic atmospheres, does not prevail. Instead, stu­dents are involved in academic and social change. Reflecting the times, there are now committees on the environment, on social action and a club whose sole purpose is to view "meaningful" films. An interesting sidelight of the academic year is the "power puff" football game between RCIS and the girls of Mother Seton, an all-girls Catholic high in Clark.

Limited to senior smoking privileges and a senior prom, things now accepted as a matter of course, our student council was largely ineffectual. Today, student opinion is valued in curricular changes and student resources in the recent Middle State evaluation.

Middle States evaluation was something of an impossible dream when I was in high school. Today, with the building celebrating its 10th year in September, it has become a reality. "Stability in the key," commented Bro. Stephen Martin, principal for four years. "We have a much more stable faculty and a growing curricu­lum.

Growing is an underestimate. In 1966, upon entering senior year, my dislike for math drove me to the only innovative course offering: "The United States and its International Relations," a course, taught by Franklin Bauer, that became a valuable resource in my understanding of foreign policy.

Today, the senior is given several choices: "Data pro­cessing" (also the course lacks a computer), "Sociology," "Busi­ness Law," "Accounting," "Modern Literature," "Journal­ism and an overview of the humanities. Another addition, a sorely missed course when I got my driver's license, is "Behind the Wheel Driver's Education."

The religion course, which I dishonestly failed once in my sophomore year, has undergone drastic alterations. Now the junior and senior, while still con­cerned with love, faith "and other corn" (according to one senior), have delved into the philosophies of Nietzsche, Camus, Satre, Freud and Jung.

"Next year we would like to try an interdisciplinary ap­proach," said Bauer. "Perhaps in social science, we could study Russian history and Solzhenity's novels from a philosophical and literary point of view, all in the same class."

Independent study may also be the wave of the future, according to Bro. Martin. Stephen Beach, senior "guinea pig" for the project, is working on a comparison of solitude and pressure and an outrageous situation made us revert to some rules." Students are allowed sideburns to the bottom of the ear and hair no longer than their shirt collar. This and a regulation on ties — albeit no jackets — has the newspaper editors crying for "the rights of individual free­dom."

Ah, sweet bird of youth, if you only knew.

---

College Papers

On Hot Seat for Abort Ads

The publishing of advertise­ments in campus newspapers for abortion referral services has caused almost as much contro­versy as the services themselves.

Student newspapers at at least eight campuses have come under fire for accepting adver­tising for abortion counseling and referral.

Joseph L. Kruton, president of Concordia College, Minne­sota, has suspended The Con­cordian and suspended the paper's editor, Omar Olson.

Augusta College, Minnesota, suspended the mailing of an issue of its student paper, The Echo, fearing that an abortion advertisement might be illegal.

The Student Voice at River Falls State University, Wiscon­sin, was ordered by the admini­stration not to print advertise­ments for abortions and contra­ceptive counseling.

The Index at Niagara Uni­versity, a Catholic institution, Niagara Falls, N.Y., has been reprimanded for running an abortion advertisement.

Some things never change. The most recent issue of The Lion, the school paper, reported the controversy over­hair-length. "Last year," com­mented the principal, "there was no regulation. But parental..."
PART TWO

Frat's Should Change or Die

Are campus fraternities worth saving? Many of the nation's Greek leaders have serious doubts. Potential members cite the lack of real purpose in the social-fraternity concept pointing out obnoxious pledging schemes and lack of any concrete goals. Frats are caught in the currently tight money squeeze and as a result are losing members.

At Montclair State, fraternal leader James Saxon has pointed out that the centuries-old Greek concept is nearing death. And one Newark College of Engineering leader pointed out many of their fraternal organizations have been just existing in name only.

The question now is change or die. Many frats have faded into mere form or participating in some event. This obviously has been unattractive to potential members.

The Greek social concept obviously has not been keeping pace with the needs of today's students. This, in our view, is why frats may not survive.

A revitalization process is without a doubt, necessary. The frat concept in the past has been a vital symbol to countless college students. But changes must be made to make frats attractive to students.

First, the frats should become more involved in campus problems. Not one Montclair State fraternity has ever spoken out on issues confronting students. Social awareness is lacking. As a result, frats are presently useless to the campus.

Second, the hazardous and obnoxious hazing practices should be abolished or reformed. What purpose does it serve for students to be blindfolded and dumped off somewhere in South Jersey as part of some frat ritual? There is an obvious lack of respect for human dignity when frats have pledges engage in uselessly degrading activity.

Thirdly, frats should develop and maintain standards appropriate to a modern college. They should work cooperatively in social projects. And they should avoid subtle racial or ethnic practices which may favor one group over another.

We believe these steps are absolutely necessary should the fraternity leaders want their organizations to survive the decade.

If You Make It, It'll Be Worth Something by 1972!

Reportage

Changing Prisons

By M. J. Smith
Staff Writer

No doubt, the purpose and effectiveness of the Campus Community Scholar Program has been and will continue to be a hot topic for debate. However, one course in this program is without question, worthy of academic respect and, perhaps even admiration. "Crime and Punishment" is another MSC innovation. For the first time on any U.S. campus, ex-convicts will be lecturing on a regular basis. Members of the New York chapter of The Fortune Society, will present the truth about the American penal system as they have experienced it.

David Rothberg, executive secretary of the society, said at the first class, "Prison reform has replaced ecology as this week's chic issue."

The cover story on Time magazine, several documentaries on TV and the rising popularity of prison literature among the young are all indications of America's growing concern for the inmates of its prisons.

It has been said (by George Wallace, as a matter of fact) that the prison system won't change until the caliber of its occupants change. Well, the occupants are changing — and changing rapidly. Young men convicted of draft evasion, college students arrested on drug charges — they are all there.

SOCIETAL 'DREGS'

The sons and daughters of American society are being thrown in with inmates doing five to nine years for assault and battery. They are new being forced to live with human beings that have previously been referred to as "the dregs of society."

Suddenly the penal system has become a heavy weight on the American conscience. Something must be done and just sending random letters to the governor isn't going to be enough.

Prisons and prison reform are a part of the unpleasant reality of modern life just as a polluted environment, the war in Indochina and racial inequality are.

This is the value of the CCSP course. A small, action-oriented seminar that is designed to let MSC students learn something about an environment that most of them know little or nothing about.

Campus Whirl

Benitz OKs 'Unknown' for SGA VP Post

The Benitz administration has picked a relatively unknown man to fill the posi political post of vice-president for student affairs. He's William Asdal (son of Mrs. Doris Asdal, head of MSC's Faculty - Student Cooperative Association), sophomore industrial arts major and SGA IA representative for less than two months. Asdal is a good-looking, sandy-haired conservative who came to the attention of his SGA benefactors thru membership in Senate.

Kloza Bellagamba

Asdal told Campus Whirl that he's been "running around like mad" in attempt to find out what his new-found responsibilities will be. Since November, Robert Watson manned the post and also unofficially covered as vice-president for academic affairs when Sorel Luhrs left. Now in an SGA approved switcheroo Robert has assumed the post of vice-president for academic affairs, by virtue of his past accomplishments — namely, faculty evaluations.

Observers see this cabinet shakeup as Benitz's last-ditch effort to beef up his administration before new elections are called. Asdal has been called a "popular, well-liked figure" by the few who know him and Watson, "the brains behind Benitz."

***

BITS & PIECES: RALPH SILAS, SGA business department representative for the past year, considering running for vice-presidential post... PRESIDENT THOMAS RICHARDSON was considering teaching a CCSP course but changed his mind because of time...NEW YORK TIMES considered doing a story about MSC but changed its mind... JOSEPH KLOZA issue settled... Reasons why DR. LAWRENCE BELLAGAMBA resigned still unclear... QUARRY all well...
Revenue sharing is an innovative plan designed to decentralize the federal government. President Richard M. Nixon proposes to release $5 billion of federal aid to states and cities free of controls.

States are in need of financial support. For example, New York must raise taxes to meet growing expenses. Under revenue sharing Gov. Nelson Rockefeller believes such hikes would not be necessary.

New Jersey has a budget of $1.8 billion. This, according to Rocco Campi, a state budget analyst, will generate a $14 million surplus. He considers this "lucky" when compared to other states such as Pennsylvania, which face financial crisis. However, when questioned on the possibility of future tax increases, he preferred not to comment.

The state stands to gain over $153 million from revenue sharing. Of this amount $52 million will be allocated to cities. This will help fill their empty coffers.

CAHILL STAUNCH SUPPORTER

Gov. Cahill is a staunch supporter of the plan. He states: "Failure to adopt the Nixon proposal will only lead to financial chaos for the cities of the nation."

Alto support of the proposal is widespread among the government and even organized labor is another matter. To be specific, Rep. Wiltbur Ds (Ark) vows to destroy the plan before it leaves committee.

As chairman of the powerful House Ways and Means Committee, Mills objects to giving funds free of controls. He believes that state and local governments have not progressed past the Boss Tweed era of corruption, thus making revenue sharing wasteful. Such opposition limits hope that the proposal will reach Congress for a vote.

Financial chaos will occur if revenue sharing is put to pass. States and cities will be forced to implement taxes to create revenue which could have come from Washington.

This will be bad news to the already overburdened taxpayer. It is tragic when one man can block a plan which is essential to the welfare of the nation. Revenue sharing would have been the first step in returning the people some of the billions which are poured into the massive federal bureaucracy.

Our America

GENTS ONLY

CHICAGO (UPI) - About 1500 youths marched out of all-male Lane Technical High School Tuesday and marched or rode to the Chicago Board of Education building because they don't want girls in the school next year.

BELIEF IN YOUTH

Former federal Judge G. Harold Carswell, after his son Scott Simmons Carswell, 20, was arrested for possession of marijuana: "He did not have any possession of anything of that nature. What I'm saying is what the boy has told me, and I believe him."

EXTRA MASTER PLAN HEARING SET

Mrs. Katherine Neuberger, hearing chairman for Phase Two of the state Master Plan for Higher Education, announced late Wednesday that an extra Master Plan hearing would be held "for students only" on April 24 in Trenton, exact time and place to be named. The announcement was made at the third Master Plan hearing at Claseens State College.
Loneliness in a world of illusion

“Journey”

By Thomas Babbit
Staff reviewer

Ruby Keeler is the exception to the rule. She acts as if she were reciting the alphabet, she sings with blank uncertainty, and she dances as well as any aspirant. But she is a star, and we all know that a star is a star regardless.

She sings exactly one song (well, almost) and dances but (or unabashed lack of) talent.

Joan of Arc was not burned at the stake. The music is very fine whatever the promoters say, but it definitely is rock and good rock not traditional theater, but it is a splendid polish and top-notch talent in many departments, but so are most Broadway shows. Unless you are an avidly ecletic music lover there is a trend rather than an event (in which case a visit to this common fare is just a trifling male chorus belt out the “No, No, Nanette,” isn’t even a very real all that much fun, since we’re conditioned to its brand of entertainment the way we’re conditioned to commercials. The few real belly-laughs belong to Patsy Kelly as the eternal, over-worked maid. The one truly NOT MUCH FUN

“No, No, Nanette” isn’t even a very real all that much fun, since we’re conditioned to its brand of entertainment the way we’re conditioned to commercials. The few real belly-laughs belong to Patsy Kelly as the eternal, over-worked maid. The one truly NOT MUCH FUN

The show, with book and lyrics by James Lineberger and music by Hank and Gary Roffin is based on the premise that

Joan of Arc was not burned at the stake. The score, performed by SmokeRise is good solid rock with very intelligible lyrics. The volume does not overshadow the content. The music is so good in fact, that it can stand alone, the album of “Survival” should be a real hit.

The surrealistic sets, lighting and costumes were designed by Peter Harvey and Thomas Skenel. They are exceptionally good and add much to the show.

This is not an opera and it is not traditional theater, but it is very good entertainment. “The survival of St. Joan” should survive for a long, comfortable engagement.

“Joan of Arc” is a play which deals with the theme of extreme loneliness and isolation in a world of illusion and semi-reality. The presentation of the Ronald Ribman work is an in-depth study of that theme, fortified by the finest acting and directing one has seen at Montclair State College in the past four seasons.

Outstanding in the role of Zoditch was Robert Steiger, whose paintaking devotion to detail of characterization makes the motif of the shepherd a delight of the evening. His interpretation of the shepherd, first reader of the Grubov Publishing Company was consistently and intensively full of insight.

The imposing figure of Paul Nadas in the role of Chulkaturin embraced the very essence of the play with deep passion, pathos, and tenderness. Nadas appears to be the most promising actor of this season.

BEAUTIFUL MOMENTS

If overly-mannered movement detracted from the performances of Jack Mageean and Robin and Joe Black as Pandarens, there were more than enough moments of beautifully-drawn characterization to make up for the shortcomings.

Katherine McAlister as Katerina exhibited mature assurance and impressive poise in her role. Barbara Sholz once again brought professional flair to a role, as Chulkaturin’s housekeeper Terentieva. Barbara Wasserman moved well as Liza. Performances by Richard Nelson, Mary Jeanne Cullen and Betty Passafiume in their smaller roles were delightfully drawn from real life. The Feathers of Julia Indichova was a master-piece of astute characterization.

PROFESSIONAL QUALITY

Designer John Figs graced the stage of Memorial auditorium with a set of striking reverence to the theme of the play. Isolation, desolation and loneliness underlined imaginative scene changes in which there were some interesting uses of projection devices. Costumes of professional quality were designed by Virginia Chapman.

The work of Jerry Rockwood proved to be flawless and in direction was distinctly Rockwood while “Journey” remained distinctly Ribman with a mutual respect and understanding apparent throughout.

One question, however, remains unanswered. What are the responsibilities of the stage manager? The answer to this vital question may have eliminated many embarrassing moments for audience and performers alike in an otherwise dynamically directed and forcefully acted production.

Joan and her friends: Grecchen Corbett stars in “The Survival of St. Joan” at the Anderson Theatre.
URSULA UPTIE and Her Friend

NATIONAL PROBLEMS ARE GETTING "BAND-AID" SOLUTIONS DUE TO TOO MUCH PRESSURE TOO LATE.

BETTER COMMUNICATION WOULD HELP TO IDENTIFY PROBLEMS AND OFFER SOLUTIONS EARLY. THEN THE GOVERNMENT COULD BE MORE RESPONSIVE.

WE'RE GETTING RESPONSE BY DEMONSTRATING, WHICH ISN'T THE TYPE OF PRESSURE WHICH BRINGS ABOUT TIMELY CONSTRUCTIVE CHANGE.

THERE ARE SO MANY PROBLEMS WHICH NEED ACTION NOW!

WHAT IS NATIONAL RESPONSE AND HOW CAN IT HELP?

NATIONAL RESPONSE PROVIDES THE WAY FOR EVERYBODY TO RAP THE GOVERNMENT ANYTIME. IT OFFERS A CARD PACK AND DIRECTORY.

WHAT ARE NATIONAL RESPONSE CARBON CARD PACKS?

THEY ARE A SET OF CARDS WITH INTERLEAVED CARBONS. WRITE ON THE TOP CARD AND GET THREE COPIES. THE THIRD COPY IS PREADDRESS ED TO NATIONAL RESPONSE.

WHAT DO WE DO WITH THEM?

YOU SEND THE ORIGINAL CARD TO WHOMEVER YOU WISH. THE NATIONAL RESPONSE DIRECTORY HAS ALL THE NAMES AND ADDRESSES.

WHAT HAPPENS THEN?

THE CARDS SENT TO NATIONAL RESPONSE ARE COLLATED BY SUBJECT AND ARE USED LIKE A NATIONAL PETITION.

SO THAT'S HOW WE DO OUR THING TOGETHER!

YES. THIS APPROACH GETS EARLY ATTENTION TO PROBLEMS. IT PUTS PRESSURE IN THE RIGHT PLACES.

WHAT A FAR-OUT WAY TO GET PLUGGED-IN TO THOSE DUDES IN GOVERNMENT WHO CAN'T IGNORE US NOW!

WITH NATIONAL RESPONSE CARBON CARD PACKS WE HAVE A WAY TO SPEAK WITH NATIONAL RESPONSE SERVICE WE HAVE A WAY TO GET GOVERNMENT TO HEAR.

I'M GOING TO GET THE NATIONAL RESPONSE DIRECTORY AND CARBON CARD PACKS.

SEND IN THE ORDER FORM WITH A CHECK OR MONEY ORDER - BUT DON'T SEND CASH!
We believe that if you think you are pregnant, you should be able to find out if you are. If you are confirmed your pregnancy, you should decide what to do.

We believe that if you have cornered your fetus, something that the men didn’t find so easy this year, is the fact that the Squaws have notched a berth in the Middle Atlantic Women’s Intercollegiate Basketball tournament slated for March 17, 18 and 19 at the University of Delaware.

MSC started the final game on the minus side as the Profs opened the scoring with a foul shot making the score. 1-0. But the Squaws countered with another basket and in the first minute, their score was knotted at 6-all.

At that point, MSC broke loose in the scoring and at the end of the first quarter led, 17-10. The Profs, battling against MSC for the first time this season, played a man to man defense which was not expected by the Squaws. Montclair adjusted to Glassboro and according to Coach Cathy Paskert their game plan "went beautifully against it."

Glassboro’s team composed mostly of field hockey players who utilize a running game, didn’t count on MSC’s pick and roll which opened up the game and allowed the Indians to take advantage of the scoring opportunities. By the end of the half, MSC held a 35-19 lead, and GSC was completely out of the contest.

Freshman Mary Hayek ended the tilt with the game-high score of 16. Denise Wood trailed in the scoring with 13. Connie Doermann was the only Prof to score in double figures, scoring 12. Miss Paskert, extremely pleased on the outcome, stated that it was "one of the better games." She had great praise for Captain Joan Ficke and Karen Biscaha and noted that the two were greatly responsible for cutting off Glassboro’s fastbreak.

MSC Slashes Caldwell, 13-3

Led by the perfect 4-0 records of Marge Davis and freshman Nancy Murray, Montclair State’s women’s fencing team routed Caldwell College, 13-3.

In the meet, Captain Bonnie Levine picked up 3 victories while losing a close 4-3 bout. Karen VanBavel ended 2-0 in the meet. MSC’s fourth win in six outings.

Last week Miss Murray qualified for the Women’s North Atlantic Sports scheduled for later this month.

Bill Balogh’s Tops

In North Atlantics

NEW LONDON — Bill Balogh of Montclair State College captured the all-around event in the third annual North Atlantic Gymnastics championship held last Saturday at the United States Coast Guard Academy gym.

The talented junior turned in a score of 46.05 to best Matt Collins of Long Island University. Collins, who won two events, floor exercise and long horse, posted a score of 44.10. Ed Kuhn of Montclair State placed fourth in the all-around event with a score of 41.25.

Balogh took the still rings event with a score of 16.05, placed third in side horse with a mark of 15.30 and fourth in the horizontal bar with a score of 14.65.

Kuhn was second in parallel bars with a score of 16.15 and fourth in the horizontal bar.

Montclair State placed third in the team standings with a score of 125.1 behind Long Island University at 134.81 and West Chester State at 130.30.

MSC Fencers Cop Second NAIF Title

By Lynda Emery
Sports writer
BUFFALO, N.Y. — For the second consecutive year, Montclair State College clinched the National Collegiate Fencing championship. With the exception of one fencer, Roger Marcogiano, the defending team, which registered 56 points, was identical to last year's winner which scored 52 points.

MSC's fencers also captured the Syracuse Trophy, given to the epee team that accumulates the most wins.

With 19 points, Montclair came in first in the epee competition. Indian Bruce Kinter, the defending epee champion, placed third individually with a score of 4-3, so losing his title to Russ Fischer of Newark College of Engineering. Todd Boepple, who last year fenced foil, this year epee, came in fourth place with a record of 3-4.

Marcogiano also boasted an individual trophy as Dave Bryan, the 1968 sabre champion, topped the field with a score of 6-1, defeating defending champion George Soriano of NCE. Glen MacKay, also fencing sabre, came in sixth place with a score of 2-5. In the first round they brought MSC's sabre team to second place with a total of 17 points.

After defeating Nick Franz of Rutgers, Indian Frank Mustilli won by defeating defending champion Indian Bruce Kinter, the most wins.

REIGNING CHAMPIONS: MSC's undefeated fencing team (left to right, kneeling) Roger Marcogiano, Todd Boepple, Frank Mustilli, Dave Bryan; standing) Bruce Kinter, Bob Smith, Carl Davis, Walt Halushka, Glenn McKay, and Alex Colatrel, return to MSC as North Atlantic fencing champs. In the meet, Bryan took first in foil, Mustilli was second in foil, and kinter, 1970 epee champion, placed third in epee.

PUTTING IT UP. MSC's leading scorer Phil Baccarella (23) tries for a shot underneath the basket against FDU. Tonight Baccarella and the rest of the Indians go against Buffalo State College in the NCAA eastern regional semifinals.

In the NCAA Regionals

Buffalo Gets the Nod

By Jim Dente
Sports Writer

Montclair State College's basketball team begins its second season this weekend when it travels to Buffalo, N.Y., for the start of the National Collegiate Athletic Association's College Division eastern regional semifinals.

The Indians are slated to take on highly touted Buffalo State College Friday night in the first game of a doubleheader. The second contest pits C.W. Post and Hartwick College of Oneonta.

IRONICALLY, MSC must break a 2-game losing skid in order to survive in the tourney. The Indians fell to Jersey City State, costing them an outright league championship, and then to Fairleigh Dickinson University in the season's finale to finish with 17 victories and 5 defeats.

Buffalo State College is no stranger to coach Ollie Gelston's quintet. The Bengals knocked off MSC, 81-72, in last year's quintet. The Bengals knocked off their overall mark was 18-3.

BUFFALO has the most crucial — a home court advantage. It should serve to cope with. Smith will break open a close game in the final 5 minutes and his club will go on to win by 12. However, Buffalo will fail to successfully defend its title, bowing to C.W. Post in the finals.

FDU took the lead when Howie Weinstein hit for two. The Knights continued to build their lead and at 5:36 left in the first half Weinstein hit on a charity throw to put FDU ahead, 21-15.

But the Indians, led by Captain Harry James, followed with 7 straight and put the score at 21-all with a little less than 4 minutes to go. James tallied 5 big points in the string. On his first shot, James' jumper made it 1000 in his MSC career.

He is the 12th Indian to score 1000, but only the fourth in a three-season career.

Both teams combined for 4 consecutive turnovers before Weinstein's hook shot put FDU temporarily ahead. Davies hit a jumper, which made a 22-22 tie hold until halftime.

Four minutes into the second part of the contest, the Indians took a 26-25 lead on an outside shot by Bob Heck. Davies made it 30-25 on a 2 charity throws and a jumper.

FDU downs MSC
In Season Finale

By Carol Sakowitz
Sports Writer

They said it couldn't be done. Montclair State College's basketball team, which just got the bid to the NCAA eastern regional finals, couldn't defeat Fairleigh Dickinson University nationally ranked number one in defense.

Well they were right, almost. MSC lost their last game of the regular season, 55-50, but FDU didn't romp over the Indians, as everyone expected.

The contest broke into the scoring column early in the first half on a basket by Ken Maxwell. The Indians countered with basket by Bruce Davis, but

COACHES

Ollie Gelston vs. Dan O'Brien: There is no substitute for experience. Gelston has accumulated over 200 career wins while O'Brien has led the Bengals to an 18-3 log in his rookie year after serving as an assistant for a number of seasons. Edge: Gelston

PREDICTION

MSC has many edges, but Buffalo has the most crucial — a home court advantage. It should prove to be too much for MSC to cope with. Smith will break open a close game in the final 5 minutes and his club will go on to win by 12. However, Buffalo will fail to successfully defend its title, bowing to C.W. Post in the finals.

FDU took the lead when Howie Weinstein hit for two. The Knights continued to build their lead and at 5:36 left in the first half Weinstein hit on a charity throw to put FDU ahead, 21-15.

But the Indians, led by Captain Harry James, followed with 7 straight and put the score at 21-all with a little less than 4 minutes to go. James tallied 5 big points in the string. On his first shot, James' jumper made it 1000 in his MSC career.

He is the 12th Indian to score 1000, but only the fourth in a three-season career.

Both teams combined for 4 consecutive turnovers before Weinstein's hook shot put FDU temporarily ahead. Davies hit a jumper, which made a 22-22 tie hold until halftime.

Four minutes into the second part of the contest, the Indians took a 26-25 lead on an outside shot by Bob Heck. Davies made it 30-25 on a 2 charity throws and a jumper.

The Indians continued to score and finally made it 32-25 on a jumper by Davis. But the Knights took over in the next 3 minutes to make it 34-33 on a shot from the corner by Pete Tierney.

Eight plays later Shulman took advantage of a one-and-one situation and put FDU ahead 43-42.

By then the Knights could do no wrong as they went ahead 48-43 with 3:51 left. FDU slowed down the pace and forcing the Indians to foul in order to get possession.

With the clock stopped at 5 seconds Ollie Smith swished 2 foul-shots thru the basket to ice the Knights' win.

INTRAMURAL TOURNAMENT

Applications are now available in the Athletic Office for a male intramural wrestling match and a swim meet.

The deadline for turning in either application is Monday, March 22. The wrestling match is scheduled for 7 p.m. on March 22 while the swim meet is slated for 7 p.m. on March 22.
