PARKING EDITORIAL  

All But Two Think Something's Wrong

Of the 299 students responding to the MONTCLARION parking and security petition thru Wednesday, two felt that there was nothing wrong with the current parking situation. One of the two commented that "I am of the majority." The other remarked that "My opinion is not valid. I sit in the Back lot." Students were asked to return a coupon identical to the one elsewhere on this page.

Of the 299 returned coupons, 253 thought that the "Back lots" between Finley Hall and the fine arts building remain open at least, until the end of the semester. Paving the gravel lots was advocated by 29 MSCers.

Improvement of the road between Webster Hall and the music building was checked by 262 students. A more regular patrolling of the campus by security guards was called for by 247 responding. Adequate lighting in the Webster Hall lot and the quarry was requested by 262 students, and pothole-filling around campus was endorsed by 286.

Actually, the response might have been much larger — but one of the boxes in which students placed their coupons was missing when the boxes were collected Wednesday morning.

Various suggestions were voiced by those responding. Elimination of faculty spaces was recommended by 78 students. Improvement of security, improved snow removal, transportation to the quarry and elimination of parking tickets also received moderate support.

And, of course, the humorous — but potentially serious — responses came in. One student suggested that "throw Benitz in the quarry." SGA President Thomas Benitz — a dorm student — is one of three regular student members of the all-college parking committee.

One student wrote to us that he was lost in a pothole. Another suggested auction of parking spaces to the highest bidder. Still another merely pleaded: "Do something!"

When we feel that the MONTCLARION has received sufficient answers to the petition, we’ll attempt to meet the parking committee and get some of your problems solved.

Once more, you can help. If you didn’t fill out the form last week, it’s published again, here on the front page. Check off what you think is right or wrong and drop it in one of the boxes marked "MONTCLARION petition" scattered around campus.

It may seem like Alice in Wonderland but our graduate school may be terminated in six months," MSC President Bob, at a faculty meeting held Tuesday, which is staffed only by one professional educator, who had little experience in planning.

Also, Heilbronner said that the only study of an existing cooperative university (similar to the proposed Graduate University) made by the board was a 1½-hour interview with the president of City College of New York.

"The plan was conceived in a spirit of contempt for everything the state colleges stand for," stated James Pettegrew, English professor and representative for the faculty. "It is ingeniously contrived to stamp out individualism."

Faculty Evaluation Ready Next Year

Robert Watson: Two Plans.

Faculty evaluation by students is presently being worked out and should be ready for formal use in selecting courses for the spring semester of 1972, said Robert Watson, SGA vice-president for academic affairs.

Watson said there are two plans for evaluation. The SGA-sponsored plan involves a broadly comprehensive evaluation containing 26 multiple-choice questions which could be applied to all schools. At present, the form is to be used based on a similar form used by Seton Hall University entitled "The Purdue Rating Scale for Instructors." Watson said at the moment this form seemed to be the most efficient but that he hoped eventually Montclair State could develop its own.

The second plan involves the various departments of each school. A letter was sent out by Watson requesting the cooperation of each department in a more in-depth and specific evaluation to help insure objectivity, comprehensiveness and efficiency.

In this plan each department would sponsor its own evaluation of faculty by the students of that department. There would be no standard form, so that the format would be left up to the discretion of each department.

In this way, the Purdue rating scale could cover courses in a general way, while the departmental evaluations could give a more intensive analysis of specific qualities which would be indispensible to a major in that field.

For instance, under the Purdue plan, a music professor might be rated overall as "good" (with a few basic points of substantial infirmities mentioned). Under the individual department plans, the same professor may be rated as "excellent" particularly in music theory or the oboe. The information from the Purdue form would be helpful to a non-major who just cares about an overall rating but the department evaluation would be very helpful specifically to the music major.

The SGA-sponsored questionnaires scheduled to be available to students in late April or early May. The information will be compiled over the summer and the results will be available sometime around Oct. 15, 1971. Watson said the cost for research, operation and publication of the evaluation hopefully will come from the student activity fund in this year’s budget. He said this could present some financial problems but with the MSC cooperation, he thinks a score for the month of March.

The museum hours are Mon., 1 p.m. to 4 p.m.; Wed., 10 a.m. to 1 p.m.; and Fri., 10 a.m. to 2 p.m.

The first in a series of MINI-REPERTORY THEATER pro­ductions will take place on Wed., March 17 in the studio theater at 2 p.m. Each member of the directing class will present a series of plays, using the other class members as actors. The directors for this session include Joe Black, Maurice Moran, Carole Palmquist, Diane Piana and Mary Trella. The cuttings from the plays vary from the serious to the farcical, focusing this week on nineteenth century dramas. The five scenes will run approximately one hour.

The New Jersey Symphony Orchestra will present a concert in Memorial auditorium on Thurs., March 25 at 8 p.m. The MSC students, selected in audition by symphony conductor Henry Lewis, will perform as soloists. The students are Jack Olivia of Nutley and Marsha Saxe of Millburn.

The Council of International and National Affairs will sponsor a delegation representing the Netherlands to the annual NATIONAL MODEL UNITED NATIONS conference. The NMUN will meet from Mon. April 8 to Sun., May 2 at the Statler Hilton in New York City. The delegation will be selected on the basis of interest in the United Nations and a willingness to attend a serious study of United Nations functions and the nation to be represented. Each delegate will be required to attend a series of meetings to be scheduled on campus in preparation for the NMUN. Interested students should contact the fall of the National Affairs Chairman of the Council of International and National Affairs, Louisover, College Hall, by Fri., March 5.

The Montclair State College Media Center is presenting Sir Kenneth Clarke's CIVILIZATION— "the highly acclaimed tv series which traces intellectual developments in the Ancient World from the time of Rome to modern times. Each week one of the hour-long films in the 13-week series is shown from noon to noon on the TV station. The schedule is as follows: Mon. at noon, 5 p.m. and 7 p.m., Tues. at noon, 5 p.m. and 7 p.m.; Wed. at 1 p.m., 4 p.m. and 7 p.m.; Thurs. at 2 p.m. and 7 p.m.; and Fri. at 4 p.m. The presentation this week is "Protest and Communication."

**NEWARK** — Creation of a state­wide Graduate University of New Jersey came under fire at the Montclair State Campus. President, testified that the plan "will there be a high level of questioning whether an agency should be permitted to complete a project if it is potentially dangerous to human health. And if the anti-SST fight has a Montclair State battleground.

According to Frank S. Kelland, advisor to the Montclair State Conservation Club, the SST, designed to foster less than sound transportation, will have "a tragic effect upon our environment."

A spokesman for the Sierra Club, a nationwide conservation organization, claims that "a fleet of 500 of these aircraft would consume the nation's petroleum supplies within 20 years.

**KELLAND ADDED** that the SST "will not solve the economic balance within the earth's hemispheres, and the increased air pollution it would cause would result in climatic changes in many areas."

Mrs. Vera Brenton, Conservation Club secretary, expressed concern over the effect the SST would have on marine life, in view of the fact that it "would handle extensive overseas transportation."

Kelland considers the SST to be a "poor investment" for the taxpayer. He believes the existing commercial aircraft in the United States is not being utilized to the fullest extent, and money for the SST would be better spent on surfact transportation improvement throughout the country.

"WHETHER OR NOT the SST will be completed depends largely upon a House-Senate committee formed to investigate the project. The committee had agreed governmental spending on the SST should not exceed $200 million. This estimate has risen, however, and the final cost could reach the $3 billion mark, Kelland said.

**SST Fight Comes to Campus**

**Conservation Club Says Aircraft Is A Hazard to Environment**

**By Cecilia Feheo**

**Staff Writer**

Continuing protests on the part of conservationists against the proposed Supersonic Transport (SST) aircraft have been questioned whether an agency should be permitted to complete a project if it is potentially dangerous to human health. And if the anti-SST fight has a Montclair State battleground.

According to Frank S. Kelland, advisor to the Montclair State Conservation Club, the SST, designed to foster less than sound transportation, will have "a tragic effect upon our environment."

A spokesman for the Sierra Club, a nationwide conservation organization, claims that "a fleet of 500 of these aircraft would consume the nation's petroleum supplies within 20 years."

**KELLAND ADDED** that the SST "will not solve the economic balance within the earth's hemispheres, and the increased air pollution it would cause would result in climatic changes in many areas."

Mrs. Vera Brenton, Conservation Club secretary, expressed concern over the effect the SST would have on marine life, in view of the fact that it "would handle extensive overseas transportation."

Kelland considers the SST to be a "poor investment" for the taxpayer. He believes the existing commercial aircraft in the United States is not being utilized to the fullest extent, and money for the SST would be better spent on surfact transportation improvement throughout the country.

"WHETHER OR NOT the SST will be completed depends largely upon a House-Senate committee formed to investigate the project. The committee had agreed governmental spending on the SST should not exceed $200 million. This estimate has risen, however, and the final cost could reach the $3 billion mark, Kelland said.

**Student Patro Aidning in Campus Security Beef-Up**

**By Carla Capizzi**

**Staff Writer**

Campus security is being tightened in the wake of several attacks on Montclair State college.

Security chief Joseph Daly disclosed that a student patrol is being organized as an added "deterrent" to crime at the college. About 20 young men will be trained as security guards in policing the campus and issuing traffic summonses.

**A FOREIGN student was the victim of the latest attack, in front of Mount Hebron cemetery on the night of March 1. An unidentified young man grabbed her and tried to drag her into the cemetery. A passing car frightened the assailant away before he was able to harm her. Despite the girl's screams, several people waiting at a bus stop across the street made no move to help her.

The girl reported the incident to Joe Kloza, international and off-campus learning center director. He notified Daly, who in turn alerted the Montclair police.

Kloza said he was angered and deeply upset by the incident. "The girl came here because she had been told this is a land of freedom and opportunity," he said. According to Kloza, the girl was almost more upset by the apathy of those at the bus stop than by the attack itself.

"SHE WANTED TO SEE how great America is," Kloza explained. "Now she realizes that this is the American way. People don't care - they don't want to get involved. She pointed out that the car which frightened the attacker hadn't actually stopped, it had just slowed down, probably out of curiosity. "The girl could have been killed, for all anybody cared," he said.

"The coiled described her assailant as between 5'4"-5'6", wearing a hooded brown parka and soccer sneakers. She was unable to see his face clearly.

The sketchiness of her description makes it difficult for the police to apprehend the attacker. Even if they did, Kloza feels, it would do little good. "The suspect would probably be acquitted for lack of evidence," he said. "It would just be her word against his."

**SINCE THE attack occurred off-campus, there is little the college can do about it,** according to Daly. He said the Montclair police are "aware there is a problem" and are increasing patrols in the campus area. He explained there have been sporadic attacks on women in the town, but the problem had only recently reached this area.

He emphasized that campus security is doing everything possible to provide protection for students. According to Daly, the 24-man force has increased its night time hours, three shifts, 24 hours a day, seven days a week. Because Daly believes there is "little or no surprise," the patrols are not on a set schedule.

Daly said that the new student patrol will be a valuable asset to the force, which he admits is "vulnerable." The new patrol will be confined to "observing and reporting" to Daly and issuing summonses. The force is scheduled to be in operation in about two weeks.

**Form Group**

**Grad Students Defy Extinction**

Despite a threat of extinction due to Phase Two of the Higher Education Master Plan, approximately 50 Montclair State graduate students passed a constitution forming the Graduate Student Organization at a March 9 meeting.

The GSO constitution was drafted by an interim committee organized last May. According to the constitution, the GSO is designed to act as a representative body for MSC's approximately 4500 graduate students. It will also handle social and cultural activities and promote programs for the benefit of the graduate student and the college.

The IMMEDIATE concern of the GSO is Phase Two of the Master Plan, which would consolidate all graduate programs existing at individual state colleges into one Graduate University of New Jersey. Under this setup, MSC's facilities and faculty would be utilized, but the college itself would have no control over the program.

Dr. Howard Fox, GSO adviser, termed the proposed graduate university a "paper organization." MSC President Thomas H. Richardson called the proposal "unacceptable, unbelievable and indefensible." He said that if the plan were a reality, the students would lose their college and centrate exclusively on the under-graduate division.

Last May's strike triggered the organization of MSC's graduate students. He pointed out that graduate students had no vote in the decision to close the school, and as a result, decided to take action that would enable them to be a part of the campus decision-making process.

The INTERIM committee will continue in charge of the GSO until a governing board can be selected. The governing board, comprised of two representatives from each graduate school and six representatives from the general student body, in turn, will elect the GSO officers.

The next scheduled GSO meeting is April 28, for the ratification of the Constitution.
STUDYING BIOLOGY-FIRSTHAND: A young coed decides to take a break between classes when spring seemed to arrive early on campus as temperatures nearly reached 60.

LOOK OUT, CHARLIE: Lacrosse fans suffer from spring fever.

MONTCLAIR, March 2 - The lazy, hazy days of spring seem closer than ever today when barefoot gossips and contessas can take to the heather of campus and field. March bleated in like a lamb this week instead of the roar of the traditional lion...BULLETIN: BLIZZARD WARNINGS HAVE BEEN ISSUED FOR THE GREATER METROPOLITAN AREA...

The Grass Is Riz...

'VISIBILITY ZERO': MSC coed is blinded by sudden storm.

'WOULD YOU BELIEVE ICELAND?': The ice and snow transforms Sprague Library and the pedestrian mall into an Arctic wasteland two days after students celebrated an early spring.
Roselle Catholic Boys Regional High School was only five years old when I entered in 1963. There was an old orphanage on the ground which was used as a Library. We had to change for gym in a classroom. The "charm" of our school was that it was all-boys (at our age, who liked girls?) and nearly 75% of its graduates had gone to college (there had only been one senior class).

By the time I left, the orphanage was gone, we changed in a locker room and nearly 90% of the graduating classes had gone to college. We had seen three principals in four years and it seemed as if 50% of the faculty disappeared each year.

Today, nearly four years later, the scene is much different. There are many obvious superficial changes...such as the removal of the WRBM jukebox in the cafeteria offering the latest in hits, replacing the "muzak" offerings of my days. The concrete walls of the offices are hidden now by walnut paneling. Many of the Marist brothers (the religious order in charge of the school) no longer trapse the halls in their gownlike cassocks, the "external symbols of commitment," and memorable collar buttons.

Today, the senior is given a course offering: "The United States and its International Relations," a course, taught by Franklin Bauer, that became a valuable resource in my understanding of foreign policy.

Today, the senior is given several choices: "Data processing" (also the course lacks a computer), "Sociology," "Business Law," "Accounting," "Modern Literature," "Journalism," and an overview of the humanities. Another addition, a sorely missed course when I got my driver's license, is "Behind the Wheel Driver's Education."

The religion course, which I unhappily failed once in my sophomore year, has undergone drastic alterations. Now the junior and senior, while still concerned with love, faith and "other corn" (according to one denominational rule), are hidden inside the "philosophies of Nietzsche, Camus, Sartre, Freud and Jung."

"Next year we would like to try an interdisciplinary approach," said Bauer. "Perhaps in social science, we could study Russian history and Solzhenitsyn's novels from a philosophical and literary point of view, all in the same class."

Independent study may also be the wave of the future, according to Bro. Martin. Stephen Beach, senior "guinea pig" for the project, is working on a comparison of solitude and loneliness.

...nearly four years later, the scene is different. There are many obvious superficial changes...Many of the Marist brothers no longer trapse the halls in cassocks...

College Papers

On Hot Seat for Abort Ads

The publishing of advertisements in campus newspapers for abortion referral services has caused almost as much controversy as the services themselves.

Student newspapers on at least eight campuses have come under fire for accepting advertising for abortion counseling and referral.

Joseph L. Knutson, president of Concordia College, Minnesota, has suspended The Concordian and suspended the paper's editor, Omar Olson.

Augusta College, Minnesota, suspended the mailing of an issue of its student paper, The Echo, fearing that an abortion advertisement might be illegal.

The Student Voice at River Falls State University, Wisconsin, was ordered by the administration not to print advertisements for abortions and contraceptive counseling.

The Index at Niagara University, a Catholic institution, Niagara Falls, N.Y., has been reprimanded for running an abortion advertisement.

ABS CONCLUDED

The regents of the University of Georgia and the trustees of Ohio University have considered taking action against student newspapers for running similar advertisements.

In both cases, the decision was left to the student editors, and both papers continued to run the advertisements. However, the Ohio University Post, in its editorial columns, has cautioned its readers that the abortion referral services are expensive and that free counseling is available elsewhere.

The abortion referral services, which use campus newspapers extensively for their advertising campaigns, arrange legal abortions in New York state. Their fees go to well over $100 for the referral service alone, not including medical costs.

New York is studying the question of whether the operation of the profit-making referral agencies should be regulated by law.

Some editors of student newspapers are awaiting opinions from state's attorneys on whether advertisements for the services are legal in states where abortions are illegal. Editors in Connecticut, Minnesota and South Dakota have stopped running the ads, pending decisions.

Some things never change. The most recent issue of The Lion, the school paper, reported the controversy over hair-length. "Last year," commented the principal, "there was no regulation. But parental pressure and an outrageous situation made us revert to some rules."

Students are allowed sideburns to the bottom of the ear and hair no longer than their shirt collar. This and a regulation on ties—albeit no jackets—has the newspaper editors crying for the "rights of individual freedom."

Ah, sweet bird of youth, if you only knew.

---

Editor's Note: This is a second in a series of a three-story series of stories by Mr. Knutson on the abortion controversy. Mr. Knutson is currently assignment editor for the MONTCLARIAN. He has served as managing editor and staff writer for the paper during his four years at Concordia College. He appears in the current edition as the associate editor of "The Student Who Loved Stopping Student at U.S. Colleges."
PART TWO

Frat's Should Change or Die

Are campus fraternities worth saving? Many of the nation's Greek leaders have serious doubts. Potential members cite the lack of real purpose in the social-fraternity concept pointing out obnoxious pledging schemes and lack of any concrete goals. Frats are caught in the currently tight money squeeze and as a result are losing members.

At Montclair State, fraternal leader James Saxon has pointed out that the centuries-old Greek concept is nearing death. And one Newark College of Engineering leader pointed out many of their fraternal organizations have just been existing in name only.

The question now is change or die. Many frats have faded into mere form for the purpose of maintaining a name or a frat house or participating in some event. This obviously has been unattractive to potential members.

The Greek social concept obviously has not been keeping pace with the needs of today's students. This, in our view, is why frats may not survive.

A revitalization process is, without a doubt, necessary. The frat concept in the past has been a vital symbol to countless college students. But changes must be made to make frats attractive to students.

* First, the frats should become more involved in campus problems. Not one Montclair State fraternity has ever spoken out on issues confronting students. Social awareness is lacking. As a result, frats are presently useless to the campus.

* Second, the hazardous and obnoxious hazing practices should be abolished or reformed. What purpose does it serve for students to be blindfolded and jumped off somewhere in South Jersey as part of some frat ritual? There is an obvious lack of respect for human dignity when frats have pledges engage in useless degrading activity.

* Thirdly, frats should develop and maintain standards appropriate to a modern college. They should work cooperatively in social projects. And they should avoid subtle racial or ethnic practices which may favor one group over another.

We believe these steps are absolutely necessary should the fraternity leaders want their organizations to survive the decade.

Reportage

Changing Prisons

By M. J. Smith

Staff Writer

No doubt, the purpose and effectiveness of the Campus Community Scholar Program has been and will continue to be a hot topic for debate. However, one course in this program is, without question, worthy of academic respect and perhaps even admiration.

"Crime and Punishment" is another MSC innovation. For the first time on any U.S. campus, ex-convicts will be lecturing on a regular basis. Members of the New York chapter of The Fortune Society, will present the truth about the American penal system as they have experienced it.

David Rothberg, executive secretary of the society, said at the first class, "Prison reform has replaced ecology as this week's chic issue."

The cover story on Time magazine, several documentaries on TV and the rising popularity of prison literature among the young are all indications of America's growing concern for the inmates of its prisons.

It has been said (by George Wallace, as a matter of fact) that the prison system won't change until the caliber of its occupants change. The occupants are changing — and changing rapidly. Young men convicted of draft evasion, college students arrested on drug charges - they are all there.

SOCIETAL 'DRUGS' 

The sons and daughters of American society are being thrown in the same cell with inmates doing five to nine years for assault and battery. They are now being forced to live with human beings that have previously been referred to as 'the dregs of society.'

Suddenly the penal system has become a heavy weight on the American conscience. Something must be done and just sending random letters to the governor ain't going to be enough.

Prisons and prison reform are a part of the unpleasant reality of modern life just as a polluted environment, the war in Indochina and racial inequality are.

This is the value of the CCSP course. A small, action-oriented seminar that is designed to let MSC students learn something about an environment that most of them know little or nothing about.

Campus Whirl

Beniz OKs 'Unknown' for SGA VP Post

The Beniz administration has picked a relatively unknown man to fill the position of vice-president for external affairs. He's William Asdal (son of Mrs. Doris Asdal, head of MSC's Faculty - Student Cooperative Association), sophomore in industrial arts major and SGA IA representative for less than two months. Asdal is a good-looking, sandy-haired conservative who came to the attention of his SGA benefactors thru membership in Senate.

Asdal told Campus Whirl that he's been "running around like mad" in attempt to find out what his new-found responsibilities will be. Since November, Robert Watson manned the post and also unofficially covered as vice-president for academic affairs when Sorel Luhrs left. Now in an SGA approved switcheroo Robert has assumed the post of vice-president for academic affairs, by virtue of his past accomplishments — namely, faculty evaluations.

Observers see this cabinet shakeup as Beniz's last-ditch effort to beef up his administration before new elections are called. Asdal has been called a "popular, well-liked figure" by the few who know him and Watson, "the brains behind Beniz."
SST Poses Big Ecological Hazard

To The Editor:

Approved by the House and voted against by the Senate, the $290 million appropriation bill for the supersonic transport went into a joint House-Senate conference. Conferences then reported out a $210 million bill. Foes of the plane threatened a Senate filibuster, and a compromise was reached whereby the plane will be funded until March 30. The House and Senate will then have the opportunity to consider the appropriation separately from the Transportation Department bill, of which it is a part. In the original vote on the SST, both New Jersey senators voted against the plane. So did all congressmen, with the exception of Rep. Charles Sandman (R-26th Dist.) and Rep. Dominick Daniels (D-14th Dist.). It is too late to let them know of your displeasure.

Conservationists have consistently opposed the SST as an extreme environmental hazard. Since it will fly in the stratosphere, a part of the atmosphere where there is little vertical movement, the pollutants the plane releases will accumulate—probably blocking out sunlight and causing a "global gloom." The noise produced by the planes will be deafening—one SST sounding like 50 jumbo jets at take-off. If the plane ever reaches full speed, it will create ear-shattering sonic booms. In addition, one airline executive has testified that the SST does not meet a genuine market demand, and that the planes are not ready for it. Under Secretary of Transportation James Beggs testified that the government may have to spend $1 billion before the planes are finally built. That's a lot of tax dollars for an environmental hazard.

If anyone is interested in campaigning against the SST, please leave your name with Prof. Frank Kelland, Annex Two, Room five. Any assistance will be greatly welcomed.

Richard Insley

Trying to Understand RMN

Sometimes it is difficult to believe that President Richard M. Nixon is seeing the same world as the rest of us. Certainly his press conference last week, which I have been reading about, must have raised taxes to meet growing expenses. Under revenue sharing Gov. Nelson Rockefeller believes such hikes would not be necessary. New Jersey has a budget of $1.8 billion. This, according to Rocco Campi, a state budget analyst, will generate a $14 million surplus. He considers this "lucky," when compared to other states such as Pennsylvania, which face financial crises. However, when questioned on the possibility of future tax increases, he preferred not to comment.

The state stands to gain over $153 million from revenue sharing. Of this amount $52 million will be allocated to cities. This will help fill their empty coffers.

J. D. Hile at Large

Less Control by Feds

Revenue sharing is an innovative plan designed to decentralize the federal government. President Richard M. Nixon proposes to release $5 billion of federal aid to states and cities free of control.

States are in need of financial support. For example, New York must raise taxes to meet growing expenses. Under revenue sharing Gov. Nelson Rockefeller believes such hikes would not be necessary.

frightening plans?

do well to learn about the Winter Soldier testimony recently held, where dozens of American Vietnam vets talked about atrocities which they had witnessed and participated in. Altho the proceedings were all entirely ignored by the media, the information which did get out should be enough to make Americans think twice before getting indignant over what the enemy is doing.

Our actions and policies in Vietnam have been and continue to be dishonest and we have created the atmosphere in which our captured servicemen must suffer. If we want truly to help them we must act to change that atmosphere.

CAHILL STAUNCH SUPPORTER

Gov. Cahill is a staunch supporter of the plan. He states: "Failure to adopt the Nixon proposal will only lead to financial chaos for the cities of the nation."

Altho support of the proposal is widespread among the governor and many others is another matter. To be specific, Rep. Wilbur Mils (D-Ark.) vows to destroy the plan before it leaves committee.

As chairman of the powerful House Ways and Means Committee, Mills objects to giving funds free of controls. He believes that state and local governments have not progressed past the Boss Tweed era of corruption, thus making revenue sharing wasteful. Such opposition limits hope that the proposal will reach Congress for a vote.

Financial chaos will occur if revenue sharing fails to pass. States and cities will be forced to implement taxes to create revenue which could have come from Washington. This will be bad news to the already overburdened taxpayer.

It is tragic when one man can block a plan which is essential to the welfare of the nation. Revenue sharing would have been the first step of returning the people some of the billions which are poured into the massive federal bureaucracy.

Our America

GENTS ONLY

CHICAGO (UPI) — About 1500 youths marched out of all-male Lane Technical High School Tuesday and the march was set to the Chicago Board of Education building because they don't want girls in the school next year.

BELIEF IN YOUTH

Former federal Judge G. Harold Carswell, after his son Scott Simmons Carswell, 20, was arrested for possession of marijuana: "He did not have any possession of any thing of that nature. What I'm saying is what the boy has told me, and I believe him."

EXTRA MASTER PLAN

HEARING SET

Mrs. Katherine Neuberger, hearing chairman for Phase Two of the state Master Plan for Higher Education, announced late Wednesday that an educational hearing would be held "for students only" on April 24 in Trenton, exact time and place to be named. The announcement was made at the third Master Plan hearing at Glassboro State Colle.
Loneliness in a world of illusion

Scene from Ronald Ribman’s “Journey of the Fifth Horse.”

“Journey of the Fifth Horse” is a play which deals with the theme of extreme loneliness and isolation in a world of illusion and semi-reality. The presentation of the Ronald Ribman work is an in-depth study of that theme, fortified by the finest acting and directing one has seen at Montclair State College in the past four seasons.

Outstanding in the role of Zoditch was Robert Steiger, whose paintaking devotion to detail of characterization made it the delight of the evening. His interpretation of the fidgety first reader of the Grabow Publishing Company was consistently and intensively full of insight.

The imposing figure of Paul Nadus in the role of Chulkaturin embraced the very essence of the play with deep passion, pathos, and tenderness. Nadus appears to be the most promising actor of this season.

BEAUTIFUL MOMENTS

If overly-mannered movement detracted from the performances of Jack Magean as Rubin and Joe Black as Pan-dalekni, there were more than enough moments of beautifully-sketchet characterization to balance the scale.

Katherine McAteer as Katerina exhibited mature assurance and impressive poise in her role. Barbara Sholz once again brought professional flair to a role, as Chulkaturin’s housekeeper Tereintienna. Barbara Wasserman moved well as Liza, performances by Richard Nelson, Mary Jeanne Cullen and Betty Passafiume in their smaller roles were delightfully drawn from real life. The Feathers of Julia Indichova was a masterpiece of artful characterization.

PROFESSIONAL QUALITY

Designer John Figola graced the stage of Memorial auditorium with a set of striking perspectives in the theme of the play. Isolation, desolation and loneliness underlined imaginative scene changes, in which there were some interesting uses of projection devices. Costumes of professional quality were designed by Virginia Chapman.

The work of Jerry Rockwood proved to be flawless. His direction was distinctly Rockwood while “Journey” remained distinctly Ribman with a mutual respect and understanding apparent throughout.

One question, however, remains unanswered. What are the responsibilities of the stage manager? The answer to this vital question may have eliminated many embarrassing moments for audience and performers alike in an otherwise dynamically directed and forcefully acted production.
Politicians are taking too long to notice and attend to the problems facing our nation. Our governmental system isn't all bad. It just needs to become more responsive.

National problems are getting "band-aid" solutions because of too much pressure too late.

Better communications would help to identify problems and offer solutions early. Then government could be more responsive.

We're getting response by demonstrating. Isn't the type of pressure which brings about timely constructive change.

There are so many problems which need action now!

Have you heard of National Response?

What is National Response and how can it help?

National Response provides the way for everybody to rap with the government anytime. It offers a card pack and directory.

But I want to do my own thing and rap freely!

National Response carbon card packs allow everybody to do his thing freely—both alone and together.

What do we do with them?

You send the original card to whomever you wish. The National Response directory has all the names and addresses.

What happens then?

The cards sent to National Response are collated by subject and are used like a national petition.

Hey... That's cool! Those dudes in government can't ignore composite points of view.

This National Response service uses all the cards received and shows up at congressional committees with them at the right time.

Is that doing my thing alone?

Yes. For everybody to do his thing together, just send the preaddressed copy of the message to National Response.

Hey... Theirs is just a far-out way to get plugged-in to those dudes in government who can't ignore us now.

With National Response carbon card packs, we have a way to speak with National Response service. We have a way to get government to hear.

So that's how we do our thing together!

I'm going to get the National Response directory and carbon card packs.

Send in the order form with a check or money order—but don't send cash.

MSC's Squaws T-ounce
Glassboro for N.J. Title

Atlantic City -- Montclair State's women's basketball team, not content to let the men get all the glory, romped over Glassboro State, 62-40, for the New Jersey State Women's Basketball tournament held in Atlantic City High School.

More important than the win over the Profs, something that the men didn't find so easy this year, is the fact that the Squaws have notched a berth in the Middle Atlantic Women's Intercollegiate Basketball tournament slated for March 17, 18 and 19 at the University of Delaware.

MSC started the final game on the minus side as the Profs opened the scoring with a foul shot making the score, 1-0. But the Squaws countered with another basket and in the first minute, the score was knotted at 6-all.

At that point, MSC broke loose in the scoring and at the end of the first quarter led, 17-10.

The Profs, battling against MSC for the first time this season, played a man to man defense which was not expected by the Squaws. Montclair adjusted to Glassboro and, according to Coach Cathy Paskert, their game plan "went beautifully against it."

Glassboro's team composed mostly of field hockey players who utilize a running game, didn't count on MSC's pick and roll which opened up the game and allowed the Indians to take advantage of the scoring opportunities. By the end of the half, MSC held a 35-19 lead, and GSC was completely out of the contest.

Freshman Mary Hayek ended the tilt with the game-high score of 16. Denise Wood trailed in the scoring with 13. Connie Doerrmann was the only Prof to hit in double figures, scoring 12.

Miss Paskert, extremely pleased on the outcome, stated that it was "one of the better games." She had great praise for Captain Joan Ficke and Karen Biscaha and noted that the two were greatly responsible for cutting off Glassboro's fastbreak.

MSC Slashes Caldwell, 13-3

Led by the perfect 4-0 records of Marge Davis and freshman Nancy Murray, Montclair State's women's fencing team routed Caldwell College, 13-3.

In the meet, Captain Bonnie Levine picked up three victories while losing a close 4-3 bout. Karen VanBavel ended 2-0 in the meet. MSC's fourth win in six outings.

Last week Miss Murray qualified for the Women's North Atlanticics scheduled for later this month.

Bill Balogh's Tops
In North Atlantics

New London -- Bill Balogh of Montclair State College captured the all-around event in the third annual North Atlantic Gymnastics championship held last Saturday at the United States Coast Guard Academy gym.

The talented junior turned in a score of 46.05 to best Mike Collins of Long Island University. Collins, who won two events, floor exercise and long horse, posted a score of 44.10.

Ed Kuhn of Montclair State placed fourth in the all-around event with a score of 41.25.

Balogh took the still rings event with a score of 16.05, placed third in the floor horse with a mark of 15.30 and fourth in the horizontal bar with a score of 14.65.

Kuhn was second in parallel bars with a score of 16.15 and fourth in the horizontal bar.

Montclair State placed third in the team standings with a score of 125.1 behind Long Island University at 134.81 and West Chester State at 130.30.

MSC Fencers Cop Second NAIF Title

BY LYDIA EMERY
SPORTS WRITER
BUFFALO, N.Y.—For the second consecutive year, Montclair State College clinched the National Intercollegiate Fencing championship. With the exception of one fencer, Roger Marcogiano, the defending team, which registered 56 points, was identical to last year’s winner which scored 52 points.

MSC’s fencers also captured the Syracuse Trophy, given to the epee team that accumulates the most wins.

With 19 points, Montclair came in first in the epee competition. Indian Bruce Kinter, the defending epee champion, placed third individually with a 4-3-4 record, so losing his title to Russ Fischer of Newark College of Engineering. Todd Boeple, who also boasted an individual trophy as Dave Breyer, the 1968 saber champion, topped the field with a score of 6-1, defeating defending champion George Soriano of NCE. Glen MacKay, also fencing sabre, came in sixth place with a score of 2-5. In the first round they brought MSC’s saber team to second place with a total of 17 points.

After defeating Nick Franz of Rutgers, Indian Frank Mustilli placed second in the foil competition with a 5-2-0 record. Disheartened at having tied with Roc Volpe of Rutgers, who had also scored 5-2, Mustilli lost the fence-off. He explained, “I just couldn’t get up for the match.”

MSC’s Marcogiano was third in foil on most touches with a score of 4-3, after tying with Buffalo’s Larry Singer. In the first round of the epee competition Kinter placed first, going undefeated. Boeple won 8 bouts, while losing 3.

Marcogiano went undefeated in the first round of foil competition, winning all 1 bouts. Mustilli lost only 2 of his bouts. But despite the Indian’s efforts, Rutgers took the foil trophy.

REIGNING CHAMP: MSC’s undefended fencing team (left to right, kneeling) Roger Marcogiano, Todd Boeple, Frank Mustilli, Dave Breyer; (standing) Bruce Kinter, Bob Smith, Carl Davis, Walt Halushka, Glenn McKay, and Alex Colatrelia, return to MSC as North Atlantic fencing champs. In the meet, Breyer took first in sabre, Mustilli was second in foil, and kinter, 1970 epee champion, placed third in epee.

BUFFALO GETS THE NOD

By Jim Dente
Sports Writer

Montclair State College's basketball team begins its second season this weekend when it travels to Buffalo, N.Y., for the start of the National Collegiate Athletic Association's College Division eastern regional semifinals.

The Indians are slated to take on highly touted Buffalo State College Friday night in the first game of a doubleheader. The second contest pits C.W. Post and Hartwick College of Oneonta.

IRONICALLY, MSC must break a 2-game losing skid in order to survive in the tourney. The Indians fell to Jersey City State, costing them an outright championship and then to Fairleigh Dickinson University in the season's finale to finish with 17 victories and 5 defeats.

Buffalo State College is no stranger to coach Ollie Gelston's quintet. The Bengals knocked off MSC, 81-72, in last year's version of the championship and a unheralded MSC star is recovering from a bout with bronchitis. Great Britain's 1970-71 champion is also full of confidence.

Joe Lyons (6'9'', So.) vs. Tod McDougald (6'3'').

The MSC captain should have his work cut out for him in this game. Lyons has scored 413 career points and is capable of holding his own. A mentally prepared Davis should be a tough customer for him.

Bruce Davis (5'10'', Jr.) vs. George Holt (5'10'', Sr.).

Davis has scored 330 career points and Holt has 300. Both have shown promise this year and Holt has a year of experience under his belt, but has shown he can do an ample job off the boards.

Philadelphia Baccarella (6'5'', Jr.) vs. Glen Henley (6'2'', Sr.). Baccarella, with a 3'' height advantage, must be hot from the field to pick up any offensive slack left by McDougald's defensive emphasis. Henley is very capable and a jumper.

MSC's leading scorer Phil Baccarella (23) tries for a shot underneath the basket against FDU. Tonight Baccarella and the rest of the Indians go against Buffalo State College in the NCAA eastern regional semifinals.

IN THE NCAA Regionals

FDU Downs MSC

By Carol Sakowitz
Sports Writer

They said it couldn't be done. Montclair State College's basketball team, which just got the bid to the NCAA eastern regional finals, couldn't defeat Fairleigh Dickinson University nationally ranked number one in defense. They were right, almost.

MSC lost their last game of the regular season, 59-50, but FDU didn't romp over the Indians, as everyone expected.

Here's how the two arch rivals match up:

FORWARDS

Tod McDougald (6'3'', Jr.) vs. Randy Smith (6'6'', Sr.).

Last year's tournament scoring leader, Smith manhandled McDougald to tally 38 points. McDougald will have to play both ends of the court aciously and look for help from his teammates on defense. The unheralded MSC star is recovering from a bout with bronchitis in a sprained ankle.

Lois Smith.

Phil Baccarella (6'5'', Jr.) vs. Glen Henley (6'2'', Sr.). Baccarella, with a 3'' height advantage, must be hot from the field to pick up any offensive slack left by McDougald's defensive emphasis. Henley is very capable and a jumper.

MSC's leading scorer Phil Baccarella (23) tries for a shot against Fairleigh Dickinson in the NCAA eastern regional semifinals.

GUARDS

Joe Lyons (6'9'', So.) vs. Durie Burns (6'6'', Jr.). Burns can really get in the air if his 6'11'' leap in the high jump is any indication. Lyons, taller by some 3'', is just getting his first year of experience under his belt, but has shown he can do an ample job off the boards.

Harry James (6'1'', Sr.) vs. Ken Zak (5'11'', Jr.). James is the key to Indian victory hopes. The MSC captain should have little difficulty stopping the pesky Zak and will be looking for the hoop all night. Buffalo may be forced to double-team James should he get hot early. Zak is an excellent ballhandler and driver, but isn't too accurate outside.

COACHES

Ollie Gelston vs. Dan O'Brien: There is no substitute for experience. Gelston has accumulated over 200 career wins while O'Brien has led the Bengals to an 18-3 log in his rookie year after serving as an assistant for a number of seasons.

MSC has many edges, but Buffalo has the most crucial — a home court advantage. It should prove to be too much for FDU to cope with. Smith will break open a close game in the final 5 minutes and his club will go on to win by 12. However, Buffalo will fail to successfully defend its title, bowing to C.W. Post in the finals.

ONE-HANDING IT: MSC's Ken Waller (12) goes in for a shot against Fairleigh Dickinson as FDU's Ken Maxwell (25) and Lee Schulman (11) look on. The Indians lost the heartbreaker, 5-50.
