Phase Three

New Master Plan Calls for Cut in Undergrad Program

By W. Clark Flipp
Staff Writer

TRENTON — Phase Three of the Master Plan of the state Board of Higher Education was released yesterday by Chancellor Ralph Dungheap.

Phase Three calls for the complete elimination of all undergraduate studies at the six state colleges, and a restructuring of these colleges as high schools. This follows Phase Two’s dictum that all graduate work at New Jersey public colleges would be organized in a Graduate University of New Jersey except Rutgers programs. GUNJ would be administered by a central office in Newark.

DUNGHEAP COMMENTED: “It’s all being done for purposes of economy and efficiency. We feel that by centralizing undergraduate studies at Rutgers, thus creating one 150,000-student college, we’ll be able to administer it much more effectively.”

Immediate plans call for the appointment of a vice-chancellor of higher education, directly responsible to the chancellor’s office, to serve as president of the undergraduate college.

“The restructuring of the six state colleges as high schools also provides for better teacher training — which is the sole purpose for funding the state colleges, anyway. We figure that teachers can better understand high school by being in it for eight years than by taking college-level courses in such unnecessary areas as their major,” the chancellor said.

“THE RESTRUCTURING of the state colleges into high schools will return Montclair State to the lowly position it held in the nation’s educational system 40 years ago ... or was it only yesterday?” remarked MSC President Richard H. Thomason.

According to the Phase Three plans, the MSC library would be turned into a massive study hall. The schedule would be run on twelve 45-minute periods, and four years of “Composition and Literature” would be required of all students.

“However,” Dungheap said, “this Phase Three is only in the planning stages. A public hearing will be held next Friday in a phone booth on the corner of Main street and Eighth avenue in Trenton.”

Datebook

TODAY.
Thursday, April 1, 1971. It has 24 hours, 12 of which are generally in daylight, 12 of which are generally in darkness.

FRIDAY, APRIL 2.
Also in 1971, this day is scheduled to run from the close of the preceding day to the start of the following day, Saturday, April 3 (see below).

SATURDAY, APRIL 3.
Throughout the world, Saturday, April 3, will take place at different times, depending on location. Scheduled in 1971 and every year around this time, April 3 follows the preceding day.

SUNDAY, APRIL 4.
Legally beginning a new week, Sunday, April 4 is in fact the second half of a two-day weekend. It precedes the start of a Monday, and is generally considered a day of leisure.

MONDAY, APRIL 5.
Today, April 5, marks another day in which Monday schedules will be followed across the country. It generally precedes Tuesday, April 7, and follows the first day of the week.

TUESDAY, APRIL 6.
Located in the same column on the calendar as all other Tuesdays, April 6 is best known for following April 1 by five days. It is also known as the sixth of April.

Miss Student Union

Comely coed Tina Bellina has been named Miss Student Union in a recent contest held in a locked back room.
Phase Three -- Most Disturbing

The state's recent publication of Phase Three of the Master Plan is indeed. Vaguely reminiscent of Nazi Germany's desire to achieve the "master race," the document reeks of planned obsolescence and a politically-motivated urge.

What is probably most disturbing about the plan is that the entire thing was written without consulting those involved – Chancellor Ralph A. Dunghep, who stands to benefit a much stronger administration power-scepter, wasn't even asked how much of the money saved by the changes he wanted.

The setup, as briefly explained in the 476-page document, would deprive Montclair State of its undergraduate programs and would return it to its original high school purpose. This is okay by us, but it would put a lot of PhDs and administrators out of business. Thus, we really can't support it.

But Students Need Books

Last week's theft of $2600 of texts from Sprague library is thoroughly unfathomable. Anybody that would want what our library has must be in pretty bad shape, and we believe the college administration should begin providing special scholarships for these needy individuals.

Not that our lack of support is going to change anybody's mind. The entire decision was allegedly made long before the plan was even released. One highly-placed source in College Hall has informed us that already the state has installed a bell system which will signal the end of every 45-minute period. He was very high-placed when he told us.

Thus, we find it difficult to bother making a statement about the Master Plan's Phase Three.

Run, Bobby, Run

There are rumors throut the offices of the Student Government Association that SGA President Bobby Rydell is considering running for an unprecedented second term. We'd like to join those who hope that Bobby runs -- with the track team, that is.

SGA VIPs Pay Their Dues

After a lengthy three-month investigation into the affairs of the Student Government Association, Campus Whirl has learned that SGA leaders have paid out close to $4 million to public officials both at the college and in Trenton.

The team, headed by chief investigative whip Vic DeFleecem, discovered that SGA President Bobby Rydell has given Higher Education Chancellor Ralph Dunghep close to $100,000 in repayment for a 1987 Las Vegas gambling debt. In addition, Vice-President Shash Grapolackski has given Maintenance Director Joseph McDipp well over $760,000 to clean up the bodies and skeletons in the back of Stoned Hall.

The bodies were the work of a Newark-based protection firm the Rydell administration has employed to silence his political enemies since taking office early last year (Amongst the bodies, two long-lost editors of the MONTC LAIR IO N were found, plus the presidents of CLUB, BOSS, MOC nad James Cottagecheez, administrative assistant to the MSC president.)

Rydell has reportedly paid out less than $400,000 to Che Guaverra Associates to hijack several buses to Las Vegas. And nearly $500,000 has been discovered deposited to the numbered Garfield bank account of Louisa Solf, SGA moneybags.

It was reported late Tuesday how much of the money saved by the changes he wanted. The Rydell administration power scepter, wasn't even asked if MacKuhn is one of them. One notable critic is Divc Steinbeers, who rates him as one of the worst examples of today's modern 20th century contemporary poetry.

That is a lie. He is one of the prime movers of poetry in this great nation of ours and anybody who doesn't believe me is a Commie hippiie Fascist pig.

Mini Review

"Love is Just a four-letter Word, unless of course, you're in England, where it would only base three or five, depending on your dialect," a collection of words by Rob MacKuarn, published by Random Sampling, N.Y., $19.71.

This is a priceless addition to anyone's collection of modern this fine, upstanding, independent, unbound, unsold, poet from San Bernardino. It is now a matter of history how this poet, a self-proclaimed luner, came to and settled in San Bernardino after receiving his first acceptance notice from Bendit Surf, who fell immediately head over heels in love with his first book of poetry, entitled "Ignore The Gold."

Each poem is written on one page, with each side written on the other. This is to enable readers to match poem and title without too much intellectualizing.

BITS & PIECES: Former Newark mayor HUGE Q. ADDONIZZIO is teaching a course in ethics at MSC this fall. Secretary Francine Needafella has been released to the student body to teach the communists extortion for fun and profit.

The details have not officially been released to the student body since the college is aiming to avoid bad publicity from this incident. It was learned that Watson R. Bagel, vice-president for government, has paid Dean Lawton W. Plantation an undisclosed amount to keep his mouth shut.

Umgata Speaks Monday

Olympic garbage man George Umgata will speak on campus next Monday evening outside the student death building cafeteria at 8 p.m. ... The next episode in the "CIVILIZATION" series, "Man and His Money," will be presented by the MSC medium center tomorrow at 1 p.m., 4:30 p.m., 5 p.m., and 7:30 p.m.

A seminar series on the FUTURE FOR SGA PRESIDENTS will be held in the MSC administration building next week. ... The sculpture of Mary White, four-year-old from Clifton, will appear in Sprague library thru this Friday. ... La Campana will be signing up juniors for their ARMY ENLISTMENTS in the lobby of the student death building next Friday. ... An exhibit of NORTH JAPANESE ROCKS will be shown in the museum, College Hall 163, thru next Friday.

Structure Cut to 'Essentials'

The size of the proposed math-science building has been cut considerably, said a spokesman for the college yesterday.

Scheduled to be constructed at the north end of the campus outside Stone and Webster halls, the building was slated to be three stories high. However, "due to a cutback in federal funds, we've had to reduce the amount of classroom space and facilities in the structure to the barest essentials," the spokesman said.

REMAINING FOLLOWING the cut are a lounge, a doorway, and a sign announcing which building it was supposed to be.

The cojectives ..." Outline shows the math-science building as planned. The picture shows the currently-revised structure.

Janet Youth

Activities Assistant Appointed

SGA bookkeeper Mrs. Janet Youth was appointed assistant student activities director yesterday, said Thomas Stepyesterdayski, student activities director.

"Janet and I have been working very closely during the past few years, ever since I was SGA president, and I'm glad that this working relationship will continue in the future," Stepyesterdayski stated.

"I'M FLABBERVERGASTED," Mrs. Youth stated. "I know Tom liked me and everything, but this is too much."

"The entire student activities scene will be helped by Mrs. Youth. She's been like a mother to me all these years. And maybe she can slip a little of that bookkeeper's money to College Hall, as well."

"I'M FLABBERVERGASTED," Mrs. Youth stated. "I know Tom liked me and everything, but this is too much."

Adding to the 4000 students already returning next fall, this will make 9480 students attending Montclair State next semester.

Altho only 2800 parking spaces currently exist, MSC Vice-President for Money Vincent Calabria commented that, "There's no reason to worry. Our recent survey pointed out that there'll be enough parking for everyone without creating additional spaces." However, one administrator (who asked to remain anonymous) added that, to accommodate the additional students, the college is considering buying Clifton.

"CLASSROOM SPACE will, of course, be at a premium," said Gerry Queen, MSC facilities director. "But we'll survive. We always have."

Current plans for dealing with the increased student body are "unclear right now," said Queen, "but we'll let you know what's happening when we find out... like September.”

'sued to be constructed at the north end of the campus opposite Stone and Webster halls, the building was slated to be three stories high. However, "due to a cutback in federal funds, we've had to reduce the amount of classroom space and facilities in the structure to the barest essentials," the spokesman said.

REMAINING FOLLOWING the cut are a lounge, a doorway, and a sign announcing which building it was supposed to be.

Next Fall's Frosh Total 5480

MSC's admissions office announced today that, due to the overwhelming number of applicants, next year's freshman class will total 5480.

Next year's overcrowded class setup is clearly reflected in this scene during a math class in the student death building.

AND NOW, CLASS... Next year's overcrowded class setup is clearly reflected in this scene during a math class in the student death building.

Ho Raosoi to Worry*
BAYONNE — The Montclair State College Hockey Indians were trounced by a tough Greenstreet-Sydney squad in the post-season Rock Bottom Bowl held at the Bayonne Ice Palace last Friday. The 20-0 defeat was the bitter climax to the team’s first official season, which was labeled by Coach Bill Diobardi as “probably the most unfortunate undertaking ever embarked upon by a group assembled under the proud banner of Montclair State.”

“In that case,” echoed Diobardi, “we’re sunk.”

According to Athletic Director Montclary Anderson, much of the team’s difficulties came about due to a lack of funds. “I originally recommended an appropriation of $10,000 for the hockey program, but by the time the organizational red tape was cleared away, the final allotment came to $35.08. All the rest went to the football team.”

ANDERSON added that, due to the budget problems, the mothers of the members of the squad were asked to help out by handling small details such as “sewing uniforms, building a rink, and melting rubber for hockey pucks.”

With all of these problems, however, the main difficulty lies in the personnel department. Maurice Moran, ace center, commented that “I’m the closest thing to a superstar on this team, and I can’t even skate without holding my stick on the ice for balance.” Goalie Dave Levine added that “the defense in front of me is a joke, as you can see from the numerous scars on my body.

The adversity of the first season has only inspired Diobardi to work harder. “Before I’m thru here,” he asserted, “the world of college sports will thrill to the spectacle of Montclair State on ice!"

Sports Complex Planned

Plans have been finalized for the proposed new $5 million sports center, according to athletic director Montclary Anderson. The new arena, to be built in the quarry, will be

NEEDED SPEED

Topping DeSanta in his fantastic coverage of the Rock Bottom Bowl was the man from the Newsletter, Rydell. After promising thorou coverage in the huge sports section of the Newsletter, he was permitted to sit in the back of the sportscasting booth at the 6500-seat Ice Palace and supply

ON STRIKE: Anonymous football player protesting, during a practice, against unfair practices used by the opposing team.

al dante

The Backside of Bayonne

As a representative of myself and my cousin Bob, I had the extremist pleasure last week of attending the post-season Rock Bottom Bowl held at the Bayonne Ice Palace with two tremendous guys, Rich De Santa from WHAT-radio and Bobby Rydell from the SGA Newsletter.

They need no introduction, so they’ll get none. These two guys did such a fantastic job reporting back to MSC’s sports fans with the up-to-the-minute action that I fell on the floor laughing. I wouldn’t say these guys were bad, but the mouse got stoop-shouldered.

De Santa was rewarded for his efforts with the title of "NEEDED SPEED" - Radio and Bobby Rydell from the SGA Newsletter.

De Santa with his much-needed speed.

But everything wasn’t as much fun as the preceding few paragraphs would have you believe. For starters, we had to run from a band of angry housewives in Newark.

Anyway, we got to Bayonne as the game began and, tired out from the 30-mile run, promptly stuffed our faces with Pop-Tarts, which were supplied by some MSC bigwig. What was really funny about the run is that De Santa got a speeding ticket. After we got there, De Santa started picking a fight with Indian team captain Don Pendley.

REAL PRO

After getting the stuffings beat out of him, De Santa started the broadcast with a bloody mouth, multiple contusions and a Pop-Tart sticking out of his face. De Santa’s a real pro, tho, and handled the announcing just like he was stoned.

I hope more MSC students will grub up the dough next year and make the trip to Bayonne (provided they don’t remember who we are). Win or loose — very loose — the weekend was pretty fair.
