9-24-1971

The Montclarion, September 24, 1971

The Montclarion
Of course, the chancellor's name is Ralph A. Dungan, not with a "c" as it now appears on the sign marking the new college center, outside Partridge Hall. The MONTCLARION's sources in Trenton indicate that the state is aware of the error. However, the funds to buy the paint necessary to change the "c" to a "g" are allegedly held up in one of the Assembly's committees. Expected completion date for the correction is January 1972.

Dorm-Address Voting Urged
But Law Still Requires Home Registration

TRENTON (UPI) - New Jersey's attorney general wants the law changed so that 18-year-olds who choose to vote in the area they attend college may be permitted to do so.

But, George F. Kugler Jr., said Wednesday, that until the law is changed, he will urge that the present statute be followed, which requires students to register to vote on the basis of their permanent home address, not their temporary college one.

KUGLER, REACTING to a decision Tuesday from Superior Court Judge Frank J. Kingfield, which permits college students in that county to register to vote in the locale where they attend college, said he will appeal that ruling to get final "clarification" on the matter from the New Jersey Supreme Court.

The attorney general said he was directing his staff to prepare the necessary papers to file an appeal that he hoped the New Jersey high court would accept sometime in the next few months—an appeal that would rule on Kingfield's decision.

Kugler, who said he would not seek a postponement of the final date of registration, which closed yesterday, called for a change in the state election laws and amendments that would permit students to make the decision where they would establish their home at the age of 18.

STILL, KUGLER said, at the present in New Jersey, "We cannot treat students any different than anyone else" under present law.

Kugler called Kingfield's decision "a little bit too narrow."

"You don't automatically register a student because he lives in a dorm," Kugler told newsmen. "He must be a resident of the state."

SPEAKING in his office here, Kugler said there was little urgency to obtaining a final answer from the court because "very few students are affected." He meant, he said later, that very few students have applied to register at the place of their attending school.

Kugler said he hoped the high court would accept the case without having the state Appellate Division hear the case. This is not an unusual procedure.

Slick 10-speed English racers, as well as strenuous, single-speed Colombians are just a few of the types of bicycles to be found in various nooks and crannies on the Montclair State campus this fall.

The two-wheeler is coming into its own once again. With the ever-increasing automobile traffic problem, the once-defunct "wooden horse" is becoming the "faster, cheaper" way to get to college these days.

ALYNN GOOSE, a MSC frosh hailing from Woodbridge, in central New Jersey, commutes one and one-half miles every day from his off-campus residence via his Raleigh. "It's cheap from his off-campus residence one and one-half miles every day for SGA to handle and maybe put up some bikeracks equipped with overheads for rain. "Three or four shouldn't be too costly for SGA to handle and maybe the college could build some little areas especially for the bicycles," Gooen concluded.

Janet Blanks, a sophomore from East Orange, rides over seven miles to MSC each morning — an hour and a half, one-way. Why does she do it? "Mostly because I enjoy riding, it's economical and it's good exercise," Miss Blanks explained. "It only takes a few minutes — 772-1480.

Coeds Live and Learn

"Coeducational housing is a living-learning experience," according to Freeman Hall director Robert Giordano. But living and learning can also be the result of a security-stopped Friday night party.

According to a security guard on duty Friday evening, dorm director Giordano called the security office and asked for several guards to come over and break up the party.

"Because of the dance (the rumored Greatful Dead concert) being cancelled, a lot of kids must have been looking for a good time," the guard stated late Friday night. "They found out about the party, and pretty soon there were a lot of kids up here. Freeman Hall. The large party was broken up shortly after midnight, and guards were subsequently checking student ID cards.

But Giordano thinks problems like this can be overcome. "Altho conflicts may arise," he added, "if each resident respects one another as adult human beings and considers the problems and needs of each other, inconvenience will be minimal."

Coed living is basically good, Giordano believes, and helps to break down barriers in meeting the opposite sex. Self-confidence is also increased, he added.

The coed living experiment resulted from students' requests last January, and received administrative approval.

5 Minus 1 is Still a Long Wait

The difficulties and delays experienced by MSC students during registration will be somewhat lessened this spring, according to Anthony Notare, computer center director.

He commented that the improvement would come about as a result of the elimination of some computer problems that have been encountered in the past. Citing a specific example, Notare stated that students can expect 99% accuracy in class designation, thereby eliminating one of the five registration lines.

RECENTLY, NOTARE, DR. THOMAS H. RICHARDSON, MEMBERS of the registrar's staff and various department chairmen met to discuss past failures, and possible future improvements of the computer system. Notare declined to comment on the specific problems that have plagued the computer system, explaining that it would be unethical, since it concerns other people.

Commenting on the innovative period, Notare stated that students would be guaranteed in-person registration for students who pre-registered for innovative offerings. As for the regular spring semester, he added that procedures for pre-registration will be the same as they have in the past, "so he anticipates the elimination of much of the confusion that has occurred previously."
People Popping Out All Over

As it was reported in last week’s issue of the MONTCLARION, we can expect an extra 1000 people on the Montclair State campus next year. While it would be unfair to suggest that MSC should not attempt to fill its potential in accommodating future New Jersey students, it is doubtful that we will be able to handle this extra 1000 people competently without some serious re-juggling.

The new math/science building and the student union are scheduled to be opened in the spring, however it is questionable that they will be able to provide dorm space or an extra parking lot for this new influx of students.

It seems obvious that the campus will be a scene of uncontrolled chaos unless sufficient preparation is made.

Prison Resolution

Was Moral Issue

The mild controversy over the choice of productions for Players’ 1971-72 season may be offset by one of the greatest comedy productions on the Montclair State campus – and hopefully, one of the best-attended.

We refer, of course, to the STUDENT GOVERNMENT ASSOCIATION’s weekly legislative meetings, held in studio theater (K-200) at 4 p.m. Tuesday – but particularly to a new addition... the legislation sponsored by such Provost-oriented people as math department rep Leon Varjian, fine and performing arts school rep Alan Jacobs and fine arts department rep Bruce Conforth.

Much of the Provpro People’s legislation promises to be of a concerned, humanistic nature – such as their bill concerning humane treatment of prisoners at Attica State Prison and San Quentin State Prison or their bill protesting the use of non-organic insecticides on the MSC campus.

But much of their legislation – at least from the eyes of some legislators – seems to be of a greatly satiric nature, such as their proposal to fill the area between Sprague library and the industrial arts building with Brazilian quicksand or their bill to substitute the letter “z” for the letter “s” in all SGA literature and correspondence.

SGA President TERRY B. LEE seems to be concerned that what the Provpro People are doing will harm SGA. But it’s just possible that the Provpro People’s satiric legislation will appeal to the cynical MSC student’s mind enough to make him attend the weekly legislative meetings. And a lot of legislators feel that it’d be better to get the student body there “for laughs” than not to get them there at all.

The Legislative Provo

As to what comes next – we must say that, tho it might have been a good slogan for World War II, crushing our own people under its weight is suicide.

As I said, the country was left free to grow, free to learn from its mistakes as well as successes. It grew for a long time. But somewhere, America became caught up in the chains of its own institutions. Too many hungry, greedy men got together and convinced the people that the country can grow up no more... That it is the tallest possible America and now can only grow fat.

AMERICAN MONARCHY

Deterioration has set in and people ask why. Our institutions have become as stagnant and antiquated as the monarchy had been. Our politics as elitist as the old aristocracy. No one can hear the people – too busy watching football games.

With signs of a coming rebellion, some shout, “What alternatives do you offer?”

We can only say: What alternatives did the Declaration offer? What alternatives did the Constitution offer? What alternatives did the Bill of Rights offer? What alternatives did the Constitution offer? What alternatives did the Bill of Rights offer? What alternatives did the Declaration offer? No one can hear the people – too busy watching football games.

As to what comes next – we can only hope that when the institutions fall, we will have learned from our mistake and never cease to grow upward.

Master Schedules Obsolete

To the Editor:

I think everyone agrees that he has a legitimate gripe against the administration here at MSC. One gripe in particular however, should have substantial attention.

The procedure of distributing master schedules in April or May for the semester is only a waste of time and self-defeating. What recourse does a student have when after re-arranged and no notice given attention of the student? We must prepare students to survive.

J.D. Hile

The Blame Is Due

Don Pendley

MSC's New Courses

In order to maintain an adequate schedule for oneself.

AN EROTIC TOUR OF NEW YORK: Several of the English department's 'alive and kicking' junior members conduct this weekly tour of "the city," with stops from Christopher to 42nd streets.

PUPPETRY I & II: String analysis from the floor of the SGA Legislature to the front executive table will be studied.

INTRODUCTORY PARKING: Methods of parking throurue the MSC campus will be examined, with no attention at all paid to faculty spaces.

COMPARATIVE PARKING: Parking throurue the state and nation will be studied. Air sickness bags will be provided for MSC undergrads.

DORM ENGINEERING: Methods of improving Bob Hall's future posture will be examined, with emphasis given to soil conditions and high winds, particularly those originating from College Hall.

PRO FOOTBALL FINANCING: Methods of obtaining funds for adequately college-financing the New York Giants in their Jersey move will be examined, with attention paid to such activities as the benefits of Artsturther Sprague field.

OFF-CAMPUS ADMINISTRATIVE OFFICES: Field trips will be taken to those points of interest, off-campus, where MSC's administrative decisions are made. Students must be of drinking age.

Dupe: "OK, if you say so.

WITh THE WARDEN...

Right-On: "Alright — listen, Sammy, Dupe doesn't want you to say anything that might cause better conditions and humane treatment. He's trying to get the state and your feedback). We must check referrals for statistical use — and for statistical purposes only. We must ascertain their ability, the skills, the confidence in themselves that they have one more insane situation to put up with.

Tom Mikołajczyk '72, Business Administration

To the Editor:

In that we felt that the Helpline feature (Sept. 10, 1971) was misleading, we address the following letter to the MSC students:

Dear fellow students, we would like to correct any misuderstandings concerning MSC Helpline. Helpline is a small group of students existing to help students develop confidence in themselves that they can cope — that they have the ability, the skills, the understanding to cope with life.

There's nothing like giving skills, things one can do, to give a person confidence.

Warden: "Go ahead.

IN ANOTHER ROOM...

Dupe: "We're sorry to bring you two up here, Sammy. We didn't think that you'd agreed to our demands we can release the hostages.

Right-On: "But they haven't agreed. What about amnesty?

Dupe: "Amnesty? Was that one of our demands?

Sammy: "No. But it is now and don't forget Spangela Cravis.

Right-On: "And finally transportation to a non-imperialistic country.

Warden: "It is not within my power to grant such requests. Perhaps we can negotiate?"

Sammy: "They're non-negotiable. Agree or the hostages will suffer!"

Warden: "Dupe, is this what you want?"

Dupe: "L...

Warden: "Yes, and he also wants Spangela Cravis freed!"

Warden: "Don't make us get the Warden...

Right-On: "...and finally..."

Warden: "Never mind. Just scare him. He'd rather die than resort to force."

Sammy: "Somebody tell me what's going on."

Warden: "Fascist-imperialist-pig regime."

Warden: "Helpline's official assistant dean of students, acts here to talk and HELP.

Warden: "I find these hostage and 31 prisoners died on and you'll get the results."

Methodone detox are available. We're onto new referrals and expanding now, and we're also here to talk and HELP.

Farmacists are under no obligation to release or to carry the call on your own as well. We must bring our ability to serve you promptly, economically (some are free!), and personally. Although we cannot guarantee confidentiality from referral agencies, we do try to secure this, as well. Our bulk of referrals are present deals with legal, e.g. counseling for legal, aademic, abortion or pregnancy, career or employment, problem, also VD treatment, hospitals, unemployment, housing, and drug centers (some with Warden: "They're non-negotiable. Agree or the hostages will suffer!"

**'CLUB'**

Films and newsreels pervade campus

By Chic Miles
Staff Writer

Dynamic, aggressive and hard-working are the impressions one gets after talking with Arnie DePasquale, student and cochairman of the College Life Union Board (CLUB) Cinema Committee. Now working for United Press International television news, Arnie has been a main cog in obtaining feature movies for Montclair State.

A big success last year, Club Cinema scheduled such movies as "2001", "Boys in the Band", and "Patron". "Woodstock" will be included among the ten future movie features of this year. Also included in the curricula are cartoons, short films, and other short features that will be shown in various lounges on campus. CLUB is worked on a non-profit basis, but if a profit is made, more films will be shown at a low cost - or for free.

**NEWSREELS**

"'Home-Grown Newsreels' was an idea brought into existence last year by the Cinema Committee with the help of DePasquale.

"'Home-Grown Newsreels'

are films made on campus of the major events of the year. "Hopefully we will make movies of homecoming, the Christmas Ball, and of all other important events here at Montclair State this year," DePasquale stated. Other plans are also in the making. "Every time there is a film presented here, we will attempt to have an actor, producer, or director of the film here also," remarked Arnie.

Working in conjunction with West Point and the University of Miami, CLUB hopes to trade and share newsreels.

Asked if he was optimistic that this project was going to be successful, the young man replied, "People in CLUB are not lazy, they like to do things. When people get involved in something, they become interested."

---

**'Quarterly'**

Exploring new horizons

By Catherine Jacob
Staff Writer

An emphasis on "creative expression" summarizes the literary philosophy of Curt De Groat, the new production manager of Quarterly, Montclair State's literary magazine. "Quarterly would like to see some of the less experienced, non-professional students on campus get a chance to express themselves creatively," he said.

De Groat, a member of the Quarterly staff for three years, was the need for other vehicles thru which students can expand their artistic abilities. He would like to set up a program of four workshops, dealing with prose, poetry, drama and visual arts and photography. More specific plans for these workshops have not yet been definitely outlined, he said.

VERY INFORMAL

The atmosphere of these workshops will be very informal and elastic, De Groat stresses. He hopes that this will attract those students who have creative ideas but do not know how to implement them, and considers multimedia exhibits, poetry readings and the production of a play as realistic possibilities for workshop activities.

Since De Groat is relying upon ideas and responses from the college community to help get the project underway, he is inviting interested students to stop at the Quarterly office.

"Just come in and talk about what you're interested in," De Groat concluded.

---

**'N.J. Symphony'**

Season starts at MHS

The New Jersey Symphony Orchestra season will open locally. Two concerts will be given on Oct. 15 and 16 at Montclair and Millburn High Schools, respectively.

The 1971-1972 season is anticipated to run for 21 weeks thru next spring and for five weeks into the summer of 1972.

Seventy-five student concerts are planned out of a total of 120, including about 45 full-scale concerts. Details of the orchestra's full schedule and its soloists will be announced.

Henry Lewis, the orchestra's music director, will be conducting for his fourth season. Subscription series are planned for several North Jersey communities. Also scheduled are the orchestra's popular family concerts, which are designed to suit a variety of tastes. The orchestra is due to perform at the new John F. Kennedy Center for the Performing Arts in Washington, D.C. on Nov. 12, at Carnegie Hall in New York City on Nov. 10, and at Rutgers/New Brunswick on Nov. 8.

Mike Nichols' "Carnal Knowledge", currently in national release across the country, marks a reunion of the premier stage and film director and the author-cartoonist-playwright-screenwriter, Jules Feiffer. The two originally collaborated on the Broadway musical, "The Apple Tree," in 1966.

Feiffer wrote "Carnal Knowledge" as a stage vehicle, but Nichols saw it as an incisive screenplay. The rest is history. The Joseph E. Levine presentation for Avco Embassy Pictures is receiving worldwide critical acclaim.

Nichols will soon begin rehearsals on a Broadway play, "The Prisoner of Second Avenue" after which he will start a new film for Avco Embassy Pictures.

Bob De Goria closes in. MSC scored a comeback victory in the season opener at Kutztown, 25-20.

THAT’S FAR ENOUGH: Kutztown halfback Doug Dennison is tied up by MSC’s Jerry Caputo as guard Mark Swidrow blocks.

If you can name something else besides staplers and a handy carrying pouch. It staples, tacks and mends. It’s unconditionally guaranteed. It’s one of the world’s smallest staplers. And it’s the world’s biggest seller. Could be that’s why it hasn’t gone up in price in 21 years.

If you’re interested in something a little bigger, our Cub Desk Stapler and Cub Hand Stapler are only $1.98. Both Tot and Cub Staplers are available at Stationery, Variety and College Bookstores.

The Swingline “Tot 50” 98¢ in 1950, 98¢ in 1971. If you can name something else that hasn’t gone up in price since 1950, let us know. We’ll send you a free Tot Stapler with 1000 staples and a vinyl pouch. Envelope 25¢ to cover postage and handling.

MSC Takes Squeeker

Montclair State College’s baseball team squeaked past Manhattan College Wednesday, 6-5, in a fall game at Clifton Grammar School.

The Indians split a pair of games in the semifinals of the Manhattan Coaches playoffs. Saturday, the Indians suffered what they believe to be their first defeat this season against Baruch College, 3-2. Tuesday, they reversed the outcome with a 3-2 victory over St. Peter’s.

MSC CAME up with the winning run against Manhattan in the seventh inning. Bob DeJianne, brother of former MSC baseball player Don DeJianne, singled to start the rally. The Indians managed to get bases loaded before pitcher Kevin Cooney squeezed home the winning run.

The Indians slugged 11 hits against Baruch’s two, but seven miscues provided the edge Baruch needed tooust MSC from the tournament. MSC’s slugging first baseman, Charlie Williams collected three hits against Baruch.

Carl Gordon also had a good day at the plate against Baruch, punching out two singles. Tony Scarlattini only had one hit against Baruch, but that was a run-producing triple.

DeJIANNE WAS one of the heroes in Sunday’s game against St. Peter’s. DeJianne’s RBI double was one of four hit by the Indians. Stu Ricter clouted a two-bagger to knock in a run. John Bradshaw also doubled for the Indians and scored the third run.

Winning pitcher Paul Parker doubled in the game. Parker is undefeated in two games. Rich Williams collected three hits against Drew University. Booters begin season in earnest today at Brookdale Park. Game time is 3 p.m.

Kutztown Cut Down, 25-20

By Carol Sakowitz

KUTZTOWN, PA. — Kutztown State College threw Montclair State for a loop last Saturday, but the Indians scored three touchdowns in the second half to stage a come-from-behind victory over the Bears, 25-20.

Glen Morschauser, MSC’s veteran halfback, sparked a suddenly-alive offense with two touchdowns. Morschauser, an All-East honorable mention this week, brought his career scoring record within one touchdown of the school’s all-time record of 26 held by Dom Deo. He also needs six points to equal the all-time record for points scored by an MSC player.

KUTZTOWN QUARTERBACK Terry Wogirich picked apart a highly-touted MSC defense to complete 17 out of 26 passes for 194 yards. MSC quarterback Bob Brewster and Ron Gara combined for only eight out of 18 passes for 118 yards.

The turning point for MSC came early in the third quarter. Trailing 14 at the half, middle guard Tom D’Onofrio blocked a KSC punt and set the offense up on Kutztown’s 11-yard line. The block, which highlighted an outstanding defensive effort by D’Onofrio gave him a berth on the All-East first team this week.

The heroes on the part of D’Onofrio caused a great change in the ineffective MSC offense which managed to score only three points in the first half despite advancing twice to KSC’s five-yard-line. A KSC penalty brought the ball to the three and two plays later, Brewster handed off to Morschauser for the first down.

Brewster brought the ball over himself for the first TD. Brewster passed to Morschauser for the two-point conversion. At 5:49 MSC trailed KSC by three points and began the move toward an opening game victory.

Making Love Is Great.
Making Her Pregnant Isn’t.

Face it. “Be prepared” isn’t just for Boy Scouts. If you really care about your life and how you’ll take precautions to prevent an accidental pregnancy. By using a condom. One of today’s new condoms…as reliably reliable yet so exquisitely sensitive that you no longer have to sacrifice pleasure for safety.

Worry-free and yes! So why run the risk of accidental pregnancy? Especially now that you can get brand-name condom products—all from Popula tion Planning Associates. The 11 top brands we offer have been carefully selected from the more than 100 available today. All are electronically tested and meet rigorous FDA standards.

Choose from the Fetherlite from England, thinnest and most exciting to use, with “Sensitol” lubrication for extra enjoyment. Or the famous Trojan. Or the well-known and popular Sultan. And many more.

Fast Delivery—Money-Back Guarantee

Discover our fast, low-cost service by sending just $5 for a deluxe sampler pack of 18 assorted condoms—a mix from Population Planning Associates. The 11 top brands we offer have been carefully selected from the more than 100 available today. All are electronically tested and meet rigorous FDA standards.

Choose from the Fetherlite from England, thinnest and most exciting to use, with “Sensitol” lubrication for extra enjoyment. Or the famous Trojan. Or the well-known and popular Sultan. And many more.
