SGA Votes To Halt Future MAC Funding

By Susan Kelly

Staff Writer

The legislature of the Student Government Association unanimously passed a bill requesting that no further funds be given to the Montclair Athletic Commission (MAC) until the organization obtains a class one charter. Robert Watson, history department rep, submitted the bill which would return MAC to the level of such organizations as the Music Organizations Commission (MOC), College Life Union Board (CLUB), Montclair Student Union Board (CLUB), Montclair, La Campana, etc.

The SGA gives MAC a large amount of money each year and has no control over their funds," said Watson at the Tuesday meeting of the legislature. "I cannot see why MAC should be treated differently than the class one organizations," he continued. A referendum passed by the Montclair State student body in 1969 removed MAC from the Faculty-Student Co-op and the SGA has no further control over any expenditures. The purpose of his bill, he said, was not to reduce or limit MAC's funds but to give the students more control over these funds.

A committee of students, faculty and administrators met prior to the SGA meeting on Tuesday to investigate alternative ways of funding MAC. William Dioguardi, director of athletics and chairman of MAC, complained about the "negative attitude" of the participating students. He said that the sole purpose of the meeting was to investigate alternate methods of financing MAC, not to separate that body from the SGA. Dioguardi explained that he desires a change in funding because "the indecisiveness of each legislature gives too much instability to a program of MAC's size." His complaints refer to the fall disputes in the SGA over MAC's budget allotment of approximately $115,000. Dioguardi continued to say that the athletic program has much to do with the caliber and type of student which attends MSC. The SGA, especially at budget time, should not have the prerogative to reduce a program that has taken years to build, he said.

Watson stated that "from MSC President Thomas H. Richardson's opening remarks, it became apparent that the purpose of the meeting was to take control of MAC away from the SGA." He stressed that since MAC is student funded, the student government must control its funding. Richardson stated later, however, that it was not his intention to remove MAC from SGA but to find a way to provide MAC with funds earlier in the year in order that they may make their commitments in advance.

"The point made at the meeting was that the SGA is not capable of running MAC," Watson stated. The implication of this point, he continued, is that if the SGA cannot handle the funds for one organization, it cannot handle the funds for other organizations.

The fact that neither Richardson nor Dioguardi came to the SGA to work out a solution to the funding problem placed further outside committee was another one of Watson's objections.

"We supposedly represent student interest on campus," stated SGA vice-president Bill Adal. If their interest in athletics is equivalent to one third of the funds, then MAC is entitled to these funds, he said. If this interest should shift to another area, then that organization should receive increased funds. Vic DeLuca, another History department rep, supported the bill saying that "MAC is not on firm ground." A member of MAC, DeLuca said that he "didn't get any worth" from his membership. At Country Club
Hike Under Study

JAMESBURG--The tuition hike is still under study by the state Board of Higher Education, the board announced at their meeting Wednesday. A spokesman for the board's finance committee said that "We don't feel we want to deal with it (the tuition increase) lightly. We feel we should give it a continued, indepth study." THE MEETING, held at the Forsgate Country Club here, brought approximately 20 students from New Jersey state colleges and Rutgers University with Montclair State being represented by Sam Crane, SGA public relations officer.

Several members of the board mentioned their dissatisfaction with the present tax structure. One member of the board, Rabbi Martin Friedman, pointed out that "Of the 60,000 students in state schools, approximately 25,000 will pay zero increase, with the type of tuition increase we have." He also said that under the tuition hike proposed by Rutgers President Dr. Edward Bloustein, although the hike would be only 80¢, it would extend to all students — even those whose parents' salaries were under $10,000, who would pay nothing under the board's proposal.

Dayshift Shifts Focus

The dawn of Dayshift dates back to September 1970. Richard Insley, one of its original founders, says that the paper was to provide "an alternate newspaper to inform the students of the political and social features in the college community that the Montclarion wasn't handling." Insley, who is no longer associated with the publication, said that the original Dayshift had been selective in printing only well written, appropriate submissions. Referring to Dayshift's new trend, Insley merely stated, "It's changed — it's different now."

Leon Varjian, who has been with Dayshift since its founding, agrees that the paper was more political last year. According to Varjian, "Dayshift has opened up to anything. People who are interested can write whatever they want. We'll print everything — no censorship."

VARJIAN SAID there is no longer an editorial staff, "It's put together by whoever feels like doing it at the time." Dayshift, funded by the Protestant Foundation of MSC, publishes all types of literary efforts about every three weeks.

To support this statement, she quoted some findings of the Women's Equity Action League. Ninety per cent of the men with doctorates and 26 years in academics are full professors. For women with the same qualifications, barely half will ever be full professors.

STUDIES HAVE found that women with the same qualifications as men tend to be hired less frequently and, at a lower rank, are promoted less often and receive lower salaries. Studies have also found that women need higher marks than men to enter college.

Garfield is pleased that Richardson has asked that this committee be formed. She explained that other schools have taken similar action only after being pressured by the federal government.

Richardson stated that he has long been aware that women are discriminated against in our society. He said that this problem is not the result of "some sort of sinister plot," but that people just do not realize the seriousness of the situation.

Rep Vacancies To Be Filled

By Joan Miketuk
Staff Writer

The nine vacant legislator seats in the SGA will be filled within the week according to Terry Lee, SGA president. Students, who will be appointed to these positions by Lee, must be approved by a vote of the legislative body.

The seats vacant are: French department rep., industrial education dept. rep., two fine arts department reps., physical education dept. rep., physics earth science department rep. and biology department rep.

"ORIGINALLY A lot of seats were vacant because no one ran for the position," explained Lee.

He also pointed out that several seats were vacated because of a statutory rule that forbids a legislator his position if he has missed three consecutive meetings without a reasonable excuse.

In the past, the rule was not strictly enforced. This gave way to apathy and, as Lee said, "The situation seemed to be getting chronic."

THEREFORE, LEE put the statute into action and several legislators were forced to relinquish their positions.

"As the SGA becomes stronger this apathy should decrease," Lee commented. He added that he plans to strengthen the SGA through the reorganization of some aspects of its functions.

Directories Delayed

By Susan Kelly
Staff Writer

The 1971-72 Montclair State student directory fell victim to a series of mishaps which delayed its arrival at MSC.

Bill Asdal, vice-president of the Student Government Association, explained that the task of alphabetizing the listing of students in the directory took weeks. "It's a legitimate delay," said Asdal who explained that Alpha Phi Omega does most of this job. Wendy Gillespie, SGA treasurer, said that this job was not completed until mid-October.

Further delay was incurred when objections were raised that the faculty was not given a choice as to whether their names appeared in the directory, as were the students. Gillespie complained that the faculty waited for months before raising their objections. Among their objections was a belief that the directories are sold as mailing lists, she continued. The copy for the directory was not mailed to the printers in Texas until early December and there were no faculty members listed, she said.

A third delay was the result of confusion over the advertising in the directory. When the project was finally completed, it was shipped from Texas in early February and has not yet arrived at MSC. Asdal affirmed that the confirmation of shipment was sent to the SGA but he does not know what happened to the directories.

The student directory is printed at no cost to the student body, Asdal said. Local and national advertising meet the expenses of the book.

Co-op Gives Second Chance

By Donna Lee Goldberg
Staff Writer

Double your pleasure, double your fun should be the theme in the Loser's Lottery sponsored by the Student Co-op and Bookstore.

Doris Asdal, director of the Faculty Student Co-op said during her interview in her office that "we wanted to promote the sale of lottery tickets and decided to start off with the Loser's Lottery."

"THE WEEKLY Loser's Lottery is limited to the New Jersey lottery tickets bought at school the previous week. The losing tickets are deposited in a jar in the bookstore. On Wednesday, Asdal selects a student that she doesn't know to pull six tickets from the jar. These winners receive a new lottery ticket for the state lottery. Asdal agreed that it was "two chances for 50 cents."

Tickets have only been sold at the college since Feb. 16, 1972 although a license was applied for a year ago. According to Asdal, "MSC is the second college to sell tickets. Seton Hall was first and now William Paterson is looking into it."

"LIMITING THE Loser's Lottery to tickets sold here, keeps it within the group," commented Asdal. She added that "the lottery helps education. For example, 5 per cent on each ticket sold by the Co-op goes back to it. If someone wins it money also goes back to the Co-op."

Various projects have had money advanced at MSC by the Co-op such as the lights at Sprague field and $50,000 for the new student union building. When a student wins it can help pay for school expenses."

When the legality of the Loser's Lottery was questioned, Asdal reported, "We checked into this matter. Since there is no cost involved and the people who buy their ticket in, there is no need for a license. No one can win twice on one ticket because a winning lottery ticket must be submitted to the State lottery commission.""The enthusiasm for the Loser's Lottery is surprising. I'm very optimistic," the director said, "Since we have only had two drawings since Feb. 16."

The lottery is held Wednesday to give night students a chance to submit their tickets on Monday or Tuesday night. Even the construction men come in for the Loser's Lottery," she added smiling.

So far, no one has gone on to win in the state lottery from the Loser's Lottery. The idea, suggested by a letter sent originated in a local candy store.

CCP Interest Declines

New Security Force Planned

By Joan Miketruk
Staff Writer

"My goal is to have a very strong crime prevention unit," said Keith Kauffman, the new director of campus security at a conference with student leaders of the SGA and the MONTCLARION last week.

At the meeting called by Dr. Allan Morehead, executive vice president and provost, Kauffman related his plans for a campus police unit similar in operation to a municipal police department.

THE CAMPUS patrolmen would have to fit certain qualifications of age, height, weight, vision and physical fitness.

A training program will be offered to those people presently serving as security guards who wish to qualify for the campus patrolmen unit. The same program will also be offered to those people recruited for the positions.

The new police force will "not happen overnight," said Kauffman. "It will take a lot of recruiting."

UNTIL THE police force goes into action, the campus will rely on the Montclair Police Department to investigate and follow-up crimes.

Throughout the conference, Kauffman stressed the need for open communication with the student body. "If we don't know about any incidents happening on campus, we can't do anything about them," he said.

He also asked that students who are victims of theft or need assistance should call the security desk at 039-5222. Service will be available there 24 hours a day.

KAUFFMAN, a former state trooper, said that he will reorganize the security department, dividing it into two sections.

The safety department which will be headed by Joseph Daly, former director of security, will be concerned with fire safety, prevention and investigation.

The security department will take on the tasks of crime prevention and investigation. The head of this department will be named in the near future, said Kauffman.

KAUFFMAN REMARKED that he saw Montclair State as a "bustling city" and that "there is a definite need to elevate the security program to keep in concert with this bustling city."

Kauffman said, "I will still use the student patrol (the yellowjackets) and I think that their tasks and responsibilities could be escalated."

The former director of public safety in Camden, N.J. remarked that there seemed to be only a small percentage of students responsible for the criminal incidents occurring on campus.

KAUFFMAN ALSO cited the problem of people not associated with MSC gaining entrance to the school and its buildings. But he also pointed out that he has "no intentions of closing the open campus; however, we have to be better equipped to solve the problems of an open campus."

When questioned by Terry Lee, SGA president, about the distribution of parking tickets, Kauffman said, "We should not emphasize the quantity of tickets, but the quality." He cited the violation of the student who parks in front of a fire hydrant as being more serious than that of one who parks in a faculty space.

He cited the violation of the student who parks in front of a fire hydrant as being more serious than that of one who parks in a faculty space.

Kauffman also plans a more consistent schedule as to which lots are restricted and when they will be off-limits to the student population. Investigations are underway on the flow of traffic with the goal of establishing ways to make travel through the campus smoother.

"OUR EFFORTS are designed to provide a safe and secure environment to study and take part in extracurricular activities," Kauffman explained.

SGA ROUNDUP

TUES. MARCH 7, 1972

SEVERANCE OF MAC'S FUNDS

Bob Watson, History department rep., Larry Bishop, School of Social and Behavioral Sciences rep. and Lioeld Golanman, School of Math and Sciences rep, sponsored a bill that would withhold further funding from the Montclair Athletic Commission until that organization had applied for and received a charter. The bill carried unanimously.

ESTABLISHMENT OF NEW SGA REVIEW COMMITTEE

Larry Bishop, School of Social and Behavioral Sciences rep. and Marguerite Banks, Germanic-Slavic department rep. co-sponsored a bill that called for the dissolution of the present SGA review committee and the establishment of a new one to consist of: one member of the SGA Executive Board, one member of the Commuter Commission, one member of the Black, Brown, White Relations Committee, the vice-president of academic affairs, three SGA legislators, one IPC-SCC member, one male and one female from the Dorm Council and three students-at-large. The bill was amended to include the vice-president of external affairs and also that at least one of the legislators and students-at-large be a female. The bill then carried.

APPOINTMENTS TO MAC

The legislature approved Al Mancuro and Pete Winiacki as the sophomore representatives to the Montclair Athletic Commission. The bill passed.

DISPOSITION OF WAR MEMORIAL BOARD FUND

Vic DeLuca, History department rep. and Larry Bishop, School of Social and Behavioral Sciences rep., submitted a bill calling for the four dollar War Memorial Fee, collected during the legislature approved A1 1972. The bill carried.

MEMORIAL BOARD FUND

DeLuca, History department rep., and Larry Bishop, School of Social and Behavioral Sciences rep., submitted a bill calling for SGA executive elections to be held April 28, 1972. It was also noted that the petitions will be available in the SGA office on April 4. The bill carried.

SGA EXECUTIVE ELECTIONS DATE

Jan Snyder, Chemistry department rep., submitted a bill calling for SGA executive elections to be held April 28, 1972. It was also noted that the petitions will be available in the SGA office on April 4. The bill carried.

Beach Boys Bombard MSC

By Bill Gibson
Staff Writer

"You want to hear Jumpin' Jack Flash? Come on now, we're better than the Stones. Jagger gets up there, screams, swivels his hips, and you people go wild. Hell, I'm sexier than the whole group put together."

That's the claim of Mike Love, who, along with the rest of the Beach Boys, will bring the Californian sound to MSC on March 18 in two CLUB sponsored concerts in Panzer Gym at 8 and 10 p.m. Brian Wilson has not yet ended his self-imposed exile from public life and will not appear at the concert.

Despite Brian's absence from the stage, his aura still permeates the atmosphere. It was Brian who in 1962 created the California sound—an urban folk music. Through Brian, it has developed from a fun type of music to the advanced stages of serious rock, always maintaining that particular quality which distinguishes the music as "pure Beach Boys."

On stage the Beach Boys maintain the spontaneity and energy which have identified them from the beginning. However Carl is tighter than before, seemingly trying to cover for his brother. He seems to take a much more serious view of the concerts than the others. Many times he introduces his brother's songs in an almost apologetic voice. Love on the other hand, tries to develop an intimacy between the group and its audience. "I want you people in the $3 seats to gather around the stage. Then I want you people in the $3 seats to fill in the area behind them" he would say.

The combination of songs and Love's chatter puts the audience at ease, not giving them a chance to become restless. He provides the spark needed to keep the show flowing smoothly and the crowd follows right along.

Despite the release of their widely acclaimed album, "Surf's up," it is the gold numbers which draw the most audience participation. It may range from hand clapping and foot stomping to an undercurrent of "ooooweeeeing" to the tune of "Fun, Fun, Fun," for an hour after the concert. The Beach Boys have been one of the few groups to remain from the early years of rock and roll. They recently did an anniversary show in Los Angeles celebrating their ten years together. Love quickly added, "Remember, that's from way back when you were the teeny boppers."

Ed Note: All quotes are taken from the November 1971 concert at Princeton.

SMILE! You want to hear Jumpin' Jack Flash? Come on now, we're better than the Stones. Jagger gets up there, screams, swivels his hips, and you people go wild. Hell, I'm sexier than the whole group put together.

"Remember, that's from way back when you were the teeny boppers."

The freshmen class is sponsoring a benefit concert for the "March of Dimes" on Friday evening, March 10, in the student life building. The group and they agreed to donate the money to the "March of Dimes."

To all of us it is very important to see a crippled child walk," Dobrowolski stated. A delegate from the "March of Dimes" of East Orange will come Friday evening to collect the money. Dobrowolski expects "a good crowd to come." Admission is 50c.

Montclair State students have the opportunity to hear Robert Bolt's new historical play, "Vivat, Vivat Regina," one of the dramatic hits of the season. The annual Players sponsored trip is scheduled for Wed., March 22. A bus will leave the campus at 6 p.m. and will return at approximately 10:30 p.m. Tickets are selling fast so reserve seats before the performance.

Auditions for parts in an original play by Armando Riverol, "One Last Call," will be held Fri., March 10 and Monday, March 13 at 4:30 p.m. understage, speech and theater department of the student life building.

FOLK-ROCK SOUND
Tickets for the Beach Boys concert, to be held at MSC on March 18 at 8 and 11 p.m. in Panzer gym, will go on sale March 13 or 14 in the student life building. Tickets, $4.50 and $3.50, will be limited to two per SGA card with first preference to current students. Only 2000 tickets for each performance.

WAYET FEATURE SPECIALS
The exotic fiction of Kurt Vonnegut Jr. will be brought to television for the first time in the dramatic adaptation "Benten and Timbuktu—A Space Fantasy," specially written by Vonnegut for NET Playhouse. The drama will be aired Mon., March 13 at 8 p.m.

Vivian Pickles stars as the famed dancer "Isadora Duncan," filmed by Ken Russell for the NET Playhouse Biography series Thurs., March 9 at 8:30 p.m.

REFRESHING AND TIMELY
James Whitmore, with no makeup and few props, will recreate the mannerisms and wit of Will Rogers, America's beloved philosopher-cowboy, in "The Senator," at 8 p.m. on channel 2. A typical Will Rogerism: "When Congress makes a joke, it's a law. When they make a law, it's a joke."

The Metropolitan Museum of Art has an unusually timely collection of photos, "Behind the Bamboo Curtain," on exhibit now.

The Museum of Modern Art will be on display in the foyer of Sprague library for an hour after the concert. The show opens March 18 at 8 and 11 p.m. in Panzer gym.

The "Sing Out Nutley," a 40 member group, will bring the California sound live in concert at MSC on March 18 at 8 and 10 p.m. in Panzer gym.

The Fault,  
Dear Terry

Men at some time are masters of their fates: The fault, dear Brutus, is not in our stars, but in ourselves . . .

"Julius Caesar"
Act I, Scene ii

Last week the Montclarion published SGA President Terry Lee's "State of the SGA" message. In it he blamed "an unworkable structure" for the lack of effectiveness demonstrated by his administration. We believe that Lee should look elsewhere for a scapegoat. What is lacking in the SGA this year is strong leadership, not student power or influence. An uncooperative college administration has been held responsible much too often for problems that exist simply because SGA officials do not move quickly enough to settle them.

Lee should not have waited for history reps Bob Watson and Vic DeLuca to take the initiative in the War Memorial Board situation. This issue, in which $26,000 of the students' money is at stake, has been a question mark since last September. It is Lee's responsibility to exercise leadership in this and all other issues of importance.

A complete revamping of the SGA will not fill the post of vice-president of external affairs, a position within the student government that Lee has apparently chosen to leave vacant since last semester's near-strike. It is no one's fault but his own that this opening still exists.

The SGA needs leadership if it is to serve the students on a more-than-adequate level and solve their problems. We think Lee should look forward to some of the solutions.

The Decline Of Dayshift

Within the past year or two, numerous newsletters and publications have appeared on campus, among them the popular underground paper, Dayshift. The MONTCLARION welcomed this competition for such rivalry is part of the newspaper business. In fact, both publications often provided each other with stories, as the MONTCLARION was the subject of many articles in Dayshift and vice versa.

Unfortunately, since Richard Insley has stepped down as its editor, Dayshift seems to have lost its importance as an outlet of student sentiment. Its demise may be attributed to the fact that no one really knows who is running the paper and that its new staff has obviously perverted its relevance, as well as quality, to decline.

We regret the failure of Dayshift to maintain the enthusiasm it demonstrated in the past and would like to see it regain the status it had under Insley.

It's Thursday--Here We Are

Don Pendley

Everybody hang around! You've got classes tomorrow! Just because the MONTCLARION's come out, don't leave.

In case you hadn't noticed, this is the first Thursday MONTCLARION. Previously, we came out on Friday (at all) unless, of course, you went home before 3 p.m. Fridays, in which case we came out Monday. Pick a day...any day.

Actually, today's issue of your favorite (and only) campus weekly newspaper (except this week, when it's a six-day daily newspaper) is a milestone for several reasons.

FIRST EDITION

You wouldn't know this unless we told you, but it's the first edition printed at the Yellow Press Publishing Co., located in lower Montclair. You may wonder why we switched printers. Well, it's a long story.

First off, the liberated women who run this newspaper thought that Yellow Press were better-looking. "But can they put in our 400-years-of-guilty-son- sciences by switching to Yellow Press for this reason. It looks strange, though, to see the management of Yellow Press stuffing Armenians into the printing ink, Italians into the paper rolls and trying to photo-graph the MONTCLARION's plates on the backs of tall Arabs. Such is life.

Of course, there are other reasons we brought our account to Yellow Press. One of them was that we ran out of money on our account at our former printers, and they were threatening to get The Family on us only kidding, boys!"

You may ask, though, why we've switched to a Thursday publication. Well, Yellow Press was glad to accept the MONTCLARION's business, but they couldn't fit us in on Fridays. That's the day they run off their counterfeit money. But don't fret, those of you who cheer on the MONTCLARION's top editors.

All of our kickbacks from the printers are going to be in old, small bills (well, we've got to have some money).

So now you've obtained some insight into the workings of the MONTCLARION. Any questions? Well, we see it's time to go. Oh, yes--there'll be a quiz next column.

What's Next, Mr. Nixon?

By David Berger

Lecture Chairman
College Life Union Board

When President Richard M. Nixon announced his plans to visit China, there was, of course, an infinite number of questions raised as to the motivation and validity of such an undertaking. The American public in general soon became bewildered over the varying opinions found in an overwhelming barrage of editorial comment.

Many wondered as to exactly what Nixon was intending to accomplish by his trip to China. Was it merely to initiate some type of international diplomatic relationship? Was it to attempt to settle the war in Southeast Asia or to gain the support of a Communist nation? Or was it a means by which Nixon could gain support in this election year? It was questions of this nature which led to a number of conclusions about this matter.

As of late, the President has accomplished several things which seem to have a certain degree of significance because of their timeliness. His recent stand on the present economic policies of the United States is indicative of this line of thinking. Also, an announcement of extensive troop withdrawals from Vietnam, which is probably the lowest draft call in months, and most recently, a trip to China, could definitely improve the President's public image. It seems to me that he would do these things regardless of the costs involved.

Perhaps the President has come to a rather rude awakening concerning his public image.

After all, the China trip afforded him a solid week-and-a-half of the most extensive news coverage available. On a national scale, almost every major television and radio network devoted itself to the coverage of this historic event. One could not watch the all-too-traditional 11 p.m. news without seeing our illustrious leader "rubbing elbows" with Chou En-lai. On the international scene, every major newspaper, from London to Berlin, gave front page coverage to their meeting.

Well, Mr. Nixon, the 1972 campaign is rapidly approaching. Now that China has been visited and the troops are coming home, what's next?

Letters

Letters to the editor should be submitted to the MONTCLARION office, second floor of the student life building, by noon Tuesday before the desired publication date. Letters should be typed, double spaced, and should not exceed 250 words. While the editors will not substantially change letters, they do reserve the right to edit letters for misspellings, style inconsistencies and excessive length. Letters should be signed with the writer's name, major and year.

M. J. Smith

Sorry, You'll Have to Call--'

The phone rang for the twentieth time yesterday. And it was my turn to answer it, "MONTCLARION. May I help you?"

"Would you please connect me to Dr. Peter Low in the Chinese department?"

"I'm afraid you'll have to call 893-4000. Isn't this Montclair State College?"

"Yes..." "Well, can't you..."

"I'm sorry but this is the student newspaper not the college's switchboard."

"This is the number the operator gave me."

WRONG NUMBER

"Yes, I know. But you see, the operators sign a release."

"Can't you switch me over to the Chinese department?"

"No, I'm sorry this is an outside line. It's not connected to the college's central circuit."

"What was that number again?"

"893-4000."

"Why don't you have the listing changed? I'm calling from Massachusetts."

"I'm merely to initiate some type of international diplomatic relationship? Was it to attempt to settle the war in Southeast Asia or to gain the support of a Communist nation? Or was it a means by which Nixon could gain support in this election year? It was questions of this nature which led to a number of conclusions about this matter."

Wood Aims to Put USSR in its Place

By Donna Lee Goldberg
Sports Writer

"To Russia with love" might be the words inscribed on the shot put that Denise Wood, senior science minor will throw on March 17, 1972 in Richmond, Virginia at the USA-USSR dual meet. She views this rare opportunity to compete against the Russians "as a real educational experience." She plans to film and analyze them. She stated, "I'll compete and want to do well, but my primary thing is to learn."

Preparation for the upcoming event started when Wood got involved in track and field events as a high school student in Haledon where she lives. She was competing in a high school match when Dr. Richard Willing, at that time a MSC track coach, saw her performance. At that time Wiling was an AAU coach and needed another girl for the upcoming state AAU meet. Wood confessed to some shyness at first, but eventually went in to practice for four days and won first, third and fifth in discus, javelin and shot, respectively.

"Then I got psyched and stayed with it."

Wood's enthusiasm now has research, determination and self-control added to it. "I coach myself," she related and explained that she "reads and studies sport psychology, nutrition, technique, aerodynamics and physics to help myself." She summed this up by saying that "It's pretty scientific, it's a matter of physics throwing the eight-pound-13-ounce metal ball, bracing your foot against the four-inch brace, and using the seven-foot-circle to the best advantage."

Qualification for the Russian meet came after competition in national indoor and outdoor AAU meets and national college meets. Wood's been hitting the standards to qualify since 1968. Most recent is the Indoor AAU National Track and Field Championship which gave her the chance to be on the USA team which was picked there. She came in second with a 47'9!6" throw. This competition has made Wood a well-traveled girl. She has been to Colorado, Texas, Ohio, Illinois and California.

"Though she has been competing for a while in AAU meets, this dual meet is a high point for Wood. She will leave on March 13 for Richmond and train for four days. According to Wood, "It is very unusual that we get a meet with the Russians."

Another reason that this meet will be important for Wood is because she will have a coach to help her in person. The coach is Dr. Harmon Brown whom Wood terms as "one of the best US field coaches." Besides coaching herself, she's been getting advice through the phone.

Naturally, the topic of the Munich Olympic games crept into the interview. Bliss-haired Wood was a bit hesitant to talk about them, "After all," as she said, "You never know what's going to happen." The Olympic games have special standards that she must try to reach. No one has reached them so far, but Wood still keeps her eye on the ball and her arm moving. A more definite goal at this time is that she would like to teach and then go on to graduate school.

Wood is a large part of the plan. Ritual in the training of Denise Wood is a large part of the plan. She works the entire year only on women is several generations behind the times. Are their only handicap is their sex. Over in Basking Ridge, women's Lib may be making waves in business and politics, Sex is "as irrelevant a factor as is race, religion, national origin, political beliefs or hair color." Irrelevant a factor as sex may be, it has kept Seldin off the team for two years. It has also barred Chris Palmer from Tenafly's track team. Wood has clocked times of six seconds for the 50-yard dash and 13 seconds for the 120-yard dash, but for the time being, Palmer wants to "spend my power rather than endurance power. I also try to eat the right foods." Wood said she has a good jack rhythm with her put that "I put one sock on inside. Usually it's the left one."

SPARKED BY outstanding performances by Captian Linda Monaco, Eileen Wans and Jan King, the Squaws easily outscored their younger, inexperienced opponents. Vaulting did the most damage to the Newark squad as King came up with an 8.10 vault to cop first place and net the highest individual score of the meet.

Wood, who received Poi Chi's most valuable gymnast award last week, placed first in the floor exercises with a net score of 7.30.

PLANNING AHEAD — Denise Wood, Lou Green and track coach Joan Schleede (left to right) as they discussed training for upcoming season two years ago. The discussion paid off in the thousands for Wood who will represent the United States in the USA - USSR track meet at Richmond, Va. on March 17.
