SGA Votes To Halt Future MAC Funding

By Susan Kelly

The legislature of the Student Government Association unanimously passed a bill requesting that no further funds be given to the Montclair Athletic Commission (MAC) until the organization obtains a class one charter. Robert Watson, history department rep, submitted the bill which would return MAC to the level of such organizations as the Music Organizations Commission (MOC), College Life Union Board (CLUB), Montclair, La Campana, etc.

The SGA gives MAC a large amount of money each year and has no control over their funds," said Watson at the Tuesday meeting of the legislature. "I cannot see why MAC should be treated differently than the class one organizations," he continued.

A referendum passed by the Montclair State student body in 1969 removed MAC from the Faculty-Student Co-op and the SGA has no further control over any expenditures. The purpose of his bill, he said, was not to reduce or limit MAC's funds but to give the students more control over these funds.

A committee of students, faculty and administrators met prior to the SGA meeting on Tuesday to investigate alternative ways of funding MAC. William Dioguardi, director of athletics and chairman of MAC, complained about the "negative attitude" of the participating students. He said that the sole purpose of the meeting was to investigate alternate methods of financing MAC, not to separate that body from the SGA.

Dioguardi explained that he desires a change in funding because "the indecisiveness of each legislature gives too much instability to a program of MAC's size." His complaints refer to the fall disputes in the SGA over MAC's budget allotment of approximately $115,000.

Dr. Thomas H. Richardson, President of Montclair State, said that MAC often just "rubber-stamps" decisions that are already made.

"The point made at the meeting was that the SGA is not capable of running MAC," Watson stated. The implication of this point, he continued, is that if the SGA cannot handle the funds for one organization, it cannot handle the funds for other organizations.

"The fact that neither Richardson nor Dioguardi came to the SGA to work out a solution to the funding problem has caused no outside committee was another one of Watson's objections.

"We supposedly represent student interest on campus," stated SGA vice president Bill Audal. If their interest in athletics is equivalent to one third of the funds, then MAC is entitled to these funds, he said. If this interest should shift to another area, then that organization should receive increased funds.

Vic DeLuca, another History department rep, supported the bill saying that "MAC is not on firm ground." A member of MAC, DeLuca said that he "didn't get any worth" from his membership. Another legislator

Datebook

TODAY, THURSDAY, MARCH 9
DOUBLE FEATURE. CLUB presents "Bananas" and "The Professionals" at 8 p.m. in the student life building cafeteria. Admission .50.

BOSS. Meeting in College High Auditorium at 7 p.m.

FRIDAY, MARCH 10
FRESHMAN CLASS. Sing-Out Nutley in student life building cafeteria from 8 p.m. to midnight.

SEMINAR. "The Trouble with Sex," understanding human sexuality through education. Admission .50, pre-registration required. Russ Hall.

SATURDAY, MARCH 11
SWIMMING. Women's intercollegiates at the University of Pennsylvania at 1 p.m.

MONDAY, MARCH 13
SKI CLUB. Election meeting at 4 p.m. in V-105, Mallory hall.

PBIG. Open meeting in Coza Lounge at 3 p.m.

WEDNESDAY, MARCH 14
SEMINAR. CINA sponsors Robert Millspaugh, U.S. State Department. Alumni lounge at 5 p.m. Topic for discussion is "The Making of Foreign Policy."

FENCING. MSC at Lehman College at 7 p.m.

MEETING. Conservation Club. 3 p.m. in Annex 2, room 4.

THURSDAY, MARCH 16
WINTER WEEKEND. CLUB presents "An Old Time Film Festival" in student life building cafeteria at 7 p.m.

JAMESBURG—The tuition hike is still under study by the state Board of Higher Education, the board announced at their meeting Wednesday.

A spokesman for the board's finance committee said that "We don't feel we want to deal with it (the tuition increase) lightly. We feel we should give it a continued, indepth study."

"THE MEETING, held at the Forsgate Country Club here, brought approximately 20 students from New Jersey state colleges and Rutgers University with Montclair State being represented by Sam Crane, SGA public relations officer.

Various members of the Board mentioned throughout the lengthy meeting that it is not the purpose of the Board to effect the state's tax policy, but to suggest methods of revenue-raising for higher education in the state. It has gotten to the point where there are no more backs," stated Chancellor of Higher Education Ralph A. Dungan, reiterating that the state's total budget had risen drastically in the past four years, with no change in the tax structure.

Several members of the board mentioned their dissatisfaction with the present tax structure, calling for a state income tax.

One member of the board, Rabbi Martin Friedman, pointed out that "Of the 6,000 students in state schools, approximately 25,000 will pay zero increase, with the type of tuition increase we have." He also said that under the tuition hike proposed by Rutgers President Dr. Edward Bloustein, although the hike would be only 86%, it would extend to all students—even those whose parents' salaries were under $10,000, who would pay nothing under the board's proposal.
Dayshift Shifts Focus

By Joanne Survicz
Staff Writer

Dayshift, a student underground paper which has noticed a change in its literary policy in its last issue. In fact, one of Dayshift's present writers is quick to point out that the paper no longer has a policy, "Dayshift holds no official point — we'll print anything."

The political and social satire that characterized the original issues has evolved into what one passing student termed "numerous trivia." Alan Jacobs, one of Dayshift's present coordinators, admits that the paper has switched to a lighter vein, indulging in a lot more humor. "Higher education is not taking advantage of the intellectual ability of women," said Garfield. To support this statement, she quoted some findings of the Women's Equity Action League. Ninety per cent of the men with doctorates and 26 years in academics are full professors. For women with the same qualifications, barely half will ever be full professors.

STUDIES HAVE found that women with the same qualifications as men tend to be hired less frequently and, at a lower rank, are promoted less often and receive lower salaries. Studies have also found that women need higher marks than men to enter college.

Garfield is pleased that Richardson has asked that this committee be formed. She explained that other schools have taken similar action only after being pressured by the federal government.

Richardson stated that he has long been aware that women are discriminated against in our society. He said that this problem is not the result of "some sort of sinister plot," but that people just do not realize the seriousness of the situation.

SUMMER JOBS

Guys & Gals needed for summer employment at numerous locations throughout the nation including National Parks, Resort Areas, and Private Camps. For free information send self-addressed, stamped envelopes to Opportunity Research, Dept. SJO, Century Bldg., Palos, MI 59660. APPLICANTS MUST APPLY EARLY.

The dawn of Dayshift dates back to September 1970. Richard Insley, one of its original founders, says that the reason for starting the paper was to provide "an alternate newspaper to inform the students of the political and social features in the college community that the Montclarion wasn't handling." Insley, who is no longer associated with the publication, said that the original Dayshift had been selective in printing only well written, appropriate submissions. Referring to Dayshift's new trend, Insley merely stated, "It's changed — it's different now."

Leon Varjian, who has been with Dayshift since its founding, agrees that the paper was more political last year. According to Varjian, "Dayshift has opened up to anything. People who are interested can write whatever they want. We'll print everything — no censorship." VARJIAN SAID there is no longer an editorial staff. "It's put together by whoever feels like doing it at the time." Dayshift, funded by the Protestant Foundation of MSC, publishes all types of literary efforts about every three weeks.

Committee Formed

Group to Dig Into MSC Fem Lib

Rep Vacancies To Be Filled
By Joan Miketuk Staff Writer

The nine vacant legislator seats in the SGA will be filled within the week according to Terry Lee, SGA president. Students, who will be appointed to the positions by Lee, must be approved by a vote of the legislative body.

The seats vacant are: French department rep., industrial education and tech. department rep., two fine arts department reps., physical education department rep., physics - earth science department rep. and biology department rep.

"ORIGINALLY A lot of seats were vacant because no one ran for the positions," explained Lee. He also pointed out that several seats were vacated because of a statutory rule that forbids a legislator his position if he has missed three consecutive meetings without a reasonable excuse.

In the past, the rule was not strictly enforced. This gave way to apathy and, as Lee said, "The situation seemed to be getting chronic."

THEREFORE, LEE put the statute into action and several legislators were forced to relinquish their positions.

"As the SGA becomes stronger this apathy should decrease," Lee commented. He added that he plans to strengthen the SGA through the reorganization of some aspects of its functions.

Directories Delayed
By Susan Kelly Staff Writer

The 1971-72 Montclair State student directory fell victim to a series of mishaps which delayed its arrival at MSC.

Bill Asdal, vice-president of the Student Government Association, explained that the task of alpha­leting the listing of students in the directory took weeks. "It's a legitimate delay," said Asdal who explained that Alpha Phi Omega does most of this job. Wendy Gillespie, SGA treasurer, said that this job was not completed until mid-October.

Further delay was incurred when objections were raised that the faculty was not given a choice as to whether their names appeared in the directory, as were the students. Gillespie com-

Co-op Gives Second Chance
By Donna Lee Goldberg Staff Writer

Double your pleasure, double your fun should be the theme in the Loser's Lottery sponsored by the Student Government Association and Bookstore.

Doris Asdal, director of the Student Faculty Co-op said during her interview in her office that "we wanted to promote the sale of lottery tickets and decided to start off with the Loser's Lottery."

THE WEEKLY Loser's Lot­tery is limited to the New Jersey lottery tickets bought at school the previous week. The losing tickets are deposited in a jar in the bookstore. On Wednesday, Asdal selects a student that she doesn't know to pull six tickets from the jar. These winners receive a new lottery ticket for the state lottery. Asdal agreed that it was "two chances for 50 cents."

Tickets have only been sold at the college since Feb. 16, 1972 although a license was applied for a year ago. According to Asdal, "MSC is the second college to sell tickets. Seton Hall was first and now William Paterson is looking into it."

"LIMITING THE Loser's Lot­tery to tickets sold here, keeps it within the group," commented Asdal. She added that "the lot­tery helps education. For example, 5 per cent on each ticket sold by the Co-op goes back to it. If someone wins it money also goes back to the Co-op. Various projects have had money advanced at MSC by the Co-op such as the lights at Sprague field and $50,000 for the new student union building. When a student wins it can help pay for school expenses."

When the legality of the Loser's Lottery was questioned, Asdal reported, "We checked into this matter. Since there is no cost in­volved and the people put their ticket in, there is no need for a license. No one can win twice on one ticket because a winning lottery ticket must be submitted to the state lottery commission."

"The enthusiasm for the Loser's Lottery is surprising. I'm very optimistic," the director said. "Since we have only had two drawings since Feb. 23. The lottery is held Wednesday to give night students a chance to submit their tickets on Monday or Tuesday night. Even the construc­tion men come in for the Loser's Lottery," she added smiling.

SO FAR, no one has gone on to win in the state lottery from the Loser's Lottery. The idea, suggested by a letter written originated in a local candy store.

CCP Interest Declines

Originally founded in the fall semester of 1970 under the title Campus Community Scholar Program, CCP offers credit and non-credit courses which are not otherwise offered by the college.

"ALTHOUGH THE work was demanding, those involved did it out of a desire to learn, not because they had paid for something," remarked Heilbronner. He said the courses concerned with an indepth study of an area such as Marxism seemed to have more appeal than those dealing with more momentary issues.

Asked his reaction to the program's overall progress, Heilbronner replied, "Looking at the number of people enrolled does not by any means serve as a measure of success or failure. The key lies in the success of courses generated by student interest."

"AS OF NOW, we do plan to continue CCP next year," he said. "We hope to remain flexible in allowing try-outs of courses to see how well received they are, and to be as experimental and exploratory as is possible."

Richard Isley, a student who is one of CCP's coordinators, was unavailable for comment.

Board Gets Faculty Rep

A faculty member will serve on the Board of Trustees in a non-voting capacity similar to the position of the newly appointed student representative. Robert Dorser, president of the Montclair State Faculty Association, said that no faculty member has been appointed yet to fill the seat. In all probability, Dorser continued, more than one member will represent the faculty at the various board meetings.

Neither the faculty nor the student representative can obtain a vote without state legislation to allow such a position. The faculty had originally applied for a voting position but withdrew their request because of a possible conflict of interest. James Cottingham, administrative assistant to the Board of Trustees, explained that such a conflict would arise when faculty appointments and salaries are considered by the board.

Cottingham expressed an opinion that the major contribution of the representative will be their contribution to the discussion. He commented that the board has never voted contrary to the wishes of a large segment of the college population and almost every vote is an unanimous one. The new representatives would probably vote the same as the other board members on most issues if they had a vote, he said.
SEVERANCE OF MAC'S FUNDS
Bob Watson, History department rep., Larry Bishop, School of Social and Behavioral Sciences rep., and Lionel Geltman, School of Math and Sciences rep., sponsored a bill that would withhold further funding from the Montclair Athletic Commission until that organization had applied for and been granted a State charter. The bill carried unanimously.

APPOINTMENTS TO MAC
The legislature approved the nominations of: one member of the SGA Executive Board, one member of the Commuter Commission, one member of the Black, Brown, White Relations Committee, the vice-president of academic affairs, three SGA legislators, one IPC-ISC member, one male and one female students-at-large. The bill was amended to include the vice-president of external affairs and also that at least one of the legislators and students-at-large be a female. The bill then carried.

APPLICATIONS FOR OFFICE SPACE IN THE STUDENT CENTER will be held April 28, 1972. It was also noted that the applications will be available in the SGA office on April 4.

New Security Force Planned

By Joan Miketzuk
Staff Writer

"My goal is to have a very strong crime prevention unit," said Keith Kaufman, the new director of campus security at a conference with student leaders of the SGA and the MONTCLARION last week.

At the meeting called by Dr. Allan Morehead, executive vice president and provost, Kaufman relays his plans for a campus police unit similar to operation to a municipal police department.

THE CAMPUS patrolmen would have to fit certain qualifications of age, height, weight, vision and physical fitness. A training program will be offered to those people presently serving as security guards who wish to qualify for the campus patrolmen unit. The same program will also be offered to those people recruited for the positions.

The new police force will "not happen overnight," said Kaufman. "It will take a lot of recruiting."

UNTIL THE police force goes into action, the campus will rely on the Montclair Police Department to investigate and follow-up crimes.

Throughout the conference, Kaufman stressed the need for open communication with the student body. "If we do not know about any incidents happening on campus, we can't do anything about them," he said.

He also asked that students who are victims of theft or need assistance should call the security desk at 933-5222. Service will be available there 24 hours a day.

KAUFFMAN, a former state trooper, said that he will re-organize the security department, dividing it into two sections.

The security department which will be headed by Joseph Daly, former director of security, will be concerned with fire safety, prevention and investigation.

The security department will take on the tasks of crime prevention and investigation. The head of this department will be named in the near future, said Kaufman.

KAUFFMAN REMARKED that he saw Montclair State as a "busting city" and that "there is a definite need to elevate the security program to keep in concert with this bustling city."

Kaufman said, "I will still use the student patrol (the yellow jackets) and I think that their tasks and responsibilities could be escalated."

The former director of public safety in Camden, N.J. remarked that there seemed to be only a small percentage of students responsible for the criminal incidents occurring on campus. However, "we will make war on them," he added.

KAUFFMAN ALSO cited the problem of people not associated with MSC gaining entrance to the school and its buildings. But he also pointed out that he has "no intentions of closing the open campus; however, we have to be better equipped to solve the problems of an open campus."

When questioned by Terry Lee, SGA president, about the distribution of parking tickets, Kaufman said, "We should not emphasize the quantity of tickets, but the quality." He cited the violation of the student who parks in front of a fire hydrant as being more serious than that of one who parks in a faculty space.

Kaufman also plans a more consistent schedule as to which lots are restricted and when they will be off-limits to the student population. Investigations are underway on the flow of traffic with the goal of establishing ways to make travel through the campus smoother.

"OUR EFFORTS are designed to provide a safe and secure environment to study and take part in extracurricular activities," Kaufman explained.
Beach Boys Bombard MSC

By Bill Gibson
Staff Writer

"You want to hear Jumpin' Jack Flash? Come on now, we're better than the Stones. Jagger gets up there, screams, swivels his hips, and you people go wild. Hell, I'm sexier than the whole group put together."

That's the claim of Mike Love, who, along with the rest of the Beach Boys, will bring the California sound to MSC on March 18 in two club sponsored concerts in Panzer Gym at 8 and 10 p.m. Brian Wilson has not yet ended his self-imposed exile from public life and will not appear at the concert.

Despite Brian's absence from the stage, his aura still permeates the atmosphere. It was Brian who in 1962 created the California sound—an urban folk music. Through Brian, it has developed from a fun type of music to something that has been together for 3 years, will perform live in concert at MSC on March 18 at 8 and 10 p.m. in Panzer gym.

SMILE: The Beach Boys, the original inventors of the "California Sound," will perform live in concert at MSC on March 18 at 8 and 10 p.m. in Panzer gym.

Despite the release of their acclaimed album, "Surf's Up," the band is still famous for their upbeat, energetic performances. Their music has been a staple of the rock and roll genre for decades, and they continue to captivate audiences with their unique sound.

"Fun, Fun, Fun" is one of their most popular songs, and it's easy to see why. With its catchy melody and playful lyrics, it's a perfect example of the fun and carefree spirit that the Beach Boys brought to the music scene.

The group's stage presence is another highlight of their concerts. They know how to engage with the audience and keep the energy high throughout the performance. Whether it's through sailboats, fireworks, or a simple beach chair, they know how to create a memorable experience for their fans.

The Beach Boys Bombard MSC

By Danny Figueredo

The freshman class is sponsoring a benefit concert for the "March of Dimes" on Friday evening, March 18, in the student life building cafeteria. "It's part of our program to unite the class, so that by our graduation, we'll have something going," stated Michael J. Dobrowolski, freshman SGA representative.

"Sing Out Nutley," a 40-member group that has been together for 3 years, will provide the music. "They're college and high school students from 17 to 21," explained Dobrowolski. "That's the group that has performed 70 times in such places as hospitals, high schools, children's shows.

"They have been paid for many of the shows," continued the freshman rep., "but they prefer to work free. So far, they have cut two albums." Dobrowolski, who is from Nutley himself, has many friends in the "Sing Out," and he suggested that they perform at MSC. "Their business manager accepted the offer on the basis that it would be for a benefit show," he added.

Dobrowolski then spoke to the members of the group and they agreed to donate the money to the "March of Dimes.

To all of us it is very important to see a crippled child walk," Dobrowolski stated. A delegate from the "March of Dimes" of East Orange will come Friday evening to collect the money. Dobrowolski expects "a good crowd to come." Admission is 50c.

DOUBLE PURPOSE: "The purpose of programs like this," pointed out Dobrowolski, "is to show that the class of '71 cares and works. It is also to bring together the freshmen and unite our efforts.

In the future Dobrowolski hopes to have a "coffee hour" and a freshman weekend, where contents would take place.

Last semester he managed to show the film "Midnight Cowboy" free to all freshmen. "I want to continue this, so when we all leave, we have something to remember," he concluded.

Theatrer Buffs Travel to NY

By James Della Penna
Staff Writer

Montclair State students have the opportunity to experience Bob Bolt's new historical play, "Vivat, Vivat Regina," one of the dramatic hits of the season. The annual Players sponsored trip is scheduled for Wed., March 22. A bus will leave the campus at 6 p.m. and will return at approximately 10:30 p.m. Tickets are available for $5.50 from Ellen Kauffman, assistant professor of speech and theater, added that as long as the supply lasts.

"An honest evening of unpretentious entertainment and historical fun," said Clive Bar tes, theater reviewer for The New York Times, of this play about the struggle between Mary, Queen of Scots, and Queen Elizabeth I for the English throne. The parts are played by Clive Barnes and Eileen Atkins when Barnes described as "ice and fire" in their roles.

Having seen the play, Kauf man commented that it is "a fast moving, very effective, imaginative production in which both Mary and Elizabeth are equally important. Douglas Rain as Lord Cecil, Bloom as Mary and Atkins as Elizabeth are superb, supported by other members of the cast who are also excellent." Dr. L. Howard Fox, professor of speech and theater, added that it "makes imagined history exciting and good theater."
Dear Terry

Men at some time are masters of their fate: The fault, dear Brutus, is not in our stars, but in ourselves . . .

"Julius Caesar"  
Act I, Scene ii

Last week the Montclarion published SGA President Terry Lee's "State of the SGA" message. In it he blamed "an unworkable structure" for the lack of effectiveness demonstrated by his administration. We believe that Lee should look elsewhere for a scapegoat. What is lacking in the SGA this year is strong leadership, not student power or influence. An uncooperative college administration has been held responsible much too often for problems that exist simply because SGA officials do not move quickly enough to settle them.

Lee should not have waited for history reps Bob Watson and Vic DeLuca to take the initiative in the War Memorial Board situation. This issue, in which $26,000 of the students' money is at stake, has been a question mark since last September. It is Lee's responsibility to exercise leadership in this and all other issues of importance.

A complete revamping of the SGA will not fill the post of vice-president of external affairs, a position within the student government that Lee has apparently chosen to leave vacant since last year's near-strike. It is no one's fault but his own that this opening still exists.

The SGA needs leadership if it is to serve the students on a more-than-adequate level and solve their problems. We think Lee should look toward himself for some of the solutions.

The Fault,  
Dear Terry

The Decline Of Dayshift

Within the past year or two, numerous newsletters and publications have appeared on campus, among them the popular underground paper, Dayshift. The MONTCLARION welcomed this competition for such rivalry is part of the newspaper business. In fact, both publications often provided each other with stories, as the MONTCLARION was the subject of many articles in Dayshift and vice versa.

Unfortunately, since Richard Insley has stepped down as its editor, Dayshift seems to have lost importance as an outlet of student sentiment. Its demise may be attributed to the fact that no one really knows who is running the paper and that its new staff has obviously perished. Its demise may be attributed to the fact that no one really knows who is running the paper and that its new staff has obviously perished.

During the past few weeks, discussions have again surfaced concerning the structure of student government and its effectiveness. I believe that it stems from incomplete knowledge of the organization. A short sketch of the organization might clarify some misconceptions.

There are two branches within the S.G.A.: the executive and legislative. The executive branch consists of the president, vice-president, secretary and treasurer. The S.G.A. Constitution allows for a cabinet (Class I organizations' presidents, Dorm Federation, Computer Commission, etc.) to advise the president, and for his use as an informal sounding board for student opinion. Structurally he be given a vice-president of external affairs and a vice-president of academic affairs to aid him in the execution of his responsibilities. They are also meant to research issues and provide background information for the president.

COORDINATORS

Communications is another duty of these vice-presidents. The vice-president of academic affairs is mandated to meet with school representatives, who in turn meet with department representatives. The vice-president of academic affairs is to be a member of the Governor's Student Liaison Committee; coordinates our efforts with those of the other state colleges and works to insure community and campus inter-relations. A public relations officer is appointed to disperse information to the campus and local papers. We have a structure that is complete and can be mobilized.

The legislature is a needed safeguard in that they must approve (by a two-thirds majority) all appointments and expenditures.

As for the power of SGA, there is some truth to the questions of the scope of its influence. In the SGA Constitution and Articles of Incorporation, we are under the scrutiny of the president of the college and Board of Trustees in that they are responsible for the "total college program." This clause can and has been used to alter decisions made by students but this is no excuse to stop functioning as a cohesive body. We have influence and a sound structure but must use it to maximum effectiveness to yield any concrete results.

Perhaps, active participation in campus organizations is feasible for most students as other responsibilities demand preference. But a knowledge of existing organizations and their activities is the responsibility of every student. Interest and concern about college policies can only strengthen the student's knowledge about what will inevitably affect him or her.

By Diane Forden  
Staff Writer

An article in last week's Montclarion illustrated one of the major problems on campus—a problem which has always existed and which seems to increase each year. It is a problem which affects every student but which, unfortunately, caused by the students.

The article, written by Carol Giordano, noted the lack of awareness by the students.

One of the problems is that a knowledge of current programs is startling. In any case, the SGA, like any other organization, can only strengthen the student's knowledge about what will inevitably affect him or her.

MSC EXPANDING

Montclair State College, in particular, is rapidly expanding. New Organizations and committees are being formed daily to meet the demands of a growing college and with these changes there arises a need for greater student awareness. The attitudes must also keep pace with the numerous innovations. And as long as the student is utilizing campus facilities it is his responsibility as well as to his advantage to know how campus organizations operate.
It's Thursday--Here We Are

Everybody hang around! You've got classes tomorrow! Just because the MONTCLARION's come out, don't leave.

In case you hadn't noticed, this is the first Thursday MONTCLARION. Previously, we came out on Friday (at all) ... unless, of course, you went home before 3 p.m. Fridays, in which case we came out Monday. Pick a day ... any day.

Actually, today's issue of your favorite (and only) campus weekly newspaper (except this week, when it's a sixth-daily newspaper) is a milestone for several reasons. First Edition

You wouldn't know this unless we told you, but it's the first edition printed at the Yellow Press Publishing Co., located in lower Montclair. You may wonder why we switched printers. Well, it's a long story.

First off, the liberated women who run this newspaper thought that the Yellow Press were better-looking. "But can they put a newspaper together properly?" the MONTCLARION's males shouted. "Who cares?!" the females screamed, "If we're gonna spend the night with any of them, we're gonna spend the night with any of them."

GUILTY CONSCIOUSNESSES

Secondly, we switched to Yellow Press because of their unusual minorities employment policy. In these times of racial discrimination and other great American traditions, Yellow Press has made it a standard practice to hire many underprivileged peoples. We, of the guilty white Anglo-Saxon Christian populace, found it easy to sooth our 400-years-of-guilty-conscience by switching to Yellow Press for this reason. It looks strange, though, to see the management of Yellow Press stuffing Armenians into the printing ink, Italians into the paper rolls and trying to photograph the MONTCLARION's plates on the backs of tall Arabs.

You may ask, though, why we've switched to a Thursday publication. Well, Yellow Press was glad to accept the MONTCLARION's business, but they couldn't fit us in on Fridays. That's the day they run off their counterfeit money. But don't fret, those of you who cheer on the MONTCLARION's top editors.

By David Berger

Lecture Chairman
College Life Union Board

When President Richard M. Nixon announced his plans to visit China, there was, of course, an infinite number of questions raised as to the motivation and validity of such an undertaking. The American public in general soon became bewildered over the varying opinions found in an overwhelming barrage of editorial comment.

Many wondered as to exactly what Nixon was intending to accomplish by his trip to China. Was it merely to initiate some type of international diplomatic relationship? Was it to attempt to settle the war in Southeast Asia or to gain the support of a Communist nation? Or rather was it a means by which Nixon could gain support in this election year? It was questions of this nature which led me to a number of conclusions about this matter.

As of late, the President has accomplished several things which seem to have a certain degree of significance because of their timeliness. His recent stand on the present economic policies of the United States is indicative of this line of thinking. Also, an announcement of extensive troop withdrawals from Vietnam, which is probably the lowest draft call in months and, most recently, a trip to China, could definitely improve the President's public image. It seems to me that he would do these things regardless of the costs involved.

Perhaps the President has come to a rather rude awakening concerning his public image. For after all, the China trip afforded him a solid week-and-a-half of the most extensive news coverage available. On a national scale, almost every major television and radio network devoted itself to the coverage of this historic event. One could not watch the all-too-traditional 11 p.m. news without seeing our illustrious leader "rubbing elbows" with Chou En-lai. On the international scene, every major newspaper, from London to Berlin, gave front page coverage to their meeting.

Well, Mr. Nixon, the 1972 campaign is rapidly approaching. Now that China has been visited and the troops are coming home, what's next?

Letters

Letters to the editor should be submitted to the MONTCLARION office, second floor of the student life building, by noon Tuesday before the desired publication date. Letters should be typed, double spaced, and should not exceed 250 words. While the editors will not substantially change letters, they do reserve the right to edit letters for misspellings, style inconsistencies and excessive length. Letters should be signed with the writer's name, major and year.

M. J. Smith

‘Sorry, You’ll Have to Call--’

The phone rang for the twentieth time yesterday. And it was my turn to answer it. “MONTCLARION. May I help you?”

“Would you please connect me to Dr. Peter Low in the Chinese department?”

“I’m afraid you’ll have to call 893-4000.”

“Isn’t this Montclair State College?”

“Yes ... ”

“Well, can’t you ... ”

“I’m sorry but this is the student newspaper not the college’s switchboard.”

“Is this the number the operator gave me?”

WRONG NUMBER

“Yes, I know. But you see, the operator switchboard ...”

“Can’t you switch me over to the Chinese department?”

“No, I’m sorry but this is an outside line. It’s not connected to the college’s central circuit.”

“What was that number again?”

“893-4000.”

“Why don’t you have the listing changed? I’m calling from Massachusetts.”

“I’m very sorry. We’ve tried but the telephone company won’t change the listing without an official notification from the college.”

“Well, okay ... ”

“Goodbye.”

SECRET IDENTITY

I swore that the next time the phone rang I was going to answer it, “MONTCLARION’s males, is the first Thursday MONTCLARION’s males. So, you ask, why didn’t I answer it?”

Wood Aims to Put USSR in Its Place

By Donna Lee Goldberg
Sports Writer

"To Russia with love" might be the words inscribed on the shot put that Denise Wood, senior physical education major and science minor, will throw on March 17, 1972 in Richmond, Virginia at the USSRAAU dual meet. She views this rare opportunity to compete against the Russians "as a real educational experience." She plans to film them and analyze them. She stated, "I'll compete and want to do well, but my primary thing is to learn."

Preparation for the upcoming event started when Wood got involved in track and field events as a high school student in Hale, don where she lives. She was competing in a high school match when Dr. Richard Willing, at that time an MSC track coach, saw her performance. At that time Willing was an AAU coach and needed another girl for the upcoming AAU meet. Wood confessed to some shyness at coming state AAU meet. Wood Aims to Put USSR in Its Place

Another reason that this meet will be important for Wood is because she will have a coach to help her in person. The coach is Dr. Harmon Brown whom Wood terms as "one of the best US field coaches." Besides coaching herself, she's been getting advice through correspondence.

 Naturally, the topic of the Munich Olympic games crept into the conversation. Blind-haired Wood was a bit hesitant to talk about them, "After all," as she said, "You never know what's going to happen."

The Olympic games have special standards that she must try to reach. No one has reached them so far, but Wood still keeps her eyes open and her arm moving. A more definite goal at this time is that she will like to coach and then go on to graduate school.

Qualification for the Russian meet came after competition in national indoor and outdoor AAU meets and national college meets. Wood's been hitting the standards to qualify since 1968. Most recent is the Indoor AAU National Track and Field Championship which gave her the chance to be on the USA team which was picked there. She came in second with a 47½" throw. This competition has made Wood a well-traveled girl.

She has been to Colorado, Texas, Ohio, Illinois and California.

Although she has been competing for a while in AAU meets, this dual meet is a high point for Wood. She will leave on March 13 for Richmond and train for four days. According to Wood, "It is very unusual that we get a meet with the Russians." 

Wood's enthusiasm now has research, determination and self-control added to it. "I coach myself," she related and explained that she "reads and studies sport psychology, nutrition, technique, aerodynamics and physics to help myself." She summed this up by saying that "It's pretty scientific, it's a matter of physics throwing the eight-pound-13-ounce metal ball, bracing your feet against the four-inch brace, and using the seven-foot circle to get the best advantage."

Wans finished on top in the uneven parallel bars with a 5.15. Newark's biggest asset was Janice Beardsmore who took first on the balance beam.

Athletics - Man's Final Dominion

By Carla Capizzi

Women's Lib may be making waves in business and politics, but as far as sports go, it's still pretty much a man's world. Both on the high school and college levels, females trying out for varsity sports are being KO'd before they can even get into the ring.

Their only handicap is their sex. Over in Basking Ridge, however, a high school sophomore — male — has made his school JV wrestling team, despite the fact that he is totally blind.

The boys on the team will accept a girl player "as long as she's good." Only the New Jersey State Interscholastic Athletic Association (NJSHA) has ruled thumbs down. Their regulations specify that varsity sports are for boys only.

Seldin's suit points out that in non-contact sports, such as tennis, sex is "an irrelevant factor as is race, religion, national origin, political beliefs or hair color." Irrelevant a factor as sex may be, it has kept Seldin off the team for two years.

It has also barred Chris Palmer from Tenafly's track team. He has clocked times of six seconds for the 100-yard dash and 13 seconds for the 120-yard dash, but for the time being, Palmer has to be content with starting a girls' team.
