19 YEAR-OLD DIES IN CAMPUS KNIFING

Spock Speaks Out: Noted pediatrician and political activist Benjamin Spock spoke in Life Hall cafeteria last Friday. Spock, a presidential candidate for the People's Party, told the crowd that his party does not see any great difference between President Richard Nixon and Senator George McGovern. Spock is the second presidential candidate run by the People's Party, which was formed several years ago of independent political groups. Below, MSC President Thomas H. Richardson listens to Spock along with the group of several hundred students who gathered to hear the lecture.

Newsletter Formed BSCU 'Strives' To Inform

By Kathy Czado Staff Writer

The Black Student Cooperative Union's newsletter "Strive" is concerned with "some local news, some campus and community news, articles that students submit and some local news, some campus and community news, articles that students submit and poetry," according to Karen Thompson, BSCU president.

The BSCU is recruiting individuals who are interested in graphics, creative writing, news reporting and poetry. "Even rebuttals on previously written articles in the newsletter are welcome," Thompson said.

Thompson added that after the first newsletter was published, a group of students went to Sam Crane, SGA president and complained that they thought the newsletter was "racist." The only comment Thompson gave on that subject was, "If you have any complaints, come talk to us."

"Strive," published once a month, states its purpose: "We also feel that one of the basic ingredients in keeping an organization together and functioning is: faith, in ourselves, our leaders, our people and the successful execution of our purposes."

They have a local salesman.

We also write.
Montclair Resident

Youth Fatally Stabbed On-Campus

By M. J. Smith
Staff Writer

A 19-year-old youth was fatally stabbed in front of Sprague Library early Sunday. The victim, Guy Ennis of 25 Cross St., Montclair, died Monday afternoon in Mountainside Hospital, Montclair. He was not an MSC student. According to the Montclair police, a prow car reported at 2:10 am that they were escorting a car to Mountainside. The occupants of the car told the police that Ennis was injured on the Montclair State campus.

The Montclair police then informed the Little Falls police. The Passaic County Prosecutor's Office is conducting the investigation with the aid of the Little Falls Police Department. Sprague Library is located in Little Falls.

ANOTHER UNIDENTIFIED youth is reported to have been injured around the legs with a broken bottle, according to Keith Kaufman, MSC director of safety and security.

No one at the college knew that anything had happened until the Little Falls police called Sunday," commented Vincent Calabrese, MSC vice president of business and finance.

"Even then it was an assault. The case really didn't become vital until the young man's death on Monday," Calabrese continued.

Kaufman stated that it was not known if any Montclair State students were involved. "It is not known if the people involved in the fight had come on-campus to attend the Saturday evening football game, the dance in Life Hall cafeteria sponsored by the Black Students Cooperative Union or were just on-campus. "It would be unfair to link the fight with any kind of student programming," Kaufman said, "since we have no proof why these people were here."

"Identification has always been required for both on and off-campus people at activities," Calabrese said. "But when someone comes on-campus as a guest there really isn't anything that can be done."

An informed source commented that in the future off-campus police may be hired to patrol campus events.

Students Compete for Trustee Post

By Susan Pickels
Staff Writer

Seven students have submitted the petitions which qualify them as candidates for student representative to the MSC Board of Trustees. Four are running as nominees of the academic schools. Every school except Humanities has nominated a candidate. Of the other three, two students are running independently for the position and one is the nominee of the SGA.

The election for the student representative will be held on Mon., Oct. 30. Voting will be done on the main floor of the Student Center from 9 am to 5 pm.

Ruthanne Altounian, the nominee of the School of Education, is a second semester junior. She is secretary of the Field Services Team, which is attempting to obtain a field experience situation in education for freshmen and sophomores. Last year, she was involved in the Freshmen Orientation Program. She is also active in two off-campus organizations—the National Forensic League and the Theater Development Fund.

James Carroll, a sophomore, is the nominee of the School of Fine and Performing Arts. He served as a student host at orientation this year and he is a member of the Student Filmmakers Association. He feels that the position of student representative is important because, in his words, "it allows MSC students to influence decisions that may effect them."

Susan Geiger, also a sophomore, is running independently for the position. She is a member of the Chemistry Students Advisory Board and she belongs to the MSC Marching Band. In addition, she works as a lab assistant for the chemistry department. She feels that her activities have made her aware of "the feelings and needs of the students," an awareness which she feels is essential to the student representative.

Wendy Gillespie, a senior, is also running independently. She has been active with SGA, serving as representative for two years and as treasurer for one. She has served on several CLUB subcommittees and, in her freshman year, she was a member of the Faculty Evaluation Committee. Last year, she worked with the committee which opened the Board of Trustees to a student representative. She feels that this is the "most important position a student can hold" because of the power the board has in deciding campus policies.

Chris Nelson, a sophomore, has been nominated by the School of Social and Behavioral Sciences. Within the school, he has been very active, working with its Senate and on the school newspaper. Also, he is presently a member of the Political Science Student Advisory Committee. He believes that students can influence events that affect the college by making the board aware of their needs.

Artemus Werts, a junior, is the nominee of the School of Professional Arts and Sciences. He has served in the US Air Force and has worked with the Internal Revenue Service. On campus, he has been president of Alpha Sigma Mu, the veterans' fraternity. His experiences have taught him, as he states, "to deal with professional people and to relate to diverse groups of MSC students." He feels that both of these abilities are necessary for the student representative.

Terry Yacenda, a senior, has been nominated by the SGA. Last year, she was a member of the Student Center Policy Board. She belongs to the Distributive Education Club of America, a semi-professional organization which she has served as recording secretary, president and treasurer over the last three years. She has been very active on CLUB. Also, she belongs to two honor societies—Epsilon Delta Epsilon, on which she has served as corresponding secretary and Kappa Delta Pi. As a distributive education major, she would like to become involved in the administrative responsibilities of MSC and she feels that this can be best done through participation on the Board of Trustees.

The Board of Trustees is the supreme governing body of the college. According to the Higher Education Act of 1966 (C.18:21-A22), the Board has the power "to determine the educational curriculum and program of the college and to determine policies for the organization, administration and development of the college."

MSC is the only state college to have a student representative sitting on its Board of Trustees. The student serves in an advisory capacity for a one-year term and has no vote.

This does not mean that he has no power, for he is the spokesman for the 12,000 students who attend MSC. By presenting student views to the other members of the board, he has the potential power to sway their votes on any particular issue.

Presidential Search Begins

A questionnaire, developed by a sub-committee of the newly formed Presidential Search Committee, is being circulated on-campus in an attempt to establish a set of priority characteristics for a new MSC president.

The form, which is available at the Student Center information desk or from James Cottingham, executive assistant to the president, must be turned in tomorrow.

The sub-committee, headed by Dr. Jack Sacher, music professor, was formed during the first Search Committee meeting, held Oct. 21.

Among the topics discussed at the meeting was advertisement for presidential candidates. Along with ads in the educational section of The Sunday New York Times and the Chronical of Higher Education, approximately 600 letters will be sent to neighboring colleges and universities for recommendations. Members of the MSC college community will also be asked to suggest nominees.

THE SEARCH Committee's next meeting will be held Mon., Oct. 30.

The committee is composed of 10 faculty members, 4 administrators, 1 alumni representative and 10 students, will receive applications and interview prospective presidential candidates. After four finalists are approved, the MSC Board of Trustees will then appoint one person to replace Richardson.
Genova Wants Fruitful Activities

By J. P. Cain
Staff Writer

If you've ever been to a coffee house, you may have heard Angelo Genova, the new sophomore class president, imitate Elvis Presley. The audience usually seems to think he does an excellent job. When he's not imitating Elvis, his voice is pleasing, soft, untrained.

But Genova wants to make his voice heard in other places than coffee houses. After high school successes as a student council president, he came to Montclair State with intention to continue his involvement. The first office he held was second floor east dorm council representative in Webster Hall. During his freshman year, he realized that the class at Montclair often fails as a unit. Besides being elected president, since then he's become one of the SGA History department reps and a resident assistant in Stone Hall.

ALTHOUGH GENOVA
imitates Elvis, he doesn't intend to imitate his predecessors. "I think it's the duty of the class officer to approach the student with his services. No class president has ever done this, to my knowledge."

Genova's dedication to his job as class president is born out in his participation in other campus organizations. Sam Crane, SGA President, calls Genova "...one of our best legislators. He has a fine head on his shoulders. He's dedicated to change for the better, I say that without any reservation whatsoever."

To date the sophomore class has, under Genova's guidance, sponsored several activities. One was the much discussed banana eating contest, which Genova dreamed up to 'apeel' to student interest. He also had a speaker from the NJEA.

The clearest choice for a generation

So McGovern can't win, eh? Where have you heard that before?

But you fooled the political experts and rewrote the history books. You provided the manpower and womanpower for the largest, smoothest, toughest vote-canvasing operation this country had ever seen.

Now it's time to do it again. And the job this Fall is even more important. For the choice between Nixon and McGovern is the clearest choice voters have had for a generation.

McGovern has opposed the bombing of Indochina, while Nixon has been inflicting the explosive equivalent of 7 Hiroshima atom bombs a month on that area devastated area.

Nixon believes in putting people out of work in order to hold down prices. His policies have put 2 million more people out of work. McGovern believes that there should be a job for everyone who wants to work, with the U.S. Government itself as the employer of last resort.

Nixon started his campaign with $10 million in secret money. McGovern's campaign is financed almost entirely by contributions of $5 to $25 from the people.

Nixon has nominated conservatives and mediocrities to the United States Supreme Court. One or two more Nixon appointments if he is re-elected, and you'll live with a heavy-handed Nixon court for the rest of your life.

McGovern has pledged to appoint a woman and members of racial and ethnic minorities, and will appoint highly qualified liberals.

Ralph Nader says the Nixon Administration is "the most corrupt in our history. The late Robert Kennedy called George McGovern "the most decent man in the Senate."

McGovern wants the millionaires and the large corporations to start paying their fair share of taxes. Nixon wants to maintain the status quo.

Get an absentee ballot if you need one. Get some money together to help us make get-out-the-vote phone calls. And get together with your local McGovern Committee to find out how you can help.

You started this campaign. It's up to you to finish it.

Send money while there's still time!
Help us buy get-out-the-vote phone calls.

Age of McGovern
Box 100, A-M, Washington, D.C. 20006

YES, I want to help get out the vote for George McGovern. Enclosed is my contribution of:

$________ to pay for 50 phone calls to voters $25 to pay for 250 phone calls to voters (what you can give)

Name ______
Address ______

notes

AU REVOR
The French department is planning a trip to France during the winter session of Jan. 13 to Feb. 2, 1973. The trip, which will cost approximately $450, is for three weeks with facilities for 40 students. A three-credit course may or may not be taken; however, it is included in the price. While there will be courses in French, the trip is open to all students.

Any student interested should see Dr. Helene Klibbe at Partridge 420 on Monday and Wednesday at 11 am and Tuesday at 2 pm. A $50 deposit is required by Oct. 30, 1972 with the balance due on Nov. 30, 1972. Klibbe mentioned that 25 places have already been taken.

ALUMNI HOSTING
The MSC Alumni Association will host two receptions at the Hotel Diplomat, Atlantic City, N.J. during the Nov. 2 and 3 New Jersey Education Association convention.

According to Mrs. Diane Carlsen, the association's executive secretary, an open house will be held from 10 a.m. to noon and 2:45-6:30 p.m. in The Gallery Suite on Thurs., Nov. 2. The second gathering will be a social hour from 4:45-6:30 p.m. in The Gallery Suite on Thurs., Nov. 3 in the St. Denis Room. Refreshments and a Dutch Treat Bar will be provided.

"A student center is an organic kind of place," said Michael Loewenthal, director of the Student Center. "And the future will usher in new developments."

Foremost of the new developments is a rathskeller, a beer and wine tavern, in the Student Center due for completion by February. A bank guaranteeing free checking accounts for students, a general store featuring student crafts and a music listening room are other near future developments.

"The rathskeller will have an outdoor cafe atmosphere with subdued incandescent lighting and will feature beer and some selections of wine and food," Loewenthal stated. "However, it will not become a place to get smashed," he cautioned. It will be the first of its kind in the state.

The Center's director denied that the completion date was delayed to coincide with the Jan. 1 effective date of state legislation permitting 18 year-olds to drink. "It was just a matter of red-tape in Trenton," he stated.

THE CEDAR Grove State Bank is awaiting clearance from Trenton to establish a branch office in the center. A teller booth is to be constructed in the lounge area opposite the bookstore and an adjacent vacant office will house officers of the bank who will handle student loans. In addition to free checking, the bank will offer full service including savings, loans and traveler's checks.

A general store will be constructed next to the rathskeller and will sell student-made jewelry and crafts on consignment, as well as records and other merchandise. The store will collect a small commission from student artisans. The director noted that the general store would permit students to earn money "outside of the structured environment of the Center."

Loewenthal confirmed reports that a music listening room would become part of the Center's activities. Originally, the third floor lounge had been slated to become a listening area with earphone jack outlets and headphones to be made available. Development was held off, however, to determine whether "traffic patterns" would permit its use; he stated, "The lounge is too heavily utilized but we are looking for ways to create a listening room with or without headphones," Loewenthal added.

The Center has also suffered some setbacks. WVMS, the campus radio station, located in College Hall, the MONTCLARION office is unfinished, some fourth floor offices have developed cracks and the elevator breaks down occasionally.

WORK ON installing WVMS into the fourth floor area next to the darkroom is scheduled in "the near future," according to the fourth floor have not been determined. Loewenthal speculated that it was an effect of the normal settling of the building. Expansion joints had been built into key areas but missed the mark in some instances. He pointed to a corner in his office where a crack developed from an expansion joint. Repairs will probably be delayed for a year while the building settles.

Elevator breakdowns have been of a minor nature and repaired by the Center's maintenance men. In a few instances, the cause of breakdown was children playing with the elevator buttons. While discussing the Center's problems the director noted that

- The reason for the cracks on the third floor lounge had been divided by a wall into the future will usher in new developments.

Center to Add New Enterprises

Lowenthal explained that WVMS had not been included in the original blueprints. The MONTCLARION office is also unfinished. Eventually it will be divided by a wall into the newspaper office and a file room.

Oktoberfest in March--for MSC students when the construction on the Student Center rathskeller is completed. The cafe will stock a selection of wines and beers.

- Students have made little use of the formal dining room. He estimated that only 15% of its clientele are students. "We have waiting lists for busy times and tipping is not required," he stated. Lunches usually cost $1.50 or less.
"To Visit the Queen"

"Spend Three Weeks in Londontown"

By Thomas Mazzer
Staff Writer

"The best way to summarize the quality of last year's opera tour (to Britain) is to report that every student described the trip as the single greatest educational experience of his life." Although this introduction of a letter to MSC students from Dr. Jack Sacher, of the European arts faculty, is a comment on last year's examination of the arts in London, it is also a prediction for this year's seminars.

The Office of International and Off-Campus Learning Programs, directed by Joseph Kloza, has coordinated the efforts of MSC's schools and arranged eight study programs of London during the winter session. The three credit study programs will cover art, dance, opera, tv production and drama in the British metropolis. An OIO-CLP flyer also notes that "any student, faculty, staff or alumnus of MSC and members of their immediate family are eligible for reduced air fare (to London) even if they are not registered in one of the seminars."

THE STUDIES and costs are:
The City of London: A Week of Art ($390); Opera in NY, London, Munich and Vienna ($475); Dance in London ($400); Sociology of the Arts ($390); Painting, Sculpture, and the Crafts ($390); tv Production in the British Isles ($350); Seminar in Dramatic Production ($430); and History of Drama in England ($430).

The three week itinerary, beginning Jan. 13 and terminating Feb. 3, is divided into two parts. According to the flyer, during the first week all groups will participate in "literary, fine arts and architectural observations, a day at a movie studio to observe film production, two seminars to be given in the Tate Gallery and British Museum, a general orientation of the arts." There will also be tickets to theater, music and ballet performances. Each group will spend the second and third weeks examining its own particular objectives. A number of days designated "at leisure" are also scheduled for students to pursue individual interests.

One paragraph from Sacher's letter aptly explains one of the values of the observations. "One cannot help but gain a depth of understanding from being in the room where Mozart played for the Empress Maria Theresa, from discovering that a make-up technician is a superb artist in his own right, or from living intimately with an art form and its environment every waking moment for three weeks."

KLOZA TERMS the seminars "unconventional study programs which utilize an entire city as a classroom." He said that one value of the program is the "personal growth someone undergoes by an experience in a foreign nation."

More materialistically, he noted that "it is becoming increasingly difficult to land a good position after college; these observations will stand out on a job application," he said.

Applicants may register on Mon., Dec. 4, 1972. However, payments to the OIO-CLP must commence before that date in order to obtain reservations. The sum can be paid all at once or in weekly installments.

Plans are being formulated by the OIO-CLP for a seminar in the Galapagos Islands this summer, sponsored by the biology department and a trip to Mexico by the school of Fine and Performing Arts.

---

CLUB regrets to announce that George Carlin's concert has been cancelled, through no fault of our own.

The main reason for this final cancellation was the misrepresentation of the dates of the concerts to both CLUB and Carlin. While making arrangements for the scheduling of the tour, the agency never informed Carlin of the dates. Carlin had desired to keep these dates open because of previous personal commitments. He had no original intention of doing a show on these dates.

CLUB will refund any money on tickets sold or will exchange them for John Sebastian/McKendree Spring tickets. People that have exchanges for George Carlin concert Nov. 16 will be refunded by mail. The transactions will take place in the SC game room from 9 to 5 for the next 2 weeks.

CLUB deeply regrets the disappointment and inconveniences caused by the cancellation. This will not deter us from continuing to provide first class concerts to MSC in the future.

Expansion Dims Chapin’s Future

By J. M. Giamo

Staff Writer

Since 1928, the old world architecture of Chapin Hall has graced the Montclair State College landscape. The dorm’s orange tile roof and white stucco facade are sharply contrasted against a backdrop of stately evergreens. A wide, rolling lawn separates Chapin from its larger, more modern counterpart, Freeman Hall. Since 1928, Chapin Hall has housed thousands of MSC students. Now, however, its days as a residence hall may be numbered.

According to housing director Dr. Raymond M. Stover, “Chapin Hall is next in line to accommodate faculty offices and classrooms.” He stated that plans are now underway to build apartments on Clove Rd. that would house 700 students. “With these new facilities, there will be no need to house students in Chapin,” Stover said.

“I very much wanted to save Chapin but with the expansion at Montclair the thought is unrealistic,” he commented. Although an official decision has not yet been made, takeover of the year-old dorm is projected for this spring.

The distraught population of Chapin, however, will “fight again” to maintain it as a dorm, according to dorm president Rita Calabro. Last year the 100 residents’ efforts to “save Chapin Hall” stalled the college’s plans to convert it into office space. Now that Chapin’s future is again threatened, its residents are rallying a second time.

"IT’S HARD for someone on the outside to understand the feeling inside the dorm,” explained sophomore Betty Cuningham. The girls of Chapin claim that it is the only dorm on campus to offer an “intimate living situation.” “When you go to college,” Cunningham continued, “you should be given an opportunity to choose a living style. This intimate living situation is not superficial, like Bohn,” she added. “When you live in the outside world, you won’t be in a building with 600 people,” she commented. While she spoke, she built a cardboard model of the dorm, the design for Chapin’s Homecoming float.

“We’ve been promised equal and adequate housing,” she explained, “but nothing is equal to Chapin,” Cunningham lamented.

Other residents echoed her opposition to converting Chapin. Freshman Colleen Hart recalled that “once I had seen the dorm, I really loved it,” adding that “it’s a modern place just isn’t ‘home.’” A second frosh, Melynn McDonald, commented, “I think everybody is in agreement.” She observed, “It’s just like being home. People look forward to coming back.”

Apparently, Cunningham spoke for most of the residents in Chapin Hall when she reflected, “What can you say about a 45-year-old dorm that does?”

Time To Question

By not letting the state colleges know where they stand, the New Jersey Department of Higher Education took another indecisive step backward last week when it postponed action on its Master Plan. The first reversal was the creation of the plan two years ago.

As presented on Friday, the Master Plan was a much watered-down version of the original blue print which laid down specific plans to control state and community colleges. After strong protests from the schools involved, the concepts of a centralized graduate university and an absolute ceiling on the number of students per college were softened by legislative objections in the form of a few phone calls to Ralph A. Dungan, chancellor of higher education.

The Master Plan has been in a state of limbo for two years. Even Dungan, its leading advocate, admitted that it is "not so enamored by" the plan as he once was. Perhaps this is because the present version will not produce enough power to suit him.

But the fact remains that the Master Plan has never been a viable solution to the problems of higher education in New Jersey. When telephone messages influence educators so greatly that within a few days their proposals change, it is time to question the validity of their suggestions.

Choose Rep With Care

MSC students will soon be casting their ballots for the second student representative to the Board of Trustees. Gaining a seat on the board was a major victory for the students, since the trustees are the final decision-making body of the college.

Within the next year, the board will face one of the most crucial choices it has ever had to make. The resignation of MSC President Dr. Thomas H. Richardson, a leading opponent of the state's attempt to usurp the autonomy of state colleges, leaves the trustees with the responsibility of finding a successor who will continue THR's tradition of fighting for the best interests of the college community.

The student who is selected by his peers to serve as a trustee will bear a great deal of this responsibility since he or she should be able to influence the board's voting members. MSC's student body should therefore exercise as much care and foresight in choosing its delegate as it does in any college-related decision.

Wes Dvorak

'It's All in the Plan'

By Wes Dvorak

The present night patrol is four men.

Depending on the success of the MSC fair, projects to construct amusement parks may spread throughout the state's colleges. "It's a way of balancing the budget without taxes or bonds," stated Chancellor Dungan. "It's all in Master Plan II."

Sam Crane

Meet Challenges

Mon., Oct. 30 is the date for the first campus-wide election of a student to sit with the Board of Trustees. Normally this election would coincide with the SGA executive elections in the spring, and in the future it will be held at that time.

The person who will be chosen by the student body will have an opportunity to serve on the highest policy making board of the college. It is important to select a student who knows the college, the state, and the people of this particular institution.

The Board of Trustees sets the policy upon which the administration runs the college. They also have final approval of all promotion, reappointment and tenure decisions.

This year they will make the final choice of the next President of MSC with recommendations from the search committee. That alone increases the importance of the position for students because the committee will have the final input on that selection.

STUDENT INPUT

At present, the student trustee does not have a vote but we are working to change the laws within the state of New Jersey so as to allow full membership of students on the board. We must place heavy emphasis on the selection of our representative. Responsible student input at the higher levels of the decision-making structure is a needed prerequisite to enlarging student voice in the function of the college. It also lends the way for student representation on governing boards on the state level.

It is an important step. I ask you to choose wisely and be sure to vote on Monday. In addition to this, on November 7 vote for our state and national leaders as well. I ask you to meet the challenge of both.
STATE OF NEW JERSEY
Chapter 81, Laws of 1972
Senate, No. 992 (Official Copy Reprint)

An Act concerning the powers, obligations and legal capacity of certain minors in certain cases, and supplementing Title 9 of the Revised Statutes.

Be it enacted by the Senate and General Assembly of the State of New Jersey:
C. 9:17B-1.
1. The Legislature finds and declares and by this act intends, pending the revision and amendment of the many statutory provisions involved, to:
a. Extend to persons 18 years of age and older the basic civil and contractual rights and obligations heretofore applicable only to persons 21 years of age or older, including the right to contract, sue, be sued and defend civil actions, apply for and be appointed to public employment, apply for and be granted a license or authority to engage in a business or profession subject to State regulation, serve on juries, marry, adopt children, attend and participate in horse race meetings and pari-mutuel betting and other legalized games and gaming, sell, purchase and consume alcoholic beverages, act as an incorporator, registered agent or director of a corporation, consent to medical and surgical treatment, execute a will, and to inherit, purchase, mortgage or otherwise encumber and convey real and personal property.
b. Abolish the right of a person between the ages of 18 and 21 years to disaffirm and be relieved of contractual obligations by reason of age.
C. 9:17B-2.
The Legislature by this act does not intend to:
a. Effect the release from confinement or transfer from one institution to another of a person attaining age 18 rather than 21 years;
b. Affect the right of a court to exercise its discretion in not sentencing a person between 18 and 21 years of age to a State Prison;
c. Alter the right of persons under 20 years of age to be eligible for enrollment in public schools;
d. Alter the provisions of the uniform law relative to gifts to minors;
e. Alter the provisions of N.J.S. 2A:14-21 with respect to the time within which a person under 21 years of age on January 1, 1973 may commence an action or make an entry under a cause or right accrued prior to said date.
C. 9:17B-3.
3. Except with respect to the provisions of N.J.S. 2A:14-21, with respect to the right of a court to take any action it deems appropriate and in the interest of a person under 21 years of age, or to require a change in action heretofore taken by a court with respect to a person under 21 years of age, or with respect to the provisions of the "New Jersey Uniform Gifts to Minors Act," (P.L. 1963, c. 177, C. 46:38-13 et seq.), every person 18 or more years of age shall in all other matters and for all other purposes be deemed to be an adult and, notwithstanding any other provision of law to the contrary, shall have the same legal capacity to act and the same powers and obligations as a person 21 or more years of age. Except as herein otherwise provided, every act or action of any such person shall be as valid, binding and enforceable by or against such person as if, at the time such act or action was performed or undertaken, such person was 21 or more years of age and no act or action by any such person performed or undertaken on or after the effective date of this act shall be subject to disaffirmance because of minority.

4. This act shall take effect January 1, 1973.

Approved July 5, 1972.

Voter Registration

It's More Than Just
Signing Your Name

By Carol Giordano
Staff Writer

This November millions of young people will cast their first ballots in a national election. All of them have one thing in common—participation in the process known as voter registration.

For many, registering to vote was just a matter of waking up to a booth, answering a few questions and signing their name. But the registration procedure and rules are much more legally complex, particularly for college students. Living in dorm or in an off-campus apartment can pose a problem for students who are unsure about their legal residence. Can they register in the town in which their dorm or apartment is located? Or is it necessary to return home to join the ranks of enfranchised citizens?

The answer, according to a representative of the Montclair chapter of the League of Women Voters of New Jersey, is that they can vote in the town and county where their college “home” is “physically located.”

Those living in their college town for shorter periods of time may register in their home town and vote by absentee ballot. Formerly, all college students eligible to vote had to cast absentee ballots if they could not return home on Election Day.

ABSENTEE BALLOTS are available from county clerks for general elections and primaries, from municipal clerks for town elections and from school district clerks for school elections. Mail requests for these ballots must be made “no later than seven days preceding” the election, according to the LWV. However, citizens may cast absentee ballots in person at the county clerk’s office up to 3 pm the day before the election is to be held.

New Jersey law outlines four basic requirements for voter registration. A person may register if he or she is a citizen living in the district where he or she plans to vote at the time of application, meets the above residency requirements and will be at least 18 years of age by or on Election Day. The citizen must be of sound mind and must not be indicted, convicted, serving a prison sentence or on probation or parole at the time of the election, according to the LWV. Those living in their college town for shorter periods of time may register in their home town and vote by absentee ballot. Formerly, all college students eligible to vote had to cast absentee ballots if they could not return home on Election Day.

A special presidential ballot is available to those who establish residence in a county 30 days before the election so that they can cast votes for the presidential and vice-presidential candidates of their choice. These special ballots have been used since 1968 to insure that “no one misses a national election,” she said.

Montclairion Magazine

Vol. 47, No. 9
Montclair, NJ 07043
Thurs. October 26, 1972

Magazine Editor: Joanne Surowicz
Illustrations: Laura Niemiec

EVEN THIS may be further complicated at colleges such as MSC whose campuses are located in two or more towns. MSC itself extends over parts of three-Clifton, Little Falls and Montclair and two counties, Passaic and Essex. The result is that students living in Webster Hall, for example, must register in Passaic County, while those in Freeman Hall are considered residents of Essex County.

Like all New Jersey citizens, dorm students and off-campus residents must meet state residency requirements in the towns in which they register. They must be residents of the county for 40 days prior of the election in order to vote for all candidates, national, state and local, said the LWV member.

The answer, according to a representative of the Montclair chapter of the League of Women Voters of New Jersey, is that they can vote in the town and county where their college “home” is “physically located.”

Make America

By M. J. Smith
Staff Writer

“The League holds that the saloon question is something that can and must be solved and that the only solution is no saloon.”

While the authors of the Anti-Saloon League’s platform may have looked on taverns with a long face in 1893, their faces would be considerably longer when the 18 year-old majority act goes into effect Jan. 1, 1973.

The League, begun by Dr. Howard H. Russell of Oberlin, Ohio was formed to agitate for legislation prohibiting the sale and consumption of alcoholic beverages.

Ax-wielding matrons forcing their way into saloons, temperance marches with the rousing strains of “ bring in the Sheaves” and noisy soap-box speeches had their effect on the American lifestyle.

A sister organization, The Women's Christian Temperance Union, had been begun by a group of Cleveland churchwomen in 1874. National headquarters were located in Evanston, Ill. in home of Frances E. Will, first secretary and presid of the WTCU. By 1896, WTCU had formed gro in 63 countries.

The GROUP'S directive was to “ make America decent” but every temperance was decided unconst retion on grounds that restricted personal lifestyle. Finally, in 19

Congress passed the 1 Amendment to Constitution, forbidding manufacture, sale, transportation intoxicating liquors in United States and all territories.

In order to enforce amendment, Congress passed the Volstead Act which went into effect Nov. 16, 1920.

After a decade of Prohibition, it bee obvious that the law was becoming more and impossible to enforce. 1931, US President Her Hoover appointed the Wickersham Commission examine the no experiment.”
headquarters were located in Evanston, Ill., in the home of Frances E. Willard, first secretary and president of the WCTU. By 1894, the WCTU had formed groups in 63 countries.

The groups' dream was to "make America dry" but every temperance law was declared unconstitutional on constitutional grounds that restricted personal liberty. Finally, in 1919, Congress passed the 18th Amendment to the Constitution, forbidding the manufacture, sale and transportation of intoxicating liquors in the United States and all its territories. In order to enforce the amendment, Congress passed the Volstead Act which went into effect Jan. 16, 1920.

After a decade of prohibition, it became obvious that the law was becoming more and more impossible to enforce. In 1931, US President Herbert Hoover appointed the Wickersham Commission to examine "the noble experiment." The commission's report favored keeping prohibition.

However, when Franklin D. Roosevelt was elected to the Presidency in 1932, the amendment was repealed. While FDR approved of "the demon rum," other Presidents were not so enthusiastic.

When Rutherford B. Hayes took office in 1877, his wife, Lucy, banned liquor and wine in the White House. But at diplomatic dinners, the servants began supplying rum-filled oranges to the guests. Washington was called that part of the dinner "the life saving station" and rumor had it the fruit was doctored on the way home.

The sign on Tierney's door reads: "If you are not 21 or over, don't go away mad, just go away!" However, the sign might be considered dated after January 1, 1973 when the drinking age is officially lowered in New Jersey.

But Bill Tierney, the owner-manager of the pub, does not plan to alter the signs in January, primarily because he is very much against the lowered drinking age.

"We have enough trouble now with the 21 limit without this 18 stuff," the white-haired proprietor said. "We're not a big city like New York or Jersey City or Newark. We're a small country town," he explained, "we don't want any of this."

Despite the fact that the sign will remain, those showing proof of age will be served because of the law. However, it is the law that makes Tierney against the lowered age.

This law claims that he can have his liquor license revoked for 10 days if he is caught serving a minor an alcoholic beverage. That's 10 days worth of business.

Tierney paused during a mid-day meal of stew and a glass of milk to explain his worries over the legal situation. "I'm the goat!" he explained, mostly out of frustration.

Tierney's probably not alone in saying that he feels "the nobility of a person who has been drinking is in the war, they should be given all the responsibilities: drinking, voting, buying a house," she remarked.

Her argument will not dent the high schools' attitude. Aaron Halpern, principle of Clifton High School, has already denied the senior class permission to drink at their prom next spring.

Halpern explained that this ruling is an interpretation of the contract theory which states that when a student is in school or participating in a school function, he is bound to obey the rules of the school. A school is responsible for the students as Tierney is responsible for his customers. If a person who has been drinking is in an accident as a result of his imbibing, the tavern or place where the person obtained the liquor is responsible.

Thus, Halpern explained, if a student drank at a school dance and had an accident on the way home, the school would be at fault.

Halpern said that the decision "Made him very happy" and he felt that most schools would follow the same policy in making this decision. "I can't imagine any school encouraging inebriation," he said.

New Rights Change Legal Status

By Susan Kelly
Staff Writer

On January 1, 1973 every person 18 years of age and over will be an adult in the eyes of the law. The right to obtain this right focused on the lowering of the voting and drinking ages. However, men and women between the ages of 18 and 21 will soon find that many more responsibilities come with their newly obtained rights.

David Conrad, attorney for the MSAG Student Government Association, explained that the law represents an end of parental responsibility for the child who reaches 18 years of age. At the present time, the parents are responsible for their child until he or she reaches the age of 21.

There are only two exceptions to this. In the case of a male, if he moves out of the house and becomes financially independent, his parents are no longer responsible for him. A female becomes independent of her parents when she marries. After this year, parents will be neither legally nor financially responsible for any child over the age of 18.

Many a teenager has escaped the clutches of a magazine or record company, even though he may have signed a subscription or contract, on the grounds that he is a minor. That escape hatch will still be open for the 16 and 17 year-olds. HOWEVER, ANYONE 18 years of age or older will be held legally bound in January to any contract that they sign. They, not their parents, will be financially obligated to fulfill its terms.

Conrad affirmed that a suit can be brought against any adult who fails to honor a contract. This applies equally to those adults under the age of 21.

The new legal age also effects the ownership of property. Attorney Angelo Dalto of South Plainfield explained that persons under the age of 21 can at the present time own property, although it is usually in the name of a guardian. However, a minor or his guardian can not dispose of that property without a court hearing to insure that the sale is used to the advantage of the minor. After January, a person 18 years of age or older is the full owner of said property and may deal with it according to his own wishes.

Trust and inheritance law will be altered in January, when 18 will become the minimum age in which a person can receive the money from an inheritance or trust fund. At the present time, a trustee is placed over the funds until the beneficiary reaches the legal age of 21.

These changes will make little difference, however, if the person who establishes the fund specifically asks that the funds remain trust until the person becomes 21 or 25 or 30 for that matter. Dalto said that in spite of the upcoming change in the legal age, many of his clients still ask that their funds remain in trust until their son or daughter becomes 21.

The rationale, according to Dalto, is that by the time their child becomes 21, he or she will have completed a college education.

AN ADULT under the age of 21 will also be able to make a will of his own. Presently he can not must also be willing to assume the responsibilities.

There are some legal areas that will not be changed by the new legal age. The criminal status of 18 year-olds will remain the same. Conrad explained that, inspite of the fact that the legal age is now 21, anyone 18 years old or over is considered an adult "for criminal purposes." The juvenile law deals with those people under the age of 18 and will continue to do so in the future.

Tax status will also remain unaffected in January. A spokesman for the Internal Revenue Service said that parents can still claim as dependents children who have reached the legal age. As long as they contribute largely to the support of the child, that child is a dependant regardless of age.

The age of consent regarding marriage is presently 18 and will remain so in January. The law states that only those under the age of 18 must obtain parental consent for marriage.

People under the age of 18 may not buy New Jersey lottery tickets and that will still apply next year. Michael Goldman of the state attorney general's office explained that some people younger than 18 do win prize money from tickets given to them. If the winnings are less than $5000, a check is given to an adult member of the child's family in the child's name. Goldman said that if the money is more than $5000, it is deposited in a bank in credit to the child's guardian until he reaches the age of 18.

GATHERING INFORMATION of the effects of the new legal age is often difficult because many professional people consider the law to be open to interpretation. The American Civil Liberties Union refused to comment on the law until they receive further information from the state attorney general.

Conrad said that the statute is somewhat vague and will remain so until court cases on the rights of 18 year-olds are tried. The courts may decide that the statute does not apply in certain cases.

The SGA lawyer said that the new law has so many aspects that it does not try to be specific. He pointed out that most of the laws in the country are not written in statutes but are the results of court cases.

January 1973 will see a decrease in parental responsibilities and will bring an increase in the rights and responsibilities of many young people as they assume the legal status of adults.

**Master Plan--Fight for Power**

By M. J. Smith  
Staff Writer

The final draft of the Master Plan's Phase II was tabled by a vote of the Board of Higher Education Friday. The plan, a guideline for the development of NJ higher education facilities, was scheduled to be approved at the February monthly meeting. Protests from the NJ Education Association, who attempted to develop the plan, "I am not so enamored by master plans any more."  
The plan's final draft, drastically altered over past months, provides for:

- Imposing 7500 ceiling enrollment on state colleges. However, the board stated it will consider a proposal by the individual college to exceed that limit.

The document also comments that since established graduate schools continue to admit students across state boundaries it makes a "fair share" of graduate education in New Jersey unnecessary.  

**MSC MASTER PLAN I**

**ALMOST THERE--Part one of Montclair State's own Master Plan has almost been completed. Designed by campus architects Unkham-Madogwa and Zvevnic of Princeton, the detailed reports were ignored by the Board of Higher Education master planners.**  

**Staff Writer**

Urbahn-Mabony and Zvosec of Princeton, the detailed reports were under consideration for NJ higher education facilities, a vote of the Board of Higher Education of Vermont. The plan was voted on and the Board of Higher Education, commenting on the plan, came to symbolize the objects of a despicable plan to embarrass them hatched in the January hearing, then completed when the board adopted 10 major goals of higher education and stated their intention that the Master Plan be for five years with major revisions when necessary.  

**FOOTNOTES**

The first draft of the plan had one footnote which commented that the enrollment at Jersey City State College might never reach 7500. The final draft has 19 footnotes.  

The 126 page paper was written by Dr. Bruce Robertson, state master planning director. Phase I of the plan was completed when the board adopted 10 major goals of higher education and stated their intention that the Master Plan be for five years, with major revisions when necessary.  

The reports were mandated in 1966 when the state legislature created the Department of Higher Education.
Knudson Receives Playboy Premiere

“Symphony No. 1” by Paul Knudson, assistant music professor, will receive its world premiere in a concert by the MSC Concert Band, on Sun. Nov. 12 at the Playboy Club in McAfee, N. J. Also on the program will be another work by Knudson, “Concerto for Piano and Concert Band.” The composer has written the concerto in the classical form with the role of the solo instrument being equal to that of the ensemble. As a finale to the program, Dr. Ward Moore, who will be conducting the Concert Band, will conduct the band and a chorus of 100 voices in Berlioz’s “Grand Symphony for Band.” The chorus will be composed of students from Franklin, High Point, Newton and Sparta high schools.

Tickets for the performance, priced at $2.50 for adults and $1.50 for students, may be obtained at the MSC Music Department or by calling 383-7778.

Paul Knudson and Concert Band” and the “Grand Symphony for Band” by Hector Berlioz.

Knudson received a $1000 grant from the NJ State Council on the Arts to complete the symphony. Catherine Carver Burton, pianist, an artist-member of the MSC music faculty, will be the guest soloist in Knudson’s “Concerto for Piano and Concert Band.” The composer has written the concerto in the classical form with the role of the solo instrument being equal to that of the ensemble. As a finale to the program, Dr. Ward Moore, who will be conducting the Concert Band, will conduct the band and a chorus of 100 voices in Berlioz’s “Grand Symphony for Band.” The chorus will be composed of students from Franklin, High Point, Newton and Sparta high schools.

Tickets for the performance, priced at $2.50 for adults and $1.50 for students, may be obtained at the MSC Music Department or by calling 383-7778.

AFRICAN EXHIBIT—The African Art Exhibit, on display in Ballroom C of the Student Center, is halfway through its month and a half run. The artifacts, many originally from western Africa and the Congo, will be on view until Nov. 11 on a daily basis from 10 am to 8 pm.

The Investigation

ETG Experiences Trial

By Jim Cassidy

ETG, Player’s experimental theatre group, will open their new season on Thurs. Oct. 26, with a performance of excerpts taken from “The Investigation” by Peter Weiss. The play is a condensation of the written record of the famous genocide trials at Nuremberg. The power of the script lies in the fact that the words were originally provided not by a playwright and actors but by actual witnesses accused at an actual trial.

The text is sparse, almost skeletal. There are no stage directions provided by Weiss and symbolic staging drives the point of each scene home to the heart.

Work began from scratch on the production about two weeks ago. ETG began probing for possibilities by exploring aspects of concentration camp situations thru the use of improvisation “experiences.” Appreciation and sensation of the horror of Auschwitz are important to any actor attempting to communicate the reality of the camp.

Cast members include Mary Bruen, James Cassidy, Cheryl Clark, Rosie El, Ron Garito, Sue Moronoki, Marian Murphy, Tony Salerno, Jim Van Trueren and Ed Zuckowski. Originally Joe Fitzpatrick, Grizelda Garcia, Linda Healy, Martin Van Trueren and Vince Ottera were scheduled to appear in the production. However involvement in “Cabaret” by the members prohibited their appearance.

There will be three performances of “The Investigation” on Oct. 26, 27, 28. The shows begin at 8 pm and will be held in College High Auditorium. Admission will be $2.

Flash, Ming Invade SC
Beginning Mon. Oct. 23, the Student Center will present
"Flash Gordon" in serial form. The serials will be shown
every Monday and Wednesday until early December when
the last episode will be offered.

The serial is part of the new Student Center Cinema
Program. Through it the Student Center will offer free films
at noon, two or three days a week.

To put it simply, as one
student explained, "you gotta
keep from getting bored and this
sure beats reading the Times."

Stuarti Turns to TV
By Barbara Hartnett
Staff Writer

"I'll sing my heart out every
night until I die," said the
enthusiastic star in response to
one of four standing ovations he
received during a performance at
Long Island's Westbury Music
Fair. His audience laughed
more than anything else." She hoped
that the trend would change

Enzo Stuarti

sentiment was obvious in

everything the man did.

The headline was Enzo
Stuarti, international singing star and
world famous car buff who entertained
the Music Fair's audience.

His love for cars and his life

on stage he carried around—always with a

red velvet jacket for more

impressive off stage. The little

man with the big tenor voice

was soft-spoken and friendly as he

spoke about his new endeavor.

"I just finished five days on
"Young Doctor Kildare," he
explained. "I play a singer but

never sing a note. It's the

Marilyn Monroe story and I play

one of a flock of friends that she
carries around—always with a

glass in my hand and looking for
to keep," he quipped.

"IT'S NOT a big part,
but you have to get your feet wet," he
continued. "And it's a good part,
a good little running part," he
concluded.

Stuarti's producer, Sherman
Ford, joined in the conversation
after the Westbury performance.

Talk turned to the album which
the singer will cut in the next
few weeks. "We're going very
contemporary," Ford
commented, "then eventually
I'd like to record his whole act."

"We're going for a hit," Stuarti chimed in.
His charming but businesslike producer
echoed the sentiments. "We have to
for a hit because that's
where everything starts," he
said. After that you can
do whatever you want," Ford

concluded.

What would he do if he
couldn't sing? The answer came
quickly and unequivocally—"race."
In fact, he said it as if he
would like to do it anyway. The
fact that he has recently
completed building, with the
help of Mario Andretti, a
completely customized sports
car at the incredible cost of
$40,000 may have had
something to do with his quick
response.

His love for cars and his life
as a performer will soon come
together in a television special
called "A Man, A Car, A Song
and Rome."

Television has become an
important part of his life and he
is convinced that there is a
future for Enzo Stuarti the
actor. Later this year he will also
be doing a segment of
"Mannix." And the people in
California asked if I would be
interested in 'Ironside,'" he told his
Westbury audience.

"I said yes," he continued,"but
on one condition. If and
when Stuarti does 'Ironside,' it
better be the first time that the
Italians win in court."

SC Graffiti Reflects Varied Ideas
By Vincent Bianco and
Joe DeCanto
Staff Writers

The graffiti in the ladies' rooms supports George
McGovern and is also more
philosophical and religious than
its male counterpart. One paper
contained an echo to "Pray the
Lord" to which other Biblical
references had been added. Love
was also a dominant Theme: "Love
is a mystery; you have more of it
the more you use it the more

you have."

One writer, attempting to
praise the idea of the sheets,
rote, "Brilliant! This is the first
appearance of M.C. graffiti in
Jersey City State."

According to Dr. Samuel
Pratt, sociology professor,
campus graffiti tends to be both
intellectual and friendly. Unlike
restaurant or subway writing,
the reason for this is that the
campus is a familiar place to the
students who many times may use
the same bathroom all the
same.

Pratt, an authority on all
forms of art in public places,
defines graffiti as "an individual
expression of one's own ideas
rather than those of the
system."

Sometimes as many as five
different writers responded to a
thought; either supporting the
original idea or disagreeing with
it violently.

system."

To put it simply, as one
student explained, "you gotta
keep from getting bored and this
sure beats reading the Times."

Flash, Ming Invade SC
Beginning Mon. Oct. 23, the Student Center will present
"Flash Gordon" in serial form. The serials will be shown
every Monday and Wednesday until early December when
the last episode will be offered.

The serial is part of the new Student Center Cinema
Program. Through it the Student Center will offer free films
at noon, two or three days a week.

In addition to the weekly cliff-hangers, the Center will offer a weekly full-length feature or special presentation throughout the remainder of the semester.

The fare is expected to alternate between camp, nostalgia and all-time box office classics. The Oct.-Nov. schedule is listed below.

OCTOBER
23 Flash Gordon I
26 Bunny Lake Is Missing
31 The Mummy's Hand

NOVEMBER
1 Flash Gordon IV
6 Flash Gordon V
8 Flash Gordon VI
16 Flash Gordon
20 Flash Gordon IX
22 Flash Gordon X
27 Flash Gordon XI
29 Flash Gordon XII
30 The Gold Rush
Solitude At MSC...

In a book...

In quiet meditation...

...And How You Find It

With someone you love...

And in your own kind of music.
GETTING A LIGHT LIFT
Lightweights (men from 165 to 100 pounds) are needed for Montclair State's weightlifting club. Practices are now being held daily from 4 to 6 p.m. in the weight room in the basement of Panzer Gym. Interested persons are asked to contact supervisor Phil Grippaldi or assistant intramural director Barry Hennis at the athletic office.

SUDSY SHOOTING
Men interested in competing in the night basketball round robin tournament, beginning Mon. Nov. 13 until Wed. Dec. 20, are requested to pick up applications at the athletic office. Games will begin at 9 p.m. and run until midnight or later. The winning team will represent Montclair State in the F. & M. Schaefer Brewing Co. Tournament.

OFFICIALS NEEDED
Officials are needed for the night intramural basketball program. Interested persons are asked to leave their names in the space provided on the athletic department bulletin board located outside the athletic office.

SPIKED PUNCH
Those interested in forming teams for the co-ed intramural volleyball program are requested to pick up applications in the athletic office.

OUTDOOR HOOPSTERS
The Six-Killers edged Tau Lambda Beta, 15-14, to reach the finals of the intramural three-man half-court basketball tournament. The Six-Killers will face the Warriors who have beaten the Bombers, 17-14.

SINGLE PLAY
John Schmitt defeated Mark Fistes, 6-1, 6-4, to win the intramural men's singles championship.

SNOW SESSION
Students pre-registered for the ski class (0879 0266 5488) will hold their first class meeting 7 p.m. Monday in Panzer Lounge. Bob Moran, manager of the Vernon Valley Ski Area, will be present to outline the course requirements. If unable to attend the class, contact Marilyn Taigia, ext. 5243.

COMIN' THRU: What looks like a broken play actually may be one as football intramurals wind up their 1972 season. Psi Chi will face Zeta Epsilon Tau and Tau Lambda Beta will challenge the Titans for the right to play in the championship game to be held Mon. Nov. 6 under the lights at Sprague Field.

"It's a big change going back. It's so quiet there, you know," Tim O'Donoghue said in a thick brogue. The Montclair State cross country runner was describing his visit back home last summer. "There's quite a cultural difference, too."

Indeed there is. There are no refrigerators in Kerry, Ireland, where Tim was born and raised. There's no central heating either and no hot water. Nature literally lives next door, sharing the bleak, hilly landscape with a small population of farmers and fishermen. They haven't got too much in Kerry, and what they have is only the result of hard work.

TIM O'DONOGHUE got up before the sun to do farm chores. He then would go to school, the equivalent of an American high school, coming home later to do more work. Somewhere he found the time and dedication to run 50 to 60 miles a week.

The MSC sophomore, who was the only member of his high school track team and who holds all the cross country records at Montclair, has just finished a work-out. He runs 100 miles a week.

With his usual determined style, arms and legs pumping with machine-like coordination, O'Donoghue seemed able to go on forever.

"I'VE NEVER seen anyone work as hard as Tim," team co-captain Bill Lowing marveled. "He never lets up. He's full of confidence, but he's not resting on his laurels. He's just tough."

True to his past, Tim leads a harsh and simple life. Besides running, "I just study a lot," the physical education major explained with a grin. "The education is harder here, you know. I've had no lead-up courses in physical education so I've had to start from scratch."

His reason for coming to America in the first place was to ease the teacher shortage in his own country, where compulsory education has been in effect for only four years. At the beginning of his stay, O'Donoghue was apprehensive.

"I EXPECTED the people here to be more serious, to work harder, I guess to be more snobbish. But they are very good, very interesting and friendly."

Tim was also very shy and quiet at first. He still is, usually content just to smile or laugh with his friends. Sometimes it's for the best, such as when his teammates taught him some choice slang—just the words, not their real meanings. The postcards he sent soon after his stay livened up a few households, as did his thought-to-be-friendly greetings.

Defense Saves Indians

By David Benavage
Sports Writer

Thank goodness for Montclair State's young, rugged defensive corps. Though none of these hard-hitting tacklers were starters until this season, they still were able to balance out the Indians' offensive inability to move the ball. The defense set up most of the scoring plays for MSC as the Indians defeated William Paterson College, 23-7, last Saturday night before a crowd of 6500 at Sprague Field.

Clary Anderson, coach of the Indians, said, "Our defense, our ends Bob Martin and Sylvester Burroughs played exceptionally well." DEFENSIVE COACH Don MacKay added that the reason for their improvement was that Martin and Burroughs have both fully recovered from early season injuries which had hampered their play.

The offensive hero of the game was WPC's own little sidewinder, Moses Laizerman. Laizerman, whose three field goals tied Dan Rodgers' 1966 record for most field goals in a single game, put the Indians ahead to stay with his first successful attempt at 8:11 in the third quarter.

To counteract his offense's inability to move the ball on the ground or through the air, Anderson replaced his two starting running backs, Franklin Walker and Al Thompson. He did it by reaching into his magic hat and pulling two new jack-rabbits in the form of Frank Ripley and Bob Herrmann.

RIPLEY CAME in in the second half and bulldozed through the Paterson defense, causing Anderson to say, "I will be using Ripley more as a running back now."

In referring to the poor defensive showing, Anderson said, "Our receivers were trying to catch the ball with one hand and Gary Acker was wild with his passes in the first quarter."

Acker had to be taken out of the game in the second quarter with a right shoulder injury. ANDERSON ADDED, "I hated to go for the field goals when we were so close to the goal line, but our offense just couldn't punch it in."

There is a lot of joking on this team, the kind of easy banter that comes with confidence. "We're a loose team," Reusch stated. "Last year if we let in a goal everyone would yell at the goalie on the fullbacks who made the mistake. This year, when I let in the first goal, (against William Paterson)

Greg Reusch MSC's Mad Hatter.

Reusch and Doran

They're Tending to Business

Halfway through the last overtime period in Saturday's Queens College game with Montclair State up, 3-2, a QC soccer player kicked the ball towards the Indian's goal. "It's in," anguished goalie Greg Reusch moaned on the sidelines as he hid his face in his hands, trying not to watch fellow netminder Chuck Doran let in the tying goal.

But there's a happy ending to the story. As Reusch looked, the ball had trickled wide and into the hands of Doran. "Greg, you'd think YOU were in there," as MSC player called as Reusch breathed a sigh of relief. ACTUALLY, COACH Bob Wolfarth would like to see both of his goalkeepers in at the same time. Reusch, at 5-foot-10 has trouble handling the high shots and his counterpart at 6-foot finds low shots troublesome. His players readily admit their weaknesses. "How do you jump down at a ball?" Doran queried.

"IT'S FROM the knee," replied Reusch, getting out of his chair to demonstrate. "We'll work on it in practice. But you have to teach me how to jump," he joked.
MSC Crowns Queens
On Overtime Goal, 3-2

By Joe Castronovo
Sports Writer

Manny Mennendez booted the winning goal in overtime for Montclair State's soccer team Saturday at Pittser Field as the Indians defeated Queens College of New York, 3-2.

The game, a Metropolitan Collegiate Conference battle, was the first of a four-game home stand for MSC. The Indians entertained Stoney Brook College this Saturday at 2 pm at Pittser Field.

MENENDEZ'S SHOT, his first tally of the season, came with 4:05 gone in the first overtime on a Gary Choka assist. It was a typical match for the Indians this season. After MSC's Choka and Nick Mykulack scored first half goals (assisted by Bill Gaertner and Roman Hanycz respectively), the Indians promptly blew their lead in the second half.

"That's been our biggest problem this year," coach Bob Wolfarth commented. "We're never able to come back offensively in the second half. Defensively we're quite sound, what with great goalies like Chuck Doran and Greg Reusch, "he added.

ALTHOUGH THE Indian's record is quite impressive thus far, Wolfarth wasn't overflowing with optimism when speculating on future contests. Perhaps one of the reasons for his dismay is that both Paul Papadogeorgopolous, who left the Queens game in the first half, and goalie Reusch, who didn't play, are injured.

"Paul is our leading scorer and is very valuable to the team," Wolfarth remarked. "Pop" came out limping after colliding with a member of the opposition, but was up and around, watching from the sideline shortly afterward.

"It (the injury) doesn't look too bad but we'll have to wait and see how it turns out," Wolfarth added.

OTHER INJURIES stemming from the Queen's match were to Caytano Bastidas, who left the game in the first half, and Mykulack, who went out in the second. Neither were seriously injured.

MSC had been leading 2-0 until about midway in the second half. With 24:27 gone, OC's Dario Cortez scored on a penalty kick, and the Indians lead was cut in half.

Two minutes and 25 seconds later, QC's Israel Majzner, with an assist by Kees DeBruyn, scored his team's second goal he brilliantly out-maneuvered three MSC defenders and baffled goalie Chuck Doran to get the goal. He kicked the ball to Doran's right, hitting the inside post and deflecting the ball into the net.

THAT TIED the score, 2-2, with 19:35 left to play in regulation time. Neither team was able to muster up another goal and the match was sent into overtime.

After Mennendez's goal in the first 5-minute period, Queens was unable to tie the score again, giving the Indians their fourth victory against one defeat and one tie. Queens is now 3-3-1 overall.
