Drop-In Center Fights for Space

By Tom Benn
Staff Writer

In an apparent attempt to dramatize its inability to agree with college administrators on a suitable location, the staff of the proposed Drop-In Center erected a tent near the Recreation Lodge this morning.

Mike King, public relations director for the SGA and director of the Drop-In Center, stated that the tent would be used today and tomorrow in an attempt to draw attention to the Center's plight. A decision will remain up next week. King said.

"We were told that because the Drop-In Center is a student activity, it would have to be in the Student Center. That means that either the Student Center would have to be open 24 hours a day or the Drop-In Center would have to change its concept somewhat," said King.

"All we really need is a place where we can do our work. I have no objection to moving if a place can be found that meets our requirements." King said.

"I realize that this whole project is very worthwhile, but who are they to say that they are more important than the student body in their cause. The staff of the Drop-In Center, in addition to pitching their tent to serve as a temporary location, will circulate fliers and seek to arouse the interest of the student body in their cause. King would not comment on the group's next step if his current plans failed to produce the desired results.

The administration feels that it would be impractical to move the dean out of that location and has offered the Drop-In Center several alternatives, all of which have been turned down.

Dean Mintz stated, "All we really need is a place where we can do our work. I have no objection to moving if a place can be found that meets our requirements."

King said, "We were told that because the Drop-In Center is a student activity, it would have to be in the Student Center. That means that either the Student Center would have to be open 24 hours a day or the Drop-In Center would have to change its concept somewhat."

"Among the places offered as alternatives and rejected by the administration feels that it would be impractical to move the dean out of that location and has offered the Drop-In Center several alternatives, all of which have been turned down."

Dean Mintz stated, "All we really need is a place where we can do our work. I have no objection to moving if a place can be found that meets our requirements."

King said, "We were told that because the Drop-In Center is a student activity, it would have to be in the Student Center. That means that either the Student Center would have to be open 24 hours a day or the Drop-In Center would have to change its concept somewhat."

"Among the places offered as alternatives and rejected by the administration, the group are the General Store, the area behind the information booth in the Student Center lobby and the television room at the south end of the cafeteria. They were rejected because of either insufficient space or a lack of privacy."

THE SGA PREPARED a report for the college Space Allocations Committee and submitted their request for the Recreation Lodge in December. The Committee rejected their request at their December 18th meeting. In a memorandum to Sam Crane, SGA president, and Michael Loewenthal, director of the Student Center, Richard Davis, the recorder for the Space Allocations Committee, stated, "Realizing that space within this building (the Student Center) may be at a premium, the committee has decided to make available space in Life Hall, to be used by some activity which may be transferred from the Student Center. The space in Life Hall is the 400-square foot common hall of the snack bar. To date, no one has been found who would be willing to move from the Student Center to Life Hall, Jerome Quinn, director of institutional planning for the college and a non-voting member of the Space Allocations Committee, said, "It's apparent that the Drop-In Center is a student function and space for it should and could be found in the Student Center." Asked if it would be feasible to keep the Student Center open on a 24 hour a day basis, he replied, "Yes, I think so."

The college is reluctant to make the Rec Lodge available to the Drop-In Center because it would involve moving Dean Mintz. In order to move him, though, it would entail tearing down a classroom to make room for him. "SPACE IS TIGHT," Quinn said. "We're very reluctant to take classrooms because that means that we'll have to admit fewer students when there are already thousands waiting to get in here. I realize that this whole project is very worthwhile, but who are they to say that they are more important than the students?"

Today, Thursday, February 8

E.O.Z. Film: "Confrontation," Alumni Lounge, 7:30 pm.
APD. Used book sale, Feb. 8-21, Memorial Auditorium, 10-3 pm.
"PATCHES." Independent theater study project, Studio Theatre, 8 pm.

FRIDAY, FEBRUARY 9

"PATCHES." Independent theater study project, Studio Theatre, 8 pm.
Community Education Department. Seminar, Student Center, 8 am; Lunch room, Ballroom C, 11-30 am.

SATURDAY, FEBRUARY 10

Jack Sampson and Mike Molotane are two typical MSC students. They go to class and even work part-time as many other students do. However, the fact that this work simply involves standing around and sometimes wearing expensive clothes for at least $50 an hour puts them in an enviable position. Sampson and Molotane are model males.

About five months ago, Sampson, a junior from East Brunswick and Molotane, a sophomore from West Paterson, were asked by Lewis Montane if they would like to go into modeling. Montane is the owner of the Lew-Mont Modeling Agency. "I'm always willing to try just about anything. The money was good and I thought it might lead to something," Sampson said looking up momentarily from his copy of Playboy.

The room became quieter as a hair dryer was turned off. Molotane entered wearing an outfit that suggested he had more than a night of homework planned.

The two men rent rooms from Montane and are also under contract to him. "The contract is a loose one. The money is good and I thought it might lead to something," Sampson explained.

Molotane laughed at this and mentioned that they had both recently turned down a job of nude modeling for a college art class. "I wasn't the idea of being naked that bothered us, it's just that the money was not good enough," Molotane explained.

"Our faces were not too keen on the idea anyway," Sampson added with a grin.

Sampson and Molotane both work part-time. Sampson is a commencement student whom he sometimes works for at least three hours a day.

CLASSIFIED

Large range of new and used rings in all metal and diamond cuts in stock. 

Call 746-5656, only between 6-8 p.m.

Ladies full length sheep coat, size 15-16, excellent condition, $25 from Fran. New $400. Tel. 746-2777.

SWEAT AND TOLK: Mike Molotane might not appear hard at work in this picture which appeared in Vogue magazine, but the MSC student has serious occupation is modeling. Along with roommates Jack Sampson, also an MSC student, Molotane averages $60 an hour for the work.

By Diane Carlson, student association executive secretary. "However, stress will be placed on educational expenses, Calton said. The board also hopes to increase both the number and the size of the grants by next year.

Squirrel library has been awarded a FEDERAL GRANT of $50,539, $20,000 of which has been designated for the expansion of holding in the area of service to the disadvantaged. MSC was one of 527 college and universities covered in the $10 million higher education grant.

By Theresa St. George

The Alumni Association has announced the appointment of Florence Dick to the newly created post of director of the affirmative action corps. The new job will make sure that MSC is fulfilling all federal and state laws regarding civil rights.

Dick has been director of MSC's Minority Improvement Program since 1969, before she served as acting director of the Adult and Continuing Education Resource Center.
Students Boycott For Migrant Workers

By James D. Hile
Staff Writer

Bob Covmiar isn’t your usual aerospace engineer. He doesn’t design SSTs, drive a Cadillac or collect a $40,000+ salary.

Instead, Covmiar is a member of the United Farm Workers (UFW) which is affiliated with the AFL-CIO. Currently, the UFW is seeking equal rights and better working conditions for the estimated three million migrant farm workers nationwide.

Covmiar is spearheading the local boycott effort against iceberg lettuce. The California growers of the vegetable have failed to recognize the UFW as the legal bargaining agent for the lettuce pickers - thus necessitating the boycott.

In a campus lecture at Russ Hall, Covmiar told what is happening to the workers in the fields, "They chose to work with the Teamsters Union because of all the types of lettuce, iceberg is the biggest moneymaker. A boycott of iceberg lettuce, therefore, would most affect the large farm owners who are held responsible for the poor conditions in which migrant farm workers live.

In a land of prosperity, it isn’t fair that the people who pick the food should receive so little of it themselves - this was the reason given by Ruell Kaighn for the boycott against non-union iceberg lettuce. Kaighn is a Protestant minister representing the Protestant Foundation on campus.

KAIGHN IS A member of a group of students and faculty working on the boycott. He explained that the movement is aimed against iceberg lettuce because of all the types of lettuce, iceberg is the biggest moneymaker. A boycott of iceberg lettuce, therefore, would most affect the large farm owners who are held responsible for the poor conditions in which migrant farm workers live.

The original plan was to boycott all types of lettuce but Kaighn said that lettuce is too widely used to be boycotted entirely. The plan was therefore changed to ask that lettuce other than the popular iceberg be used.

Michael Locicero, a senior history major, brought the movement to campus. Locicero became aware of the situation last July at the Democratic National where he came in contact with representatives from United Farm Workers.

The group achieved their first success when Harold Ostroff, director of the Student Center food service, agreed not to serve non-union iceberg lettuce. Locicero said that they are now trying to get Saga food service, the dorm caterer, to join the boycott.

KAIGHN SAID THAT the boycott organization was conducting the picketing of A&P stores in Paterson. The food store chain is viewed as a major offender of the migrant worker’s cause. The MSC has tried repeatedly to contact A&P officials who, according to Kaighn, refuse to see them.

Students interested in joining the boycott or helping to organize it are asked to contact the Chaplains office on the fourth floor in the Student Center.

MSC Joins Protest

Tax Woes? Help’s Coming

Relief is on the way for students struggling with the annual mental gymnastics of federal income tax forms. Starting on Feb. 14, members of the Accounting Club will dispense free tax advice to anyone who needs help with his return. The tax service is open weekdays, 10-15 accounting students involved, has all taken tax courses; they can only advise. The 10-15 accounting students involved have all taken tax courses, but, Solomon explained, they are just students, not CPAs. However, she pointed out, the members’ course work does make them more knowledgeable than the average college student. Additionally, club members will check with the Internal Revenue Service on questions they cannot answer. They will then channel the information back to the student involved.

Senior accounting major Marcia Solomon emphasized that club members can not fill out income tax forms; they can only advise. The 10-15 accounting students involved have all taken tax courses, but, Solomon explained, they are just students, not CPAs. However, she pointed out, the members’ course work does make them more knowledgeable than the average college student. Additionally, club members will check with the Internal Revenue Service on questions they cannot answer. They will then channel the information back to the student involved.

Solomon, who works for the Internal Revenue Service herself, described the club’s project as a "good service to the school." She commented that the service, while new to Montclair State, has been very successful on other college campuses. The program will also yield practical benefits for its participants, she added, describing it as "a good way to use what they [the accounting students] have learned."
Mixed Reactions 
To Draft's End

By James D. Hile

"I think it was a good thing that the draft ended. Although I wasn't affected personally," said Bill Minton, a junior geography major.

Such were the kinds of comments which greeted the announcement by Melvin Laird, US secretary of defense, that the draft would end as of Jan. 27, 1973.

"I think it was a good thing that the draft ended. Although I wasn't affected personally," said Bill Minton, a junior geography major.

"I think it was a good thing that the draft ended. Although I wasn't affected personally," said Bill Minton, a junior geography major.

Yet, Barrett did see some good in the government's move. "It will end the hostility that has arisen between the government and students," he said.

"I think it was a good thing that the draft ended. Although I wasn't affected personally," said Bill Minton, a junior geography major.

Yet, Barrett did see some good in the government's move. "It will end the hostility that has arisen between the government and students," he said.

Staff Writer

committee, headed by senior music
college campuses may continue to
grow, but a College Life Union Board
Pageant" to select this year's Miss
Montclair State College.

By senior Laery Noles and Tom Reaves. It is scheduled for April
6 at 8 pm in Memorial Auditorium.

"We would really like to see a lot
of girls get interested," the spirited
Vanderhoof claimed. "We're not
asking for too much. We just want to
keep the pageant going. It's not just a
beauty contest," she continued. "The
winner will be representing Montclair
State throughout New Jersey. She
will also be Homecoming Queen and
preside at various college functions."

As last year's Miss MSC
candidate, Vanderhoof acknowledged a
personal interest in the program.

"I've been a part of the pageant and
don't just want to see it done," she
stated. "I'm aware of the apathy and
can understand it, too, but we are
going to do what we believe in and
hope others will support us. A girl
from Montclair State should be
recognized at the state pageant along
with girls from other state colleges.

Applications for the show are
available today, Feb, 8, in the Student
Center until March 1. All interested
applicants will leave their name and
phone number in the CLUB office
until contacted. "By March 15 we
would like to get all the girls together
and talk to each entry individually to
maintain her interest in the pageant,"
Vanderhoof stated. "If the response
is good, we may have to have a
screening to select the 10 finalists.

Then, again, if we don't receive
enough applications we will extend
the deadline date," she conceded.

Among the benefits the winner
and her four runners-up can enjoy are
the scholarship and trophy for Miss
MSC as well as the promise of past appearances and trophies and savings
bonds for the runners-up. "Savings
bonds have never been given before
to runners-up," Vanderhoof noted,
"so we would like to initiate that this
year.

The winner is also eligible for the
55000 Miss New Jersey State Pageant
scholarship and the $10,000 Miss
America scholarship. "We are still
solving money for our scholarship
from benefactors and sponsors," the
former winner revealed. "We haven't
arrived at any set amount yet, but
we're hoping for as much as we can
get.

The Miss MSC pageant was
initiated in 1963 by Phi Lambda Pi
fraternity, which sponsored the event
annually until last year. Because of the
expense and expense of the program, the pageant was conducted
by the Student Activities Office in
1972. "If this year's show is a
success, CLUB would like to
continue it," Vanderhoof stated.

Keep your parents informed
without ever lifting a pen.

No-Fault Gets Green Light

No-fault insurance is an important step in the direction of insurance reform. The new law making coverage by no-fault insurance mandatory will, by having drivers deal with their own insurance companies for compensation, eliminate the long court battles which often follow an automobile accident.

The major advantage of no-fault insurance, however, is that it allows no limit to medical benefits. Any person injured in an accident is entitled to the best of care without regard to the cost. This is a major improvement over the present situation in which people would not receive the proper medical treatment because they could not afford the expense or could not depend on the insurance company to cover it.

If the no-fault policy proves successful in New Jersey, it should be extended to cover property damage. At the present time it only covers bodily injury but property damages, particularly to cars, are often just as costly as medical expenses.

In Massachusetts, where the no-fault policy covers both bodily and property damage, insurance costs have been greatly reduced. Such benefits should be extended to New Jersey to ensure its residents more coverage, lower costs and more confidence in the insurance companies.

Three years ago, in January 1970, I had the misfortune to be attending Seton Hall University as a freshman. We didn’t have any “innovative period” there, so we were all forced to begin the spring semester right after Christmas vacation. In those days I wrote an occasional column for the campus undergraduate newspaper, the Setonian, which resembled the MONTCLARION somewhat. The Setonian used to fight tuition increases, too. Of course at Seton Hall that means holding things down to $40 per credit.

In any event, I walked into the Setonian offices, full of energy following the Yuletide break, ready for the new year. I approached the desk occupied by the features editor, one of those real bitchy Madison Avenue career-girl types who thought she was Katherine Hepburn or something.

Suddenly I noticed she was wearing a green button with some kind of Greek letter stamped on it. I asked her if she’d thrown away her old moratorium buttons. “Thrown away? Bite your tongue!” They’ve been recycled so that the metal can be re-used to protect rather than harm the environment.” I forget exactly what they did with the metal. Somebody told me they forged it into license plates. They made some for Congressmen, too. I saw one that was new peace symbol. “In that a new peace symbol?” “Peace?” she retorted. “What are you talking about, this is an ecology button. Why aren’t you wearing yours?”

Hey, Did You See?

Hey, Did you see?
Hey, Daddy,
Did you see Johnny in his crib?
He’s a really nice baby isn’t he.
Hey, Daddy,
Did you see Johnny in his baby carriage?
He’s sure cute isn’t he.
Hey, Pop,
Did you see Johnny’s first painting that he brought home from school? Don’t you think he’s really talented for a kid his age.
Hey, Pop,
Did you see Johnny when he won the trophy for the spelling bee? You know, I bet he’s going to be a genius some day.
Hey, Pop,
Did you see Johnny in his cap and gown when he received his diploma? Graduated first in his class. I told you he’s a genius some day.
Hey, Old Man,
Did you see Johnny in his army uniform. Isn’t he something.
We’re sure proud as hell if him aren’t we.
Hey, Dad,
Did you get any letters from Johnny yet telling us where he is?
Hey, Dad,
Did you get any letters from the government or anybody telling us where Johnny is?
Hey, Dad,
Did you see Johnny’s Purple Heart?

Ins-and-Outs of the NJ 'No-Fault' Law

In the past several years a wave of change has swept over the insurance world as state after state, particularly on the East Coast, adopted a new policy called "no-fault" insurance. New Jersey joined this list of states in Jan. 1 when the New Jersey Automobile Insurance Reform Act, otherwise known as the "No-Fault" law, went into effect.

Although the idea behind "no-fault" insurance is not a new one, its actual implementation caught many New Jersey citizens unaware of the changes it takes place in their insurance coverage.

The "no-fault" law does not grant motorists the freedom to cause an accident without being blamed. Rather, it is a revision of the "tort" system in which the driver who caused the accident is responsible to the victims for injuries and property damage.

The injured party was free to sue for damages, which he most always did. Resulting settlement delays and court costs brought about increased insurance premiums.

A $2 million investigation into auto insurance conducted by the Department of Transportation found that the "tort" system in which the driver who caused an accident is responsible to the victims for injuries and property damage is inefficient. The survey revealed a tendency for small losses caused the accident to be collected for such insurable losses.

According to an insurance manual regarding the new law, "...first party coverage of this kind adequately protects the vast majority of injured persons while at the same time reducing insurance rates (fewer suits, suffering and inconvenience claims, lower premiums)."

The NJ law requires that all drivers carry "no-fault" insurance under penalty of law. The insurance covers the insured person and resident relatives who are injured in any accident involving a private passenger car. The policy also covers those people occupying the insured person's car or using it with his permission at the time of the accident.

The mandatory benefits are unlimited as to any dollar amount as well as to the length of time in which expenses may be incurred. They include:

- Payment of medical, surgical, X-ray and other diagnostic treatment, dental, rehabilitative, prosthesis or orthoses, medication, hospital, nursing treatment as well as necessary expenses resulting from treatment prescribed by a physician, dentist, chiropractor or religious healer.
- Funeral expenses ($100 limit per individual).

Rather, it is a revision of the "tort" system in which the driver who caused the accident is responsible to the victims for injuries and property damage. The injured party was free to sue for damages, which he most always did. Resulting settlement delays and court costs brought about increased insurance premiums.

A $2 million investigation into auto insurance conducted by the Department of Transportation found that the "tort" system in which the driver who caused an accident is responsible to the victims for injuries and property damage is inefficient. The survey revealed a tendency for small losses caused the accident to be collected for such insurable losses.

According to an insurance manual regarding the new law, "...first party coverage of this kind adequately protects the vast majority of injured persons while at the same time reducing insurance rates (fewer suits, suffering and inconvenience claims, lower premiums)."

The NJ law requires that all drivers carry "no-fault" insurance under penalty of law. The insurance covers the insured person and resident relatives who are injured in any accident involving a private passenger car. The policy also covers those people occupying the insured person's car or using it with his permission at the time of the accident.

The mandatory benefits are unlimited as to any dollar amount as well as to the length of time in which expenses may be incurred. They include:

- Payment of medical, surgical, X-ray and other diagnostic treatment, dental, rehabilitative, prosthesis or orthoses, medication, hospital, nursing treatment as well as necessary expenses resulting from treatment prescribed by a physician, dentist, chiropractor or religious healer.
- Funeral expenses ($100 limit per individual).

PHOTOS FOCUS ON LIFE

Shelter’ Only So-So

By Don Pendley
Special to the MONTCLARION

"You gotta have a gimmick," advised the strippers in the 50's musical, "Gypsy." "Shelter," which opened Tuesday night at the Golden Theatre in New York, took the advice too far.

"Shelter" is the story of Maud, a commercial scenic who is only in it to feed her family. Her husband, Michael, has just left her. While haggling her way through a lashing, she meets the commercial's writer, Michael (I have not been drinking), who lives in the living room set on which the commercial is taped.

ARThUR ALSo lives there. Who is Arthur? No—Arthur is what. He is a very bright computer who sets every other phrase spoken by anyone to a commercial jingle, provides outdoor scenery in the wall-in studio and generally makes his presence known in a strong baritone.

One is led to believe that Arthur wrote the show.

Anyway, if one ignores the plot, one can get into the so-so dialog and simple lyrics of Greshen Cryer and the uninspired music of Nancy Ford, both of whom gave us the delightful "The Last Sweet Days of Isaac." The set,启用and projections are the brainchild of Tony Walton. But now and then a show needs a dynamo to help it along. "Shelter" has one in the person of Susan Browning, who received Broadway a few seasons back as April in "Company." Browning plays Wednesday November (put her on my calendar anytime), who is the least-cleaning cleaning lady ever. One wonders what a talented actress like she is doing picking up the pieces of "Shelter."

In fact, I'd be nice if Browning, the cast and Pendleton could find shelter from "Shelter."
**Swimmers Split; Records Fall**

Diane Jaglowski should be a familiar name, if not to Montclair State fans. The freshman placed first in the 200-yard freestyle (1:57.9), the 100-yard individual medley (1:00.7) and the 200-yard freestyle (1:48.9). 

**Montclair Women's Swimming and Diving**

**Rooked**

The women's basketball team will face Fairleigh Dickinson University's championship intramural squad on Saturday in the opening round of the Schaefer Intramural Basketball Tournament.

**Women's Basketball**

The Montclair State women's basketball team is proving that it's not just a team of runners-up by the wayside, the latest being Tuesday's 69-45 triumph over Trenton State.

**Regal Notes**

**Tennis Education Clinic**

The program will be aimed at coaches and anyone interested in teaching tennis to groups or individuals.

**Lacrosse Manager**

The lacrosse team is seeking a team manager or manager. Anyone interested, male or female, should attend a meeting on Mon., Feb. 12, in room B of the fourth floor meeting room, Student Center, at 6 pm or leave their name in the sports mailbox in the MONTCLARION office.

GLASSBORO - Montclair State College's wrestlers steamrolled the Pros from Glassboro State College Tuesday night 49-7, before a crowd of about 400, to complete a five match sweep through the winter session, Central Connecticut State, Fairleigh Dickinson University, City College of New York, and Newark Rutgers had all previously fallen to the hard-charging Indians by equally lopsided scores. 

"It's real pleased," said MSC coach, Larry Schiacchetano of the GSC match. "We're coming along well. The guys are starting to realize that they're pretty good," he commented. "However, it's still light in the Mets (Metropolitan Tournament)."

Against Glassboro, Montclair led from the start on Lenny Chodl's pin (3:18) in the 118 class. Eddie Aller (126) followed suit in 6:41 after leading 21-3. Craig Spencer (134) was frustrated as Paul Alberico fought off a pin to lose 15-4. However, Larry Hayvalp (142) and Oscar Zavala (155) picked up the beat again, packing away their opponents in 4:52 and 6:15 respectively.

After Mickey Jurinich's 4-1 decision (158), Glassboro fans found something to cheer about as Prof John Villecco took a superior decision over freshman Jerry Reilly (167). Warren Clanton quickly recovered the initiative with a 5-4 decision (177). Mike Dipano (190) capped Montclair's scoring in style, slamming Ralph Morgan to the mat in 2:10.

But MSC heavyweight Bob Gioquinto was almost powerless against Glassboro's Jeff Paliats. The big, crafty Prof moved quickly to get on top in the third period and, once there, refused to be moved. He outpointed Gioquinto 3-1 on the strength of that reversal, to end the match.

"Bob didn't wrestle real well, and that was the one that counted," said Schiacchetano, whoforesaw a replay in the Mets.

MSC DEFEATED Central Connecticut State College 33-5 on Jan. 24 to start their streak. A crowd of about 300 watched Kevin Wetner (120) and Oscar Zavala (155) register wins for the home team.

"It was a good, solid win," said MSC assistant Rich Sofmann. "Shack's" got it in the bag.

Fencers Sharp
Edge NCE, 14-13

By Joan Laktruk
Sports Writer

The men's fencing team must be taking their cues from the hot-again, cold-again winter while proving that both good and bad things come in lopsided scores.

The Indians previously wiped out Pratt Institute, 16-11, on Mon., Jan. 29, and mercifully got Fairleigh Dickinson University, 21-6 on Sat., Jan. 27.

DAVIS, WHO has been tearing apart opponents of late, was the only MSC fencer to win three bouts against Pratt. However, Frungillo, Cotrelle, Mussili and fencer Roger Margheanu all posted two wins to aid the cause.

Sophomore Tommy Yee was also 3-1 against Pratt, having returned to the foil team.

There was no saving grace for the FDU fencers who appeared doomed from the minute they set foot in Panzer Gym four. The able teams, DAVIS, Frungillo and Bob Smith won all nine bouts, the first time this season that MSC shut out an opponent in any one weapon.

THE FOU, team added six points to the onslaught with Margheanu scoring three victories and Musilli posting a 2-1 record, his loss coming against lefty Tom Depoto. Both fencers shut out one opponent. Yee bested FOU's Joe Castellano for the foil wins.

The Indian's ease team of Cotrelle, Pearson and Depoto were all 2-1 on the afternoon.

Following yesterday's meet against St. Peter's, the team hosts St. John's University on Wednesday at 7 p.m in Panzer Gym four.

Their fencing counterparts get back into action tomorrow against Trenton State and Buffalo in an away match after a month and a half of not seeing any action.

The Montclair State College Hall of Fame will expand to 13 members this month when Nick Petti and Henry Schmidt are inducted.

Schmidt, the current tennis coach and intramural director, will formally enter the Hall of Fame on Wednesday during the halftime ceremonies of the New York-Rutgers basketball game. Petti, a former basketball and baseball player, will be inducted on Sat., Feb. 17, as a part of the homecoming ceremonies during halftime of the William Paterson game.

ONE OF the best big men in the Indians' early years of intercollegiate basketball, Schmidt led MSC to records of 14-3 in 1935-36 and 10-5 in 1936-37 while playing for coach and Hall of Famer Cher Pittser. Schmidt was the leading scorer both years.

In addition to basketball, Schmidt was also a top baseball player during his two years at MSC. He is one of the few athletes to captain both the basketball and baseball teams in MSC athletic history.

Following graduation, Schmidt was appointed director of athletics, basketball and baseball coach at William Paterson College, then Paterson State College.

Schmidt came to MSC as an athletic director in 1949 and served two years in that post before being called back to the Navy. After being discharged in 1954, he was again reappointed athletic director and head basketball coach, a post he held for ten years. His teams posted 130 wins and 122 losses. The former figure is still the record for the greatest number of victories in a career by any MSC hoop coach.

"We've had no problem with any of their local teams," commented Schiacchetano, "the guys are building confidence. We've still got to get our condition sharper and out attitude a little better," he said.

"We're hoping to peak at the Met," if they do, "Shack's" get it in the bag.

Calvin Makes Foes Blue

By Joe Cancro

Saint Mary's the previous Saturday, Jan. 27, with blue again leading at scorers with eight points. No, the contest wasn’t as defensive a game as the final score suggests. The low scoring was the result of a power failure which claimed both the lighting and the scoreboards as its victims.

The lights were restored eventually, but the scoreboard was officially pronounced dead for the night, ending the game after only one half of play, much to the delight of the home crowd.

Despite having it’s premier runner to display for their day’s work. The girls got needed experience, particularly freshmen and new girls. The experience takes its greatest toll, especially in the spring. The girls had opened their season with a 1-2-3 sweep.

Indoor Thinclds Cop Four Medals

Despite having it’s premier runner running a 1-2-3 sweep. The girls maintained their dominance throughout the final event, the floor exercise. This night was no exception. There were a number of falls and missed routines because of it. Nevertheless, Montclair posted its lead to a 44-130.5 bulge.

The Squaws maintained their dominance throughout the final event, the floor exercise. Zullo took the upper hand for good, 55-53. Once again it was “Calvin the Reliable” whose two free throws moved MSC ahead 55-53 to climax the scoring rampage.

Following yesterday’s NJSCAC contest with Trenton State, the team travels to Glassboro on Saturday for an 8 pm clash.

Holland added the other two. The girls had opened their season with a 1-2-3 sweep. The girls maintained their dominance throughout the final event, the floor exercise. This night was no exception. There were a number of falls and missed routines because of it. Nevertheless, Montclair posted its lead to a 44-130.5 bulge.
