In an apparent attempt to dramatize its inability to agree with college administrators on a suitable location, the staff of the proposed Drop-In Center erected a tent near the Recreation Lodge this morning.

Mike King, public relations director for the SGA and director of the Drop-In Center, stated that the tent would be used today and tomorrow in an attempt to draw attention to the Center's plight. A decision will be made tomorrow as to whether or not the tent will remain up next week, King said.

The Drop-In Center is an SGA-sponsored activity that provides a place for students to bring their personal problems. It will be staffed by students.

THE CONTROVERSY REVOLVES around the Drop-In Center staff's intense desire to locate the facility in the Recreation Lodge, which is currently being used as the office for Dr. Donald Mintz, dean of the School of Fine and Performing Arts. The administration feels that it would be impractical to move the dean out of that location and has offered the Drop-In Center several alternatives, all of which have been turned down.

Dean Mintz stated, "All we really need is a place where we can do our work. I have no objection to moving if a place can be found that meets our requirements."

King said, "We were told that because the Drop-In Center is a student activity, it would have to be in the Student Center. That means that either the Student Center would have to be open 24 hours a day or the Drop-In Center would have to change its concept somewhat."

Among the places offered as alternatives and rejected by the staff of the Drop-In Center because it does not meet the Center's needs are the General Store, the lobby and the television room at the south end of the cafeteria, the booth in the Student Center, in addition to pitching their tent to serve as a temporary location. The staff of the Drop-In Center, in addition to pitching their tent to serve as a temporary location, will circulate fliers and seek to arouse the interest of the student body in their cause.

The staff of the Drop-In Center, in addition to pitching their tent to serve as a temporary location, will circulate fliers and seek to arouse the interest of the student body in their cause.

King would not comment on the group's next step if his current plans failed to produce the desired results.

SPACE IS TIGHT, Quin

"SPACE IS tight," Quinn said. "We're very reluctant to take classrooms because that means we'll have to admit fewer students when there are already thousands waiting to get in here. I realize that this whole project is very worthwhile, but who are they to say that they are more important than the students?"

MSC Duo Lead 'Model' Lives

By Vincent Buono

Staff Writer

Jack Sampson and Mike Moltane are two typical MSC students. They go to class and even work part-time as many other students do. However, the fact that this work simply involves standing around and sometimes wearing expensive clothes for at least $50 an hour puts them in an enviable position. Sampson and Moltane are male models.

About five months ago Sampson, a junior from East Brunswick, and Moltane, a sophomore from West Paterson, were asked by Lewis Montesano if they would like to go into modeling. Montesano is the owner of the Lew-Mont Modeling Agency.

"I'm always willing to try just about anything. The money was good and I thought it might lead to something," Sampson said looking momentarily from his copy of Playboy.

THE ROOM became quieter as a hair dryer was turned off. Moltane entered wearing an outfit that suggested he had more than a night of homework planned.

The two men rent rooms from Montesano and are also under contract to him.

"The contract is a loose one. The model can go to classes and even work part-time according to Montesano.

Moltane laughed at this and explained that he had been recently turned down a job of nude modeling for a college art class.

"It wasn't the idea of being naked that bothered me, it's just that the money was not good enough," Moltane explained.

"Our families were too keen on the idea anyway," Sampson added with a grin.

Sampson and Moltane both work regularly. Sampson's specialty is gymnastics at which he sometimes works as long as three hours a day.

"If you ever get bored feed squirrels to the nuts."
Students Boycott For Migrant Workers

By James D. Hile
Staff Writer

Bob Covmiar isn't your usual aerospace engineer. He doesn't design SSTs, drive a Cadillac or collect a $40,000+ salary. Instead, Covmiar is a member of the United Farm Workers (UFW), which is affiliated with the AFL/CIO.

Currently the UFW is seeking equal bargaining rights and better working conditions for the estimated three million migrant farm workers nationwide.

COVMAR IS SPEARHEADING the local boycott effort against iceberg lettuce. The California growers of the vegetable have failed to recognize the UFW as the legal bargaining agent for the lettuce pickers - thus necessitating the boycott.

In a campus lecture at Russ Hall, Covmiar explained some of the conditions migrants must endure. "At one migrant farm in DeTarut, Indiana, the workers had the choice of using either a maggot infested toilet or relieving themselves in the fields," he claimed.

According to the mustachioed speaker, the average yearly income migrants earn is $2,020. Also over 75% of the workers are Mexican. Covmiar went on to state that the average education a migrant farm worker child receives is nine years.

The responsible parties for these seemingly deplorable conditions are the agro business complex and the corporations and conglomerates that branch out into agriculture for the tax benefits. As for the government's Farm Bureau, Covmiar charged it with being responsive only to the farm interests.

IN THE FUTURE the UFW seeks to put migrant workers on the same plane with their industrial counterparts, subject to minimum wage and social security acts.

Covmiar returned to the lettuce boycott and said one of its primary causes was the failure of the lettuce growers to recognize the UFW. "They chose to work with the Teamsters and sign a contract with them," he said. The Teamsters Union did not consult with the migrant workers before the contract talks began, Covmiar claimed.

On the local level one of the UFW's aims is to inform people about the situation. "By speaking at churches and making lectures like this one we hope to get our point across," Covmiar said. He is pleased to note that Montclair State has its own boycott committee.

Students Boycott For Migrant Workers

MSC Joins Protest

In a land of prosperity, it isn't fair that the people who pick the food should receive so little of it themselves-this was the reason given by Rudy Kaighn for the boycott against non-union iceberg lettuce. Kaighn is a Protestant minister representing the Protestant Foundation on campus.

KAIGHN IS A member of a group of students and faculty working on the boycott. He explained that the movement is aimed against iceberg lettuce.

In a campus lecture at Russ Hall, Covmiar explained some of the conditions migrants must endure. "At one migrant farm in DeTarut, Indiana, the workers had the choice of using either a maggot infested toilet or relieving themselves in the fields," he claimed.

Tax Woes? Help's Coming

Relief is on the way for students struggling with the annual mental gymnastics of federal income tax forms. Starting on Feb. 14, members of the Accounting Club will dispense free tax advice to anyone who needs help with his return. The tax service, a campus first, will be available every Wednesday and Friday, from 10 am to 4 pm, until April 15, the deadline for filing tax returns. The club will operate its tax service out of the old SGA office on the second floor of Life Hall.

Senior accounting major Marcia Solomon emphasized that club members can not fill out income tax forms; they can only advise. The 10-15 accounting students involved have all taken tax courses, but, Solomon explained, they are just students, not CPA's. However, she pointed out, the members' course work does make them more knowledgeable than the average college student. Additionally, club members will check with the Internal Revenue Service on questions they cannot answer. They will then channel the information back to the student involved.

Solomon, who works for the Internal Revenue Service herself, described the club's project as a "good service to the school." She commented that the service, while new to Montclair State, has been very successful on other college campuses. The program will also yield practical benefits for its participants, she added, describing it as a "good way to use what they (the accounting students) have learned."
Mixed Reactions To Draft’s End

By James D. Hile

I think it was a good thing that the draft ended. Although I wasn’t affected personally,” said Bill Musante, a junior geography major.

There were many people, however, who believe young men can now pursue their education. Pallamollo, a business administration major, said he enlisted in the Air Force before he could be drafted.

One student seemed to have some reservations to the draft ending. Tom Barrett, an administrative science major, hopes the change to an all-volunteer force won’t lead to a deterioration in service. “I don’t want to see our armed forces become mere militia,” he commented.

Yet, Barrett did see some good in the government’s move. “It will end the hostility that has arisen between the government and students,” he added.

Echiong their statements were Anthony Pallamollo, another veteran who believes young men can now pursue their education. Pallamollo, a business administration major, said he enlisted in the Air Force before he could be drafted.

CLUB Hosts '73 Miss MSC Pageant

By Diane Forden
Staff Writer

Women's Lib may claim disdain for beauty contests and apathy on college campuses may continue to grow, but a College Life Union Board, headed by senior manager Beverly Vanderhoof, is determined to sponsor a "Scholarship Pageant" to select this year's Miss Montclair State College.

Unlike previous Miss MSC pageants, this year's event will be an "entertaining" program based on the "Miss America" pageant. According to Vanderhoof, 10 cast members will perform song and dance numbers between the swim suit, gown and talent competitions. The show entitled "Celebration," will be enlivened by seniors Lenny Nolan and Tom Reaves. It is scheduled for April 6 at 8 pm in Memorial Auditorium.

"We would really like to see a lot of girls get interested," the spirited Vanderhoof claimed, "We're not asking for too much. We just want to keep the pageant going. It's not just a beauty contest," she continued. "The winner will be representing Montclair State throughout New Jersey. She will also be Homecoming Queen and preside at various college functions."

As last year's Miss MSC pageant winner, Vanderhoof acknowledged a personal interest in the program. "I've been a part of the pageant and just don't want to see it die," she stated. "I'm aware of the apathy and can understand it, too, but we are going to do what we believe in and hope others will support us. A girl from Montclair State should be recognized at the state pageant along with girls from other state colleges."

Applications for the show are available today, Feb. 8, in the Student Center until March 1. All interested applicants will leave their name and phone number in the CLUB office until contacted. "By March 15 we would like to get all the girls together and talk to each entry individually to maintain their interest in the pageant," Vanderhoof stated.

"If the response is good, we may have to screen to select the 10 finalists. Then, again, if we don't receive enough applications we will extend the deadline date," she conceded.

Among the benefits the winner and her four runners-up can enjoy are the scholarship and trophy for Miss MSC as well as the promise of past appearances and trophies and savings bonds for the runners-up. "Savings bonds have never been given before to runners-up," Vanderhoof noted. "So we would like to initiate that this year."

The winner is also eligible for the $5000 Miss New Jersey State Pageant scholarship and the $10,000 Miss America scholarship. "We are still soliciting money for our scholarship from benefactors and sponsors," the former winner revealed. "We haven't arrived at any set amount yet, but we're hoping for as much as we can get."

The MSC pageant was initiated in 1963 by Phi Lambda Pi fraternity, which sponsored the event annually until last year. Because of the time and expense of the program, the pageant was conducted by the Student Activities Office in 1972. "If this year's show is a success, CLUB would like to continue it," Vanderhoof stated. "It takes an organization like CLUB to build up the prestige for Miss MSC."

The MSC pageant judges, including Miss New Jersey 1970, Hela Yungil, will also judge the Miss New Jersey State Pageant in Cherry Hill. This year's Miss New Jersey will be attending as well as contestants from past Miss New Jersey pageants and those vying for this year's title. After the show, a reception for the winner and runners-up will be held in the Commuter's Lounge adjoining Memorial Auditorium.

Uphold The Human Element

The proposed Drop-In Center has been the subject of much controversy concerning its location. The students advocating the use of the Rec Lodge for the center seem determined not to have their service pushed out of the whirl of activity surrounding the Student Center. Actually, there appears to be no room or space to adequately accommodate the Drop-In Center in the new building. It’s only natural to look to the Rec Lodge, especially with its cozy atmosphere and convenient location to the Student Center.

The relocating of Dean Mintz appears to be a minor obstacle to the establishing of a much-needed student service. Because the School of Fine and Performing Arts encompasses the music, speech and fine arts departments, it seems that one of those buildings could accommodate the dean. With the college growing so rapidly and dramatically, it becomes necessary to make the extra effort to keep the human element in everyday MSC life. Putting the Drop-In Center in the Rec Lodge might show that the people wielding power still care about the human aspect of MSC.

No-Fault Gets Green Light

No-fault insurance is an important step in the direction of insurance reform. The new law making coverage by no fault insurance mandatory will, by having drivers deal with their own insurance companies for compensation, eliminate the long court battles which often follow an automobile accident.

The major advantage of no-fault insurance, however, is that it allows no limit to medical benefits. Any person injured in an accident is entitled to the best of care without regard to the cost. This is a major improvement over situations in which people would not receive the proper medical treatment because they could not afford the expense or could not depend on the insurance company to cover it.

If the no-fault policy proves successful in New Jersey, it should be extended to cover property damage. At the present time it only covers bodily injury but property damages, particularly to cars, are often just as costly as medical expenses.

In Massachusetts, where the no-fault policy covers both bodily and property damage, insurance costs have been greatly reduced. Such benefits should be extended to New Jersey to ensure its residents more coverage, lower costs and more confidence in the insurance companies.

Ecology Cashes In

Since the big Vietnam moratoriums were still fresh in memory, I assumed it must be a new peace symbol.

"In that new peace symbol?" "Prance," she echoed. "What are you talking about? This is an ecology button. Why aren't you wearing yours?"

I asked her if she'd thrown away her old moratorium button.

"Thrown away? Bite your tongue! They're recycled so that the metal can be re-used to protect rather than harm the environment." I forgot exactly what they did with the metal. Somebody told me they forged it into automobiles, smashed them up and sent the wreckage down to the shore to build up the dunes. It sounds odd, but you know for years they've been using wrecked cars to build up the dunes.

Letters to the editor should be sent to the MONTCLARION office, fourth floor, Student Center and must be received by 4 pm, Friday for publication in the following Thursday issue. Letters should be signed with the writer's name, major and year. The MONTCLARION reserves the right to edit letters for style and brevity.
Ins-and-Outs of the NJ ‘No-Fault’ Law

By Susan Kelly

In the past several years a wave of change has swept over the insurance world as state after state, particularly on the East Coast, adopted a new policy called "no-fault" insurance. New Jersey joined this list of states in January when the New Jersey Automobile Insurance Reform Act, otherwise known as the "No-Fault" law, went into effect.

Although the idea behind "no-fault" insurance is not a new one, its actual implementation caught many New Jersey citizens unaware of the changes that have taken place in the insurance landscape. According to an insurance manual regarding the new law, "...first party coverage of this kind adequately compensates the vast majority of injured persons while at the same time reducing insurance rates (fewer suits, suffering and inconvenience claims, lower premiums)."

The "no-fault" law does not grant motorists the freedom to cause an accident without being blamed. Rather, it is a revision of the "tort" system in which the driver who caused the accident is responsible to the victims for injuries and property damage. The injured party was free to sue for damages, which he most always did. Resulting settlement delays and court costs brought about increased insurance premiums.

$2 million investigation into auto insurance conducted by the Department of Transportation found that the "tort" system did not afford maximum protection. The survey revealed a tendency for small losses to be overpaid and large losses to be underpaid. The "no-fault" plan because it does not totally eliminate the tort liability. The insured person is exempt from "no-fault" coverage if he is found at fault with the settlement in 90% of the cases, reported 50,000 fewer personal injury protection (PIP) claims. In 1971, Massachusetts bodily insurance rates be reduced by similar plan, extended to property damage protection. In 1972, Massachusetts auto insurance rates were reduced by 60% and a 60% reduction in the cost of uninsured motorist protection.

Insurance companies have issued identification cards which must be carried. Drivers who fail to maintain the proper insurance coverage or are found guilty of fraudulent representation will forfeit the right to drive for one year. Car owners are also required to purchase uninsured motor protection.

The law increases financial responsibility to $13,000 for bodily injury liability, $30,000 for accident and property damage liability limit of at least $7,000 per accident. The car owners are also required to purchase uninsured motor protection.

No accompanying decrease in rates is foreseen in the near future.

Not all vehicles are covered by the insurance plan. The law provides coverage for passenger car or station wagon cars, pickup or panel trucks, delivery sedans or utility automobiles designed for personal use as a camper or motor home. Trucks, tanks, motorcycles and most commercial vehicles are not covered.

Frank Licato, a Traveler's Insurance agent, cited the greatest advantage of the new insurance law as being "increased medical benefits." Those increased benefits are provided by the Personal Injury Protection (PIP) coverage, which is automatically included in all policies subject to the law. The mandatory benefits are unlimited as to any dollar amount as well as to the length of time in which expenses may be incurred. They include:

- Payment of medical, surgical, X-ray and other diagnostic treatment, dental, rehabilitative, prosthetic for ambalance, medication, hospital, nursing treatment as well as necessary expenses resulting from treatment prescribed by a physician, dentist, chiropractor or religious healer.
- Funeral expenses ($1,000 limit per individual).

The law also specifies the following exclusions:

- Any person other than the named insured.
- Any person sustaining injury while using an uninsured auto.
- Any person while using an uninsured auto.
- Any person committing a high crime while using the insured’s car or using it with his permission.
- Any person who is not legally entitled to collect.

The NJ law requires that all drivers carry "no-fault" insurance under penalty of law. The insurance covers the insured person and resident relatives who are injured in any accident involving a private passenger car. The policy also covers those people occupying the insured person’s car or using it with his permission at the time of the accident.

The law also specifies the following exclusions:

- Any person other than the named insured.
- Any person sustaining injury while using an uninsured auto.
- Any person while using an uninsured auto.
- Any person committing a high crime while using the insured’s car or using it with his permission.
- Any person who is not legally entitled to collect.

The "no-fault" law in N.J. is too new for its success to be evaluated. A similar plan, extending the property damage liability, speeded up case disposition, saved 40% of the cases, reduced rates and solved inflated claims. In 1973, Massachusetts auto insurance rates were reduced by 60% and a 60% reduction in the cost of uninsured motor protection.

Soft tissue injuries include sprains, cuts, bruises confined to muscles, tendons, ligaments, cartilages, nerves, sinews, arteries and skin. A broken bone would eliminate soft tissue injuries. Death, permanent disability, permanent disfigurement, loss of any bodily member or function will eliminate the tort exception.

**String Benefit**

In honor of its first anniversary, the Montclair String Quartet, MSC's professional ensemble-in-residence, will present a benefit concert on Sun., Feb. 11 at 4 pm in McEachern Recital Hall. According to Dr. Jerome Landsman, the quartet's first violinist, the group has departed from its usual policy of free concerts on this one occasion to support the music department's string scholarships.

In addition to Landsman, the quartet consists of Lida Todd, viola; Leon Hyman, viola, and Avron Coleman, cello. Guest artists at the Feb. 11 concert will be pianists Dorothy Pringling and Elizabeth Wright.

Student tickets to the concert will be $1. The audience will be invited to a reception following the performance.

**Premiere Highlight**

The premiere performance of a new composition and dance interpretations of two numbers will highlight the State Symphony Orchestra's third concert of the season on Wed., Feb. 14. The 46-piece professional orchestra-in-residence will present the concert at 8 pm in MSC's Memorial Auditorium under the baton of Ward Moore.

**Following Intermission**

Linda J. Roberts, a dance instructor in the speech and theater department, will present a dance solo, which she choreographed to "Black Sounds" by George Rochberg. The concert will be climaxed by the presentation of Roberts' choreography of Borden's "Polovetsian Dances" for the orchestra and Montclair State's 40-member dance company.

---

**Photos Focus On Life**

Newspaper photographs lack the polish of their artistic counterparts. Yet, at the Museum of Modern Art's new exhibit "From the Picture Press," the photographs capture the essence of human emotion and equality as well.

Only a few of the 225 photographs are indelibly engraved in the public's memory—the Marines raising the flag at Iwo Jima, the Hindenburg bursting into flame and, more recently, Vietnamese children fleeing a napalm attack.

Some photographs are gruesome portraits of death—the expressions on the faces of two young boys identifying the body of their 12-year-old paymate. But the humorous side of life is also represented—the smiling face of Frank Sinatra, Moe Hot Dog of 1956 and a 22 lb. baby.

---

**The Exhibits**

THE EXHIBITS director, John Starkowski, has included one outstanding photograph which must be a tribute to the dedication of the Fourth Estate. A group of reporters, exited from the press trailers at President Nixon's Camp David hideaway, were photographed as they continued working on a picnic table during a driving rain, their typewriters and phones shielded by a plastic tarp.

The photographs will be on exhibit until April 28. Admission to the museum (11 W. 53rd) is $1 for students with current ID's.

**Museum Hopping**

The Whitney (Madison Ave., at 75th) exhibiting their biennial Contemporary US Painting/Sculpture Show until Mar. 18, Middle Ages and Renaissance stared glass windows at the Metropolitan (5th at 82nd) through Febuary. Prizes by women artists on display until May 21 at the NY Public Library (5th at 42nd) American onicitent at the Museum of American Folk Art (W. 53rd) until March 11.

SHAVIAN WIT-G. B. Shaw originally wrote "Don Juan in Hell" as the third act to his "Man and Superman." But the sophisticated thrust-and-parry dialog of this two hour dream sequence makes it a delightful evening on its own. Ricardo Montalban gives an outstanding performance as the Spanish nobleman with Agnes Moorehead, Edward Mulhare and Paul Hareid completing the all-star cast. The show, directed by John Houseman, completed its limited run at the Palace on Feb. 4.
Swimmers Split; Records Fall

Familiar name, if not to Montclair records last week, three in Tuesday's record keepers, "Jag" broke six Monmouth 50-yd. breaststroke records in the 200-yd. freestyle (1:59.7). The 100-yd. individual medley (1:00.7) and the 100-yd. freestyle (55.9). MCCC's only other first place came in the 200-yd. freestyle relay event. Bridget Welsh, Sue Montgomery, Jaglowski and Nancy Relling posted a winning time of 1:51.8.

Monmouth swept firsts in the other events including the 50-yd. breaststroke, 50-yd. freestyle, diving events, 50-yd. butterfly, 100-yd. backstroke and 100-yd. breaststroke. MCCC, however, placed second and third in the diving competition. Relling took second place in the 100-yd. breaststroke and 50-yd. breaststroke while Laura Sanson finished second in the 50-yd. breaststroke events. Relling finished third in the 50-yd. breaststroke competition.

Jaglowski took first place in the Paterson, 75-22.

In the swimming competition, Margaret Atkinson, Terry Speinholtz and Tony Barla took the fifth, sixth and eighth places respectively with scores of 93.30, 87.05 and 69.85.

Monmouth College walked away with the team honors scoring 203 points to MCCC's 247. Other schools participating in the meet were (in order): Ursinus (132), Georgian Court (91), Jersey City (87), Fordham (78) and Douglas (11)

The team to Westchester to today for a 4 pm meet against Westchester College and Trenton State.

Douglass College plays host to the teams in Trenton at 6:30 pm. The first home swim meet is Wed., Feb. 21 at 4 pm against Queens College.

There's an old coaching cliché that runs something like "Defense is the name of the game." Well, the Montclair State women's basketball team is proving that it's not just a cliché—it's a sound theory. As evidence, the Squaws have left their opponents by the wayside, the latest being Tuesday's 69-49 triumph over Trenton State.

The defense sparked on Sat., Jan. 27, and Central Connecticut was the make-or-break game.

GLASSBORO - Montclair State College's wrestlers overwhelmed the Profs from Glassboro State College Tuesday night 40-7, before a crowd of about 400, to complete a five match sweep through the winter session. Central Connecticut State, Fairleigh Dickinson University, City College of New York, and Newark Rustics had all previously fallen to the hard-charging Indians by equally lopsided scores.

"I'm real pleased," said MSC coach, Larry Sciacchetano, after the GSC match. "We're coming along well. The guys are starting to realize that they're pretty good," he commented. "However, it's still tight in the Meet (Intercollegiate Tournament)."

Against Glassboro, Montclair led from the start on Lenny Cholish's pin (3-18) in the 112 class. Eddie Alder (126) followed suit in 6:41 after leading 21-3. Craig Spencer (134) was frustrated as Paul Alberti fought off a pin to lose 15-4. However, Larry Hayspill (142) and Oscar Zavala (155) picked up the rest, packing away their opponents in 4:52 and 6:15 respectively.

AFTER MICKEY Jurinich's 4-1 decision (158), Glassboro fans found themselves in a real rout as ref motions for two points. Gioquinto was almost powerless against Glassboro's Jeff Pallies. The big, crafty Prof moved quickly to get on top in the third period and, once there, refused to be moved. He outpointed Gioquinto 3-1 on the strength of that reversal, to end the match. "Bob didn't wrestle real well, and that was the one that counted," said Sciacchetano, who foresees a replay in the Meet.

MSC DEFEATED Central Connecticut State College 33-0 Jan. 24 to start their streak. A crowd of about 300 watched Kevin Walker (120) and Oscar Zavala (155) register pins for the home team.

"It was a good, solid win," said MSC assistant Rich Sofmann. Sciacchetano thought, "We might have trouble, but we look pretty good at this point."

In the triangular against FDU and CCNY Montclair was overpowering, winning 40-2 and 51-0 respectively. A variable endurance contest for spectators, MSC was monotonous in victory.

ROUNDDOWN OUT their streak, the Indians demolished Newark-Rutgers on Sat., Feb. 3, by the score of 46-0. To say that MSC is the 'class' of the area is an understatement. "We've had no problem with any of their local teams," commented Sciacchetano, "the guys are building confidence. We've still got to get our condition sharper and nut attitude a little better," he added.

"We're hoping to peak at the Mets." If they do, "Shack's" get in the bag.

MONMOUTH—Yes, friends, Calvin Blue has arrived. The high jumping MISC forward who leaps tall buildings in a single bound, as well as fellow basketball players, sparked MISC’s men’s team three straight victories over the past two weeks, bringing their overall mark to a respectable 10-5.

Blue worked more to scoring points rather than hauling in rebounds, his main obsession so far this season. He led all scorers in two of the three contests. His biggest tally of the year, 23 points, came against Monmouth, whom the Indians whipped 86-75, Thursday night.

Two of Blue’s jumpers brought MISC from a 39-37 deficit to a 41-39 edge, which they held for good. His baskets came near the end of the first half.

In the second half, Monmouth closed the gap to one point after Tony Massa canned a shot 3:20 into the play. The Indians retaliated with a six point streak to go seven up, 50-43, and Monmouth was neither seen nor heard from again that night.

Jim Rake provided four of the points in the spurt while Chuck Holland added the other two.

THE INDIANS defeated Mount Saint Mary’s the previous Saturday, Jan. 27, with Blue again leading all scorers with eight points. No, the contest wasn’t as defensive a game as the final score suggests. The low scoring was the result of a power failure which claimed both the lighting and the scoreboard as its victims.

The lights were restored eventually, but the scoreboard was officially pronounced dead for the night, ending the game after only one overtime.

In the battle, the tribe bested NJSCAC opponent Newark State, 64-59, but only after staging another one of their usual second half miracles in which they rebounded from a 10 point first half deficit to take the lead for the first time in the second half.

With the score, 53-43, in MISC’s favor, and 7:57 remaining in the game, the Indians poured in 12 unanswered points, taking the upper hand for good, 55-53.

Once again it was “Calvin the Reliable” whose two free throws moved MISC ahead 56-53 to climax the scoring rampage.

Following yesterday’s NJSCAC contest with Trenton State, the team travels to Glassboro on Saturday for an 8 pm clash. Monday sees the Indians at Bloomfield College at 8:30 pm prior to hosting Newark-Rutgers at Panzer Gym at 8:15 pm on Wednesday.

Despite having its premier runner fighting a bout with the flu bug, Montclair State’s indoor track team still managed to make a show of it Saturday at Queens College in the CTC Relays. The squad entered five relays and brought home four medals to display for its day’s work.

Greg Weiss, who was the NCAA’s outstanding college division 1972 runner, is recovering from the flu.

COACH GEORGE Horn will be taking a squad of 17 of his trackmen to the Coast Guard Invitational on Saturday. The meet, which Horn termed “one of the ‘class’ meets,” will include such schools as Tufts, Wesleyan, Amherst, Boston State, and Central Connecticut. The only other New Jersey school to be invited to the Invitational is Fairleigh Dickinson University.
