Over 1500 people are expected to attend MSC's first presidential inauguration on Sun. Oct. 21. At that time Dr. David W. D. Dickson will be formally and publicly invested as president of the college.

Inauguration ceremonies will commence at 2 pm in the amphitheatre. A reception will immediately follow the inauguration at the Student Center and/or in the event of rain, in the Student Center ballroom.

STUDENTS and their families are invited to the affair. Tickets are available at the SGA office or at the Public Information Office.

The inauguration of an institution has been kicked off in New Jersey in 1983. The predictions made two years ago.

...
Students Create
Natural Dance

By Susan Koenig

How do you explain the eerie feeling that passed over you last Thursday as 23 people unexpectedly start slowly rolling towards you without explanation on the Student Center Mall? It was a super-natural dance event, presented by the Speech and Theater Showcase.

The outdoor dance was the second experiment initiated by dance instructor, Linda J. Roberts to produce a dance experience for the non-dancer with natural movement, environment, sound and lighting. "I believe," said Roberts, "that other theatrical spaces" are available besides "just the theater."

"I ACHIEVED what I wanted to achieve," said Roberts directly after the presentation. "I wanted a reaction in the audience."

The reaction in the audience was evident. Some viewers were delighted, some laughed, some were confused, some disgusted and some bored. There was plenty of applause throughout, cheers and even textbook studying.

The participants were students and faculty and the audience consisted of anyone who happened by the grass mall at noon.

THREE REHEARSALS were held before the show. Images and energy levels were given as guidelines in the rehearsals, but no strict movements were given. One of the guidelines set forth to the "dancers" was the concept of deterioration. All structures they attempted to build fell apart. Deterioration continued throughout, cheers and even textbook studying.

The participants were students and faculty and the audience consisted of anyone who happened by the grass mall at noon.

By Kim Taug

Responding to the current conflict in the Middle East, Montclair State Jewish Student Union (JSU) is running an emergency relief fund drive.

The JSU set up a table in the Student Center Lobby and has been collecting funds since Oct. 9. Their action is part of the nationwide United Jewish Appeal Campaign for Israel Emergency Fund. With Rutgers/Newark, they hope to collect $5,000, having received approximately 1/2 of that amount from MSC contributions, the JSU is optimistic of exceeding their present goal.

MARCIE Cooper and Ruth Levy, two students instrumental in heading the drive, said that contributions are coming in from all sectors of the campus. Donations have ranged from $20 to $200. According to Levy, the money raised will be sent to Israel and used for social welfare, for "hospitals, schools and orphanages."

The JSU is holding a table, "The Fabulous Hank Williams, Jr. Show With His Band, The Creative Hearts and Roy (Steel Guitar) Wiggins."

Buck-Passing Cited
In M/S Fire Hazard

By Carla Capizzi
Supervisor and dean Metzger spends a lot of time in the math/science building. Early last summer he noticed that one of its two back exit doors was chained and potted up with concrete inside and blocked by a pair of sawhorses from the outside.

This fall the door was still blocked. Students and faculty members who had to detour to other exits regarded the locked door as an inconvenience; Metzger realized it was a potentially dangerous situation.

In a fire, students in the blocked port of the u-shaped building would have to run to a front exit. Those on the two top floors would be forced to run downstairs and to exit at the bottom of the stairwell. Those on the two top floors would have to run up the back stairs, down the hall to the front stairs, down the hall and then to the front doors.

Metzger, learning the ground floor hall was blocked, students on the top floor would run downstairs, only to collide with students trying to escape up the stairs.

The armed Metzger last week brought this information to the attention of several administrators.

Dr. Thomas Wilson, dean of the School of Mathematics and Science; Jerome Quinn, institutional planning director; and Keith Kaufmann, security and safety director. From them, Metzger gained the following facts:

The exit was closed when a large window in the stairtower cracked. This hall of residence, the Hilltop, College officials feared that persons using the door could be injured if the window fell on them.

• The $3000 window was still broken because of a dispute over having initially designed in the storeroom.

• Assorted reports on the window had been made to the administration, and complaints lodged with the NJ treasury division of building construction, since last spring.

• On October 10, the day the Hilltop was evacuated, the committee ordered a three-day notice to at least remove the broken glass.

Although Metzger granted Wilson's cooperation, he was disgusted with the "lack of responsibility" shown by those he spoke to. He was "equally at their lack of concern" and stated that "everybody is passing the buck." He described the college's efforts to repair the window as a "lot of talk little action." He couldn't believe that neither Daly's assistant nor Kaufmann knew anything about the window when he spoke to them. Kaufmann had been away and agreed it was a potential hazard. Metzger added:

"It is not a matter of finding the cause, but of detecting the act of passing the buck on the matter of responsibility.

Mace Symbols Scepter of Authority

By Michael Finnegan
When Dr. David W. D. Dickson accepted the mantle of the presidency for the College, he received MSC's newly-created mace, a ceremonial scepter. This Sunday afternoon, he will also receive the mace. The mace will be placed upon its arrival on the steps of the Student Center, its purpose was to investigate the past performance and structure of the SGA and to consider future plans.

The "Awful, Awful" cup which found its way to MSC after the Montclair State College's original contribution to the communal living experience has bit the dust. More than twenty years ago, the Chapin House initiated its experiment in community living, the House Management House was operating as a group management environment for home economics majors. Located above Valley Road, the building now accommodates the infirmity which was previously housed in Ross Hall.

Dr. Katherine B. Hull, chairwoman of the home economics department, was not available for comment as to why the decision was made to eliminate a group which provided a training ground for home economics majors.

A Bike For Two
By Patricia Perrone
Chapin Hall residents may have found a solution to the parking problem. They are offering two students the chance to occupy two of the most convenient parking spots on the entire campus - at the bike rack in front of the Student Center.

Dorm members are raffling off a pair of 10 speed Raleigh Record bicycles. Ticket selling began on Oct. 2 and the drawing will be held Friday afternoon in the lobby of the center.

The winners will receive gift certificates worth $105 each that will be good in Reidinger's in Montclair. They may be used to purchase the bikes displayed at the desk in the Center or towards anything else in the store.

Chapin members hope to make a $200 to $300 profit, according to Midge Haug, a senior psychology/sociology major. The plan to use this money to finance a camping trip, the purchase of tablets, parties and other dorm functions.

Haug stated that Chapin residents had originally perceived beer as a more interesting and profitable item to raffle. However, that would be contrary to school policy, she added.

Tickets cost $.15 per chance, $.25 for three, and $.25 for a book of 15. Participants in the raffle do not have to be present at the drawing to win.

Psych Director Seeks Informality
By Alice Hartman
Flexibility, availability and informality are the aims of this year's psychological counseling program, according to its new full-time director, Dr. Susan Herman.

Formerly with Fairleigh-Dickinson University/Teaneck, Herman has been active in college and community counseling programs since 1961. Straying the need to establish an informal atmosphere for the program, the new director intends to be seen around the RSC campus as much as possible. "We want to bring the program to the student, not wait for the student to come to us," she explained.

"I see the program branching in three directions," Herman stated. One of the areas is psychotherapy which would encompass group and individual sessions. The new director emphasized the intention and desire of the psychological services staff to maintain privileged communication between student and counselor.

"All our staff psychologists use as their guide the ethical practices standards of the American Psychological Association (APA)," said Herman. In accordance with the APA ruling "the psychologist should guard professional confidence as a trust and reveal only when there is clear and imminent danger to an individual or to society."

The program will also include preventative services that will attempt to deal with situations before they become problems and training/counseling workshops for the college community at large. Herman plans to work in conjunction with the Drop-In Center and the dormitory residents assistants in providing "preventative services" and in order to reach a larger number of the campus community.

HERMAN VIEWS the program as a possible future mental health center for the entire college community. As part of this view she hopes to establish workshops which all those who participate in counseling on campus would join. "I am interested in helping people and teaching on my skills," the director said.

After graduating from the University of Maryland with a BA, Herman received her MA from Rollins College, majoring in "Counseling Psychology. She received her PhD from the University of Florida.

The Art Of Conversation

The psychological service center is currently forming small, short-term groups that will focus on aiding students who feel uncomfortable participating in class discussions and speaking before groups.

According to a memo from the services center, "this is a very common source of anxiety among college students." It is a problem, however, that receives "relatively little public attention."

THE GROUPS will consist of approximately eight to ten students who will discuss their common feelings about speaking in class and will investigate the causes for such anxiety. The students will then work on exercises to decondition these feelings in order to "make classroom participation more comfortable," according to the release.

Interested students are asked to contact the psychological service center (annex 4) or call 893-5211.

Rec Club : Just For The Fun Of It

A recreation major is an interdisciplinary program. According to Pankenier the purpose for this type of program is so the student can have a background in which he or she can reach out to all the other fields. The first organizational meeting of the club will be today at 1 pm in V-184. The agenda includes the ratification of the constitution and the election of officers. Pankenier and Mahan are very optimistic about a large turnout for the club.

The club is seeking approval from the NJ Recreation and Park Association and its members are trying to establish a recreation resource library in Panzer Gym for reference.

According to Mahan, "recreation is an individual, voluntary thing" and they intend to do things because people are interested. Another spokesperson, Pat Hille, said that the ideas of the members may change and said that they are "open for suggestions." The recreation club is looking for people who are interested in recreation whether or not they are a major.

English Major

Curriculum Changes Studied

Dr. Sanford Radner, chairman of the English department, stated that some changes will be made in the English major requirements. A committee of faculty has been studying the program and considering course changes.

Radner said that two of the required courses, "Art of Poetry" and "The English Language" will undergo changes in relation to the scope in which they are taught. There has been some feeling that the courses should be made broader, he explained.

New Chaplain Looks For Active Role On Campus

By Rosemary Morra

Newman House has provided a new addition to the college this semester - Sister Frances Rose Jacoby.

The new female chaplain is quite enthusiastic about meeting as many students as possible this semester. "One of my goals at Montclair is to meet a good cross-section of students," explained Jacoby. She intends to accomplish this by visiting the campus daily to meet a variety of students.

"I DO NOT want to force religion on students. I am more interested in helping students grow as persons and become involved in life," Jacoby said.

According to Jacoby, students can accomplish this by taking an active part in the college community, either by joining clubs, a sorority or fraternity, even working with a campus organization.

"If students stay on campus more and become involved, their whole college life will be more complete," she explained.

DURING THE fall semester, the energetic chaplain intends to encourage students to be active and will also be a participant in upcoming events.

Jacoby, who is from Milwaukee, Wis., worked at the university of Wisconsin/Oshkosh, for three years. She did her graduate work in guidance and counselling at the university.

Some of her duties at the university included organizing and conducting retreat programs and planning the music and liturgy for Sunday Masses.

Jacoby considers one of her most treasured experiences to be doing volunteer work for four years in two of Wisconsin's state prisons. The chaplain worked at the State Prison for Women, where she did individual counselling. Since she loves to play the guitar, Jacoby also conducted a guitar class. She also worked in group therapy for two years at the Men's Maximum Security Prison in Wisconsin.

"Every free minute I have here, I spend corresponding to the prisoners," Jacoby stated.

Jacoby became interested in MSC when she met Father Thomas Davis, Newman House Chaplain, at a convention in Florida last year. Since the college needed someone to be a "guiding hand" in the dorms and on campus, Jacoby decided to come to MSC.

HER FIRST reaction to the college was that it was "a warm place, since everyone has a down-to-earthness" and that the students were "quite interested in whatever they do."

"Teach-In" Date Set

The Task Force for Action Against Racism is planning a "Teach-In Against Racism" on Tues., Nov. 6. The "Teach-In" grew out of the Focus on Race Relations Day held this fall semester.

Tentative areas of study include racism in academics, economics, politics and history. Racism in the American culture will also be studied.

According to a spokesman for the Task Force, they are in the process of making sure that students will not be penalized if they miss class to attend the "Teach-In."

Task force member Jerry Carver said that the purpose of the Teach-In is to get people with reactions to racism on campus to come and air them. Member Mike Wynncky added, "The Teach-In can help people to deal with and solve the problem of this negative force on society."

Psych Center Aids Area Children

By M.E. Marban

Through a program with graduate students, the Psych-Education Center (PEC) serves handicapped children of the surrounding communities. The PEC was founded last February and thus far has been involved in the treatment and/or evaluation of 68 children. Currently there are 22 active cases. The children treated range from mild perceptual and coordination difficulties to those with severe emotional or physical handicaps and possible brain damage.

OPERATING under the jurisdiction of the School of Social and Behavioral Sciences, PEC is funded by the state and the parents of the children treated. All program evaluations are fully-certified clinicians. Many are MSC professors. The graduate intern is able to observe classes and make diagnostic evaluations of the children while under qualified supervisors.

Specialists in the field of communication disorders, speech and hearing therapy are employed by the center. Participating students get credit for their involvement.

PEC DIRECTOR Elaine Nord said, "Our staff is multidisciplinary, we learn from each other." The center primarily helps children with learning motor coordination and communities difficulties.

Nord feels that children with learning disabilities should be helped at an early age for learning on their part becomes more difficult as they grow older.

CHILDREN are referred to PEC by their doctors, school or parents, who are not satisfied with the evaluations already made of the child. Nord then arranges for a screening interview with the parents and the child. PEC either obtains the previous evaluation material from the child's school and gives another interpretation of the work or separate evaluations may be made and compared with the previous ones.

After this is done, the child is treated or, if the case is too severe for the center to handle, the parents are referred to another clinic.

There are several programs in which the children can enroll: the Saturday play group, the communication disorders class or the learning disabilities day camp which is held on campus for six weeks in the summer.

PARENTS must pay a fee for the service but the amount is scaled on ability to pay. "No one is ever turned away because they can't pay," Nord said. The PEC does not service college students but will serve their offspring.

EMKO is a highly effective spermicide in an aerosol foam that is deposited at the opening of the uterus with an applicator. The foam blocks the sperm while the spermicide kills them on contact.

EMKO contains no hormones and does not enter the circulatory system or affect your body chemistry.

You use it only when protection is needed. Apply it in seconds...up to an hour in advance. Won't leak, run, or interfere with sensations.

Recommended by physicians. It is highly effective, but so safe and simple to use you can buy it in drug departments without a prescription.
**Angelo Genova**

**Activism Takes Next Step**

If student activism exists on our campus, where is it? This question has plagued me for many years and at my own university. The activism we have seen is limited and stagnant. This may be a sign that it has died. But the activism of the 60's has floundered, become overused and has begun to turn off a wave of time.

Students use basic protest techniques. If we expect to continue with a sophistication of their own.

The techniques we've used to combat this power structure have proved to be limited. There are some means to enumerate ideas, ideologies and techniques. There are no only means to voice convictions. Students were successful to some degree with these techniques. If we expect to continue voicing our convictions, we must take the next step in activism.

Students throughout the nation are moving towards the next phase in this battle. What is this next phase? We have been confused constantly by a bureaucratic sophistication employed by the power structure in our colleges and our state and our nation.

LIMITED

The techniques used to combat this power structure have proved to show limited worth. Students have begun to meet the sophistication of the power structure with a sophistication of their own. Rather than burn buildings, we're burning them, rather than demonstrating, we're filing law suits; rather than compromise, we're unanimous.

Some students and the SGA at MSC are moving in this direction. We must continue if student activism is to be successful. We must remember that activism and change are only words, and it's our obligation as students to bring these words to life.

Karen Wangner

**Paging George Meany...**

The AFS would not mind if only MSC members grapple with AFT and the state. In addition to the rallying point of the contract, the crucial current negotiations of the MSC chapter of the AFS (Always Frustrated Students) have gone unnoticed.

The AFS has been undergoing a series of negotiations which represent the "true degree of the inflation of the college's reputation." Numerous faculty members find themselves in the final year of their contract, and their pay is determined by the college's financial status. The AFS argues that professors should be paid in a more equitable manner.

**Elimination of Marching Band A Crime**

**Soapbox**

To the Editor:

The spectacles at all MSC home football games will be spoiled by the new type of halftime entertainment this year. The halftime show will not consist of musical fanfare, nor will it be a spectacular presentation, rather it will be 60 minutes of silence. For you see, the marching band has been cancelled.

Many people who helped to create it, and I want to personally thank them. The cancellation of the band was decided by general elective requirements and the Student Senate felt marching band should not be a free election. They felt it required a skill. So if the School of Fine and Performing Arts were to offer it as a free elective, then a student would have to take Calculus III as a free elective.

The School of Fine and Performing Arts decided that music majors shouldn't get credit for marching band for some idiotic reason.

How many music majors, who are going to try and who are going to get jobs without any marching band experience? The marching band in high school is extremely important. I feel sorry for music majors.

The marching band asked for money to buy music, uniforms and equipment and to run buses to go to away games. We didn't get a penny. We asked for a field practice on it (the band helped us) last April, the Great God, Mr. William Giordano, didn't see fit to give us one. I guess we got the grass handy on his precious field the few times we used it last year.

Finally, we asked the SGA if they could help and they said they would write a letter. Dr. Wilkes of the Music Dept. is the only one pulling for us. All summer he sent to different people asking for help and got nowhere.

I wish to thank all of the aforementioned and the many others I can't remember, unfortunately. For a college our size to not have a marching band is a crime.

Shelley Cobleigh

Math/ Economics, '75

To the Editor:

For the last two weeks, I have been reading in the MONTCLARION that MSC doesn't have a marching band anymore. I really don't care who is in charge of the administration, or the music department, or the students. What I really care about is a marching band and what I really hope is that the administration, music department and students get together and do something about this problem.

William J. Lynam

**If you know anyone who properly appreciates the vital role of Muslims with Israel in this Arab-Israeli war you supported the Algerian in defense of the Algerian people and on the side of the Jewish settlers (one out of seven French Algerians were Jews), you may perhaps want to point out to him the guided consequences of his generous position.**

**Thank you for your continued support of the Anti-Xenophobia effort amongst the Israeli Jews, in their struggle against antisemitism.**

Theresa Price
Assistant Professor of English

**Eligibility**

Not all of us went to a high school and most of our high schools had marching bands. The question I want you to ask yourself and of the MSC administration is: Is it not more important to have a marching band than to afford a marching band and really new president but the whole college to a very wide group of people from here and elsewhere. This is a sound college, proud of its respected past, with many fresh and vital new programs and a lively future.

An inauguration can really be meaningful to a college. On one level an inauguration presents not only a symbol, a specially crafted gift mace, represents the "true degree of the connections of this college." The techniques we've used to combat this power structure have proved to be limited. Students have begun to meet the sophistication of the power structure with a sophistication of their own. Rather than burn buildings, we're burning them, rather than demonstrating, we're filing law suits; rather than compromise, we're unanimous.

Some students and the SGA at MSC are moving in this direction. We must continue if student activism is to be successful. We must remember that activism and change are only words, and it's our obligation as students to bring these words to life.

Karen Wangner

**Paging George Meany...**

**VALIDITY**

Validity, in summary, can make a college community attentive to the ending validity of higher education and the ways it should concentrate more fully on his late 20's.

Finally, the AFS will deal only three times in the last two years. Woodcock -- Samuel Gompers and Eugene V. Debs and present and future. These are not insignificant goals. They are well worth the sum of the bare necessities and warrant the attendance of a good number of students.

**Theodore Trice**

Assistant Professor of English
Economy Comes Before Safety

Students have always realized that economy was placed over the quality of education at the state colleges. Nevertheless, it is still disconcerting to learn that a $3000 window receives a higher priority than the lives of students and faculty members who might be trapped in a burning building.

On Wednesday, the college removed and boarded over a cracked window in the math/science building. This enabled them to finally reopen the back door beneath the window. The door had been locked and barricaded since April, when the window cracked. The door was blocked to protect those using the building. The college feared that the window would shatter, showering glass on anyone who might be walking through the door at the time.

This sounds very logical and safety-minded, however, that building only has two rear exits, with no direct connection between them. Closing off one of them cut off a vital fire exit for students in that wing who must take a longer route to safety, losing valuable time in an emergency where every second counts.

If the situation had only lasted a few days, it might be forgivable. Instead the college spent six months squabbling with the building’s architects and contractor over who would pay for a new window. The logistical solution would have been to immediately knock out the window, board it up and leave the exit completely accessible. The three parties could then have haggled over a new window as long as they wanted.

A disaster could have occurred while the administrators were busy writing reports, sending out letters and making phone calls these past six months. Strangely enough, the college managed to resolve its problem within 24 hours when it was forced by the fire department.

SGA Conference

A Real Success

One of the major goals of the SGA leadership conference is to open lines of communication and foster cooperation among the campus organizations. Unfortunately, the conference has met with only limited success in past years. The greatest problems with the conference in the past concerned the poor attendance - they severely changed. Group discussions were replaced by individual seminars.

Perhaps the most drastic change was the devotion of the first night to the introduction to the concepts of human and organizational processes by Dr. Alfred H. Gorman, a professor of education. Gorman gave a very effective presentation and the results were immediately evident. People learned to deal with each other as individuals rather than as members of separate organizations. There was a welcome looseness among the participants. People talked and more importantly, they listened. Whether there will be any permanent results from the conference remains to be seen. The people who participated in the conference left it with some amount of understanding - both about each other and about the many aspects and areas of student government.

NOMINATION

By Bill Gibson

Already reeling from the Watergate hearings, the Republican Party was shown into further confusion with the unexpected announcement by the vice-president proclaiming his retirement.

Hastened meetings were called and conferences discussing his successor lasted far into the night. Ultimately his successor was chosen but not without much soul-searching and anguish by the president and his closest advisors.

As you all know, the vice-president has chosen to resign from his office or, as the rectangular gloss, he got out while the going was good. It is up to you and me to come up with a new vice-president who will uphold the administration's integrity as exemplified by myself. Now are there any suggestions?"

"Mr. President, I think that it is common knowledge that the new vice-president must be someone who can be put up to without any fear of wrongdoing. Therefore I would like to place in nomination the name of Henry Aaron."

"Sir, we've gone through a list of highly qualified people without success. I'd like to suggest one of the lesser known but most solid members of the Congress, who, through his expertise and background, might just be able to unify the country. I'd like to place in nomination the name of Tom Bradley."

"Sir, sir, we've gone through a list of eminently qualified people without success. I'd like to suggest one of the lesser known but most solid members of the Congress, who, through his expertise and background, might just be able to unify the country. I'd like to place in nomination the name of Tom Bradley."

One-to-One Key

Karl Haus and Robert Starer will be the guest composers at the Tenth Annual Composers' Symposium at Montclair State College on Tues., Oct. 30 and Wed., Nov. 7.

According to Thomas Will, the Symposium coordinator, "This yearly event is designed to enhance the students' knowledge and enjoyment of the music of distinguished contemporary composers by giving them the opportunity to work in an informal situation under the composers' direction."

The General public is invited to attend the 8 pm program in Memorial Auditorium on Oct. 31. This program will feature the works of the two guest composers, Haus and Starer. Rehearsals, theory workshops and other activities held during the daytime hours on Tuesday and Wednesday are also open to all who are interested.

The two composers-in-residence are internationally renowned—Starer for his sweep of form and style in such compositions as "Concerto a Tre" and "Piano Concerto No. 2." For orchestras and soloists and "Artur" scored for solo voices, chorus and orchestra. Haus is known for his Pulitzer Prize-winning "String Quartet No. 3." He has written, for numerous large instrumental works among which are "Music for Prague 1968" and "Intimations of This Earth."

A native of Vienna, Starer has been a naturalized US citizen since 1957. He studied at the State Academy of Music in Vienna and Julliard in New York. He has been the recipient of two Guggenheim Fellowships and one Fulbright Fellowship.

HUSA COMES originally from Czechoslovakia, where he studied at the Prague Conservatory and Ecole Normale. Since 1964, he has been professor of composition at Cornell University and director of the university's orchestra.

"Raisin" -- For All Seasons

By Michael Finnegan

Of all the qualities that contributed to the success of Lorraine Hansberry's drama, "A Raisin in the Sun," two outstanding were its universality and workman-like quality. These qualities are beautifully conveyed in its musical incarnation "Raisin" to create a moving theatrical experience.

Although the play was set in Chicago in the 1950's, among a south side black family, the kernel of the plot is something that all Americans can appreciate—the conflict of dreams vs. reality, and the constraints that society metes out for people to overcome. In "Raisin" the individuals meet life with good hope. The racial element amounts of hope. The racial element is woven by the lead performers. Joe Morton forcefully plays Walter Lee Younger, a black chauffeur desperately in need to provide a better chance for his family at a good life. Ernestine Jackson is hard, bitter and just right as his wife Ruth, molded by reality and compelled to keep her husband's dreams in check.

But the show belongs to Virginia Capers as Mama Younger, whose insurance check from her husband's death spells tangible promise for her dreams of a decent house with a garden. Walter Lee's hopes of owning a liquor store and her daughter Beneatha's dreams of becoming a doctor, Capers is alternately Troy and sad, hard and soft and totally magnificent. A memorable moment in the musical theater will be Virginia Capers, sitting in her rocker, holding her pathetic potged plant and singing, "A Whole Lotta Sunlight."

Moments of competition with Capers come from young Ralph Carter as Travis Younger, son of Ruth and Walter Lee, a born scene stealer with his endearing coyness and wiseacre affectation. Deborah Allen seems too callow as Beneatha, and Robert Jackson's forced African accent as Beneatha's savior sounds phony, but both players are effective enough. And there's a slay old buzzard of a woman named Helen Marlin, who perfectly portrays the Younger's neighbor Mrs. Johnson.

If one can step out of the glow of the cast, one can rev in the marvelously realistic, utilitarian scenery by Donald McKayle, scenery by Robert U. Taylor and the lighting by Ted Hoyle. McKayle's choreography is not particularly well-integrated into the plot, but concerns itself with the raw, tingling portrayal of the city milieu, as well as, is terribly successful.

Book writers Robert Nemiroff and Charlotte Zeilberg have wisely chosen to remain faithful to Hansberry's work, which, even as a straight drama, seemed to sing out. They have deleted Ruth's pregnancy and subsequent abortion, which compounded the tragedy of the play, and added a wonderful buoyant, first-class scene to the musical, featuring the running number "He Come Down This Morning." Neither standard pop tunes nor twangy soul pieces constitute the score by Judd Kalechstein and Robert Britan. Its strongest virtues are its simplicity and forthrightness of emotion, exemplified in such songs as "Sweet Time" and "Me and the Valleys."

"America: A Revue"

By Diane Bernardi

Rehearsals are underway for a Paseo's independent production of "America: A Revue" which will be presented at 8 pm on November 2 and 3 in the Studio Theater. The program was conceived by Lenny Auska, Players president, who will direct it. She cites the production as an example of Paseo's expansion as an organization, giving it greater flexibility in affording opportunities to do theater to anyone who is capable of it. It offers an alternative to the Memorial Auditorium grand scale productions.

The show itself is of a varied nature. Paseo has drawn from the widespread feelings of America that feel sorry for their nation—and its triumphs, its absurdities and its tragedies. Several media will be used—poetry, dance, song and impersonations.

There will be no set; the emphasis for design will be on lighting and simple costume. The material used will be both original and non-original works.

The CAST was chosen to represent different types of people each with his own array of talents to give to the show and compete the effect. Its members are: Tom Reccia, Tomy Paulson, Hany Putman, Steve Paris, Gary Grace Nowak, Diane Lynd, Sue Daly and Louise Kaleshine. The music in the show will be arranged by Dennis Dougherty.

The theme of America is not uncommon, but like most things that are often talked about and considered, it means still another start.

The idea sounds promising. The show will soundly ring with satire that just might force Johnny Manns to sit down and jest. At any rate, we're being offered another chance to look at America.
A group of fifty students from MSC will be exhibiting their photographic work at the Underground Gallery in New York City at 134 Fifth Avenue. The exhibition will run through Nov. 21. The gallery is open Monday through Friday from 10 am to 5 pm.

The actual work began last spring. Klaus Schnitzer, a member of the MSC fine arts department, was one of the main forces behind the preparation for the exhibition. Schnitzer said, "The work was of high quality but its only exposure was in portfolios; we wanted the work to be shown more widely." The gallery was secured from a former employer of Schnitzer's. This past summer Schnitzer, Dr. Charles Martens and Richard Kyle sorted out over 1000 photographs submitted until they reached the final 200 that were to be used for the show.

This exhibition is one of the few college exhibitions in New York this year. Schnitzer calls the New York photographic art scene "very closed and tight," and he sees this as good publicity for the school as well as the students.

The entries submitted were not restricted to people in the fine arts department. Students from all the other majors were also eligible. The subjects of the photographs being used are of a great variety: still life, movement, nudes, portraits, sequences, social commentary, architectural and textures are all included. The photos are predominantly black and white.

A process called non-silver was used to make the photographs. This process involves making everything from scratch including the photograph paper. It gives the photographer more flexibility in the coloring and shading of his work. The non-silver process was widely used throughout the nineteenth century and is currently being rediscovered.

After the exhibition in New York the show will come to MSC on Nov. 26, at Gallery I, on the second floor of Life Hall and there are preparations now being made for it to tour other area schools.

Tall in the Saddle: MSC's Cheryl Repke flashes a grin as she receives a ribbon for the beginning walk-trot-canter class. The MSC Riding Club, of which Repke is a member, opens their season on Oct. 28 with a show at Stony Brook.
BONING UP: The action's fast and furious in the Men's Division Intramural Football League on weekday afternoons at the Bohn Hall Field.

Bones Crack While Fighting Irish, Trojans, or even the Forms Ready team. accepted for the Intramural Competition is scheduled for Mondays and anyone wishing to participate and the Intramural basement of College High. apply can pick up an application in the Intramural Office, no need for any "super scouts." There is no sophisticated coaching for intramurals and varsity football is also, because it is a game of no contact. Right?

Another major difference between intramurals and varsity football is the only real need is a good artist to portray the players, the argument that intramural football is for small people is nonexistent.

JUNIOR CADETS
The JV team of West Point will kickoff against the MBC JV team. Friday night at 8 pm on Sprague Field. Admission is free to MBC students with a validated ID card.

HEAVY MEETING
A meeting of all power lifters and weightlifters will be held on Tuesday at 4 pm in Panzer Gym four B.

SERVICE AND SMASH
The main gym will be open for coed volleyball on Thursday nights at 8 pm.

SILC GATHERING
There will be a meeting of the Student Intramural and Leisure Council at 3 pm in the fourth floor meeting room of the Student Center on Thursday (Idm, 18). This meeting is open to all interested students.

NET GAINERS
The winners of the 1973 Fall Tennis Intramural Tournaments were: Advanced men's division: flux. Promeney; runner-up: Dennis Wilson. Advanced women's division: Edie Wells; runner-up: Peggy Devlin. Average men's division: Mark Cucuzella; runner-up: Ralph Mignog. Average women's division: Gloria Soracco; runner-up: Eva Schoochen.

Mixed doubles: Wein and Promeney; runner-up: Cucuzella and Soracco.

FROSH BASEBALL
All candidates for the freshman baseball team should see coach Alex Tomilson in the green trailer next to Sprague Field between 3 and 4 pm any weekday.

We Believe A Stereo System Should Sound Better At Home Than It Does On Paper.

If you have $400-500 to put into a stereo system, there are lots of really good receivers and record players to choose from, but very few speakers that hold up their all-important end of the system. Which is why some systems wind up sounding less impressive at home than they did in the advertisement.

We sell The Smaller Advent Louspeaker because it turns this situation upside down. Not unreasonable expectations. There is just nothing remotely like them.

If you have $400-500 to put into a stereo system, there are lots of really good receivers and record players to choose from, but very few speakers that hold up their all-important end of the system. Which is why some systems wind up sounding less impressive at home than they did in the advertisement.

We sell The Smaller Advent Louspeaker because it turns this situation upside down. Not unreasonable expectations. There is just nothing remotely like them.

The Smaller Advents were designed to sound as good in every respect, including frequency bandwidth, as any speakers of any price. Test reports in both High Fidelity and Stereo Review magazines agree that their response and overall performance would be noteworthy in any speaker, regardless of size or cost.

To understand just how much of a difference these speakers make in what you actually can hear for your money, come in and listen to the systems we've built around a pair of them.
Gridders Fall Short, 28-20

Almost, but not quite. These words adequately sum up the efforts of a Montclair State football squad noticeably outweighed and slightly outplayed by Central Connecticut, of a Montclair State football squad. Words adequately sum up the efforts of a Montclair State football squad.

Death

Hits

Pioneers

By Hank Gods

The William Paterson football team that MSC will face this week has already suffered its biggest loss of the season and perhaps in its history. Henry Reeder, who started at right end for the Pioneers, collapsed and died of a heart attack during a practice session last Tuesday. He was 28.

Reeder had been diagnosed with diabetes earlier this season. He was pronounced dead on arrival at the scene failure and he was pronounced dead on arrival at the scene. He was pronounced dead on arrival at the scene. He was pronounced dead on arrival at the scene. He was pronounced dead on arrival at the scene.

Paddle Tennis Anyone?

By Maureen Garde

For lack of a net, MSC's newly-constructed $9,950 paddle tennis court stands vacant. Jerome R. Quinn, planning director said that the new facility will remain unutilized until the E. L. Wagner Co. of Darien, Conn., the firm that built the court, completes the missing net. As of Friday, the Wagner company's oversight. They anticipated Friday, and discovered the Wagner company's oversight. They anticipated Friday, and discovered the Wagner company's oversight.

IN THE EYE OF THE STORM: MSC's Bob Heranni is about to hurl himself into the dash of offense and defensive lines commonly known as the pit. The Indians took their third loss of the season Saturday night, 28-20.

Ya Gotta Pay

Saturday night's game with William Paterson College is an away game but is being played on Sprague Field at the request of the Pioneers. Because it is an away game, MSC students with ID cards will be required to pay the $1 fee that they would normally pay at the Paterson stadium. Kickoff is at 8 pm.
Protest Mars MSC Win

By Lonny Cohen
Newark State may be the sentimental rival for Montclair State's Soccer team but Saturday's 1-0 win against Lehman College provided the burst of unusual violence that marks a stiff rivalry.

The Newark Squires faced MSC yesterday with former captain Badma Stepanow on the MSC side of the field, as an assistant coach. "I think that everybody wants to win," commented MSC's Manny Menendez before the crucial NJSCC match, "I respect Badma." Captain Nick Mykulak added some more wood to the fire when he remarked, "Everybody is really up for the game. He (Stepanow) said that they were going to make mincemeat out of us." (in last week's MONTCLARION) "We'll win," he warned.

If the Indians were out for blood against Newark, they were almost treated to the shedding of it against Lehman.

THE CONTEST came to a premature halt when the ejection of a Lehman player from the game resulted in a violent protest by the visitors.

Prior to the game, the referee warned the players that unnecessary delays would result in ejection of the guilty players.

Lehman received a warning for delay of game in the first half and, in the second half, after an Indian placed the ball down for a free kick, a Lehman player kicked the ball away and was thumbed out of the game by the referee.

THIS TOUCHED off a violent protest by the ejected player prompting the officials to call the game with 13:27 left to play.

The defensive game was broken open only once in the first half. Manny Menendez, hob nobbed by knee injuries, took a long pass from left wing Joe Cozza and headed in the only score of the game.

Outstanding play by captain Mykulak and fullback Bernie Pinto agli helped make the goal stand up for the remainder of the ill-fated game.

GOALIE CHUCK Duran posted his third shutout of the season with five saves. The Indian netminder has allowed six goals in the seven games he has played.

Joe Reide was forced to make 15 stops for the Lehman team.

The Indians face a stretch of four away games, the first this Saturday against Queens College. Wednesday they travel to Fairleigh Dickinson University for a morning job as their first away game.

They were not aware of such a rule.

THE CONTEST came to a premature halt when the ejection of a Lehman player from the game resulted in a violent protest by the visitors.

Prior to the game, the referee warned the players that unnecessary delays would result in ejection of the guilty players.

Lehman received a warning for delay of game in the first half and, in the second half, after an Indian placed the ball down for a free kick, a Lehman player kicked the ball away and was thumbed out of the game by the referee.

THIS TOUCHED off a violent protest by the ejected player prompting the officials to call the game with 13:27 left to play.

The defensive game was broken open only once in the first half. Manny Menendez, hob nobbed by knee injuries, took a long pass from left wing Joe Cozza and headed in the only score of the game.

Outstanding play by captain Mykulak and fullback Bernie Pintoagli helped make the goal stand up for the remainder of the ill-fated game.

GOALIE CHUCK Duran posted his third shutout of the season with five saves. The Indian netminder has allowed six goals in the seven games he has played.

Joe Reide was forced to make 15 stops for the Lehman team.

The Indians face a stretch of four away games, the first this Saturday against Queens College. Wednesday they travel to Fairleigh Dickinson University for a morning job as their first away game.

They were not aware of such a rule.
