MBA may soon be instated

by Janine M. Torsiello

The MSC business department will begin a Masters in Business Administration (MBA) program in September 1980, provided the final proposal is approved by the Board of Higher Education (BHE) at their May 16, 1980 meeting.

The department originally made the proposal in 1973 and has been trying to secure the MBA since then. According to Dr. Frederick Kelly, director of the division of business, after the 1st proposal was made, the department of higher education (DHE) spent a year looking into a cooperative MBA program between all the state colleges, but it was not feasible.

Kelly said the MBA should help MSC attract more graduate students and faculty. During the 1st 3 years of the program's existence, Kelly said, enrollment will be limited to 100 fulltime students, or 300 parttime students. Kelly said the program will be, "rather small, highly selective, and very competitive."

Kelly explained that after the initial proposal MSC made in 1973, the possibility of a consortium, or a cooperative MBA was looked into by the DHE and the state colleges from May 1973-June 1976. Several problems were found. One was the difficulty a student would encounter taking courses 1 night at MSC and 1 night at Kean or another college. The traveling distance would be too great.

Kelly said, "At this time all indications are that there will not be a consortium program, but that MSC will have an independent MBA program."

From 1973-1978, Kelly said, there was a freeze on any new graduate programs. Two years ago, he said, the proposal was resurrected and in February 1980 DHE consultants authorized the program to begin next semester. They will make this recommendation to the BHE, which is expected to approve the proposal in May.

Kelly said another problem was that different colleges had different types of students with different needs, which 1 cooperative program could not meet. If the MBA is approved by the BHE, Kelly said, it should bring more students to MSC because at the present time we don't offer a graduate degree program in business. He also stated the new program should help attract better qualified faculty members.

Another difficulty with the cooperative program was the disengagement between the colleges about the quality of the faculty in the program. MSC was the only college, Kelly said, which insisted that professors have terminal degrees, meaning doctorates.

Kelly explained that the proposal calls for the addition of 2 new faculty, but the department could do it with its present staff. He explained that if the 2 faculty are hired—a decision that will be made as soon as the final draft of the college's budget is drawn up—they will start with a base pay of $40,000 each.

Kelly explained that the program should bring more faculty in because most professors are interested in teaching in good programs. The better the MBA program is, the more attractive it is to good faculty, he said.

Kelly said the biggest problem with the cooperative program was the absence of a central office to oversee the whole program. Kelly said without such an office to handle the different problems that arise the program would have never worked.

Kelly explained that MSC's undergraduate program is accredited by the Middle States Association of Colleges and Schools and that the MBA is therefore automatically accredited by them also. However, in order to be accredited by the American Assembly of Collegiate Schools of Business (AACSBB), a 3-5 year "track record," in which the program is evaluated, is required. Presently, the only MBA program accredited by AACSBB in NJ is at Rutgers University. Other MBA programs also exist at Fairleigh Dickinson University (FDU), Seton Hall University (SHU), Rider College, and Monmouth College.
**Iran threatens sanctions**

The official Pars News Agency quotes Iran's oil minister as threatening to forever cut off oil deliveries to "certain countries" joining in the US sanctions against the Islamic Republic. The Iranian official says those nations "would be blacklisted forever and would never get Iran's oil."

The Iranian threat comes as European allies of the US and Japan are reported preparing to boycott the Iranian crude and impose diplomatic and economic sanctions. Sources say that if the European boycott doesn't end the stalemate in the hostage crisis by May 15, a total trade embargo and break in diplomatic relations would follow.

**Kean assails budget**

According to The Independent, the Kean College newspaper, the proposed budget cuts to affect all NJ state colleges, were appealed by Nathan Weiss, president at Kean. "These cuts will strike at the very heart of the quality of our instructional programs and the economic well being of the state," Weiss said. He added that, "Such cuts at Kean will hurt minority enrollment, which is presently 14% Black and 7% Hispanic. A final decision, as to what schools will be affected and in what proportions of the total budget cuts, will be decided in May 1980.

Elizabethtown fireman injured

(Elizabeth)-- Authorities say 5 Elizabeth firemen were injured Tuesday while battling a giant blaze at a condemned warehouse filled with deadly and explosive chemicals. Authorities say 1000's of persons were threatened by a huge black cloud that floated above flames roaring through the warehouse on the Elizabeth waterfront. The plume was stretching 15 miles South of Elizabeth.

Officials urged residents of Elizabeth and Staten Island, to stay indoors to avoid fumes from highly toxic chemicals stored in a warehouse closed by NJ officials last year. All public and parochial schools in Elizabeth, Linden, Roselle, and on Staten Island were closed Tuesday because of smoke from the blaze.

State police superintendent Clinton Pagano said he believed 1 of the firemen was critically injured, but details were sketchy. Gov. Brendan Byrne and state attorney General John Degnan arrived at the scene shortly before 8 am.

**Kennedy takes Penn.**

PHILADELPHIA: Senator Edward Kennedy outlasted President Carter to win yesterday's democratic presidential primary in Pennsylvania by the frailest of margins.

A final installment of votes from Philadelphia--Kennedy's stronghold--was tallied today. It widened Kennedy's margin to nearly 10,000, with 99% of the precincts counted.

Still missing: 2 dozen precincts in Philadelphia and adjacent Delaware County, both areas in which Kennedy ran far ahead...and 8 precincts in Western Beaver County, where Carter was stronger.

**Director may be ousted**

According to Argo, the Stockton State College (SSC) newspaper, students are petitioning for the dismissal of Don Bragg, director of athletics and recreation at SSC. Bragg, a former Gold Medal Olympic player, has made several sarcastic remarks about SSC and its community.

According to Argo, in referring to SSC's athletic programs, Bragg commented, "We finally got started and had intramurals and everything was fine...then the girls wanted to play." Last softball season, Argo said when a group of women approached Bragg as to why their program had been shortened by 1 week, he said, "You girls are a pain in the a--. If you don't like it, tough." No decision as to Bragg's dismissal has yet been made, although students at SSC are working hard at it.

**VOTE**

Ken BROWN FOR STUDENT REPRESENTATIVE

"We need a strong, well respected student representative to the Board of Trustees, Ken BROWN is that person."
Confessions of cheaters...

by Liz Crann.

Sixty-two out of 400 students surveyed at random admitted to cheating at least once during the tests or examination, and most cheated somewhere between 5-80% of the time. No one was ever caught cheating, either.

Out of the 62 who did cheat, 31 said they feel they do nothing wrong by cheating. They feel they are merely checking their answers, or helping other students who need help. The other 31 students who said they usually copy from someone else's paper. The other 14 use cheat sheets or write the answers on the desk. Of the 38 students who don't cheat, 7 feel they can get a higher grade if they didn't cheat, but that it is wrong so they don't.

The 62 cheaters are subdivided into categories which reveal their number and frequency. The result is as follows:

<table>
<thead>
<tr>
<th>Frequency</th>
<th>% of Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>60-80</td>
</tr>
<tr>
<td>6</td>
<td>15-20</td>
</tr>
<tr>
<td>13</td>
<td>10</td>
</tr>
<tr>
<td>16</td>
<td>5</td>
</tr>
<tr>
<td>13</td>
<td>0-1</td>
</tr>
</tbody>
</table>

The bulk of the cheaters fall into the 0-10% category—42 students, with most not cheating more than 30% of the time. The survey was taken at random and consisted of all different majors. The survey showed that 6 students cheat on at least 60-80% of the time. Chronic and rare cheaters both number 6 each.

The survey showed that students agree that they are doing wrong when they cheat. They felt that some of the questions on exams are too hard, or that they are helping other students, or cheating is easier than studying, and they don't want to fail a test.

Seven students admitted to cheating 25-30% of their tests each semester. Six said they are doing nothing wrong by cheating. They feel they are merely checking answers. One student in this category feels that he/she is doing something wrong, but everything else he/she does it as well.

Seven students fell into the category of cheating on 15-20% of their tests each semester. Five of these students also agreed they are not doing anything wrong by cheating. The 2 who said cheating is wrong said they only do it to check their answers with other students.

Most students surveyed look at their neighbor's paper while taking a test. Using this method of cheating many of them are merely checking their answers with other students, and not cheating.

Seventeen students said that they cheat on 10% of their tests each semester. In this category only 3 feel they are doing nothing wrong by cheating. One of the 3 students said that it doesn't hurt anyone else when you cheat, so it doesn't bother him. The other 13 students agreed that cheating is wrong. The survey showed that they feel you are not learning anything when you cheat, but it doesn't hurt to check your answers. The other popular opinion of these 13 students is that everyone else cheats, so there is no reason why they shouldn't cheat as well.

Of the 16 students who admitted to cheating on 5% of their tests each semester, they feel that they are merely comparing answers and that cheating is easier than studying. The other 6 said that cheating is wrong, but it is easier.

Only 7 students polled said they cheat on 1-3% of their tests per semester. Five students in this category said that cheating is wrong because you are cheating yourself. The reasons given for cheating in this category were a lack of studying time, or the material was too hard to study. The other 2 students said that cheating is not wrong and they are just checking their answers.

There were 6 students who fell below the 1% category. These students claim to have only cheated once on a test. They feel it is wrong, and agree that they usually feel bad after they have cheated.

One student seems to fall into the category of students who said they don't cheat. The 38 who don't cheat agree that it is wrong, and I am not learning anything by cheating.

Eight students of the 62 who admitted to cheating said that they feel it is unfair on their tests. They agree that some teachers give tests that are too hard and are deserving of students who cheat.

The most popular method of cheating, shown in the survey, is copying. Forty-eight students of the 62 admit to copying, and 12 said that they use cheat sheets, write the answers on the desk, store the answers in the computer, cheat on tests using their calculators, and talk to other students if the instructor leaves the room during the examination.

The 6 most popular methods of cheating many of the students use are:
- Writing answers on the test and checking their answers.
- Comparing answers and cheating.
- Cheating with someone.
- Cheating with someone else.
- Cheating by themselves.
- Cheating with others.

The most popular method of cheating reported by the students surveyed is copying. Forty-eight students of the 62 admit to copying, and 12 said that they use cheat sheets, write the answers on the desk, store the answers in the computer, cheat on tests using their calculators, and talk to other students if the instructor leaves the room during the examination.

The 6 most popular methods of cheating many of the students use are:

Gov't hiring lacks fire

by Mike Davino

"The federal government is under a hiring freeze. Only 50% of the open positions can be filled. The market is tightening," Angela Zaccardi, executive director of the Federal Reserve Board, said. Zaccardi spoke during a symposium sponsored by the political science department on April 10 in the Russ Hall house.

The topic of the symposium was employment prospects in government in the 1980's. Speakers from various levels of government presented their views.

The speakers agreed that salaries in the government jobs are almost up to par with those in the private sector. Brenda J. Veltri, personnel director for the city of Newark, said she feels salaries are just about up to par with the private sector, meaning more money, John F. Lazetta of the Arthur Young and Co. accounting firm said. Lazetta left government work to enter the private sector. Veltri had personnel director for the city of Newark, said she feels salaries are just about up to par with the private sector.

Judge gets gonged

by Chris Carroll

Two reports of disorderly persons and a report of malicious damage to a vehicle were filed in campus police headquarters last week.

Officers Debra Newcombs and John Johnson responded to a call from Freeman Hall to assist with a disorderly person on April 19 at 10:15 p.m. A resident of the dormitory complained of an unsecure person in the dormitory.

Newcombs asked the person to come to the field to practice control. She returned to her vehicle, but when she returned to her vehicle, she noticed the incident of malicious damage.

Two juveniles were seen leaving the roof of Panzer Gym on April 19 at 5:22 p.m. Officer Tony Ciaramella and Newcombs approached the suspects and questioned them on their behavior. They were asked if they were going to the Alcoholic Rehabilitation Program. A cab was called for the male and he was taken home.

Officer James Fassnacht also responded to a disorderly persons report on April 16 at 9:15 p.m. Fassnacht was dispatched to Memorial Auditorium to help with a drunk and disorderly male. It was reported that the male was 1 of the judges in the Gong Show on the auditorium that night and that he was intoxicated. McKinley Boston, supervisor of the show, requested that the male leave the stage area. Montclair police were notified and they agreed to take the male home.

A female reported an incident of malicious damage on April 16 at 1:40 p.m. She stated that she and another person had a disagreement over a parking spot in Parking Lot 14. She stated that she attended the incident.

Ed Happle
Stands For....

- Better nighttime security,
- More paved parking spaces,
- Freezing Student Center prices,
- Creating a student grievance board,
- And fighting tuition hikes!

That's why we stand for Ed Happle, For PRESIDENT.

Paid for by the Students to elect Happle.
Candidates quizzed

The 4 candidates for the office of president of the SGA gathered at 12 pm Tuesday for a press conference to express their views and policies. The candidates, Ed Happle, Marty Cannon, Brian Cige, and Jim Finnegan were asked a number of questions from the immediate Student Center and was broadcast by WMSC fm. The conference, which was held on the 3rd floor of the Student Center and was broadcast by WMSC was designed to inform the student body on the candidates promises and past accomplishments.

Q: What would you suggest as an alternate method to replace the housing lottery system?
Brian Cige: "By the time you’re a senior I don’t think it’s that necessary to live on campus. We exempt seniors from oncampus housing and let more freshmen, and sophomores, and juniors at the college stay on. It would be better for the whole college in the long run.

Q: What specific problems do you see facing the offcampus student?
Marty Cannon: Quite a few people that own the houses that the people stay in offcampus make these regulations that are pretty unbelievable. The 1st thing I would do is appoint a director of offcampus housing to my cabinet who would be a liaison between myself and the offcampus students.

Q: You mentioned more student input on faculty hirings and firings. I would like to know how you plan to get the additional input and how you will make it more effective than it presently is.
Brian Cige: "I feel that if we can get the teachers to be evaluated every year, not just for their convenience but for the convenience of the students who aren’t just taking classes when they sign up for courses but who are taking teachers also. It will keep the teachers on their toes, and it will be better off for the school."

Q: After only 1 year of experience on the SGA, what makes you more qualified than the other candidates?
Jim Finnegan: “After only 1 year on the SGA, I have seen how inefficiently it’s run. Students come up there to represent the organizations and they leave there coming away saying who do these people think they are treating us like that.

Marty Cannon: “I feel that 1 year is long enough to become aware of the issues and what is happening. I think that it’s not the time that you are on something, it’s what you have done during that time spent.”

Q: What do you think is the biggest problem facing the campus?
Ed Happle: “One problem is definite parking and the large commuter population. They don’t have enough paved parking spaces. I intend to make sure that $10 fee you pay for a hunting license, that you at least get a place to park, and not on gravel and not in holes, but on paved parking lots.”

Q: You said yesterday that you wanted to subsidize the Faculty Student Co-op with SGA funds. Why isn’t enough money now for the present student activities.
Where will you get these funds from?
Jim Finnegan: "I was thinking of subsidizing just the Rathskeller prices, not the whole Student Center. The money could come from fees coming from graduate students.

Q: What are your exact plans for implementing the immediate Student Center price freeze which you stated on your campaign literature?
Ed Happle: “Students got to realize we’re consumers; there’s a monopoly on this campus. We either have to use the co-op for our benefit, right now we’re not. We got to use our power in the co-op and apply pressure through boycotts. Don’t buy here, provide buses to go elsewhere. We must go out and protect ourselves.

Q: Do you plan to take any steps to break the co-op monopoly?
Brian Cige: “I say we look at the administrative channels and see that these rules that are brought down to us as law to show that they really aren’t and show that we have a lot more flexibility than we think we do, and as soon as we are aware of them, something will be done.”

Jim Finnegan: “People should be able to bring their own lunches when they come to school, which includes bringing their own beverages.

Marty Cannon: “I don’t plan to break up the co-op; what I would rather do is to try to improve it. What I would like to do is get the by-laws rewritten and try to get them working more efficiently for the size they are.”

Ed Happle: “We must make the co-op work for students. I think we should have something downstairs so that organizations who want to give their events, can prepare their own food themselves.”

Q: How do you plan to represent all student factions on campus
Marty Cannon: “One of the main issues I feel is the lack of

Glass in food
by Dennis Bishuk
On April 9, 1980, campus police responded to a call from Bohn Hall Cafeteria and then assisted a female student to the infirmary after she reportedly found glass in her food.

The student, Joanne Bowman of Room 209, Webster Hall, went to the cafeteria to eat lunch. She had a tuna fish sandwich and when she bit into it, she heard a crunching sound.

Bowman then was transported to the Infirmary by the campus police. She was examined by the nurse, who looked at her mouth and teeth. However, the nurse was unable to find anything.

James Allen, director for Cuisine Ltd., said he found out about the incident the next day. Allen was not sure what it was in the food, but said it looked like "a small piece of plastic." He also said that the glass could have come from anywhere—the suppliers, staff workers at the cafeteria, or even the student herself.

"There is no way it could have been plastic," Bowman said in a telephone interview on Monday. "I bit into it and it crunched. It was too hard to be plastic."

Bowman also said she plans to visit her own doctors and have X-rays taken to see if any internal damage occurred.

"The thing she hit into was only as big as the top of a pinhead," Allen said, "I've been here since September, and running the food service at Bohn and Freeman Halls since January, and this has never happened before." Allen also said that he makes oral incident reports every week to Skip U'signal, the director manager for Cuisine Ltd.

Bowman does not know if she is going to take action against Cuisine Ltd. She said that she is still discussing the possibility with her parents.

"The food there should be better prepared," she said. "If it happens to me, it could happen to someone else, and may be worse than this time.

Allen said that after the incident, the food was removed from the serving line. He then added that he checked through it himself and could find nothing else in it. Although he couldn't find anything, Allen said he still threw the leftover tuna fish away to prevent the same thing from happening to other students.

SPAC unhappy
by Mike Davino
The speech and theater department Student Personnel Advisory Committee (SPAC) expressed a "great deal of dissatisfaction" with their education at MSC during a meeting of speech and theater students held on April 15 and in a subsequent letter to the theater division.

Dr. Wayne Bond, chairman of the speech and theater department said, "There is a concern among the faculty. We find agreement in many problems listed by the students. I don't think the problems are insurmountable, but they take time to solve."

Among the suggestions of the SPAC were more professional training and courses, availability of theater equipment for student productions, acting classes, etc., the letter said. A library type system was suggested by the students, to facilitate this. Bond said, "The use of the costumes and equipment is a very good suggestion. It will take time to make it work, however."

The letter continued, "The students would like to be represented on the Theater Committee." Bond stated, "One of the things we have done is to devise a procedure for student input into play selection. This is done by a petition system."

Kevin Allen who wrote the introduction and conclusion to the letter said, "The faculty doesn't let the students direct of design in the MTS." Bond said, in an interview in his office, "There will be more opportunities for the students to direct, act, and design. We're planning independent study programs. The student will be given a small budget."

"We must all work together to achieve this goal of harmony, dedication, and creativity in our department. MSC must earn its designation as a State Center for the Arts, and then we must live up to this title."
Jim Finnegan: "I was one of the student life at MSC? (i.e. bills you have written) Brian Cage; "I brought the Board of Trustees to the cafeterias both in the Student Center and in the dorms to make them aware of our problems and living conditions. I also worked on the Tuition Task Force and brought tuition problems to the attention of the legislators down in Trenton, NJ. I basically talked to students in my classes and made them aware that the student government exists; that we're there for them." Marty Cannon: "This year I went to Mr. Tavakoli and Mr. Galvin who represented MSC. I went to Mr. Tavakoli and Mr. Galvin who represented MSC, and said, 'NJSA is not worth students' money. Let's pull out,' but they didn't do that until February.'

Leadership, not Salesmanship.

Let's begin again. Vote Finnegan SGA President...and begin to have a voice at MSC

Info Please

Information Please is a new column in The Montclarion designed to answer student questions. If you have answers maybe we can help find them. Please send all questions to The Montclarion, 4th floor Student Center or come up and see us.

by Jim Ilaria
Q: What is the new Student Center Annex going to be used for once it is completed?
A: The new annex will contain a meeting room and office space. The office space will be given to the Faculty Student Co-op or to some Class 2 Organizations. Nader Tavakoli, SGA president, feels that co-op should not be housed in the center because these offices will be faculty administrative offices where Clark 2 Organizations are student run organizations. If the co-op does move into the new annex, they will have to pay rent raised from their own revenues, which usually means an increase in prices for the center cafeteria and the Rathskeller.

Q: What provisions have been made for removing handicapped people from upper floors of buildings in case of an emergency, such as a fire?
A: At this writing, there are no mechanical means of getting these people out of a burning building except to hope that someone is around to carry them out. Dr. Edward Martin, interim dean of students, states that this has been an ongoing question for about 2 years and he wishes there was a simple solution. The reaction from Dr. Morris McGee, a disabled teacher with an office in the 4th floor of Partridge Hall, summed up the situation best, "All I can do is get a bag of marshmallows, then pray."

Q: Recently, I found an ad on my car for a company that sells research and term papers. Are these companies on the level? What would happen if I got caught using one?
A: It is against NJ laws to sell such a paper in order for a student to receive credit from an institution of learning. However, these companies sell the papers under the pretense of being models and escape any legal action. The papers range in subject from analytical chemistry to zoology and can cost anywhere from $7 to $10 a page. Submitting 1 of these papers constitutes plagiarism and the penalties range from receiving an F in the course where the offense occurred to suspension or expulsion from school.

Q: I'm a freshman and I am having trouble deciding what courses to take next semester. Who can I see that can help me?
A: Being a freshman, you should see the academic counselor of the school that you are registering in. If you are an upper classman, you should see your faculty advisor.
Vote! Jay Stubofsky for TREASURER

JAY is qualified:

**MAJOR:** Accounting / Finance

**EXPERIENCE:** Corporate Budget Management Accounting

JAY has served you:

**SGA:** Appropriations Committee Co-op Student Task Force Legislator Chairman Of Special Committee On Parking

VOTE JAY because:

“We need someone who understands student needs! Someone who can manage the students money to its fullest potential! Someone who will work with the students! And someone who will be there when you need him!!

Vote "JAY" Line *8

We have some good news and some bad news...

the **GOOD** news is...

"Country Carnival" is coming!

(THUR., FRI., AND SAT., MAY 2 - 4)

the **BAD** news is...

All Cars must be moved from Webster Hall parking lot—Wed., April 30 by 5 pm.

THANK YOU? – CLUB

CLUB is a Class 1 organization of the SGA. "Students Serving Students"
SPECIAL ELECTION ISSUE

The choice is yours

by Debbie Reynolds

"I'm not afraid to do a hard day's work," Marty Cannon, 20-year-old junior business administration major and candidate for SGA president, stated proudly.

Cannon said, "I would like to appoint a new member to the cabinet, a director of off campus affairs. We can't forget the off campus student. He needs equal representation, too."

"I have an open mind as far as student problems are concerned. To help that I'd like to set up a grievance board consisting not just of SGA legislators but of any interested students. We would meet once a week and discuss any problems students might have."

"One thing I'd like to do is bring the organizations to get in direct contact with the student numbers. An SCiA president must be a consultant to the Student Advisory Committee for the SCiA in 1978-79. He was appointed as an SCiA presidential candidate.

Happle, a junior political science and economics major, has been extensively involved with student organizations. He was both the vice president of the External Affairs Committee of the SGA and director of public relations for the SGA in 1978-79.

He was appointed to the Student Advisory Committee for the Tuition Aid and Grant (TAG) Program, and has been an SGA legislator for the School of Social and Behavioral Sciences this past year. He has also been a member of College Life Union Board (CLUB), Class 1 Concerns, Black Student Cooperative Union (BSCU), and the Ski Club for the past 2 years.

Happle feels that the SGA needs to maximize student participation. He feels that the SGA must go before the students and talk to them. "It's hard for people to believe in the SGA, unless they see the SGA working for them all year long," Happle said.

Happle said that if elected he will increase security at night. "We need more security people walking around," Happle said. "The administration is responsible for the protection of all the students and they're not doing their jobs."

Happle also said he would try to get the dorm cafeterias to be used during exam periods for studying. "They took away our lounges in Freeman and Stone Hall and made classrooms out of them," he said. "If we get the cafeterias, we can use them not only for exam periods, but possibly all year round as well," he added.

by Meryl Yousir

Jim Finnegan is running for SGA president because he feels "the SGA doesn't serve the students the way it should be served."

The soft spoken sophmore explained, "They don't inform the students of exactly what is going on as far as the fees they pay and the benefits they can derive from them are concerned."

"I would like to set up either a table or an office on the 2nd floor of the Student Center to bring the SGA to the students—an information and complaint table," the 22-year-old office systems and administration major stated.

Finnegan has been an SGA legislator this year, spent 4 years on his legislature in high school, and was a county committeeman in Caldwell, working on elections.

Finnegan thinks the biggest problem facing MSC students is parking. He advocates less ticketing and adding another shuttlebus.

"There isn't much you can do to solve the parking problem except add a 3d shuttlebus to bring students up from the Quarry," Finnegan said.

Another problem Finnegan would like to solve is the prices in the Rathskeller. "I'd like to subsidize the Rat from SGA funds," Finnegan said, thereby bringing down prices. He would also like to investigate the possibility of bringing in an outside interest (i.e. Barnes and Noble) to lower the prices of books in the MSC bookstore.

To get commuters more involved, Finnegan would like to get the administration to institute a "free period," (an hour per day in which no classes are scheduled) so that all the student organizations can hold their meetings at the same time.

For the dorm and off campus students, Finnegan would like to lower or eliminate the $10 penalty now charged for the loss of a meal plan card. He feels this is an unnecessary charge which students must pay.

Anter anti issues

by Nora DePalma

"I want to make the SGA more responsible and responsive," Karen Dalton, SGA vice presidential candidate, stated.

"The vice president is also the spokesperson of the legislators. I can guide the legislators to become more responsible to the needs of the students. Also, as a quarter of the executive board I can play a major part in solving problems," she said.

Dalton is addressing herself to 4 major problems on campus. They are: the parking situation, the bookstore, reorganization of schools, and tuition hikes.

She said that if elected she will push for an increase in the availability of temporary overnight decals. "I'll move to organize both a boycott of the bookstore and bus trips to Barnes and Noble in NY," she said.

Dalton explained that there isn't much she could do about the reorganization of schools. "Some classes will either be merged or dropped; the only thing I can do is fight to keep the courses that the students want most."

Dalton plans to organize an "antituition hike" task force. This force would organize demonstrations and protests against the hikes. "I will also recommend that only cars that are in dangerous spots, or blocking a road, or a fire zone be towed away; and that no municipal tickets be issued on campus." Dalton stated.

"I will try to keep 'operation letter-dump' going all year," she said.

Dalton stressed that she would try to make the college more responsive towards students and "less money hungry." She added that if she could not accomplish this she would at least try for the same goals in the SGA.

Some of Dalton's past activities include being an SGA legislator, a columnist for The Montclarion, a writer for La Campana, and 1 of the organizers of the bookstore boycott last semester.

Bannon is involved

by Meryl Yourish

"I want to do something more for the students," Charlee Bannon, candidate for SGA secretary, said. "I want to be more involved in the SGA," she added. The 19-year-old freshman said that she is not "just a secretary." Bannon said that she will help formulate SGA policy if elected, and that she will look into more services for the students, such as a dental program.

Bannon, a psychology major, was a legislator this year, the secretary of the Summer Dorm Council, and is the acting secretary of the SGA and the Public Relations Committee.

"I will definitely maintain the present office hours," Bannon stated. She also intends to work with the Public Relations Committee to better promote the SGA, with more SGA news, press releases, and other literature.

"I want to make the SGA aware of the students as well as making the students aware of the SGA. I want more and better communication between the SGA and the students," Bannon said.

Bannon intends to do more than she is required to do by the constitution. "I'm one-fourth of the Executive Board. I do have a say. I am representing the students, too," the redhead said.

Bannon cites being chairman of the Bond Issue Committee, a member of the Board on Transportation Affairs, and a student representative to the Student Association as some of her credentials for the position of SGA secretary.

"I have worked closely with the Executive Board," Bannon said. "I have also been an active legislator. I know what the students' complaints are, and I can bring them to the Executive Board," she added. "I will get it done," she concluded.

Vote in the SGA elections April 26-30th in the Student Center.
Pedalino wants changes
by Naedine Hazell

“I want to reach out and bring the student government closer to the students,” Laura Pedalino said. Pedalino is a perky freshman running for the position of SGA secretary.

Pedalino shows enthusiasm for student government and is willing to serve her fellow students. She feels that her past involvement, her present credentials, and her extensive plans for the future, should make her a SGA secretary, speak for themselves.

A large part of the reason Pedalino is running is because “I feel there’s a need to have someone on the Executive Board who wants to go out and work with the students,” Pedalino said emphatically.

The petite business administration major wants to see some changes. She would like to have the SGA Office open at least 3 nights a week and on Saturday and Sunday afternoons. “If I have to do it, I’ll do it. I’m willing to work the office hours myself.” She would also like to write up a weekly newsletter to inform students what the SGA is doing and what is going on in the particular week, and to write stories in The Montclarion.

Student government is nothing new to Pedalino, she feels she is very qualified for the position, “because I’ve always been involved in student government. All through high school I was elected secretary of my class every year, and of course served on the student government. I love working with people.” This year Pedalino served as secretary of the Appropriations Committee and a freshman legislator for the SGA.

“I want to bridge the gap between the student government and all the students on campus,” in the interests of better communication. Pedalino said, “I want to go beyond my office work. I want to work with more of my classmates and get them involved with the SGA.” Pedalino said with concern.

Garrett checks funds
by Mary Ann DeFiore

“The treasurer should not interfere with the programming of the Class 1’s. He or she should be making sure that they are operating effectively and efficiently,” Scott Garrett, candidate for SGA treasurer, said.

He plans to eliminate much of the red tape and paperwork which has been started this year, while continuing to “maintain a close check on where the funds go.” His campaign platform includes the establishment of an information sharing program for all Class 1 treasurers, a student newsletter breaking down SGA expenditures, and conducting presentations for any interested student groups on the SGA financial system.

The 20-year-old political science major cited his 6 years of experience operating and managing an agribusiness in his hometown of Sussex, NJ. “I have gained knowledge and practical experience in accounting, bookkeeping, inventory control, accounts receivable and payable, and in decision making,” he said, relaxing in his Freeman Hall room.

During his past 3 years at MSC, he has maintained a 3.5 cumulative average, while running the entire business on weekends spent at home. Garrett is presently serving his 3rd year as an SGA legislator, and is a member of both the External Affairs and Government and Administration (C&A) Committees. He is a former chairman of the External Affairs Committee. For the past 1.5 years, Garrett has been a member of the Council on International and National Affairs (CINA), recently having been chosen publicity chairman.

He has also been spending his time this semester serving on a congressional internship with Congressman James Courter (R-13). Garrett works out of Courter’s Sussex Office doing case work, which involves solving the problems and complaints of the constituents.

Stubofsky will advise
by Chris Carroll

“Jly believe that anyone wanting to be treasurer who truly wants to work with the students at MSC should realize that this is a full time position,” Jay Stubofsky, candidate for treasurer of the SGA, said.

Stubofsky, a legislator for the past year, has a genuine concern about student fees. “I believe the students should be informed of where their money is going,” he said.

The accounting, finance, and marketing major is interested in tightening up SGA investments and looking into “long range planning.”

“I believe there’s more than enough money, it just has to be managed,” he said.

Stubofsky feels there is a need to “tighten up the SGA operations budget.” This could be done by cutting office expenses and by putting more emphasis on allocating these formerly misappropriated funds toward student needs, he said.

A 19-year-old junior is in favor of allocating more money for Class 2 Organizations because “They are as important to the students as Class 1 Organizations.” The Class 2 Organizations “should not have to come up here and beg for money,” he added.

A member of the Co-op Student Task Force, Stubofsky wants people to know that the “treasurer is not a bookkeeper.” Stubofsky believes that it should not be strictly up to the treasurer to decide how much money goes to the Class 1 and 2 Organizations. “I should be there to advise them, not to tell them. It’s their money and they have a right to use it,” he said.

Stubofsky, a member of the SGA Appropriations Committee, would like to “cut out a lot of waste and put it into programming through the Class 1 Organizations.” He stressed the point that he would be available to offer his services to all students any time that they need them.

A resident of Montclair, NJ, Stubofsky is cochairman of the Special Committee on Parking.

Stubofsky believes a “treasurer should be responsible, yet responsive” to the needs of MSC students.

Vote in the SGA elections April 26-30th in the Student Center.
**Brown for change**

by Debbie Reynolds

"I can work with anyone," Ken Brown, 20-year-old political science and English major and candidate for the position of student representative to the Board of Trustees, stated.

A member of Class I Concert's stage crew, Brown believes that although the trustees meet only once a month, the position of student representative to the board shouldn't be a once a month position. "I believe that if I could become close with the students as well as with the members of the SGA a lot could be done.

"One thing I would like to see is the board meetings publicized more," he added. "Student input is important."

"The student rep should be more student oriented," he commented. "I feel the board position is a good one. There is a lot of potential in it and many great possibilities. It needs the right person," he added.

"As rep I would become more involved in committees as well as work on my personal projects for the students," Brown said.

"I am also looking forward to getting to know the trustees. If I can win their respect it is definitely a step in the right direction," Brown said.

One of Brown's projects would include a construction schedule that will complement the students because "The noise factor is such a problem now."

An on campus resident, Brown has also lived off campus and believes an off campus group should be set up by the housing office to investigate all rooms and apartments before students are allowed to rent them. "It may be difficult in the beginning but it will be worth it later on."

Brown, a member of 3 honor societies—Phi Gamma Mu, Phi Kappa Phi, and Pi Sigma Alpha—currently works in the Student Center as a building manager.

"I spend 30-60 hours a week in the Student Center and I'm on campus from 6-7 days," he said. "I'm easily accessible and easy to talk to."

**Ustas stays close**

by Shari Kirkup

Running for the position of student representative to the Board of Trustees is Debbie Ustas, a junior sociology major at MSC. She has been actively involved in the SGA for the past 3 years.

"The main issues that I plan to focus upon if I am elected is 1st to have the liaison between the students and the administration. I will confront those issues related to the Board of Trustees such as possible faculty cutbacks due to budget cuts and the state level campus alcohol policy. I will also be focusing my attention on other areas of student concern which must be redirected onto a more active level," Ustas stated.

Ustas started her involvement in the SGA her 1st year at MSC by becoming a freshman at large, and a student representative, for the sociology department. In her sophomore year she was secretary of the Appropriations Committee.

This year Ustas is involved in a number of positions, 1 of which is the vice president for the Internal Affairs Committee. She also serves as a student representative for the Montclair Athletic Commission (MAC), and the Space Allocations Committee, which is responsible for allotting available space to different areas on campus.

Ustas explained that during the past year she was responsible for rerouting the Student Library Advisory Committee, which enables students to have an input into the workings of the library. In addition to this she was able to get the library to extend their closing time 1 hour during exam period. She is chairperson of the Committee of Seniors, which is responsible for coordinating all senior activities. Ustas also serves on the Search Committee and the Committee to Select Who's Who in American Colleges and Universities.

An on campus resident, Ustas has been actively involved in the SGA her 1st year at MSC by becoming secretary of the Appropriations Committee. She also serves as a student representative to the Board of Trustees, said. The 20-year-old junior sociology major has been president of Chi Alpha, a Christian fellowship on campus, for the past 2 years. This fellowship sponsors speeches, coffee houses, and movies on campus.

"In Chi Alpha, I've learned organization, I've learned discipline, and I've learned commitment," he said. Known to many by his professional name, "Ralph the Clown," Siegel runs his own clown business and works a couple shows a week all over the state.

"As a clown, I have to have my own books, my own records, and run my own business," he said.

Although he has no experience in the SGA, Siegel is confident that he can handle the job. "I don't believe in promising anything. I believe in doing," he said.

Through his business and Chi Alpha, Siegel has worked with many people. "I'm involved with people. I think I have an understanding of all different types of people," he said.

"I think I'm qualified and I also think the other 2 people are qualified. Whoever wins, if they're sincere in what they're doing, I think they'll represent the students. If the students think I'm qualified, they'll vote for me," he said.

"I'm not a politician. I'm confident that if it's God's will for me to win, I'll win. I trust in God," he said.

"I'm involved with people. Most of my life revolves around this campus," he said.

"Whether I'm elected or not, I want to help," he concluded.

**Siegel stands firm**

by Chris Carroll

"I feel this position needs someone who's articulate, someone who can be firm on a position and stand up for what's right," Ralph Seigel, candidate for student representative to the Board of Trustees, said.

The 20-year-old junior sociology major has been president of Chi Alpha, a Christian fellowship on campus, for the past 2 years. This fellowship sponsors speeches, coffee houses, and movies on campus.

"In Chi Alpha, I've learned organization, I've learned discipline, and I've learned commitment," he said. Known to many by his professional name, "Ralph the Clown," Seigel runs his own clown business and works a couple shows a week all over the state.

"As a clown, I have to keep my own books, my own records, and run my own business," he said.

Seigel, a resident of Pine Brook, NJ, held 2 shows in the Student Center so far this school year.

Although he has no experience in the SGA, Siegel is confident that he can handle the job. "I don't believe in promising anything. I believe in doing," he said.

Through his business and Chi Alpha, Seigel has worked with many people. "I'm involved with people. I think I have an understanding of all different types of people," he said.

"I think I'm qualified and I also think the other 2 people are qualified. Whoever wins, if they're sincere in what they're doing, I think they'll represent the students. If the students think I'm qualified, they'll vote for me," he said.

"I'm not a politician. I'm confident that if it's God's will for me to win, I'll win. I trust in God," he said.

"I'm involved with people. Most of my life revolves around this campus," he said.

"Whether I'm elected or not, I want to help," he concluded.
All MSC Undergraduates Can Vote!!
(including Seniors)

The Student Government Association is
"Students Serving Students"
We vote Cige

The students of MSC are about to elect the 1 person who will most directly influence the operations of SGA for the next year. We believe Brian Cige is the best person to serve the college as our next SGA president. The job of SGA president is a difficult one. Cige has shown that he has every quality crucial for the job.

More than any other single student on this campus, Cige has a track record that is unequalled in devotion and sincerity to the students. He has seen the SGA from the inside of the administration and the Student Center Annex and Quarry Development Committee. Cige knows every issue that faces every student on this campus. As student representative to the board of trustees, he has seen the work of the administration from the inside of the private trustees meetings. He has proven, to the administration that he is an honest and forceful representative of the students.

And he has done his work with the utmost of thoughtfulness and integrity. One year is a very short time for a person to do the job of SGA president. One year is even inadequate to learn the job. Cige, however, has been in position for the position since the 1st day of his freshman year.

He has proven that he has the creative ability to initiate new ideas and projects. Not only can he pinpoint student needs in developing these ideas, but he has the personal drive to follow through with them, and make them a reality.

He made the initial moves to stop the recent liquor controls in the dorms. He took the first steps towards opening the dorms during vacation periods his first month in office as representative to the board of trustees. If he becomes president, he has promised to evaluate the “high” late fees during registration, and he has pledged to restructure student input into faculty hiring and firing. Cige is open to student input to determine other problems.

We have every reason to believe that as SGA president he can do even more for the students.

With your vote April 26 to 30, you can elect Brian Cige. We have but one chance a year to decide the fate of student government at MSC, to insure that it will be strong for another year.

You can be certain with Cige.
Students Speak

Who is fooling whom?

"It has been said that the majority of students have cheated 1 time or another. Do you agree?"

by Sue Schnaidt and John Vallancourt

"Yes. I haven't taken 1 class here yet where at least 25% of the class hasn't cheated. But I don't cheat."

Reginald Breckenridge

"I don't know if it is a majority, but in my classes I know people cheat whenever they get the chance."

Archie Cappello 1981 business administration

"I would say at least half the people on this campus cheat. I don't think it's only on tests. Many students pass their papers on to each other, which is also a form of cheating."

Alise Conno 1981 early childhood education

"Yes, definitely. Especially if classes aren't in one's major. If it is just a required course, most people cheat. But I never cheated."

Brian Carlson 1981 undeclared

"Me, cheat? How do you know it now?"

Elinor Thorton 1982 broadcasting

"I'm not going to be a puppet of the administration!"

Pete Galvin 1983 undeclared

"I'm going to have a column in the Student Center!"

Tim Hickey 1981 business administration

"No. I don't think so. That statement is a generality and that isn't right to say. You can't speak for everybody on campus."

Anna Maria Spruance 1981 family and child

On Second Thought/Meryl Yourish

Big hopes and false promises

It's election time. By now you've seen the posters, heard the candidates, maybe gone to 1 of their parties or even (gasp) shook one's hand. You can always tell a candidate this time of year: they're the ones in your class who haven't looked at you all semester and suddenly walk up to you, grasp your hand, and say, "Hi. What are you doing tonight? Do you need a loan? Would you like me to wash your car? (for a baby I can kiss?)"

aren't they sweet?

One thing that rarely changes are the cliches that you hear the candidates use. Aren't they sweet?

"The Faculty Student Co-op is ripping us off!"

"I'm going to bring the SO A back to the administration."

"I want to be more in touch with the students."

"I feel I am the best person for the job."

That's my personal favorite. Now, I don't mind the candidates saying that and most of them do. I think it's a good idea. The only thing that bothers me is that not 1 of them ever asks us before they start throwing our name around. I mean, come on, guys, have a little common courtesy!

Another thing is that history has shown that after the 1st week of the year, the elected candidate stops writing. As far as I can tell, SGA legislators and Executive Board members write only when it pleases them, or when they want to sound off.

Another promise broken.

Well, there you have it. The 1980 pick your candidate show. You pay your money and you take your choice. Just don't be too heartbroken when you hear the candidate that you voted for reverse his policy next year. It happens all the time.

Meryl Yourish is the assignment editor.

Excuse me, where is the...

by Lisa Burkhardt

How well do you honestly think you know MSC? How aware are you of student activities, services that are available to you, and what you do for when you're a student at MSC? These are some of the questions the Montclarion staff attempted to answer in a recent survey they conducted. Overall, the results of the survey were good—students were much more aware than the staff had originally predicted they would be. Although there were several questionnaires that were virtually blank, many more had every question correctly answered.

The survey only touched upon the basic questions, things that the staff felt every student should know. How well would you have done on the following questions?

1. What is MSC's president's name? David W. Dickson is the correct answer. Dickson came to MSC in the fall of 1973, and took over as president after Thomas H. Richardson left the college.

2. What is SGA's president's name? Curiously enough, about half of the 126 questionnaires we received called SGA president Nader Tavakoli simply "Nader." It would be interesting to find out if the students thought "Nader" was his last name, or is they felt so close to him that they knew only his 1st name.

3. Who is the dean of your school, or your department chairman? Most students knew the name of their department chairman; few could name the dean of their school.

4. What was the name of the dean of students who just retired in December? Only 35 students correctly answered that Lawton Blanton was the former dean of students. A few more guessed that Edward Martin, currently interim dean of students, was the 1 who had recently retired.

5. What is MSC fee pay for? Most answered only "student activities." Those who cited specific examples commonly named functions of the Class 1 Organizations, which is what the majority of the almost $500,000 budget of SGA does go for. About $100,000 of the SGA budget pays for services such as legal aid counseling, the Drop-in Center, a yearly calendar, and other operations of the SGA proper. Each fulltime student pays $24 per semester for SGA.

6. On your tuition bills, what does the MAC fee pay for? Only 21 students knew that the fee pays for the Montclair Athletic Commission (MAC), the group that appropriates money to the intercollegiate sports teams. Fulltime students pay $18 for the MAC fee every semester.

7. What does the student buildings fee pay for? Almost every student answered the Student Center, or maintenance of the building. This answer is correct, but it tells only part of the story. The fee used to be called the Student Union Building Fee. In 1978, the fee was renamed Student Fees, to cover construction of the $49.1 million Student Center Annex and the Quarry Development Project. The Quarry will soon have athletic fields and a locker building, thanks to student fees.

8. Do you purchase a parking decal every year? Campus police should be pleased to find out that 88 of our 126 students polled do buy a $10 parking decal every year. The fees are supposed to pay for upkeep of the parking lots.

9. How many dorms does MSC have? The answer is 4—Freeman, Webster, Stone, and Bohn, and 1 apartment complex, the Clove Rd. Apartments. Approximately 1,500 students live on campus.

10. Where is the Health Center located? The Gilbrell Health Center can be found directly behind Freeman Hall, and is equipped for minor student health problems. A doctor is on the premises most mornings, and the center does pregnancy and VD tests, first aid, and some check ups.

11. Where is the Financial Aid Office? This seems to be an easy question for students to answer—on the 3rd floor of College Hall.

12. Where is campus police headquarters? The importance of this question lies in the fact that temporary parking permits must be obtained by visitors, and anyone wishing to park on campus between 1:30-6:30 am. It is also important for anyone needing help.

13. Where is campus police headquarters? The Drop-in Center is between the Student Center and the Math/Science building, and is a peer counseling center and referral service. The center is open 24 hours a day, and also handles information about the college, transportation schedules, and other helpful bits of information.

14. Name 2 services that SGA provides you. Again, most students could only cite examples such as movies, beer parties, the yearbook, the Daytona trip, The Montclarion, and other Class 1 functions.

15. What is the office on campus that helps graduating seniors and other students find jobs? There are 2 acceptable answers to this question—Career Services is essentially a placement office, and Co-op Education gives students credit for a job that is related to their school work. Both offices are located in Life Hall, and are equipped for upkeep of the Student Center, and running all the businesses in the building.

16. Have you ever met with an academic counselor? Ninety percent of our students polled responded yes to this question. Academic counselors review student transcripts to insure that they meet all the common core, school core, and general education requirements, as well as fulfilling their majors.

17. Who runs the bookstore, Rathskeller, and cafeteria? Well, it was a close race in the athletic and academic worlds, but SGA was favored in 13 of the questionnaires, and the right answer of Faculty Student Co-op was indicated on 14 times. Faculty-Student Co-op is a nonprofit corporation which is responsible for upkeep of the Student Center, and running all and no student mentioned anything about the Quarry Project.

Transfer students quench their thirst by Janice Bland

"Transferring serves my purpose as a commuter," Kevin Watson explained of his transferral from Trenton State College (TSC) to MSC. The Garfield, NJ resident explained that at TSC he lived on campus during his 1st 2 semesters, but was unable to continue in his junior year because of a lottery system similar to MSC's where students are picked at random for dorm rooms.

"The 1st semester of my junior year I went back to school and I didn't have a place to stay so I lived off campus," he said. Watson found living off campus unsuitable, therefore he made the decision to transfer to MSC the fall semester of 1979.

Although Watson finds transferring agreeable for commuting purposes, it does have some drawbacks. "The only thing I don't like about transferring is the fact that you get accepted 1st, and after that they determine how many of your credits they're going to accept," the industrial psychology major exclaimed in a disgusted tone.

Relaxing on the 3rd floor in the Student Center, the mild mannered junior would not disclose how many credits MSC would not accept from his TSC transcript. But the agreeable 21-year-old consented to mention just a few that were not accepted.

"I had a business management major, criminal justice minor at TSC. MSC did not take 9 credits from the criminal justice department because they don't have those courses here."

Upon his arrival at MSC Watson, a well dressed, handsome student, found himself comparing the college to TSC academically and socially.

"Academically they're about the same except at MSC they have less minority students and minority faculty," he said seriously. "But I knew that when I came," he added. He related that TSC has the highest enrollment of Black students and faculty of all state colleges in NJ.

Watson said he had no complaints of MSC, but like any transfer student, he had to adjust to the change.

"It's a drastic change because at TSC I was meeting more people and interacting more whereas here, I'm just commuting," he said. Watson does feel, however, that the few people he has met at MSC seem to be very nice. "I just started meeting people this semester. I guess it's because the weather has been nice," he said with an earnest look of thought.

Watson's opinion of MSC's faculty is that they're fair, but they need more minority faculty.

"They're acknowledging me, they're acknowledging me and I'm acknowledging them." Still appearing to be relaxed, he expressed concern for commuters.

"Since the majority of students commute, there should be more facilities for them to change in," he said after a short period of serious thought.

Having almost completed 1 year as a MSC student, Watson finally feels he belongs here. "Yes, I feel I belong," he said firmly. "I payed my tuition," he exclaimed with a laugh.

"The only thing I don't like about transferring is the fact that you get accepted 1st, and after that they determine how many of your credits they're going to accept."
months. He is a Registered Nurse in NJ.

"The next 1.5 years I spent writing poetry and plays. I had some of my writing published in magazines in the Midwest. When I was 23 I met an artist and lived with her for 1 year." Carressing his sandy colored beard, Goldberg continued, "She was a fine artist, but she was crazy. She had no mind. She supported me, so it was good."

At 24 Goldberg decided to go to college. With his hair settled neatly on his shoulders, he recalled his attendance at Ramapo College (Ramapo), "I was at Ramapo 1 semester and my life degenerated completely. I realized that Ramapo was a prison, a paragon of absurdity. I think I was majoring in space here." Goldberg is now an MSC student and is also continuing his job as a nurse. He is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child. "My wife, who is a rehabilitation nurse and deals with private clients. He is married with 1 child.

"When asked how he feels about MSC, since he is older than many daytime students, Goldberg replied, "I always thought that Carpe Diem meant stale fish." Despite his humorous remarks Goldberg said more seriously, "I feel out of place here. I'm from a different generation, and I find MSC a very rigid, alienating, stereotypic college. There is not much room for free expression. This stifles the mentality.

"I felt a twinge of sadness when I saw the antidraft rallies and the die-in. When I was growing up we used to sit around wondering what to make of the older generation. Now, I'm sitting around here wondering what to make of disco."

GIVE CANNON A SHOT
WHAT COULD THE ARMY POSSIBLY OFFER A BRIGHT PERSON LIKE YOU?

Drop your guard for a minute. Even though you’re in college right now, there are many aspects of the Army that you might find very attractive. Maybe even irresistible. See for yourself.

MED SCHOOL, ON US
You read it right. The Army’s Health Professions Scholarship Program provides necessary tuition, books, lab fees, even microscope rental during medical school.

Two years monthly stipend that works out to about $6,450 a year. (After July 1, 1980, it’ll be even more.)

Also, after you’ve accepted into medical school, you can be accepted into our program. Then you’re commissioned and you go through school as a Second Lieutenant in the Army Reserve.

The hitch? Very simple. After your residency, you give the Army a year as a doctor for every year the Army gave you as a med student, and under some conditions, with a minimum scholarship obligation being two years’ service.

INTERNSHIP, RESIDENCY & CASH BONUSES
Besides scholarships to medical school, the Army also offers AMA-approved first-year post-graduate and residency training programs.

Such training adds no further obligation to the student in the scholarship program. But any civilian Graduate Medical Education sponsored by the Army gives you a one-year obligation for every year of sponsorship.

But you get a $9,000 annual bonus every year you’re back medical school or post-graduate training.

So you not only get your medical education paid for, you get extra pay while you’re paying it back.

Not a bad deal.

A GREAT PLACE TO BE A NURSE
• The rich tradition of Army Nursing is one of excellence, dedication, even heroism. And it’s a challenge to live up to.

Today, an Army Nurse is the epitome of professionalism, regarded as a critical member of the Army Medical Team.

A BSN degree is required. And the clinical spectrum is almost impossible to match in civilian practice.

And since you’ll be an Army Officer, you’ll enjoy more respect and authority than most of your civilian counterparts. You’ll also enjoy travel opportunities, officer’s pay and officer’s privileges.

Army Nursing offers educational opportunities that are second to none. As an Army Nurse, you could be selected for graduate degree programs at civilian universities.

ADVANCED NURSING COURSE, TUITION-FREE
You get tuition, pay, and living allowances. You can also take Nurse Practitioner courses and courses in many clinical specialties.

All on the Army.

While these programs do not cost you any money, most of them do incur an additional service obligation.

A CHANCE TO PRACTICE LAW
If you’re about to get your law degree and are admitted to the bar, you should consider a commission in the Judge Advocate General Corps. Because in the Army you get to practice law right from the start.

While your classmates are still doing other lawyers’ research and other lawyers’ briefs, you could have your own cases, your own clients, in effect, your own practice.

Plus you’ll have the pay, prestige and privileges of being an Officer in the United States Army. With a chance to travel and make the most of what you’ve worked so hard to become. A real, practicing lawyer.

Be an Army Lawyer.

ROTC SCHOLARSHIPS
Though you’re too late for a 4-year scholarship, there are 3-, 2-, and even 1-year scholarships available.

They include tuition, books, and lab fees. Plus $100 a month living allowance. Naturally they’re very competitive. Because besides helping you towards your degree, an ROTC scholarship helps you towards the gold bars of an Army Officer.

Stop by the ROTC office on campus and ask about details.

UP TO $170 A MONTH
You can combine service in the Army Reserve or National Guard with Army ROTC and get up to $6,500 while you’re still in school.

It’s called the Simultaneous Membership Program. You get $100 a month as an Advanced Army ROTC Cadet and an additional $70 a month (sergeant’s pay) as an Army Reservist.

When you graduate, you’ll be commissioned as a Second Lieutenant, but not necessarily assigned to active duty. Find out about it.

A BONUS FOR PART-TIME WORK
You can get a $1,500 bonus just for enlisting in some Army Reserve units. Or up to $2,000 in educational benefits.

You also get paid for your Reserve duty. It comes out to about $1,000 a year for about 16 hours a month and two weeks annual training.

And now we have a special program to help you fit the Army Reserve around your school schedule. It’s worth a look.

A SECOND CHANCE AT COLLEGE
Some may find college to be the right place at the wrong time for a variety of reasons. The Army can help them, too.

A few years in the Army can help them get money for tuition and the maturity to use it wisely.

The Army has a program in which money saved for college is matched two-for-one by the government. Then, if one qualifies, a generous bonus is added to that.

So 2 years of service can get you up to $7,400 for college, 3 years up to $12,100, and 4 years up to $14,100. In addition, bonuses up to $3,000 are available for 4-year enlistments in selected skills.

Add in the experience and maturity gained, and the Army can send an individual back to college a richer person in more ways than one.

We hope these Army opportunities have intrigued you as well as surprised you. Because there is indeed a lot the Army can offer a bright person like you.

For more information, send the coupon.

Rundgren not on the road to Utopia

by Man Strasser

Todd Rundgren has for many years been the sanest voice in rock n' roll. He has always called for experimentation in music both in the artists he produces and especially in himself. This seeking out the new, coupled with a musical imagination that knew no bounds made Rundgren a truly exciting artist of the early and middle '70's. While he is still experimenting now (his electronic music is truly unbeliveable; it's also good to see a rock musician who is serious about videodiscs), much of what he has on his last 4 albums is amazingly 1-dimensional. The newer songs have tended to be disarmingly complex and annoyingly lacking in variation. Much of what I've heard in the past 3 years from Rundgren is fastpaced vocals with equally rapid musical support or slinky ballads that lack real substance.

This is vastly different from the period of Rundgren's greatest creativity when the phenomenal albums Something/Anything!, A Wizard, A True Star and Todd came out. I still view them as the zenith of a career that promised much early and only half delivered. And so I come to last night.

Todd's performance at Panzer Gym was long awaited by the 1,400 or so fans that waited on line, some as long as 6 hours to get in. The thunderous ovation that greeted Rundgren's entrance were proof that at this point intime he is enjoying his greatest popularity. This is alarming since he went so completely unrecognized (outside of FM radio and his hometown Philadelphia) back when he was learning the basics for everything he's doing now. His classic songs (including "Hello It's Me," "Just One Victory," and "Sons of 1984") generated wild enthusiasm live, but did little to support his record sales. Still, his producing efforts (among them Grand Funk Railroad and Patti Smith's) and constant touring accounted for enough money with which he could experiment with his music. That experimentation has led to a style that can best be called "hard pop" since his songs are framed by an avalanche of guitars and drums, but still maintain a pop feel with their hook laden choruses and neatly planned repetitions.

The concert sounded just like any of his 4 previous albums and I found the music to be detached and somewhat unexciting. There was a lot of energy to be sure, both on the band's part and by the audience, but nothing much seemed to take the music the extra step it needed to become vital. I suspect many fans will disagree with this when they read it, but I've seen Rundgren 4 times before and even the worst of those showings was superior to this event.

The best moments came in a 4 song section that started with "Shot In The Dark" and ended with a favorite off the Todd album called "The Last Ride." The interplay between the band members was crisp and the framework of the show did not allow for too much focus on 1 player. The mix of guitar, drums, and keyboards provided an air raid of sound that was deafening, but highly well controlled.

My biggest complaint technically is the shoddy acoustics. The vocals were far too entrenched behind the music and so the lyrics remained lost and were only occasionally discernible. The overemphasis on loudness created an aural vacuum, so the high notes were either completely lost or mushy. As a result, many of Rundgren's solo ventures were tinnny and lifeless.

The band is on a massive tour right now and exhaustion, boredom, and the possibility of too man technologies going wrong may be playing a part in less than superb quality of the show. I did not stay for the entire show and things may have improved after I left. However, with what I saw last night, along with what I've come to expect from him when his genius truly shines, last night could only be called a Rundgren disappointment.

Disagree with me if you wish, but the wizard just didn't have enough magic last night to keep me entertained. A last thought: you may never have seen it this way, but Rundgren, like so many other artists, is most popular now when his best work is apparently behind him. You should have seen him about 7 years ago. He put on a hell of a show.

Todd Rundgren

There must be a way out of here

by Dan Marino

Arthur Kopit's 1964 1-act play, Chamber Music is a surreal mishmash of melodrama, histrionics, and humor which is best described as black slapstick. This independent student production of the off-the-wall work is brisk and well done; the flaws of the play are more than made up for by their energetic performance.

Chamber Music is set in the women's ward of a mental hospital, and the 8 women who gather for a meeting of the Grievances Committee are not just no-nonsense-hysterical and impetuous, that she is someone else. Joan of Arc wears chain mail and enters dragging a large cross; Mrs. Mozart affects a histrionics, and humor which is melodramatic nonsense.

Kopit's characterization, though, is effortless. Any plot contrivances are natural and convincing, as if the characters, instead of the playwright, thought them up.

Also, Kopit calmly has each of the patients represent a woman who was a celebrity in some way, a liberated woman ahead of her time, from Joan of Arc to Mrs. Mozart to Gertrude Stein, Susan B. Anthony, and Amelia Earhart. Earhart is the pivotal character in the play; she is the only one who realizes the futility of her persona ("I'm growing old in here!"); but clings to it even tightly interwoven, comparing the symphonies and classical solo concertos with threads of the Baroque and is responsible for the early developments of the symphony and string quartet. His early style was shaped by the music of such Viennese composers as Mozart, and is responsible for the early developments of the symphony and string quartet. His early style was shaped by the music of such Viennese composers as Mozart, Haydn, and later taught by Rimsy-Korsakov (1844-1908). His works show a rich orchestration and the importance of his Russian heritage.

The 2d piece was the Sinfonia Concertante for Violin, Cello, Bassoon, Bassoon, and Orchestra, in B-flat, Opus 84 by Franz Joseph Haydn (1732-1809). Haydn was 1 of the greatest Classical composers and is responsible for the early developments of the symphony and string quartet. His early style was shaped by the music of such Viennese composers as Mozart, and is responsible for the early developments of the symphony and string quartet. His early style was shaped by the music of such Viennese composers as Mozart, Haydn, and later taught by Rimsy-Korsakov (1844-1908). His works show a rich orchestration and the importance of his Russian heritage.

The 2d piece was the Sinfonia Concertante for Violin, Cello, Bassoon, Bassoon, and Orchestra, in B-flat, Opus 84 by Franz Joseph Haydn (1732-1809). Haydn was 1 of the greatest Classical composers and is responsible for the early developments of the symphony and string quartet. His early style was shaped by the music of such Viennese composers as Mozart, and is responsible for the early developments of the symphony and string quartet. His early style was shaped by the music of such Viennese composers as Mozart, Haydn, and later taught by Rimsy-Korsakov (1844-1908). His works show a rich orchestration and the importance of his Russian heritage.

The 2d movement, Andante, has a subdued atmosphere. Michalak took a somewhat subtle approach and some of the melodies should have been brought out more than they were. The last movement opens with violin solos, played by the soloist John Loh. They were played quite ably, although I felt they were over-dramatized considerably.

The final piece was the Symphony No. 2, in E minor, Opus 27 by Sergei Rachmaninoff (1873-1943). Rachmaninoff came from a musical family and was 1st sent for musical studies to the St. Petersburg Conservatory, and later to the Moscow Conservatory. He began touring as a pianist in 1895 and gradually established himself as 1 of the foremost pianists of his generation. His style is characterized by rich sonorities, chromaticism, and largely melancholy mood.

Although this piece contains little cause for excitement, Michalak drew a full, sensuous sound from the orchestra. Again, the brass were often too loud and biting; coming across almost harsh and unpleasant.

The concert was quite good and ended the 1979-80 season on a very pleasant note. I look forward to many great things from this orchestra in the near future.

NJ Symphony ends season on pleasant note

by Stephen Kantrowitz

The New Jersey Symphony Orchestra, under the direction of Thomas Michalak, concluded their 1979-80 subscription series this past weekend in Montclair, NJ and Dennville, NJ. After the last several concerts I have been expecting big things from this orchestra, but this last concert fell a bit short in overall performance from the previous ones.

The program began with a Fantasy for Orchestra, Fireworks, Opus 4 by Igor Strawinsky (1882-1971). Strawinsky was 1 of the great modern composers. He was encouraged and later taught by Rimsy-Korsakov (1844-1908). His works show a rich orchestration and the importance of his Russian heritage.

For the unaccustomed ear, Strawinsky is sometimes a bit hard to digest, but the Symphony's performance made that a little easier. The performance was quite good, although a somewhat larger audience would have responded to each other better. There were some moments of impure intonation as well.

The 2d movement, Andante, has a subdued atmosphere. Michalak took a somewhat subtle approach and some of the melodies should have been brought out more than they were. The last movement opens with violin solos, played by the soloist John Loh. They were played quite ably, although I felt they were over-dramatized considerably.

The final piece was the Symphony No. 2, in E minor, Opus 27 by Sergei Rachmaninoff (1873-1943). Rachmaninoff came from a musical family and was 1st sent for musical studies to the St. Petersburg Conservatory, and later to the Moscow Conservatory. He began touring as a pianist in 1895 and

Sharon Cullen wonders if this is what really happened to Amelia Earhart (Vicky Nardone).

Lorrie Conlon and Stephen Clark rehearse a scene from Yerma, the final production of MSC's Major Theatre Series. Performances will be May 7 through 10 in Memorial Auditorium.
Fear and loathing at the movies

by Dan Marino

Where the Buffalo Room

Starring Bill Murray, Peter Boyle, Rosemary Harris, and John Candy, produced and directed by Irwin Winkler. A Universal Picture.

If nothing else, Where the Buffalo Room shows that Bill Murray is a brilliant comic actor—the swaggers, swaggerers, and weaves through the movie like a punch-drunk barfly, while mumbling lecherously out of the corner of his mouth. Branching out from the 10 inch knives on airplanes, and pumping bullets into this answering machine. As shown by his work on Saturday Night Live, beneath his boyish face and nervous, erratically wary eyes, there is a madman waiting to be released. In Where the Buffalo Room, the madman is set loose; if the movie weren't such a silly, flagrantly commercial farce, a la Animal House, it might be worth to be released. In Where the Buffalo Room, though, one has to agree with Thompson, the last words he is not to tell a story in a conventional way—i.e., bore the audience—but instead to shatter the conformities of society in general. Show up judges and politicians for the buffoons they are, and raise hell for the sheer fun of it. At various times Murray, as Thompson, turns a hotel room into a football field to celebrate Super Bowl Sunday without bothering to cover the game, turns a fire extinguisher on the members of Nixon's campaign staff, and even has a brief, surreal encounter with Nixon himself in his men's room. "Why don't you tell the people about the doomed?" Thompson asks. "F--- the doomed," Nixon replies.

Peter Boyle, a dead ringer now for David Crosby, with his water buffalo gait, receding hairline, and Jerry Colonna mustache, plays Thompson's sidekick and entourage, Karl Lazlo. After quitting his law practice, he turns up time and again in the movie to drag Thompson off to some new scheme, like running guns to a Latin American country in the throes of revolution. It is here that the movie recasts its soft, white underbelly; after getting shot at by government agents in a helicopter, Thompson, cornered in his car trunk, watches Lazlo's plane take off. "I don't think we're gonna do this anymore, Lazlo," he says meekly. and the dangerously macho, violent hombre, is shown to be just another harmless wimp.

Aside from the usual car crashes, pratfalls, and hip references to drugs and alcohol, Where the Buffalo Room has little to offer other than Murray's and Boyle's great comic performances. Yet, they almost carry the movie; Thompson's comic performances. And yet, in the end, though, one has to agree with Thompson, sitting alone in his cabin, reminiscing about the departed Lazlo—"It just wasn't weird enough for me," he says, and that's the pity. Where the Buffalo Room could have been the Duk Soup of the '80s, but instead it's all sound and fury, signifying nothing.

So what else is new?

by Darrel Lippman

"Step into something totally new. step into a Hole In The Wall..." bluffs the commercial on WPLJ for that rock club.

Don't be fooled by "totally new," though. Maybe it should go something like this: "Step into something totally like other rock clubs..."

The Hole In The Wall, on Rt. 17 in Rochelle Park, NJ really doesn't differ from the average rock entertainment spot. I wondered if having a Subrette hotdog stand in 1 corner of the place made it unique from other clubs like the ad on WPLJ insinuates. Could it be the 4 large bars? Nope. Other places have just as many, if not more. What then, could it be that makes this place "totally new?" Then it came to me. I knew what it was. There was actually a trace of liquor in the mixed drinks! Now that's "totally new!"

Point in fact is that most of the people do not care if the club is nice, ok, good, or not. Many are only there to see their favorite band, not taking into account the attributes of the place all that much.

Formerly "Fonzic's" (which was ravaged by a fire), The Hole In The Wall provides excellent viewing of the stage for the live bands. It is set up in such a way as to create a mini concert atmosphere.

Two of the 4 bars are extremely large with many stools surrounding them, and are just to the left and right of the modestly sized stage. A room in the front of the club lessens the noise for those who wish to chat without straining their vocal cords.

A more obvious entrance would be nice, though. On the North side of the building is the Club Rochelle, a bar lounge. Ninety percent of The Hole In The Wall visitors coming from the parking lot probably (logically because of the rock place's lit sign on that side) try the Club Rochelle's door before they notice a note instructing them to the South side of the building for the Hole's entrance. And even then a small mystery of how to get there. "Let's try these doors," (2 white doors with no marking) my friend said. Right? Door no. 2? We felt like winners on Let's Make A Deal.

We then proceeded in, hoping not to forget how to step out of "The Hole In The Wall..."
Reasons to be fearful

by Dirk Bender

The Haitian revolution of the early 1800's left the Western Hemisphere with its 2d independent nation. More importantly, the former French colony was the site of the 1st successful slave revolt, forming the Americas' 1st black-ruled country, and driving fear into the hearts of slaveholders everywhere.

The final years of French rule have been extensively documented from the imperialist's standpoint. What remains to be heard from is the Black's complete side of the story. What accounts of the revolution that do remain form only a sketch; for example, the Haitian people do not possess their own Declaration of Independence anymore.

A favorite subject of biographers is the slave leader Toussaint L'Ouverture, for he embodies all the charitably-minded white writers care to see in the Haitian revolution—a "noble savage" who meets his tragic end in a French jail. But it was Dessalines who took up the slack in the slave revolt, and successfully crushed Napoleon's troops.

So from the start, the Black Student Cooperative Union's (BSCU) presentation of the "jazz tragedy" Dessalines had a lot going for it. It was written and directed by Percy E. Johnston, an MSC English assistant professor, and presented to the public 3 times on April 18 and 19.

The 1st performance proved to be a rather excruciating evening of theater. The actors' training was frequently off-figures would emerge in plain sight of the speaking character, only to draw a response seconds later. What retrieved from the abyss were the presence of a tight jazz quintet (directed by Medinah Powell) accenting the play with cool '50's jazz, and a couple of standout performances.

In the title role, Bruce Matthews played up the revolutionary's vulnerability.

His intervention in scenes with his generals brought out the play's comic side, and the dialog provided between him and Mrs. Dessalines (Rhonda Hart) revealed a quintessential dilemma: "I can conquer the French, but this woman," (points away, projects toward the audience) "this woman I can't make see reason."

The final performance on April 19 saw some of the action tightened, but a disturbing thought remains. Johnston portrays Dessalines as a lovable soul, and yet records show that he was as much a cutthroat and torturer as any ruler—as Toussaint himself once put it, "I told him to prune the tree, not uproot it." This characterization follows an ancient dramatic tradition, yet it seems unfair to have the general Rochambeaux's killing of innocent civilians told of with Dessalines cracking jokes and winning us over. Propaganda marches on.

SENATE FRATERNITY
Phi-Alpha-Psi

The men of Senate (PHI—ALPHA—PSI) established the Bohn Fellowship in 1970. Last year enough interest accumulated so that we were able to make the first award in the amount of $250. This year we will award the scholarship again, however, we have increased the amount to $300. The scholarship will be presented to a graduating senior from Montclair State College (regardless of race, ethnic origin, or sex).

The applicant must show achievement in any academic discipline and also show promise in the field of graduate study.

The criteria for the award are as follows:
1. Applicant must show scholarly ability
2. Applicant must demonstrate scholarly achievement
3. Applicant must present a bonafide plan of graduate study

Applications are available in the School Deans’ offices. Return the completed application to Kelsey Murdoch’s office, College Development Fund, College Hall, Room 321.

APPLICATION DEADLINE IS THUR., MAY 9, 1980
FOR SALE: Two bichs for Spring Ball. Call Frances at 893-4639.

KOEI-KAN KARATE: Our club announces its weekly raffle. Drawings will be every Tuesday with a winner at every drawing. Tickets are $3.00 which stay in pot for over entries. Winner will be awarded to winners. Tickets available in Student Center Lobby or from club members.

FOR SALE: 1973 VW Super Beetle, special edition sportbug. Radios, a/c, new paint, 4,000 miles on rebuilt engine and transmission I have all receipts to show you required, asking $2,000. Call 233-1664.

FOR SALE: Free rock 'n roll album and tapes catalog. Forget outrageous prices. Fully guaranteed, wholesale prices. For information call 893-6675 or go to Room 1222, Bohn Hall.

THE RUNNERS' WALL: Listing upcoming races, lists of people who want others to run with, meeting dates, times, and other running information in Life Hall. Between Co-op Ed. and the Undeclared Majors Office. MSRR is open to students, faculty, and staff. For more information call Jon Soleczi, 893-4123.

TYPIST: Excellent typist, accurate, speedy. Term papers, business letters, resumes, manuscripts, etc. Reasonable rates, IBM Selectric 2 with different steno, pst, pb, air condition, rear accident insurance. Email, April 16, in the Firebird, 350 auto, am fm 8 track stereo, ps pb, air condition, rear parking lots on April 16. Must identify to claim. Call Linda 546-9127.

FOR SALE: Nova 1974, 37,000 miles, ps pb, and air condition. Has am fm radio, new radials and excellent condition. Best offer. Call 491-4095.

PERSONAL: Needed. Administrative assistant. Process mail at school. Work on a commission basis at your convenience. Reasonable rates, IBM Selectric 2 with different IBM Selectric 2 with different steno, pst, pb, air condition, rear accident insurance. Email, April 16, in the Firebird, 350 auto, am fm 8 track stereo, ps pb, air condition, rear parking lots on April 16. Must identify to claim. Call Linda 546-9127.

PERSONAL: To Michelob Stongos, and Sport—You win the Grand Sponsorship Award for a great time in Florida. Signed Red Hot. PS—Share me.

JOB: Free room and board in exchange for child care in college professor's home. Less than 1 mile from campus. Accommodations include entire 3d floor at a large home in a family oriented atmosphere. If interested please call Dr. Mark J. Friedman at 746-6841 after 3 pm to set up an interview. Psychology Department.

LOSE 20 POUNDS IN TWO WEEKS!
Famous U.S. Women Ski Team Diet
During the non-snow off season the U.S. Women's Alpine Ski Team members go on the "Ski Team" diet to lose 20 pounds in two weeks. That's right - 20 pounds in 14 days! The basis of the diet is chemical food action and was devised by a famous Colorado physician especially for the U.S. Ski Team. Normal energy is maintained (very important) while reducing. You keep "full" - no starvation - because the diet is designed that way. It's a diet that is easy to follow whether you work, travel or stay at home.

This is, honestly, a fantastically successful diet. If it weren't the U.S. Women's Ski Team wouldn't be permitted to use it! Right? So, give yourself the same break the U.S. Ski Team gets. Lose weight the scientific, proven way. Even if you've tried all the other diets, you owe it to yourself to try the U.S. Women's Ski Team Diet. That is, if you really do want to lose 20 pounds in two weeks. Order today.

Laura Pedalino for SGA SECRETARY

Boy, when he first took up tennis I thought we were gonna get the chance to get into some mixed doubles with some of those sorority chicks.

Yeah, but waiting for court time is as exciting as watching chicken parts thaw.

Let's hope he's as dry as we are...

Oh no, not more tennis balls!!

It's Budweiser! What a great serve!

Why do you think they call 'em Tastebuds anyway!
Guarino guns down Wagner

continued from p. 40

Indian starter Glenn "Preacher" Roe, relinquished a double to open the game. An interference call on an attempted bunt gave Roe his 1st out. A line out to short followed.

Roe's cleanup man stepped in with a chance for an RBI. Roe, however, went right after him. A fastball and a forkball put 2 down Wagner's clean-up man with a chance for an RBI.

Finally, last year's hero, Alan Geissel, put MSC in the lead for the 1st time in the game. The 2d half ended with MSC down 6-5. The Stickmen had to win this game in order to be ranked in division 3. FDU/Madison came into the game ranked 15th out of the 15 positions available. The Stickmen have yet to break into the top 15, and they will probably have to win all of their remaining games in order to be ranked.

The game turned into a see saw battle as the Indians came back with 4 goals in the 3d period. FDU/Madison scored twice. The Stickmen had to win the game in order to be ranked in division 3. FDU/Madison came into the game ranked 15th out of the 15 positions available. The Stickmen have yet to break into the top 15, and they will probably have to win all of their remaining games in order to be ranked.

The Indians tied the game in the 2d when the Seahawks put together a pair of throwing errors and handed the Tribe a run. Guarino reached 2d on an overthrow by the 3d baseman, and scored on another erratic throw by the 2d baseman. This 1 came after a single by Tony Gaeta.

Wagner's 3d baseman made 3 errors on the day. It appeared that he didn't know he could use his glove to field the ball. One he stopped with his face, another with his chest, and still another with his arm.

SMOKE SIGNALS: Roe threw 126 pitches before leaving in the 8th with a tired arm. With better home plate umpiring, "Preacher" could have finished the game and not have been forced to throw as many pitches. Sabato has been suffering through extreme hot and cold periods. One day he'll go 5 for 5, and the next he'll go 0-4 with 3 whiffs.
Jennings scoring easy goals.

scored to knot the game at 8.

body, they tried to use their sticks, resulting in players like Jennings scoring easy goals.

FDU/Madison regained the lead 8-7, but a little later Nucera scored to knot the game at 8.

Action picked up as both teams raced up and down the field; and both goalies, Gonzalez and Buonocore, made some fine saves.

Buonocore ran the ball out of the goal area, and threw a touchdown pass (about 50 yards) to John Gillespie. The defenseman, coming back after recovering from the flu, put the ball right behind Gonzalez, as the goalie had little chance in saving this short.

This goal came with 8:26 left in the period, with MSC taking a 9-8 lead.

Action was rough, as attackman Steffen was called for slashing after hitting Buonocore in the face with his stick. Buonocore went down in pain, but luckily wasn’t seriously hurt. Buonocore has a 9-8 lead.

FDU/Madison tied it up with only 3:48 left in the game on a Chris Arnold goal. The game ended in a 10-10 tie and headed into overtime.

During that 1st overtime period Geissel fired a shot from 15 yards out and had Gonzalez beat, but the ball smashed into the post and bounced out.

That was as close as anyone came to scoring, as the teams headed into a 2d overtime.

In this overtime, MSC came close to losing when Buonocore lost the ball in the crease. The surrounding FDU/Madison players almost got it and put it in before it was kicked out in front. There, it was almost picked up by another FDU/Madison player, until it was finally cleared by MSC. The 2d overtime ended in the same 10-10 tie and the teams headed into another 4 minute sudden death period.

At 1:11 of the 3d overtime, Steffen scored his goal and the Knights had their revenge. MSC’s record dropped to 6-3.

**Stick Notes:**

- It isn’t amazing how the $4,000 non scholarship MSC team can compete with the $10,000 full scholarship FDU/Madison team. Also, look at some of the competition that MSC draws, powerhouse Kutztown State College (KSC), Rutgers University/New Brunswick (Rutgers/New Brunswick), and FDU/Madison who was ranked 15th in division 3.

**IM Highlights**

by Mike Ritz

The 1st rounds of the men’s and co-ed softball tournaments got underway last week. In the men’s league, the Borchadiles beat the Booze Bags, 11-4, the Proud Ones crushed Toys, 14-6, while the Gameroom Gang defeated Delta Kappa Psi.

In co-ed, U-pots outsotted the 12th floor, 10-9. Also, Bim Bam Van Flyers shutout Foul Play, 11-0, and the Recceers trounced the 10 Skins, 13-4.

The bowling league came to a close with Gasoline Alley ending up in 1st place, followed by the Geeks and Wwii Power 2 in 2d and 3d respectively.

The co-ed volleyball finals were held this week in both the power and jungle leagues. In the power league, Colorado Spike defeated Give Us A Break 15-3, 15-11. In the Jungle League, the Flying Lizards defeated The Hustlers 15-11, 15-12.

**Coming Events:**

The mixed 2 on 2 basketball tournament will be held on Mon., April 28 and Tue., April 29 at 8 pm in Panzer Gym.

The team frisbee tournament will be held on Tue., May 6 on Sprague Field. Applications are due on Thurs., May 1.

**Whether she’s catching or scoring, Mary Jane Deutsch is always around the plate.**

**Squaws sweep by Meryl Yourish**

The women’s softball team swept a doubleheader from Southern Connecticut State College (SCSC) last Saturday with a pair of 1 run victories, 7-6 and 1-0. Both games had the tension mounting to the last inning.

Third baseman Bonnie O’Connor hit a 7th inning home run to win the opener and pitcher Val Julian (4-2) stilled a last inning rally by SCSC to win the night cap (with a little help from centerfielder Terry Kulik, who made a perfect throw to home plate for the final out of the game.)

In the opener, pitcher Ronnie Gedewicz (6-0) had a shaky start, SCSC picked up 3 runs on 3 hits and 2 MSC errors. The Squaws got them back in the 3d (after picking up a run on a double steal by left fielder Patt Van Cauwenberge and designated hitter Toni Ziccardi in the 2d). Shortstop Robin Krause hit a grounder to short and took 2d on the overthrow. Second baseman, Judy Popadaniec singled to left. O’Connor grounded to 2d, but the 2d baseman bobbled it and threw wildly to 1st. Krause came home on the throw, O’Connor took 2d on the throw home and scored when SCSC’s catcher threw the ball out to centerfield. MSC led, 4-3.

SCSC tied the score in the 4th, but the Squaws came back with 2 in the bottom half of the inning. Rightfielder Kim Volanowski singled over the shortstop, Van Cauwenberge hit a single just over the 3d baseman, Krause made a great play in the outfield, taking 3d and 4th with 1 out and a runner on 2d, and Krause picked up a grounder, checked the runner, and threw the other runner out at 1st.

SCSC’s runner at 2d tried to take 3d on the throw, but O’Connor alertly threw the ball to O’Connor, ending the inning and the threat.

Then, of course, there was the elmlcher. With 2 outs and women on 1st and 2d, SCSC’s batter hit a potentially game tying single to centerfield. Kulik threw a perfect strike to O’Connor to catch the batter at the plate and save the win for Julian.

"The girls played great defense," Coach Marilyn Taiga said, "but we’ll have to work on the hitting. These close games are giving us ulcers."

**Seventh inning stretch:**

MSC defeated West Chester State College 5-0 last week.... The Squaws beat William Paterson College in another ulcer-causer, 5-4 in 10 innings.... Gedewicz won her 6th in relief of Julian.... The next home games are today vs. Kean College at 3:30 pm and 1st, April 29 against Rutgers, also at 3:30 pm. Both games are at Brookdale Park.
Guarino guns down Wagner

Centerfielder John Guarino doubled home the winning run, scored 2 others, and gunned out the potential tying run at the plate, as MSC nipped Wagner College (Wagner), 4-3, last Tuesday at Pittser Field.

With 1 man out in the top of the 9th and the Indians ahead 4-2, reliever Roger Lope loaded the bases. A single and a pair of walks preceded a 3d base on balls and Lope’s exit. Wagner was now within 1 run of tying the game with the go ahead run standing at 2d base.

Coach Fred Hill signaled for relief ace Greg Petite. Petite needed only to face 1 batter. A high fly ball to shallow center set up the final play of the game.

As Guarino set himself for the catch and subsequent throw, the Seahawks’ runner tagged at 3d. The ball was caught; the runner broke; the throw was fired.

Catcher Vin Tiberi took the laser beam throw on 1 bounce, split seconds ahead of the charging Seahawks. As Tiberi (who teammates call “Tree”) lowered his 200 pound frame over the plate, the runner slid hard. Flesh and doubleknit collided with spikes and shin guards. A cloud of dust billowed and when it cleared, Tiberi triumphantly held the ball above his head. The umpire raised his blue arm, thumb up.

Wagner tied the game at 2 with a walk, double, and sacrifice fly in the top of the 8th. The Tribe, however, was beginning to feel the cold and didn’t want extra innings.

Bill Schoenig, 1 of the state’s best leadoff men, singled to open the Indians’ 8th. A perfectly executed sacrifice bunt by 3d baseman Bob Fortunato, advanced Schoenig to 2d. Dave McLaughlin then doubled off the left field fence to put MSC up by 1.

After designated hitter Tony Sabato skyed out, Guarino blasted a towering shot to right. The wind, which made it seem more like Chicago’s Wrigley Field than Pittser Field, played tricks with the ball.

The Wagner rightfielder circled more than the wind and let the ball bounce next to him and over the fence for a double. The decisive run crossed the plate.

The umpiring was abominable all afternoon. In the 3d inning, Hill and the home plate umpire, who changed the strike zone on every other pitch, went at it. In the 5th, it was the Seahawks’ coach’s turn. But it was the 1st inning’s amateurish calls that conceded a run.

continued on p. 38
