Professor suspended without pay

MacConnell's case is turned over to the state

By Warren Thomas

MSC's Board of Trustees suspended professor Scott MacConnell without pay at an Oct. 4 meeting called by President Donald Walters.

Walters also announced that the charges were filed against MacConnell: insubordination, neglect of duty, breach of fiduciary duty, unsatisfactory performance and conduct unbecoming an employee in the public service. The outcome of these charges will be determined by the state's Office of Administrative Law in a formal hearing. No date for the hearing has been set yet.

In September, MacConnell, a professor in the speech and theatre department and SummerFun producer, was suspended with pay for taking $75,000 worth of SummerFun ticket receipts and property.

In regard to the Board's decision MacConnell was not surprised. I think when you teach, you're supposed to teach something else besides your own discipline. Walters thinks that what I've done is wrong. I don't know, he thinks I've done something morally wrong and that means I'm a bad teacher. I see Scott MacConnell as a superlative leader and his removal from the classroom has not benefitted MSC, Agras Azzolino, a '71 alumnus, said. "I think the Board has displeased students of the past and present as well as potential students."

"Scott MacConnell has done more for this campus than any other single publicity method this college has ever had," Dorothy Lydon, a '76 alumnus, said. "He was one of the finest teachers I ever had."

Students Dave Campinile and Bob Thorpe spoke on behalf of the technical design students whom MacConnell once taught.

"His students feel neglected and cheated," Campinile said. "We'd like to see him back in the classroom since we know he's an excellent teacher."

"MacConnell has never let us down," Thorpe said. "He's been our advisor and now we don't have one. We want him back in the classroom because he's good."

Former president Partridge dies at 78

Dr. E. DeAlton Partridge, president of MSC from 1951 to 1964, died in Salt Lake City, Utah, Monday after a long illness. He was 78 years old.

Dr. Partridge, born in Provo, Utah, in 1906 was a graduate of Brigham Young University in 1930. He attended New York University and received his PhD from Teachers College as a fine institution.

Dr. Partridge's second battle was of wider importance: bond issues for buildings. In the late 1940's, one such bond issue failed to provide needed facilities, and although most educational, political and business leaders thought a successful bond issue impossible, Dr. Partridge thought otherwise.

With the help of a member of the New Jersey Assembly, an alumna of the Montclair Normal School (Miss Grace Freeman), faculty, alumni and community leaders, Partridge organized a campaign that finally convinced the Legislature and then the voters of New Jersey that higher education was important and facilities were needed.

Partridge's theme was the overcrowded conditions of schools throughout the state and nation, the growing need for teachers who knew more and who were better prepared and most important, the growing need for college-trained young people in a more complex world. He asked, "With all of the need for college-trained people and with the great resources in New Jersey, why, year after year, is it necessary to face the financial crisis in support of the public institutions and why are the public institutions lagging so far behind the demonstrated need? This is the New Jersey paradox. The time has come for the people of New Jersey to face up to these responsibilities, and an increasing number of responsible citizens in the state realize this."

The people of New Jersey believed, and all higher education in the state benefited. The first state college buildings since 1928 were built.

Partridge also organized a campaign that built Life Hall on campus as part of the building program. More than $250,000 was raised for this facility, the Student Life Building. The name also commemorated a major article that was published in Life magazine in 1951 that was instrumental in obtaining public support, an article that described Montclair State Teachers' College as a fine institution with poor physical facilities.

GRADUATE & PROFESSIONAL SCHOOL FAIR

Wednesday,
October 16, 1985
10:30 a.m. to 3:00 p.m.

STUDENT CENTER BALLROOMS A, B & C

- Join in workshop discussions:
  "Opening the Doors: The Admission Process." 11 a.m. - 12 noon
  "Where's the Buck$: Financing Graduate School." 1 p.m. - 2 p.m.

- Talk to representatives and pick up applications and catalogues.

GRADUATE AND PROFESSIONAL SCHOOLS THAT HAVE PARTICIPATED INCLUDE:

Adelphi University
Bloomburg University--School of the Arts
Boston University--School of Library Services
Columbia Univ.--Teachers College
Central Connecticut State University--City College of the City Univ. of N.Y.
CCNY of CUNY--School of Education
Coll. of New Rochelle--Coll. of Saint Rose
Cornell Univ.--Johnson Graduate School of Management
Drew University
Fairleigh Dickinson Univ.--Rutgers College of New Jersey
Fordham Univ.--Grad. School of Education & Human Development
Fordham Grad. School of Business
Georgetown University--School of Business
George Washington U.--School of Education & Human Development
Hartwick College--School of Business
Iona College--Hagan School of Business
John Jay College of Criminal Justice
Kean College
Lancaster Theological Seminary
Long Island University--C.W. Post & South Orange Campuses
Monmouth College
Montclair State College

Campus police are seeking student assistants

By Tom Boud
The MSC campus police are seeking student assistance through their Police Aides Program. In this program students will be hired as paid parking lot attendants and night escorts to keep watch on the campus.

"The aim of this program is to provide better service to the campus community by supplementing our force and thereby deterring the possibility of crime," Lt. Michael Postaski said. Postaski also said that such a program is important in light of MSC's high crime rate. "Last month alone, we had 58 Class One Uniform Crime Reported offenses (rape, robbery, auto theft, burglary, and aggravated assault) as well as $72,351 worth of property reported stolen," Postaski said. He said that these figures are the result of only reported crimes.

"The parking attendants are not there just to hassle people with parking tickets," Postaski said. "They're there to provide the people with a sense of security and safety." He also said, "People should respect and co-operate with these attendants by parking legally and reporting anything suspicious to the attendant or to campus police by using one of our call boxes."

Postaski justified the issuance of parking tickets by saying, "If anyone should complain, it should be the people who park legally because they are being treated unfairly by those who park illegally. There is enough parking space for everyone and if that is not the case, then we need to build 28 nearly empty most of the time?"

"Our escort program involves male students providing escorts for anyone who feels unsafe travelling the campus grounds between 10 p.m. and 2 a.m."

Postaski said. "Although terminated in 1983 for lack of use by students, it is now back in operation as of September 16. We are particularly concerned for the student body's safety."

Postaski emphasized that more student cooperation is necessary for the program to be a success. "Since September 16, we haven't received even one single call for an escort," he said.

Hazing allegations dropped, but KLP charter isn't renewed

By Terry Rehm
The Greek Council and Dr. Edward Postaski, SGA president and Mark Brancato, SGA vice-president, are calling for the removal of a Greek Council charter. At this time, Martin said, "We will reinstate the fraternities and sororities of what is hazing and what is not. It's something that must be reviewed by a responsible Greek Council."

Although the hazing allegations were dropped, the SGA did not renew KLP's Class IV charter. At the Sept. 19 SGA meeting, Boston suggested to the Greek Council that the sorority be granted a charter on a probationary basis.

At this time, Oren Zeve, SGA attorney general and assistant to the SGA president, said the probation would be due to "internal problems, not the hazing allegations." Despite support from Boston and the Greek Council, the legislature voted against the sorority's charter.

KLP members refused to comment on whether or not they will appeal the legislators' decision. Debbie Gross, KLP president, said, "I did absolutely nothing wrong. I'm a victim of red tape. Nothing has been done to me and I'm not going to just throw up my arms."

The Welfare and Internal Affairs Committee has now placed surveys on the housing conditions in the dorms and Clove Rd. Apts. The committee is working to alleviate such problems. "If we can find specific problems, we can hopefully alleviate them," committee member Rich Hoffman said. If the students have any complaints, they can call Mr. Joseph McGinty, director of maintenance at 893-5217.

The Academic Affairs Committee is currently investigating complaints from students who feel unsatisfied with faculty advisors.

The Pre-Law Society was appropriating the lessor of either 4907 or 35% of the student law day to be held on Oct. 23. The MSC in law work shops on how to get into law school, what activities to join, and other points of interest. Students from 32 colleges from around the country are expected to attend.

Partridge
Cont'd from p. 1

During the Partridge years, curriculums expanded to provide undergraduate and graduate major programs in music, physical education, business administration, industrial arts, fine arts and home economics. During the mid-1950's, facilities for industrial education, home economics and fine arts were added to the campus. The business education offerings were also strengthened. In 1958, the Panzer School of Physical Education and Hygiene from East Orange was merged with Montclair State Teachers' College and Dr. Partridge was officially changed to Montclair State College.

Dr. Partridge's efforts were not always received with enthusiasm. The state Department of Education roadblocks were thrown in the way of many efforts to acquire private foundations, and a number of Partridge's imaginative solutions were discouraged and blocked with a heavy bureaucratic hand. For example, Dr. Partridge and the College received gifts of television broadcast equipment and were able to produce some of the first educational television in the United States. The broadcast on April 30, 1952 to classrooms in Montclair and Bloomfield, 1,403 students received instruction for full day via television. The experiments lasted for only one day. The state Department of Education then banned further experimentation with television laws of state approval.

Another example of Partridge's difficulties with the state occurred when the College, the Student Government Association agreed to tax itself to build a student union. When officials in Trenton vetoed the idea, and subsequently allowed a similar program to build a swimming pool at another state college, Dr. Partridge took a leave of absence to become president of Near East Foundation.

In 1971, Dr. Partridge wrote in retrospect, "Montclair achieved distinction as a single purpose institution dedicated to the preparation of secondary school teachers. Fortunately when the college was assigned this mission, that mission was one with foresight and courage, and the willingness to launch some innovations. Since there was no precedent for such an institution, the administration was given a certain amount of freedom to organize a program designed to achieve the objectives assigned to the college. The result was a highly effective and imaginative conception of teacher education. The experience gained will be of outstanding interest to others."

Dr. Partridge received an honorary doctorate from MSC in 1976, and Partridge Hall, which houses the humanities, was dedicated to him in 1970 with the following plaque placed on the building: "Dedicated to E. De Alton Partridge, PhD, who faithfully served Montclair State College during three decades as teacher, dean and president. He carried not only Montclair State College, but also public education in New Jersey, to a higher level."

He is survived by his wife of 54 years, Will Clark Partridge, and three sons: Lyman Clark, Ernest De Alton, Jr., and Robert Truman, and three grandchildren: Elizabeth, Marjorie and Robert. He also is survived by a brother, Dr. Lyman M. Partridge of Los Alamitos, Ca., and a sister, Mrs. Don Lewis of Seal Beach, Ca., and area residents.

Services will take place at noon on Friday, Oct. 11, at the Yale Crest Club, Ward in Salt Lake City. Family requests that in lieu of flowers, donations be made to the Montclair State College Scholarship Fund, Montclair State College, Upper Montclair, NJ 07043.

The college is planning an on-campus memorial service in early November for members of the college community and area residents.

Where has the parking fee increase money gone?

By Thomas M. Federico

The $10 increase in the parking fee has prompted student interest as to what the extra funds will be used for. “I think that they should use the money to improve the parking situation, particularly in the Clove Road lot,” senior Dan Duka said. “You often have to wait a long time for one of the buses. A solution to this might be to have a special campus bus which could be used for this purpose only.”

Senior Maria Gray said the fee increase is “justifiable if they use it to improve the parking situation.” According to William Griffith, vice-president of administration and finance, several factors influenced the decision to raise the parking fee. “The principle reason was that the $10 fee was in existence since the early 1960’s,” Griffith said. “Because the fee hadn’t been changed since then, parking funds have deflated each year due to inflation.”

Griffith said the increase was needed “for revenue to operate parking at a sufficient level. MSCs are trying to reverse the trend where state support was increased to help pay for the operating costs of parking.”

The College Parking Committee studied the parking situation in the past several months and recommended a fee increase. The committee consists of chairperson Sheila Gersh of the business education and office systems administration, and six other people, including two students recommended by the SGA. Although there is this student representation on the committee, no other student input was sought during the final decision to raise the parking fee. As reported in the Sept. 5 issue of The Montclarion, SGA president Dave Handal and other members of the SGA attended the June 15 meeting when the fee increases were approved, and tried to offer a counter proposal but were refused the floor.

At that time Griffith said, “It is true that not until very late in the process did we have a great deal of student input. In the future, we would be certain that there is more adequate time for student input.”

According to a report by the office of administration and finance, the total budget for parking for the 1986 year is $338,000. $240,000 of those funds is revenue from the parking fee increase and $98,000 is state subsidized. Griffith said that $210,000 of this budget will go towards salaries and fringe benefits for the parking staff. He said this staff includes four full-time and two part-time bus drivers, two police officers, 14 parking attendants and one groundsman. A smaller portion will go to the clerical workers who prepare the parking decals.

Griffith said that some of this money will also pay for additional staffing—one police officer at $16,000 a year and seven part-time parking attendants.

A balance of $128,000 Griffith said, “would cover materials for parking decals, maintenance of parking lots and gates, snow removal and certain other categories such as operating and repair of the buses.”

Griffith said there is no specific plan to buy any more shuttle buses. According to Jim Brighton, assistant engineer of the maintenance department, there are a total of three buses in service and one in reserve.

Griffith said that if there were a need for more buses, a recommendation would be made. However, Griffith said, “increasing the number of buses and frequency of stops would cost more to run, and subsequently the parking fee would have to be raised even higher than $20.”

Montclarion Note

In the Sept. 19 issue of the SGA News it was incorrectly reported that Thomas Stepnowski, dean of student activities received an award of Managerial Merit of $476,000. The article should have read as follows: MSC received a check of $476,000 this past summer. Following the setting aside of funds for equipment and the refurbishing of the special collections room in the Sorge Library in honor of Margot Studer, a balance of $301,000 was made available for investment.

Stepnowski did receive a non-cash award of Managerial Merit.

Many MSC students are wondering if the parking fee increase money will be used for additional shuttle buses for the Clove Rd. lot (above), which is now overcrowded due to the basketball courts in the Quarry.

Automobiles are still the main target of theft

By Vivette Watson

Thefts continue to plague the campus as one car, six car radios and 11 wallets were stolen last week.

Thieves stole an '84 Chevy Camaro, worth $17,000, from lot 22 between 10:30 a.m. on Mon., Sept. 23 and 6:50 p.m. on Thurs., Sept. 26. The car has not been recovered.

Someone entered an '80 Oldsmobile in lot 21 between 8 p.m. on Sat., Sept. 21 and 11 p.m. on Sept. 26 and stole a radio and cassette player valued at $475.

In a similar incident on Sun., Sept. 29 someone entered a '76 Camaro in lot 4 between 1:30 a.m. and 10:30 a.m. and stole a stereo radio valued at $300.

On Fri., Sept. 27 between 9 p.m. and 11:30 p.m., the owner of a '74 Maverick returned to his car in lot 21 and found the door damaged and the $200 car radio missing.

On that same day at 8 a.m., the owner of a '75 Oldsmobile in lot 21 reported that his car door was also damaged and his $200 car radio stolen. Also in lot 21 at 4 p.m. on Sept. 27, someone damaged the door of a '74 Maverick and stole a $160 radio.

In lot 2 on Sat., Sept. 28 at 12:15 a.m., the owner of a '74 Volkswagen Dasher reported that his car's radio, valued at $100, was stolen.

On Tues., Sept. 24 at 3:30 p.m. the right rear window of an '83 BMW was broken and the $100 car radio was taken.

A case of criminal mischief was reported on Sept. 23. The door handle of an '80 Pontiac TransAm was damaged in an attempt to steal the car. The tires fell off while the owner was driving it home. He later discovered the lug nuts were missing.

Thieves removed a painting worth $750, from the Exhibition Room in Gallery One between Thurs., Sept. 26 and Sat., Sept. 28.

A Bohn Hall resident returned to his room after a fire alarm on Sept. 27 and discovered his jewelry, valued at $500, missing.

On Sept. 24 between 7 and 8 p.m., someone entered a room in Stone Hall through a window and removed $30 from a wallet.

On Sept. 25 at 3:10 p.m., a female student left her pocketbook unattended on a chair in Life Hall only to return and find it missing. Total value was $29.

On Sept. 26 at 9:16 a.m. a wallet was reported stolen from Richardson Hall. At 2:05 p.m. a pocketbook was reported stolen from the Speech Building. Total value of items is $25.

On Sept. 28 at 11:37 p.m. at the Clove Road Apts., an unknown person started a fight with a male student. He bit the student on the chest, back, nose and finger. The student was taken to Mountainside Hospital where he received 24 stitches. A description was given to campus police and an investigation is underway.

On Sept. 29 at 6:43 p.m., a female student reported that she was followed as she drove from the Garden State Parkway to the Clove Road Apts. She gave the license plate number to the campus police and an investigation is underway.

On Sept. 28 in lot 6, a female student reported that a male verbally abused her and then threw acorns at her.

On Sept. 25 at 9:01 p.m. and 11:36 p.m., two females in the Clove Road Apts. reported suspicious males looking in their windows.

On Sept. 29 at 4 a.m., a campus police officer discovered that the vending machine in Partridge Hall had been vandalized.

Notice to all Students

During Homecoming '85 the following parking lots will close:

- Lot 28 (across from Clove Road Apts.) will be closed Friday morning, Oct. 11 from 7 a.m. to 11 p.m.
- Lot 23 (fieldhouse) will be closed on Sat., Oct. 12 from 7 a.m. to 8 p.m.
- Lot 13 will be sectioned off on Sat., Oct. 12 from noon to 11 p.m. Also Carlisle Rd. will be closed from 2 p.m. to 4 p.m.

Winter Session 1986

There will be an advanced registration for winter session 1986. Students are encouraged to advance register due to the limited number of courses offered.

Course brochures and request forms will be available to students Oct. 9 to Oct. 18. All completed course request should be submitted to the office of the registrar between Oct. 11 and Oct. 18

IT STARTED IN MAY IN A SMALL TOWN AND EVERY MONTH AFTER THAT WHENEVER THE MOON WAS FULL... IT CAME BACK.
On Sept. 26, Prof. Al Zabady of the chemistry department received the Cooperative Education Outstanding Service Award for a faculty member at MSC.

**CO-OP CORNER**

Zabady at the Annual Awards Presentation hosted by Columbia Pictures in New York City. Zabady was recognized for his outstanding work as a faculty advisor for cooperative education.

Beginning in 1976, Zabady was responsible for developing the first two co-op placements for chemistry majors. In the 1984-85 school year, 26 chemistry students were placed in co-op positions.

In a recent interview, Zabady shared his viewpoint regarding the experience both students and faculty receive through the co-op program. He said that those students involved in co-op have the opportunity to learn from professionals who are in a given field. In addition, the co-op students are exposed to the academic world that may not be available to them at MSC.

For example, a number of chemistry co-op students are working on a daily basis with a device which combines the study of gas chromatography and computers. Zabady said that this type of "hands-on" experience provides students with an accurate taste of the industry in which they are planning a career. This experience assists students in determining which areas of the field they like or dislike. It also allows the students to clarify their goals so that they have a clearer direction on the type of positions to apply for when entering the job market.

Zabady also indicated that co-op students are often recommended to other companies if the co-op employer has not post-graduate positions available at that time.

Many students have accumulated outstanding experiences and practical knowledge through a co-op experience. According to Zabady, "Co-op enables students to see and understand that their past work at MSC was useful. It helps them realize that their ideas are important to professionals." For example, Dave Kaderis, (chemistry major, class of '84) influenced the remodeling of an entire lab based on his suggestions as a co-op student at Hoffman-LaRoche.

This type of experience has often generated a level of self-confidence and professional maturity in students which is necessary to function productively in the industry. For this reason, a number of former co-op students have returned to MSC as representatives of employers seeking new co-op students to fulfill their company's needs.

Zabady said that co-op is beneficial to both faculty and students. As a co-op faculty advisor, Zabady is able to keep abreast of the developments occurring in industry. This knowledge enables him to direct students in their career choices, to develop a curriculum which will help students deal with these modern ideas and challenges.

Questions to ask before going to graduate school

There are a number of basic questions that need to be answered before a student enrolls in any graduate program.

First, how long will it take to complete a graduate program? The quality and reputation of the faculty, department resources, and whether or not the program has accreditation are all crucial in your evaluation of the department.

What is the career outlook in your field? Ultimately, you want your degree to lead to a career. You need to know what percentage of the graduates of the program got jobs related to their degrees, how long it took them to find employment, and where.

To assist you in answering these questions, Career Services and the Administrative Management Society is hosting the fourth Graduate and Professional School Fair. The fair will be held on Wed., Oct. 16 from 10:30 a.m. to 3 p.m. in the Student Center Ballrooms. Admissions representatives from 60 graduate and professional schools offering M.A., M.S., M.B.A., M.S.W., and Ph.D. degrees will be available to answer your questions. Applications and catalogues will also be available.

Janine S. Myatt is a career counselor in Career Services.

GRAND MARSHALL:
SAM MILLS OF THE USFL'S BALTIMORE STARS
Don't invite crime

since Sept. 16 of this year. MSC's campus police have been operating an escort service for the benefit of the campus community. These night escorts are available to accompany students, and others to any area of the campus between the hours of 10 p.m. and 2 a.m. Concern is often voiced about the safety of walking at night to such places as the Quarry parking lot and other outlying areas of the campus. In light of this, one would think that an escort service would be a welcome and useful addition to the MSC community.

However, since the program was instituted, campus police have not received one request for the use of this service. Perhaps we are all big enough to take care of ourselves.

Then again, MSC students may not be aware of the high crime rate on campus. Fifty-eight crimes such as rape, robbery, auto theft, aggravated assault and burglary were reported to campus police during September.

The idea that crime always happens to the other person can lead to a dangerously false sense of security. The victims involved in these 58 cases may have had this sense of security.

In 1983, a similar escort service at MSC was disbanded because of a lack of use. Don't let this happen again.

We urge you to do your part to favor and use it; especially if you must walk the campus alone at night. Don't invite crime. Invite an escort.

Partridge: more than just a building

MSC has lost a friend. Dr. E. De Alton Partridge, MSC president from 1951 to 1964, died this past Monday at the age of 78.

Many of us on campus know little about the man except that he has a building dedicated in his honor. But if it wasn't for him, MSC might not exist.

Partridge fought the Chamber of Commerce to keep the Montclair State Teachers' College from being closed down. He battled for extension of the campus and to get money for more buildings on campus. He was an advocate for higher education in New Jersey.

He brought the college to the pages of Life magazine in 1951. In 1958 he merged his teachers' college with the Panzer School of Physical Education and Hygiene of East Orange to form Montclair State College.

The Montclarion is a Class One Organization of the SGA.

HRO Column

Human interaction is HRO's specialty

By Christopher Stickler

HRO is a Class One organization of the SGA and our main purpose is to help and serve you, the student body. As our name implies, our specialty is human relations. A general consensus among the HRO staff and others who utilize our programming is that human interaction is a basic but often overlooked area of our lives. We strive to improve self-understanding and interpersonal skills as a basis for improving everyday life.

HRO accomplishes this through a rich variety of experiential and fun workshops which are advertised on campus at least one week before they take place. All of our workshops actively involve you the participant. We think people learn best through active involvement.

Just as you can read about how to ride a bike, it's meaningless until you actually get on the bike. Once on the bike you are aware of what you must do to keep the bike going: balancing, pedaling and steering.

All this must be accomplished while keeping your eyes on the path ahead of you - an impossible task to learn from a book. For the same reason, our workshops are an active experience in learning, offering hands-on experience, full of fun, laughter and smiles.

On November 26, we are offering a workshop in sensory awareness called Likwid Theater. The premise behind Likwid Theater is that people tend to rely heavily on their sense of sight, and during this workshop your other senses are given a smorgasbord of sensations drawing them into an awareness. It's a chance for your ears to really tune in, to get in touch with sensations in your body, and experience your other, all to often neglected senses.

Our main event is a weekend retreat on Oct. 25-27. This retreat in the Poconos is a priceless opportunity to learn new things about yourself while meeting exciting people. All these wonderful things happen while increasing your personal growth, self-awareness and communication skills.

We also offer a post weekend get-together on Nov. 5.

HRO offers many other unique workshops covering such topics as: relationships, hypnosis, psychodrama, creative conflict and much, much more. Keep your eyes peeled on campus for information concerning all we have to offer and see how fun it can be to learn.
Congressman Mrazek urges...

College students should oppose Star Wars

Few of us in Washington took great notice in March 1983 when the president announced his dream of making nuclear weapons "impotent and obsolete." After all, the U.S. government had once considered and dismissed the possibility of defense against nuclear weapons, and in fact turned toward forging with the Soviet Union the 1972 ABM Treaty. The treaty stands today as one of the few steps away from our species' slow descent into what Dr. Martin Luther King Jr. called a "militaristic stairway into the hell of nuclear destruction."

But the Reagan magic held on to Strategic Defense Initiative—better known as Star Wars. And we now find ourselves dangerously close to a point of no return on another questionable weapons system. However, Star Wars is more than just another missile or tank or aircraft carrier. It represents nothing less than a fundamental reversal in geopolitical strategy, an evolutionary journey into the next and perhaps last arena of human conflict.

If the arms race is to ascend toward the stars, it would be only proper in a journey into the next—and perhaps—last arena of human conflict. The first blows came almost simultaneously. First, David Parnas of the University of Victoria, British Columbia offered his resignation from the government panel overseeing the computer aspects of Star Wars.

Parnas, who took pains to point out that he had no objections to defense efforts or defense research, and who had previously acted as a consultant to the Pentagon, had a simple explanation: Star Wars won't work. "I am willing to stake my professional reputation on my conclusions," he asserted.

Next, the director of the National Center for Supercomputing Applications at the University of Illinois, Larry Smarr, spoke for a group of 47 physicists at the school who stated they would not apply for or accept Star Wars grants. His reasons were equally simple: "...It will not do what it was meant to do, and it will not anticipate everything the enemy might throw at it."

Those of us who came of age in the 1960's may have different ideas about the standing and insistence of the peoples of the world. Of nuclear weapons, he said, "...there is no defense, there is no possibility of control except through the aroused understanding and insistance of the peoples of the world."

He also said, "The unleashed power of the atom has changed everything except our way of thinking."

And we now find ourselves dangerously close to a point of no return on another questionable weapons system. However, Star Wars is more than just another missile or tank or aircraft carrier. It represents nothing less than a fundamental reversal in geopolitical strategy, an evolutionary journey into the next and perhaps last arena of human conflict.

His reasons were equally simple: "...It will not do what it was meant to do, and it will not anticipate everything the enemy might throw at it."

Those of us who came of age in the 1960's may have different ideas about the authority of government and the ability to forment change than today's college students. That was then, this is now.

In the Strategic Defense Initiative, those of you looking for an issue for the 1980s have just been handed one on a silver platter. Perhaps you will come to totally different conclusions about Star Wars than those I have reached. But you owe it to yourselves and to coming generations to familiarize yourselves with the issue, and to learn what role your school may be playing in changing Star Wars from popular science-fiction celluloid to orbiting battle stations, supercomputers and laser beams—all of which will function without the "bother" of a human being at the controls.

In the days of reassessment following Hiroshima, Albert Einstein offered two thoughts for the ages. Of nuclear weapons, he said, "...there is no defense, there is no possibility of control except through the aroused understanding and insistence of the peoples of the world."

He also said, "The unleashed power of the atom has changed everything except our way of thinking."

He also said, "The unleashed power of the atom has changed everything except our way of thinking."

Now, President Reagan has offered his version of changed thinking. Is it the right way? Can we afford not to know?

bamberges WILLOWBROOK

Work experience can be a valuable tool when you are interviewing for that first career position upon graduation!

Is your major Marketing, Business Management, Home Economics, Computer Science, Communications, Hotel and Restaurant Management, or Criminal Justice? If so, work experience in a business / service environment such as bamberge WILLOWBROOK will sharpen your skills and ready you for those future interviews that will kick-off your professional career.

happenings

Emi-Rae Hartman and Kimberly Palmisano both want a piece of Tim Herman in a scene from The Boyfriend. This comic musical, directed by Dee Dee Sandt, is a classic mixup tale of class-consciousness in the 1920s.

The Boyfriend Opens MTS Season

The Boy Friend, Sandy Wilson's 1920's musical spoof, opens the MTS Major Theatre Series' 1985-86 season. This delightful musical comedy depicts the Jazz Age in all its glory, from the flappers and the Charleston to the charming romances of young girls and boys.

MTS' production of The Boy Friend runs for two weekends, Thurs. through Sat., Oct. 17-19 and Oct. 24-26 at 8p.m. in Memorial Auditorium. There will be a matinee of Fri. Oct. 18 at 2:15 p.m.

Ticket prices are: Standard $5. Senior Citizen and MSC Faculty, Staff and Alumni $4 and Students with valid ID. $2.50. Call 893-4205, 9a.m. to 5 p.m. for information on season subscriptions. Starting Oct. 7, call 746-9120, 10 a.m. to 7 p.m. for ticket reservations.

Flower Arranging at Montclair Art Museum

Toshiyuki Ohki, renowned floral arranger from Tokyo will appear at the Montclair Art Museum on Tuesday, Oct. 15 from 1 p.m. to 3 p.m. Mr. Ohki will be preparing arrangements and constructions of live flowers, branches, vines and certain dried flowers, many of which are his own designs.

Mr. Ohki is one of Japan's leading flower arrangers. He lives in Tokyo where he assists the headmaster of the Sogetsu School, Hiroshi Teshigahara. Mr. Okin travels worldwide to lecture and demonstrate on floral designs. He gave a demonstration at the New York Horticultural Society in 1983. His title is Riji Master of Sogetsu and he has studied the art for years; at age seventeen, he received his Instructor's Certificate.

The demonstration is presented by the Northern New Jersey Chapter, International Ikebana. Refreshments will be served following the presentation. For further information or reservations, contact the Museum, 746-5556.

My Sister

I came home to find my sister gone. Married, a wife. At times it seems like the space where she once sat and I so close, yields a shrill ghost, a pair, that never really lived, but grew as we grew. The years took less from her—never a disappointment.

Except me.

Maybe I'll visit some distant Christmas. We'll fill a glass with bottled smiles and watch her son and lovely daughter chase snowflakes in the lucid wind.

ANOTHER A.M.S. YEAR BEGINS...
MOVING AHEAD — MOVING YOU AHEAD
The brutal slaying of a wealthy newspaper heiress, whose husband is charged with the crime, is the catalyst of Columbia Pictures' intriguing new thriller, Jagged Edge.

The central issue is morality and justice. Teddy Barnes (Glenn Close) is a sharp-minded woman of the 80's. Balancing motherhood and a career as a corporate attorney, she agrees, under duress, to represent the accused Jack Forrester (Jeff Bridges). Because her ethics will not allow her to defend a guilty man, she starts her own investigation with the help of a "nonsense" detective, Sam Ransom (Robert Loggia).

Peter Coyote plays district attorney Tom Draney, a man who has political aspirations and has an axe to grind with Forrester.

Glenn Close, three-time Academy Award nominee for Best Supporting Actress, is gripping as the attorney who is torn between her moral standards and her ensuing relationship with Forrester.

As in her other movies, The World According to Garp, The Big Chill, and The Natural Close portrays a strong woman. But in this film she expands her role to cover more ground; she is more aggressive, playing a former defense attorney who has switched jobs because she could not defend the criminal actions of the guilty. Jeff Bridges plays Forrester with intensity. He is smooth and charming, yet has an air of innocence about him.

review

Plenty: drama of woman who can't adjust to peace

By Vladimir Koupf

There are times when life is lived to the fullest, when life is most intense. "Wartime creates this atmosphere, because life is lived fully when it is lived on the brink of disaster," as David Hare's Plenty traces a woman’s difficult situation when she tries to adjust from the immediacy of wartime experiences to the restrictions of peacetime living.

Susan (Meryl Streep) is a member of the French underground in occupied France. Meryl Streep captures the intensity of this character in her idealistic search for satisfaction in life. She keeps the audience guessing, and walks a tightrope between madness and sanity.

After living on the edge of survival during the war, Susan finds it hard to adjust to life as a diplomat's wife, with its attendant diplomatic formalities. In a quest to regain her zest for living, Susan befriends Alice, played by Tracy Ullman. Ullman gives a fine and lively performance as the woman who represents the world Susan has lost.

On the other side of the coin is Darwin. John Gielgud endows this character; his performance is simply a delight to watch.

The structure of Plenty retains a stagelike transition from scene to scene, arranged chronologically. Yet, as masterfully directed by Fred Schepisi, the audience is given no clues as to when time and place will change, just as the dramatic character fluctuations of Streep are surprising and unpredictable. In this way, the audience is kept on the edge of their seats, anticipating anxiously what transitions will occur in this suspenseful drama.

Orchestrating all these varying elements is David Hare's fine script, which he adapted from his original stage play. It is full of interesting insights about human nature, about the difficulties of adjusting to peacetime and to settling down.

Plenty is a well-paced drama that is enjoyable as well as insightful. It captures the emotions and carries one into another world, as any good movie should. Plenty also gives one something to think about: its theme of a woman's restless, unsuccessful search for satisfaction will haunt you long after you...

 Indians get into groove; post three wins in a row

By Jim Nicosia

Anyone who has their hopes on the success or failure of their favorite baseball team knows the ups and downs of the game.

The fact has not been more apparent than with the MSC Indians this fall. After a 3-1 start, the team lost four of their next five games, rebounded to pull their record up to 7-5, then lost a pair to sink back to the .500 level before last week.

With the fall season dwindling down to the last few games, the Indians won three games to lift their record to 10-7.

MSC 5- Upsala 1
MSC 4- Upsala 0

Late last week, after three straight days of rain, MSC finally got a chance to go over the .500 level again, on Sunday at Pittser Field. The Indians swept a doubleheader from Upsala, 5-1 and 4-0.

In game one the Indians got a 5-1 win in a contest that saw each team manage only four hits, while committing five total errors. The Indians fell behind 1-0 in the first inning, as Upsala capitalized on one of two MSC errors. The score stood until the fifth, when the Indians took advantage of Upsala's walk-prone pitcher, Ed Williams. First baseman Mike Ashton walked to start the inning, rightfielder Tim Jones singled, and leftfielder Andy Welter walked to load the bases. When third baseman Mike Hronich reached base on a misplayed ground ball to short, the Indians had knotted the game at one. John Duetsh walked to load the bases again, when Upsala's second error of the inning gave the Indians a 3-1 lead. With second baseman Ron Spadero at the plate, Upsala catcher John Asta tried a snap throw to catch Deutch napping at first. The plan backfired as the ball wound up in right field, scoring Jones and Welter. Tim Johnson capped the Indians' rally with a two-run single, the only RBI of the game.

Freshman Jeff Vanderoef continued to show promise on the mound for MSC. The 6'3" righthander went the distance, allowing only the unearned run in the first on four hits, walking four and striking out four.

"That game is a good barometer for him," said MSC Head Coach Kevin Cooney. "Upsala's got one of their best teams this year, and their coach wanted to prove they could play with us, so they sent their best pitcher out against us. And we beat them with a freshman (Vanderoef). He showed guts and I liked that."

In the second game, sophomore left­hander Anthony Foti and freshman righthander Dave Kern teamed up to one-hit Upsala, 4-0. Foti allowed only one hit and three walks through five innings, adding five strikeouts and three walks. Kern pitched innings of no-hit relief, walking one and striking out four.

"Foti's on his way," said Cooney of one of his new arrivals this fall. "He's probably our number two pitcher right now. He just has to show he can pitch in the clutch."

The Indians wasted no time in getting Foti a lead, jumping out to a 2-0 lead in the first inning. In their seven losses, the Indians had fallen behind in six of those contests. They didn't have to play catchup in this game, though.

Johnson had a hand in another Indian rally, walking to lead off the inning. One out later, Mike Ashton doubled in the senior outfielder for the only run they would need. But they got more. Deutch walked and Welter singled, but Ashton was called out at the plate when he tried to score on a passed ball. "The catcher never tagged me," Ashton said later. "He completely missed me and he knew it." The Indians rally didn't die there, though, as Mike Litterio walked to load the bases. In one of the best at-bats of the game, third baseman Kevin Cavallo worked a 1-2 count full, fouling off over a half-dozen pitches before finally earning a walk to score Welter for a 2-0 lead. Though Upsala pitcher Jim Walsh issued four walks in the inning, he escaped further damage by striking out second baseman Steve Dorey for the third out.

After Vanderoef put down an Upsala rally in the second, shortstop Jim Pisano blasted a solo homerun to right field to up the MSC lead to three. The Indians added one more run in the third before leaving the rest of the game up to Foti and Kern. Welter started things off with a double to left field, reaching third base on a mishandled throw. Walsh retired the next two Indians before Cavallo came through by delivering a single for his second RBI of the game.

Foti and Kern kept Upsala hitless after the third inning, each one allowing one baserunner a piece.

MSC 13- Morris C.C. 5

The Indians captured their 10th win of the season on Tuesday against Morris, 13-5, with the help of an eight-run outburst in the top of the seventh inning.

MSC opened the game with a single in the first. With two out and DH Nick Zichella on first after walking, Mike Hronich singled to send Zichella to third. Cavallo followed with yet another clutch at-bat, singling to score Zichella for a 1-0 MSC lead.

Johnson's two-run triple with two out in the second helped pad the MSC lead to 5-0 before Morris scored three times in the fourth and twice in the fifth to take a 5-4 lead. The Indians quickly responded by trying it in the sixth with another run-scoring single from Johnson, this one scoring second baseman Bill Geiger, who had singled earlier.

In the seventh inning, the Indians finally ran away with the game, scoring eight runs on five hits. Catcher Chris Pagano singled in a run with one out, Geiger followed with a run-scoring single, then Ron Spadero smacked a three-run triple to make the score 10-5. One out and one run later, Ashton added the icing on the cake, belting a two-run homerun for the 13-5 win.

Men's and women's XC have up and down week

By Jim Niclosa

On Saturday, the women's cross-country team took their perfect 2-0 record into the Trenton State Invitational at Washington Crossing Park to take on Trenton State and Seton Hall.

The Indians split the double dual meet, defeating Seton Hall, 16-43, but losing to a tough Trenton State team, 22-33.

"Trenton was really up for us, said MSC Coach Michellie Willis. "They ran much better than they did two weeks ago (in the Trenton St. Invitational). Only three of our runners ran better than their invitational time. It was those two that made the difference."

Nancy Wright led the Indian harriers, finishing third overall, running the course in 20:45. Liz Dilla finished fifth, and Linda Gowder finished sixth for MSC.

"Liz Dilla has improved so much," said Willis. Saturday, she ran 47 seconds faster than her best time at Washington Crossing last year. She also moved from sixth place on the team to a strong second."

The Indians have a chance to avenge their loss to Trenton at the NJAIAW Championship meet on Saturday. Washington Crossing in Trenton. The MSC record stands at 3-1.

The men's cross-country team, under the direction of Head Coach James Harris and Assistant Coach Vic Mizzone, has posted a 4-3 record so far this season.

The harriers have beaten Stockton State, NJIT, St. Peter's and Ramapo. Frank Guazzo, an MSC standout, beat all of the Glassboro State runners in a losing cause — GSC put eleven runners right behind him.

Saturday, MSC went up against Trenton State (5-3) and Albany (10-4). MSC was defeated by both teams, 20-43 and 22-37, respectively.

Despite unfavorable weather conditions, senior Ron Kulik (a transfer from Virginia Tech) won the meet at Garret Mountain. With a time of 27:35 for the 8.02 mile course in 26:29.4.

The next MSC runner to cross the finish line was Manny Mendez, a transfer from St. Peter's. Mendez ran a 28:54 and was followed by newly-elected captain John Hogan (29:02). Hogan, one of the varsity runners from last year, shows a lot of consistency in both practice and competition.

Greg Spadavecchia, also a returning letterman, finished fourth for MSC with a time of 29:49. Freshman Orin Lucas allowed Spadavecchia with a time of 30:14. Carlos Estevess and Gabe Gonzates finished sixth and seventh for MSC.

Other runners for the MSC team are David Marreros, Richard Hoffman and Kenneth Forte.

The harriers will be looking to do well at this Saturday's New Jersey College Championships in Homdel. Indian Info: Anyone who was unable to attend the Wednesday meeting for women's track but is interested in joining the team can contact Coach Willis at 893-4372.

SILC's facilities offer many fitness opportunities

An individual's level of physical fitness can be determined by the assessment of a number of factors. A few of these factors are percentage of body fat, cardiovascular endurance, endurance, muscular strength and endurance. This assessment is conducted in two phases. The initial or pre-assessment is done prior to the activity. This is done to determine an individual's present level of fitness and set realistic goals. After participating in a chosen activity, a post-assessment is taken to establish what changes have occurred. This post-assessment can also be used to determine any changes needed in the individual's program. The available methods of assessment are extensive in number. Anthropometric measurements, resting heart rate and a step test are just some tests which may be used.

Those in the health and recreation fields recommend that some type of activity should be done at least three times a week for a duration of twenty to thirty minutes. Not only does this get your body in great shape, but exercise can also serve as a stress reducer, a healthy way to take a study break and meet others on campus. Now that you know how and what you should be doing, you are probably wondering what facilities are available to help you along the road to a healthier you. For your recreational pleasure and involvement, SILC offers a number of men's, women's and co-recreational activities.

Information on these activities can be obtained in the SILC office, Room 418 Student Center or the Fieldhouse located by Lot #23. Available to you are a number of open recreational opportunities. The Panzer Pool is open Monday thru Friday 2:00-4:00 p.m., Monday thru Thursday 8:00-5:00 p.m. and Sunday 2:00-5:00 p.m. Panzer Gymnasium is open for basketball or volleyball Monday thru Thursday 7:00-10:00 p.m. (Note: beginning Oct. 14, 8:00-11:00 p.m.) An aerobics session will be held in Panzer Gymnasium on Mondays and Wednesdays evenings from 8:00-9:00 p.m. Within the Fieldhouse there are two weight rooms with stationary bicycles, rowing machines and free weights. The hours for the Fieldhouse are Monday thru Thursday 12:00-9:00 p.m., Friday 10:00-3:00 p.m. and Saturday 12:00-4:00 p.m. An outdoor basketball court is open Monday thru Thursday, 9 a.m. - 7 p.m. A one-quarter mile all weather track is also open with lights until 9:00.
Defense holds Ramapo to six yards

Indians roll past Roadrunners, 41-0

By Perry Schwartz

MSC’s defense manhandled Ramapo College, limiting the Roadrunners to six yards in total offense en route to a 41-0 victory, Saturday afternoon.

The defense executed from the opening drive. MSC’s Vance Doby recovered a Ramapo fumble at the Roadrunner 17 on the third play of the game.

The field position set the tone for the offense. Walter Briggs, who passed for 218 yards, locked up with Ed Chavis on a 10-yard touchdown strike. Colasurdo’s first of five successful extra points gave the Indians an early 7-0 lead. “I felt very comfortable,” Briggs said. “I had a lot of time to throw, and experienced no mental errors.” Briggs gave praise to his offensive line for strong support and key blocking. The first quarter ended at 28-0 when Briggs hit Chavis with a 21-yard touchdown strike.

In the second quarter two Colasurdo field goals added to the Indians lead 34-0. He hit from 27 yards and 22 yards out. The second field goal came with three seconds left in the half.

The Indians ran around, over and through Ramapo last Saturday to up their conference record to 2-0.

Ramapo punted twice and lost the ball on downs in the third. Defensive coordinator, McKinley Boston was satisfied with his squad’s execution. “We came prepared to play. Ramapo did predictable things. It makes things easier to know what is coming. We reacted well and executed correctly,” Boston explained.

MSC finalized the game scoring at 6:39 into the fourth. Quarterback Mike Stanisci, who replaced Briggs in the third quarter, ran in from four yards out, to make the final 41-0. The Indians had an exceptional day except for one area—penalties.

They were hit for 118 yards on 11 penalties and had a few after-whistle encounters. “We lost our composure. The team has to become a little more disciplined,” Head Coach Rick Giancola said.

Defensive back Harold Clark, felt it was a lack of concentration plus mental errors.

MSC will face C.W. Post College in a homecoming match this Saturday. “Post is a big game for us, so we can’t make too many errors,” Giancola stated.

Briggs felt this game was a turning point for him, but the real test is this week. Clark said, “this game will tell us how good we are as a team.”

The Answer will be uncovered this Saturday at 8 p.m. at Sprague Field.

Conference power Kean blanks MSC soccer, 8-0

By Susan Reesnick

The MSC men’s soccer team was shut out 8-0 by Kean College Wednesday night at Sprague Field.

The Cougars with an impressive record of 4-0-1 in the conference, were given a good fight by the Indians in the beginning of the first half, but that ended quickly.

Kean took the lead by scoring the first goal at 29:11 of the half. The goal was scored by Kean’s Nick D’Ambrosio. Less than two minutes later, the Cougars put the ball in the net to make the score 2-0.

The last goal of the half was scored at 38:59 by Kean once again, to bring the score up to 3-0.

The second half got progressively worse for the Indians. MSC’s Alvaro Boliti was yellow carded for cussing at the referee. Captain Danny Simons was red carded for cursing at the referee. Co-captain Danny Simons was red carded for cursing at the referee. The Indians ran around, over and through Ramapo last Saturday to up their conference record to 2-0.
