Contra activities are brought to light by Costa

By Tom Boud

A tentative contract agreement between the American Federation of Teachers (AFT) and the state of New Jersey was reached on Sept. 29 at 5:50 a.m. — two hours before MSC's faculty were to strike.

The agreement was reached after 48 hours of continuous negotiations. Among the negotiators present for the AFT were college union President Catherine Becker, Vice President Jose Magdalene, Dr. Judith Shillcock of the biology department, Roland Flynn of the chemistry department, and Howard Wallace of the geography department.

The tentative contract gives the state's 3,000 faculty and non-teaching professionals (NTTPs) a 6%, 5%, and 5% increase over the next three years. The entire salary package will be 16.9%.

However, the promotion caps will remain in place. Becker explained the reason for this. "The college presidents throughout the state pressured the faculty into accepting the caps because they want to leave more administrative positions open."

The merit money program will exist under a different line. Instead of being used in the base as the state proposed, the merit program will be used as one-time cash award for those professors whose performance justifies an additional sum of money.

MIS President Walters retains control of the program.

The two sides came to terms on the issue of office mail search. They concurred that the state's nine colleges will not have the right to seize any professors personal items for examination.

As for academic freedom, the faculty possesses the authority to apply any grievances they have. The same privilege will exist to the rest of the professors staff.

The tentative contract is protected from any unilateral changes concerning personal issues (job reclassification, sick leave benefits) that formerly fell under the classification of the newly established civil service structure. The structure for college employees was abolished with the July 9 passage of autonomy.

"The contract is subject to ratification by the state's faculty. No definite vote date has been set by the union. Nevertheless, it is expected to be passed within the next two weeks.

Becker said that the contract was fair with the exception of the promotion caps. "The institutional autonomy law is going to require more administrators to manage it and because of this, the administration wasn't to keep more positions for themselves."

Becker discussed two key negotiation problems. "The state does not take the faculty seriously because we're the smallest group of state employees. They think they can push us around. Also, all the college presidents follow the Chancellor's (of the Board of Higher Education) line and that makes it harder to see what they are really thinking about."

Becker advocated a change in the state's attitude. "I wish that these historical patterns could change; that the administration won't have to accept an adversarial attitude towards the faculty when it comes to a strike situation."

Contra activities are brought to light by Costa

By Kirsten Dawn Cipri

Michele Costa, a physical therapist from Connecticut, who lived and worked in Nicaragua since October of 1983, spoke of her experience there last Friday at a lecture.

Three years ago Costa believed the United States media was misinforming the public about the Nicaraguan civil war and felt the need to get her own perspective on the situation. At the age of 25 she went to live in Nicaragua.

Costa introduced the lecture by giving a brief history of Nicaragua. "For many years Somoza, who owned 25% giving a brief history of Nicaragua. "For many years Somoza, who owned 25% of the land, never took an interest in its people."

When an earthquake hit Managua in 1972, Somoza pocketed the aid money from other countries, leaving the city unrepaird. Debris from that quake still remains."

"In 1979, Somoza was overthrown by the Sandinistas and since then, the contras have been attempting to overthrow the Sandinista government with the help of the United States. Forty percent of the contras are former Somoza guards and the rest are soldiers that are paid a great deal of money."

During Costa's three-year stay in Nicaragua, she worked closely with Nicaraguan women. She observed that even though women have been legally considered equal since 1988, public acceptance of this has not come about. Nevertheless, the women of Esteli wanted to work to improve their community. Their most recent improvement was a fruit jam factory built by sixty women.

When the 1983 draft was implemented, the women were not allowed to participate, they formed their own union to protect against the contra aggression. Costa believes that "President Reagan influenced the public to believe that the United States needed to send 24 million dollars in 1983 to contras because the Sandinista government is communist and communism must not spread to the United States. But the Sandinistas are not communists. Nicaragua is even more democratic than this country."

Nevertheless, Costa believes that there is a reason behind Reagan's support of the contras. "It is the best financial interest of the United States to support the contras."

The latest proposed aid package for the contras has been passed by both houses of congress. It amounted to $100,000,000.

When Costa lived in Nicaragua, her Nicaraguan family asked her to return to the United States and spread the word. "The Nicaraguans just want peace. This can only be achieved if the United States withdraws its support."

Michele Costa's lecture was sponsored by the Latin American Student Organization, School of Humanities and Social Sciences and the Women's Center.
Third Annual
Presidential Fall Symposium
October 29, 1986

HIGHER EDUCATION:
TOWARD THE 21st CENTURY

Program
8:30 a.m. REGISTRATION
Fine Arts Gallery
Coffee and light refreshments

9:00 a.m. GENERAL SESSION
Memorial Auditorium
Welcome: Donald E. Walters
President
Keynote Address: Franklin Patterson

I ______ will/____ will not attend the luncheon.

I would like to participate in the following Break-Out sessions:
First choice #___ Second choice #___
Third choice #___ Fourth choice #___

Please return this pre-registration form by October 10
to Office of the President, College Hall Room 235,
Montclair State College, Upper Montclair, N.J. 07043.

Questions about this symposium should be directed
to Cynthia Lepre Barnes, Assistant to the President
(201) 893-4344.
Philip Calitre assumes role of police chief

By Tom Boud

Philip Calitre has assumed the role of MSC’s new director of police and security, effective September 25. He replaces former police chief Jayne Rich who retired last May.

Calitre’s appointment was the result of a summer-long effort by a search committee chaired by Nancy Carver of Student Enrollment Services. He was chosen from a group of 170 candidates.

Calitre has 28 1/2 years of experience with the New Jersey State Police in the areas of special investigation (specializing in the use of a polygraph), narcotics, and aircraft beverage control. He retired with the rank of lieutenant.

Referring to major priorities, Calitre cited a need for improving police practices and procedures. He said that internal functions such as report filing and administrative duties will be streamlined so that “more personnel could be utilized for priorities other than desk work.”

On the agenda are improved techniques concerning criminal investigation, medical training, and police surveillance methods.

Calitre said that he intends to deal with the current personnel shortage by filling all vacancies as soon as possible. He mentioned that plainclothes officers will be bolstered at key hours when students are the most vulnerable (late at night).

In relation to parking, Calitre emphasized that cars blocking traffic as well as unattended emergency vehicles will be towed and that vehicles with no parking stickers will be ticketed. “We will be enforcing the laws in regard to illegal parking and so far, the campus police have been doing a good job.”

He said that more student aides have been added to ticket illegally parked cars (3 new aides have joined the force to make a total of 9 parking attendants).

Further elaborating on parking security, Calitre called on the student population to be more cautious with their valuables inside their cars. “I have walked around the lots and I have seen a lot of radios, CBs, and books in plain view. They also leave their doors unlocked which is careless.”

Calitre advised the students to stay away their valuables to avoid attracting thieves. “Having these items in open view is a temptation for thieves.”

Calitre stressed that the escort service will be revived. According to Lt. Michael Postaski, a minimum of 3 escorts are needed to efficiently operate the service which is available Monday through Friday, 24 hours except for 2a.m. (Thursdays until 3 a.m.). Campus police officers will handle all escort-related calls until civilian escorts are hired.

Postaski said that $5,000 from the police budget has been allocated for finding escorts and for the first month, escorts will be equipped with whistles, arm bands, and flashlights in order to provide an increased sense of security.

Pertaining to public relations, Calitre said that he will speak to the students by meeting with the various campus organizations and thereby gaining their input. “I want to hear what the students have to say and find out about what they need. At the same time, I want to educate them on crime prevention.”

Looking forward to the future, Calitre stated that he will consider more reforms; particularly having civilian dispatchers and supplying more patrol duty. He declined to reveal anymore details on other future reforms.

“Future campus police reforms are a low priority at this time.”

Calitre concluded by describing his job as “challenging because you must address the problems as they come up.” He said one of the keys to solving problems is to use a “preventive medicine” approach.

Do you really know Career Services?

By Mary Donnelly

What does the name Career Services mean to you? Often students have misconceptions about the office and career planning.

Career Services is an employment agency.

Not all Career Services is much more. The office provides a full range of services, including career counseling, a career library, interview and job hunting seminars, and a computerized guidance system called DISC0N. The office is open about part-time and full-time openings, and we do list those positions in job books found in our office and mail them to registered students and alumni.

Myth #2. If you don’t know your major, then you can’t find a job.

“Not so. The first step in the career planning process is developing a self-awareness—thinking about what you like to do, about what you do well, and about what’s important for you. Once you’ve done this, you can begin to explore career options which match with the above.”

Myth #3. If you have made a career choice, you don’t have to use Career Services until you are ready to graduate.

Even if you have made a career choice, it is best to test it out while you are still at school. You can do this by getting related part-time or summer jobs or speaking to people in the field. We can help you find such a job and identify MSC graduates in specific fields for you to talk to.

Myth #4. Your major determines your career path.

It is a prevailing myth that your major is intimately linked to the work you will do in the future. This misconception is certainly true for accounting, recreation, or food service management, but huge numbers of college graduates use their skills in settings which had no obvious connection to their college majors. Remember you are a whole person, not just a major.

Myth #5. Career Services only works with seniors.

According to a national survey, 77 percent of today’s work force entered their occupation by chance, not by choice. Counselors in the Career Services office want to work with you as soon as you start at MSC so that you can number among the 23 percent who have planned and have made a choice. Freshmen, sophomores, and juniors come too. Myths are real. Myths #6. I need a GPA of at least 2.4 and must have completed 45 credits to work in Career Services.

There are no guidelines that you must meet to use the Career Services office. You can begin whenever you choose and can use all the services or can pick one which meets your needs. But remember, planning ahead puts you ahead.

Eileen Bruck is the Director of Career Services.

Affirmative action committee evaluates students problems

By Mary Donnelly

The president’s commission on affirmative action met on Thursday, September 25 for the first time this semester.

The affirmative action committee at MSC is designed to recommend to President Donald Walters any special advantageous to MSC constituencies by providing employment opportunities to their college major. Remember you are a whole person, not just a major.

Myth #5. Career Services only works with seniors.

According to a national survey, 77 percent of today’s work force entered their occupation by chance, not by choice. Counselors in the Career Services office want to work with you as soon as you start at MSC so that you can number among the 23 percent who have planned and have made a choice. Freshmen, sophomores, and juniors come too. Myths are real. Myths #6. I need a GPA of at least 2.4 and must have completed 45 credits to work in Career Services.

There are no guidelines that you must meet to use the Career Services office. You can begin whenever you choose and can use all the services or can pick one which meets your needs. But remember, planning ahead puts you ahead.

Eileen Bruck is the Director of Career Services.

Bill lessens state control

By Mike Heelan

At a brief meeting last night, the SGA announced the formation of a committee with regard to the newly implemented autonomy bill. The bill lessens the state’s control over the operations of the school.

This week, MSC narrowly averted a teacher’s strike. The faculty will vote on a contract by the end of the month.

In other news, the issue of the slow shuttle bus service was discussed. According to SGA legislator Perry Schwartz, the campus police are presently seeking to employ a third bus driver.

In addition, the SGA was reminded that the escort service on campus is still available. Those wishing to take advantage of this program may call campus police at 893-5222.

On Friday October 18, parking lots 22, 23, and part of 28 will be closed at 3:00 pm. These lots will be used for construction of the new dining floats.

Finally, the SGA approved the cabinet appointment of John Dorval as assistant director of programming.

Residence life update

By Robin Miller

Yes, it’s back. The Residence Life Column. This column will be a periodic update of what is going on in Residence Life. Stay tuned for upcoming RA projects.

A trip to the famous South Street Seaport in New York is planned for October. Come out and enjoy the famous shops, exhibits, and food. The trip is open to all MSC students on a first come first served basis. The trip will be Sunday, October 26, 1986. The bus, which costs five dollars will leave at 11 a.m. and will return at 7:00 p.m. Money is due by October 9, 1986. Direct any questions to Lisa Lombardi 2B20 Blanton Hall, ext. 7430.

Send a hug and surprise someone just for fun. Hug-O-Grams will be sold in B2000 Blanton Hall ext. 7430.

News Notes

Career Development Conference

The Counsel on Career Development for Minorities (CCDM) is sponsoring a Corporate Orientation Program (CORP) for minority sophomores interested in pursuing a career in the business world.

CORP will run October 31, November 1 and 2, 1986 in New Brunswick, New Jersey. CORP participants will be housed at the Hyatt Regency Hotel. CCDM will cover all travel, meal and lodging expenses for CORP participants. MSC can nominate three students to CCDM for participation in CORP. You do not have to be a business major to attend. Students selected will be accompanied by a representative of the Career Services office. Applications are available in Career Services, Student Center Annex, Room 104, 893-5194.

Student Handbook

The 1986 Student Handbook is now available at the Information Desk or the Student Center, the Office of the Vice President for Student Affairs, and at the desks of the residence halls.

Memorial Service

A memorial service celebrating the life and spirit of Professor Bertrand P. Boucher, will be held on Saturday, October 25, 1986 at 2:30 P.M. in Russ Hall Lounge at Montclair State College.

Those planning to attend, please phone 893-5258, Barbara DeBeus or 893-4314, Vera Brenten, by October 21, 1986.

**The Theater's trials and tribulations**

**Well,** "The Soft Touch" our first show of the season is over. Or is it? Financially, no, We'll receive bills for another few weeks at least. Most of the set for "The Soft Touch" is in our office. I'm typing this letter while a tool cabinet sits me in the face. Welcome to Players! According to our history, we've been around since 1937. That makes us almost fifty years old. Can someone please explain why I still feel like a gypsy?

You see, Players has undergone some very drastic changes since last January. For starters, I was informed that severe restrictions were being placed on our performing spaces. Read that last line “You can't perform in here anymore.” The chairperson of the dept. of Speech and Theatre gave me this wonderful bit of information one week after I had come into office. The dept. expanded their programming and that's fine, we understand; but where did that leave us? Welcome to Players! What to do? Find a new theatre to perform in, of course! But, silly me, didn't I realize the only theatres left (Calcia and Morehead) were being used for classroom space. Duh, what am I stupid? What else do you use a theatre for anyway?

After that the new executive board comes in. The new executive board will do just fine. Hey, Players, you can't get anything accomplished. The next executive board will do just fine. Onward!

P.S. Thanks to the Montclarion for watching our refuge and door flat. Storage, storage, my kingdom for some storage!

**Continued strike threats leave students as pawns**

Well, we’ve made it through another state teachers contract dispute. We’re safe again for another three years. Still, the question remains, why must we constantly re-live this nasty process? The whole sordid business can be likened to being forced to watch Love Boat repeats. The characters, the situations and problems always remain nearly the same.

Invariably, the common denominator in the whole scenario is the fact that no real bargaining ever gets done until the last week/day/hour. People get caught in the middle and suffer the most, even though they’ve done little to contribute to the problem.

As Catherine Becker, MSCs faculty union president has said, the historical pattern of last-minute negotiations has got to change. She contests that the state does not take the teachers seriously. To some extent, the state does show a blatant disrespect for its employees when it fails to sit down and start negotiating until the strike deadline approaches.

The teachers have not been as innocent as they would like us to believe, either. This isolated case might have put the teachers in a better light than the state, but everyone knows that at the end of all these strike threats, the students are the ones who are inconvenienced. The bottom line is the students are more than pawns. Pawns to the state that is supposed to be helping. "Can we get the room soundproofed?" "...settled, settled, settled, damn it! I wanted to get me a teacher!"

We as students can’t be too sure, but maybe they are really trying to tell us, as the adage goes, "do as I do, not as I say."

The Montclarion is published weekly except during examination, summer, and winter sessions. It is funded, in part, by funds received from the Student Government Association Inc. of Montclair State College. Advertising rates are available upon request in Room 113 of the Student Center Annex, or by calling the business department (201) 893-5237. The views expressed in the editorial pages, with the exception of the main editorial, do not necessarily reflect the opinion of the Montclarion.
To the editor:

Experience is the best teacher. I proved that to myself when I accepted an internship with the Editorial Services division of The Prudential Insurance Company. Since this was a Co-op position, I was not only working in my major field, but also getting four credits.

My first assignments were very short news items for the Corporate Short News section of the company's Courier, a newspaper distributed to New Jersey employees of the company. Within a few weeks I "graduated" to features and news articles and, finally, front page. Soon I was also writing for the magazine and company-wide newspaper. I had other responsibilities too, such as cropping pictures, attending photo shoots and proofreading the paper once, twice and thrice if necessary before it's printed.

An internship also gave me the chance to build something a class can't-a portfolio, the published proof that I knew how to write articles. Now, when I go for an interview with prospective employers, I don't just say, "I've taken Newswriting, Feature Writing and Editing," but also, "Here are a few stories I have written."

And there are some skills that can not be taught in a classroom. For example, how to sit at my desk in Newark and explain to a freelance photographer in Canada the type of pictures I want to illustrate my story properly.

Working in a career related field helped me clarify my future goals and showed me the many opportunities available for a journalist in the publications field. I am also very fortunate to be working with a staff that doesn't expect me to know everything and is willing to help me learn. So, naturally I didn't hesitate when they asked me to work full-time during the summer and part-time for the fall semester.

Now, as I prepare to enter the job market, I'll have not only a degree, but a portfolio, letters of recommendation, and one year of experience. I advise everyone to do at least one semester of Co-op. It's one of the best programs Montclair has to offer.

Jill Katarzyn Sophomore/Health, Phys. Ed.

"Yes, I would be willing to be tested. If a job involved the safety of other lives it should be mandatory. In other areas, the decision should be left to the employees.

Kathy Scheld Junior/Art

Can't seem to convince myself of any logical reason, but I have come up with an answer. Either the food should be improved or the prices dropped. Both food and money is important to life as a student.

Joni Aquino Senior/Co-op

'The issue that I'd like to raise is of great interest to me, and I'm sure that others at MSC share my sentiments. If the mere thought of the Student Center Cafeteria makes you lose your appetite, I can certainly sympathize. In the three years that I've eaten there, the selection of food hasn't changed. Regardless of this the prices continue to rise. As if this mysterious price rise isn't enough, we were greeted with ready-made sandwiches in plastic containers this fall. What's next?

I don't understand why the prices and the quality of the food have to be so far removed from each other. I can't seem to convince myself of any logical reason, but I have come up with an answer. Either the food should be improved or the prices dropped. Both food and money are important to life as a student.

Maybe MSC could try to slightly improve one of these lots for its students eating in the Student Center Cafeteria, I certainly wouldn't object to some improvement in either area. Would you?

Kathy Scheld Junior/Art

To the editor:

I am a Montclair State College student who enjoys reading The Montclarion. This newspaper tells a lot about campus life. Like most commuters, I do not know about the activities that go on weekly. The Montclarion provides that information for me. It is also good to know that the paper provides a personal column and a lost and found column. These are very rewarding to students. I suggest more college students to take time to read The Montclarion. The Montclarion staff is doing a good job. Keep up the good work.

Joni Aquino Senior/Fine Arts

"Yes, I would be willing to be tested. If a job involved the safety of other lives it should be mandatory. In other areas, the decision should be left to the employees.

"I believe it's fair, and I would abide by it. If you have nothing to hide, I don't see why you should be afraid of taking the test."

Michela Marie Samarya Senior/Health Education

"I believe drug testing should be periodic and mandatory in occupations where other lives are dependent upon him or her. In all occupations, I feel drug education should be required as a preventative measure."

Diana Saenz Senior/Economics

"I don't agree with drug testing, it's an invasion of a person's privacy. If drugs don't interfere with a person's performance, it shouldn't have to matter.
YOUR SGA'S RESPONSE
TO THE STRIKE

September 28, 1986

Mark J. Brancato
President

Student Government Association, Inc.
Upper Montclair, NJ 07043

Dr. Donald E. Walters
President
Montclair State College

At an emergency legislative meeting held Sunday evening, September 28, 1986 the Legislature of the Student Government Association, Inc. of Montclair State College adopted a resolution regarding the impending American Federation of Teachers' strike.

As you can see from the enclosed resolution, the Student Government has decided not to support either side in the dispute. Rather, we feel that the rights of the student body are of the utmost importance and we will defend those rights to the fullest extent.

In the event that members of the college community choose to infringe upon these rights, we would expect full cooperation from the entire administration in ensuring that these victimized students are protected and receive proper restitution.

Our concerns for the student body are very serious. It would be in the best interest for the Student Government, the administration, and the faculty to have an adequate response for those students who become caught in the middle. Your cooperation in setting the tone for your administration in the defense of student rights will be a positive reflection of your willingness to assist the student body in achieving an undergraduate education.

Thank you for your cooperation and consideration in this matter. If you have any concerns or questions, please contact me at 893-4202.

Sincerely,

Mark J. Brancato
President

September 30, 1986

Marcoantonio Lacatena
President

Council of NJ St. College Locals
American Federation of Teachers
420 Chestnut Street
Union, NJ 07083

Dear Mr. Lacatena and Mr. Hollander,

The recently concluded contract negotiations brought to light a very serious situation concerning the student population at both Montclair State College and the other state schools. While negotiations stalled, the American Federation of Teachers continued to assert that its strike would occur if a settlement was not reached.

Unionized faculty at MSC informed students as to whether they would hold classes; our presidents, Dr. Donald E. Walters, informed students that they ought to make "responsible" choices, and others threatened tests and penalties to force those who would not have attended class to attend. The student body was caught in a vicious circle perpetuated by the irresponsible politicking carried on by the Department of Higher Education and the AFT.

It is deplorable that students should be subjected to both the propaganda and the improper flow of information regarding the status of negotiations. Students should be the first group to be considered, for we are consistently treated as pawns and are ultimately hurt by your manipulative games.

We hope that when negotiations begin again, they will be completed in a fair and timely manner. Should this pressured situation occur again, steps must be taken to prevent the confusion and bewilderment thrust upon the students. The financial and academic integrity of the entire state college system depends on your actions.

Sincerely,

Mark J. Brancato
President

New safety proposals suggested for campus

To the editor:
In the interest of Campus safety, I'd like to make some suggestions for the people in the MSC community.
I'd like to bring up the point of constructing stairs connecting the lower parking areas with the parking lot behind the Student Center. There have always been well-worn paths made by the students looking for a direct route from point A to point B. These paths are awkward and dangerous. Safe and convenient access from the parking lots to the buildings should be an administration priority.
Similarly, construction of stairs connecting Clove Rd. with the lower Clove Rd. parking lot is a must before any more accidents occur. Too many people have fallen, slipped, and stumbled down these dangerous paths. How many more need to fall or get hurt before the school decides to take some positive action. Again, safe and convenient access from the parking lots to the buildings should be an administration priority.
Also, the north exit of the Clove Rd. apartments is only designed for a south—Clove Rd. exit. Anyone wanting to exit north on Clove Rd. toward Rt. 3 must make an awkward and dangerous left turn. This problem can be removed with the construction of a split exit onto Clove Rd. Why wait until accidents happen?
Safety to and from campus facilities should not be thought of as an expense, but as a mandate for the well-being of all.

Class One protests Montclarion's treatment

To the editor:
In regard to your "Eye on MSC," page 7 of the September 25, 1986 edition, the Montclarion Club, a class one of the SGA, wishes to voice a protest to the caption.
The Montclarion Club, under the direction of Dean Stepnowski and Dean Martin were attempting to relocate the goldfish and carp which were placed in the fountain in front of the library. These goldfish and carp were in a very inhospitable environment and we were moving them to better conditions.
Steve lavorone, who took the pictures, was asked by the Conservation Club to photograph the event to promote concern for these endangered fish. However, The Montclarion misused these pictures, resulting in an inaccurate depiction of what was going on.
We of the Montclarion Club feel that The Montclarion was irresponsible in its journalistic technique. The Conservation Club feels an apology is in order.

Marc Seelinger
Senior/biology, chemistry

The Montclarion's editors' response

The Montclarion wishes to express that our weekly feature, "Eye on MSC," is a photo essay. It is not, nor is it intended to be, a news feature.
We apologize if we've offended anyone's sensibilities, but we in no way attempted to make a farce out of The Conservation Club's, or Deans Martin and Stepnowski's actions.
The purpose of "Eye on MSC" is to do no more than capture students' activities through the eye of the camera lens.

“MARVELOUS”

STAND BY ME
Murderously funny classic revived on Broadway

By Tony Bavaro

"Arsenic and Old Lace," is currently in a most successful run. On September 20th the cast gave their one hundredth performance of the current production. Once again, it proves that people do enjoy murder and mayhem, especially when it is mixed with many a good laugh.

Originally produced on stage in 1941, "Arsenic and Old Lace" has achieved the status of an American Classic. The 1944 film version, which starred Cary Grant, is also a classic in its own right. This wildly funny play takes place in the Brewster home in Brooklyn in the 1940's. Here reside the Brewster sisters, two kindly old spinsters, and their nephew, Teddy, a Theodore Roosevelt enthusiast who is actually a conman who handles that discovery amidst the bizarre behavior that afflicts them money, feeding them, finding them a place to stay - or killing them. As it turns out, the sisters have developed a rather lethal habit of murdering elderly men in their home by serving them homemade wine laced with poison.

Luring the old men to their home through a real estate ad that lists a room for rent, the two sisters truly believe that what they are doing is their Christian duty, seeing as these lonely old men with no place to go surely are better off dead.

Midway through the piece, their quiet, unpretentious, and rather way veteran of such shows as "Damn Yankees," "Belles Are Ringing" and "Bells Are Ringing" and "Bells Are Ringing" and, in turn, to make us believe it, that he believes everything that she is doing loses our credence. It is her ability to breathe like a shy school girl, her more low-key style. Giggling under her breath like a shy school girl, her more controlled performance offers a good contrast to that of Miss Stapleton. Together, the two actresses make a deliciously funny pair, warm and witty in their work.

In the role of Mortimer Brewster, Tony Roberts provides the one weak element in the lead cast. The role of Mortimer proves too burdensome for him, as he tries very hard to be both serious and funny. The play's humor. Murdering senior citizens may not be on everyone's list of funny subjects, but somehow it all works in this play, providing a wonderful atmosphere of genuine humor while never breaching what might be considered good taste.

The roles of the two Brewster sisters, Abby and Martha, are played by Jean Stapleton and Polly Holliday, respectively. Miss Stapleton, a Broadway veteran of such shows as "Damn Yankees," "Belles Are Ringing" and "Funny Girl," is best remembered for her portrayal of the daffy yet loving housewife Edith Bunker on TV's "Alice," approaches her character in a more low-key style. Gigging under her breath like a shy school girl, her more controlled performance offers a good contrast to that of Miss Stapleton. Together, the two actresses make a deliciously funny pair, warm and witty in their work.

The latest all-star cast to perform the classic "Arsenic and Old Lace" includes (L to R): Barry Snider, William Hickey, Jean Stapleton, Tony Roberts, and Polly Holliday.

Intoxicating comedy at the Rat

A free comedy show featuring standup comic Gary DeLena will be presented in the Rathskellar, on Fri., Oct. 3 at 12 noon. College Life Union Board warns that holding in laughter during DeLena's performance as the fast and funny Flo McElfresh, Director of the Film Program at the American Federation of the Arts. The presentations begin at 3 p.m., and admission is free. For more information call Patricia Lay at 893-5112.

Music Scholarship Concert

The MSC Chamber Ensemble, conducted by Oscar Ravina, will perform a concert to benefit the Music Scholarship Fund. The concert will be held in McEachern Recital Hall on Sun., Oct. 5 at 7 p.m. Admission is $5 standard, $2 for students and senior citizens. For information call 893-5228.

An evening of international animated films

A screening of animated films will be presented at MSC on Fri., Oct. 10 at 8p.m. in Memorial Auditorium. This screening is the first of a series of works by independent filmmakers to be presented by the Office of Cultural Programming.

Animation is the one art form that combines the technology of film and video with the sensibilities of painting, sculpture, and graphic design. The program, curated and hosted by Charles Samu, will include animation from artists and studios around the world, concentrating on the work of Russia.

The screening, entitled "Animation," will include: "Toxic Cow," a pre-Chernobyl look at the effects of pollution on the environment, "Snow Woman," a Japanese folklore animated by a young filmmaker from California, and "Hello, Goodbye," a rock video with political lyrics from turbulent southern Africa. Tickets for the program are $5 standard, $4 for senior citizens and $3.50 for students with valid MSC ID. For information and ticket reservations, call 893-5112.

Art Forum lecture

Frances Barthe, abstract painter, will show slides of her work from the 60's through the 80's at the weekly Art Forum lecture at Calssa Auditorium, Thurs., Oct. 2. Next week's lecture role feature Sam McMeffrich, Director of the Film Program at the American Federation of the Arts. The presentations begin at 3 p.m., and admission is free.
**Mummenschanz**

This Swiss mime group performs a startling and innovative repertoire

By Jennifer Stellevich

Reach inside yourself...escape to a silent world of mystical figures which come alive to entertain and amaze you. "Mummenschanz-The New Show," at the Helen Hayes Theatre, defies reality and introduces new forms of entertainment and visual effects.

"Mummenschanz" is a unique show which appeals to the childlike qualities in everyone. Although the company is more visual than spoken words. Bernie Schurch and Jacques Leqoc in Paris. In 1969 they performed their first show. After several modifications, the show became the first Mummenschanz in 1972. Florence Frassetto was born in the U.S. and studied dance, acrobatics and pantomime in Rome. While searching for new means of expression she performed her show a visit of Mummenschanz, and soon after joined Bassard and Schurch. As a member since 1972, she creates most of the troupe's costumes and masks. As the lights are dimmed in the theatre, two large hands introduce the audience to an imaginary and fantastic world which invites the audience's imagination, to see again through a child's eyes.

"Mummenschanz" is an enjoyable production presenting light stories through shapey costumes and physical gestures. Clad in black to be invisible against the dark walls of the stage, the performers use various accessories to create the illusion of life. These objects animate characters instead of human actors.

"Mummenschanz" incorporates playful ideas and skilled movements into a fantasy world which invites the audience to escape. The troupe's years of study and development are easily recognized in their unique and creative expression of the art of mime.

**Elton John enchants audiences with showmanship**

By Jonathan Benjamin

The crowd was black as night as fans waited anxiously for British rock star Elton John to take the stage of Madison Square Garden, September 14. As the curtain opened, a shadow emerged, strutting quietly across the stage. The crowd roared as a spotlight flooded an area of the stage, showing a white grand piano and a man with a pink Mohawk.

Elton John opened with an instrumental piece, as he usually does in concert. This tranquillizes the audience so that his classic soft ballads can be heard. This approach had a fantastic effect. Like a drug, the piano's gentle tones brought the audience's infantile mind under control. Then the pianist led into his latest album, facing away from the piano.

The energy levels of both performer and audience peaked during this song. What I liked about this song was that Elton John played. I could name an equal number that he did not play. Where were "Don't Let the Sun Go Down on Me," "Tiny Dancer," "Crocodile Rock," "Goodbye Yellow Brick Road," and the song for John Lennon, "Hey Johnny (Can't You Come Out to Play)"? At this concert, at least, Elton John took time to play songs that were never big hits, neglecting many of his more popular compositions. This left me a little upset, as it did many other fans.

Elton John has an established style in his music. As a performer, he also has an established character which is incorporated into his repertoire. He has become famous for his flamboyant stage behavior and extravagant costumes. Before the concert started, I could hear the "regulars" debating which outfit he was going to wear that night. Would it be the Donald Duck costume? Or something else? When Elton John played, I could name almost every song he played. I have a feeling that the rest of the members were just as well prepared. Seven of us fans walked away happy that night. Would it be the Donald Duck costume? Or something else? When Elton John played, I could name almost every song he played. I have a feeling that the rest of the members were just as well prepared.

However, for the number of hits that Elton John played, I could name an equal number that he did not play. Where were "Don't Let the Sun Go Down on Me," "Tiny Dancer," "Crocodile Rock," "Goodbye Yellow Brick Road," and the song for John Lennon, "Hey Johnny (Can't You Come Out to Play)"? Huddle service: a new strength
By Perry Schwarz

"Strengthen yourself to strengthen others and when converted strengthen your brother." - Luke 22:32

Every athlete has their own way of dealing with emotions before a game. Some play loud music, some read, work out, eat, or find an empty corner and think about the game.

At MSC, the football team has a group known as the "huddle service." The huddle service is another way for an athlete to deal with a game situation. This pre-game activity isn't mandatory for any player. If one wants to join they are welcome to do so.

The huddle service, which lasts 20 minutes, is held an hour before each home and away game. Defensive back coach Terry Porter is responsible for implementing the huddle service at MSC. Porter, who belongs to the National Chapter of the Fellowship for Christian Athletes, was introduced to the huddle service activity when he was with the Chicago Bears in The National Football League. He felt a need for something like this to be initiated for the athletes at MSC.

"Some feel that relaxation occurs through external motivation, but motivation is internal and must come from the individual," Porter said. "I think it's important to bring the word of God to our players and share it with them. The huddle service is a way for them to do it."

Assistance in the service is provided by Father Art Humphrey and Reverend Mike Durning. They work at MSC's Campus Ministry and they lead the activity before each game. They serve an important role to the football program and are visible among the players.

"A player may encounter a problem during the season and may need someone to talk with," Porter said. "If they can't find a coach or teammate to discuss the problem they know that Father Art or Reverend Mike are around for them."

Porter stressed that the service is optional and no player is forced to attend. He started the program four years ago and it has been well-received by the players. The number of players increased initially from two to 25. He said the players are aware that Jesus is alive and there's a message to be shared with them.

The huddle service is not a motivational, psychological coaching ploy to make the players perform better on the field. This service gives the athlete another alternative to pre-game activity. Adjustments were made to the huddle service to make it available before every game and usually a different speaker is invited.

"This is a way for the players to share in the Word of God and have the opportunity to hear the Word from other athletes, and clergy," Porter said. "After all, the Lord gave them their athletic ability and I believe this should be used for the upbuilding of God's kingdom."

Pregnancy, drugs, and sexuality are a few topics of importance. Another place the athletes can turn to is the Campus Ministry where Humphrey and Durning spend most of their time. The phone numbers are 893-5264 and 746-2323. They are open to the athletes as well as any other person on campus.
MSC outduels upstart Kean in battle of offenses

By Perry Schwarzs

The best comparison of Kean College’s NJAC performance against MSC sat Saturday would be of a train. The Cougars’ engine was in gear and the tank was filled, but in the end they were derailed by the Indians 31-26 in front of a Kean Homecoming crowd of 2,500.

This was not the same Kean team that MSC had faced in the past. This team was scrappy and intense. Kean controlled the Indians the first quarter and capitalized on MSC errors.

After an MSC fumble, Kean drew first blood and scored on a six-yard pass from Anthony Fischetti to Kevin McGuiri. John Mattos hit his first of four goals in a 4-1 win at Sprague Field on Friday.

The MSC soccer team came away with a 4-1 upset victory over Stockton State and exploded for four goals in a 4-1 win at Sprague Field on Friday.

By Dennis Campbell

The Indians came up with a near win against Jersey City State last Wednesday, falling 2-1 in overtime. The momentum from the Jersey State game carried over to the Stockton State game as the Indians came out fired-up. Riding strong first-half performances by Dominic Lucivero, Vinnie Nicolaia, Robert Chesney and Daniel Simon, the Indians completely dominated play.

After falling behind, 1-0, the Indians got on the scoreboard when Luciviero scored a Chesney feed at 11:23 of the first half to tie the score 1-1. The goal sparked the Indian players as they took complete control of the game. Luciviero then scored a goal to give the Indians a 2-1 lead at 46:02.

The Indians kept up the pressure, and Chesney pounced on a ball in traffic to score a Chesney goal at 9:02 of the second half, giving the Indians a 3-1 lead into the locker. After Briggs was intercepted deep in MSC territory, Kean quarterback Mattos hit his first of three extra points and the Cougars roared and took a halftime 2-1 lead into the locker. After Briggs was intercepted deep in MSC territory, Kean quarterback Mattos hit his first of three extra points and the Cougars roared and took a halftime 2-1 lead into the locker.

The Indians returned in the third quarter and tied the score. Ed Hernandez scored from the six to cap a seven-play assault. Once again, the Cougars retaliated. They started a drive from their 26 and marched nine plays. Mattos’ 35-yard field goal put the Cougars back on top, 24-22.

Luciviero had another chance to score off a Chesney feed at 11:23 of the first half to tie the score 1-1. The goal sparked the Indian players as they took complete control of the game.

Chesney closed out the scoring when he received a long pass from Simon to score a Chesney goal at 6:11 of the second half, giving the Indians a 4-1 lead into the locker.

The coach commented on his switching Drew Mullin from striker to midfielder. In soccer, when you control the game you control the tempo of the game and creating scoring opportunities.

"The coach commented on his switching Drew Mullin from striker to midfielder. In soccer, when you control the game you control the tempo of the game and creating scoring opportunities."

A new name to the list of MSC grads who have made it big.

Last Sunday, when the New Orleans Saints visited Giants Stadium, they brought along left inside linebacker Sam Mills.

Mills, a graduate of MSC and three-year starter for the Baltimore Stars of the United States Football League, recorded five tackles and three assists in the 24-17 loss to the Giants.

Mills becomes the first MSC graduate ever to play in a National Football League regular season game.
