Students given voice on board of trustees

State college students will have a greater voice in the affairs of their schools, under a bill sponsored by Assemblyman Byron M. Baer and signed by Governor Thomas Kean on Oct. 23, 1986.

Baer’s bill allows students to be represented on the boards of trustees of state colleges and to participate in most of the boards’ activities.

Assemblyman Baer said student representation on state college boards, “is a concept that I have supported for more than a decade. I’ve introduced numerous bills that would have permitted it, but it was only this year that we were able to get it signed into law.”

Under the new law, one voting student member and one alternate will serve on each state college’s board of trustees. The individual boards will determine whether student representatives should be elected by the student body at large or by members of the student government association.

Student representation on boards of trustees can be traced back to the early 1970’s, when an increased awareness of students rights and responsibilities arose. The struggle began 14 years ago with legislation introduced by Baer.

Since then, there has been a growing understanding that students are not bystanders in or the passive consumers of the educational process; they pay thousands of dollars and give up hundreds of hours of time to go to our state colleges.

They are active participants in the campus community, and they should, through representation on the boards, be accorded a say in the decisions which affect the cost and quality of their education and the terms and conditions of campus life.

“In addition, student trustees provide the board with a direct communication link to the student population that it might not otherwise develop,” he said.

Assemblyman Baer commended the New Jersey Student Association and the student-supported New Jersey Public Interest Research Group (PIRG) for their consistent support and efforts on behalf of the bill.

Baer noted that Higher Education’s Chancellor T. Edward Hollander’s endorsement of the measure was another key reason that its supporters were able to get it approved.

“Late last year, Mr. Hollander acknowledged that students are a valuable asset to setting policies regarding each college and should be given a formal process whereby they can voice their positions and views,” Baer said.

Baer said that several other states, including Pennsylvania and Connecticut, have placed voting student representatives on college and university boards.

“Their experiences, coupled with the limited participation of non-voting student representatives on some New Jersey boards, have proved the value of voting student representation,” he said.

Bence feels the new party headed by the Workers’ Movement was the first of its kind in the Soviet-type system of government. The last week of October and the first week of November signify the thirtieth anniversary of the crushing of the revolution by Soviet forces.

“The movement was an attempt at a pluralistic, multi-party society model on the American system incompatible with Soviet policy,” Pastor said.

Dr. Bence, a Hungarian dissident scholar, would be unemployed in Hungary. Because of his differing opinions from official state policy, he becomes an “undesirable person.”

By Mary Donnelly

Prof. Gyorgy Bence, a sociologist working at the New School of Social Research in NYC, gave a speech Wednesday afternoon entitled “Revolutionary Working Class Movements Compared: Hungary 1956, Czechoslovakia 1968, Poland 1980-81.”

Hungarian-born Dr. Peter Pastor opened the lecture with remarks commemorating the Hungarian Revolution of 1956. The working class movement was the first of its kind against the Soviet-type system of government. The last week of October and the first week of November signify the thirtieth anniversary of the crushing of the revolution by Soviet forces.

“The movement was an attempt at a pluralistic, multi-party society model on the American system incompatible with Soviet policy,” Pastor said.

Dr. Bence, a Hungarian dissident scholar, would be unemployed in Hungary. Because of his differing opinions from official state policy, he becomes an “undesirable person.”

Bence focussed his talk on the Hungarian revolutionary movement of 1956. He sought to explain to his audience the similarities and differences present between Eastern bloc citizens and Americans. Bence feels the most important conflict occurs in “problems of communication.”

Westerners tend to picture the people of the Soviet Union as ideological robots on a program which was written by Lenin,” Bence said.

The “ideological propaganda” envisioned by the West was not effective. Bence said, “The government system was unsuccessful in realizing its goals; there was no ‘new man’ or a transformation of the people.”

A chronological and historical analysis of the Hungarian movement was next accounted by Bence. Bence explained that the last years of WWII was a time when the Eastern European countries were occupied by Soviet forces.

The Soviets did not want these countries to become associated with Western Europe. The East bloc was absorbed by the Soviet system in an attempt to transform them into “nominal Communist countries.”

Bence further explained, “The East bloc countries were not meant to become parts of the same country as the Soviet Union. Political control and the basic frameworks of the history of Eastern Europe was determined by the Soviet Union.”

The “irrational mass terrorism” employed in the Stalin era was next discussed by Dr. Bence. “No specific attitude needs to be displayed by any individual,” Bence explained. “As long as you belonged to any dangerous categories from which the Communist state expected hostile behavior, you became suspect.”

The state policy has since changed. “If terror is applied in an irrational manner, no social group can feel safe, including Communist supporters,” Bence said. Party leadership reacted in a flexible manner towards the Polish Solidarity movement. Bence explained the inflexibility experienced by the Hungarian revolution showed the ineffectiveness of strict party policy.

Bence feels the new party headed by Soviet leader Gorbachev is leading “an integration into a new era.” Dr. Bence questions whether Gorbachev may be willing to bridge the gap between the leadership of Stalin and Kruschev. Bence said, “Gorbachev is good at the propaganda game.”

Hungarian-born Dr. Gyorgy Bence discussed the historical and ideological origins of the Hungarian Revolution of 1956 in Kops Lounge Wednesday.

Dear Career Services:

I'm a senior graduating in December and I want to sign up for recruitment, but you don't have anyone coming to speak with French majors. How can I do that?

Dear Questioning: Aetna, A.D.P., Nabisco, Hahn's, First Investor's, Georgia Pacific, and Russ Berrie would be sorry to hear you say that. These companies are coming to Career Services this fall to interview December graduates and want to speak with grad of liberal arts majors which are valued by many organizations: the ability to be organized, to perform research, to be creative, to synthesize information, to analyze it to write and speak clearly. These abilities could be put to work in insurance companies, in a retail environment, or in sales.

If, however, these companies are not the type you have in mind, since they are looking for the general skills you've developed at MSC rather than translation ability or knowledge of Racine, then work with us to get your job campaign started. Import/export agencies—organizations you might prefer—don't recruit anywhere. They don't have to as they can choose their employees from applicants who contact them individually. Come talk to us, and we'll show you resources like National WATS Services which tells about publishing, a position as a teacher, or a position developing educational media. Your love of books might lead you to work as a librarian, a technical writer, a writer of a company's in-house publications or publicity releases, or a lexicographer. You might also consider working for a company that produces word games, either in book form or as box games.

Some of our alumni who majored in English hold positions as promotion copywriters for magazines or advertising agencies; as journalists; as editors of corporate newsletters; in many other areas. English, as a major, provides you with many skills—those which are directly related to the world of language and literature and those which transfer to other areas. If you'd like some help deciding which skills you want to use in your career, come see us.

Dear Career Services:

My brother graduated from MSC last year and had a hard time finding a job. He says Career Services really helped him, but he began his efforts too late. Can I do something even though I'm a freshman so that doesn't happen to me?

Worried

Dear Worried:

Absolutely—start working with Career Services before senior year. Get familiar with the office and its services as a freshman or sophomore in order to give yourself time to figure out a couple of careers of interest to you. Then you can take courses which will help you to prepare for work. You'll also then give yourself plenty of time to talk to people who know about the work you're considering and have time enough to change your mind.

Dear Literate But Nervous: It depends on what you want to offer them. You develop a number of transferable skills as an English major which are valued by many organizations: the ability to be organized, to perform research, to be creative, to synthesize information, to analyze it to write and speak clearly. These abilities could be put to work in insurance companies, in a retail environment, or in sales.

If, however, you want to use your knowledge of Chaucer and Hemingway, a love of linguistics, a fascination with etymology or the English sonnet—interests and skills directly related to English—you might consider employment as a copy editor or copywriter in publishing, a position as a teacher, or a position developing educational media. Your love of books might lead you to work as a librarian, a technical writer, a writer of a company's in-house publications or publicity releases, or a lexicographer. You might also consider working for a company that produces word games, either in book form or as box games.

If you'd like some help deciding which skills you want to use in your career, come see us.

Dear Career Services:

I followed my convictions and majored in English, but now that I'm a freshman, I'm feeling panicked. What organizations will want me? What can I offer them?

Candy store may be moved

By Mike Heelan

At last night's SGA meeting, the feasibility of moving the candy store into the College Store was discussed. According to SGA President, Mark Brancato, the Faculty Student Cooperative Association is looking into the many different aspects of this transaction.

A decision to move the candy store would require that the College Store compensate the Student Center for projected income losses of approximately $12,600 over a period of three years. Also, the FSCA would be required to purchase all outstanding inventory at an estimated value of $14,000. This transfer would enable students to shop for their needs in the College Store rather than wait on line in the already congested area.

In other news, the purpose of the residence life federation was discussed. The purpose of the federation is to help students who have maintenance problems, cafeteria complaints and other problems that may exist within the dorm. In addition, the federation plans many different social activities.

According to the Executive Vice President, Chris Williams, the main goal of this group is to strengthen relations between the SGA and other campus organizations, hence being able to serve the students better. For these reasons, the Director of Residence Life, Robin Miller, stressed that residents need to voice their complaints so they can be acted on.

A debate was raised whether the SGA purchase order requirement of $250 dollars should be raised to $350 dollars. Many of the legislators in favor of the increase argued that inflation demands it. While some of those opposed to the increase felt that the present leadership of various clubs was not responsible enough and with the increase may try to 'cheat' the SGA. The proposed increase was voted against.

Finally the SGA appropriated $470 dollars to the Marketing Club for a trip to a convention at Penn State on the weekend of November 14-16, 1986.

We not only give you the money for college. We also give you the time.

If you think the best way to pay for college is to put it off for a few years and join the military, you're half right. Because with the New GI Bill, you can join the Army National Guard and get a guaranteed minimum of $18,000 for college. But best of all, you serve two days a month and two weeks a year. Which means you can go to school full-time. Right now. On us.

So the question you have to ask yourself is not, can you afford college. The question is, can you afford to wait. For more information about the Army Guard and the New GI Bill, contact your local Army National Guard recruiter.

Mandatory retirement act unfair to tenured teachers

Professor Ben Minor held a lone vigil in front of MSC's Student Center. A large sign strapped to his body protested the new federal law which will force him to leave his job at the end of this academic year. Minor is one of many tenured college professors who are being victimized by age discrimination. At a time when age discrimination is being eliminated from the workplace, these professors have been overlooked. This is a mistake.

At age 70 Professor Minor is unwilling to leave the job he has held for many years. However, Congress has declared that he must. Congress mandated this discrimination under what is called the mandatory retirement act, which requires him to retire at the end of this year. Minor is one of many tenured college professors who will reach that age in the next ten years will not receive any retirement benefit when their time comes. Their tenure, which is supposed to ensure job security, will no longer be in effect.

Another assumption has been made. The exemption of professors from the anti-discrimination act suggests that they are considered unfit to work at an elderly age. As a result, many fine and experienced teachers will be lost. Age is by no means an indicator of ability in this case. There may be further implications for the quality of state college faculties. Some teachers are apt to be scared away from the state colleges toward private institutions, where enforcement of mandatory retirement is more likely to be relaxed.

Fifteen states have retirement measures which discriminate against senior college professors. New Jersey is one. Still, victims like Ben Minor feel that Congress has let them down. Instead of eliminating this injustice, Congress has made it nationwide.

Even if the law is designed to open the field to new talent, it should allow older professors to appeal for an extension of tenure. The professor's colleagues and the MSC Administration should decide the matter, not Congress or the state. Since an MSC reappointment board may be subject to bias, new state or other anti-discrimination institutions should be included.

Minor has begun legal procedures to fight the mandatory retirement act, which takes effect June 30, 1987. The state Attorney General's Office is prepared to oppose him.

Neither the states nor the federal government should encourage age discrimination in the colleges. Rather, they should fight it. From our point of view, mandatory retirement for professors is unwise and unfair.

Baltimore — The temperature in the packed room has reached sauna level by the time Barbara Mikulski works her way to the stage. There is no flying wedge of pin-striped aides before her. At 4 feet 11 inches, she finds her own path, weaving shoulder-to-shoulder with the supporters who have come to this fund-raiser.

Short, stocky, rough around the edges, Barbara Mikulski doesn't fill Hollywood's image of The Senator. The version from central casting, as the candidate likes to say, "always looked like Yale, class of '42." Mikulski is and looks like Mt. St. Agnes, class of '58. Yet, the first Democratic woman elected to the Senate in her own right.

Granddaughter of a Polish immigrant who ran a bakery here, daughter of parents who owned a neighborhood grocer, the woman everyone calls "Barbara" is known quantity in the metropolitan area that accounts for 50 percent of the state's vote. A former Baltimore social worker, a former city councilor, a congresswoman for ten years, she has built a reputation as tough, smart-mouthed, funny and caring.

As the man introducing her to this crowd says in a hyperbolic frenzy, "She is the person of all people people." The label means something in a campaign year when voters aren't talking issues, but are seeking the candidates and the character they feel most comfortable with.

"People vote for the candidates they know," agrees Mikulski later as we talk over an Italian dinner, while she cheerfully sabotages her perennial attempt to keep down to campaigning weight. "That's always been true. BUT," she says wagging her fork for emphasis, "most of all they vote for candidates who know THEM. I've spent a lot of time getting to know them." She adds with an ironic smile, "I'm a 20-year overnight success story."

"Mikulski's politics are grounded in this mutual knowing. It is what gave her the victory in a difficult three-way Democratic primary. It is what has stabilized her lead against an increasingly negative campaign by Republican Linda Chavez.

"To the out side world, a Senate race between two women may be portrayed as a novelty item—rather like "tri-colored bubble gum," in Mikulski's, the longtime activist, and Chavez, a candidate who switched parties and states less than three years ago.

Chavez's main if dubious qualification is that she directed the U.S. Civil Rights Commission under Reagan. In her ads and debates, she has tried to convince Maryland people that they don't know Barbara Mikulski as she "really" is: a "San Francisco-style" Democrat, an anti-malerial feminist. But it just isn't playing on Mikulski's home ground.

"I don't like negative campaigning," says the congresswoman flatly, "I don't like it when it's a national trend and I don't like it when it's directed at me. I think it turns voters off. One of the largest blocs of voters are the no-shows. That's the only bloc it increases." Her own ads are pure Mikulski. One ends with her response to a constituent's friendly question about her weightline: "I've been counting my calories, counting my votes, and counting my blessings."

If negative advertising hasn't worked for Chavez, neither have coastals. The President, who took this state by a comfortable margin in 1994 came in a while ago, labeled Mikulski a "wily liberal," raised $400,000 for the Chavez campaign, and left without making a dent in the polls.

In many ways, Mikulski is the prototypical female candidate for this post-Ferraro political season. To Stephanie Solien, who watches over candidates from her perch as executive director of the Women's Campaign Fund, "Barbara very much represents what we're seeing in 1986, a seasoned political candidate who built her base." This is, after all, not a time for sacrificial lambs or quixotic quests.

With that, Mikulski, very much a candidate, heads home for the night, back to the attached brick house in her old neighborhood where she lives next door to a woman on Social Security, across the street from a senior-citizens project. Barbara Mikulski, front-runner and overnight sensation. It took just 20 years of overnights.

-Annique- was her name. Change the "A" to a "U" and you’ve got a backpack, pulled out a can of Suisse Mocha and offered me a cup. Okay, I decided I’d keep an open mind.

-As we sipped our cups, I found out that Annique and I share the same fondness for Cary Grant movies, the same disdain for wine coolers, and the same ex-boyfriend. That gave us plenty to talk about.

-to Kevin: How many? Really...Three digits? G.C.

-Mickey M- How Big is big?- G.C. & R

-The Elementals finally unite!!

-Anique on a postcard I got from London. Within five minutes, I found out that she was an Art History student, into the Psychedelic Furs, and totally, totally against the domestication of animals.

I was just about ready to put in a room transfer when she reached into her leather backpack, pulled out a can of Suisse Mocha and offered me a cup. Okay, I decided I’d keep an open mind.

That's life.

Players is proud to present *An Evening of One Acts*. Each play concerns life as we know it or how it could be; from re-examining the meaning of life in *The Seven Samurai* to a look at the messed up, crazy, and rebellious lives of four college students in the '60's in *Grandma Duck is Dead*. It's been said that theatre often imitates life. Maybe.

Performances for *An Evening of One Acts* are Wednesday through Saturday, November 12-15 at 8:00 p.m. with a matinee on Friday, November 14 at 2:15 in Memorial Auditorium. Tickets on sale now at the Memorial Auditorium Box Office. Special student price is $2.50. For more information or reservations by phone call 893-5159.

Players is a Class One Organization of the SGA.
Class One Concerts presents The Ramones
Tickets go on sale Mon., Nov. 10 for the Ramones concert, which will take place on Tues., Nov. 18 at 9 p.m. in Memorial Auditorium. Tickets are $10 with MSC I.D., $12 without. For more information, call 893-4478.

Music Scholarship Concert
Music enthusiasts will have the opportunity to provide direct support to rising music talents and hear the recent winners of the MSC Music Scholarship Competition at an upcoming chamber music concert. Proceeds will benefit prospective music students and fund future music scholarships.

The Sun., Nov. 9 concert will take place at 7 p.m. in McEachern Recital Hall. The second in the 1986-87 series, it will feature scholarship competition winners Karen Buschman and Marisa McLeod, violins; Cathy Chaparian, viola, and Victor Keremedjian, guitar. Also performing will be MSC students Eric Schaberg, violin; Suzanne Roamele, cello, and Ching Wu, piano, and faculty guest artist and concert cellist Chaim Zemach.

The program's musical selections will be Schubert's "String Trio No. 1 in B Flat Major, D. 471; "Five Preludes" for guitar by Villa-Lobos; "Di Sonate" in A Minor for violin and guitar by Paganini; Beethoven's "Violin and Piano Sonata No. 5 in F Major, op. 24 (Spring);" and the Shostakovitch "String Quartet No. 1 in C, op. 49."

Tickets will be sold at the door for $5 standard, $3 for students and senior citizens. For more information, call 893-7210 weekdays.

Music residency puts students in the show
The New Jersey Chamber Music Society is expanding its residency program at MSC, with the help of Governor Kean's Challenge for Excellence award to the school of fine and performing arts. Founded in Montclair in 1974 by flutist Peggy Schecter and pianist Bernice Silk, the Society began residence at MSC in 1985. Now this critically-acclaimed program will feature "Five Sonatas" by Domenico Scarlatti; Mauro Giuliani's "Rondo, The Rose and Grand Overture;" "Five Preludes" by J.S. Bach and "Five Preludes" by Heltor Villa-Lobos. Since 1981, when Schulman joined the MSC faculty, he has made his debut in the 1982 "Guitar-NY" series at Carnegie Recital Hall and has toured the U.S. and Europe as a soloist and guest artist with orchestras and chamber music ensembles. He performs exclusively on the eight string guitar - a perfect instrument for Renaissance and Baroque music and an ideal medium for expanding the modern repertoire.

Music Faculty Concert
Faculty members of the MSC music department display their artistic abilities at periodic faculty concerts. On Tues., Nov. 11, Andrew Schulman, a faculty member and professional guitarist, will perform a solo recital.

Beginning at 8 p.m. in the College's McEachern Recital Hall, the program will feature "Five Sonatas" by Domenico Scarlatti; Mauro Giuliani's "Rondo, The Rose and Grand Overture;" "Five Preludes" by J.S. Bach and "Five Preludes" by Heltor Villa-Lobos. Since 1981, when Schulman joined the MSC faculty, he has made his debut in the 1982 "Guitar-NY" series at Carnegie Recital Hall and has toured the U.S. and Europe as a soloist and guest artist with orchestras and chamber music ensembles. He performs exclusively on the eight string guitar - a perfect instrument for Renaissance and Baroque music and an ideal medium for expanding the modern repertoire.

The recital is free and open to the public. Further information may be obtained by calling 893-7210.

Art Forum Lecture
Sculptor/computer programmer Michael O'Rourke will discuss "A Computer Based Approach to Sculpture" on Thurs., Nov. 6 at 3 p.m. in Calcia Auditorium. Admission is free.

O'Rourke will describe and illustrate a procedure for using computer modeling and imaging as aids to the designs of sculpture. He is an artist who works at the New York Institute of Technology Computer Graphics Laboratory. Trained as a sculptor, he worked in traditional sculptural media for several years before becoming involved with computers.

Seven samurai... and a duck
The next Players production, scheduled for Nov. 12-15, will consist of two one-act plays. "The Seven Samurai" will be directed by Simon Greer and includes cast members Patrick Keenan, Rebecca Kliby and Thomas Miscia. Duane S. Egyud will direct "Grandma Duck Is Dead," featuring Kevin Carolan, Desmond Sugar, Alex Swain, Christine Yacovelli and Mike Menza. Shows are at 8 p.m. in Memorial Auditorium, with a 2:15 p.m. matinee on Fri., Nov. 14. Tickets are $4.50 standard, $3.50 for senior citizens, and $2.50 for students. For information and reservations, call 893-5159.

"Scrambled Feet" at Studio Playhouse
"Scrambled Feet," a musical by John Driver and Jeffrey Haddow, opens Nov. 8 at the Studio Playhouse, Upper Montclair. The show runs through Nov. 22. This impertinent musical revue spoofs every facet of theatre. For showtimes and ticket reservations, call 744-9752.

Artists envision the future
The College Art Gallery presents an exhibition, "The Future," from November 3 - December 1, 1986. Guest curator Donna Scherene stated that the works represent many philosophical, social and physical interpretations of the future. The exhibition explores contemporary symbolism in 17 mixed-media works. The artists are M. Anastasia Arnold and Lee Boot of Baltimore; Paul Bucanen, Chris Chervick and Cheryl Peterka of New York City, and Mel Schnur, Michelle Santacross, Donna Scherene and Mariu Suarez of New Jersey.

Photography exhibit
The work of three women photographers will be shown in Gallery One, Life Hall, until Dec. 1. Featured artists are Barbara Belli, Meun Bouricius and Angela Carino. An opening reception will be held Thurs., Nov. 6 from 7-9 p.m.

"Unlimited Laughs" weekly at The Feedbag
Every Sunday night is comedy night at The Feedbag, 36 Broad St., Bloomfield. MSC students Danny Ezra emcees the show, which he created as an outlet for rising professional comedians and acts. The show includes stand-up comedy, impressions, juggling and magic. Another feature is the Mental Floss improv group, who turn the audience's ideas into comic skits. The weekly comedy show begins at 7 p.m.

Making of Sun City
"Sun City," a new film, opens at the Studio Playhouse on Fri., Nov. 14. The film directed by John Driver and Jeffery Haddow is the sequel to "Scrambled Feet," and it features the same cast. The film is about a group of high school students who open a new restaurant, and they are divided into two teams, the positive and the negative. The negative team is led by a woman who is not interested in anything positive, and the positive team is led by a woman who is positive about everything. The film is a musical, and it is a parody of the real world. The film is a musical, and it is a parody of the real world.

The Feedbag also welcomes auditions from aspiring performers. For directions and further information, call 734-7208. Bring this article for directions and further information, call 734-7208.

What's What
in MSC sports

MSC finished the 1986 Fall baseball season with an impressive 16-3-1 record.

After their fourth straight World Series appearance last Spring, the Indians looked this fall to replace eleven seniors including All-Americans Lou Blanco and Tim Johnson. Fortunately, coach Kevin Cooney has a strong nucleus from last year's 36-11-1 Regional Championship club.

The big story was the emergence of sophomore John Deutsch as one of the premier hitters in the east. The 6-5, 225 lb. Deutsch clubbed four tape-measure home runs in only 13 MSC games. Deutsch moved to the outfield from first base for the Indians and responded by batting .410 with six doubles and fifteen RBI's.

"John has the potential to be an outstanding college player and should be a top prospect for major league scouts," said Cooney.

MSC's pitching looks to be in good hands for this spring. Returners Brian Cheswick and Jeff Vanderoef had outstanding falls. They, along with All-American Anthony Foti, should make up a starting rotation capable of propelling MSC into the playoff picture again.

Newcomers who made an impact this fall included outfielder Stan Alston, a transfer from St. Leo College, who led the Indians with a .472 batting average. Sophomore Vinny Mann moved up from the JV to hit .326 and play himself into contention for an outfield spot. Pitchers Gary Murdoch, a transfer from County College of Morris, and Brian Devins, a freshman from Mt. Olive High School, were impressive and will add depth to an already fine staff.

"Repeating as NCAA Regional champions is our top goal," says Cooney. This fall's 16-3-1 is the first step.

Trivia Time-Out

Each week, the Montclarion will publish a list of sports questions and answers to test your knowledge of sports trivia.

If you think you have the right answer to the stumper, drop it off at The Montclarion, Room 113 in the Student Center Annex. The names of those who submit the correct answer will be published in the next week's issue. Deadline for submissions is Monday at 3 p.m. So start working and get into those trivia books.

1. Where was the United States Amateur Hockey League founded?
2. What pair held the world record figure skating (roller skates) championship from 1965-67?
3. What country won the first rugby championship?
4. Where were the 1968 world softball championships held?
5. What was the first thoroughbred horse to win a million dollars?

This week's stumper:
Who won the 1967 American League pennant?

Answer to last week's stumper:
Who was the first black jockey to win the Kentucky Derby?
Bill Jordan.

Submitting the correct answer was:
Bill Boared, Steve Ambrose, Phil Packer

Where are MSC’s sports loyalties?

The Montclarion’s sports department, in an exclusive survey, wants to find out who the favorite baseball, basketball, football, and hockey teams are on campus.

It’s simple, too! All you have to do is fill out the information below, clip out this coupon, and send it to:

The Montclarion
Room 113- Student Center Annex
Montclair State College
Upper Montclair, New Jersey 07043

If it's more convenient, drop off the coupon in The Montclarion’s special box located in front of our office or send it to us through inter-office mail.

The Montclarion will run this survey until Friday, November 21st, so stand up and be counted!

Football team reounds, dismantles Trenton, 54-3

By Perry Schwarz

Records were made to be broken and Walter Briggs followed that adage on Saturday evening. Briggs, who threw for 225 yards against Trenton, became the all-time leading passer in MSC's history, the senior quarterback has 6,519 yards to date (2,072 this season).

He broke Mark Casale's record of 6,096 set in 1983. However, Briggs has mixed emotions about the accomplishment. He was glad there wasn't a lot of hype about the record so he could concentrate on football. However, he feels he should receive the same recognition that Casale received when he set his mark.

"When Mark became the first quarterback to pass 5,000 yards in New Jersey, there was talk all over the state and rightly so," Briggs said. "When I was at the verge of breaking the record I feel the team and I should have received more than a one sentence write-up. We should have got the same amount of coverage as Mark did."

Briggs attributed his success to Casale and a few other people. He said Casale taught him things that were beneficial as the years progressed. Briggs also took note of the players and coaches that helped him achieve the status he has.

"There were a lot of people that were of a big help to me in achieving this honor," Briggs said. "First, my receivers Ed (Chavis), Bryan (Scipio), Amood (Field), Tony (Sweet) and Van (Johnson) were helpful. They are the guys that came up with the big plays when we needed them."

"Also, credit goes to the offensive line. I owe a big part of my success to them. They went out week after week and protected me. They should share in this honor also," he said.

The main person Briggs mentioned was the little man in blue- offensive coordinator Charlie Cocuzza. He said Cocuzza is an offensive genius. Briggs learned the game of football more in four years of college than he did in high school. Briggs noted his mind was mentally strong about the game because he knows what he and the other players are doing on the field constantly.

The coaching staff is very happy with the senior's achievement. A big part of the offensive system allows Briggs to highlight his skill. Rick Giancola said he has come a long way in three years.

"This record is a big achievement for Walter. The record he broke belonged to a person that was drafted to the National Football League," Giancola said. "We are also happy because it's not every day we have record-setting quarterbacks in our program and it's not over. He will add to those records."

Briggs said he is going to keep doing what he has been doing. He said he can play in the NFL and if he keeps setting records there is no way he can be missed by a scout.

"I would love to play professional football, but there is a lot involved to do it. I know there's a spot for me out there somewhere," Briggs said. "All I want is the privilege and opportunity to play. Mark got his chance and I want the same."

Briggs described the team attitude as a family atmosphere this season. He said it didn't feel this way in the past. He is close with many of the players on the field and off.

Giancola noted a few changes in Briggs when he first came to MSC as a freshman. He didn't believe in the potential he had. He saw his potential develop, but didn't know how to handle it. Briggs learned to control his ability and use it effectively. Lastly he has been consistent in the things he does on the field. Briggs is a leader. Although, he isn't a vocal one, he expresses himself when he is out there with the football.

With all this attention, and accomplishments, what else could there be for the senior quarterback with the rifle-arm do?

"There have been a lot of good things that happened to me, but I want the ring!" Briggs demanded. "I want to get myself a gold ring and not the one I bought for myself - I want the ring!" Briggs demanded. "I want the ring!"

Right Moves' are a few. However, I want to people remember me for.

With all this attention, and accomplishments, what else could there be for the senior quarterback with the rifle-arm do?

"There have been a lot of good things that happened to me, but I want the ring!" Briggs demanded. "I want to get myself a gold ring and not the one I bought for myself - I want the ring!"

INDIAN NOTES: Doug Butler, who played at Princeton, is the leading passer in New Jersey. He broke Casale's record with 7,291 yards. Briggs needs 772 yards to become the all-time leading passer in the state.
