Psychological ‘tool box’
key to success and sex

By Joanne Barclay
Staff Writer

Dr. Joyce Brothers lectured on “Success” and provided the audience with “a psychological tool box” to achieve success.

To begin her list of “tools,” Brothers stated the significance of revealing “signs of body language and small symbolic escape movements.” “Fogging can be a sign depending on what is forgotten,” said Brothers. An example is the boyfriend, who makes an introduction, and forgets the name of his long-time girlfriend. Brothers’ commented that this situation gives one insight into the important “picture of which way the emotional and intellectual wind blows” in a given relationship.

Brothers moved onto the topic of learning. “Learning is not only for the young. If you are bright you can always become brighter.” One “goal gradient” premise is that of competition increasing work performance. Brothers’ various learning techniques were the chrono-biological identification and memorization methods.

Chrono-biological identification involves discovering the time of day your body works best and using that time for specific activities. Body processes are also related to this energy cycle. Brothers suggests that since sex hormones are on a half-hour cycle, if your lover ‘has a head-ache’ one night, wait a half hour and try again.

The most effective memorization technique for retention and long-term memory, is the “recitation” or reading aloud method, according to Brothers. For short term retention, the greatest success is attained when the new learned material is immediately followed by sleep. However, more than 4 hours of sleep is necessary.

Brothers’ additional advice towards successful “goal” graduation was the importance of objective realization. “Goals need not be unattainable if you approach them in the right way,” she said. Brothers stated, “Small daily advances can be made, even on a bad day,” and it is important to “lower your standards and reward yourself along the way.” Brothers cautioned, “If you think you see the light at the end of the tunnel, just make sure it’s not an oncoming train.”

In conclusion, the audience took two quizzes on their “love lives and their understanding of the opposite sex.” Brothers’ later elicited chuckles from the audience when she commented that rather than living together, young couples could better evaluate their compatibility by “borrowing someone else’s child” for a while.

A question and answer period followed the quizzes. When asked if it was possible to love two people at the same time, Brothers responded, “Love is not like a pie with a larger piece for one person and smaller piece for another. While this love is possible, caring for another person’s happiness does not allow the second love to develop.” During the lecture, Brothers emphasized “Love takes a long time to develop.” At the conclusion, she left the audience with an optimistic note. According to Brothers, when surveyed, 1 out of 6 married couples were found “to have relatively feelings of deep romantic love. This durability of loves gives us important goals” for our relationships.

Congresswoman to deliver commencement address

United States Congresswoman Marge Roukema (R-Fifth) will give the Commencement Address and receive an honorary degree at May 28 Graduation exercises.

Roukema received a Bachelor of Arts degree from MSC and did her graduate work at the college. She was elected as representative of New Jersey’s Fifth District in 1980 and gathered large voter support in three subsequent re-elections. The Fifth District includes portions of Bergen, Passaic and Sussex counties in northern and western New Jersey.

While in Congress, Roukema has led the effort to control growing deficits and federal spending. She also worked to foster fairness in government-sponsored programs in education, student loans, job training, child support, environmental issues, and welfare.

She serves as a member of the Education and Labor Committee and the Banking, Finance and Urban Affairs Committee. Roukema is the ranking Republican on the Select Committee on Hunger, where she is currently the only woman in either party in the House or Senate to lead a committee.

Roukema is credited with protecting the Guaranteed Student Loan Program for low and middle income families and saving $3 billion in the program over three years. She also helped prevent $2 billion of extra Pentagon spending from being added to the Defense Appropriations Bill.

A repeal of income tax withholding on interest and dividends was successfully co-sponsored by Roukema. She wrote a fundamental pension law reform and sponsored legislation to require accountability in Congressional pay raises. The Roukema Amendment to the Job Training Partnership Act ensures that training under the act is linked to existing and expanding private sector job opportunities.

Roukema has written amendments to legislation connected to the Federal Food Stamp Program that closes loopholes in the system and protects the benefits for people in need of programs such as New Jersey’s “Lifeline” program.

Roukema is a lifelong resident of Ridgewood and served in many community activities prior to her election to Congress. Her community services included a trustee seat for the Leuke­mia Society of Northern New Jersey, the Family Counseling Service of Ridgewood and Spring House. The Family Counseling Service is a residential treatment center for women recovering from alcoholism.

SGA opposes Reagan's education budget cuts

By Mike Heelan Staff Writer

A resolution opposing President Reagan's proposed federal financial aid budget cut of $3.9 billion, or 45 percent, was approved unanimously by the SGA legislature.

If passed, the bill would be effective for the fiscal year 1989. These cuts would completely eliminate the Federal College Work Study Program, the Supplemental Education Opportunity Grant, the National Direct Student Loan and Pell Grant Programs.

An estimated 500 MSC students currently eligible for these types of aid would no longer receive assistance. This would ultimately leave the student to find alternate means of financing his/her college tuition.

The SGA has initiated a letter-writing campaign addressing their concerns of this matter to members of congress. Bob Helland, SGA external affairs chairperson said, "The SGA has taken the initiative and now it is up to the entire student body to fight for what they still have."

In other news, the annual Sports Intramural Leisure Club (SILC) volleyball marathon will be held tomorrow, April 24, in the Panzer Gym. The matches will begin at 4:00 p.m. and last until 2:00 a.m. Several student organizations are participating in an effort to raise money for the multiple sclerosis foundation. All student are welcome to attend or tune in to WMSC-FM, 101.5 for play-by-play action.

The International Student Organization received $410 from the Mass Transit Account (MTA) for their trip to the Statue of Liberty and the Empire State Building on Sun., Apr. 26.

Lastly, The Montclarion received a first class rating from the Associated Collegiate Press. The paper has a mark of distinction in editorial/opinion pages for the 1986 fall semester. TheACP rates college newspapers from first class to fourth class. Newspapers receiving four marks of distinction are considered All-American.

Public forum on "Teenagers in Crisis"

MSC announces its second Public Policy Forum, "Teenagers in Crisis." The Forum, scheduled to begin at 7:30 pm on Tues., April 28, will examine the mounting social and psychological problems confronting young people.

For some students, an ideal summer job is one that exposes them to the "real" world of work: a job that is career-related. For these goal-oriented students, a career-related summer experience can provide the time and opportunity to explore job possibilities that are being considered for after graduation.

If no formal examination is scheduled, the class must meet for one hour during the regularly scheduled examination period. Ail final examinations must be given during the regularly scheduled examination period.

Policy on final examinations

All final examinations must be given during the regularly scheduled examination period. The Schedule of Courses lists days and times of final examination for each class period.

If a formal examination is scheduled, the class must meet for one hour during the regularly scheduled examination period. For all classes, examination is scheduled for each class period.

Define interests in career-related fields

For some students, an ideal summer job is one that exposes them to the "real" world of work: a job that is career-related. For these goal-oriented students, a career-related summer experience can provide the time and opportunity to explore job possibilities that are being considered for after graduation. For students whose goals are not so clear, a career-related summer job in an area of possible interest can help to define interests and resolve concerns.

Career-related summer jobs exist in business, industry, government and recreation. Students can locate these specialized jobs that match their interests through the Free Computerized Job Matching Program. "Real" jobs are often part of the hidden job market - that 85 percent of the job market that is never advertised, but students can have access to those positions by using the many resources of Career Services. "Job Hunt" is a special seminar designed to show students how to uncover that hidden market. Internships are a special kind of "real" summer jobs. Internships are learning experiences, extensions of classroom education. They can be paid or unpaid. Internships offer a way of beating the old standard "no experience, no job." They provide the opportunity for students to explore their chosen career and to practice theories learned in the classroom.

Origins of the American Constitution

The MSC Department of History will culminate celebration of the bicentennial of the American Constitution by inviting one of the country's leading experts on the Constitution, J. H. C. Hanbidge, to the college on Wed., April 29. Wood will teach an afternoon lecture on "The Origins of the Constitution."

The lecture, at 7:30 pm in Kops Memorial Lounge, Russ Hall, is open to the public free of charge.

For further information, contact Dr. Joel Schwartz in the Department of History at 201-893-7652. He is the campus coordinator for this event.

19-day tour to China

Visit China Aug. 11 - 28 with Ellen Mohammad who conducted 17 winter session tours on her 12th Study Tour to China. Students can earn 3 - 6 graduate or undergraduate credits in independent study. The tour is available to students from other colleges and universities. Credit is transferable. All persons welcome.

The cost of the tour is $2450, which includes round trip air fare New York to China. Tours in all cities listed, intercontinental travel from one city to another, hotel, three meals daily in China. Travel tour to Tibet is also available.

For further information contact Prof. Ellen Mohammad at 217 Callicle Hall, phone 893-7283 or (212) 778-9417.

Women's Fare at MSC

The physical, mental and emotional dilemmas faced by women daily will be discussed during the Women's Fare sponsored by the Women's Center at MSC on April 28, 29, and 30.

Two MSC graduates and one MSC female student will present a panel discussion on "Teenage girls today." The panel will include Tanji Willett, a former Miss America and planetarium director; Tina Tavet, a former Miss American and clinical psychologist; and Cheryl Brown, a former Miss America and planetarium director.

More information about this Forum, or the Public Policy Forum series in general, is available from David O'Brien, assistant to the president, by calling 201-893-7199.

What's for Dinner?

Three white males were arrested and charged by Sgt. Call for trespassing and theft. At 12:43 a.m. on April 17, they had entered Memorial Auditorium, removed a fire extinguisher and sprayed outside the building. The men proceeded to Calcia Hall and removed another fire extinguisher.

On April 19, someone damaged the door to fourth class. Newspapers rates college newspapers from first class to fourth class. Newspapers were missing.

A $40 electric pencil sharpener was stolen from a $40 electric pencil sharpener was stolen from the MSC Department of History office on Tues., April 10.

The International Student Organization received $410 from the Mass Transit Account (MTA) for their trip to the Statue of Liberty and the Empire State Building on Sun., Apr. 26.

Linda Longo Staff Writer

A 1968 Pontiac Trans Am, valued at $14,000, was stolen from lot 13 between 10:30 a.m.-9:00 p.m. on April 15. The car was recovered by Paterson Police the next day. That same day, a 1976 Chevrolet Camaro had been broken into in the same area. A stereo and a CB radio, valued at $365, were missing.

On Apr. 21, Campus Police escorted a MSC male student out of Bohn Hall after he became abusive and threatened a desk assistant and a RA. The student had been upset having his car on April 15. However, when the student returned to his car April 20 was entered by removing the door.

Invite you to

CAREER DAY

Sunday, April 26
11:00 AM - 1:00 PM
YM-YWHA of Metro, N.J.
760 Northfield Ave,
West Orange, N.J.

Meet and discuss career opportunities with alumni representing various professions. Also Margaret Jacobs, Director of Career Counseling and Psychological Services of Jewish Vocational Service will address career concerns and issues relevant to college students today.

Coffee and danish will be served.

Alliance of Jewish Student Organizations picnic to follow at Mayapple Hill North at 1:30 PM.

For more information please call 642-1922.

JSU is a Class 3 Organization of the SGA.

If you are looking for a career in finance, this short test can be the most important one you take before you graduate:

TRUE

□ You are a highly motivated, aggressive individual.
□ You're looking for short term potential for high income.
□ You want long-term growth opportunities.
□ You need a fast-paced, energetic working environment.
□ Before you take your last summer vacation, you'd like to know you have a job to come home to (or begin right away).

We are a young, aggressive investment banking firm ready to train highly motivated graduates seeking a career in financial sales. Benefits include: continuing education for a NASD license, salary plus commission and excellent health benefits.

We are scheduling immediate interviews. If you answered "TRUE" to the above, call or write:

Mr. Eric Ratner, Vice President
Financial Northeastern Corporation
1129 Bloomfield Avenue

ACCOUNTING MAJORS

Do You Know Us?

We conduct audits at most of the Fortune 500 companies.
We employ 4,000 professional auditors.
We issue over 50,000 audit reports annually.
We have 420 field offices throughout the United States and overseas.
We have our own technical training institute where over 3,000 auditors receive training annually.
We use state-of-the-art microcomputers and software programs in audit applications.
We are the largest audit agency in the Executive Branch of the Federal Government.
We saved the government some $7.5 billion in 1984 or about $48 for every dollar spent.
We will hire over 1,500 auditor trainees in 1987 for our expanding work force.
We offer:
Meaningful responsibility
Professional training
CPA coaching courses
Diversified experience
Career ladder promotions
Flexible work schedules

We are the Defense Contract Audit Agency

Our representative will be on campus Wednesday, April 29 at 11:00 a.m. at the Student Center Annex, Room 104

"Death to literacy!" they proclaimed as they rode off into the sunset...Alright, the plain truth is that we lost the answers. The Montclarion would like to apologize for any inconvenience this may have caused.

**School Daze**

by Jim Dale

**... WE HAD EACH OTHER...**
Could this be the end of our aid?

Ronald "Let's Cut Education" Reagan is at it again. The President has proposed a federal financial aid budget cut of $3.9 billion, effective fiscal year 1988. These cuts would mark the end of the Federal College Work Study Program, Supplemental Education Opportunity Grant, National Direct Student Loan and Pell Grant programs.

Bringing this closer to home, 500 MSC students receiving aid will be left without it next year. This does not sit too well considering the college's Board of Trustees is proposing a 10 percent tuition increase effective next year.

So, once again Reagan has shown his preference towards spending in the Middle East (and Central America) rather than on America's future. Maybe he should look to clean up his own backyard before looking at others'. Reagan should take a little advice from Matthew, Chapter 7: "...how can you say to your brother, 'Let me take the speck out of your eye,' and behold, the log is in your own eye? You hypocrite, first take the log out of your own eye..."

Who does Reagan suppose is going to do all the work at colleges without the College Work Study Programs? Their positions will be left for the colleges to fill, costing the schools more money. Therefore, it will cost the states more money. This seems to be right in line with Reagan's policy—cut and cut, then leave it up to the states to make up for the losses.

Reagan says he's interested in building for the future. But what kind of future will America have if no one can read? A bleak future indeed lies ahead if more cuts in education occur. College will become an institution for the elite groups in society—the richest and the poorest. The middle-class, which depends on America's future, will be left in the cold.

Maybe if this generation really did something now it could affect a change before it's too late. The reason it has been so easy for Reagan to make wholesale cuts in education is because, as a group, we do not make a fuss; we do not vote. Our voice is less than a whisper in the government.

So, what can we do? The SGA is organizing a letter-writing campaign and is circulating a petition to be sent to New Jersey Senators Bill Bradley and Frank Lautenberg. The SGA has taken a big step in affecting a possible change.

In addition to this, on page 13 you will find a form letter The Montclarion has written for you to sign and send to Bradley and/or Lautenberg. This is our opportunity to ensure future opportunities. Don't pass up the chance.

Welfare is not a dirty word

I can not think of another word that provokes as much self-righteous indignation as welfare. Well, maybe communism. If you don't believe me, try this the next time you go out. Walk up to a person you've never met before and ask him what he thinks about welfare. Go ahead, I dare you.

I'll bet that person would say something like this: "Why should the government hand out my tax money to some lazy jerk who probably never had a job in his/her life?" Just the mention of welfare creates the image of a person who is content to live his/her life from hand to mouth, going to the welfare office on the first of each month and blowing the money on crack for the next 30 days.

And politicians are aware of the symbolic value of the word welfare. They associate Aid to Families with Dependent Children (for example) with waste and dependency. They then blame these problems on the welfare recipients themselves. Thus, cutting funds becomes bloodless—after all, who would object to taking money from cheats and liars?

Recently though, I was reminded that there is another way to define welfare in this country. Frances Fox Piven, in giving this year's Sheldon Polack lecture, described the expansion of social welfare programs in the '60s and '70s as "achievements" toward a more "human" society.

She said that waste was attributed to inefficient administration; that attention should be paid toward reforming the system, not eliminating it. The theory that welfare causes dependency is false; in fact, people who receive social welfare benefits want a job with a rewarding salary that provides them with a sense of pride as much as any American does.

Regardless, welfare remains a dirty word. The W word is not discussed in most social circles. In fact, the only time one hears the W word mentioned is always in reference to third parties—"Oh Henry, we work so hard for our money, not like those people on welfare." The W word is not one a polite person would use in front of his mother, especially in the interrogatory form—"Mommy, did you cash the welfare check today?"

Ironic, isn't it, that those who have controlled the welfare debate for the past six years have been those least willing to improve the system. American minds have been captured by a conservative ideology—that the poor are poor because they deserve to be. When a whole class of people are dehumanized, society frees itself from the responsibility of caring for the well-being of that class. Welfare was intended to carry out this responsibility—it was never intended as a dirty word.
Two aware students differ with ‘Limbo’ editorial

To the Editor:

I disagree with your editorial entitled “MSC Campus is Stuck in Another Limbo Period” (April 16, p. 8). There is a lot to look forward to, and to complain about, but I will leave the complaining for another letter.

Some upcoming events to look forward to were advertised in the same issue of the paper in which the apathy editorial appeared. Future events include:

- Earth Day ’87 (April 21—23)
- Lecture by Dr. Eva Fleischner (April 22)
- Drop-In Center Open House (April 27)
- Balloon Launch
- Spring Week
- Women’s Fair
- Carnival (April 31—May 2)
- Senior Banquet

Commencement

I am certain if one were to look at the Datebook column and at the monthly calendar published in The Montclarion, one would find even more to become involved in.

I have heard that the MSC student body is apathetic. Even if that is true, the school newspaper should not also fail victim to apathy. A journalist has an excellent opportunity to arouse interest and generate action—too bad The Montclarion missed this chance to make a positive impact on the campus community.

Mary Halasa
Senior/psychology

To the Editor:

In reference to the April 16th editorial entitled “MSC Campus is Stuck in Another Limbo Period,” may I venture to say that your writing is in that “limbo” period, not MSC.

I am sick of hearing petty comments about how “apathetic” our student body is and there isn’t an awful lot to say.” There is a lot to say! Just turn to page two in that same issue. Class One Concerts is sponsoring “The Smithereens”; on page 4-the Conservation Club is planning “Earth Day”; on page 5-Drop-In Center Open House; on page 6-CLUB is showing the movie “Top Gun.”

Now turn to the back page, the “sports calendar” offers many fine events including the baseball, lacrosse, softball, track, golf, and tennis teams. HRO is presenting their “quest workshop” and the Women’s Fair.

Must I go further? I will. In my opinion, one of the most exciting events at MSC is just around the corner—“Spring Week ’87,” the Campus All-Providing a fun filled experience for those who attend.

Attend, I stress, for this is the problem on this campus, but it’s not mine. Throughout my four year stay at MSC, I have attended the concerts, the films, lectures, movies, Lip Sync, “Jeopardy”, “Dating Game,” comic acts, debates, guest speakers, “Homecoming” and “Spring Week” events, and finally the Rat every Thursday night. These will and have provided me with laughter, joy and memories to look back on.

You see, the apathy is not contained within the student body as a whole, it is contained within the individual student. It is the college student who creates his own image and memory of MSC by attending the special events, joining a club, sorority, fraternity, or organization on campus. College life is what you make it!

Those who do not care or do not get involved are missing out. So, why worry about limbo and apathy while there is a heaven and happiness right here at MSC.

I too had a poor attitude about our campus until I attended my first concert, my first party, my first sorority meeting. I also will have the privilege of attending the most serious and meaningful event on campus, the May Commencement Exercises, which I know for me will not be the end.

LASO thanks all who helped to ‘Spread the Latin Fire’

To the Editor:

Another “Latin Week is history for the Latin American Student Organization (LASO). I would like to use this opportunity to thank a few people among the staff, administration and students that provided input, support, and hard work into making “The Latin Fire Spreads” at MSC. I should start by thanking the members of LASO, the Latin Week Committee and our advisors for their diligent, unselshless and motivated attitudes throughout the whole week. A few of these people include Kirsten Cipri, Mayra Rosa, Yvonne Bermudez, Alicia Munoz, Dalisy and Uzette Valentin (the twins) Yolanda Riron, and Carolyn Vachier. Special thanks go to Johnny Rodriguez, Jose Gonzalez, and Juan Taveiras for their efforts in many of the areas surrounding Latin Week.

I would also like to thank Mark Brancato and Mark Skrabonja for their SGA efforts in accommodating us in tight situations and for their presence at the activities. Also the Black Student Cooperative Union, Class I Concerts and The Montclarion deserves thanks for programming assistance, as well as the other Class I organizations of the SGA for their constant support. It was great to see each organization pull for us.

In addition to the students credit goes to Student Activities, Dean James Harris, Camille Bartlett, Bob Gieza, Food Service Special Functions, Bob Risk, and Carol Santiago who worked every special event during the week; Kristin Brooks, who photographed the entire colorful week for LASO; MSCs media and duplicating centers; campus police; Residence Life; the Alumni Association; Student Affairs, Dean Ed Martin; the Admissions Office, Rich Alvarez; and Father Art Humphrey.

Sincere thanks and appreciation go to all those people for their continued and devoted effort.

Finally, I would like to thank the entire student population for their interest in Latin Week and for attending the events. Without these people there would be no need for this event. As a footnote, LASO will be selling the “Latin Fire Spreads” T-shirt during Spring Week ’87. Look out for LASO and the shirts because they are hot!

Just about everyone has heard of the Neighborhood Crime Watch Program: an organization where people watch their own turfs for criminal activity. In fact, it has become so popular that Warner Brothers decided to make a movie about it. The result could be described as off-the-wall hijinks. In addition to their cops? They ham it up, using too many predictable jokes and wisecracks. maturity humor and less on boring antics. These include hanging from trees, vandalizing locker rooms, dressing up as voodoo sorcerers, and pursuing adolescent skateboard lovers. They even play Simon- Sez with inmates alongside almost to the very end. There are not much better. What’s worse is that the plot drags along almost to the very end. There is absolutely no suspense, thrill, or anything closely resembling excitement. You just sit in your seat waiting for something interesting.

One problem is that an excessive amount of time is spent with the citizen’s patrol in training and little time is shown with them out on patrol. This reduces the possibility of action. The training phase is dull, thanks to all the predictable jokes and wisecracks. The plot could use an entire overhaul entailing more emphasis on action and mature humor and less on boring training sessions and corny remarks.

What about the rest of the lunatic cops? They har its up, using too many off-the-wall hijinks. In addition to their stupid grunting noises and their obnoxious use of bodily functions (to put it mildly), they perform such childish antics. These include hanging from trees, vandalizing locker rooms, dressing up as voodoo sorcerers, and pursuing adolescent skateboard lovers. They even play Simon-sez with inmates awaiting trial behind bars. Unfortunately, the citizens who patrol the city aren’t much better.

Dear Senator:

I would like to make you aware of the proposed educational budget cuts for the 1988 fiscal year. As a student, I oppose any such action; it will be extremely detrimental to the education of all students. If passed, the proposed cuts would deny some students the opportunity to receive a higher education.

I believe America is the Land of Opportunity and a higher education should not be denied to any person.

I strongly urge our New Jersey representatives to vote against the President's proposals.

Sincerely,

Racqueteers victorious

By Roy Nelson
Staff Writer

The MSC tennis team had no problem in disposing the Jersey City State Gothics Tuesday, sweeping the event, 9-0.

John Trinity won the first singles match against Curvi McMurray 6-2, 6-4 to start the rout. JJ Martinez defeated Warren Kongchatree 6-1, 6-1 in second singles. Trinity and Martinez teamed up in first doubles to defeat McMurray and Kongchatree 6-3, 6-4.

Joey Caputo won the third singles match over Vinny Khanna 6-2, 6-2. Peter Shrambron won a three-setter from Gothic Gary Snithin after losing the first set, 4-6, 6-2, 6-3.

Caputo and Schrambron then defeated Snithin and Khanna in second doubles, 8-2.

Rich Pastor shut out Louie Rodriguez 6-0, 6-0 in fourth singles. Mark Lasale won 6-2, 3-6, 6-0 over Lester D’Costa. Pastor and Lasale then defeated Joe Racelis and D’Costa in third doubles to complete the sweep, 10-7.

DeAquino tosses another O-hitter

cont. from p. 15

The Pioneers, who got a three-RBI performance from Cheryl Stetz, fell to 7-12 with the loss.

MSC 4-So. Connecticut 1 (1st)
MSC ace Dina DeAquino won her eighth game in 10 tries in the opener of a doubleheader last Wednesday against Southern Connecticut, 4-1.

But DeAquino winning isn’t exactly unexpected. Then again, the fact that she threw a no-hitter doesn’t come as a surprise, either. Wednesday’s was her third of the season.

Marge Theobald singled, doubled and scored twice to provide the Indians and DeAquino with all the offense they needed to claim victory.

So. Connecticut 4-MSC 1 (2nd)
So. Connecticut turned the tables on MSC in the second game of the doubleheader in New Haven, winning 4-1.

MSC was four-hit by So. Connecticut pitcher Shawn Danielson. Andrea Peters had two of those hits and drove in the Indians’ lone run. So. Connecticut went to 13-10 with the win.
Levinskas record leads MSC in Saturday’s Rutgers Relays

By Jim Nicosia
Editor-in-Chief

Jessica Levinskas placed third in the 10,000-meter run to highlight the MSC women's track team in the Rutgers Relays this weekend. If she can top 37:41 today at the Penn Relays, Levinskas will qualify for the National Collegiate Athletic Association (NCAA) national tournament.

"This was an outstanding performance," said MSC head coach Michelle Willis. "This is Jessica's first time running a 10K on the track. She's only run this distance four times this season because it is not an event run at every meet."

Regina Ladson and Kathy Drummond also represented MSC well at the Rutgers Relays. Ladson placed sixth in the long jump. Drummond took eighth in the discus.

"There is a four-place difference between the six ranked individuals," said Levinskas. "This was an outstanding performance," added Ladson. "We have to get more inner-school programs and the ethnicity mix in the United States has dropped from a high of 20 million to 11 million with a winning goal in mind and competing in a sport they love. Obviously, there are a select few at MSC majors that lift a majority of their free time."

In fact, black players such as Zina Garrison and Lori McNeil are two of the top-rated players in the world. Athletes who pave the way in professional sports enable amateurs to get a chance at the professional or major college game - in any sport.

Malaari Washington, Stacey Martin and Iulani McCall, all black amateur tennis players, are three top-ranked players. They all belong to private tennis clubs or take regular lessons from a private instructor. That is a change from the public park recreation programs. These type of tennis lessons are responsible for developing McNeil and Garrison into professional stars. They both began their careers in Houston. A survey has revealed that the tennis-playing base in the United States is being hindered, we now live in a society where it is at least possible to overcome the hindrance. In the end, all that matters is that you have the talent and tools needed to succeed - inside.
### Split with ninth-rated Eastern Connecticut

**Seventh-ranked Indians win one in NJAC, lose to Rutgers**

By Kenny Peck
Staff Writer

**Rutgers 4-MSC 3**

The Indians took a 3-1 lead into the sixth inning on a Leroy Horn RBI double and a two-run single by sophomore Fran Maggio. The Scarlet Knights, however, scored two in the sixth and one in the seventh to pull out the 4-3 victory in Piscataway Tuesday.

The loss dropped the Indians to 17-10-1 overall.

**East. Connecticut 6-MSC 4 (1st)**

Freshman Brian Devins pitched five strong innings, allowing only five hits, in leading the Indians to a victory in the nightcap of a doubleheader Saturday in Connecticut.

Devins gave up two runs and struck out one over the five innings. Junior first baseman Pepe Herrero paced the Indians offensively with three hits, including a home run and a double.

In the opener, senior Kevin Cavallo blasted a solo homer and sophomore John McClain went 3 for 4 in a losing cause.

**MSC 16-Jersey City State 3**

Senior Jim Fasano went 5-for-5, including two triples and four RBIs while Leroy Horn drove in five runs as the Indians whipped Jersey City State College 16-3 in a New Jersey Athletic Conference game at Pittser Field Thursday.

The game was called in the sixth inning due to inclement weather.

MSC opened the scoring in the first inning as Fasano singled with one out and advanced to second on a walk to sophomore John Deutsch. Junior Pepe Herrero was then issued a walk to load the bases and Horn followed with a solo shot to break the game open.

Jim Fasano connects for one of his five hits Thursday.

In the second inning, catcher Bill Deutsch led off with a double to center, Fasano walked, and Horn followed with a two-run single by sophomore Kevin Cavallo. The Scarlet Knights, however, scored two in the sixth and one in the seventh to pull out the 4-3 victory in Piscataway Tuesday.

The loss dropped the Indians to 17-10-1 overall.

**Red-hot laxmen pummel Pace, clip Kutztown**

By Dennis Campbell
Staff Writer

**MSC 8-Pace 3**

The MSC lacrosse team rebounded from a 8-6 loss to FDU to post an impressive 8-3 win over Pace at Sprague field Sunday. The Indians ran their record to 8-2, taking control from start to finish to post an easy victory.

The Indians started the game tentatively but picked up the intensity as they got on the scoreboard; Tony Petrone scored the first goal off a feed from his brother Joe at 3:40. The Indians created numerous scoring opportunities, but were unable to convert them into goals. Ed Sargent's shot was blocked by the Pace's goalie while Leroy Horn drove in five runs as he made a great bounce pass to goalie for a 5-2 edge. Ron Francisco's solo blast left and shot right to score to give MSC a 7-2 lead. Derrick Godfrey but the shot was wide.

Pace slowed the tempo of the game by going to a deliberate ball-control offense, the strategy proved successful as they scored to creep closer, 4-2. With both teams locked in a defensive struggle, the score remained unchanged for the first half.

Limite took over from where he left off as he made a great bounce pass to Derrick Godfrey but the shot was wide.

Limite continued his fine play as he made a great bounce pass to Derrick Godfrey but the shot was wide.

Derrick Godfrey to give MSC a 2-0 lead. Joey Petrone picked up loose ball and went coast to coast to set up the third goal. The Petrones went coast to coast to set up the third goal. The Petrones got into their scoring act again with Joe getting the assist from Tony running the total to 3-0.

The Indians reasserted themselves but failed to convert on scoring opportunities. Limite continued his fine play as he made a great bounce pass to Derrick Godfrey but the shot was wide.

The Indians reasserted themselves but failed to convert on scoring opportunities. Limite continued his fine play as he made a great bounce pass to Derrick Godfrey but the shot was wide.

His overall record is not indicative of their talent,” he said. “They play a very rough tough, with most of their games against Division I schools. Traditionally, though, they have always played us tough.”

Last year, Kutztown used its speed to wear the Indians out in the second half. This year, said Reinoso, was different.

“This time the key was our transition game. We moved the ball quickly,” said Reinoso. “We picked up a few loose balls and made quick passes.”

Tony Petrone paced the Indians with three goals. Joe Petrone had two. Derrick Godfrey, George Limite and Pete Franklin each had one goal.
